"If we prohibited the use of tobacco, such a law would become a dead letter."

The Premier stated that, in any event, it was too late to bring in novel legislation. Parliament, he hoped and believed, would prorogue early in April. He believed this could be accomplished with the help of kind Providence.

Vast Amount of Hysteria.

Dr. Black (Liberal, N. S.) said cigarette smoking undoubtedly injured children, yet there had been published a vast amount of hysterical literature on this subject. The habit was more prevalent among children than we supposed. So long as a father smoked a pipe or a cigar, so long would the boy imitate him, by smoking a cigarette.

The doctor went on to say that the great evil of Canada was the slaughter of the innocents. Half the children born in Canada died in infancy; as a rule, through indigestion, caused entirely by the ignorance of their parents.

"Why does the Government, which spends money in conserving the health of domestic cattle, spend something in conserving the health of human citizens?" he asked. "This Government pays more attention to raising a bull calf than it does to raising a baby boy."

Hon. Sydney Fisher said the principle embodied in Mr. Blain's resolution had been adopted by the House in 1903.

"We should aim, if possible, to make the principle of some effect," he said, "but will such legislation do any good? It might. As a matter of principle I am opposed to the use of tobacco in every form. Nevertheless, I could not support the resolution, because it is too late in the session."

Mr. Monk's Amendment.

Mr. Monk offered an amendment calling upon the Government to introduce legislation against the use of cigarettes by or the sale of cigarettes to minors under the age of 18."

Dr. Barr said such a law already existed in Ontario. It did some good, but more drastic legislation was needed.

Mr. Monk then moved that "the question be now put."

It being three minutes to six, Mr. Hughes talked the entire subject matter out, thus saving the Government the embarrassment of a vote.

Advocates Free Ports.

Mr. Wright (Renfrew) resumed in the evening the adjourned debate upon the transportation question. He favored making Montreal, Quebec, Halifax and St. John absolutely free ports. He claimed that Montreal had not the proper facilities for handling grain when it arrived from the west. This condition, he hoped, would soon be improved. He urged the building of the Georgian Bay Canal; that canal would regulate railway freight rates better than any act of Parliament.

Sir Wilfrid Laurier stated that he expected the session to end quite early in April.

During the question hour the House learned that $845,167 has been paid up to date as bounties upon crude petroleum, and that iron and steel have been produced in Canada to the amount of 1,227,531 tons.

PILES Dr. Chase's Ointment is a certain and guaranteed cure for each and every form of itching, bleeding and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. 60c, at all dealers or EDMANSON, BATES & Co., Toronto.
DR. CHASE'S OINTMENT.

Water Famine In Montreal.

Montreal, March 5.—A serious situation has been created by the breaking down of the Montreal waterworks pump.

Many householders are unable to obtain water and it is feared an epidemic of sickness may result.

TO USE SUEZ ROUTE.

Vancouver Lines to Be Auxiliary to Fast Service.

London, March 5.—Owing to irregularities the New Zealand Government will use the Suez routes for mails until further notice direct, and the Vancouver lines as auxiliaries.

The Canadian Associated Press understands the Manchester corporation are endeavoring to organize direct cattle shipments to Manchester. Councillor Rornby W. J. Wade sailed Saturday, and will visit various cattle centres in Canada to interview exporters and shippers.

Among those present at the King's dinner party at Buckingham Palace were Lords Strathcona and Mount-Stephen.

Press hockey match Thursday eve.

THAW'S CASE DOUBTFUL

Dr. Evan's Cross-Examination by Jerome Completed.

Five Days' Questioning by District Attorney Fails to Ensnare Alienist Into Admission That Prisoner Is Still Mad—Expert Admits Thaw Knew What He Was Doing at the Time of the Murder.

New York, March 5.—After five days of tiresome cross-examination, in which he keenly protected the interests of the defence, Dr. Evans left the witness stand in the Thaw trial yesterday, subject to recall for re-direct and re-cross-examination.

The insanity expert appears to have been quite a match for the attorney-general, who displayed so much intimate medical knowledge during his famous grilling of Dr. Wiley, the Pittsburg alienist.

But Jerome's ways are so devious and he has built up such an atmosphere of mystery as to the probable development of his side of the case, that the outlook for Thaw is regarded by a number of those who have followed the trial closely, as being doubtful.

Dr. Evans was succeeded on the stand by Dr. Charles G. Wagner of Binghamton, N. Y., who accompanied him on most of his visits to Thaw in the Tombs.

Dr. Evans admitted yesterday that Thaw had an insane knowledge of what was doing on Madison Square roof garden the night he killed Stanford White.

The New York statutes prescribe that, to be exempt from punishment for crime, an insane person must have been so demented as not to know the nature or quality of his act.

In explaining Thaw's actions subsequent to the shooting—his quiet demeanor, his directions as to what should be done with his wife, and who should be sent for—Dr. Evans declared that, as soon as the defendant shot Stanford White, the "brain storm" subsided and his senses began to re-organize themselves so that he knew quite well what he was about.

Knew What He Was Doing.

He also knew he was attacking Stanford White when he fired, Dr. Evans [illegible] man and the act was the result of insane reasoning.

Dr. Wagner also declared Thaw had irrational knowledge of what was happening on the roof garden. He believed the prisoner's insanity dated from the time Evelyn Nesbit told him her story in Paris, in 1903.

He said Thaw's condition of mind at the time of the shooting was the result of one of the insanities of adolescence. He would not further classify the next form.

MAY ASK CHANGE OF VENUE.

Cayuga Poisoning Case May Be Tried In Toronto.

Cayuga, March 5.—Everything is in readiness for the preliminary hearing on Wednesday of Mrs. Mattie Perkins, the Cayuga woman under arrest on a charge of poisoning her husband Henry. Three Hamilton witnesses have been summoned, Drs. Edgar and Bauer, and C. D. Blachford. Other witnesses from Canfield, Welland, Cayuga and the surrounding country will testify, and the hearing will likely take some days.

E. F. B. Johnston, K.C., of Toronto, will defend the woman, and application will probably be made for a change of venue to either Toronto or Hamilton, the claim being that the feeling against the woma nin Cayuga is too strong to result in a fair and impartial trial.

TWEEDIE TAKES IT.

Pugsley Succeeds Him As Premier of New Brunswick.

Ottawa, March 5.—The Government has lost no time in filling the vacant position of Lieutenant-Governor of New Brunswick. The successor of the late Governor Snowball is Hon. L. J. Tweedie, Premier of the Province, who was appointed to the vacancy at Saturday's meeting of the Cabinet.

Mr Tweedie will be succeeded in the Premiership by Hon. Wm. Pugsley, the present Attorney-General. The vacancy in the Cabinet of New Brunswick caused by Mr. Tweedie's translation will go to Hon. C. W. Robinson, the present Speaker of the Legislative Assembly, who will take the portfolio of Provincial Secretary. Mr. C. J. Osmand, one of the members for Albert County, will be Speaker.

Car Runs Into House.

Fergus, March 5.—While a train of empty flat cars was backing down the G.T.R. spur which runs through the middle of the town yesterday one of the cars left the rails on account of the ice, and ran into a stone house alongside the track, knocking in the wall. The brakeman jumped, thus saving themselves, but one of the women inmates of the house, a Mrs. Fischer, was not so fortunate. She was sitting in the room when the crash came, and was caught by the debris and her dress bound between the car and the wall. She fortunately escaped with a broken ankle. The car was thrown directly across the track, and required the Palmerston auxiliary to get it in position and repair the car breakage.

Strike In Auto Factory.

Toledo, O., March 5.—Fully 300 men employed by the Pope-Toledo Motor Works here struck yesterday. Last week the machinists' strike was declared settled, and the striking men reinstated. The latter say the company has violated the agreement.

Prison Inspector Slain.

Ufa, March 5.—Prison Inspector Kalbe was shot and killed yesterday by three revolutionists in front of his residence. One of the assassins, who was captured, said that the inspector had been sentenced because of his cruelty to political prisoners.

St Thomas Board of Education has increased the salaries of its Collegiate Institute teachers.

THE LATE CHIEF RANGER.

The Body of Dr. Oronhyatekha To Lie In State.

Toronto, March 5.—The body of Dr. Oronhyatekha arrives here at 10.50 a. m. to-morrow. On arrival, the train will be met by the executive council in a body and other members of the staff; a uniformed guard of Royal Foresters, with the band of the 48th Highlanders.

The cortege will proceed direct to Massey Hall, where it will lie in state, and on Wednesday afternoon will be viewed by members of the I. O. F. and friends. A memorial service will be held on Wednesday evening at which a large gathering of Foresters from all over the Province is expected.

At 9 a. m. Thursday, the body will leave here for Deseronto, arriving about two o'clock. The executive is not able to announce as yet whether further ceremonies will occur there. Dr. Oronhyatekha was a member of the Mohawk tribe. The funeral will take place in the old burying ground of the Mohawk Indians' reservation, where Dr. Oronhyatekha will be interred with his wife and two sons. It will take place on Friday.

POSTAL CONFAB THURSDAY.

Canadian and U. S. Officials Will Confer Over Treaty.

Ottawa, March 5.—Postal officials of Canada and the United States will discuss on Thursday the proposed abrogation of the postal convention between the two countries on May 7.

The Canadian Government objects to carrying tons of what is taken as second-class matter in the United States and not so classed here.

If these periodicals were published in Canada they would pay substantial postage.

Canada intends to exclude from the mails anything the Postoffice Department sees fit, whatever chorus of disapproval is raised.

Rodolphe Lemieux, Dr. Coulter and Secretary Smith will represent Canada.

MINER'S NARROW ESCAPE.

Dynamite Explodes As He Is Being Hauled Up Shaft.

Cobalt, March 5.—While blasting on the Cobalt Clear Lake Mining Co. property, a miner named J. A. Couvrette had a miraculous escape.

He had just placed two shots, 1 1-2 stick of dynamite, in each hole, and given the signal to hoist. There were [illegible] which [illegible] in the bucket.

There was delay in hoisting and he was not five feet from the bottom of the 65 foot shaft when the dynamite went off. Couvrette was blown ten feet up the shaft, but was still in the bucket when hauled up.

His leg was broken in two places, an ankle sprained, and bad cuts sustained on the back of the head.

Holds Railroad Board.

New York, March 5.—The coroner's jury in the inquest into the N. Y. Central wreck in the Bronx on Feb. 16, when 23 persons were killed, brought in a verdict last night, holding the operating and construction departments of the railroad responsible.

The coroner tried to get a recommendation as to the individuals, but did not succeed.

He then declared he would hold the entire board of directors and the president of the Central and patrol them until 10 o'clock this morning.

Born In the Train.

Cincinati, Ohio, March 5.—On a Pullman car attached to a Big Four train, steaming out of Delaware, Ohio, near here Sunday afternoon, Mrs. A. D. Swisher, of Toronto, Ont., became the mother of a lusty baby boy.

She boarded the train east of Cleveland, and had hoped to reach Newport, Ky., so her son might in later years boast that he was born on Kentucky soil.

The passengers collected $35 to buy the newcomer a present as a souvenir of the occasion.

Refuse Married Men.

London, March 5.—(C. A. P.)—The Glasgow Advertiser re emigration for railway construction in Canada, points out that the men's bare statement alone, taken as to whether they are married or not, will result shortly in a number of wives and children becoming chargeable on the parish councils, and says the Canadian Government ought to be asked to place restrictions on the wholesale emigration from other countries of married men.

Falls Down Steps to Death.

Quebec, March 5.—Austin J. Griffiths, son of the caretaker of the customs house, tripped and fell down stairs on Saturday night, striking his head with such force that he died yesterday without regaining consciousness.

Cost of the Quake.

Ottawa, March 5.—G. Eustache Burke, Canada's trade agent at Kingston, Jamaica, writes the department that the earthquake catastrophe loss is estimated at $1,500,000 to $2,000,000.

Botha Cabinet Sworn In.

Pretoria, Transvaal Colony, March 5.—The new Transvaal ministry, of which General Botha, formerly commander-in-chief of the Boer forces, is Premier, was sworn in yesterday.

Swettenham Resigns.

London, March 5.—The resignation of Governor Swettenham, of Jamaica, has become an accomplished fact, and he will leave that Island so soon as his affairs can be arranged.

Smallpox In Brantford.

Brantford, March 5.—A case of smallpox was found in a local hotel yesterday, and guests and employes were vaccinated and put under strict quarantine.

Danbury Block Burned.

Danbury, Conn., March 5.—The block owned by Hull Bros. Co., in Main street, was destroyed by fire yesterday; loss $115,000.

Customs collections for London for February total $12,789.83, an increase of $5,086.71 over last February.

DOMINION COURT MARTIAL.

Officers Tried for Negligence In Allowing Vessel To Go Ashore.

London, March 5.—(C. A. P.)—There was a court-martial held at Chatham, before Rear-Admiral Finnis, on Capt. Kingsmill, Navigating Lieut. Basil Noake and Lieut. Clarkson, charged with negligence in connection with the stranding of the battleship Dominion.

It appeared that a bush fire was mistaken for Souris Point Light, which, in turn, was taken for a steamer's masthead light. When a lead was sounded, the engines were reversed, but it was then too late. It was also shown that no allowance was made for the current into the Cascapidia by the captain. The navigating officer was off deck a great portion of the time between 7.15 and 9.15, when the ship took ground.

Commander Massey Dawson said he could not understand how the Dominion got 1.7 miles out of her course.

The enquiry adjourned.

Canada and the Tariff.

London, March 5.—(C. A. P.)—In the House of Commons Keerley said he would consider Gilbert Parker's suggestion that in future drafts of tariffs of colonies be submitted to the commercial intelligence committee.

The president of the Board of Trade, however, was doubtful of its expediency. He also informed Parker that there was no information that Canada would remove the surtax on German goods if the Dominion Government considered such a step desir[illegible] the Board of Trade.

Steps From Track to Death.

Thamesville, March 5.—Samuel Goddard, an old British army pensioner, was killed on the Grand Trunk tracks here yesterday.

He stepped onto the eastbound track to let a westbound Wabash freight pass. The eastbound Grand Trunk mail train struck him and threw him against the freight.

Open During November.

Ottawa, March 5.—Constable Sellars of the N.W.M.P. at Fort Churchill, on the Hudson Bay, has arrived in the capital with despatches from Major Moodie.

He reports that October was the fiercest month of the year, and that the harbor was open well into the month of November.

U.S. Has $20,000,000 Surplus.

Washington, March 5.—Representative Tawney of Minnesota, chairman of the committee of appropriations, announced yesterday that the fiscal year of 1908 would show a surplus of $20,000,000. The total appropriations made by the last session were $919,948,679.63.

This Crew Reach Shore.

Dover, Eng., March 5.—Eight members of the crew of the German steamer Helene, which was sunk after a collision yesterday with the German steamer Marsala, succeeded in reaching shore in one of their own boats. They had been reported lost.

Jumps to Death.

Chester, Pa., March 5.—In an effort to escape being burned to death, John Conly, a comedian of the Vanity Fair Co., was instantly killed yesterday by jumping from a window of the Arcade Hotel, where the company was stopping.

Eleven Sailors Drown.

Hamburg, March 5.—The German steamer Nerissa collided yesterday near Borkum, at the mouth of the Ems, with the Belgian steamer Congo, which sank. Seven of the latter's crew were saved and 11 were drowned.

Murderer Put to Death.

Ossining, N.Y., March 5.—Frank Furlong, who killed his aunt, Mrs. Margaret Keeler in New York City in 1904, was put to death in the electric chair in Sing Sing Prison yesterday. Furlong was 21 years of age.

Doctor Hurt n Runaway.

Sarnia, March 5.—Dr. McDonald was thrown from his buggy on the London road Sunday afternoon, when his horse ran away. One of his legs was broken above the ankle.

Landslide Buries 85.

Bona, Algeria, March 5.—Eighty-five persons have been buried by a landslide of about fifteen square miles on the mountain-side near Sedrata.

Woman Dead at Ninety-Nine.

Kingston, March 5.—Mrs. Lappin, one of the oldest residents of Garden Island, died Sunday. She was 99 years

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

Anne leaned forward and watched the crowd with tiny cores of fire in her eyes. Broken bits of conversation were wafted to her.

"I had looked to see better things of Dunmore, but 'tis all of a piece. We, burgesses of Virginia! Wagged at like so many school children, i' faith, and sent home with a flea in the ear! 'Tis unbearable."

"'Better things of Dunmore!' A plague on him! Cry 'God save the king!' and give Satan the colony!"

Such sullen growlings betokening storm and then smug ones passing, with snuff taking and derisive shrugs of shoulders:

"Henry is mad. You heard what he said at Colonel Samuel Overton's the other day. 'Independence!' 'Our Declaration!' 'Aid from Louis the Sixteenth!' He is as mad as a March hare! Treason forsooth? 'Tis a matter for a leech! As if we had discipline, ships of war or money. I tell you, he will embroil us all with such clatter. The governor would be perfectly justified in"— So they passed on.

A smile, quizzical, disapproving, but wondrous kind, wreathed the corners of the watcher's mouth as a tall, splendid old man with aquiline nose and sharp, gray eyes came down the [illegible] leaning on the arm of a negro body servant. Threescore years and ten he had passed—one saw that by the lines in his face—and his frame was big and wide. He was gaunt, rawboned and sour faced, and plainly though richly dressed, wearing a large jewel.

The girl's eyes rested smilingly on the cocked hat, the grizzled wig, the antique coat, with its square cut lapels and shoulders rounded after a fashion of twenty years [illegible] ly and lovingly on the [illegible]ful face, every whit patrician.

All her life she had loved this man—the old baron of Greenway Court. He had carried her at her christening. As she saw him now, coming slowly, but erect, bowing to salutations by the way, she thought again on what he must have looked in his youth before the French war, when he had strayed from a London world of fashion, with a heart sore by reason of a jilting, they said, to bury himself in the shadows of the Blue Ridge. He had dreamed of building himself a great manor house with 10,000 acres, calling it Greenway Court, and there living solitary. But a rough hunting lodge on a spur of the mountain near Winchester was all that ever came of it.

The girl watched him as he approached, stopping now and again for a word. Each pause made him look more hot and angry, and, seeing, she shook her head as if she chid some naughty child.

As he neared her, speaking with one of the more richly dressed burgesses, his bottled wrath burst out in a flood. He raised his thorn stick and shook it at the building, choking with rage.

"Meet at the Raleigh, gadzooks!" he shouted. "Whose pelting is this? Patrick Henry's, aigh? I thought as much! A deer stalker!" he cried, tattooing with his cane. "A good for naught bartender! Why, he used to bring me my ale when I passed Hanover Court House. A coarse, dancing, fiddling, wench chucking vagabond, I tell you! His father, the justice, is a good, sober country gentleman, but little the son takes after him. Come day, go day, God send Sunday! He must marry the tavern keeper's daughter!"

"My lord!" Anne's voice rose sweet and clear.

"And now because he mouths treason as bold as brass and because he wins a dirty damage case against some tup'penny parsons he sits in the burgesses and rides with gentlemen?"

"Lord Fairfax!" She was standing upright in the coach.

"Virginia is in a pretty case to take up any leather breeched Tom, Dick or Harry, wagging his jaw."

"Lord Fairfax!"

"About the king's business!"

"I wait for you to ride with me."

The old man half turned, choked, shook his cane again in the air; then, seeing the girl, made her as slow and courtly a bow as if he were in an assembly. Then he climbed into the chariot and sat down.

"Go and wait at the tavern, Joe," Anne said to his servant.

The baron took Anne's slender, cool hand in his huge, bony, trembling one, and they rode silently.

After awhile the fury had burned itself out in that worn frame. "'Tis naught I care for the rest of them, my dear," he said, "but my boy Washington is with their infernal treasons, and the Whigs will ruin him!"

CHAPTER II.

LEAGUES and leagues away from where the summer was come golden sandaled over Virginia, throbbing now with all the pent up intolerance of years of repression and smothered resentment, a ship which had been strained and pummeled by two months packed with tempest unfolded new canvas under the crumbling splendors of a clearing sky. The day drew breezily serene. The sea had tired itself out, and the sun burned pleasantly in the blue.

One of the few passengers whom the softening weather had drawn into the air—a young Frenchman, fair, slight, well knit and soberly garbed in gray—leaned upon the forward rail, with shoulders squared to the sunshine, and looked below him.

No mart of the old world could have shown a more strangely assorted company than did the [illegible] bound for Yorktown, Va. Swarming to the bulwarks was a motley herd of redemptioners—a few young women of fair color, English country girls from the farm lands, looking forward to new things and a rosy marriage in this new land which beckoned to every creed and nation; more wore harder faces, toil sharpened—men who had worked their trade soberly to yield at last to the spur of ambition and barter six years of plantation labor for a passage to opportunity. Indeed, so greedy were the plantation factors of hands that more than one colony was made to hold open arms to the old world's vagrants, its felons and its dregs.

Now the creatures who had wallowed in sullen waiting or cried shrilly to their saints were still or babbling of other things. From the rigging a tarred mariner bawled his lay of "Bold Jack In the Ways," and the few passengers, who had weathered the storm grumbling or dicing below deck, were sunning themselves upon the poop.

The young Frenchman shifted his slow gaze from the redemptioners and let it run far out over the water, watching the little spots of foam that marbled the great waste. He was undeniably good looking, of an elusive, beardless charm, with a forehead graver than his mouth. His hair was rich brown, long and curling, for he wore no wig, and his finely cut lips were set over a chin of bold delicacy. His eyes were full and hazel, his expression one of zest and eagerness.

On this day as he leaned against the rail a man was watching him intently from where he stood, farther back. The man's name was Jarrat, and he wore the uniform of a captain in his majesty's horse.

To relate that Captain Jarrat had carried his handsome face and domineering bearing aboard the ship on the day of sailing, with a letter from Lord Stormont, British ambassador in Paris, hidden in his breast pocket, is to go back a bit. Jarrat was close mouthed. As far as the other passengers were concerned he was a British officer returning to the Virginias. To a nice eye he would have betrayed an overintimate curiosity as to a certain passenger.

The second day out he accosted the skipper, Master Jabez Elves, and wished him fair weather and a good day with an insinuating accent which betokened a bent for conversation. But Master Elves replied only with a nautical grunt.

Jarrat tried a direct inquiry.

"Where is the Marquis de la Trouerie?"

"Sick," replied the skipper. "In his cabin," and rolled away.

"Ah!" smirked Jarrat. "Our French gentleman is a poor sailer."

But as the days went by it became certain that the distinguished passenger was ill of a less passing malady than mal de mer.

On an evening the captain pushed open a narrow cabin door at the end of a passage, but before he could enter a young man sprang up and barred the way.

"I would see the Marquis de la Trouerie," said Jarrat.

"You cannot see him, monsieur." The young man's tone was very firm.

"Who are you?"

"The marquis' secretary, monsieur."

Jarrat took a gold crown from his pocket and offered it to the other with the easy effrontery of one perfectly certain of his ground. Every underling, it was his belief, had his price, from lackeys to prime ministers. It is a theory which on the whole works not badly.

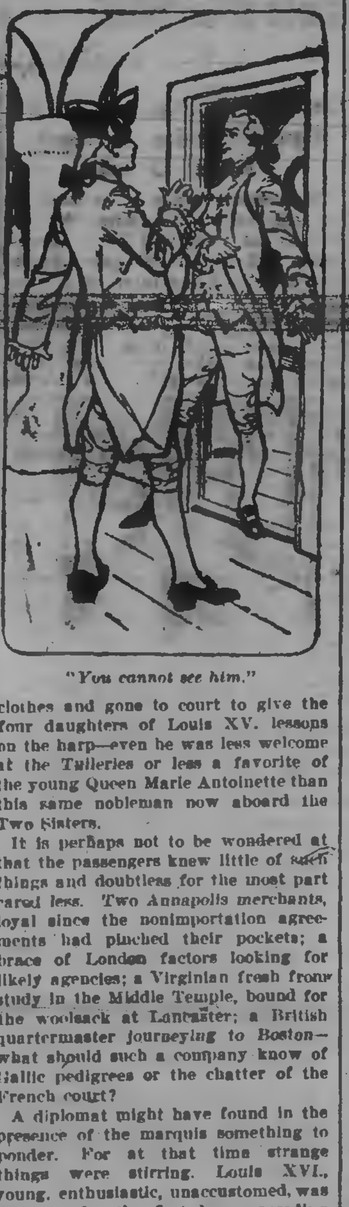
The man before him, however, was of another sort. He put the coin back. "You cannot see the marquis, monsieur," he repeated.

"Cannot, you whelp!" said Jarrat, with his tongue on his lip and in the soft tone which with him covered a white bolt of rage. A copper lantern, pierced with holes, threw yellow beams down the passage, and in this glare the young man on the threshold saw his face, evilly beautiful and distorted. The coin rattled on the floor.

The young Frenchman stooped to pick up a gold piece. "Monsieur has dropped his crown," he said, holding it out.

Jarrat took it and thrust it into his pocket. "It was too small a douceur," he said easily, "eh, master secretary?"

Most of those on the ship did not know, so insular were the prejudices of the Anglo-Saxon, that the Marquis de la Trouerie was a personage in his own country. Even Caron de Beaumarchais, son of a watchmaker, that airy, naive, fantastic charlatan who at the age of twenty-four had washed his hands at his father's shop, changed his clothes and gone to court to give the four daughters of Louis XV. lessons on the harp—even he was less welcome at the Tuileries or less a favorite of the young Queen Marie Antoinette than this same nobleman now aboard the Two Sisters.



"You cannot see him."

It is perhaps not to be wondered at that the passengers knew little of such things and doubtless for the most part cared less. Two Annapolis merchants, loyal since the nonimportation agreements had pinched their pockets; a brace of London factors looking for likely agencies; a Virginian fresh from study in the Middle Temple, bound for the woolsack at Lancaster; a British quartermaster journeying to Boston—what should such a company know of Gallic pedigrees or the chatter of the French court?

A diplomat might have found in the presence of the marquis something to ponder. For at that time strange things were stirring. Louis XVI., young, enthusiastic, unaccustomed, was learning for the first how exceeding difficult it is to be a king. M. Turgot, his grim old minister of finance, logical, pitiless, cold as a dog's nose, was pulling one way; Beaumarchais, brilliant as a chameleon, fascinating, egotist, intimate of a French queen, was pulling another.

And what was the bone of contention? Whether France should give her treasure to the secret aid of the American colonies. With such counsels in the air England slept, like a surly bulldog, with one eye open. She watched at home, and her astute ambassador, Lord Stormont, kept a hawk's eye upon the Tuileries.

So, in itself, there was an interest for those who knew, attaching to the sudden journeying to America of this man, so near to the French counsels, at once a noble, a courtier and a republican. And this interest was intensified for Jarrat, who, mindful of the letter he carried of confidential import, hugged the reflection that he knew the reason for it.

Jarrat, like many another schemer, made the error of undervaluing the intellectuality of an opponent. He had small idea that the marquis' young secretary was observant in his turn. It was nevertheless the fact. But M. Armand, who had scented him very early, kept his cabin, and no one aboard—the ship carried no leech—saw his master.

Four days after the episode of the gold crown Jarrat tried the skipper again.

Master Elves chewed a bitter cud and wore a habitual droop to his eye. Now the courtesy came as thickly as cold weather treacle.

"The Marquis de la Trouerie," he answered, "ain't on the ship."

Jarrat stepped back heavily. "Not on the ship, fiend plague me! He is on the ship."

"Mayhap ye know better nor I," answered Master Elves shortly.

Jarrat burst out laughing. He felt a sudden contempt for this clumsy subterfuge.

"A brave conclusion!" he cried. "And how long is it to last? Is the noble gentleman to lie shamming Abraham in his cabin till we sight the Virginia capes? Awhile ago he was sick, guarded from all our pining eyes by his argus eyed clerk. Now, behold, he is not even aboard! Oh, an accomplished nobleman!"

The skipper squinted out to sea, and a drawn pucker came to his lips.

"See here," said Jarrat, his tone taking edge. "I have business with this gentleman, and I'll not be put off. This is the eighth day out, and he hasn't shown his nose out of his cabin. 'Tis my opinion he's no more sick than I am."

"No more is he," said Master Elves. "What then?"

"Just this: I want to see the marquis, and I mean to see the marquis. D'ye hear that, you lumpfin? 'Twill be better for you, I can tell you, if you fetch me to him at once!"

The skipper's moment had arrived.

"Fetch ye to him!" he roared, with something between an oath and a chuckle. "The man ye're after died two days ago and was sent to the fishes last night! Fetch ye to him! Haw, haw!"

With this parting shot he went off spitting furiously.

"Dead!" exclaimed Jarrat, with sagging jaw, staring after him. "Dead!" he said again, and then stood, vacant eyed, his face the dead color of chagrin in which calculation has had no time to slip.

With the passengers the young secretary [illegible] accomplished with abundant good nature. Him they first snubbed, then tolerated, then liked.

The young Virginian, Breckinridge Cary, sought him openly and more than once drew his arm through his own as he walked the deck. The Virginian was beyond question of the quality, and certain footing had made for him social squeamishness unnecessary. As for the secretary, he went his way with imperturbable good humor. Even storm could not dampen his spirits.

For reasons that have been stated the news of the demise of the marquis, whom the passengers had not known to regret, made little sensation on the Two Sisters. Next day a bark was sighted out from Norfolk, and there was a budget of new world news and a bunch of Virginia Gazettes to furnish matter for talk. A fortnight later the incident, however full of moment it may have been to Paris, was well nigh forgotten. They had not all of them Jarrat's reasons for remembering.

But as days wore on and calm succeeded storm Jarrat, who thought much, studied M. Armand with a lazy interest that in time, as shall be seen, gave birth to a plan. He gave the secretary no cause to remember their first meeting at the little cabin door and schooled his tone to an insinuating friendliness. He even condescended to game with him and to question him amiably, touching politics in France, and more than one of these inquiries turned cunningly, as on a pivot, upon the young man's late master.

So a month passed, pleasantly for some, irksomely for most. Jarrat watched the secretary boldly. The secretary in his own way watched Jarrat. And so it stood on the serene day when M. Armand leaned upon the rail and looked out across the shadowless waste where the track of the blazing sun stretched in a molten dazzle like a quivering spear of God's.

Presently he felt a light touch on his arm and, turning, saw the Virginian.

"Dreaming?" asked Cary. "Of what?"

"Of your golden land, monsieur."

The other smiled, then sighed and leaned beside him. "A golden land, in sooth. I would it had no storms, but a sweet sun dawning ever for it. Troubled, indeed, it was when I left it—more troubl l now as I return." He paused awhile.

"I love the land," he said. "I know not if even France can be so lovely. Is it so? And do you love it?"

The young Frenchman's face grew earnest.

"When I was born," he replied, "France was good, monsieur—I think it was the best land in the world, as today it is the most beautiful. But Louis XV. was young then. Since have come a Pompadour and a Du Barry. So it is that the good in France has been hidden underneath many other things. It is true that the ministers of the crown have sold titles of honor—places in the courts. Justice, the thing for which your colony is now crying to England—this has been impossible to the poor, the low. The rich buy it. Paris laughs and does not care! There the wits lampoon the dignitaries, the young bishops sneer at God and the abbes are become elegant to kiss the hands of painted countesses. But the poor, the oppressed, the people, monsieur, what of them?"

He let his gaze wander. A dreamy light was in his eyes.

"Ah, monsieur, they have watched. They have been waiting. They are ignorant. They were never taught. But all this time one man—the exiled, the glorious — he has been writing. He has taught that the unnoble are not field beasts, that they are men; that the noble and the peasant are all one; that the poor must not be trodden on."

"Voltaire," Cary said in a low voice.

"France," Armand went on, "has been reading this one. The smith and the plowman talk of what he has said in the rows and at the forge. It is not only the poor, the low, monsieur. Nobles who wear coroneted swords also think these things. They, loving liberty, would give their lives for their king. There is in Paris a club"—

He paused abruptly. When he began again it was in a voice tinged with sadness.

"Louis XV. is dead. Louis XVI. reigns."

Cary's glance flashed into his.

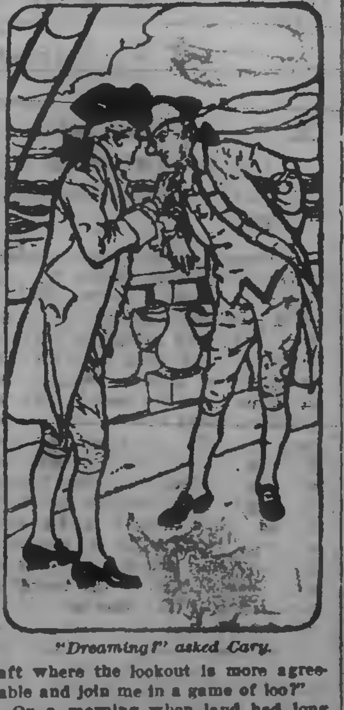
"Louis XVI. is young and ambitious. He hates England. An there were war here 'twould advantage him to aid the colonies."

"Monsieur," declared the other, "it might ruin him. Listen! His own people are worse foes to the king of France than England, monsieur. And aiding the colonies here is putting a two edged sword into their hands! Even now they have the wish to redeem France. But they know not how. They have never seen such a thing. Power is all around them, and it seems as if it must last forever. So it is, monsieur, that these nobles—these of better blood—who love first of all their France—I could tell names—a Mirabeau, a Lafayette—they would have their king aid America. They have joined hands with men of lower birth like Beaumarchais and made courtiers of them to the same end."

"But," reflected Cary, puzzled, "you say to help our colonies might ruin Louis. Why, then, would these nobles push the plan? Have they such hate [illegible]"

"No, no. Not because they hate England as Louis does, but because they love France better than Louis, and to save her they must even risk to ruin him. There is more than one French king at stake—there is a dynasty! These are not the middle ages, monsieur. In these days the peoples are awaking. France, if she lives, must open her eyes. These men I tell you of would jolt her wide awake. They would have her smiths and her plowmen stop their toil to listen across the seas—to hear the guns of a people who would not be oppressed, to see royal mercenaries driven into the sea just by people like them. Then their murmur would be a roar. They would say, 'So can we do also!' Then the corrupt court would stand terror stricken. And then at last there would be an end of the selling of titles, of the elegant bishops and the painted countesses. France would put on purity again, and her king and her nobles would rule justly, and poverty would not stalk everywhere. These nobles of which I speak are loyal, monsieur. They love first France and then their king."

"Gentlemen," rose Jarrat's voice, "the hogpen is just below. Will you come aft where the lookout is more agreeable and join me in a game of loo?"



"Dreaming?" asked Cary.

On a morning when land had long been promised and was eagerly looked for the young Frenchman, M. Armand, mounted to the deck. His face was weather burned, and the salt breath of the spume fell damp on his hair. The Virginian came and stood beside him, and both looked down upon the wretched legion of redemptioners crowding the lower deck, gazing dumbly up like cattle.

"A brave sight," submitted Cary, "to show the riches of the colonies."

His tone was not without bitterness, as the Frenchman perceived. "You would not have it so?"

"I? No. We have no need of some of the offscouring you see there. It will breed us the curse of crime. But what care the factors? 'Tis profit to them. And what cares the king? It means more tobacco, and tobacco stuffs his coffers."

"Yet some of these may be lifted by opportunity."

"Aye," answered Cary. "Bad as they are. Wooden hogs, fair sick for the lash, lumps from Cork or lack Latin sots shipped for schoolmasters. Their sons may be good citizens. New lands, new conditions. If this land be not saddled with another's ills, here these shall at least have hope. By their faces they leave not much to love behind them."

Before either spoke again a cry came up from where a knot of sloven redemptioners were gathered—a cry and a hoarse word in one. Down below, at one side, a woman leaned, hugging a shawl wrapped bundle to her breast.

She was a drab, but with a certain sullen beauty that is bred of Latin blood. Armand had seen her face more than once transfigured by that wondrous glory of mother love. He had that very day heard her crooning softly as she walked, noted the strange furtiveness with which she avoided the too curious gaze of her fellows, wondered what subtle grace nature had lent for mother eyes to those infant features.

Now one of the crew stood over her, plucking at the shawl. She was weeping passionately, loudly, without pretense of concealment.

"What a devil's that?" bawled the mate's voice from a rope ladder.

"The brat's dead," said the sailor. "Blow me tight, I've been watching her for two days. The lallop's been singing to it to pull the wool over our eyes."

"Dead, is it? Pitch it overboard, then." He kicked down a greasy rag of canvas.

As the man he commanded approached the woman she fell on her knees, shrinking in close against the bulwarks and speaking rapidly in some foreign tongue.

"What's that loblolly?" asked the [illegible]

REVIEW LETTER BOX

WHAT IS THE OBJECT

Does the Examiner Favor Independence or Annexation?

To the Editor of the Review.

Sir,—The ill advised action by the Examiner is the subject of much indignation, and is condemed by every person who has read the letters bearing on the English immigrant question. This is not the way to solidify the Empire. Does the Examiner favor independence or annexation? Englishmen generally resent the insult.

Yours, etc.,
CITIZEN.
Peterborough, March 4th, 1907.

IN A REPENTANT MOOD

To the Editor of the Review.

Sir.—I notice that the Examiner last evening comes out with a half-hearted apology for its recent strictures upon Englishmen by seeking to divide the Englishmen into classes, saying there are undesirable and objectionable classes in all nationalities. This is quite true, but why did not that paper seek to qualify such statements before. This is a sort of eleventh hour repentance but it is better than none at all, and evidences a desire to improve. The Examiner is slowly coming to its senses and realizing what an egregious and unpardonable error it made in permitting these attacks and reflections to find space in its columns. I think henceforth [illegible] of certain citizens who behave themselves, alone.

Yours, etc.,
HOPEFUL.
Peterborough, March 5, 1907.

ANOTHER VIEW

To the Editor of the Review.

Sir.—Who is Mr. Bargain Earle? From the boldness of his language I should take him to be a modern St. Paul. Has his career been such as to allow him to speak contemptuously of poor Englishmen. Some people speak pityingly about him, and I will let it go at that. The Examiner made a big effort last night to retrace its steps, but Englishmen will not forget who it was insulted them in the house of their friends.

Yours, etc.,
FOR THE OLD FLAG.

ENGLISH, IRISH AND SCOTCH

They are To-day the Backbone of Canada—Chinese and Others Not Wanted

To the Editor of the Review.

Sir.—On returning home to Peterborough the other day and looking over the local papers I had missed for a day or two. I found in your contemporary, "The Examiner," a not exactly interesting, but very lengthy treatise on a game called "Bridge Whist," written, or presumably written by Mr. Barton Earle. Is the a new author? The treatise reads mighty and strong, but it looks much as if I had read a good deal of something very much like this, in another paper not long ago—seems to me it was a London, Eng., paper. I may, however, be mistaken, so I will give the (presumed) author the benefit of the doubt.

I am surprised, however, at a paper of the standing of the Examiner, wasting its space and time in inserting such rubbish. This presumed author states in his third article that he was told only that morning, Feb. 24th, about one lady player throwing the cards in another lady player's face. Really, this is awful. I was myself playing a friendly game of euchre that same evening with my wife, and I tried to cheat her. I too got the cards thrown in my face.

Apart from all this rot, Mr. Editor, in regard to bridge whist, I find on looking at still later papers that this new author has been writing some rather peculiar, impertinent and insulting letters in care of the editor of the Examiner. He states in one, which, by the way, he heads "The Retort Courteous", that an English gentleman who had been making some comments upon his, the presumed author's, very learned treatise on bridge whist, must be a gentleman, because the, (the gentleman) said he was, and the learned author, so he says, is proud of his own English descent.

It is really too bad, as he, the learned author himself says, that his influence with the present Ontario Government is so small that he cannot induce them to import, as he wishes, Chinese and other scum of some of the foreign countries, instead of the clean-limbed, hard working, English, Irish and Scotch, who are today, and always will be, the back-bone of our Canada.

Yours etc.,
ANGLO SCOTT
Peterborough, March 4, 1907.

Getting After the Truants

Truant officer George Cochrane yesterday laid a number of complaints against a number of children, who loiter on the streets during undesirable hours, and as a result do not attend school. The cases will come up tomorrow morning. There has been too many truants for some time and it is felt that if an example is made of a few of them the result will be [illegible]

Gave Address on Church History

Rev. Canon Davidson Spoke at Young Peoples Meeting

The fortnightly meeting of St. John's church Young People's Association was held last evening in the school house. A large number of the members were present and thoroughly enjoyed the splendid programme presented. The president Mr. Jos. Bell occupied the chair. At last night's meeting an interesting talk on "Church History" was given by the rector, Rev. Canon Davidson. This address was illustrated by means of a chart, tracing the history of the church from its earliest days. The speaker's remarks proved to be very profitable indeed and many went away with a better understanding of the earlier history of their church than they ever had before.

Short addresses on the same subject were given by the president and Mr. Frank Linton.

The musical portion of the programme was provided by Misses E. Foy and H. Victoria Bell and Mr A. E. Walker, who contributed instrumental solos which were much enjoyed.

The next meeting of the Society will be held on March 18th, when Mr. F. D. Kerr will give a lecture on his recent trip to the Old Country.

G. Walter Green Thanks Council For Considering His Request

To Buy Part of Gilchrist Street—Will Now Build on Property Adjoining His New Storehouse on North Side of McDonnel Street--Letter to the Council.

Even though the city council turned down Mr. G. Walter Green's application to purchase a small portion of Gilchrist street, that gentleman is not at all discouraged. He sent a letter to the city council last night, thanking the aldermen for their kind consideration of his request, but regretted that some of them had listened to the arguments put in against him, re large factories which would make "New moons for the sky."

Mr. Green will build the extension to his works in spite of the opposition. He has already prepared plans for the building being erected on the property on the north side of McDonnel street, opposite his factory and next the new store house The new building will be fifty feet by one hundred feet, solid brick walls and one story high, although part of it may be two stories. The only object Mr. Green had in building over Gilchrist street was to keep his main building intact. As it is, now part of the machine shop will be on on one side of the street and part on the other side, which will add to the cost of manufacture. But rather than crawl on his knees to any objector, Mr. Green would much prefer putting up the additional expense. He said so the first time he appeared before the council and stuck to it. This application of Mr. Green's, was the first favor he had ever asked the city, and it certainly should have been granted. He has no fixed assessment and have never received one cent of a bonus, and today his business is growing at such a rate that in a few years it will be one of the leading concerns in the city.

Mr. Green's letter to the city council, is as follows,—

"I take pleasure in conveying to you my genuine appreciation of the kind and considerate manner in which you entertained my recent request re Gilchrist street.

"Had it not been for the factious opposition of a few otherwise well-meaning citizens, I am satisfied you would have been a unit in granting my request. Other manufacturers have been accorded similar privileges without anyone being injured or inconvenienced thereby, and as I have never asked for any favors from the municipality; not even a fixed assessment, I believe and I think you did too, that this much encouragement to a growing industry of the city might at least have been conceded to me. Of course you would not ignore the objections of the little clique; but I know you will be pleased to learn that the development of my business will not be blocked thereby, not even a little bit. It would have been some advantage to me to have been able to build my new extension so as to connect it with my factory, but when it was found that the Gilchrist street pond was to become the pond for an extensive manufactory to turn out new moons for the sky, why of course, I could not conscientiously press my claim and continue to be a good citizen.

"Thanking you again gentlemen, I remain, yours respectfully,

G. WALTER GREEN."

Discount of 33 1-3 Per Cent. To be Struck on Water Rates

The water commissioners have prepared a [illegible] surprise for the water consumers of the city. At their meeting yesterday afternoon it was proposed to increase the discount on the water rates to 33 1-3 per cent. The present rate is 25 per cent.

This action was discussed at some length by the commissioners and it was felt that in place of the increased surplus of last year, and the rapid development of the water works system, the water commissioners could afford to make a reduction.

The reduced or rather the increased discount will make a difference in the revenue of about $2,000. If the surplus continues to remain as it is, viz., about $7,000, the commissioners will still have a further surplus of $5,000, which is sufficient to carry out the plan adopted some years ago, of furnishing a contingent fund of $50,000. But there is every reason to believe that the surplus will continue to grow, at least as fast, if not faster, in the future as it has in the past.

There are at present about 1900 water consumers and the increased discount will make an average difference to the individual consumer [illegible] water commissioners [illegible] bringing up the question of increasing the discount, took into consideration the special legislation they now have before the Ontario Legislature. This asks that power be given the commissioners to place a reasonable tax upon all vacant property fronting upon the water mains. If the legislation is passed the 33 1-3 per cent. discount will hardly be noticed from the revenue as the new income will amount to more than the $2,000 which the reduction makes.

This morning the chairman of the commissioners informed the Review that even though the special legislation referred to, was not carried in Toronto, there would still be a reduction made, although he did not say just how much it would be. Still the ratepayers have every reason to be thankful that the water works system is proving so successful, and that the constantly increasing demand for services, permits the commissioners to increase the discount so materially from time to time. The people have nothing to regret in having adopted municipal ownership of the water works.

Proposal to Tax Bachelors To Increase City's Revenue

Ald. Tovey, When Introducing the By-law Fixing the Tax Rate at 17 1-2 Mills, Also Sprang a Surprise on the Council—Ald. Morrow Opposed the New Tax.

The Council put through a number of by-laws last night which are of more or less interest to the citizens. One in particular was that which Ald. Tovey introduced fixing the tax rate for 1907 at 17 1-2 mills, the same rate as last year. After reading over the estimates for the year Ald. Tovey said there would have to be a new means of raising money for the city's expenses. He suggested a tax on bachelors and read a clipping from a newspaper on the subject, which, if adopted would cause a sudden and great rush of young men to the matrimonial altar. The change would be so pronounced that all the boarding houses and half the restaurants in the city would go out of business, while the carpenters could not put up houses fast enough. It might also be mentioned that Ald. Morrow was strongly opposed to the tax.

By-law No. 1286 was a by-law fixing the tax rate for 1907 at 17 1-2 mills to accept the assessment roll of 1906 and to provide for the collection of taxes in 1907.

In speaking to the by-law Ald. Tovey drew attention to the rapid rate the debenture debt was being run up. The debenture debt of the cities of the province had increased during the past year by $12.

The chairman of the Finance committee then read the following statement of the debenture debt of the city at the present time:—

STATEMENT OF DEBENTURE DEBT.

Dec. 31st, 1901, was $335,271.08.
Dec. 31st, 1902, was $381,222.96.
Dec. 31st, 1903, was $598,759.78.
Dec. 31st, 1904, was $657,186.65.
Dec. 31st, 1905, was $735,465.73.
Dec. 31st, 1906, was $820,892.95.

The waterworks was purchased in 1902 at a cost of $230,000.

The waterworks debenture debt is now $292,000.

STATEMENT OF INDEBTEDNESS.

The above figures are made up as follows:—

General city tax	$251,200.00
Local improvement debt	177,792.95
School debentures	99,900.00
Waterworks	292,000.00

Local improvements for which debentures have not yet been issued, $72,419.50. After these have been issued the total debt will be $893,312.45.

This $893,312.45 does not include any of the money by-laws passed at the last municipal election, nor does it include the Collegiate Institute or the North Ward School expenditures. The debentures when issued will be:

Collegiate Institute	$61,000
North Ward School	25,000
Repairs, bridges	13,800
Diversion of creeks	8,000
Trunk sewer	15,000
Total	$122,800

Grand total, when all debentures are issued, for which authority has already been given, is $1,016,112.45.

He said that the time was present when all small expenditures for which debentures are being issued will have to paid out of current revenue, even though the rate is raised a mill or two. Next year he prophesied that the rate would be raised to 18 or 18 1-2 mills as Board of Education demands would be greatly increased by the completion of the south ward school, the Collegiate Institute and the north ward school.

A new method of raising money must be adopted and he suggested the system of taxing bachelors. He said there were, according to the ladies, about 1500 bachelors in the city. He read the following system adopted in Argentina, as published in a newspaper:—

"Recent suggestions in connection with income-tax reform, that bachelors should be heavily taxed and fathers of large families let off lightly, embody, it appears, no new ideas. Bachelors were taxed in 1695, every one of them of age having to pay a shilling a year. This impost lasted ten years. In one country in the world to-day the privilege of remaining unmarried is a very costly one. The country in question is Argentina, where in certain States a bachelor tax prevails. When a man reaches the age of twenty, if he remains unmarried he must pay a tax of one pound a month. Should he, at the age of thirty, still persist in avoiding the altar, the tax is raised to two pounds a month, and is then doubled each year until he gets to the age of thirty-five. Most bachelors succumb before this, but there are some who have stuck it out the full time. When they reach the age of forty they are considered of less value from the matrimonial point of view, and the tax drops to a pound a month. At fifty the bachelor tax is only four pounds a month. At sixty the tax ceases."

Taking the 1500 bachelors in the city, as claimed by some of the ladies, at $5 per month would give the city $7,500 per month or $78,000 per year, which is about $9000 more than the total revenue of the city. This is for the first year only and would be greatly increased if the young men persisted in remaining single. At the same time one of the aldermen suggested that another tax of a like amount be placed on all married men without a family, starting with the Mayor of the city.

OTHER BY-LAWS.

By-law No. 1287 was a by-law providing for the borrowing of money from the Bank of Toronto to meet the ordinary running expeses of the city.

By-law No. ...... was a by-law to amend the building by-law. Upon the second reading of the by-law Ald. Bradburn and Ald. Tovey moved that it be referred to the committee of the whole for further consideration.

By-law No. 1288 was a by-law to fix the salary of the city engineer at $1400.

By-law No. 1289 was a by-law authorizing the execution of an agreement with the Peterborough Hardware Co., for the supply of cement.

By-law No. 1290 was a by-law to provide for street watering and providing for the assessment of properties benefitted to pay for the same.

Noted Evangelist Will Visit City

Rev. Alex W. Torrie to Begin Special Services in Park Street Church

Preparations are well in hand for the visit of the Rev. Alexander W. Torrie, B.A., the well known evangelist, to Park street Baptist church The choir is being enlarged for the services and the Y.M.C.A. male quartet [illegible] Mr. [illegible] given himself to the Home Mission Board and makes the second evangelist employed visiting the churches. He has just visited Collingwood and Paris and in both places there have been great additions to the churches, while crowds flocked to hear him. The Torrey-Alexander hymns will be used. Friends are requested to bring the books in their possession and assist in song service, which will be a great feature in the revival. Mr. Torrie's first sermon will be preached on Sunday morning next, March 10. The meetings will be continued every night for two weeks, beginning at eight o'clock. Song service at 7.45. A workers 'prayer meeting will be held at 7.30.

REV. A. W. TORRIE

The Noted Baptist Evangelist, Who Will Begin Special Services in Park Street Baptist Church on Sunday Next

Dummer Loses Esteemed Lady

Mrs. John Middleton Has Passed Away

One of Dummer's most respected residents passed away yesterday in the person of Mrs. John Middleton, who sank to rest at her home, in the fourth concession of that township. Deceased was 54 years of age, and had been ill with pneumonia for about a week, and as she previously had been in good health, her death will come as a great shock to a large circle of friends. Mrs. Middleton's maiden name was Mary Newell, and she had lived in Dummer practically all her life. She was a consistent member of the Methodist church, and her many good qualities had won for her a large number of friends.

The late Mrs. Middleton is survived by her husband, one son, Mr. James Middleton, of Warsaw, and six daughters, Mrs. Glen Douglas, Warsaw Mrs. (Capt.) May, Cleveland, Ohio; Mrs. Brown, Buffalo, N. Y.; Mrs Jas. Newell, Dummer; Mrs. H. Castle, Peterborough, and Mrs. Alfreds, who resided at the parental home. Mrs. Frank Darling, of Dummer, who passed away a year ago, was also a daughter. One brother, Mr. John Newell, of this city, and three sisters, Mrs. Edward Armstrong of Dummer; Mrs. James Gouldie, and Mrs. Parker, of Minden, also survive.

The funeral will take place to-morrow at 2 o'clock, from the family residence, in Dummer, to the Warsaw cemetery.

OBITUARY

CHARLES LUCAS, EMILY.

The news of the death of Charles Lucas, one of the pioneers of Emily township, which occurred on Saturday, Feb. 23rd, was heard with many manifestations of sincere regret by the people of the entire countryside.

The late Charles Lucas was born in County Clare, Ireland, in the year 1830, and was at the time of his death in his 77th year. With his parents he came to this country in 1840, settling first in the township of Cavan. A year or so later, the family removed to Emily—then a wilderness —and took up land. The father died [illegible] themselves. The family consisted of four—John, Bridget, Charles and Ellen, the girls afterwards becoming Mrs. Millaney and Mrs. Meehan.

Charles survived the others by some years. In early life he married Margaret Houlihan, who survives him. They reared a large family, of whom seven are left to mourn the loss of a kind and loving parent. By honest means and unremitting toil, Mr. Lucas accumulated a fair share of this world's goods and left his family in good circumstances. No one will be missed so much around the little village of Downeyville. He was a consistent and practical Roman Catholic, and faithful in the discharge of his religious and moral obligations.

Interment took place in St. Luke's cemetery, Downeyville. The pallbearers were his four sons — John, Joseph, James and Charles, his son-in-law, Henry Carroll and nephew Thomas Lucas.

The first train since Christmas entered Boissevain, Man., Friday.

A new post office has been opened in Sandwich East and is called "Sutherland."

PERSONAL

Mr. Thomas Barrie is in Toronto on business.

Mr. and Mrs. J. S. Knapman are in Toronto today.

Mr. and Mrs. W. H. Meldrum are spending the day in Toronto.

Mrs. John Crane will not receive during March owing to illness in the family.

Mr. S. J. Griffin, 257 Stewart street is dangerously ill, and is not expected to recover.

Mr. D. W. Dumble is in Toronto, attending the annual meeting of the Stony Lake Cottagers Association.

Mr. T. W. Robinson left this morning for Toronto to attend the annual meeting of the Stony Lake Cottagers' Association.

Mr. Alexander McNeil, of the Mail and Empire staff, Toronto, was the guest of his aunt, Mrs. Wm. Hudson, 634 Rubidge street, over Sunday.

Mr. R. H. Bradburn, who has been confined to the house for several days with an attack of la grippe is able to be out again.

Mr. W. C. Ackerman left last night for Montreal, where he will undergo an operation for appendicitis at the Royal Victoria Hospital.

Mrs. Wallace Madill and son, Master Lawrence, left for Montreal today, where they will reside in future. Mr. Madill, formerly of the C.G.E., has accepted a position with the Montreal Light and Power Co.

Mrs. F. J. Stewart of Portage la Prairie, left yesterday for her home after visiting her parents, Mr. and Mrs. Andrews, in Norwood. Mr. Stewart returned to the West last week.

Rev. A. H. Ranton, who some years ago conducted evangelistic services in George street Methodist church, is now holding services at Lethbridge, Alta., where he is meeting with great success.

Mr. James Lang, formerly of this city, but now traveller for the Burroughs, Wellcome & Company, wholesale druggists, of Montreal and England, is on a business trip to this city, and is renewing old acquaintances.

Port Hope Guide.—Father Lynch and Father Collins left this morning for Peterborough where the former will make his future home. It is expected that Father Collins will be stationed at Lindsay. Mr. J. I. Thompson, of the Peterborough Review, spent Sunday with his parents, Mr. and Mrs. I. Thompson, Pine street.

Messrs. John, George and Ed. Patterson and Robt. Small, of Norwood, are leaving this week for St. Luts, Man., where they will take up homesteads. Yesterday and today they have been busy loading their household effects, live stock, and farm implements. The boys will take four carloads with them.

End of Finger Was Cut Off

Mr. John McWilliams Met With Painful Accident

John McWilliams met with a painful accident while making some repairs at the lift lock this morning. Along with some other men he was working around machinery, when his right hand was caught in a derrick and the index finger was cut off at the first joint. A doctor was called. The injury will incapacitate Mr. McWilliams from work for some time.

"Zephra" to be Repeated Here

At Grand Opera House, April 3rd and 4th.

It is understood that the spectacular extravaganza, "Zephra," which made such a decided hit here a short time ago, will be repeated at the Grand opera house on Wednesday and Thursday, April 3rd and 4th. Mr. Booth is now in Hamilton and will return to Peterborough a short time before the above dates in order that rehearsals may be held. Crowded houses will no doubt greet Zephra on its return engagement.

Health and Wealth

That's what the people get who trade at Kennedy's. Our Beef is prime, tender and juicy. We handle nothing but choice steers and heifers. Those who eat Kennedy's Beef will have no indigestion pains, which you are sure to have if you eat tough beef. Therefore, by trading at Kennedy's you can save the money that you would have to pay the druggist for medicine to digest tough beef. Give us a trial and be convinced as to the quality of our Beef.

TRIPE—This week we have nice fresh Tripe—the most delicious dish you could eat, when properly prepared.

PROVISIONS—A full stock of Fresh Provisions always on hand. Customers tell us our Cheese is the best in the city. You will find it rich and mellow.

KENNEDY'S

50 THOUSAND ROLLS NEW WALL PAPERS AT ROUTLEY'S

Our vast assemblage of new designs, the master conceptions of American and European designers, also controlling as we do the Watson-Foster Co's. output, we feel confident that we are unmatched in variety, quality and price. We have still a fair selection of last season's goods and $1.00 worth according to our way of buying and selling, then to clip one-half off that price means enough gold paper and border to complete any ordinary size room, for 50c. The same reduction will apply on all last year's goods.

RECEIVED

- 5000 Feet New Room Mouldings
- 2000 New Window Shades
- 50000 Rolls New Wall Papers
- 60 New Dinner and Tea Sets

We assert that for completeness for worthiness and for elegance, our stock, both in Toronto and Peterboro' stores, has no rival in Canada and few, if any, can approach it in value. Judge price by these items.

300 Rolls Gold Hall Papers, browns and reds, beautiful designs, paper, border and ceiling all one price, per roll...................... 15c

1000 Rolls Ingrain Papers, 30 inches wide, three colorings, buff, pink and light terricotta with 18 inch borders, at the same price per roll as the side wall.......... 15c

500 Parlor and Dining Room Papers of any desired coloring with 9 or 18 inch borders at the same price per roll as the side wall........ 13c

2000 Rolls Gold Wall Papers with 9 in border to match at the same price per roll as the side wall.. 4c

MUSIC AND THE DRAMA

UNCLE JOSH.

One of the novel advertising devices used by the "Uncle Josh Spruceby" Company, which appears at the Grand Opera House, Thursday, March 7th, to attract attention is the daily parade of the "Hayseed" band. The band itself while of much better calibre than the usual travelling organization, has its members attired as the title indicates in the usual characteristic dress of the New England rustic. Some dressed in their best as on "Circus Day" while some attired in stage boots and jeans appear fresh from 'chores.' With "Uncle Josh" himself in the lead, umbrella and carpet sack in hand, they parade the principal streets and give a concert of choice selections. The parade takes place at noon.

THE VOLUNTEER ORGANIST

The offering at the Grand Opera House last night was "The Volunteer Organist" and the theatre was crowded with an interesting and appreciative audience. The scenic investiture is elaborate, the main street of Cambridge, Vermont, and the Methodist church at Cambridge being particularly attractive. The singing of the choir boys in the latter scene and the playing of the Palms by the volunteer organist, Mr. Fred. Campbell, on the Liszt organ, is highly impressive. All the members of the cast are able exponents of their respective parts and many useful and timely lessons are taught by the realistic characters in the great pastoral drama. The gossip of the small community generally, the dishonesty of some who glaringly pose as pillars in the church, the true heartedness and genuine sympathy of others who make no outward profession, and the trials and troubles which beset the faithful, hard working clergyman in the smaller fields of labor, are faithfully pictured. Even the congregation undertakes to regulate and govern the parson's love affairs and to oust him from his position because he has a strong affection for the devoted, conscientious and amiable daughter of the inn-keeper, a young lady who does much for the relief of suffering and the advancement of true religion among the people. The Volunteer Organist who is a wayward brother of the pastor, Rev. Howard Sturgis, and evinces an honest and determined desire to reform, is coldly treated and many stones thrown in his pathway in his earnest effort to lead a better life and regain his standing in the community. How a practical philanthropist can help the poor, how a clergyman by attending zealously to the spiritual and material needs of his flock and not intermeddling with politics and gossip can best get along, how a little child can influence a drunken father and lead him to see the responsibilities resting upon him and how a village handy man, whose heart is in the right place, can quietly do much good, are vividly presented and the audience goes away feeling stronger and better, more kind hearted and charitable, after witnessing a production, the didactic and wholesome effect of which will not easily be forgotten by those in attendance. The Volunteer Organist is one of the very best attractions brought here this season.

THE CITY AND VICINITY

EVENTS TO-NIGHT

I.O.O.F. Hall, Golden Link Rebekah Lodge concert.

St Paul's church, banquet, to Young Men's Guild.

Mark street church, Canadian Social.

St. Peter's T.A.S. Debating Club meets.

Grand Opera House, Lovers and Lunatics.

ANNUAL RE-UNION.

The annual congregational tea and business meeting of George street church will be held tomorrow evening in the Sunday school room.

CRUSHED TO DEATH.

Fred Gibson, a young man whose home was near Foxboro, was killed at the Craigmont gold mine, North Hastings, on Monday last. A large stone rolled out of a bank, and crushed him so badly that he died almost instantly. He was 22 years old.

DOG DROPPED DEAD.

The dog poisoning season has evidently begun. To-day at noon a small fox terrier dog dropped dead on Aylmer-st., its death being due to poison. Last year numerous complaints were made to the police about dogs being poisoned. It looks like as if the dog poisoner had started on his rounds again.

THE CAR FERRY.

Yesterday the Grand Trunk Engineers were in town, working at the harbor. It is proposed to make two slips, one in the old harbor, and another at Langevin pier. The head engineer stated that three dredges would be sent here, as soon as navigation opens to dig out the harbor.—Cobourg Post.

ORANGEMEN MEET

Diamond L.O.L. No. 80, held their monthly meeting last night. Worshipful Master W. A. Kindred was in the chair. Subjects of great importance were discussed, and in addition to the routine business two young men were admitted into the secrets of the Orange degree. Rev. A. H. Brace addressed the brethren.

NOTHING DOING.

Again this morning there was nothing doing at the police court. A moral wave must surely have struck this city.

WILL MEET TONIGHT.

A meeting of the Central Ontario Medical Association [illegible] the Bank of Montreal chambers this evening at eight o'clock.

MEETING POSTPONED.

Owing to the recent illness of President D. Hughes-Charles of the Board of Trade, the annual meeting has been postponed from the 5th until the 19th.

T. A. S. DEBATING CLUB.

The Debating Club of St. Peter's T.A.S will meet this evening in the assembly hall. The question that will be the subject for debate is, "Resolved, that capital punishment should be abandoned. Messrs. Sharpe, Hickey Faux and Foley are the four gentlemen who will constitute the opposing sides. A general discussion will follow after the decision has been given.

GOOD GROCERY BARGAINS.

By reference to the Review advertising columns it will be seen that Mr. F. J. R. Mitchell has decided to retire from the grocery part of his business and confine himself altogether to the wine and liquor branch of the business. In the meantime the entire stock of groceries will be sold at prices that will ensure a speedy sale. The stock is fresh, up-to-date and at prices at which it is offered will mean money saved to early buyers.

THE THREE C.'S.

Mr. Thos. MacGillicuddy addressed a well-attended meeting of men in the Y.M.C.A. on Sunday at four o'clock. His subject was the "Three C's"—culture, character, and consecration. He held the undivided attention of the audience and his address had a good effect. It was the fourth time that he had addressed the Men's Meeting. The Male Quartette gave a selection which added much to the meeting. Mr. J. F. Thornton led the song service.

GRAND OPERA HOUSE

TO-NIGHT

The Dainty Musical Farce

Lovers and Lunatics

Carpenters and Jointers Meet

Adopt Scale of 27½ Cents an Hour to Go into Force April 1st.

The United Brotherhood of Carpenters & Joiners and the Amalgamated Carpenters and Joiners, met last night and decided upon a minimum rate of 27 1-2 cents an hour for a nine-hour day. The report in the press a short time ago that 30c. an hour would be asked was incorrect. The carpenters never considered such a price. The United Brotherhood adopted the new rate a week ago and the Amalgamated adopted it on Friday night while the joint committee met last night. The new scale comes into force on April 1st.

The raise in price is not a serious one. As a matter of fact most of the carpenters are receiving that much and more now. The action was taken only to protect the younger members and the slower workers.

ANNUAL BANQUET

The annual banquet tendered by the ladies of St. Paul's church congregation to the members of the Young Men's Guild will be held this evening. It is expected there will be a large attendance and a most enjoyable time is anticipated.

SOMETHING TO CROW ABOUT

North End Resident Saw a Crow on Sunday

The first crow of the season in Peterborough has been seen. This must not be mistaken for the crowing of the Examiner hockey team, but a real live crow has put in an appearance. This harbinger of spring was seen on Sunday by Mr. J. C. Smith, who resides on Aberdeen avenue. The bird was in the vicinity of Dixon Park and was probably having a look at the site for the new Normal School. Several other residents in that locality also saw the crow.

Spring must be near at hand when these corn-loving members of the bird family are putting in an appearance.

SPECIAL MEETING OF SCHOOL BOARD

Collegiate Institute Plans Will Come up for Final Consideration.

A special meeting of the Board of Education will be held tomorrow night when the plans for the new Collegiate Institute will come up before the board for final consideration.

Green Ground Bones, ground fine for hens, 3c a pound, at J. Mervin's Butcher Shop.

Fellowship Club Held Meeting

The Fellowship Club of the Y.M.C.A. held their monthly meeting at the building on Saturday night, when much business of importance was transacted, affecting the great work of looking after strangers.

Encouraging reports were given by the committee, and the new committee elected for the period ending June 30th.

A resolution was unanimously passed expressing regret at the removal of Messrs. A. T. Byrd, and Charles Reid, who have been active workers. Mr. Byrd, who was present, made an appropriate and feeling reply.

The work of the club was discussed and a number of good suggestions made by Mr. Williamson in a five minute address.

The club will in future meet regularly on the first Saturday of each month.

PRESBYTERY OF PETERBOROUGH

In Session at St. Andrew's Church To-day

The Presbytery of Peterborough met this morning in St. Andrew's church. About thirty-five were present including the ministers in the territory embraced by the Presbytery. Rev. Mr. Duncan, of Colborne, was appointed Moderator of the Assembly for the coming year. Rev. Mr. Peckover, of Omemee, and Rev. Mr Stirling, of Lakehurst, were introduced as new members of the Presbytery, and extended a hearty welcome.

A letter was read from Rev. Mr. Knells, of the Mill street Presbyterian church, Port Hope, regarding the sale of that church property to the G.T.R. Mr. McNaughton, of Port Hope, was heard in connection with this matter, and a committee was appointed to confer with a committee from Mill street church regarding [illegible].

The application [illegible] Duncan, of Colborne, to retire from active service in the ministry and be placed on the Aged and Infirm Ministers' Fund list, was granted.

A communication was received from the congregation of Lakehurst asking permission to erect a new church at that place. This was granted.

Rev Mr. Reeves read his report of the Home Mission Committee, which showed this work to be in a most satisfactory condition.

Rev Mr. Camp, of Havelock, wrote asking that a student be appointed to take charge of the Round Lake, Oak Lake, South Lake and Stony Lake settlements during the summer. This communication is being dealt with this afternoon.

Rev. Dr. J. B. Wilson, of Winnipeg, was recommended for the chair of Church History and Practical Theology in the Presbyterian College, at Halifax.

Rev. Mr. McFarlane and Rev. Mr. Duncan were appointed representatives from the Presbytery to the W.F.M.S. Presbyterial, to be held at Cobourg in June.

Rev. Dr. Duval was recommended as Moderator of the General Assembly.

The Presbytery went into session again at 2.30 o'clock.

Band at Street Railway Rink to-night.

QUALITY OF HOSPITALITY

To the Editor of the Review.

Sir.—Your contemporary gives another airing to the ancient and hoary jibe of "beer-guzzling" Britishers, in an article yesterday. Surely the quality of hospitality is not strained coming from the descendants of men who were no doubt "guilty" of some "beer-guzzling" on their own account. The Britisher pays four dollars per head per annum for Imperial defence. Jack Canuck pays nothing, while enjoying the benefits. Give the Britisher the same hearty welcome that he gives the Canuck when in Britain, and in God's name let the press at all events cultivate a more charitable spirit.

Yours truly,
BRITISHER.

TO MILITARY MEN

Officers and non-commissioned officers of the 57th Regiment are hereby notified that a class in signalling will be opened in Peterborough, on Monday, March 11th. Those desiring to enroll for the class must report to Col. Miller, Officer commanding, not later than Wednesday night, March 6th.

FROM $750 TO $8,000

I can now offer a varied lot of eligible **DWELLING HOUSES** and **LOTS** in the City of Peterborough, ranging in price from $750 to $8,000. Also vacant lots all over the city at right prices.

FARMERS would do well to see my large list of **FARMS** before buying—many of them being on the market for the first time.

ECZEMA FOR 25 YEARS

·HANDS·SO·BAD·OBLIGED·TO·WEAR·GLOVES·DAY·&·NIGHT·

ZAM-BUK, the great herbal balm, has just worked such a sensational cure in Montreal that it has set the city talking. Mr. T. M. Marsh, of 101 Delorimier Avenue, is the grateful subject of this cure. He says:—

"For 25 years I had eczema in my hands. It started in red blotches, which itched and burned so that I felt I could almost scratch the parts away. Then after the itching came the pain and the soreness. Great open wounds formed and set up terrible agony. I went to a doctor when first the trouble started. He did me no good and I tried another. He also failed, and I tried a third, and then a fourth. My case baffled them all, and I paid my money for no good. Then I tried embrocations, and salves, and liniments, and creams, and preparations recommended by druggists and by friends alike. It was no good. The eczema continued, and I never believed I could be cured. Fancy suffering in that way for 25 years! For the past two years the pain and irritation were so bad that I was obliged to wear gloves day and night.

"Zam-Buk was brought to my attention and I tried a little. To my amazement it did me good. I bought another box, and it did still more good. I tried another, and to my intense delight this herbal balm did what I had been hoping for for 25 years—it cured me. My hands are now healed, and I have put away the gloves which, for two years, had been indispensable day and night. I have been well-known in Montreal and Eastern Ontario for over 30 years, and my case is one which hundreds of people know of. I am glad to make the facts known in the interests of other sufferers who may not yet know how superior and how wonderful Zam-Buk is."

WHAT ZAM-BUK CURES, AND WHY.

ZAM-BUK can do what other ointments fail, because it is free from all animal fats and oils and from all mineral matter. It stands alone in its peculiar composition, being made entirely from herbal saps, essences and juices. Even its color—green—is due to Nature's own coloring, as in the leaves of the forest and the herbs of the field.

ZAM-BUK heals all skin diseases—eczema, scaly sores, ulcers, ringworm, poisoned wounds, barber's rash, pustules, face blemishes due to blood poison, chapped hands, cold cracks, etc. It heals cuts and lacerations, stops bleeding, cures piles, eases fistula, reduces enlarged veins. It cures burns and scalds, and it is an excellent "first aid" remedy. It is highly antiseptic.

All Druggists and Stores sell at 50 cents a box, or from ZAM-BUK CO., TORONTO, for price. Note free sample offer herewith. 6 boxes for $2.50.

X TRY ZAM-BUK at our expense. Send this coupon, 1c stamp and the name of this paper to Zam-Buk Co., Toronto, and we will mail you free sample box. 8 Z 1 X

Electric Light and Gas Plant Will Cost City $207,500.00

Special Power Committee Reports—City Treasurer Adams to Inspect Company's Books—Company Will Furnis[illegible]00 Horse Power at $15 Per H. P.—Other Matters.

The following report of the progress made by the Special Power Committee was read by Ald. Stevenson to the Council last night, and it is well worth perusal:—

To the Council of the City of Peterborough:

Gentlemen,—Your Special Committee appointed to enquire into the purchase of the business of the Peterborough Power and Light Company beg leave to report as follows:—

Immediately after our appointment we communicated with the Company and requested a meeting with Mr. Stuart, which was held on January 22nd. At this meeting much information was given as to the extent of the present business, the revenue, the price asked, and other conditions of the sale, and the Company agreed to furnish all the information asked for by your committee in a few days. On January 23rd we wrote the Company, stating in detail the points in regard to the Company upon which we desired full and exact information, but no reply was received from the Company until Feb. 28th.

The points upon which the committee requested information were the following:—

1. Whether the Company would be willing to consider the sale of the gas plant or of the street lighting plant separate from the other parts of the business.

2. A statement of the assets proposed to be sold in detail showing the condition in which they are in, the year constructed, and any reconstruction and distinguishing clearly how much of the plant at the power house is included.

3. A statement of the revenue and cost of operation for each month during the years 1905 and 1906, with the service of each kind rendered.

4. The amount of gas produced and the amount used by consumers for the year 1906, with sufficient of the previous records to show the effect of the recent reconstruction of part of the mains.

5. A statement of the amount of electricity metered on each circuit distinguishing that used for light from that used for power and showing the maximum loads, and also the amount of water power required for production of the amount so used.

6. The rates at which present contracts are being carried on, with the extent to which rates different from the present standard are still in use.

7. The amount of power which the Company would be willing to supply to the city for a term of years at $15.00 per h.p., in the event of the city finding it necessary to secure more power than would be at their disposal on the expiration of the three years mentioned in your offer.

8. The amount asked for the business and the method upon which the amount is calculated.

9. The terms upon which the Company have had power from the Peterborough Hydraulic Company.

From the verbal statements of Mr. Stuart and his officers and their letter dated Feb. 26th, the following points have been made clear:—

1. The Company are not willing to consider the sale of the gas plant or of the street lighting plant separate from the other parts of the business.

2. The business would be transferred to the city free from all liabilities, and would include the entire plant of any of the allied companies now on the streets of the city.

3. The Company are ready to sell unencumbered the properties of the Peterborough Power and Light Company, as on January 1st, 1907, for the sum of $207,500.00, plus the actual plant expenditures from January 1st, 1907, to date of transfer, and the market value of materials and supplies at such time of transfer. This figure is the amount paid by the present owners for the assets and business of the company, with interest at 6 per cent., no dividends having been drawn, together with the amount borrowed by the local Company for permanent improvements.

4. The Hydraulic Power Company will give the city a lease of from 800 to 1,500 h.p. at $15.00 per h. p. per year for a period of from 5 to 30 years, with the right to the city of cancelling any portion of this power by giving twelve months' notice.

5. The Company will also furnish the city with power at $15.00 per h.p. sufficient to provide for the present business and extension of the lighting system for three years.

Your committee has also been furnished with summarized statements of the receipts and expenditures of the Company and other information, but in fairness to the Company these figures should not be published until the negotiations have reached a more advanced stage.

Your committee have also considered the question of the supply of power necessary for the carrying on of the light and power business if purchased. The committee finds that this power may be obtained in one of three ways.

(a) By the purchase of power from the companies now carrying on business in the city.

(b) By the development of the Waterworks dam.

(c) By the purchase and development of some other water power convenient to the city.

The offer of the Peterborough Hydraulic Company, above stated, affords one means of supplying most of the power required, if it is for other reasons desirable to purchase this power, and it is the only power at present available.

Your Committee have consulted the Water Commissioners with regard to the power available for the development of their dam, and have received the following statement:—

The power available at the present Waterworks dam is 900 h.p.

The power with a new dam with a ten feet head would be 1,250 h.p.

The power available with a new dam with a twelve feet head would be 1,500 h.p.

The power that the commissioners would require to reserve for waterworks purposes would be 800 h.p.

"The commissioners believe that considering the proper requirements of the waterworks, they could not do more than offer 700 h.p. after the new dam with twelve feet head was built, and with the right after five years to resume the control and use of the water power on giving one year's notice."

In view of all the above facts, your committee would recommend:—

1. That the committee be authorized to engage a competent accountant to examine into the details of the business of the Peterborough Power and Light Company for the purpose of obtaining and verifying the information asked for as above, and that Mr. Adams, City Treasurer, be granted permission to take up this work.

2. That the committee be authorized to engage an expert for the purpose of valuating the plant of the Light and Power Company.

3. That the committee be authorized to enquire into the terms upon which any other water power in the vicinity of the city could be purchased, and to consult in regard thereto with the Hydro-Electric Commission, and that the incidental expenses connected therewith be paid by the treasurer on the certificate of the chairman.

All of which is respectfully submitted

A. STEVENSON,
Chairman.

S. S. DAKOTA A WRECK.

Struck a Rock and Sank Forty Miles From Yokohama.

Tokio, March 5.—Advices indicate that the steamship Dakota struck a rock, at 6 o'clock on Sunday night, lost her balance and that her stern plunged into the water. She is now in that position and leaking badly. The damage, it is believed, will be serious. The scene of the disaster is near the Mojima light house, 40 miles from Yokohama. The day was clear, and it is difficult to determine the cause of the disaster. It is presumed that a strong current was reached.

Struck at Full Speed.

Tokio, March 4, afternoon.—The captain of the Japanese steamer Tokai, who was steaming abreast of the Dakota yesterday, reports that when sighted the steamer was at full speed, heading south, when she changed her course quickly in order to avoid danger. Just at that moment she struck with her head down and lower screw exposed. The passengers were panic-stricken, but were rescued by boats from the Tokai and from the land, which took them all ashore. The day was calm, but the dreaded current peculiar to that locality was strong.

The Japanese steamer Omi has been sent to the rescue, but the wreck is unapproachable, and owing to the heavy seas it is impossible to establish connection with the land.

The Dakota lies one mile off shore with her bow under water up to the second mast. She is still sinking.

King to Biarritz.

London, March 5.—King Edward started for Biarritz yesterday morning. He will spend the night in Paris.

After about three weeks' stay at Biarritz His Majesty will join the royal yacht Victoria and Albert in the south of France, and will cruise in the Mediterranean with Queen Alexandra. Their Majesties will return to England towards the end of April.

In the meanwhile Queen Alexandra will entertain in London and at Sandringham her sister, the Dowager Empress of Russia, who will arrive here from St. Petersburg March 7 and remain in England a week.

Burglar's Daring Attempt.

Winnipeg, March 5.—A burglar attempted to rob the jewelry store of Dingwall & Co. here last night while the street was crowded.

Expensive watches were on display, and he threw a jack-knife through the plate-glass window, smashing a hole large enough to permit him to grab a handful.

He failed in his attempt to secure booty, but made good his escape.

No Fear of Strike.

Ottawa, March 5.—A telegram received by the Department of Labor yesterday morning from F. B. Sherman of the Western Federation of Miners stated that there is no fear of a strike in the western coal mines. A conference of miners has been sitting in Calgary, and prospects for an amicable settlement of all questions is excellent.

Perjurer Gets Five Years.

Brantford, March 5.—Joseph C. Drummond pleaded guilty to perjury in the King v. Kennedy murder case, and was sentenced to five years in Kingston Penitentiary, the three years he has served to count in favor.

Superstitions on Skin Diseases

Of all superstitions probably the most foolish is the idea that when a rash or sore is healed and cured by means of external applications it will "strike in" and do further harm. No reputable physician will give any countenance to such a notion. Skin diseases of every form, and especially eczema, salt rheum, scald head, etc., are promptly relieved, and certainly cured by Dr. Chase's Ointment.

Mayor McWilliams on Question of Otonabee Power Co's. Offer

He Outlined the Stand Taken by the Special Committee and Criticized the Local Press for Taking a Different View—Committee of the Whole to Take Matter Up Again.

His Worship Mayor McWilliams took occasion last night at the council meeting to criticize the evening papers for the remarks they made in connection with the letter from the Otonabee Power Co., withdrawing its offer of supplying the city with 500 horse power. His Worship stamped the papers' remarks as ignorance or negligence.

However, the fact still remains that the company once made the offer and gave the council several months to consider it. The council did not accept it and the opportunity was lost.

Mayor McWilliams, wishing to clear the council, briefly outlined the position taken by the special power committee of which he was a prominent member and was instrumental in drawing up the agreement which was objectionable to the company. The mayor stated to the council, in part, as follows:

The city asked the company to reserve 500 horse power for the city. The company only wanted to reserve 500 horse power so long as they had it to spare, which meant nothing at all.

At that time (meaning during the conference) the company pointed out the city's unfair request to hold up 500 horse power and the council modified their request so that the company would only have to hold the 500 horse power for two years, which was all that the company could ask in fairness to the city.

The next question in dispute was the measurement of the power. The company wanted to measure it off the main wires before transformation and the council wanted it measured after transformation. After transformation was what $15 a horse power meant in this city. The mayor desired that the public thoroughly understand the position the council had taken.

Ald. Wilson said that one point the company objected to was bringing the power down to the trans-former in the city and then [illegible] it back again to the Coates Co. To do that meant an expenditure of $20,000. But the Otonabee Co. were willing to allow the Coates Co. to tap their main wires and transform the power at their works.

Mayor McWilliams said the committee did not care where the transformation took place so long as the company did the first transformation. What the city wanted was the power delivered to the city in the same condition that it is to other companies at the present time. In the transformation there is a considerable loss, which would bring the cost up to $16.50 per horse power.

Ald. Stevenson agreed with what the mayor had said and more fully explained the details. The great stumbling block finally was that the company only wanted to sell the city power when they had it, and not hold the 500 horse power for any term of years.

Ald. Wilson asked one of the directors of the company if it was possible to get over the $20,000 expenditure necessary to handle the power twice. He asked if it could not be gotten over by letting the Coates Co. transform the power by installing a transforming plant at the Coates works. The reply was that the cost of the transformed power would be very little more than $15.

Ald. Elliott, Leary, Morrow and Phelan, all expressed their regret that the agreement was not made satisfactory.

Ald. Morrow suggested that the matter be referred to the committee of the whole council and Mr. Hall and Mr. Meldrum be asked to meet them and take the matter up again.

Ald. Johnston and Ald. Bradburn moved that the matter be referred to the committee of the whole council.

The motion carried and will be considered one week from next Monday night by the committee of the whole.

Bell Telephone Company Gets Contract for Fire Alarm System

Agreement Satisfactory to the Council and the Company's Representatives Drawn Up and Sent to Montreal to be Signed—Fire Water and Light Committee Busy.

The contract for the installation and supplying of the new electric fire alarm system will be given to the Bell Telephone Company. All day yesterday, Ald. Johnston, with the Fire, Water and Light Committee, wrestled with Mr. Webber of Montreal, and Mr. Doane of the Bell Telephone Company, over the conditions of an agreement. As a result the parties concerned reached an understanding and Ald. Johnston introduced the matter to the council last night.

The chairman of the Fire, Water and Light Committee deserves great credit, and several members of the council drew attention to the fact for the favorable agreement he succeeded in drawing up. The next thing is to get the manager of the Bell Company to sign it without making a lot of changes.

In introducing the matter Ald. Johnston said he and his committee had consulted with Mr. Doane, and Mr. Webber of Montreal on the matter. Mr. Webber represented the Northern Electric Company and the Bell Telephone Company. They had made an agreement which was satisfactory to the company's representatives and the committee.

Ald. Johnston read the agreement and it was discussed by the council.

Ald. Johnston said that the committee was greatly indebted to Mr. Wm. Lytle for most of the information, and upon his recommendation Mr. Webber, representing the Bell Telephone Co., was requested to give some figures as to the cost of furnishings relays, in case the council decides upon any change. Ald. Johnston said he and the committee had worked very hard to get the matter brought to a head. There was only one thing which he regretted and that was that the rights the city now had with the Canadian Machine Telephone Company for the use of their pole lines would be thrown away. But it was a matter of dollars and cents, and the Machine Co.'s tender was between $300 and $400 higher than the Bell Co.'s.

Ald. Johnston added that the Bell Company offered to take charge of the system after it was installed for $500 per year, but the committee thought it would be better to have a civic official look after the system.

Ald. Duncan wanted to know if the Bell Company would accept that agreement, he would vote for it.

Mr. Webber, on behalf of the committee said he could not sign contracts for the company, but he was pretty sure it would go through without trouble.

Mr. Wm. Lytle said he could not add anything to the matter, but he wanted to point out that the council had practically adopted the Machine Telephone Company's specifications. The Canadian Machine Telephone Company had already strung fire alarm wires on their poles at considerable expense and he was sorry that his company had not received the consideration they were entitled to. He also pointed out that in other cities the city's employees were entitled to go on the company's poles, but in this city they were not allowed to do so.

Mr. Webber contradicted the last statement.

Moved by Ald. Leary, seconded by Ald. Wilson, that the agreement be approved and if signed by the Bell Telephone Company, a bylaw be prepared authorizing the mayor and clerk to sign and seal the same.

In amendment, Ald. Duncan and Ald. Morgan moved, that the matter be referred back to the committee of the whole council.

The motion was carried on a vote of eight to three.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Mr. McGillicuddy Spoke on "Ideals"

Pleasing Programme Rendered at Y.M.C.A. "Pop" Saturday Night

The largest audience of the season greeted Mr. Thos. MacGilicuddy at the 5th "Pop." at the Y.M.C.A. on Saturday night. Mr. MacGillicuddy's visits to Peterborough have now become an annual affair, and the splendid turn out on Saturday night proved his ability to draw and hold the interest of his auditors.

Mr. J. Coyle Brown, P.S.I., occupied the chair, in his usual pleasing and humorous manner. Prof. Devey opened the programme with an instrumental given in artistic style and [illegible] received with hearty applause.

Mr MacGillicuddy's subject was "Ideals," and for over an hour he kept his audience in good humor with the well selected anecdotes with which his lectures abound. Nor are his jokes and stories lost, for each bristles with points which he applies in a clear and forcible manner. He had his audience with him from start to finish, and was loudly applauded.

The "Pop" closed in the usual way, the thanks of the audience being tendered to the entertainer of the evening.

Some Results of Torpid Liver

Headaches, bad taste in the mouth, indigestion, feelings of fulness and discomfort, constipation, backache, kidney derangements and bodily pains are some results of a sluggish, torpid liver. By their extraordinary influence on the liver Dr. Chase's Kidney-Liver Pills positively remove the cause of these ailments and disorders.

CHEAPER WATER

In a city like Peterborough where mains are laid on nearly all the principal streets, it should be cheaper for the average citizen to use city water than well water. Since the commissioners have taken full charge of this civic department, this is the object they have had constantly in view. The discount has been increased the water has been getting cheaper and soon the consumers in Peterborough will pay less for water than those in any other city in the province. In case the bill now before the Ontario Legislature carries, whereby, the commissioners will be enabled to [illegible] vacant properties, fronted by the mains it is understood to be the intention of the board to further reduce the rate. Instead of the discount being 25 per cent., it will likely be 33 1-3 per cent. This will mean a material saving to the actual consumer and will doubtless add greatly to the number of takers.

In other words the water will thus be made so cheap that the actual patronage will result in even a larger revenue to the department than in the past. Last year the surplus was about $7,000, after meeting all expenses, providing a liberal sum for extensions, etc., and meeting the interest and sinking fund on the debentures. It is also naturally expected that the amount which will be returned to the public in the decreased rate will be made up by the income from frontage tax, on vacant properties, that is, providing the present legislation carries. In the event of the commissioners not obtaining power to tax all property fronted by water mains, it is believed that the present discount—25 per cent.—will be slightly increased although it will not reach the 33 1-3 per cent. mark.

There is no reason why vacant properties made valuable and saleable by reason of being fronted by water mains should not bear a just proportion of the cost of the maintenance of the waterworks system. All properties, to which water pipes are contiguous, share in the benefit either directly or indirectly, and it is hoped that the power sought by the board will be granted, and the proposed increase of the discount carried into effect. Cheap water is a great desideratum and the commissioners deserve credit for their persistent and faithful efforts to bring it about. The increased discount, whatever may be decided upon will go into effect in July, next.

PEN POINTS

It would perhaps be as well for the city authorities to clean their own door steps of snow and ice before ordering others to do so.

In connection with the gathering of East Peterborough Liberals at Norwood on Saturday Mr. J. R. Stratton, who was present, stated that merely "in his newspaper capacity" he had dropped in to see them. How long before he will appear before them as an aspirant for nomination in the riding, if he has not really done so already? Ask Mr. Finlay or Mr. Buck. What a handy phase "in a newspaper capacity" is at times.

There appears to be a feeling of regret that the internal affairs of a certain city church should have received publicity. There has been a tendency to attach the blame on the officials of the congregation. Neither the Session nor the Board of Managers have given out official or unofficial information on the subject and therefore so far as they are concerned their record is clean in this respect.

The Toronto Globe has of late devoted no little of its editorial space to the denunciation of Messrs. Fowler, Pope, et al., for having purchased tracts of land in the Northwest from the Canadian Pacific Railway Company at the market price at the time of application, viz., $3.50 per acre, but has found neither space nor time to devote to the speculations of friends of the Government and members of Parliament supporting the Government for having been favored by the Interior Department with thousands of acres of land at $1 an acre. Why? Because it is not honest.

How long will we have passed from this terrestrial sphere before we have been forgotten? Will we soon be numbered with all that has passed? Can it be true that "the evil that men do lives after them, while the good is often interred with their bones?" Yet how pathetic is the career of some. An instance of this is furnished by the following extract from Collegiate Echoes:—When the old play sheds in the school grounds were razed last summer and the boards and timbers carted away, there disappeared a land mark which had stood for years, and had seen passing and repassing it every day scores of pupils, who in a few years would disappear from sight, only to have their places taken by others. For years this building was "played in, and more than that, fought in, for here safe from the teachers, was an ideal place for a "scrap." The sides of the building were covered with carved names, initials and dates. The oldest that came to the writer's observation was one, 'G. Brittain, 1859.' 'R.T.S., 1864,' was also there, and others, 'J.L.M., '69'; 'P. F. May 2nd, 1870,' and 'T.M., 1888' were also among those which were carved deep and lasting. How interesting it would be if we could learn the histories of those whose names were there; but this will undoubtedly never be done, and now that the shed is gone, all these are lies of the past have disappeared.

Cook's Cotton Root Compound.

Could Not Speak Above a Whisper

COLD IN THE CHEST SEEMED TO BE UNMOVABLE, BUT CURE WAS SOON EFFECTED BY

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

It is waste of time to use ordinary cough mixtures for serious colds on the chest, and time is of infinite value when the lungs are in danger.

The risk is too great, especially, when you wait to think that Dr Chase's Syrup of Linseed and Turpentine is for sale in nearly every store that keeps medicines at all.

This letter gives some idea of the effectiveness of this great medicine.

Mrs. A. Barnum, Ingersoll, Ont., writes, "My husband had a very severe cold on his chest and got so bad that he could not speak above a whisper. The cough medicines he tried seemed to have no effect, and reading about Dr. Chase's Syrup of Linseed and Turpentine I sent for a bottle. In two days he was cured and is very grateful for such a medicine. He says he will never be without this medicine in the house."

The very name of Dr. Chase's Syrup of Linseed and Turpentine is sufficient to explain the simple and yet powerful and well-known ingredients, of which this medicine is composed.

While linseed sheathes the mouth tongue and throat with a protective coating to prevent injury from hard coughing, turpentine disinfects and stimulates the ulcerated parts of the bronchial tubes and lungs, and is almost specific for bronchitis.

Other ingredients which along with these go to make up Dr. Chase's Syrup of Linseed and Turpentine, soothe the nerves, loosen the cough, aid expectoration, and by thorough action on the whole system completely cure coughs and colds, bronchitis, asthma, whooping coughs and sore throat.

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto., To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every bottle.

A PRACTICAL SAIL MAKER

Mr. Thomas Turner, of London, Brother of Mr. J. J. Turner, Arrives in the City

Mr. Thomas Turner, of London, England, youngest brother of Mr. J. J. Turner, has arrived in the city and will take up his residence here. Mrs. Turner and family will follow shortly. He is an experienced and practical sail maker and this is his first visit to Canada. He will be employed in the sail making department of J. J. Turner & Sons' big factory.

The Canadian Fire Underwriters' Association demand better fire protection in Montreal.

Fighting Great White Plague Outline of Plans Proposed

Provincial Board of Health Will Take Active Steps.

Compulsory Notification From Physicians May Be Adopted—Terrible Growth of This Disease in the Province—Bill to Amend Liquor License Act Held Over Till Next Year—Mr. Hanna's Denial.

Toronto, March [illegible].—The [illegible] Government plans to actively assist in the great movement to fight tuberculosis. To this end the Provincial Board of Health will be asked to take up the whole problem of the white plague, the advisability of calling for compulsory notification from physicians in all cases and the establishment of county Boards of Health and sanitoria.

Growth of White Plague.

"The Provincial Board will be asked to take up the matter earnestly, definitely and actively and lay before the Legislature at its next session its report and recommendations."

Such was the announcement of the Provincial Secretary, Hon. W. J. Hanna, at yesterday's sitting of the Legislature. The decision was reached on the vigorous advocacy of Mr. J. P. Downey (South Wellington) who will submit to the Provincial Board for its assistance the measure he has drafted, and the startling statistics showing the terrible growth of the dread disease in the Province he has prepared.

A Tremendous Problem.

Mr. Downey's address was an exceptionally strong one. "This is a tremendous problem," he declared. We cannot afford to be longer lethargetic, indifferent or inactive. We must stem the terrible tide of the plague in our Province. We must determine what public measures can best and most effectively be taken, independent of economic and financial considerations. Consumption seeks life at the period of greatest happiness to the individual and greatest value to the community. It is the first duty of our Government to watch over the health of our people. This Legislature has a solemn and sacred duty to [illegible]

The Assessment Act.

Hon. J. P. Whitney, the Prime Minister, announced that he would, on the morrow, be in a position to suggest a method of dealing with all the amendments to the assessment act—a method which he thought would do away with the necessity for many of the pending bills on the subject.

Aid For Temperance Hotels.

Mr. J. J. Preston (East Durham) moved the second reading of his bill to amend the Liquor License Act, which was designed to permit municipalities which adopted local option to extend aid to temperance hotels.

Hon. Mr. Hanna asked the member for Durhaw to hold the bill over till next year in order that due consideration might be given to the important step it contemplated, and that the opinion of the municipalities might be ascertained.

Hon. Mr. Hanna, speaking to a matter of privilege, took occasion to emphatically deny a published report that he, Hon. Dr. Pyne and Mr. W. K. McNaught had held a conference over a Toronto license transfer. "There is absolutely no foundation for the statement," was his brief and effective comment.

An All Night Session Again; Lot of Business Put Through

But a Lot of Time Was Also Wasted--Mayor Will Have Snow By-law Enforced--Overhanging Sign By-law Will Not be Enforced--Deputation to Toronto.

Another one o'clock session of the council was held last night. A lot of business was put through, it is true, but there was also a great deal of unnecessary talk and explanation. There was no excuse for the meeting being prolonged until after midnight and had it not been that a special council meeting was held last Monday night the aldermen would have been in the council chamber until daylight.

His Worship the mayor was instructed to have the snow bylaw enforced in the business parts of the city and he says he will have it enforced to the letter. If the snow is not cleaned off prosecutions will be made and if the case is proven he will see that the magistrate makes a commitment.

The council also put through a number of other matters of interest to the city.

The members present were, Mayor McWilliams, Ald Phelan, Morrow, McIntyre, Wilson, Duncan, Morgan, Bradburn, Stevenson, Leary, Elliott, Tovey, Johnston.

The minutes of the last meeting were read and adopted.

The following communications were read and adopted;

COMMUNICATIONS

From property owners petitioning for a pipe sewer on Patterson street from Park to westerly limit of lot 21, plan 40; on Hart avenue from Patterson street to a point 180 feet south of Patterson street.—Referred to Board of Works.

From property owners petitioning for a granolithic sidewalk on the north side of Patterson street, from Park street to the westerly limit of lot 20, plan 47; on south side of King street, from Park to John street.—Referred to the Board of Works.

From property owners asking that the following streets be watered this year; Hunter street, from Park to Belmont avenue, and Belmont avenue from No. 1 Homewood avenue to Weller street.—Received.

From the Ontario Legislature saying that the Ontario Municipal Union has submitted a bill giving cities the option of holding municipal nominations on the last Monday of November and polling on the first Monday of December. The communication asked for the views of the mayor and council of Peterborough for or against the proposal at the earliest possible moment.—Received.

From Geo. A. Smith, applying for the position of engineer for the fire hall, and enclosing from W. D. Robb, superintendent of motive power, G.T.R. Smith's several years' record with that company from wiper to engineer.

COLLECTOR'S STATEMENT

Tax Collector W. J. Green, submitted his monthly statement as follows;

Total amount on roll, $125,742.68
Total amount deposited, $118,250.68
Balance, $7,492.00.

Amount taken and deposited during month of February, $508.85.

MR. HUGHES' COMPLAINT.

Mr. J. L. Hughes was present and addressed the council on the spur the street railway put in at the corner of Park street. He claimed it materially interfered with the entrance to his property. The same matter was up last year, but the council did not think Mr. Hughes had any serious claim and nothing was done. Since, however, he has notified the council that unless something was done he would enter a suit against the city. This he did not want to do unless compelled to. He did not want damages, but did want to have the turnout moved to the south side of Charlotte street on that little park.

Mr. Hughes' request was referred to the Board of Works and it is to be taken up at once.

KINNEAR SIDING.

The next matter taken up was the application of T. Kinnear & Co. for a siding to his new warehouse near the C.P.R. station. It is claimed by the C.P.R. that it is not possible to get a siding in from the rear. Mr. Kinnear then asked to be allowed to cross George street continuing the Central Milling Company's siding.

All the aldermen had something to say and the majority were of the opinion that the C.P.R. could get in from the rear if the council said that the crossing could not be made over George street. The general opinion was that no railway could cross George street and the matter was left that way.

Ald. Morrow asked what the council proposed to do with the Board of Education's demand for $25,000 for the remodelling of the North Ward school.

Ald Johnston moved that a conference between the committee of the whole and the Board of Education be held.

PRIVATE LEGISLATION

The city's private bill will come up in the private bills' committee in the near future and the mayor suggested that a small deputation be sent to Toronto to interview some of the members of the Legislature's committee on Wednesday. Then the bill would be up before the Legislature before the end of the month. The mayor asked that a larger committee be appointed to go up at that time.

Ald Duncan moved and Ald. Morgan seconded, that the mayor, Ald. Morrow, Phelan, Bradburn and Stevenson be appointed.

Ald Tovey suggested that in addition to the council's committee a very strong deputation of representative citizens also go up and endeavor to have the bill passed in full, or as nearly as possible, the mayor to have power to add to the committee.

WILL ARBITRATE.

Moved by Ald. Duncan, seconded by Ald. Morgan, that notice of arbitration be served upon Miss McMann, the Halpin estate, and Mr. Duncan, to provide for the extension of George street to Lansdowne street.—Carried.

Moved by Ald. Duncan and Ald. Morgan that the Board of Works be authorized to advertise for tenders for street watering and to let contracts.—Carried.

OVERHANGING SIGNS.

The mayor brought up the matter that the last bylaw the city passed regulating overhanging signs was too stringent. The bylaw allows only illuminated signs to project over the sidewalk. At the present time there were a great many small signs projecting a few inches from the building with only a name on it. In other words the new bylaw prohibits all overhanging signs and the signs will have to be taken down.

Ald McIntyre moved that the engineer be instructed to not enforce the bylaw until the council had an opportunity to reconsider it. Ald. Phelan seconded it.

Ald. Morgan thought the present signs should be left up and prohibit any more signs going up.

[illegible] strongly [illegible] the bylaw being interfered with.

The motion was lost and the bylaw stands.

SNOW CLEANING.

The mayor brought up the snow cleaning bylaw. This is another dead letter and the police have not attempted to enforce it because the magistrate would not convict under it. But if the council wants the bylaw enforced the mayor said he would see that it was enforced and if the magistrate would not convict in cases where strong evidence is brought out by the prosecution he would find out the reason why.

Several of the aldermen backed up the article in the Review last night complaining about the manner in which the police gave orders on Saturday. There was very poor judgment used and it caused great inconvenience to the public.

Ald Tovey and Leary moved that the enforcement of the bylaw be left in the hands of the mayor to include the business part of the city.—Carried.

In amendment Ald. Bradburn and Elliott moved that the bylaw be enforced only in the business portion.—Withdrawn.

In amendment to the amendment Ald Phelan and Ald. Morrow moved that no action be taken.—Lost.

Ald. Bradburn withdrew his motion.

BUILDING PERMITS

The property committee made a report recommending that a bylaw regulating the building operations in the city and providing for the issuing of building permits, be passed. The bylaw was, however, referred to the committee of the whole council to consider.

The report was as follows;

To the Council of the City of Peterborough;

Gentlemen;

Your Property Committee begs leave to report and recommend as follows;

That a bylaw be passed requiring permits to be taken out for the erection or alteration of any building in any part of the city, and requiring all applicants for permits to file an application with the city clerk specifying the kind, dimensions value, etc., of the building or alteration, and to receive the permits from the clerk, the permits to be countersigned by the city engineer if the application refers to any part of the fire limits.

Health and Vitality for Old People

As old age creeps on vitality is lowered, the heart beats more slowly, the blood becomes thin and watery and the power of resistence is lessened. It is the old people above all others who require the new life and energy which come with the use of Dr. Chase's Nerve Food. Thousands of old people depend on this treatment, because it calms and quiets the nerves gradually and certainly enriches the blood, builds up the system and instils new life and vigor into their shrivelled arteries.

Prize Presented to the Winners

In the Recent Collegiate Echoes Story Competition

Yesterday afternoon the regular meeting of the Philomathean Society, of the Collegiate Institute, was held in the Y.M.C.A. assembly hall. The programme was largely composed of selections from Blackmore's Lorna Doone and was greatly enjoyed by those present. Mr. Fred Brown occupied the chair.

One of the most enjoyable items on the programme was a paper on the life of Blackmore, which was read by Miss G. Todd. It dealt with the author's life from his early boyhood, spent at Blundell school house in Devonshire, to the writing and publishing of Lorna Doone, which was Blackmore's greatest success.

In a synopsis of the book Miss May Nesbitt gave the audience a brief, but very vivid account of the story, and her efforts were appreciated, was evidenced by the applause received.

Miss A. Minns and Master Harold Brown, contributed two well chosen and well rendered readings from the book.

Besides the foregoing several piano selections by Harold Brown, Miss M. Squair, Miss K. Burnette and Miss F. Routley, and a vocal solo by Miss Hollihan formed part of the program.

After a short criticism of the meeting Mr. F. D. Kerr gave an interesting report of a visit to Devonshire. He was tendered a vote of thanks by the pupils.

At the conclusion of the meeting Mr. Kenner presented to Miss M. Edwards, winner of the Collegiate Echoes' story competition, [illegible] Shakespeare's works. The second prize went to Miss G. Todd, who received a set of Dickens' works, and the third prize to Miss M. Mann, who received a copy of Robert Burns' works.

The meeting adjourned after singing the National Anthem.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

Magistrate Has Perplexing Case

Has Received Strange Letter From Warkworth Woman

County Magistrate Edmison received a somewhat unexpected communication yesterday, which has been causing him to rack his brains in his endeavors to recall the circumstances of a case to which his attention has been directed. Yesterday's mail brought him a letter from a woman at Warkworth in Northumberland county, asking him if he had made any progress regarding the capture and arrest of a man whose name is given. The magistrate has no recollection of the names given, and cannot understand what case the woman is referring to, as Warkworth is not in the jurisdiction of a magistrate of Peterborough county. However, he will write to the woman to secure further particulars and try to solve the mystery.

Japan and its People Described

Address by Rev. D. Norman at Charlotte Street Epworth League Meeting

An interesting missionary address was given last evening illustrated with limelight views, at the Charlotte-st. Methodist church, by Rev. D. Norman, a returned missionary from Japan. The Sunday school was crowded with people and the lecture was listened to with the greatest attention. Rev. Mr. Manning opened the meeting by asking the audience to join in singing "From Greenland's Icy Mountains," after which Rev. Mr. Lewis offered prayer. Rev. Mr. Norman was then introduced. As each view was thrown on the canvas the speaker described it. The views were most distinct and depicted many beautiful scenes in Japan. The natural scenery of Japan is very beautiful and many tourists visit Japan each year attracted by it. Pictures showing the Japanese gathering tea in the fields, their manner of calling on their friends and many other interesting features of the Japanese race were shown. Japan in its ancient days as well as in these modern times was illustrated by beautiful pictures. At this juncture something went wrong with the machine and Rev. Mr. Norman sang a Japanese hymn. He said the Japanese singing was most weird, but they were not singers. They are now learning to sing our hymns the same as we do in our Canadian churches. The Japanese people, or a great many of them, were fast taking hold of the Christian religion. Many very handsome churches have been built throughout the country and many of them were self-supporting, and in some cases Japanese ministers had charge of the churches.

The Japanese mode of farming and their dwelling houses were also vividly described by the speaker. Many realistic views of the Jap-Russian war were also shown. The speaker told of the great suffering which existed as a result of the war. He spoke of families who on the verge of starvation, in their great suffering would eat almost anything to keep up their existence and paid a high tribute to their appreciation of the efforts of the relief committees. Pictures of the Y.M.C.A. building at Tokio, the Central Tabernacle and many other fine buildings of the city of Tokio were thrown on the canvas. Rev. Mr. Norman spoke of the need for missionaries to go to Japan. Great work has already been done, but there was still greater work to do.

A collection was taken up and Miss Sperry rendered a solo in her usual excellent manner.

The meeting was closed with the singing of a hymn and the benediction.

Arnprior Here To-morrow Night

Crack Eastern Team Will Play the Locals

Much interest centres in the appearance of the Arnprior hockey team here tomorrow night. The visitors are the champions of the Upper Ottawa hockey league and as there has been much said about the superiority of eastern hockey over that played in the west, it will be interesting to see how the game pans out. Just how the Easterners will line up is not known. It is whispered that they will strengthen their septette by the addition of several Ottawa men. If this is the case it will add interest to [illegible] Ottawa is noted for its [illegible] players, and there are many here who would like to see some of them perform.

Chieftains Won From West Ends

By Score of 7 to 4 in Brock Street Rink

The Chieftains defeated the West Ends last night at the Brock street rink by a score of 7—4. This makes the Chieftains the winners of five straight games without a loss. They have scored 44 goals to their opponents' 20. The game last night was very interesting and was a regular see-saw one but, when the Chiefs had a chance to pass the puck, they did it. The West Enders had no combination whatever. The score at half time stood two all, and when there was just five minutes to play it was 4—4. The Chiefs got going and kept the puck around the Enders goal with great success. Bravender, the only new man on the Chiefs line-up played a splendid game in the place of Fortye, who was ill.

The teams lined up as follows;

West End		Chieftains
Clithroe	Goal	Lees
Turner	Point.	Munroe
Geale	Cover.	Bravender
Johnston	Rover	Crane
Worboy	Centre	Hall
Hawley	Right Wing	Burritt
Erno	Left Wing.	Wallace

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to to please. Try a few cans.

C.P.R. Will Come To Peterborough

Terminal of Georgian Bay Line Will be Havelock, But This Will be on Main Line

In spite of the report from Havelock that the C.P.R. new line from the Georgian Bay will have that town as its terminal, the Review was informed on excellent authority that the line would pass through Peterborough. The company realizes that this city is far too big a place and far too important a shipping centre to pass by.

It is true that the terminal will be at Havelock, because it is there now, and it would not be advisable to move it to Peterborough. The company requires terminals every hundred miles and this city is too close to Toronto, while Havelock is just the right distance.

PERSONAL

The Edmonton Bulletin says: Mrs. McCaig, formerly of Peterborough, was the hostess at a large and enjoyable tea on Saturday afternoon. Mrs. McCaig, who was assisted in receiving by Mrs. McQueen and Miss Jean McCaig, wore a pretty gown of champagne voile with dainty blonde lace trimmings. Miss McCaig was prettily gowned in white organdie.

Record of Peterborough Team for This Season

Played 12 Games and Only Lost 3 and Scored 104 Goals to Their Opponents' 74—Some Interesting Information.

As the Peterborough O.H.A. hockey team has disbanded it is interesting to review their work for the past season. The team played twelve games, four exhibition and eight league fixtures. They won six league games and lost two and won three exhibition matches and lost one. In league games they were defeated by Kingston and Midland on the winning team's ice in each case. They lost an exhibition game to Queen's but won from Toronto Varsity, Marlboros and New York Crescents.

In the twelve games played they scored 104 goals to their opponents 74. In the eight league games they scored 68 goals to their opponents 45, and in the exhibition games 36 goals to their opponents 29. Moore and Crowley were the only men who figured in every game during the season. Lang, Glover and Morgan each missed one.

The following are the games played by the Peterborough team during the season and the scores in each one:

Dec. 25th.—Peterborough versus Marlboros at Toronto. Score, Peterborough, 12; Marlboros 11. Exhibition game.

Dec. 28th.—Peterborough versus Queen's College at Peterborough. Score, Peterborough 8, Queen's 10. Exhibition game.

Jan. 4th.—Peterborough versus Toronto Varsity at Peterborough. Score, Peterborough 9, Varsity 4. Exhibition game.

Jan. 11th.—Peterborough versus 14th Regt. team, Kingston, at Peterborough. Score, Peterborough 7, Kingston 3. League game.

Jan. 16th.—Peterborough versus Marlboros, at Toronto. Score, Peterborough 10, Marlboros 6. League game.

Jan. 21st.—Peterborough versus Midland at Peterborough. Score Peterborough 14, Midland 5. League game.

Jan. 26th.—Peterborough versus Argonauts at Toronto. Score, Peterborough 4, Argonauts 2. League game.

Jan. 30th.—Peterborough versus Kingston at Kingston. Score, Peterborough 2, Kingston 4. League game.

Feb 8th.—Peterborough versus Argonauts at Peterborough. Score, Peterborough 12, Argonauts 6. League game

Feb. 12th.—Peterborough versus Midland at Midland. Score, Peterborough 6, Midland 13. League game

Feb. 20th.—Peterborough versus Marlboros at Peterborough. Score Peterborough 13, Marlboros 6. League game.

Feb. 22nd.—Peterborough versus New York Crescents at Peterborough. Score, Peterborough 7, Crescents 4. Exhibition game.

Examiner Practice Was Weird Sight

The Examiner hockey team has to be seen at practice to be appreciated — und comprehended. Manager Craig has gathered into his fold some of the greatest non-hockeyists that ever donned the steel blades in this or any other clime. From the mighty Hutchinson down to the diminutive Clarke, every one of them is a specialist, but unfortunately not at hockey. For instance Manager F. Corntassels Craig is a specialist with the [illegible] but he can't distinguish between a hockey stick and a harpoon. B. Trundler Huston knows how to flirt with the summer girls who frequent the region of Stony Lake, but he has his doubts whether he should stand on his skates or slide on his nose. M. J. Hutchinson is an expert around a machine shop, but he left his knowledge of hockey hanging up in the woodshed when he left Bowmanville. A. J. Bolwell made his first appearance as a hockey player and covered himself with snow and perspiration, but mighty little glory. Among other things he ruffled his hair, ruined a new $1.25 Christy and broke a new pair of shoe laces. Huston donned a red sweater in order to be conspicuous and after events showed the wisdom of his precaution. Watch for him Thursday night; he is the boy with the Otonabee smile and Warsaw speed. Theobald and Ash were also bright spots, but nature is to blame for this, not their ability as hockeyists. F. Corntassels Craig, who has been dieting on shingle nails and large headed tacks for the past week, divided his attention between the puck and a coterie of feminine friends on the side! We would advise him to leave the puck alone in the future. For some reason or other Melville Jenkinson Hutchinson has apparently taken a vicious grudge against the boards along the side of the rink, and last night attacked them savagely on several occasions. But the boards are still there. Henry, who will play one of the wing position on the Examiner team, is so fast that he wore a large scarf around his neck to keep himself warm. But even then he had cold feet, an ailment which is affecting all the Grit players. Robinson has length and speed, principally length. Bent, the hardware man who is supplying the nails upon which the Examiner misfits are dieting, turned out with his proteges last night. He added strength to the line. After the practice the rink management disinfected the ice and cleared up the remnants. "Buster Brown" Clarke was on hand, but as he had left his toweights at home, he was not allowed to don his skates.

MR. HARRY MORGAN
Who Figured in all But One Game

ANSWERS TO CORRESPONDENTS

Sweet Marie—Would it be safe to bet that the Examiner hockey team knows less about hockey, than a Grit politician does about honesty?

Answer—We don't advise you. There is too much similarity between the objects compared.

Alice, East City—I wish to present "Knocker" Theobald with a bouquet of flowers on Thursday night. What color would you recommend?

Answer—If you desire harmony in the color scheme red carnations would be in order. Cabbages in a verdant state would also be appropriate.

Bedelia, George street—What caused the temperature to take such a sudden drop on Saturday?

Answer—The weather authorities were unable to account for the sudden change; until it was discovered that the cold feet of the Examiner hockey team were affecting the atmosphere.

Flower of the Corn, Stewart street—Is A. J. Bolwell?

Ans.—He is in good health as far as we know though suffering to some extent from heart disease.

Scotch lassie, Dublin street—Is that handsome mon wi' the name o' McErien, wha will play on the Examiner hockey team a Scotchman?

Ans.—Sure! He is a native of Kintail in the Scottish Highlands, and it is understood is determined to wear the kilts in Thursday night's game. Manager Craig is trying to dissuade him from doing so.

Annie, Lock street—Is it true that Manager Josh Craig has been offered a position with the Bell Telephone Company, and if so, what position?

Ans.—The rumor is correct. He is wanted to fill the position of a long distance cable.

Golden Locks, Hunter street—Has the musical farce, "Lovers and Lunatics," which appears at the Grand opera house tonight any reference to the Examiner hockey team?

Ans.—This is a delicate question. We will send a private reply, if you will send a self-addressed, stamped envelope.

Examiner Supporters Discuss Their Team's Prospects.

CASTORIA
For Infants and Children.
The Kind You Have Always Bought

LAIDLAW & OLES,
Proprietors, Peterboro'

KNOX SENIORS WON.

A very speedy and interesting game of hockey was played at Knox rink last night when the Grafter's Club went down to defeat by the Knox Seniors by a score of 7—2. Both teams showed up well, and, but for the good work of Sherwood in the nets for the Grafters, the score would have been much larger. Herd was responsible for the Grafters two goals, while for the Knox Seniors, Galley scored two and Morphet three.

The line up was as follows;

Grafters		Knox Seniors
Star Sherwood	Goal	W. Killingbeck
Big Chief Haskill	Point	R. Hamilton
Butcher Reilly	Cover	W. Galley
Grafter Mann	Rover	V. Morphet
Sweetee Herd	Centre.	E. White
Spanger Lightfoot	L Wing	B. Bartley
Tooter White	R. Wing	B Ryan

Referee—Bruce Hopkins.

BANKERS PLAY HOCKEY.

This evening between five and six o'clock, the Bank of Toronto hockey team will play the Bank of Ottawa septette a friendly game of hockey at the Brock street rink.

WANDERERS TO PLAY.

Between seven and eight o'clock this evening, a fast game of hockey will be played at Brock street rink, when the speedy little "Wanderers" will play Park Porter's fast picked bunch. Both teams will work hard to win, as it is rumored the losing team has to put up an oyster supper.

CURLING

LAST NIGHT'S GAMES.

The curling rink is being made good use of these nights. The knights of the besom and stane realize that a couple of weeks more will see the end of the season and are not losing any time. Five rinks were in use last night and the rinks and results were as follows:—

W G Read	J Gibson
W Lang	T Brightman
T J Wallace	R Neill

Harry Smith With Arnprior Team

Star Centre Player of the Ottawas Will be Here To-morrow Night

It is stated on good authority that Harry Smith, the crack centre of the Ottawa Eastern League team, will play here to-morrow night with the Arnprior team. Smith has played several games with the Arnprior team this season and is a tower of strength to them. Harry Smith is a member of the famous Smith family of hockeyists and is one of the high scorers of the crack eastern teams. It will be interesting to see how he will show up against an O.H.A. team.

Presbytery Had Much Business

Minister at Pontypool Resigns Report of Standing Committee.

The Presbytery of Peterborough resumed its second session at 2.30 p. m. Rev. P. M. Duncan, of Colborne, was Moderator. The reports on Augmentation, Home Mission Work, Church Life and Work, Sabbath Schools and Presbyterial Statistics were read and duly considered. The reports showed progress both numerically and financially.

The resignation of Rev. D. P. Oswald, of Pontypool, was tendered. Mr. Oswald stated, while he enjoyed his work, yet the field was more arduous than his physical strength would permit. The Presbytery sympathized with Mr. Oswald and spoke very highly of his good work at Pontypool and associated stations. The Presbytery regretfully granted Mr. Oswald's request, and fixed his release for the last of April. Dr. Marsh of Springville, was appointed interim moderator, and to declare the charge vacant on the first Sabbath in May.

Leave to moderate in a call was granted both to Pontypool and Warsaw when the congregations were ready to call.

A committee consisting of the Rev. Messrs. Macfarland, Wm. Johnston, Beattie and Lord, ministers; and Messrs. Clark, Cullen, Mann and Little elders, was appointed to confer with the officials of St. Paul's church, city, in reference to matters affecting the welfare of the congregation.

The report on the Standing Committees was read as follows, the first named being that of the convener of that committee:—

Home Missions — Rev. Messrs. Reeves, Macfarland, Potter, ministers, and L. L. Owen, elder.

Augmentation—[illegible] McKenzie and elder for Baltimore.

Church Life and Work—Rev. Messrs. Beattie, Lord, and elder for Cobourg.

Sabbath Schools—Rev. Messrs. Camp, Burns, and elder for St. Paul's, Port Hope.

Y.P.S.—Rev. Messrs. Burns, Abraham and Wm. Fowler, elder.

Supervision of Students—Rev. Messrs. Macfarland, MacLennan, and elder from Warkworth.

Statistics—Rev. Messrs. Thomson, McDonald, and elder from Hastings.

French Evangelization— — Rev. Messrs MacLennan, Reeves, and elder for Norwood.

Evangelistic Services—Rev. Messrs. MacKenzie, Marsh, and elder for Centreville.

Foreign Missions—Rev. Messrs. Peckover, Wm. Johnston, and elder for Omemee.

Systematic Giving—Rev. Messrs. Lord, McLeod, and elder for Mill street, Port Hope.

Aged and Infirm Ministers and Widows' and Orphans' Fund—Rev. Dr. Torrance, Mr. Burns and elder for Lakefield.

The Rev. S. S. Burns, Lakefield, was appointed secretary of the Presbytery.

Commissioners to the General Assembly, which will meet in Montreal in June next, were Rev. Messrs. Potter, Reeves, Duncan and Macfarland, ministers, and Messrs. Tucker, McLean, Cuthbertson, and J. F. Clark, elders.

The Presbytery adjourned, to meet in St. Andrew's Church, Peterborough, on Tuesday, 26th inst., at 9 a.m. and was closed with the benediction

THE STORE THAT NEVER DISAPPOINTS

"OUTFITTERS TO DISCRIMINATING WOMEN"

SPRING IS HERE

EASTER, With the opening of the Spring Season, is only a few weeks away. We are splendidly ready with everything that charms the feminine taste—whiffs of brightness and beauty that act as prophets of the pretty things in planning for the Spring. THE NEW "TOURIST" COAT—For general utility this will be popular this season. The fabrics are Coverts and light Spring mixtures **$10.00 up to $12.00**

"Come every day and keep in touch with the new styles as they arrive"

Your Made-to-Order Easter Gown.

Our lavish display of the NEW SPRING DRESS FABRICS is meeting with unstinted praise every day. They are correct and exclusive in every respect. The assortment comprises everything that Dame Fashion prescribes should be worn by particular and dressy women.

Our Dressmaking Department under the management of Miss Wesley, is working full blast on some exquisite Easter Gowns. Have you booked your "turn" yet?

WASH FABRICS

IN ENDLESS ASSORTMENT

Such an aggregation of soft, filmy beauties was never seen even in this progressive store. All sorts of weaves and conceits. The color schemes seem to vie with nature in their true blendings and soft shading tones, and then there are the more substantial fabrics in Delainettes, Cambrics, Zephyrs, etc. Our assortment of "White" Muslins is better and greater than ever. Taking the Wash Goods as a whole, they are as pretty and as welcome as the flowers in May.

P.S.—Look for Saturday Snap Ad. in Friday's papers.

Cressman's

PASSED AWAY IN TORONTO

Death of Mr. W. J. Morris, Father of Mr. W. R. Morris

The death occurred at his residence in Toronto this morning of William J. Morris, father of Mr. W. R. Morris of this city. The deceased resided at 332 Huron street, and was 75 years of age. He was stricken with a paralytic stroke a short time ago and never recovered. Mr. Morris is survived by his wife, two sons, Mr. W. R. Morris of Peterborough, and Mr. H. C. Morris of the Bank of Commerce, Victoria, B. C., and one daughter, Miss Frances, who resides at the parental home in Toronto. Mr. J. C. Morris, K. C., of Montreal, who died about a year ago, was a brother of the deceased.

The funeral will take place tomorrow at Perth, Mr. Morris' old home. Mr. W. R. Morris of this city was called to Toronto by his father's death. He will have the sympathy of many friends in Peterborough in his bereavement.

Be sure and visit Turnbull's Ready-to-Wear Opening on Thursday, March 7th and following days, when all the latest Ready-to-Wear Hats, Separate Skirts, Coats and Waists will be on exhibition.

Rebekah Lodge Held Concert

Large and Appreciative Gathering in I.O.O.F. Hall

The initial concert under the auspices of Golden Link Lodge, No. 81, Rebekah Oddfellows, was held last evening in the handsome Oddfellows' hall, and proved to be successful in every particular. The audience was large and lovers of the refined musical and literary style of entertainment were well pleased with the program which was presented last night by the Rebekah Lodge. Every number of the lengthy programme was very much appreciated and that is putting it mildly. A number of the prominent soloists and elocutionists of the city were procured by the committee in charge and the programme was certainly a rare treat.

The concert was presided over by Col. J. W. Miller, who, in opening referred briefly to the benefits gained from Oddfellowship. The accompaniments were splendidly taken by Miss K. Graham and Mr. Geo. Schneider, the former of whom also contributed an opening piano solo.

To particularize would be difficult as every number was excellently presented and enthusiastically received.

The programme in its entirity was as follows:—

Piano solo.—Miss Katie Graham.
Solo.—Mr. Firth.
Recitation.—Miss Nellie McCabe.
Mandolin solo.—Mr. F. Clarke.
Solo.—Miss Clara Belleghem.
Recitation.—Mr. Runnett.
Solo.—Miss Pearl Morgan.
Duet.—Miss Sperry and Parnell.
Chairman's address.

Intermission.

Solo.—Mr. J. Dawson.
Recitation.—Miss Katie Leary.
Solo.—Miss Bertha Parnell.
Solo.—Mr. Firth.
Recitation.—Mr. G. Lynch.
Solo.—Miss Maude Oliver.
Duet.—Messrs. Clarke and Mendel.
Solo.—Mr. McLaren.
Accompanists.—Miss K. Graham and Mr. Geo. Schneider.

WATER SERVICES

LIVING TOO HASTILY

CANADIAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result—Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not one

Miss Irene Hapgood

woman in twenty-five but that suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing-down pains, displacements, spinal weakness or diseased organs.

Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—female trouble.

Read this letter:

Dear Mrs. Pinkham:—

"I suffered for four years with what the doctors called inflammation of the fallopian tubes, which is a most distressing female disease, undermining the constitution and sapping the life forces. If you had seen me a year ago when I had begun taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion and general emaciated condition, and compared that person with me as I am to-day, robust, hearty and well, you would not wonder that I feel thankful to you and your wonderful medicine which restored me to new life and health in five months. My friends all marvel at the change it has made in me, but none can appreciate it better than I can myself." Miss Irene Hapgood, 1022 Sandwich St., Windsor, Ont.

At the first indication of ill health, painful or irregular periods, pain in the side, headache, backache, bearing-down pains, nervousness, or the "blues," secure Lydia E. Pinkham's [illegible]

RIOTING AFTER THE DOUMA.

Great Demonstration When Socialist Appeared—Police Rode Down Crowd.

St. Petersburg, March 5.—After the adjournment of the Lower House of Parliament yesterday a great demonstration was organized to cheer the Socialist Deputies. Revolutionary speeches were made and red flags were displayed in the crowds, which had by that time swelled to about 40,000 persons, who packed all the streets for blocks around the Tauride Palace.

Some of the demonstrators began to pelt the police with snowballs, and ultimately the police broke up the demonstration, mounted policemen riding down the crowds and using their whips right and life. Many persons were beaten, but no one was seriously injured.

MEAFORD BLOCK BURNED.

Three Families Had Barely Time to Escape With Their Lives.

Meaford, March 6. Fire broke out about one o'clock yesterday morning in J. Secord's restaurant in the Trout block and spread to the stores of J. D. Fligg, dry goods, and Alfred Helstrop, furniture dealer and undertaker.

The block was completely destroyed, while Helstrop's building was gutted, part of the stock being saved. E. Pomfrey, Joseph Baker and Mrs. Dealva Sutherland and their families, who occupied apartments in the block, had barely time to escape with their lives.

Ran Into Open Switch.

Canfield Junction, March 6.—Wabash express No. 8 (Detroit to Buffalo) ran into an open switch here last night. The engine, tender and two cars of horses were upset in the ditch. The fireman was injured.

The train from Toronto was on an adjoining track. Had the Wabash locomotive upset toward it, many passengers would have been injured.

Nine Killed In Two Explosions.

El Paso, Texas, March 6. Two explosions in the rock quarry of the Chihuahua and the Pacific Railroad at Sandoval, Chihuahua, Monday, killed nine men and seriously injured nine others.

No Ultimatum For Hayti.

Berlin, March 6.—The Foreign Office says it is not true that the German cruiser Panther is taking an ultimatum to Hayti concerning the [illegible]

Engineers Will be Licensed; Many Matters Were Discussed

Examiners Will Be Appointed to Secure Properly Qualified Men.

Members Are to Have Busy Time—Commissioners to Control Burlington Beach Lands—Amendments to Assessment Act Referred to Municipal Committee—Explanation of Salary Increases.

Toronto, March 6. The introduction of two additional Government bills preceded the resuming of the budget debate at the Legislature yesterday, when another night session was held. The days when the legislators idled through the session and crowded hasty legislation on the statute books at its close are ended under the present Whitney Administration, and from the present time till the end of the session the Prime Minister has intimated that it will be a case of work—and work diligently.

Hon. Frank Cochrane, Minister of Lands and Mines, introduced a bill to provide for a Government commission of two to take control and hold in trust for the Crown the Burlington Beach lands, doing away with all control of the beach by the City of Hamilton and the Township of Saltfleet.

Hon. Mr. Monteith introduced the Government bill respecting stationary engineers, which provides for the appointment by the Lieutenant-Governor in Council of a board of three examiners consisting of competent engineers, to hold office during pleasure and report the results of examinations to the Minister of Agriculture. On the recommendation of the Minister the Lieutenant-Governor in Council may make regulations regarding the subjects of the tests and the fees payable.

Engineers To Be Qualified.

After Oct. 1, 1907, no person not holding a certificate of qualification obtained as the result of examination and on the recommendation of the Minister, may have charge of a steam plant in the Province. Engineers now holding certificates must pass an examination on the expiration of the same in September, 1910. Engineers' licenses must be displayed in the engine or boiler-room in which the holders are engaged. Appeal from decisions of the examiners may be made to the Minister. Engineers operating without the necessary qualifications and persons employing them make themselves liable to penalties of not less than $10 or more than $25 and costs.

Amendments to Assessment Act.

Hon. J. P. Whitney, the Prime Minister, made his promised announcement relative to amendments to the Assessment Act. The act in its present form, he said, was so made up that the important provisions balanced each other. It was well, then, to avoid anything like undigested alterations. Mr. Whitney purposed to refer all proposed amendments to the municipal committee, with the understanding that only formal alterations could be dealt with and others referred to the commission in charge of the revision of the statutes.

Budget Debate Continued.

The budget debate was continued by Messrs. Thompson (Wentworth), Lewis (Dufferin) and Clarke (Northumberland).

At the evening session the estimates were taken up, and Hon. Mr Whitney, in a connection with a proposal to provide $3,000 as the salary of an assistant solicitor to the Attorney-General's department, gave a general explanation of the increases on salaries which are noted all along the line.

Increases of Salaries.

"The public business has greatly increased," he said. "In one department alone the work has practically doubled since we took office. There are, as a consequence, a number of appointments that appear to be new which are not so. Temporary officials have been merely placed on the permanent list. But the increase in the work has been so serious that it was incumbent upon the Government to deal with the problem. Officials under this roof have never been paid too high a salary; that is to say, the proper men to do the work could obtain much higher renumeration elsewhere."

The Prime Minister said the appointment of the solicitor had not yet been made.

Mr. Graham Approves.

Hon. Mr. Graham, the Liberal leader, commended the Government for placing temporary clerks, whose services had become indispensable, on the permanent list. In his own experience he had known officials who were at work for many years, every one of whom he had considered to be on the permanent list. "Whenever," said Mr. Graham, "officials are found to be necessary they should be placed on the permanent list. Otherwise an official is at a loss to know just where he stands, and his service to the Government is not as effective as could be wished."

At the opening of the session Mr. Duncan C. Ross, the newly-elected member for West Middlesex, was introduced by Hon. A. G. Mackay and Mr. C. N. Smith (Sault Ste. Marie). His father, Senator Geo. W. Ross, occupied a seat on the floor of the House.

Cows Poisoned Themselves.

Kingston, March 6. Dr. Higginson, Dominion Veterinary Inspector, was here from Ottawa in regard to an alleged outbreak of contagious among cattle beyond Odessa. The farmer had been rubbing some poisonous powder into the animals' skin to kill some creeping things. The cows in licking themselves took the poison into their systems and three of them died.

Victim of Shooting Dies.

Fort William, March 6. Bernard Armstrong, who was shot by Manson Patterson, died yesterday, and Patterson, who is believed to have been temporarily deranged, was brought to the jail in this place.

EVIDENCE BORES THAW

Paid No Attention to the Cross-Examination.

Prisoner Takes No Interest In Proceedings — Dr. Wagner Further Cross-Examined—Thaw's Mother to Be Called Next—Defence Will Take Chances With Jury Rather Than Lunacy Commission.

New York, March 6. The prospect that Mrs. Wm. Thaw, the white-haired mother of the defendant, might be a witness yesterday at the trial of Harry K. Thaw, for the murder of Stanford White, apparently had but little effect in reviving the interest of the curious, for the court-room showed many empty benches when Mr. Justice Fitzgerald took his place.

Dr. Charles G. Wagner, superintendent of the State Hospital for the Insane at Binghamton, N. Y., was immediately recalled to the stand and his cross-examination resumed by District Attorney Jerome.

The prosecution began by reading the latter part of Dr. Wagner's testimony of Monday regarding the characteristics of the brain storms so as to take up the line of questioning where it was left off.

The witness Monday referred Mr. Jerome to an instance of brain storm cited in one of the medical authorities. Yesterday the prosecutor asked if the alienist knew of any reported cases of brain storm.

Dr. Wagner said he could not recall any off-hand.

Thaw Takes No Interest.

Thaw brought his customary batch of letters into court, and after a brief whispered conversation with his counsel, proceeded to read them. He then took a large pad out of one of his big brown paper envelopes, secured pen and ink and began to write a letter. He was decidedly the least interested spectator in the room.

Dr. Wagner's definition of the various forms of insanity apparently held no interest whatever for the man on trial for his life.

Take Chances With Jury.

Mr. Delmas made few objections to Mr. Jerome's questions to Dr. Wagner Monday, but he will resist strenuously any attempt to show that Thaw is now insane, the defence preferring to take their chances with the jury [illegible]

A New Point Raised.

Another point that is being discussed is the legal standing of the marriage between Thaw and Evelyn Nesbit. Both Dr. Evans and Dr. Wagner have testified that they believed Thaw was of unsound mind when he signed the will and codicil on the night of April 4, 1905. This was the day of the marriage. If Thaw was insane at that time he was, under the law of Pennsylvania, incompetent to enter into a contract. Marriage is under the law a contract, and if he was insane at the time his marriage would be actually void under the law.

CANFIELD POISON CASE.

Mrs. Perkins Denies She Poisoned Her Husband and Expects Acquittal.

Cayuga, March 6.—With two score of witnesses, many of whom will weave a net of circumstantial evidence around Mrs. Mattie Perkins, whose hearing for the murder of her husband opens here this afternoon at 1.30 o'clock, the crown authorities have left no stone unturned to ferret out the mystery surrounding the death of Henry Perkins, the Canfield carpenter.

Witnesses are here from Canfield, Welland, Hamilton, Dunnville and rural postoffices, besides citizens who will be called to testify.

Doctors Bauer and Edgar of Hamilton, the strychnine specialists, will be called early in the investigation.

Magistrate Cline of Cayuga will have as an associate on the bench Dr. Harrison of Selkirk, who made the postmortem examination and was an important witness in the trial of Olive Sternaman for the murder of her husband ten years ago. Twenty-four witnesses will be called.

Mrs. Perkins is taking her imprisonment with remarkable self possession, her attitude when interviewed at the jail last night being one of extreme indifference.

"All I can say," she said, "is that I am innocent. I deny everything these people have charged me with and I know all will come right.

"My husband thought the world of me.

"I never saw strychnine; never used strychnine; never had anything to do with strychnine."

R. H. McElroy Nominated.

Ottawa, March 6. R. H. McElroy, president of Carleton County Conservative Association, was chosen for the seat vacated by the death of G. N. Kidd, M.P.P., at the convention at Stittsville yesterday. There will be no Liberal candidate.

Dark As Night In Brantford.

Brantford, March 6. A snowstorm, with a high wind from the east, set in at 3 o'clock yesterday. It was as dark as night for ten minutes and lights had to be resorted to. The storm lasted about 20 minutes, followed by sunshine.

Lieut.-Gov. Tweedie Sworn In.

Fredericton, N. B., March 6. L. J. Tweedie was sworn in yesterday afternoon as Lieutenant-Governor of New Brunswick and Premier Pugsley announced he would give out the personnel of his Cabinet to-morrow.

Woman Frozen to Death.

Buckingham, Que., March 6.—Miss Ellen Connors, who lived alone in a small house near here, was found frozen to death sitting in her chair with a few shavings at her feet.

Czar's Mother In England.

St. Petersburg, March 6.—The Dowager Empress of Russia left here for London last night to visit her sister, Queen Alexandra.

E. C. H. Gywnn, living twenty-five miles from Saskatoon, was found dead in his shack with a rifle beside the body.

ONTARIO MAN IN WRECK.

Suffered Scalp Wound In Derailment of Fast Train From Chicago.

Tivoli, N.Y., March 6. The limited fast mail train from Chicago for New York, was partially derailed while passing through Tivoli, at 5.40 a.m. yesterday, and ten persons were injured, all but one sustaining only slight bruises. B. Brandon, cook of the dining car, suffered a broken leg, and three passengers and six other employes of the Pullman cars suffered scalp wounds and minor bruises.

Among the injured was B. R. Hebburg, Picton, Ont., scalp wound.

The train left Chicago at 8 a.m. yesterday, and was due in New York at 8.15 a.m. yesterday. It consisted of a baggage car, four sleeping cars, and a dining car. At a point 800 feet south of the Tivoli station, while passing over an interlocking switch on a straight track the three rear cars, two sleepers and the dining car, were derailed. The rest of the train remained on the tracks.

The derailed cars crashed into a string of freight cars standing on a siding between the southbound track and the Hudson River, along which the track runs at that point.

The freight cars were overturned, but the passenger cars remained upright. Only the presence of the freight cars prevented the passenger cars from going over the embankment into the river, and possible loss of life.

The injured passengers and porters were taken to Hoffman's Hotel, in Tivoli, where their injuries were treated. They were then placed on another train and proceeded to New York.

It is believed either that the cars were derailed by a switch or that a journal was broken.

TRAIN WRECK AT TORONTO.

Montreal Express Runs Into a Freight—Four Injured.

Toronto, March 6.—The regular G. T. R. express for Montreal, leaving here at 9 o'clock yesterday morning, run down freight train No. 92, eastbound, this morning, near Pape avenue, and as a result four passengers were slightly bruised and injured. Miss M. V. Milne, Toronto, had her lip cut and was slightly bruised on the forehead; Mrs. G. Pemberton, Toronto, had her nose bruised; Mr. J. W. Prescott, Toronto, received sprains in the back, and Mr. J. H. Allan of Trenton, was cut on the lip and bruised.

The passenger train was proceeding at a moderate speed across the Don Valley, and when it reached Pape avenue it struck the caboose of the freight which was [illegible] the main line. The impact caused the injuries to the passengers named, but none of the crews were hurt.

The passenger train was brought back to the Union Station for a couple of new drawbars and some other repairs, and after some delay proceeded again to Montreal. The company gave out the facts of the accident, and stated that rolling stock was not damaged to any extent.

The cause of the accident seemed to have been that the freight failed to get into a side track before the passenger overtook it.

EXPLOSION AT COLLIERY.

Thirty Persons Were Injured, Several Probably Fatally.

Pottsville, Pa., March 6. By the explosion of powder at the Richards colliery, at Mount Carmel, yesterday, the blacksmith shop, boiler house and large powder magazine were blown up. About 30 persons were injured, several probably fatally. The business street of Mount Carmel was badly damaged and in the vicinity of the colliery, houses were badly wrecked. Window-panes were broken for 15 miles from the explosion.

More Ice In Lakes.

Detroit, March 6.—Reports indicate that there is more ice in all the lakes than at this period last year.

Over Western Superior, the ice fields extend beyond Two Harbors. Over the centre and eastern portions, the fields are heavier. St. Mary's River ice is solid and extends the entire length.

The icefields in Lake Michigan are more extensive than last season, but have impeded navigation but little this winter.

The ice at the Straits is solid and extends from the east end of Bois Blanc Island to Lake Michigan. It is not as heavy as usual, nor is it windrowed. There is little snow covering it.

There are extensive icefields over the northern portion of Lake Huron. The ice-bridge at the foot of the lake, which formed on Saturday night, is firm.

St. Clair River is solid from Port Huron to Lake St. Clair. The ice in the Detroit River extends from the Smith coal dock to the mouth.

The icefields along the south shore of Lake Erie extend beyond vision.

Falls From Auto Under Car.

New York, March 6.—Mrs. Jacob Tumbridge, wife of Major Jacob Tumbridge of Brooklyn, was run over by a street car on Brooklyn Bridge yesterday and instantly killed.

Mrs. Tumbridge was riding in an automobile in company with her husband and his father, Capt. William Tumbridge, proprietor of St. George's Hotel, in Brooklyn. She became frightened by the approach of a car and arose from her seat. The automobile swerved, throwing her in front of the car.

Walter Owens, the chauffeur, was arrested.

Southampton Man Missing.

Windsor, March 6—Chief of Police Wills has been asked to make a search for W. C. Williams of Southampton, who is believed by his friends to have met with foul play either in Detroit or near there. He left home four months ago with $700 and has not returned.

It is asserted that some time after leaving he drew on his bank from Detroit for more funds.

New An Admiral.

London, March 6.—The Prince of Wales, who held the rank of vice-admiral, has been promoted to a full admiralty.

Austin J. Griffiths fractured his skull by a fall downstairs in the Customs House at Quebec, and died from his injuries.

BRITISH NAVAL ESTIMATES.

Great Addition to Strength of Battleships in Number and Size.

London, March 6.—In introducing the navy estimates in the House of Commons yesterday, the Parliamentary Secretary of the Admiralty, Mr. Robertson, said the Admiralty believed the two-power standard would be adequately maintained by the proposed program of construction.

During the past ten years Great Britain had added 1,132,000 tons to her navy, while Russia, France and Germany together had added only 1,008,180 tons.

The British navy was the cheapest, costing $445 per ton. That of France cost $620, Russia $465, and Germany $485. Two years hence Great Britain will have completed six new battleships; including three of the Dreadnought class and three armored cruisers of the Invincible class, while neither France nor Germany would have a single ship of those types completed. The home fleet was a logical development of its concentration in home waters and furnished additional security against the remote risk of invasion. The Channel fleet was stronger than it was in 1905.

Wants U. S. to Cut Duty.

London, March 6.—In the House of Commons yesterday, Mitchell-Thomson (Conservative) suggested that Foreign Secretary Grey utilize the most favored nation clause of the Anglo-American treaties with the view of securing the admission of British goods into the United States on the same terms as Cuban goods.

The Secretary, however, said he did not believe [illegible] present moment, owing to the difference shown to exist in the views of the two countries by exchanges of communications between the late (Balfour) Government and the Government of the United States on this subject.

Not Expedient.

London, March 6.—(C. A. P.)—The Premier replying to Henniker Heaton, in Commons, said it is not possible or expedient to accede to the suggestion that the Prime Ministers of the Colonies should address the House.

The Premier has accepted the invitation of the National Liberal Club to the banquet of Colonial Premiers.

GENERAL BOOTH'S SCHEMES.

$500,000 to Found Colony In England—Another In Rhodesia.

New York, March 6.—General William Booth, the aged leader of the Salvation Army, arrived in this city yesterday from London, and will remain two days as the guest of his daughter, Commander Eva Booth.

The General shows remarkable vigor for a man who on April 10th will celebrate the 78th anniversary of his birth.

"I have three great schemes on hand," he declared.

"First, I hope to complete my experiment of putting the people in possession of small land holdings—say, of five or six acres near market towns—where they can support themselves. I have one tract near Colchester, England, and have been given $500,000 for the work there.

"Next I have a great colonization scheme with Rhodesia, South Africa, as the location. We shall leave a new world in the centre of South Africa.

"My third scheme is to create two institutions, one in London and the other in New York, to teach suitable persons the proper way to deal with the vices, sins, misfortunes and miseries of mankind generally."

DROPS DEAD AFTER FIGHT.

Altercation With Conductor In Street Car Leads to Blows.

New York, March 6. Ira Kilburn, a wealthy retired manufacturer, living in Prospect Avenue, South Orange, N.J., dropped dead in a police station in Newark, N.J., last night, after a fight with a conductor on a street car.

He had been knocked off the car, and with the conductor, James Kelly, taken to the police station. He was 72 years old.

Mr. Kilburn was on his way home from Newark and boarded a car. He and the conductor exchanged words and then blows, and both were taken to the police station. Kilburn started to tell his story and fell dead in front of the desk. He was one of the best known men in the State, not only through his long connection with the agricultural society, but because of his reputation as a breeder of trotting and road horses. He was an expert driver.

Kelly was held pending the result of an autopsy.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

"She says," translated one of the pitiful group around her, "that the land is so near and the water is cold. She wants to bury it in the ground."

"Split me," oathed the mate, "is that all? Over with it, Jerry!"

Again she spoke, volubly and with many groveling sobs.

"She says," said the redemptioner, "that if it could only be blessed. There is no priest aboard."

The mate, with his hands on the rail, laughed at this. "Do what I say, you down there!" he cried. "Will ye stand making mouths all day? Tie it in that canvas."

The man he had bidden approached the woman to take the cold little body from her, but she turned suddenly a fury and, holding it to her breast with one arm, fought him off, screaming.

He jumped back, with his hand clapped to his armpit. "The Jezebel's bit me!" he yelled.

There was a great laugh from the sailors, and the mate cursed luridly from above. "Are ye mollycoddles, then?" he shouted. As they hesitated he scrambled down hand over hand, damning them for landlubbers and clearly minded to do it himself.

The Frenchman's fingers, as he stood beside the Virginian, gripped the rail. "Swine!" he said under his breath. Then he leaned over and called clearly, "Keep your hand from that woman!"

The mate looked up, astonished, at the group, for the other passengers had gathered to witness what was going on.

"What's that?" he asked.

Armand repeated his words.

The mate's face turned a spongy purple, and he laughed in a way that was not good to hear. For answer he reach- [illegible] ered.

At the instant he did so Armand vaulted the rail where he stood, caught a rope, swung to a stanchion and landed as lightly as a cat at the side of the burly ruffian. The act was so clean, so graceful and so quick that none of the passengers could have told exactly how it was done.

The mate turned and, seeing him at his elbow, struck with all his strength at the other's head.

The stroke was one to stun, but it never reached home. The young foreigner bent one side, not moving his feet, with a motion that would have spoken volumes to an athlete, and the mate's fist banged against the bulwark. While he staggered from this, Armand, seizing a rope's end as he circled, cut him across the face with such a slash that the blood ran from the gash.

Now ensued a strange combat. The mate, heavy and cumbrous, tried to reach the other with sledge hammer blows. The Frenchman, slight, wary, circling, retreating, slipped hither and thither. Three times in as many seconds that sibilant "swish" sang, and a red mark sprang out on the brutal face.

At each swing of the fist a sort of groan went up from the huddled redemptioners, and at each cut they sucked in their breath with delight. It was a new, strange entertainment for them—to have a brain sick passenger descend from his clean deck to champion the cause of a scum.

The Virginian, looking down, was quivering visibly. As the passenger evaded a blow that would have crushed his ribs he could not forbear a shout: "Well done, by the Lord! But 'ware the clinch! 'Ware the clinch, monsieur!"

For the mate, though maddened out of himself, had shown a sudden gleam of purpose. He was forcing the secretary back into a corner between bulwark and stanchion, not striking, but his burly arms now stretched out widely. Even as Cary shouted the arms gripped Armand like a vise, and the stinging rope's end, useless now, fell to the deck.

Over the upper rail the passengers leaned, watching.

"A shame!" cried one. "That bloody brute will kill him out of hand!"

"'Tis the clerk! Pshaw!" said the quartermaster. "He sides with the rabble. Let the rabble care for him!"

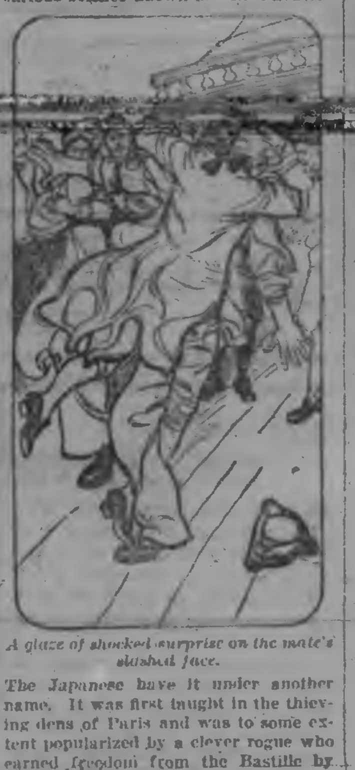
The woman who had been the unwitting cause of this struggle crouched back of the first sullenly intent rows, waiting, hugging her bundle. The others watched, guessing well what the issue would be, most of them accepting it as they had accepted the unspeakable fare, the cursings and revilings of the crew, with that stolid acceptance which, multiplied by centuries of heredity, had brought them at last to this same condition.

The Virginian leaned down with vibrant hopelessness. He looked to see the secretary, vised and crackled in those arms, drop limp and senseless. As he looked he saw Armand's face, very white, turn up to him.

Then, like lightning, a wonderful thing happened. The young man's chin sank deep into the hollow of the other's shoulder; his arms went up about the muscles of the bulky back; lithe legs like wire went suddenly curling and twisting about the stocky ones. A moment of strained silence and a glaze of shocked surprise on the mate's slashed face, then—

Crack! The coil untwisted; the mate relaxed, tottered and fell to the deck.

There was at this time in France a curious science known as "La Savate."



A glaze of shocked surprise on the mate's slashed face.

The Japanese have it under another name. It was first taught in the thieving dens of Paris and was to some extent popularized by a clever rogue who earned freedom from the Bastille by teaching it to young officers of title. It was an art of leg fence, and by precisely the same twist and wring which a practiced swordsman uses to disarm an adversary, the blade in this case being bone and flesh, Armand had sent the mate's knee leaping from its socket.

To the majority of those who saw it this was perfectly incomprehensible. A gasp of wonder ran among the redemptioners, and they laughed loudly at the mate's groan. The secretary had lost none of his alertness, though he was breathing hard. He sprang at the stanchion, clearly intending to return to the upper deck by the way he had come.

But he was too late. The mate's sailors rushed upon him.

Cary, shaking with excitement, sent out a cry.

"By Harry!" he shouted to the passengers about him. "Shall we see him that fought so beat like a dog? Are we poltroons, all?"

He leaped the rail, but before he could reach the lower level aid came to Armand, so hard beset. The skipper dived into the circle on a run, an evil light in his eyes and a marline spike in his hand. He knocked the foremost senseless, and the rest scattered.

"Curse ye!" he bellowed. "Set on a passenger, ye dogfish! By the devil, I'll maroon ye naked! Get to work and take this away!" he commanded, jerking a thumb at the mate who sat up, nursing his knee.

The woman, still holding the bundle, had pressed to the secretary's side and was pouring out a torrent of grateful incoherencies. Master Elves began cursing her with vigor, but Armand touched his arm.

"The babe is dead," he said. "Your mate would have cast it overboard. I ask for the mother a twelve hours' time. If we do not sight land by then I will ask no more."

But land was not to be seen that day. Next morning came—the secretary's fight had been in vain. Then there was another gathering to the forward rail of the upper deck.

This was to watch the young Frenchman sitting among the redemptioners, sewing a round shot carefully into the foot of a white silk bundle the size of a babe. The mother, now with empty arms, trailed her long hair and sat, red eyed, sodden with weeping, beside him. This done, he stitched over the silk neckerchief a clean canvas and last of all sewed to its top a tiny gold cross which he took from his pocket. The bundle, held now by willing hands, was laid on a little board whose end projected over the rail, and then Armand, with bared head, took his stand beside it, and they heard his voice repeating part of the Huguenot service for the dead.

Few understood the words, for they were French, but all grasped their meaning. The fresh cheeks of the girls were wet with tears. The toilers' seamed faces were pitiful. Even the crime smirched ones were softer. And the mother was satisfied. Had not her child been blessed? To her none but a priest could perform such a rite, and Armand, though wearing no cassock, was, yet in some mysterious way a priest.

So are we all His ministers!

CHAPTER III.

THE Yorktown wharf was a fair sight to the passengers of the Two Sisters as the ship swung to her moorings. Beyond the yellow clay bank the shore glowed in a violet green dazzle of foliage, a flame of amethyst and pink, and over all the sun hung hazy, like some splendid dream rose, strewing its petals upon a bay of tinted glass.

The bank behind the wharf was a fringe of negroes, their vacant minded happiness shaking out laughter as wind shakes blossoms from a locust tree. The gay colored turbans bobbed like variegated poppies on a breezy day. The planking below was sprinkled with town folk, and on the road behind it several chariots were drawn up at some distance.

[illegible] saddle beside it, stood the Tillotson coach, framing in its window a face with a flicker of laughter over it like the wind on a May meadow. Anne was in close green and with her oak yellow hair looked a gold spear rising straight from its sheath. As early as noon one of the Tillotson blacks had ridden to Gladden Hall with the news that the ship had been sighted down the bay, and Anne had ordered the chariot forthwith. Betsy had a new peacock shawl coming in Master Elves' care and had made the pilgrimage from Williamsburg every day for a week.

"What a pity!" exclaimed Anne, who had been first to arrive. "Mr. Cary—Breckinridge Cary—came on the ship, but she lay in Hampton Roads last night, and he there found a packet for Philadelphia. So we shall not see him till the spring."

"I'm sorry," Betsy answered. "Frank saw him in London. What a lot there are here! There is Burnaby Rolph of Westham, here for more redemptioners no doubt. He bought a round dozen last ship. Why doesn't he leave that for his factor, like a gentleman, I wonder?"

Anne looked at the man she indicated—of medium height, with a sheep face, long in the tooth and turned away with a little shudder. He stood with thick legs planted firmly, talking with a neighbor, his head turned over his shoulder, and as they looked he raised his sword hilt and struck savagely at a black who jostled him. "Poor servants who fall into Mr. Rolph's hands, I pity them," she said in a low voice.

"John the Baptist," she called to her mounted servant, "did you go down to inquire about Miss Betsy's chest, as I told you?"

"Yas'm, yas'm. Done been down dar twic'."

"Are you sure?"

"Yas'm, on meh honah!"

"Honor!" Anne said severely. "What do you know about honor, John the Baptist?"

The darky responded with a ragged grin. "I uster hab er heap er honah," he said vaguely, "but I got so 'stravagant wid it I spec' I ain't got much lef' now."

"Look yonder, Anne," whispered Betsy. "Isn't that a genteel looking young man? What a lovely brown his hair is! He's looking this way. His coat has a foreign cut. I warrant he came on the ship. There is Master Brooke standing by him now."

Anne's eyes showed her a gray coat unslashed, plain hose and shoes with a neat steel buckle—a dress neither rich nor poor. There was no lace upon the hat, no paste knee buckles, no sword—none of the marks of distinction. But the face was open and the nut dark eyes frank and clear.

She had gazed but a moment when a familiar red coat shouldered its way through the press. She bit her lip and turned her head away, but Betsy was deep in chat with young Mr. Carlyle, kinsman to the Belvoir Fairfaxes, a youth lean as a rake, of a pale disposition, all hair and eyes.

The newcomer strode to the steps with assurance and touched Anne's fingers with his lips. "Still so cold, so far away? Still cherishing a frown for me?"

"I looked not to see you, Captain Jarrat."

"I am but just returned from London."

"On the Two Sisters?"

"Aye," he answered, with a slumbering flush on his face. "The moth returns to the lamp. A pretty conceit, is it not?"

She moved her shoulders with a gesture of impatience.

"Why am I doomed to be ever in your bad graces, Mistress Tillotson? Oh, 'tis true. I would it were not! 'Twas so in Williamsburg. Had you a smile for me? 'Twas when I went. Well, I return to the frown."

"I have naught else for you. I have told you so."

"And yet," he said constrainedly, "for another kind of look from you I would forget all else. I would change all, risk all. Can I never win aught from such a love as mine? Will you never tell me how to change myself for you? Shall I go always wanting?" A fierce and unhappy passion was written in his face.

She turned from him coldly. "I beg you will not recur to that, captain," she said. "My answer was my answer. I can never give you more."

He touched his breast, drawing his hand across the gold slashings of his coat. "Is it this? Do you frown upon his majesty's uniform? I swear I would I were a Whig!"

"A Tory before a turncoat," she answered him.

Jarrat shut his teeth like a trap. Then without reply he bowed to her and strode toward the ship. Betsy, turning her horse, saw only his vanishing figure, Anne's face a flush red gust of anger and her eyes gleaming like blue ice.

"Why," exclaimed she in surprise, "'twas Captain Jarrat!"

"I wish," said Anne, with temper, giving Betsy's horse a slap that made him dance and called forth a curdling scream from its rider—"I wish Captain Jarrat was in Guinea!"

As Jarrat stepped on to the deck the gangway was thrown down for the [illegible] were gathered, and the ship's agent at once began the bidding by offering a convict smith bound for seven years and allowed only diet and lodging, who, he declared, made great diversion by singing and whistling, besides being rare at iron work.

The sale proceeded rapidly, for bond servants were in demand and the lot was above an average one. They stood for inspection eagerly or stolidly, as their faces promised, some sullen eyed, some smirking. The women were offered last. But few remained when the agent beckoned to the swarthy skinned woman whose babe had died during the voyage, and she came forward timidly, turning her sloe-black Italian eyes upon the crowd in misunderstanding and cowering dread. Her hair and the red olive of her skin made a curious contrast to the light complexions of the other women.

Burnaby Rolph, who had purchased two laborers, looked her over with satisfaction.

"A likely wench," he gulped. "Twenty pounds is enough, I doubt not, since she is foreign. I take her. Put that down to my reckoning, Master Clarkson."

"Poor thing!" said Anne. "I would I were a man. That brute should never have her!" She looked up and felt the young Frenchman's eyes full upon her. He had clearly overheard.

"You belong to him now," said the agent to the woman, pointing to Rolph. "D'ye understand?"

She gazed into Rolph's face and shrinkingly about the circle. Then, with a sudden cry, doubling like an animal, she dodged between the knots of spectators and threw herself at Armand's feet.

Rolph's curse was lost in a great laugh which rose from the factors, and Anne's face stung red at a coarse remark from one of them.

M. Armand did not seem nonplused. He stooped and lifted the cringing woman to her feet as Rolph approached, his lean eyes winking.

"My wench seems to have an uncommon fancy," the latter sneered. "Gall me, why did you not buy her?"

"Will you sell her to me?"

The latter looked at the secretary's dress and glowered at the merriment of the onlookers.

"No," he blurted.

Armand smiled with suavity. "Perhaps it would pleasure you to game with me for her? In my country, gentlemen," he remarked to those around, "we are overfond of the dice table. As for me, I could never resist to woo the hazard of fortune. Mayhap, however, here you are less adventurous, more cautious, monsieur, or, as those who, having little, hesitate to risk."

Rolph grunted at this airy thrust and gnawed his lip. His estate of Bentcliff was the largest on all the James, and this, it was said, he had won in the palace in Williamsburg fifteen years before in a wild night of play with Governor Fauquier's gambling crew.

"I will lay against her," added Armand, "double the amount she cost you. And a toss of a coin shall decide."

The factors gasped and stood looking the speaker over. Rolph stayed an instant, then: "Done! Leave the indenture open, Master Clarkson, and bring it here."

A wager in Virginia never failed to provoke interest, whether it was for a pair of spurs or a pipe of canary, and now all were listening eagerly. The two girls, from their positions, could see without difficulty over the intervening heads.

"Let us go farther away," said Anne, but Betsy was of a different mind. "No, no," she protested. "They are going to toss. I wouldn't miss it now for anything. He is French, Anne. I can tell it by the accent."

Rolph called and threw the gold coin he had drawn from his pocket with a flourish. "The king's head!" rose a score of voices as it fell. "Mr. Rolph wins."

"Oh, dear!" exclaimed Betsy in great vexation.

"I really believe," said Anne, with heat, "that you want that man to win."

"Weren't you just now wishing you were a man so Mr. Rolph shouldn't?" retorted Betsy.

M. Armand had drawn forth a wallet from his pocket and lifted out the sum. "Fortune beams upon you, monsieur," he smiled. "I was ever unlucky of a Wednesday. Shall we have one more throw? And double or quits mayhap, monsieur? Unless you deem the stake overhigh"—

"High!" said Rolph, with a growl. "Double or quits it is. Eighty pounds against your lost forty and the wench. But, mind you, this one throw ends it. D'you hear?"

The other tossed. There was a shout as the coin descended, for it lodged in the brim of a spectator's hat and could not be counted. At the next trial it rolled in a spiral and finally stood edgewise in a crack of the wharf flooring.

A third time the young Frenchman sent it spinning. It twinkled in the sunlight, fell, bounded sideways, the crowd parting before it, rolled across the open space and toppled over a few feet from Anne. Instinctively she leaned [illegible] spite of herself. The coin had fallen on its obverse side.

"Fortune has turned," the secretary observed easily. "It appears, monsieur that the servant is mine. The remainder of the stake, if you please."

"'Twas but his assurance he wagered with," snarled Rolph. "It will not hold. What does this sorry raiment with thus much money, gentlemen? He does not own so much. I dispute the bet!"

"And Mr. Rolph calls himself a gentleman!" Anne said disgustedly.

M. Armand looked at his antagonist with undisguised contempt, and murmurs of the assembly, who loved fair play, were so unmistakable that Rolph drew out bills and indenture with a curse and drove off with a black look.

Anne watched him go, a curl on her lip. When she turned at Betsy's exclamation it was first to be aware that all on the wharf were looking her way, that some of them were smiling and then that the young Frenchman, with the redemptioner woman following him, was approaching her.

Before she had recovered from her astonishment he was bowing low. "Mademoiselle," he said, "will pardon the liberty I take in addressing her?"

She bowed coldly, half startled.

"Fate," he went on, "has made me the owner of this servant, for whom, being no landholder, I have scant use. She speaks a strange tongue and is in a strange land, and to free her without bond time were small kindness. May I beg the favor, mademoiselle, that you take her in your service, demanding such labor as will requite her support?"

The indignant color flooded Anne's brow. "Sir," she said frigidly, drawing herself up, "we have strange surprises in Virginia, but surely the effrontery of our visitors surpasses them all."

Armand looked clearly at her out of his dark eyes. "Mademoiselle will pardon," he answered, "the error of one of these visitors, who, seeing her face, has overestimated her graciousness and charity."

With this he bowed again till his hat swept the ground, and, followed by the bondwoman, walked down the wharf toward the unlading vessel.

The red in Anne's cheeks had grown to firebrands and her anger lent sting to the half concealed smirks of those who stood nearest.

"Land of mercy!" said Betsy, with emphasis. "What impudence!"

Soon the curious crowd was thinning. Betsy's search was ended, and Anne, having left her seat in the coach, watched at nearer view the disgorging of the cargo.

Here Brooke came primed with a new sensation. This now nothing less than the tale of a fight which had occurred during the voyage between the mate of the vessel and a passenger. Anne's eyes were very soft as he finished.

"And who d'ye think," he ended, "was this champion? Why, the young Frenchman yonder that you crushed so mercilessly, Mistress Tillotson."

"And the redemptioner woman?" asked Anne, with something like dread.

"'Twas the wench he won from Burnaby Rolph."

"Oh!" The cadence was full of liquid self reproach.

"Where are you going?" Betsy asked as Anne rose. She did not answer, but walked quickly across the wharf to the spot where Armand stood. He made no movement as she came.

"Monsieur"— She faltered and stopped.

His hat was in his hand instantly, and he was gravely deferential.

"I wish to take back," she went on, "my words of awhile ago. I assure you they were not rudely meant. I"—

He stayed her with a gesture. "What am I that mademoiselle should speak thus? I was brusque, unmannerly"—

"No, no!"

"I forgot where I was—forgot that I had not the joy of knowing her—forgot everything but what I saw in her face as she sat in the chariot. For I am a great magician, mademoiselle. I know all who are lovely and gracious of heart."

"I was wrong," she said proudly. "And for this I ask your pardon. May may I have the bond servant?"

He smiled gayly now and bowed low to her. "To be treated with such pleasant surgery all the world would be glad of wounds," he cried. "You recompense me a thousand times!"

He signed to the serving woman who sat stolidly upon a nearby chest and pointed from himself to Anne. She understood, and when Anne put her in charge of John the Baptist to take on ahead a-pillion she went without question.

Betsy watched this transaction open mouthed.

"Did you ever!" she gasped. "I wonder what mother will say to that!"

Armand had stepped to position, hat under arm, at the coach door. "Mademoiselle will permit me to assist her?" he asked and gave her the tips of his fingers. His eyes were bright on her face.

To be continued.

Shipping interests of the St. Lawrence will petition the Government to have the ocean mails landed at Father Point instead of Rimouski.

House of Refuge Is Referred to

Northumberland and Durham [illegible] Building is one of the Oldest in Ontario

The House of Refuge building at Cobourg, opened the 10th of January, is in part one of the oldest public buildings in the united counties having been built over sixty years ago, in the Ionic Order of Architecture.

The main or public entrance is from the south, under the main pediment through the portico, and having a two storey verandah the full length of the front, which affords a beautiful view of the city and lake, and an airing ground for those who cannot take advantage of the lawn and flower garden to the south and east, and orchard to the west. On entering the board and visitors 'rooms to the left, and those of the superintendent to the right, comprising a living and dining room, connected with private hall and stairs to the sleeping room above. Proceeding from the entrance vestibule you enter the broad airy hall, extending the full length of the main building and back through the eastwing, a building of about 35 by 60 feet; this is cut off with doors through which may be entered the womens' quarters to the east, and those of the men to the west, with separate stairs either end of the halls, connecting the three flats of the buildings, the men occupying the west half and the major portion of the main building north of the main halls, and the dormitory of the top flat. Each flat has a day room and small dining room with lift, the rooms on wards contain from two to ten beds making accommodation in all for about 95 persons. Ample lavatory accommodation, with porcelaine fittings is provided, also a smoking room for men. The second floor of the east wing is cut off by an open air passage from the rest of the house, and is provided with a lift to the hospital, kitchen or pantry, a nurse's room, and four for patients, two for each sex, ten or twelve beds in all, with the necessary lavatory accommodation. In the basement, which is built about three feet in the ground, is situated the large kitchen in the centre and front of the main building, with the pantry store-rooms and cold storage just off it, and the main dining rooms for men and women on either side, and the heating and ventilating apparatus to the rear, the fuel storage under the west wing and laundry, pump room, dairy store room and cellarage under the east wing. The lighting is by electricity, the heating by direct steam, and the ventilation on the exhaust principle from every room and apartment in the building.—Municipal World.

LITTLE GIRL WAS CAUGHT

Stole a Pair of Gauntlets From the Menzie School

Reference has been made in these columns before of petty thieving at the Menzies school. On Monday last while the inspector was at the school and in Mr. Kerr's room, a pair of gauntlets were cut off a string, which was hanging in the cloak room and carried off. The case was investiaged at once, and the guilty party, which was a little girl, was found. The Inspector severely lectured her and sent her home with a note to her parents. She is only about 12 years of age, but has a most unenviable record already and the authorities are at a loss to know what to do with her. Punishment is of no use as this has been tried, while kindness makes her more bold and wild. Old Nick seems to have taken full possession of the girl and refuses to vacate his position.

PILES CURED IN 6 to 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

Shadow Embroidery Blouse Lengths

We are showing a large range of Stamped Shadow Embroidery Blouse Lengths, containing enough material for a Blouse—beautiful new designs. Special price for each.......... $1.00

Harry Adams

Dairy Show Will be Decided By Committees on Wednesday

Representatives From Different Associations Meet in Toronto—Deputations From Peterborough and Toronto Asked to be Present—Great Interest Taken Here.

The dairymen of Ontario, and the dairy cattle breeders will decide on Wednesday next when the proposed dairy show will be held, or whether it will be held at all. They will also decide where the home of the show will be.

This morning, Mr. G. A. Gillespie, the well-known cheese and butter buyer who is a member of the Eastern Dairymen's Committee, received his notice to attend the meeting. The joint committee will confer in the morning, and in the afternoon will interview Hon. Nelson Monteith, Minister of Agriculture, to ascertain what assistance the Ontario Government will give.

It might also be mentioned here what the establishment of the dairy show in this city means. In the first place, the exhibition of dairy cattle, dairy produce, and dairy machinery will be held here every year, bringing thousands of people into the city for a week. This will be the headquarters or home of the Ontario dairymen, the Holstein, Jersey and Ayrshire cattle breeders Associations. All their annual meetings will be held here and thousands of dollars will be spent in the city by the dairymen.

It also means that the dairying industry will be so developed and perfected in this district, that Peterborough cheese and butter will stand at the top for quality and the present high prices will be increased still more.

It is most desirable that the dairy show should be held in this city. It will not only benefit the farmers in the community, but the city will also receive much benefit from an advertising and monetary standpoint. The greatest value of course, will be to the farmers, and it is for the farmers, the people in the city will endeavor to have the exhibition [illegible] The letter [illegible] follows,—

"A meeting of the representatives of the Eastern and Western Dairymen's Associations, and of the Ayrshire, Holstein and Jersey Cattle Breeders Associations, who have been appointed to confer with one another in reference to the holding of a national dairy show, will be held in Toronto, at the Iroquois Hotel, Wednesday, March 13th, at ten o'clock a.m. At 2.30 p.m. on the same day, the representatives of these associations will hold an interview with Hon. Nelson Monteith, the Minister of Agriculture, in regard to the proposed show.

Arrangements are being made for representatives of the Toronto and Peterborough City Councils to be present, to state what these cities will do in the way of a show.

It is probable, also, that representatives of the leading manufacturers, of dairy machinery will also be on hand to furnish any information that may be required from them in regard to the probable exhibit they may make."

Signed,
H. B. COWAN.

The Eastern Association will be represented by Henry Glendenning, of Manilla; Alex. Hume, Campbellford; R. G. Murphy, Brockville; H. B. Cowan, Toronto, G. A. Gillespie, Peterborough.

Committees have already been appointed by the county council and the board of trade, and the city council will appoint a large deputation, and the three bodies with influential citizens will combine and go to Toronto next Wednesday morning.

Peterborough city and county people are greatly interested in the proposed national dairy show. The cheese and butter industry in this district has developed wonderfully, during the past few years, until now there is probably no another district that surpasses it for quantity and quality of produce.

Mr. T. E. Bradburn, M.P.P., and Mr. Gillespie, one of the representatives on the Eastern Association's Committee have been instrumental in working up a great interest in securing the show for Peterborough, and they will not leave a stone unturned in their efforts to accomplish what they started out for.

This morning, Mr. Gillespie suggested that the different committees from the city and county, hold a joint meeting in the city on Tuesday night and arrive at an understanding as to the policy to be pursued the following morning, thus preventing any mix-up at the Toronto meeting. It appears from Mr. Cowan's letter that Toronto and Peterborough are the only cities seriously considered, and if this place cannot beat Toronto out it will be funny. Peterborough has already been assured [illegible] support from the [illegible] associations interested, and by [illegible] up a large deputation, it is felt that the obejot will be accomplished.

At the meeting on Wednesday morning will also be decided what accommodation will be required, what the show will include, when it will be held and what the city will be required to do. A pretty good idea has already been received by the local cheese men, and the city is prepared to do all that is reasonable although from time to time kickers and cranks have cried down the proposition. But those knockers are chronic and they did not know what they were talking about.

The citizens, generally, however, are enthusiastically in favor of the movement, and there will be a strong deputation leave here, next Wednesday morning.

Bachelors Taking Proposed Tax of $5 a Month Seriously

Several Unmarried Business Men Aired Their Views—Unfair to the Men Unless the Girls are Taxed Too—Ald Tovey is Prominent Now in the Public Mind.

Ald. Tovey, chairman of the Finance Committee has stirred up the fifteen hundred bachelors in the city to a fighting point. He will not dare to come down town for a couple of weeks yet, unless guarded by mounted police. The bachelors have taken seriously, the finance minister's suggestion to place a tax of $5 per month upon them and they are prepared to oppose such a move to the last ditch.

This morning a number of well-known unmarried men called up the Review and expressed their disapproval of the tax, others were met on the streets and asked to express their opinions. It might be mentioned that no one hesitated for a moment. Some of the interviews, all of which were short, were as follows.

Prominent Railwayman — "Is Ald. Tovey a —— fool to think he can get such a motion through?" Q. "In case it does go through would you prefer to pay the tax or marry?" Ans. "That is a question for me to decide fate. It would require considerable consideration.

A well known manufacturer left immediately for Montreal, and until the scheme blows over, whether he will return or not, is not known. As yet he has not been heard from.

Two bachelor brothers on Water street, who are in partnership, and live at home, said they would put up the $10 a month each. But they do not want the girls to know it.

A Government official looked very sad when the tax question was mentioned. He replied to a question: "I guess I will have to come to it. But the Government will have to increase my salary."

A newspaper man scratched his head and looked wyse when his opinion was asked. Being pressed for an answer, however, he replied, "I have loved long and often, and have failed to catch the bird I sought. To pay the new tax would take all my salary. To get another job would be a hard proposition, so I guess I will go home to mother."

A young lawyer — "I have looked through all the Ontario and Dominion statutes and have failed to find any law which would allow the city to impose such a tax. Ald. Tovey will first have to get the government to grant permission and by that time I hope my practice will be so large that $20 or $30 a month will be nothing to me and I will still remain single."

One of the aldermen—"Now suppose Ald. Tovey gets his scheme to operate, we bachelors will be in an awful hold. The girls will get so independent that they won't marry a Peterborough man, and we will be black listed in outside towns as well. Then the fair damsels will think it such a joke on us that they will give us the laugh. If Ald. Tovey persists in his bachelor tax, I will introduce a measure to place a similar tax on girls, only I will make the age to start paying sixteen, because very few girls get any older. At least they would take their oath they were not."

Jeweller of several summers — "I am going to marry right away. I have been considreing the matter for some time anyway, but as they are going to put a tax on us I will bow to my fate, unless the girl goes back on me again.

Gave Concert at Millbrook

George St. Choir Pleased Large Audience

The choir of the George street Methodist church drove to Millbrook last night and gave a concert in the Methodist church at that place. A large number were in attendance and the programme rendered by the choir under the direction of Mr. McCann was greatly enjoyed. Several encores were demanded and generously responded to by those taking part. The programme, each number of which was splendidly rendered, was as follows:—

Selection—Orchestra.
Anthem—"Rejoice ye with Jerusalem," choir.
Solo—"Afterwards," Miss Irene Mowry.
Anthem.—"God is the Refuge," choir.
Ladies Quartette.—"Far Away," Mrs. Doidge, Miss O. Maguire, Miss E. Chasty, Miss T. Chasty.
Solo.—"There were Ninety and Nine," Miss Reesor.
Encore.—"The Pilot Song."
Anthem.—"In Heavenly Love Abiding," choir
Solo.—"Gates of Dawn," Mr. S. Mitchell.
Ladies' Quartette.—"Beautiful Isle of Somewhere,"
Duet.—"Beautiful Moonlight," Misses E. and T. Chasty.
Anthem.—"Not unto us," choir.
Selection.—Orchestra.

The orchestral numbers were a feature of the programme and added greatly to its attractiveness.

After the concert the vocalists from Peterborough were hospitably entertained by the Millbrook people. Refreshments were served and an enjoyable time spent.

HISSING IN PUBLIC PLACES

Is in Very Bad Taste and Local Audiences Should Stop it.

One of the most noticeable features of a Peterborough audience, whether at a hockey match or in the opera house, is the practice of hissing whenever anything happens which does not just meet with the individual's narrow conception of things. At a hockey match a close decision by the referee, if against the home tam, or if one of the visiting players breaks one of the rules it is a signal for a volume of hisses from a few of those present. At the opera house if the American flag or an American statesman, is shown on canvas, or an American flag appears on the stage along with the Union Jack, hissing is again indulged in, presumably by the same crowd.

The practice is a new one here, and evidently it was picked up when some of the boys went to the hockey matches in Toronto this winter. The habit is a very common one there and is becoming general at the Mutual street rink. But the people of Peterborough should not allow themselves to be guided by the disgraceful performances of a Toronto audience. Even though that city is larger and supposed to be more advanced in civilization (although Toronto people and the Toronto press are the only ones that say so) the people of this city have always had a splendid reputation for fairness, and there is no occasion to adopt the bad traits of the larger city.

To say the least hissing is ungentlemanly and unladylike. It displays ignorance and is far from being patriotic. If a performance is not satisfactory to the individual there is no law to prevent him leaving. Then there are also other ways to show disapproval which are more gentle- [illegible]

The Turnbull Co. have again increased their millinery staff and are now fully prepared to execute all early orders.

Enjoyable Concert at Fowlers Corners

In Aid of Lakevale Presbyterian Church—Good Programme Rendered

A most successful tea and concert was held last evening at Fowler's Corners in aid of the Lakevale Presbyterian church. A sumptuous supper was served from five to eight o'clock, in the basement of the church after which an adjournment was made to the edifice where an excellent programme of songs, recitations and dialogues was rendered.

Rev. Mr. Peckover, pastor of the church occupied the chair and in a few opening remarks welcomed those present, and, he hoped that they would enjoy the programme.

Several visiting clergymen were present and gave short addresses.

Among those who spoke were, Rev. J. H. Teney of Omemee; Rev. J. M. Whitelaw of Fairmont, formerly pastor of the church, and Rev. Mr. McKinnon of Gilmour, Memorial church. A number from Peterborough attended and Mrs. (Dr.) Prust contributed several solos in good style. Messrs. Telford of this city also rendered several vocal numbers.

The entertainment was a huge success in every way, the proceeds amounting to over $70.

THURSDAY, FRIDAY AND SATURDAY

We are offering white lawn blouse waists, hemstitched, tucked and embroidered for 59c., and fine dress skirts in navy blue and black, well made and well trimmed for $1.59. These skirts were bought to sell at $3.25 and the season's very latest spring and summer coats, beautifully made in covert cloth and fine tweeds for only $6.48, and a host of other bargains too numerous to mention at the real bargain giving store. B. Y. Moyes, 408 George st.

Old Man Fell on Pavement

All persons wishing to have water works extended or services laid this season are requested to file their applications or petitions at the office of the water commissioners at once.

File Petitions for Water Services

This morning about ten o'clock, an old man was going down Water street, when he slipped and fell on the pavement. Mr. Crouter was driving by, and seeing the fellow unable to get up, very kindly put him in his sleigh and drove him to the police station. The man was laid on the sofa. The chief went after Dr. Bingham, who, when he arrived, said he was suffering from the effects of too much spirits fermenti. The chief then removed him to a cell where he soon fell asleep.

No one seemed to know the old man.

Peterboro' Boy Bothered by Cats

Mr. S. R. Hall, son of Sheriff Hall, who is manager of the Bank of Commerce at Quill Lake, Sask., had a lively experience with cats at the bank's premises one night last week. Speaking of the little incident, the Quill Lake Quill says;—

Those who reside in the vicinity of the bank were surprised to hear shots during the small hours of the night. It was doubly surprising as no suspicious characters had been noticed about the town. Investigation proved however, that the shots were not fired without cause. At least six or seven had succeeded in concealing themselves about the manager's room, and after every one had retired, started in to make things lively for Mr. Hall. We feel confident that the bank will not be disturbed again as daylight revealed the fact that the shots had resulted fatally, and one of their number was killed—a neighbor's cat.

Many Inquiries After Farm Hands

Mr. G. H. Howson, Immigration Agent, Has Several Applications From Farmers

Mr George H. Howson, who is the Government Immigration Agent for Peterborough district, says that he has already received many inquiries for farm hands from farmers in this district. He has also a large number of inquiries for servant girls. Mr. Howson has written three representative government agents in England, Ireland and Scotland, recommending Peterborough as a good spot for newly arrived immigrants to find employment.

"THE DAYLIGHT STORE"

TWELVE DOLLAR SUITS

We are showing in our North Window the best values in a Twelve Dollar Suit that has ever been offered this season.

Among our $15 and $16 Suits (reduced to $12) we have yet a real good selection of patterns and in all sizes—not all the sizes in one pattern, but among the lot real good patterns in any size.

These Suits are strictly fashionable and at a price that is a real saving of three or four dollars, which is really a consideration. The weather will soon permit of taking off your overcoat, and then you want a Suit for business that will

PRESENT A GOOD APPEARANCE

This you will be able to do if you take advantage of our SPECIAL Sale of $12.00 Suits.

Press Teams for Temiscaming

Cobalt Wants the Review Septette for Monday Night

The management of the Review hockey team this morning received the following telegram from C. L. Ramsay, manager of the Cobalt hockey team, of the Temiscaming League,—

Cobalt, March 6th.

Manager,

Review Hockey Team:

Canadian Soo team not fast enough for us. Could you send the whole Review team here for important game Monday night? Money no object. Rush answer.

L. C. RAMSAY,
Manager,
Cobalt Hockey Team.

It is understood that the Examiner has received a request to play for Haileybury on Monday night, which goes to show the fame the local press septettes have attained throughout the province. It is not yet known whether the offer of the Review team to play at Cobalt will be accepted. The management is considering the matter, but it is hardly likely that the trip will be taken, as the members of the team do not need the money, (although they could name their own terms.

The Review and Examiner teams meet at Brock street rink to-morrow night between eight and nine o'clock. Between seven and eight there will be a game between Best's "Happy Thoughts" and Ackerman's fast septette. This will be followed by the great press game and afterwards there will be an hour's skating. The admission is only 10 cents for the two games and the skating. [illegible]

THE EARL AND COUNTESS OF MINTO.
Who will be unable to attend the Review-Examiner Game.

PETERBOROUGH LINDSAY CUP

To-day Will Decide Where it Will Rest This Year

The Peterborough-Lindsay Cup match is being played to-day. Four rinks arrived here at noon, and four Peterborough rinks went to Lindsay, making an eight rink contest. Play started at the Charlotte street rink at 1.30, and the game will be over about 5 o'clock. J. D. Flavelle, the famous Lindsay skip, is playing here, being drawn against Sam Ray. A large number of curling enthusiasts are in attendance at the rink and the different plays are being followed with great interest. The following are the rinks pitted against each other at the local rink;

J H Ferguson	R McFee
G Hay	Rev J W Wallace
Dr Eastwood	W E Reesor
S Ray	J D Flavelle
A L Talbot	C B Terry
A Blade	George B Beal
S T Medd	Thos Gage
Geo Giroux	W McLennan
D Walker	T R Wilford
E B Clegg	G H Hopkins
Geo Fitzgerald	R A Miller
Geo W Morrow	Dr Walters
Jos Gibson	J Gray
T Brightman	McWilliams
R Neill	Geo. Ewart
C N Brown	J M Knowlson

AT LINDSAY.

The Peterborough rinks playing at Lindsay are as follows:—

J W Fulton, Geo Maitland, W J Thompson, D Davidson, skip.

J Montgomery, A Moore, C Rutherford, T F Matthews, skip.

A Regan, D Hall, H Foote, R M Waddell, skip.

W G Reid, P Lang, C E Frost, R Hicks, skip.

Zutoo Tablets
JAPANESE
HEADACHE CURE
B. N. ROBINSON & Co., COATICOOK, QUE.

A box of Zutoo Tablets carried in the pocket or purse, or kept in the office or home, and used when required, will ward of a headache or cold—and do it every time.

Take two of the tablets just as soon as you feel a headache coming on, or feel you have been exposed to a cold.

In nine cases in ten relief will come in twenty minutes. If your case is exceptional take two more tablets. They are purely vegetable and cannot hurt you.

They will cure your headache—nip the cold in the bud—and make you feel fresh and vigorous in mind and body.

You can try Zutoo for nothing. Samples are free for the asking.

10c and 25c at dealers or by mail.
B. N. Robinson & Co., Coaticook, Q.

care to do so at this time. President Miller, who is in Orillia, said last night over the long-distance telephone, that he was corresponding with a number of players, and that by Saturday or Monday he would be in a position to cable the Australian Association, the result of his efforts. He believed the trip would be made.

Among the players who are likely to go are Rountree, and Gilbert, of the Junction; Ahearn, Rose, Hinds, Curran and Hanley of Orillia; Ramore of Fergus; Brown Jackson of Seaforth; Kearns, of Arthur; Doyle and Backus, of Newmarket.

HOCKEY

WANDERERS WON.

A fast and interesting game of hockey was played last evening from seven to eight o'clock at the Brock street rink, when the Wanderers defeated Park Ponter's picked team by the one-sided score of ten goals to nil. The game was fast from start to finish, but the Wanderers had the best of it all through the game and played all around their opponents. [illegible] factory [illegible]

The teams lined up as follows;

Wanderers		Picked Team.
Meldrum	Goal	Anderson
Borradaile	Point.	Davidson
Fox	Cover.	Conroy
G. Campbell	Rover	Carton
S Wade	Centre	Porter
N. Geale	Right Wing	Waram
G Long	Left Wing.	Giroux

PETERBOROUGH'S WITHDRAWAL.

The hockey sage of the Toronto Telegram, better known as the Chief Apologist of the O.H.A., has the following characteristic dope about Peterborough's withdrawl from the Association,—

"The defection of Peterborough from the amateur ranks, does not come as any rude shock. It has been understood for some time back that some of their players were imbued with commercial instincts, and that they were looking for some encouragement to cross the bourne from which no amateur e'er returns—at least not since the C. A. A. U. has come forward to the penitent form. However, if Peterborough thought they were going to deal any knockout blow to the O.H.A. by their action, they have just one more think on the table. It's themselves they have knocked out."

Peterborough has no desires to "knock out" the O.H.A.. After all the trouble the Association has had this season, it would be a shame to harbor such nasty thoughts. The Peterborough Club came to the conclusion that it would be better out of the O.H.A. than in it, as that body is being run at present. a business man gets a raw deal from a firm with which he has been doing business he naturally strikes them off his buying list. The Peterborough hockey club considered that it had been unfairly dealt with by the O.H.A. and followed the same course as a business man would.

KNOX CHURCH VS. KNOCKERS.

The Knox Church hockey team and the Knocker bunch will clash to-night at Brock street rink, between ten and eleven. Both teams are fast and an interesting game of hockey is assured.

BANKERS DID NOT PLAY.

The game of hockey which was to have been played last evening between the Bank of Ottawa and the Bank of Toronto, did not come off, owing to the Bank of Ottawa boys having to work. The game will be played as soon as the rink can be secured.

ECHO ANSWERS WHY?

The Globe today says:—Acting-secretary Fitzgerald yesterday replied to the letter from Peterborough containing the resignation from O.H.A. of the club of that city, informing them that their case had not, as they stated, been pigeon-holed, but that the majority of the members of the Executive committee had decided against Peterborough in the matter of allowing them to play the winner of the Stratford-Kingston round for senior honors.

So far so good, but why was the Peterborough club not notified to that effect? Is Acting-secretary Fitzgerald without the price of a postage stamp, ignorant of the whereabouts of a telegraph office or afraid of the business end of a telephone? As a last resort he might have sent a native runner. Toronto should have plenty of these as that place always was strong on wind.

JOHN TITTERSON WAS ELECTED

Provincial Picket of the Maccabees at Convention in Brantford

The second triennial provincial convention of the Knights of the Maccabees of the World convened in Brantford at 10 a.m. yesterday, in Orange Hall. The Provincial Commander, S. W. Trusler, of Camlachie, took the chair, and ably presided over the proceedings.

The proceedings were informal. Mayor Bowlby delivered a suitable address of welcome in the morning. At night the feature was a big banquet at Victoria Hall.

The delegates from Peterborough were Mr. John Titterson, Mr. Wm. J. Mitchell, Mrs. M. A. Pratt.

The Peterborough delegates were elected to the following committees: Resolutions—John Titterson; Printing and Press, Wm. J. Mitchell; Special, Wm. J. Mitchell.

Mr. John Titterson was also elected Provincial Picket.

Popular Young Man Leaving the City

Mr. Charles E. Gray, who has been connected with the local Dominion Express office for the past four years, leaves to-night for Toronto, where he takes a lucrative position in the company's office in that city. Mr. Gray is one of Peterborough's most popular young men and, whilst a large number of friends regret his departure, they congratulate him on his advancement

Winnipeg letter carriers will have their salaries increased.

Eight Inmates in House of Refuge

There are now eight inmates in the County House of Refuge. A resident from Belmont township, who has been in the county gaol was taken to the home today by Deputy Sheriff Hall. Two persons from Smith and one from Otonabee township have made applications to enter the House of Refuge.

At the Turnbull Co's Ready-to-Wear Opening on March 7th and following days, there will be on exhibition an advance showing of very choice Tailored Street Hats.

Health and Wealth

That's what the people get who trade at Kennedy's. Our Beef is prime, tender and juicy. We handle nothing but choice steers and heifers. Those who eat Kennedy's Beef will have no indigestion pains, which you are sure to have if you eat tough beef. Therefore, by trading at Kennecy's you can save the money that you would have to pay the druggist for medicine to digest tough beef. Give us a trial and be convinced as to the quality of our Beef.

TRIPE—This week we have nice fresh Tripe—the most delicious dish you could eat, when properly prepared.

PROVISIONS—A full stock of Fresh Provisions always on hand. Customers tell us our Cheese is the best in the city. You will find it rich and mellow.

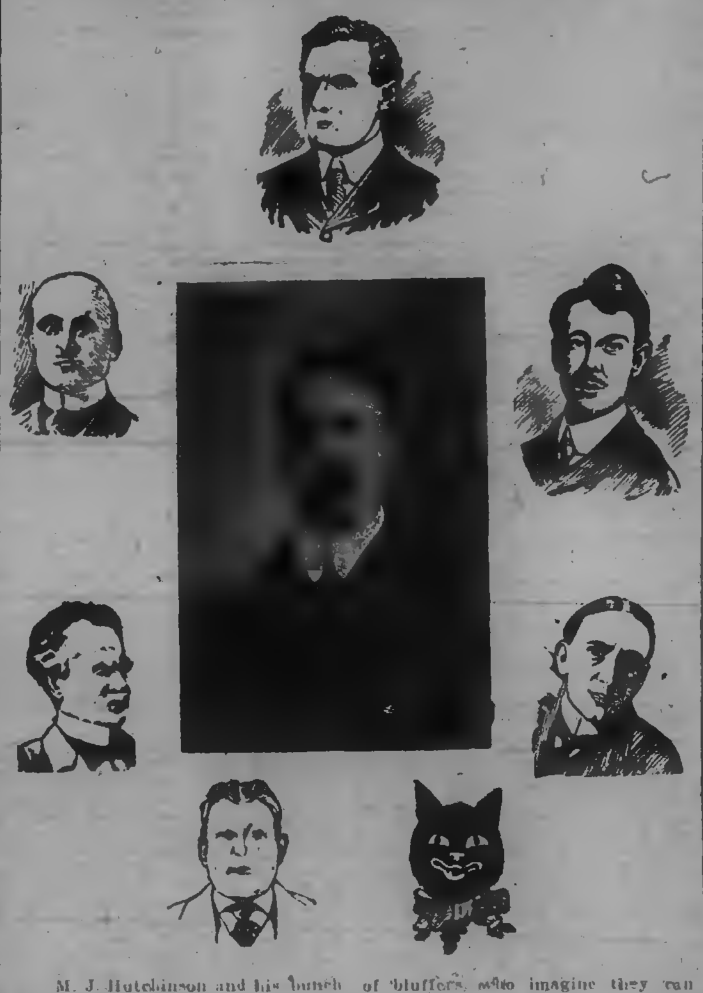
HERE IS THE EXAMINER AGGREGATION



M. J. Hutchinson and his bunch of bluffers who imagine they can play hockey. The one to the right at the bottom of the group, is the mascot of the team, which will line up against the Review in the Brock street rink to-morrow night at eight o'clock in the great game Examiner vs. Review.

Arnprior Are Coming Strong

Bringing Fast Team to Meet Peterborough To-night

The Peterborough-Arnprior game at Brock street rink tonight should prove one of the fastest contests seen here this season. The Easterners are champions of the upper Ottawa hockey league and have a fast, aggressive style of play. Baldy Spittal and Harry Smith of the Ottawas have played with them several times during the season and it would not be surprising if these men were on their line up tonight. It is also whispered that "Billy" Hague, who played goal for the Ottawas last season will be in the nets for the visitors tonight. The Arnprior team will arrive on the 5.10 C.P.R. train and the game will be called at 8.15.

The Peterborough team will be picked at the rink before the game. The following players are requested to be on hand at 7.30 o'clock: Lang Wasson, Glover, Crowley, Moore, Miller, Graham, Parnell and Morgan.

A bad outbreak of typhoid fever is reported in Havergal Ladies' College, Winnipeg, owing to tainted milk supply.

Canadian Team for Australia

Pres. Miller of the C. L. A. is Arranging a Trip

President J. C. Miller, of the C. L. A., will renew his efforts to gather a lacrosse team to take that long talked of trip to Australia.

On Thursday, Mr. Miller received a cablegram that the Australian Lacrosse Association stands ready to guarantee $9,000 to defray the expenses of a Canadian team's visit.

If the trip is made, the team will leave Vancouver on June 1st, and will remain in Australia two months playing fifteen or eighteen games. The team will return home by way of England.

When the trip was first mooted, the impression prevailed here that they played lacrosse in Australia while the snow was on the ground in Canada. Players jumped at the chance to make the trip, even if it was necessary to put up $200, which was to be returned if the promoters made both ends meet.

The situation now is somewhat different. Some players who were anxious to go in the winter, do not

Annual Banquet Decided Success

St. Paul's Young Men's Guild Hospitably Entertained by the Ladies

The annual banquet tendered by the ladies of St. Paul's church to the Young Men's Guild was held in the spacious Sunday school rooms last evening and was largely attended. The event was an unqualified success, and the proceedings characterized by much enjoyment and good fellowship. There were about sixty young men present including representatives from sister Guilds.

The tables were nicely decorated, while the many good things provided by the fair sex were appreciated by all. The ladies certainly know how to appeal strongly to the material side of life.

The chair was ably occupied by Mr. E. S. Clarry, the popular president of the Guild, while the duties of vice-chairman were suitably performed by Mr. J. H. Connal. The toast list was an excellent one and was interspersed with lively songs from Messrs. Wm. McIlroy, John Crane, W. McLaren, Chas. Barlier and a duet by Messrs. John Crane and W. P. Nelson. The applause was generous. The accompaniments were cleverly played by Miss Helen Davies, Messrs. W. J. Bennett and Crane. While the viands were being discussed Mrs. (Dr.) Torrance contributed several excellent selections on the piano.

The first toast honored was "The King," which was enthusiastically received.

The next toast was "Canada" proposed by Mayor R. McWilliams. He spoke of the progress of Canada, the pride in being a Canadian ad the necessity and wisdom of young men taking an active and intelligent interest in all public affairs. He favored municipal ownership, not only on a local scale, but in the larger utilities of the provinces and the Dominion. An honest electorate would ensure honest representation. We must have confidence in the integrity of our public men and demand that they be men of clean record and sound principles. The Mayor drew a bright picture of Canada's future and said that we had attained that stage of development where we could profit by the experience of other countries and learn the lessons which it had cost other nations a good deal to learn.

The toast was responded to by Mr. G. B. VanBlaricom, who spoke hopefully of Canada's future and reviewed the material, commercial and social progress that the country had made.

Mr. J. H. Connal in a neat speech, offered the next toast—that of "Our Pastors," Rev. Dr. Torrance and Rev. A. Bright briefly replied, expressing appreciation of the good work of the Guild and the interest they had always taken in its welfare.

Mr. Ross Cameron welcomed the delegates from "Sister Organizations" and referred to the good feeling that existed among the various Guilds of the city.

Mr. W. A. Richardson, president of St. Andrew's church Guild, Mr. H. C. M. Potter, representing St. Luke's church Guild, and Mr. I. D. Moore of Charlotte street church Guild, conveyed friendly greetings.

Mr. Moore next proposed the toast of "St. Paul's church Guild," and Mr. Clarry, the president, in an eloquent speech, briefly outlined its work and thanked the members for their large attendance, and the ladies of the congregation for the bountiful spread, which they had provided.

[illegible] the toast to "The Ladies," but was unavoidably absent. [illegible] Clarry performed the pleasant duty and coupled with the toast the names of Messrs. John Watt, Graham, Ferguson and Milne Hamilton. Mr. Watt said a few nice things about the fair sex, but Messrs. Ferguson and Hamilton were too bashful to respond.

The last toast was that of "The Press," which was suitably acknowledged by the representatives present.

The gathering broke up at a seasonable hour with the singing of "The National Anthem."

RHEUMATISM

Price 25c.

I will refund your money if it fails.

Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

BALLET GIRLS ENTERED SUIT

Incident of Lovers and Lunatics Company.

An Ottawa despatch says: The "Lovers and Lunatics" Company, who opened an engagement at the Grand Opera House last night, experienced a little trouble while in Montreal recently. The company were detained in the Royal City longer than the time of their engagement as a result.

Some time ago, the original owners of the company, the Mittenthal Brothers, decided to take no chances on the short stands involved in a Canadian tour. The leading man, Mr. Joe Morris, wished to take the show over, but not feeling capable of carrying the whole company, he gave notice to quit to four of the chorus girls at Syracuse, the notice to take effect in Montreal, at which point he was to take control. Arriving at Montreal, the four ballet girls entered suit against the Mittenthals on the ground of breach of contract.

The four girls were Nellie Walker, Norine Dunham, Edith Kolmie and Helen Drew, all bright and attractive members of the ballet. They placed their case in the hands of Messrs. Walsh and Walsh, lawyers, of Montreal, and as a result a seizure was placed on the chattels of the show. A release from seizure was granted Wednesday, however. Misses Walker and Drew are claiming $80 each, Miss Kolmie about $70, and Miss Drew $40.

The suit is against the original owners and consequently the company as at present constituted, is out of the case entirely.

Court Chemong Is Represented

By Chief Ranger Wm. Miles at the Funeral of Dr. Oronhyatekha.

Chief Ranger Wm. Miles, of Court Chemong, I.O.F., left this morning on the five o'clock C.P.R. train to Toronto, to represent this Court in the funeral procession of the late Dr. Oronhyatekha, which was held today upon the arrival of the train from Buffalo this morning at the Union station. The procession will proceed to Massey Hall where the body will lie in state until Thursday morning when it will be removed for final burial at Deseronto.

Court Chemong made a wise choice in selecting Mr. Miles to represent them. He is not only Chief Ranger of this court, but he has been a Forester in good standing for the past twenty years, and was personally acquainted with the deceased Chieftain. Mr. Miles joined Court Newbourgh, No. 417, in 1889, and was first installed as an officer by Dr. Oronhyatekha. The Chief Ranger of Court Chemong will remain in Toronto for the service in Massey Hall to-night, and return on the midnight.

Canadian Social at Mark St. Church

Patriotic Event Greatly Enjoyed by Those Present

A most successful Canadian social was held last evening at Mark street Methodist church under the auspices of the Epworth League. A large number were present and thoroughly enjoyed the excellent programme provided. Almost every feature of the entertainment suggested that it was a Canadian evening. Each member of the league was given two tickets in the shape of a Maple Leaf and they were to give them to two of their friends. The members of the committee in charge of the social wore small Union Jacks and the Sunday school room was prettily decorated with flags and bunting. The committee consisted of the following,—Mrs. J. H. mSith, Mrs. J. G. Lewis, Miss R. Stewart, Miss B. Crowe, Mrs. S. Taylor, and Miss M. Howson.

Rev. Dr. Crothers occupied the chair and in a few well-chosen remarks introduced the following programme which consisted of entirely Canadian numbers,—

Hymn.

Prayer.

Chairman's address, Rev. Dr. Crothers.

Chorus, "Maple Leaf Forever," Epworth League.

Vocal Solo, "Canada the Gem of the Crown," Mr. J. C. Miller.

Recitation, "Little Batiste," Mrs. J. G. Lewis.

Duet, "God Preserve Our Native Land," Misses Ketcheson.

Reading, selected, Mrs. John Speer.

Chorus, "God Preserve Canada," Epworth League.

After the programme, refreshments were served on neatly arranged tables by the members of the committee, and a most enjoyable evening was brought to a close by singing "God Save the King."

PALPITATION AND DIZZINESS

FOR 5 YEARS SHE SUFFERED BEFORE TRYING BILEANS.

[illegible]

[illegible] "smothering" and "sinking" feelings, stabbing pains around the heart and that "all gone" sensation! do you have these serious symptoms? If so, read what Mrs. J. S. Blackabee, of Elginburg, Ont., says: "For almost five years I suffered in this way," is her statement. "After meals I had pain and felt bloated, and when the dizzy spells and palpitation came on I had to give in and lie down for an hour or two! I feared heart trouble, but found when I began to take Bileans that my heart was sound enough, and the trouble arose from acute digestive disorder. This Bileans soon corrected, and today I am cured completely. Bileans are just as good for constipation, headache, piles, female ailments, anaemia, blood impurities, pimples, etc. All druggists and stores at 50c a box, or from Bilean Co., Toronto, for price.

Dress Didn't Fit Woman Refused it

Unique Case Tried in Toronto Court.

Examining a rich-looking hundred dollar lady's wine colored velvet skirt and coat with white silk reveres was Judge Morson's occupation Saturday at Toronto, in the Division Court. After close and bewildered examination he was quite ready to admit it was the most interesting suit that had come under his eyes for some time. Mrs. Witton, wife of Vice President Witton, of the Tucker Tobacco Company had ordered the costly garment from Stitt & Co., early in November last.

After four fittings, which necessitated journeys from Hamilton for Mrs. Witton, the dress was not delivered until January 4th. It was sent C.O.D. and was promptly returned. When the dress travelled a second time to Hamilton Mrs. Witton tried it on and, according to her testimony, the skirt was too short, it didn't hang properly, the revers were made of cheap taffeta silk, which didn't match the lining, the drop skirt hung below the outer skirt, there was a clumsy pleat in the collar, the pleating was bad, the coat was too tight and bulged up, there was a black streak around the bottom of the skirt, and so many other defects that the Judge ordered the lady to try the wonderful gown on so that he could see for himself all the harrowing details.

Mr. Stitt, who was called to the box, claimed that he had done all in his power to make any alterations Mrs. Witton had requested from time to time and even now was ready to refit the costume without extra charge.

Mrs. Witton maintained that it is impossible to make the necessary alterations without ruining the workmanship, and if the company could not make a job of the costume in two months' time it was too late now to talk of setting it right.

The Judge adjourned the case for further evidence in Chambers.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 82, Windsor, Ont., will send free to any mother, her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are, it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Maypole
Soap
Dye

The English home dye. A cake of soap. Clean, quick, safe. Brilliant colors. Dyes to any shade. You can't wash the color out—it's fadeless. Dyes anything. The largest sale in the British Empire.

Made in England but sold everywhere. 10c. for Colors—15c. for Black.

Can Play Cricket; Also Studied Law

Something About Rev. E. A. Pearson, New Pastor of George Street Church

Rev Edwin A Pearson, B.A., now pastor of the Centennial Methodist church, Toronto, who has accepted the call to George street Methodist church, Peterborough, was ordained to the ministry in 1892.

A strange incident about Mr. Pearson's career is that he will follow his father, Rev. M. L. Pearson, as pastor of George street church, the latter having been in charge of the congregation here from 1888 to 1890. Rev. M. L. Pearson is still engaged in the work of the ministry, being stationed at Strathroy, Ont.

Rev E. A. Pearson is thirty-eight years old and was born in Uxbridge, Ont. He was for over a year in Peterborough part of the time being articled as a law student in the office of Messrs. Hall & Hayes. He was also active in sport, being an enthusiastic member of the Peterborough baseball club and an energetic member of the cricket team. Messrs Sam Ray, J. H. Burnham and other old-time cricketeers will remember Mr. Pearson and his ability in bowling and batting. He still enjoys a good game of cricket.

Mr. Pearson was, as already stated, ordained in Toronto in 1892 and has travelled five circuits, the last two being Aurora and the Centennial, Toronto, [illegible] edifice is being built which will be opened in June next, previous to Mr. Pearson coming to Peterborough. The city is growing so rapidly that enlargement was necessary. The new church will seat 1,100 people and the membership in three years has grown from 220 to nearly 600. Mr. Pearson is married, his wife being a daughter of Sheriff Bowles, of Orangeville, Ont. and a cousin of Prof. R. P. Bowles, of Victoria University. Mr and Mrs Pearson have three boys, all attending school. The family resides at 697 Dovercourt Road, Toronto. Mr. Pearson is a gentleman of pleasing personality, and a fluent, forcible and earnest speaker.

Sunnyside Branch Woman's Auxiliary

Officers Elected at the Annual Meeting Held Yesterday

The annual meeting and election of officers of Sunnyside Branch of the W.A. of St. Luke's church took place on Tuesday afternoon, at the residence of Mrs. John Michels, Otonabee. All the members were present. Rev. E. A. Langfeldt and Mrs. T. Gaskins, President, and Mrs. Langfeldt, Vice-President, were present as representatives of St. Luke's. Mrs. Charles Curtis, who has been the President of Sunnyside branch, and Miss Ada Curtis, the indefatigable secretary-treasurer, resigned their office. The election of officers resulted as follows;—

Hon.-President—Mrs. Chas. Curtis.

Pres.—Mrs. John Michels.

Vice-Pres.—Mrs. H. Mackey.

Sec.-Treas.—Mrs. George Curtis, jr.

Delegate to Annual Meeting—Mrs. Curtis, jr.

After the meeting Mrs. John Michels entertained the ladies to tea.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Cordial Welcome to Young Women

Sunday Teas Will be Held at Y. W. C. A. to Strangers

The Young Women's Christian Association is anxious to meet the needs of all young women. At the last monthly Board meeting it was decided to invite any young girls who are strangers to the city to come and have tea in the rooms on the second Sunday afternoon of every month. By doing so they meet with other girls and form friendships which will be helpful. Miss Mayneord, General Secretary, would be glad at any time to meet any such girls in her office. The rooms are open from 9.30 a.m., to 9.30 p.m. A cordial invitation is extended to all young women to come in. The association will count it a privilege if it can help young women in any way.

Wood's Phosphodine,
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

MAKE YOUR WILL.

Judge Winchester Gives a Practical Talk On How to Make a Will and Why to Do It Now.

For over an hour on a recent Friday night His Honor Judge Winchester held the close attention of a large audience of men at the Toronto Y.M.C.A. whilst he spoke to them on the subject of "Wills and Descent."

He said that most men put off their will-making till the approach of death, from the time of Hezekiah, whom Isaiah exhorted to "put his house in order," because he was about to die, right down to to-day. He showed the differences between the English and Canadian laws, and said that under our laws a will can be written by anyone, it can be written in any language, either with pen or pencil; it can be printed or lithographed, so long as it clearly expressed the desire of the testator. Therefore it was important that the language should be clear and concise.

A will can only provide for the disposal of properties after death, and should therefore always provide for an executor or executors. Sometimes in the excitement a person might forget this, and such an eminent lawyer as the late Charles Durand forgot to provide for an executor in drawing up his own will.

A will must also have two witnesses and the testator and the two witnesses must all be together when each signs. This is absolutely necessary, and any deviation destroys the will. It was vital that the testator should be in a position to see the witnesses sign, and even a blind men must be placed in such a position as would enable him to see if he had his sight, and there have the will read over to him. Thus a blind man could make a good will; a blind and mute man could make a good will; but a blind, deaf and mute man couldn't. If a man makes a will before his marriage, he had better make another after, for the marriage destroys it. A married woman can make a will and dispose of her own property.

A person under age can neither make a will nor act as an executor. An insane person cannot make a will, unless in a lucid interval between his insane periods. Soldiers on active service and sailors on the high seas were two privileged classes. They could make out a verbal will and the two witnesses who had heard the deceased's instructions could file affidavits which would constitute a good will.

Sometimes a man forgot some of his property in making out his will, so that it was always wise to add, "and the rest and residue of my estate I bestow, etc."

It was not wise to leave a will in a drawer or about the house. The safest method was to deposit it with the surrogate registrar of the county.

Wills were often attacked, but rarely successfully, except in cases of fraud. The courts were always anxious to carry out the evident wish of the testator. Sometimes people left conditional wills. These were difficult to deal with and should be avoided if possible. His honor narrated a case which came before him of a man who was so charmed with his little niece that he sent for witnesses and drew up a will reading. "If I die to-night I want my little niece to inherit all my estate."

"That was clear enough," said the judge, "but the trouble arose because the man didn't die that night and fulfill the conditions of his will."

A woman had a dower interest in her husband's real estate holdings, and the husband might give her the option in his will of a certain sum in lieu. A husband could have, by electing within six months, a "tenacy by courtesy" of his late wife's real estate holdings on two conditions—first, that he had had a child by her; and, second, that the child was born alive. Otherwise he could claim no share in the estate. Without a will an illegitimate child cannot inherit anything, nor without a will could his children inherit from him, for the law does not recognize illegitimates and the crown can escheat their property if they die intestate.

The law in Canada looks after the interests of girls better than the English law. In Canada if a man dies without leaving a will the girls and boys share alike. In England the eldest son frequently takes all.

His honor said: "If you are called upon to draw up a will, use common English in your own usual way, see that the person understands it, ascertain from the doctor that he is in sound mind, read it over to the testator, and in the presence of the two witnesses all three must sign the will.

"And for yourself, young man, see that you make a will without delay. It is a proper thing to do. No matter how little you have to leave, make a will. It will ensure that what you leave will go to those whom you wish it to go to without unnecessary bother and expense.

"And don't forget the dear ones. Leave something to your mother and your sisters. Remember the tender ones," urged Judge Winchester, proving once again that he has a good heart as well as a good head and a well-balanced judgment.

Cheap Telephones.

Nothing convinces people so quickly and thoroughly of the benefits of municipal ownership as the record of what has been done in places which have courageously grappled some problem and solved it. This is shown by the following appreciative paragraph in The Arnprior Chronicle:—"Three thousand three hundred dollars of clear profit is what the town of Fort William has to show for one year's operation of its telephone system. In fact it has much more to show than a substantial margin of receipts over disbursements. There were cheap and efficient service, provision for a sinking fund, interest, and depreciation of plant, and vindication of the good principle of public ownership. The town which looks out upon Thunder Bay has set an example in this connection which other communities could make no mistake in following."

The Dowager Empress of Russia, left St. Petersburg for London, to visit her sister, Queen Alexandra.

Some Statistics From the Schools

Gleaned From Annual Report of the Education Department

The annual report of the Minister of Education for the province of Ontario, has just been issued. The report shows the total public school population in Peterborough between the ages of five and twenty-one years to be 2,237 and the actual number of pupils between five and twenty-one years to be 1913. Of the actual number of pupils attending in Peterborough, 975 were boys and 940 girls. The average attendance of pupils was 1371 and the percentage to the total population was 72. In the separate schools of Peterborough, the number of pupils was 838—377 boys and 461 girls. The average daily attendance was 593 and the percentage of average to the total attendance was 71.

The apportionment of the grant to the several municipalities is based upon the latest returns of population for the year 1905, and the division between the Public and Separate schools on the average attendance of that year as reported by the Inspectors, Public School Boards and Separate School Trustees, respectively.

In the County of Peterborough the apportionment was,—

Austruther	$ 38.00
Asphodel	181.00
Belmont	189.00
Burleigh	43.00
Cavendish	15.00
Chandos	88.00
Douro	248.00
Dummer	198.00
Ennismore	96.00
Galway	76.00
Harvey	119.00
Metheun	75.00
Monaghan, North	105.00
Otonabee	[illegible]
Smith	306.00
Total	$2,095.00

In the City of Peterborough the total legislative grant was $5,856.41 for public schools and the total receipts for all public school purposes was $38,540.43. The total salaries of public school teachers was $18,515.88. The legislative grant to public [illegible] $78.40.

PUBLIC LIBRARY.

To the Public Library of Peterborough, the legislative grant was $190.39, the membership fees $541.35, the total receipts $1,432.74. The expenditure was $1,136.09, and the balance on hand $296.65. The total number of members is 401, the number of volumes in the library 10,303, number of volumes issued 13,945. The assets of the library are $12,636.74, and liabilities $240.

WAS IT SUICIDE?

Young Canadian Found With Bullet Through His Head.

Saskatoon, Sask., March 6.—The body of E. C. H. Gwynn of Valley Park, 25 miles southwest of Saskatoon, was found in a shack Monday. A Winchester rifle along side the body and a hole in the skull suggested suicide. Mounted police have gone out to investigate. The body was found by the partner of deceased and R. W. Schram. No reason for suicide can be given. Deceased was unmarried, and was 36 years of age.

Woman Killed at Crossing.

Pembroke, March 6.—Mrs. Moore of Point Alexander was killed and Abraham Thrasher of Beachburg had an arm broken yesterday evening, when the Winnipeg train, westbound, ran into Thrasher's team at a crossing near this place. The horses were killed and the cutter was smashed.

The Daily Review

WEDNESDAY, MARCH 6, 1907.

DATE OF ELECTIONS

The Ontario Municipal Union has submitted to the Ontario Legislature a bill giving cities the option of holding municipal elections on the last Monday in November and polling the first Monday in December. This would be a decided improvement on the present system, and would enable the newly elected councils to assume office on the first day of January. Why should election strife and bickering, the jealousy and rivalry of candidates, the disturbing elements and various cries raised at election time be experienced during the Christmas season, when all is generally peace and good-will [illegible] by municipal [illegible]. The change of date cannot be brought about too soon. The Christmas festivities should not be disturbed by the community being divided into rival camps. Let the contest be held earlier and all will be peaceful and serene in the larger centres during the Yule-tide period. Mr. Preston, M.L.A., of Brantford, has consented to take charge of the bill for the Ontario Municipal Union. It is hoped that the measure, which has much to commend it, will be adopted by the Ontario Legislature.

PEN POINTS

Which is worse—Club life of Council life? They both end about the same hour in the morning.

Next to Ald. Tovey's proposed tax on bachelors, the greatest event in the local "world" is the Review-Examiner celebrated hockey match at Brock street rink to-morrow night.

A certain alderman says, should he get married, the date of the announcement may be somewhat indefinite. The Morrow, you know, never comes.

The number of cigarettes manufactured in Canada have increased from 85,000,000 in 1896 to 270,000,000 in 1906—the output being three times as great. Who is doing all this cigarette smoking? Can't it be the small boy?

How can a gentleman named Tweedie fill a gold lace and cocked hat position like the Lieutenant Governorship of New Brunswick? But perhaps the new occupant is as democratic as his name.

In the discussion in the Commons on Mr. Blain's proposal to prohibit the manufacture, importation and sale of cigarettes, Dr. Black, M.P., said so long as the father smoked a pipe or cigar, so long would a boy imitate him by smoking cigarettes. Truer words never were spoken than these.

Ald. W. G. Morrow opposed Ald. Tovey's proposal to place a good strong tax on bachelors. The alderman being the nephew of a millionaire senator and enjoying the emolument of a responsible position in the financial world—can hardly put forth the customary plea that he cannot afford to support a wife.

Ontario is going to fight the great white plague. The ravages of consumption are appalling. As Mr. J. P. Downey, M.P.P., so aptly expressed it, "The disease seeks life at the period of greatest happiness to the individual and greatest value to the community." The Provincial Board of Health will take the matter up and report on the whole problem at the next session of the Legislature. It is probable county sanitoria may be adopted and that there must be compulsory notification to county boards of health of all cases of tuberculosis.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

Price of Gas in Ontario Cities

Peterborough's Favorable Showing in Comparison With Other Cities

The prices paid by the various cities and towns in Ontario the size of Peterborough for artifical gas, is as follows:—

Peterborough pays $1.25 for either fuel or lighting gas.

Belleville pays $1.50 for lighting and $1.25 for fuel. There is a combination rate of $1.35. The city owns and operates its own gas plant

Berlin has a flat rate of 1.25, but the consumers pay a meter rental in addition.

Brantford uses natural gas for fuel, but the lighting rate is $1.50.

Chatham has a sliding scale, running from $1.25 to $1.75 for lighting, and $1 for fuel. There is a combination rate of $1.25. Consumers pay a monthly meter rental, which is graded according to the consumption.

Guelph has a rate of $1.40 for lighting and $1 for fuel.

Kingston pays $1.50 for lighting, and $1.00 for fuel.

Owen Sound has a rate of $1.25 for either lighting or fuel, but the consumers are assessed a meter rental.

St Catharines pays $1.50 for lighting and $1.00 for fuel. There is a combination rate of $1.25.

Stratford pays $1.20 for both classifications, but there is a meter rental.

St. Thomas pays $1.15 for both, but the consumers settle for meter rental in six months when less than 100 feet is used.

Windsor has gas at $1.15 for either fuel or lighting and no meter [illegible]

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

MARCH CANADIAN MAGAZINE

It is gratifying to see an influential publication like the Canadian Magazine continuing to devote a large part of its space to the consideration of art and literature, and particularly to subjects in this connection that are especially interesting to the people of Canada. In the March number of this magazine a well illustrated article by Margaret B. Henderson deals with the art of basketry as practiced by the Indians of British Columbia. The number is replete with other contributions of a varied and entertaining order. The art of china making and decorating is considered in an article entitled "Celebrated Coalport China," and another illustrated article on the work of King Edward's Armourer is a valuable contribution. The number contains in all eleven articles, six of which are illustrated; five short stories, and seven poems, besides the usual departments.

Noted Worker Visits Y.M.C.A.

Mr. W. J. Southam is Inquiring into Religious Work

Yesterday Mr. W. J. Southam, special religous work secretary for Canada for the Y.M.C.A., visited the local Association and spent a part of the day in company with Mr. J. F. Thornton, chairman of the local Religious Work Committee, and Mr. Williamson, General Secretary. He is making a study of what each Association is doing along the line of religious work. To Mr. Thornton, he expressed himself as highly pleased with that department here, and stated that in point of organization it was the best he had yet visited in Canada.

Mr. Southam is a graduate of Wycliffe College and spent seven years in Hong-Kong in the Y.M.C.A. foreign work. He was a fellow student at Wycliffe of Revs. E. A. Langfeldt and Wm. Major.

Sir Conan Doyle, the well-known writer is seriously ill from ptomaine poisoning.

An unknown man attempted to rob Dingwall's jewelry store in Winnipeg, throwing his knife through the window. Main street was crowded and he escaped.

Minister of Justice Says That it Would be Revolution

To Demand That Federal Laws Be Duly Enforced.

Hon. Mr. Aylesworth Says This Could Not Be Done Without Amending Constitution—The Right and Privilege of Provinces—Not Duty of Minister of Justice to Enforce Laws.

Ottawa, March 6.—W. F. Maclean (South York) brought to the attention of the House yesterday the anomaly presented by the present Government in pressing for legislation and at the same time proclaiming that it has no power to enforce the acts of Parliament.

Upon motion to go into Committee of Ways and Means, he offered the following amendment:

"Resolved, that in the opinion of this House the Government of the day is responsible for the due enforcement of all federal laws; and that if any further legislation is necessary to secure such due enforcement, and the punishment of violations thereof, it is the duty of the Government to forthwith introduce such legislation."

The issues involved in this resolution, said Mr. Maclean, went to the very heart and life of our Government. If Parliament was unable to compel obedience to the laws it passed it had ceased to be a Parliament.

Mr. Aylesworth opined that the law could not be enforced without amending the constitution. No Canadian Government, he said, had ever attempted it. To enforce Federal law was the right and privilege of the various provinces. They must decide upon the various statutes and as to the propriety of their enforcement. It was not the duty of the Minister of Justice to enforce the laws. If any one wished a Federal law enforced, let him apply to the Attorney-General of his province. To introduce any other system would be unpatriotic. Were we to set ourselves up as wiser than the fathers of Confederation.

A Step Towards Revolution.

For the Federal Government to enforce criminal statutes would be, said Mr. Aylesworth, "a step towards revolution." He admitted that in certain cases Parliament had charged the Attorney-General with enforcing the law. It had the power to do so, but unless such an order was given him, the Attorney-General should not butt in and prosecute anybody. For him to do so would be an absurd anamoly. He must certainly oppose Mr. Maclean's amendment as uncalled for and bordering upon revolution.

Sir Wilfrid Laurier thought that this suggestion was unconstitutional. Apart from this, criminal jurisdiction was a delicate matter, some laws were not sustained by the public opinion of a certain province. Would it be wise for the Dominion to enforce a law like that?

MADE IT A CRIME.

Railway Committee Throws Out Bill to Legalize Sale of Ticket.

Ottawa, March 6.—A minority of the Railway Committee yesterday morning threw out the Maclean bill to legalize the sale of unused portions of railway tickets.

Only forty-two members recorded their names on the vote, whereas the full strength of the committee is something like a score short of the entire Commons membership. A strong contingent of Quebec Liberals were on hand with Louis Lavergne, the French Liberal whip.

The Minister of Railways was one of the chief opponents of the bill.

A strong force of railway lawyers and agents stood guard over the committee, and there was a free distribution of pamphlets setting forth the case of the railways.

MUSIC
AND
THE DRAMA

ROWLAND & CLIFFORD'S "DORA THORNE"

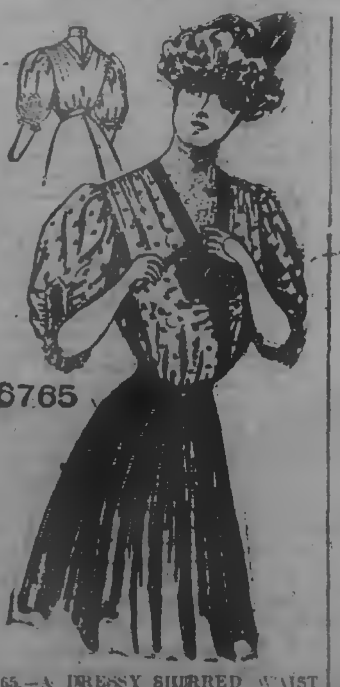
The play of "Dora Thorne," which has been attracting considerable attention on account of the popularity of the novel, will appear at the Grand Opera House Saturday, March 9th, matinee and night. "Dora Thorne" as a story is too well known for comment, but it must be admitted that the playwright has improved upon the plot to such an extent that the play is far more interesting than the book. Much humor is intermingled with the episodes of the drama, making as a whole a play novel and interesting in the extreme. A company of players well suited to their respective roles have been engaged to interpret the well known characters, and a most enjoyable evening's entertainment is promised to all lovers of the good and best amusements.

LOVERS AND LUNATICS.

The "Lovers and Lunatics" Company played to a big audience at the Grand Opera House last evening, and The show [illegible] than its advance notices would lead one to believe and it was almost a constant laugh from beginning to end. "Lovers and Lunatics" is a musical farce, and there is no lack of good comedy, bright music, sprightly dancing and pretty girls. There is never a slow moment, the fun being incessant. Joe Morris as Ikey Rosenstein, made a great hit and in his parody song the audience could not have enough of him. In his Jewish character he provoked roars of laughter. George P. Watson as Lieut. Geo. Richmond, has an unusually pleasing voice, as also has Florence Little, who took the part of Nellie Huntington. Lillian Lawson, as Nellie Richmond, was another great favorite. The chorus work was above the average and the dancing excellent. The four lunatics were great mirth makers and did many laughable stunts. The costumes and stage embellishments were above the usual.

The next attraction at the Grand is the "Uncle Josh Spruceby" Company to-morrow night. This show comes highly recommended, and should draw a packed house.

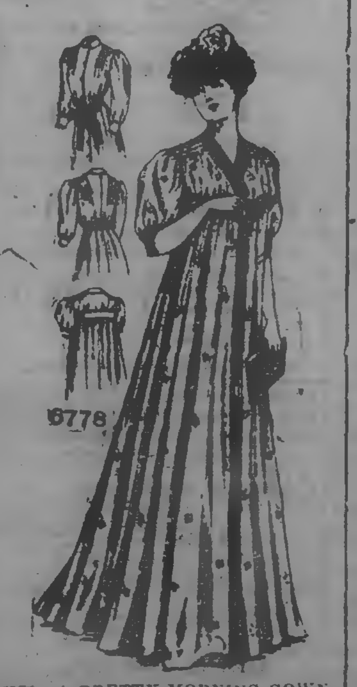
THE LATEST DEAN PATTERN.



6765.—A DRESSY SHIRRED WAIST

A little more labor expended upon a waist for nice occasions is never wasted for the pleasure in wearing a really beautiful garment is recompense enough. A strikingly pretty waist seen recently at a fashionable gathering is sketched for the benefit of the lover of beautiful clothes. The fabric of which it was made was silk voile beautified with threads of silk in another color. The shoulder edges and sleeves were gathered and shirred in such a manner as to not only bring out the charms of the material but those of the wearer also. A pointed tucker of lace gave the daintiest of finishes next the face, while a note of contrast was touched by the trimming bands of dark velvet. The waist is one which might be fashioned by the amateur sewer at home and for that purpose is reproduced here. The sleeves of the pattern may be long if preferred. For the medium size 2 7-8 yards of 20 inch material are needed, the waist being adaptable to silk, cashmere, vailing or chiffon.

6765.—Sizes, 32 to 42 inches bust measure.



6778.—A PRETTY MORNING GOWN.

Some of the least pretentious morning gowns are made chic and out of the ordinary by just a well placed bow or trimming band. One of cashmere, which is most simple in design, yet very attractive and modish is sketched here for the benefit of the woman who fashions her own clothes. It is made to appear like a real Empire. The fulness at the shoulder, back and front, may be tucked to yoke depth and girdled at the waist by a ribbon or belt, or it may be shirred and held in place by an Empire waist band which makes quite a different garment of it and one of real style. The simplest of material may be used with no other trimming than the ribbon or waistband, yet the result will be altogether pleasing and graceful. Either style may be followed in the development according to the wearer and her tastes. In the medium size the pattern calls for 9 3-8 yards of 27 inch material.

6778.—32, 36, 40 and 44 inches bust measure.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

Eggs—Weak; receipts, 29,684; state, Pennsylvania and nearby, fancy, selected, white, 23c; do., choice, 20c to 21c; brown and mixed, extra, 20c; firsts to extra firsts, 18c to 19c; western firsts, 18½c; official price, 18½c; seconds, 17½c to 18c.

CATTLE MARKETS.

Cables Are Steady—Hogs 5c to 10c Lower at Buffalo.

Liverpool, March 5.—Liverpool and London cables are steady at 11c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9½c to 9¾c per lb.

Toronto Live Stock.

Toronto, March 5.—Receipts of live stock were light—50 car loads, composed of 810 cattle, 645 hogs, 182 sheep, 76 calves and 15 horses.

Exporters.

The supply of shipping cattle was limited. [illegible] and Wilkinson of Galt at $5.50 per cwt. The next best lot was a load of 18, brought in by H. L. Atkinson, 1340 lbs. each, at $5.12½, and a few others sold around $5 per cwt. Export bulls were quoted at from $3.75 to $4.30 per cwt.

Butchers.

Prime picked lots of butchers sold at $4.80 to $5 per cwt.; loads of good to choice, $4.50 to $4.85; fair to good loads, $4.35 to $4.60; medium butchers' and good cows, $3.65 to $4.12½; common butchers' and canners at $1.50 to $2.50.

Milch Cows.

There were about 30 milkers and springers, none of which could be classed as being very choice. Prices ranged from $30 to $53 each.

Veal Calves.

There is a good demand for choice veal calves, but few are coming forward. Prices ranged from $3 to $7 per cwt. A few prime new milk-fed calves would bring from 25c to 50c per cwt. more.

Sheep and Lambs.

The run being light, the market remained firm. Prices were as follows: Export ewes, $4.50 to $5.25 per cwt.; lambs, choice, $6.50 to $7.25 per cwt.; common lambs, $5 to $6 per cwt.

Hogs.

Deliveries light; market inclined to be easier, with selects, $6.85 to $6.90; lights, $6.60 to $6.65 per cwt.

East Buffalo Cattle Market.

East Buffalo, March 5.—Cattle—Receipts, 300 head; slow and easier; prime steers, $5.50 to $6.

Veals—Receipts, 200 head; slow; $4.25 to $8.50.

Hogs—Receipts, 2800 head; slow and 5c to 10c lower; heavy, mixed and yorkers, $7.30 to $7.35; pigs, $7.35 to $7.40; roughs, $6.50 to $6.60.

Sheep and Lambs—Receipts, 1400 head; active; sheep steady; lambs 5c higher; lambs, $5 to $7.80.

New York Live Stock.

New York, March 5.—Beeves—Receipts, 1013; none on sale; feeling nominally steady for steers; bulls and cows weak. Exports to-day, 18 cattle and 80 sheep; to-morrow 920 cattle, 1000 sheep and 5650 quarters of beef.

Calves—Receipts, 189; very little doing, but feeling steady; common to fair veals sold at $5 to $5.62½ per 100 lbs.

Sheep and Lambs—Receipts, 1080; sheep steady; choice lambs full steady, but none offered; common sheep sold at $3.50 to $4, culls, $3; yearlings, $6; lambs, $7.50 to $7.75.

Hogs—Receipts, 3065; feeling steady.

Chicago Live Stock.

Chicago, March 5.—Cattle—Receipts, about 3000; market steady; plain to best steers, $4.50 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3 to $4.50; calves, $2.50 to $7.25; stockers and feeders, $2.50 to $5.

Hogs—Receipts, about 12,000; market steady; choice heavy shipping, $6.95 to $7; light butchers, $6.90 to $6.95½; light, mixed, $6.90 to $6.95; packing, $6.50 to $6.95; pigs, $5.75 to $6.75; bulk of sales, $6.90 to $6.95.

Sheep and Lambs—Receipts, about 12,000; market stronger to 10c higher; sheep, $5.25 to $6; lambs, $6 to $6.70.

Earl Grey at Levis.

Quebec, March 6.—Earl Grey visited the Caisse Populaire, Levis, yesterday, accompanied by a cousin, George Grey, Col. Hanbury Williams and Mr. Rickering.

Mr. Desjardins, the founder and manager, explained the system of the institution minutely, the Governor-General evincing keen interest.

Faith Healers Fight Bill.

Quebec, March 6.—A deputation of osteopathists and Christian Scientists, mostly from Montreal, protested yesterday against the clause in the bill of the College of Physicians and Surgeons, which, if adopted, would prohibit them practicing their methods of cure.

M. C. R. Men Strike.

Windsor, March 6.—One hundred men, employed at the Michigan Central tunnel, went on strike yesterday. They were asked to change from an eight-hour shift to a ten-hour shift, with the same pay.

King Goes to Biarritz.

Paris, March 6.—King Edward went to Biarritz yesterday by a special train.

France is not opposed to the discussion of limitation of armaments at the Hague conference.

VOICE OF THE VOICELESS

I am the voice of the voiceless;
Thru me the dumb shall speak,
Till the deaf world's ear be forced to hear
The cry of the wordless weak,
From street, from cage, and from kennel,
From stable and zoo the wail
Of my tortured kin proclaims the sin,
Of the mighty against the frail.

Oh, shame on the praying churchman,
With his unstalled steed at the door,
Where the winter beats with snow and sleet,
And the summer sun rays pour!
And shame on the mothers of mortals
Who have not thought to teach
Of the sorrow that lies in dear dumb eyes—
The sorrow that has no speech!

The same force formed the sparrow
That fashioned man the king:
The God of the whole gave a spark
[illegible]
And I am my brother's keeper,
And I will fight his fight,
And speak the word for beast and bird,
Till the world shall set things right.

—Ella Wheeler Wilcox.

TESTED

A trial?—What of it?
'Tis meant for your profit.
So frown not—but smile in adversity's face!
Far off—'tis a mountain!
Near by—just a fountain
O'er-brimming with treasure of beauty and grace.

The day has been weary?
Don't think of it—dearie:
But give yourself over to thoughts of good cheer!
They're waiting in numbers
to sweeten your slumbers.
If you will but give them a welcoming, dear.

—Lillian Waters McMurtry

DEAN PATTERNS

Have you used any of the Dean Patterns which appear in the Review each evening. Those who have tried them find them most satisfactory in every way, not too elaborate for the home dressmaker, and not too extreme in style to wear well. Order such patterns as will suit you, and they will be sent you through the mail on receipt of ten cents for each pattern.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

Saved From Threatened Catarrh of the Lungs By Taking Pe-ru-na!

MRS. MOIS PARIZEAU.

Mrs. Mois Parizeau, Ste. Julie de Vercheres, P. Q., Canada, writes:

"I hardly know how to thank you for the good Peruna has done me.

"I suffered five years with pain in the stomach. About a year ago it became so bad I could hardly bear it.

"I coughed day and night and grew weaker and weaker. The pains extended through my body and I also had difficulty in breathing, which made me cough. Everyone thought I had consumption.

"My husband heard of Peruna and bought five bottles.

"This treatment virtually cured me and now I recommend Peruna to every one who is suffering.

"I thank Dr. Hartman for this excellent remedy."

---MRS. MOIS PARIZEAU.

A NEGLECTED cold is generally the first cause of catarrh.

Women are especially liable to colds. These colds occur more frequently during the wet, sloppy weather of winter and spring than any other time of the year. Often they are not considered serious and so are allowed to run on, or they are treated in such a way as to only palliate the symptoms, while the cold becomes more deep-seated and the patient finally awakens to the fact that she has a well-developed case of catarrh.

WOMEN SHOULD BEWARE OF CATCHING COLD.

By reason of their delicate structure, [illegible] cold, especially if there is [illegible] weakness of the organs. The treatment of catarrh of the lungs is also more difficult and discouraging than catarrh of any other organ of the body.

It would be wise, therefore, to guard against it by every precaution possible.

Peruna has been found the most reliable of all remedies for coughs, colds and catarrh, by reason of the fact that it goes at once to the very seat of the trouble.

It searches out every crevice, every duct of the body. It quickens and equalizes the circulation of the blood, thus relieving the congested mucous membranes. It exercises a healing and soothing effect upon the mucous membranes, no matter whether they are the more exposed membranes of the head and throat, or whether they line the remotest cells of the lungs.

PE-RU-NA THE REMEDY FOR CATARRH OF THE LUNGS.

A word to [illegible] woman is sufficient. Take Peruna at the first appearance of a cold.

Those desiring special instructions regarding the use of Peruna, should address Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, O.

Contracts Must be Carried Out; Two Norwood Teachers Resign

Mr. Leighton of High School Staff and Principal J. L. Moore of Public School Staff are Released—Mr. Moore's Breach of Contract Will be Reported to the Minister of Education.

Norwood, March 6.

Miss Clayton, of Toronto, is visiting Miss A. Buckell.

Mr. and Mrs. R. F. Graham, of Tweed, spent Sunday with Mr. and Mrs. Robert Patterson.

Mr. Will Foster spent a few days at Bracebridge and Buck's Falls.

Mr. Jas. Andrews left on Monday for Regina.

Mr. Andrew Spence and Miss Beatrice Stevenson left on Tuesday for the west.

Miss Laura Beavis left on Tuesday morning for Souris, Man.

Mr. E. Williams, of Havelock, was in town on Tuesday.

Mr. S. Griffin, of Greten, N.D., is visiting in town.

Mrs. Bryce, of Campbellford, is visiting her daughter, Mrs. George Mills.

Miss Maggie Calkie returned from Toronto, where she spent a month visiting friends.

BOARD OF EDUCATION.

The Board of Education met on Monday night. There were present Messrs. Squire, Campbell, Webster, Harrison, Robertson, Cuffe, Doherty, Stevenson, Elliott and Drain.

The minutes of previous meeting read and adopted.

The matter of fees paid by Fred Lonergan last May was left with the chairman to arrange with Mr. Lonergan.

The chairman called the attention of the Board to the late disaster at Hochelaga, where so many school children were burned to death and thought something should be here to provide fire escapes in the Public school.

A discussion followed and the matter was left with the Property committee to report at next meeting.

Mr. Leighton tendered his resignation as Science Master in the High school. Mr. J. L. Moore also resigned the principalship of the Public school, the same to take effect 1st April, 1907.

Moved by Mr. Stevenson, seconded by Mr. Doherty, that both resignations be accepted.—Carried.

After a lengthy discussion took place in which the members thought that teachers should be compelled to fulfil their agreements with the Board. Both the above teachers were engaged to teach midsummer.

On motion of Dr. Robertson and Mr. Campbell the resolution of Mr. Stevenson was rescinded.

It was then moved by Dr. Robertson and seconded by Mr. Drain that we accept Mr. Leighton's resignation without recognizing any liability for any portion of the bonus agreed upon at the time of his transfer to the High school, he having broken his verbal contract with the Board entered into at the meeting on Jan. 22nd, 1907.—Carried.

Moved by Mr. Doherty, seconded by Mr. Elliott, that the resignation of Mr. Moore be not accepted and that he be requested to complete his agreement with the Board.

Moved in amendment by Messrs. Stevenson and Cuffe that the resignation be accepted. The amendment was lost.

For—Dr. Robertson, E. P. Cuffe, D. Campbell, P. W. Stevenson.

Against—J. F. Elliott, J. Doherty, W. Webster, H. Drain, A. S. Harrison.

After further discussion Mr. Elliott moved, seconded by Mr. Doherty,—That in view of the unsatisfactory condition our school will be left in on account of Mr. Moore's resignation, that we reconsider the question and grant the resignation and report his breach of contract to the Minister of Education.—Carried.

On resolution the secretary was instructed to advertise for a Science teacher for the High school and also for a Public school principal, duties to commence April 8th.

It was also decided to have all teachers employed by this Board to sign agreements requiring one month's notice to quit previous to the commencement of any term.

The following accounts were passed:—

K. G. Thompson	$17.65
K. G. Thompson	1.55
R. S. Patterson	3.25
W. C. Doughty	1.25

The Board then adjourned.

Lively Debate at T.A.S. Rooms

Capital Punishment Should be Abolished

The second of a series of debates was held in the T.A.S. rooms last night under the auspices of the debating section of the society. The subject under discussion was "Resolved, that Capital Punishment should be Abolished." The affirmative side of the debate was upheld by Mr. Jas. Drain, leader, and Mr. Arthur Sharpe; the negative by Mr. Andrew Foley and Mr. Fox.

Rev. Dr. O'Brien was unable to attend, and Rev. Father Galvin very generously acted as chairman. Mr. Jas. Drain was the first speaker for the affirmative. He stated that the first known murderer was not put to death, namely, Cain and therefore mankind can take a good example from this. He gave statistics which showed that most countries have abolished capital punishment.

Mr. Foley for the negative side said that the death punishment was a protection to society, in that most criminals were cowards and feared death but not imprisonment.

The other speaker for the affirmative side said that one man out of every fifty that was put to death was innocent and this was sufficient to give the abolition question some consideration. Moreover, with punishment, crime does not decrease.

Mr. Fox said that the punishment for a murder was only made equal to the crime by death.

Rev. Father Galvin summarized the points advanced and then left the decision to the house. The negative side won the highest number of favorites and thus won the decision. The rest of the evening was spent in a general discussion of the subject.

Improvements to Train and Boat Service at Stoney Lake

Committee Reported at Meeting in Toronto Yesterday—Annual Banquet of Cottagers' and Campers' Association Held

The annual banquet of the Stoney Lake Cottagers and Campers Association, was held at St. Charles Hotel, Toronto, last evening, and proved a highly successful and enjoyable event.

A business meeting was also held at three o'clock in the afternoon at which the committee appointed to confer with the G.T.R. railway and the proprietors of the steamships regarding a better service for the lake regions submitted a report. The committee is endeavoring to have the railway company run a siding down to the wharf at Lakefield in order to save the waste of time and money necessitated by the present condition of affairs. They have also requested the railway to have the baggage and freight put aboard the steamer before the passengers embark so as to do away with the delay at present experienced and also that the mail for the lake points be made up *before the train arrives* at Lakefield in order to cut down the delay in getting away on the steamer.

The railway and steamboat proprietors have also been asked to arrange a more satisfactory service, the principal request being that the boats reach Lakefield early enough in the morning, that passengers may catch the Toronto train. This would enable business men, bank clerks, etc. to reach Toronto, in time for their duties in the morning. The proposition is to have the steamboats call at fewer places on the lakes, which would save a great deal of time. The campers would have to gather at some central point where the boats would call.

The committee is still working with these objects in view and their work is likely to bear good fruit.

The banquet at night was a great success. About seventy were in attendance including a large number of ladies. The table was all that could be desired and everything passed off most harmoniously.

James Acton, the president, occupied the chair, and appropriate addresses were delivered by the following: D. W. Dumble, Peterborough; S. Henderson, Toronto; H. Sutherland, J. O. McCarthy, John Guoinlock, D. W. Robinson, H. P. Lindsay and E. S. Piper. Music, singing and readings were provided by Miss Ruby Shapley, Miss Elsie Dixon Craig, and Mr. Roddis.

Among those present from Peterborough were Mr. and Mrs. W. H. Meldrum, Mr. and Mrs. J. S. Knapman, Mr. D. W. Dumble, and Mr. T. Robinson. Messrs. Moore, Graham and Strickland, of Lakefield, were also present.

THE CITY AND VICINITY

EVENTS TO-NIGHT

St. John's church—Lenten address by Rev. C. E. Sharpe, of St. Thomas' church, Toronto.

St. Luke's church—Lenten address by Rev. A. J. Reid, Campbellford.

57th Band—Annual meeting in the Band Hall, Simcoe street.

Brock street rink — Hockey match between Arnprior and Peterborough.

Board of Education — To consider [illegible]

George street church—Annual congregational tea and business meeting.

LOOK OUT FOR IT

What? Why, the programme for the 7th Y.M.C.A. "Pop." It will be the best yet. Don't miss it.

MUSICAL EVENING.

A big musical evening will be held at the Salvation Army barracks, tomorrow (Thursday) night. The band will render several selections. An interesting and varied programme will be presented.

THE ELKS MET.

A well attended meeting of Peterborough lodge No. 14, C. B. P. O. E. was held last night. There was a good attendance and two candidates were initiated.

ON EXHIBITION.

The four handsome Roman gold plated clocks, won by Lakefield at the Peterborough bonspiel last week, are on exhibition in R. Graham & Son's store, Lakefield.

PUBLIC SERVICE.

Public service will be held tonight at the Park street Baptist church. The pastor will be in charge. Subject "Crucifixion of the Believer. What does it mean?"

JOINT MEETING.

An assembly of all the local branches of the Brotherhood of St. Andrew will be held in the school house of St. John's church this evening at half past nine o'clock.

PRESENTED BOOKS

Mr. Jas. Kendry, ex M.P., is presenting the Young Conservative club with a number of volumes of [illegible] handsomely bound. These [illegible] will make a valuable addition to the club's reference library and will be greatly appreciated by the members.

ST. ANDREW'S LADIES' AID

The Ladies' Aid of St. Andrew's church will hold a meeting to-night at the close of the prayer meeting to make final arrangements for their concert to be held on the 18th of March.

FAST WORK.

The structural steel work for the steel foundry building of the steel plant has been completed. The work was done in nine days, beating all past records of the Welland Construction Company. Two hundred and twenty tons of steel were used. —Welland Telegraph.

GONE TO TORONTO.

A deputation from the city council is in Toronto today, in the interests of the city's private bill. Their mission is only to meet with some of the members of the committee and to acquaint them with the circumstances. The bill will not come up for consideration for some time yet.

A BIG LOAD.

On Friday of last week, Mr. A. Johnston, of Smith, brought in a monster load of oats to the Lakefield Milling Co.'s mill. 175 bushels and 25 lbs. were loaded on the sleigh. This is the largest load brought to the mill this winter.—Lakefield News.

A TALENTED SPEAKER

Rev. C. B. Sharpe, rector of St. Thomas' church, Toronto, will give the Lenten address in St. John's church this evening. He is a powerful speaker. Mr. Sharp came from British Columbia to Toronto, a couple of years ago, and sometime ago was appointed rector of St. Thomas' church in that city.

ANNUAL TEA.

The annual tea and entertainment of Park street church Sunday school will be held tomorrow evening.

DIVISION COURT.

The next sitting of the first Division Court, will be heard on Tuesday, March 26.

BOARD OF TRADE.

[illegible] March 19th.

AN AT HOME.

The Fraser Mission Band of St. Pauls' church will hold an "At Home" at the residence of Mrs. W. H. Meldrum, McDonnel street, tomorrow afternoon from four to six o'clock.

WILL CALL A PASTOR

A meeting of the Knox church congregation will be held this evening to moderate in the call of a pastor. Several names will be submitted to the meeting.

CONGREGATIONAL TEA

The annual tea and congregational reunion of the George street Methodist church will be held this evening. A large attendance is expected.

SPOKE ON CANADA

At the Canadian social held in Mark street Methodist church last evening Dr. M. A. Morrison gave an able and patriotic address on Canada, which was much appreciated.

WAS POSTPONED.

The meeting of the Central Ontario Medical Association, which was to have been held last night, has been postponed indefinitely, owing to the small attendance.

25,000 Men in the Lumber Camps

If a census could be taken of the lumberjacks now working in Ontario camps, a small army of twenty or twenty-five thousand would probably be found, scattered in groups of hundreds through our vast [illegible] northland, from the banks of the Ottawa on the east, to the shores of the Lake of the Woods on the west—an empire area covering a thousand miles of distance. From many a timber limit in between these extreme points, the echo of the axe and the song of the saw may be heard during these mid-winter days. For the lumbering interest of Ontario, is on a scale that few realize. With a cut during 1906 approximately estimated at eight hundred million feet, board measure, and with a cut estimated for 1907 of over a billion feet, some slight indication may be had, of the extent and importance of the industry within the bounds of the province, yielding a revenue in 1906, to the provincial treasury of nearly two millions.

LIFE IN THE CAMP.

Let us visit a typical lumbering camp in our own north country, and see the men in their bunk life and at their arduous work. It may be a bit of a journey to reach the temporary town among the trees, involving a liver shaking ride in a jumper or on a supply sleigh, over a rough trail, over frozen lakes, and over streams and muskegs, where the way is not asphalted. The world is white beneath one; the glistening garmature of winter carpeting Mother Earth, enshrouding trees, branches and shrubbery and emphasizing by contrast the green of the forest trunks and the blue of the bits of sky that are seen up aloft.

You move in a world of silence, as well as in a realm of mystical beauty, for beauty is not noisy. The wind seldom shrieks aloud, except in a rage, the rain falls quietly, the trees swing in the air currents to a low pitched note; all is soothingly quiet, especially on this day in the heart of winter.

SOLITARY GROUPS OF CABINS.

Then we reach the camp — the solitary group of log cabins lost in a forest world. The sleeping camp, the cook camp, the butcher shop, the office, and the stables, comprise the habitations of the little human hive stranded for a few weeks in the inner realm of the trackless woods.

It is in the sleeping camp that the genus homo is easily studied, and a varied genus he is as to type and nationality and tongue. It may be a polyglot crew that double up in the tiers of bunks, where wire mattresses and eiderdown quilts are unknown, and where sheets and clothes are not necessarily changed every other day.

The lumber companies collect their workmen, as has been said, from many peoples, home and foreign. Not a few belong to the class of wandering laborers, who, seized with ever-recurring fits of recklessness, pack up their kits and move on to another job, careless whether it be railroad construction, mining or steamboating. They are ever ready to hit a new trail—rolling stones that gather very little moss or money.

MOSTLY ANGLO-SAXONS.

In the camp we have struck, the English-speaking crew predominate over the French-Canadians and the foreign Huns or Poles or Scandinavians. And, because the men of English speech are in the majority, they assert their racial supremacy over their Galician fellow-workers, incidentally cursing the Frenchmen who built the log camps for men of smaller stature than the stalwart chaps, who are apt to knock their hard heads against sill or rafter.

THE BEST STORE FOR MEN IN PETERBORO'

This is no idle boast sir! Every single article will be of the best CHARACTER and QUALITY.

There'll be no store like it for Men's Furnishings. Up-to-date in everything and in every way.

SPRING OPENING, MARCH 1st

"Fashion-Craft tailored clothes will be a feature of our future.

For thorough good quality and good style Fashion-Craft clothes are unequalled.

The guaranteed worth of every garment is dollars and cents ahead of what you pay for it.

"Fashion-Craft"

NOTES OF THE DAY

Ald. Peregrine, of Hamilton, claims the city pays seventeen cents per ton too much for coal.

Montreal is again threatened with a water famine through the breaking down of a waterworks pump.

Summonses have been issued against Louis and Rudolph Burk, of Hamilton, for selling Sunday papers. This will be the first prosecution under the new Lord's Day Act.

The ship subsidy bill at Washington, which has been before Congress two years was dropped.

The Prince of Wales, who held the rank of vice-admiral, has been promoted to a full admiralty.

Was Stricken With Paralysis

Mr. Wm. Davies of Toronto is Ill at Bahama Islands

Word was received in Peterborough today, that Mr. Wm. Davies, head of the firm of William Davies Company, was stricken with a paralytic stroke yesterday. Mr. Davies, who is about 73 years of age, was married about three weeks ago. He and his wife left for the Bahama Islands, *to spend the winter.* Mr. Davies' physician, in Toronto, will leave immediately for the Bahamas, and will be accompanied by Mr. Davies' son. The noted pork and produce merchant has many friends in Peterborough.

DIED

MORRIS.—At his residence, 332 Huron street, Toronto, on Wednesday, March 6th, William J. Morris, father father of W. R. Morris, of Peterborough. Interment at Perth.

Col. Bomer J. Lindsay, assistant to the president of the Carnegie Steel Company, died at Pittsburg recently.

FACTS—Just Plain, Pointed Facts

Stole Parcels From a Sleigh

Wesley Crouter Arraigned in Police Court This Morning

At the police court this morning Wesley Crouter was charged with stealing two parcels from the sleigh of W. H. Hamilton grocer, Simcoe street, on the evening of February 26th. Mr. G. N. Gordon appeared for the prisoner and pleaded not guilty.

Mr. Hamilton was first sworn. He said the driver on the date mentioned reported some parcels as missing. When checked over a parcel of sugar and one of rice were gone. He said the prisoner's father came into the store with two parcels but they were not the ones missing.

A driver for Mr. Hamilton said h drove to the Y.W.C.A. with a number of parcels. When he went in there was no one near the sleigh. Besides the box of parcels for the Y.W.C.A. there was one for a lady on Rubidge street. When he came out Jack Foster said to him, "You better check over your parcels." He found there were some missing but did not know what they were. He went with Foster and found the bag of sugar, half spilled, against a fence. He returned to the store and told Mr. Hamilton.

Jack Foster, an express driver, was next called. He said he was driving down Aylmer street. He saw Hamilton's sleigh near the Y.W.C.A. He saw some boys, among them Crouter and Le Gross. They went to the sleigh. He saw Crouter pick out two parcels. They then ran up Aylmer street. Foster ran after them. Crouter dropped a parcel of granulated sugar. Witness caught Le Gross, but he had taken nothing.

A parcel of brown sugar and one of rice were produced in court. The prisoner said he had got them from Mrs. John Shears, but when Mrs. Shears was sworn. She denied the statement. She had not seen the prisoner for three weeks and never gave him the parcels.

P. C. Adams said the accused told him that he got the parcels from Mrs. Shears.

Hubert Le Gross, the boy who was with Crouter, stated that the prisoner had said to him, "Let us go and swipe something from the sleigh." One went on one side and one on the other. Le Gross said he didn't take anything. When they saw the man coming they ran.

Two others who had been playing with Crouter were called, but they knew little about it.

Mr. Gordon, for the defence, said it was the boy's first offence and he would ask that he be allowed to go on suspended sentence.

His Worship remanded Crouter until next Monday and in the meantime allowed him to go home.

Englishmen's Night Arranged

Thursday, March 14th, will be Englishmen's night at the Young Conservative Club rooms. A splendid programme of songs, speeches and readings has been prepared and a most enjoyable time is anticipated. A hearty welcome will be extended all Englishmen and others who are present.

WASH FABRICS

IN ENDLESS ASSORTMENT

Such an aggregation of soft, filmy beauties was never seen even in this progressive store. All sorts of weaves and conceits. The color schemes seem to vie with nature in their true blendings and soft shading tones, and then there are the more substantial fabrics in Delainettes, Cambrics, Zephyrs, etc. Our assortment of "White" Muslins is better and greater than ever. Taking the Wash Goods as a whole, they are as pretty and as welcome as the flowers in May.

P.S.—Look for Saturday Snap Ad. in Friday's papers.

Cressman's

PRIVATE BILL NEXT THURSDAY

Expected That it Will Come Before the Committee That Day

The city's special legislation will come before the Private Bills committee of the Ontario Legislature, next Thursday. Yesterday a deputation from the Council interviewed members of the committee and upon advice made a few changes in the bill which will make it more acceptable to the committee and will improve the chances of having it passed.

The committee appointed by the Council last Monday night to look after this matter will leave next Wednesday morning for Toronto. The same committee in charge of the private bill will also meet the dairymen in Toronto that day and endeavor to get the proposed exhibition booked for Peterborough. Then on Thursday the deputation will be at the parliament buildings.

Rev. C. E. Sharp at St. John's Church

Preached Eloquent Lenten Sermon—Fourth of the Series

The fourth of the special Wednesday evening lenten addresses were given last evening in St. John's church. A large congregation was present. Rev. C. Ensor Sharp, rector of St. Thomas church, Toronto, was the special preacher. Mr. Sharp was for 14 years rector of the Esquimault in British Columbia, and was also chaplain of the British navy. Rev. Mr. Sharp was head of the settlement missions in East London for a number of years. He is a man of strong personality and preached an inspiring sermon last evening from the words found in the 28th and 29th verses of the 11th chapter of St. Matthew. "Come unto me, I will give you rest." "Take my yoke upon you and learn of Me." The speaker said one great object of Lent was that our souls might come out of the atmosphere of restlessness and enter into that rest and peace which was found in communion with God. The reverend gentleman said in the many pleasures of of this world we were apt to loose what little spirituality we possessed, instead of trying to preserve and strengthen it. Lent offered many opportunities to do this. In regular periods of quiet meditations we should approach nearer our Lord and endeavor to take on the yoke of Christ, said the speaker. The taking of the yoke was obedience, discipline and service the true essentials of a Christian life. In doing lay the solution of many of the difficulties of life occasioned by self will and independence, the speaker said. Our Lord had opened the true path of the true life and if we would walk in that path our lives would be blessed here and in the world to come.

Rev. C. H. Brooks, of Grafton, will speak next Wednesday evening on "Life in the Eastern Church."

GROCERIES CHEAP

China Hall is selling off the stock of groceries bought from Mr. Rountree at cost price, to make room for China Hall proper. As we wish to have China Hall in full blast by the first of May we are making short work of the groceries. We are giving great bargains in crockery, china and silverware at the same time. Investigation Will be Most Thorough in its Character

Premier Whitney Makes on Outspoken Announcement.

Intends Full and Complete Investigation Into License Scandals—Will Conceal Nothing—Due to Former Administration—New Era Has Dawned, and Nobody Engaged In Evil Practices Will Be Screened.

Toronto, March 7.—The strong and straightforward calibre of the Provincial Government was evidenced in the prompt and effective manner in which the ministry cleared up the culmination of certain corridor comment in a couple of matters at the Legislature yesterday.

The reported rumors regarding an alleged private transfer of the exceptionally rich mining property of the Nancy-Helen Mining Co. on the Temiskaming & Northern Ontario Railway right of way to the member for Algoma, Mr. W. R. Smyth, were effectively laid to rest by the explanation of Hon. Dr. Reaume, who, in the temporary absence of the Minister of Mines, answered the question by Mr. May (Ottawa).

Alleged Private Transfers.

Mr. May asked,—1. To whom were the following lots in the Town of Cobalt, in the Township of Coleman, or any right, of interest therein, sold:—numbers 390, 391, 392, 393, 453, 454, 455, 456, 467, 468, 469. 2. Were the lots sold under the instruction of the Temiskaming and Northern Ontario Railway Commission, or, if not, under whose instructions. 3. Was it by auction, or private sale. 4. Were the lots sold by private sale after having been advertised for sale by auction, and if so, why. 5. To whom were they sold and for what price. 6. To whom was the patent, or patents issued.

Hon. Dr. Reaume Explains.

Hon. Dr. Reaume's replies were as follows,—

1. These lots were not sold, but were leased to the Nancy-Helen Mining Co., Ltd. 2. The lots were leased by the T. & N. O. Railway Commission. 3 and 4. Three of the lots were, together with upward of 50 others, advertised to be disposed of by auction, and there were no bidders. 5 and 6. Therefore instructions were given to Supt. Black to offer leases of them at the upset prices, and the Commission approved of an agreement for leasing them to Mr. W. R. Smyth, who had been an applicant for these lots before they were offered by auction and who was the only applicant for them. The Commissioners were then instructed that Mr. Smyth had transferred his interest to the Nancy-Helen Mining Co. and the lease was given to them accordingly. The price was $500 for each lot and a royalty of 25 per cent. on ore up to $1,000 in value per ton, and 50 per cent. on all other ores. These are the terms on which the mining rights were disposed of to all applicants on the town site of Cobalt.

Will Conceal Nothing.

The other matter of special interest was the characteristically outspoken announcement of the Prime Minister regarding the license investigation going on in Toronto. Any trouble that had arisen was the result of years of training in impropriety under the former administration, when "money was sweated out of the hotel-keepers for election purposes." A new era had, however, dawned and any Conservatives found keeping up these practices would be punished. "Everything will be exposed to the light of day," was Hon. Mr. Whitney's concluding comment.

Licensing Improprieties.

The discussion was brought on by Mr. McDougal (Ottawa), who wanted information about license matters at Fort Frances, where he had learned improprieties were going on.

The Provincial Secretary was glad to furnish all the information. The condition of affairs at Fort Frances was best described by a minister who had written that the regulation had been better enforced there for the past 13 months than ever before. So much so that the reverend gentleman, heretofore a Liberal, expressed his intention of hereafter following Mr. Whitney. It was an effective counter.

It was private members day in the House, and the afternoon session was devoted to advancing local legislation, while in the evening the members resumed work on the estimates.

The agricultural estimates gave rise to some smart challenges, and the San Jose scale vote was left over. The treasury and provincial auditor's vote, the public institution votes, except that far the central prison and the smaller educational votes were all passed in committee.

Mr. Torrance withdrew his bill for the administrative control of pulmonary phthisis.

Bills Read.

The following bills were read a first time:

Respecting the weekly court.—Mr. McDougal.

Respecting the Town of Cornwall and the Modern Bedstead Co.—Mr. Torrance.

To confirm the taxes in the Township of Etobicoke.—Mr. Lennox.

Respecting the City of Windsor.—Mr. Bowyer.

Respecting the City of Toronto.—Mr. Crawford.

Respecting the Petrolea and Rapid Railway Co.—T. H. Preston.

To incorporate the Village of Hepworth.—A. G. MacKay.

To incorporate the Thessalon and Northern Railway Co.—Mr. Sutherland.

Respecting the St. George Cemetery in the Township of Bentinck.—Mr. Duff.

To incorporate the Silver Belt Electric Railway Co.—Mr. Sutherland.

To confirm bylaw No. 742 of the City of Brantford.—Mr. Duff.

NO MORE SUNDAY CARS.

Premier Whitney Makes Announcement of Government's Policy.

Toronto, March 7.—In a letter addressed to Mr. Lucas, chairman of the private bills committee, Premier Whitney yesterday ruled, on behalf of the Government, against allowing any more Sunday car privileges in Ontario. The announcement was in connection with the application of Port Arthur to be allowed to operate such a service. The letter read:

"The Government spent a great deal of time last year in preparing the 'Ontario Railway Act of 1906.' The provision relating to Sunday traffic received a great deal of attention. There can be no doubt that the act, as finally passed, represents the feeling of a large majority of the people of this province.

"It is possible that in some respects, and from some points of view, it may impose hardship upon certain localities. Under the circumstances, however, having in view the care bestowed upon the preparation of the act and our conviction that it represents the views of the people of the province, the Government feels that it would be taking a distinct step backwards to allow, within twelve months of the passage of the act, a new exception to be made which would open the door to a large number of similar applications in the future, and thus practically destroy the effect of the act as finally passed."

Pugsley Names Cabinet.

Fredericton, N. B., March 7.—Dr. Pugsley, who was called upon to form a Cabinet, announced the members of the new Government yesterday as follows:

Dr. Pugsley, Premier and Attorney-General.

C. H. Labillois, Commissioner Public Works.

L. P. Farris, Commissioner of Agriculture.

W. C. Jones, Solicitor-General.

F. J. Sweeney, Surveyor-General.

C. W. Robinson without portfolio.

C. J. Osman becomes Speaker.

Four Days to Cross Atlantic.

London, March 7.—Interviewed by The Westminster Gazette, Lord Strathcona, alluding to the proposed service via Newfoundland, spoke of the several changes from steamer to train and train to steamer that passengers would have to take, and added:

"But if we had 25-knot steamers going direct from Southampton or Liverpool to Halifax, as they have to New York, the journey could be done across the Atlantic in four days or even a little under."

Roseberry to Oppose Curzon.

London, March 7.—An interesting contest is imminent between Lord Curzon and Lord Rosebery for the vacant chancellorship of Oxford University.

It has been supposed that Lord Curzon, who was nominated to this office some days ago, would be returned without opposition, but now Lord Rosebery also has accepted a nomination, and the matter will be decided on March 14, when the election will be held.

Knighthood For Fielding.

Ottawa, March 7.—It is announced semi-officially that Hon. W. S. Fielding will be knighted at the close of the intercolonial conference in May, as a recognition of his services through the British preference.

TO SAVE SON'S LIFE

Thaw's Aged Mother Takes Witness Stand on His Behalf.

Pathetic Figure In Murder Trial—She Learned Little by Little of Sorrow Over Which Her Boy Brooded—Breaks Down Twice While Giving Her Evidence — Dr. Wagner Concludes His Testimony.

New York, March 7.—Mr. Jerome yesterday took a new tack in his cross-examination of Dr. Wagner, and asked if in the acts surrounding the killing of White there was anything to enable the witness to differentiate between insanity and intoxication.

Dr. Wagner declared there was nothing whatever to indicate intoxication but much to indicate insanity.

Dr. Wagner further testified yesterday that Thaw was of unsound mind when he married, but had sufficient intelligence to know what he was doing.

Possible Lucid Intervals.

After questioning Dr. Wagner at some length regarding the letter written by Thaw in 1903 to Attorney Longfellow, Mr. Jerome suddenly asked:

"Was there any period between 1903 and 1905 when this defendant was in full possession of his faculties?"

Dr. Wagner hesitated a moment and then replied:

"There are several months in that period of which I have no record. It is possible that there may have been recovery during that time, and a condition of soundness."

Mother Takes Stand.

Another dramatic chapter was added to the Thaw trial yesterday, when the grey-haired mother of the defendant took the witness stand to tell what she might toward saving her son.

Mrs. Thaw's story was brief. When Delphin M. Delmas had deftly limited her examination to the change she noted in her son's condition following his return from Paris in 1903, after Evelyn Nesbit had told him her life story, Jerome, with the greatest respect and [illegible] tion, conducted a short and [illegible] cross-examination.

Then the mother-love welled strong in Mrs. Thaw and she [illegible] all. She was loath to leave the witness chair.

"There is still the question of heredity," she protested, when Delmas and Jerome told her she might step down.

"I have asked you, meantime, all that is considered necessary," said Thaw's attorney, with the utmost deference.

Twice during her recital Mrs. Thaw broke down and was unable to proceed.

He Lost All Interest.

She said that when Harry went home in 1903, he seemed depressed and apparently had lost all interest in life. He passed sleepless nights and would often leave the table at meals to play upon the piano. She told in a motherly way of her solicitude for the boy after he had mentioned the "wickedest man in New York, who had ruined his life."

Mrs. Thaw told of the part in the evenings leading up to her son's marriage and his condition in that interval.

Mrs. Thaw's story was deeply impressive in its simplicity and brevity. Her anxiety to go on and tell more added immeasurably to the meaning of her presence as a witness. The court-room listened almost breathlessly to each word she uttered and there was a general sigh of relief when Mr. Jerome announced that his brief examination was ended.

Threatens Lunacy Test.

If Harry Thaw's fate is placed in the hands of the 12 men in the jury box who yesterday heard his mother's story, there seems little doubt that what she said will carry wonderful weight with it. But Mr. Jerome gave the impression that he may use the mother's testimony in another direction—in his fight to have a commission appointed to test the present state of mind of the defendant.

He became involved in a dispute with Mr. Delmas, during which he uttered publicity for the first time the threat as to a lunacy commission.

The court is not sitting to-day owing to a death in Judge Fitzgerald's family.

Inspector For Railway Board.

Ottawa, March 7.—An order in council has been passed approving the appointment of William Ogilvie to the railway commission staff as inspector of railway equipment and safety appliances.

Found Frozen Near Cobalt.

Cobalt, March 7.—An unidentified man was found frozen to death by J. S. Ketchum, managing director of the Devil's rock mine on the company's property on Lake Temiskaming.

Trains Running In Flood.

El Paso, Texas, March 7.—A storm has broken over the Salton sea and the Southern Pacific tracks are reported under water, waves washing against passing trains.

Burdett-Coutts Estate.

London, March 7.—The will of the Baroness Burdett-Coutts, who died December 30 last, was probated yesterday, the gross value of the estate being $395,000.

Adams Case Goes to Jury.

Wallace, Idaho, March 7.—The case of Steve Adams, charged with the murder of a rancher, was given to the jury yesterday.

Drops Dead At Work.

Brampton, March 7.—Alfred Meredith, an employe of the Copeland-Chatterson Co., dropped dead while at work yesterday.

On dit that 4th Vice-President F. H. McGuigan is to become president of the Grand Trunk Pacific Construction Company.

WHO GOT THE PLUMS?

Information About the Huron Ontario Railway Is Asked For.

Ottawa, March 7.—The Senate Railway Committee yesterday morning considered the Huron and Ontario Railway bill which has passed the Commons. Mr. R. G. Code, Ottawa, objected to the bill on behalf of the Ontario Government. He declared that as the line was entirely in the province of Ontario and should be left to Ontario to be dealt with. Mr. S. F. Kilgore, the promoter, stated the charter had been granted for the original line before 1896. What was now asked was power to construct some branches. The plans for construction had been approved by the Railway Commission. The $11,000,000 bonds had been underwritten.

Who Got Bonuses.

Senator Lougheed pressed to know who had got $3,000,000 capital stock which Mr. Kilgore acknowledged had been largely given as bonus to bond purchasers.

Senator Mitchell said Parliament had never made a practice of requiring such information. It would be very interesting, however, and the same information should be obtained from railway enterprises in future, and an enquiry might well be made into the past. For instance it had been reported that Lord Strathcona had got some stock at exceedingly reasonable figures. The bill was reported without vote and only a few dissenting voices.

Made In Canada.

Ottawa, March 7.—In the Senate yesterday afternoon the Meat Inspecting Bill was taken up in committee.

Sir Richard Cartwright said there had been objection from the lobster-packers of the Maritime Provinces and the salmon-canners of British Columbia to the provision requiring a Canadian label on all cans. If it be shown to the satisfaction of the Government that a label would prevent sale in any British or foreign market, the Government will allow the unlabelled can to be exported.

DEFEND CIVIL SERVANTS.

Vote Down Resolution As to Sacrificing Public Interest.

Ottawa, March 7.—Hon. Frank Oliver, characterized the debate this afternoon as a "petty scandal, pettily presented," but the Government was compelled to vote down a resolution declaring that public officers should not sacrifice the public interest to private gain.

The facts which occasioned the debate came out through a law suit brought by three Americans against Smith, Winnipeg, [illegible] W. Pritchard.

The defendants were found to have been guilty of fraud in contracting to sell and convey all the lands contained in a certain tract, and then hold out some of the best land.

The debate was commenced by Mr. Northrup (East Hastings) who read from testimony to show that Smith availed himself of his knowledge as commissioner to personally invest in lands. Mr. Northrup submitted that Smith should be removed.

Mr. Boyce (W. Algoma) thought it remarkable that the Minister of the Interior should sit dumb when serious charges were made against a prominent officer in his department. He offered an amendment that the Government should not continue in office any public servant, who, "in violation of his duty, uses his public position to advance his private interests."

R. L. Borden said that the Minister had not answer the charges, but Sir Wilfrid Laurier could see nothing in them. Smith was, of course, a salaried officer, but that would not prevent him from making an investigation when opportunity offered.

Mr. Boyce's amendment was lost, yeas 54, nays 94, a party vote.

Botha's Chinese Policy.

London, March 7.—(C. A. P.)—Several papers announce Botha has accepted the invitation to the Colonial Conference.

The Standard says the Cabinet is credited in Johannesburg with a desire to persuade Botha to carry out their policy regarding Chinese labor, in order to save the face of the Radicals in the eyes of their constituents.

Appeal to Strathcona.

London, March 7. (C. A. P.)—The owner of an Ontario mine writes The Financial News that every person interested in Canadian mines should utilize every means to quickly protest against the bill taxing the net profits of mines and suggests a deputation to wait on Strathcona.

Feud Cases Transferred.

Jackson, Ky., March 7.—Judge Garnes entered an order yesterday directing that the case of the Commonwealth vs Jas. Hargis, Albert Hargis, John Smith and John Abner be transferred to Ellicott county, in view of the state of lawlessness here.

Pope Pardons Bishop.

Rome, March 7.—Monsignor Bonomelli Bishop of Verona, who recently issued a pastoral letter advocating the principle of the separation of the church and state in France, has been pardoned for this indiscretion by the Pope, his intimate friend.

French Soldiers Mutiny.

Toulon, France, March 7.—A mutiny occurred in the artillery barracks here yesterday. The men attacked the non-commissioned officers with revolvers and swords. Several were wounded on both sides. The mutineers were imprisoned.

Killed In Snowplough Crash.

Winnipeg, March 7.—Conductor W. J. Welsh of Winnipeg was killed Tuesday night in a collision between an engine and a snowplough, just east of Mather on the Canadian Pacific. Roadmaster Carison of Lariviere was severely injured.

Quebec to Reduce Licenses.

Quebec, March 7.—Premier Gouin told a delegation from the Anti-Alcoholic League yesterday that the number of licenses would be reduced from 150 to 125 on May 1. He said an additional 25 or 50 might be cancelled next year.

Montreal is again in trouble with its water system, through the breakdown of a 12,000,000 gallon pump.

BLIZZARD IN MANITOBA.

May Prevent Farmers From Voting In Provincial Election.

Winnipeg, March 7.—The night before the climax of the fiercest political fight Manitoba has ever experienced, found a big snowstorm sweeping over the province and it is feared the roads will be blocked for farmers. This would seriously affect the vote.

The result is much in doubt. With 25,000 new voters in the province, neither side can begin to figure it out.

The betting is that Roblin will be returned with a greatly reduced majority.

Nearly everything depends on how much influence the Tribune, which has bitterly opposed the Conservatives, has with the independent electorate. Roblin, Rogers and Agnew are sure of election, but it is doubtful whether Campbell or McFadden will be returned.

On the other hand, betting is that Edward Bown, Liberal leader, will be defeated in Portage, while Horace Chevrier, the orator of the Liberals in the House, will likely be defeated in St. Boniface.

Winnipeg has been the theatre of the fight, and the Liberals have made a desperate attempt to carry the city. It is generally believed the parties will break even.

Both sides are accusing each other of bribery and corruption.

CHIEF RANGER LIES IN STATE.

Body of Dr. Oronhyatekha Brought to Toronto Yesterday.

Toronto, March 7.—The remains of Dr. Oronhyatekha, founder of the I. O. F., were brought to the city yesterday morning. Citizens and Foresters received the body at the station. Through the streets, lined by thousands, the funeral cortege passed. In the parade were many prominent men, and the civic deputation had its place. Hundreds walked on foot, behind the bands with their dirges, behind the hearse and its burden. That procession was international, too. Not only was Canada present in sentiment and fact, but the country to the south was represented. The departed was British, but his personal and fraternal associations had girdled the globe. The Temple Building, the Supreme Chief's monument, as it will now be regarded, was included in the itinerary. The casket was taken to Massey Hall, where the body lay in state, a guard of honor remaining on duty. Flowers were banked across the auditorium. A conspicuous design was a huge anchor, which stood at the head, with a portrait of the dead leader. The public was not admitted at noon, but the people thronged the hall from 2 o'clock. A public memorial service was held last night. To-day the body was taken to Deseronto for interment.

Wills All to Fight Graft.

Port Huron, Mich., March 7.—Archimeds Galbraith, an aged hermit, who was carried from his hut a few miles from here a week ago because he was no longer able to care for himself, died in the county poor house yesterday.

He left a will in which he directs that his body be sold to any medical college for dissection, and that the proceeds, together with his $12,000 estate, be placed in the hands of a prominent lawyer, and an editor, who are to "fight and expose the corrupt court and lawyers of this county."

Czar "Satisfied."

St. Petersburg, March 7.—Parliament did not meet yesterday, pending the reception of M. Golovin, president of the Lower House, by Emperor Nicholas, which took place yesterday. His majesty declared himself "thoroughly satisfied with the first session of the House, and assured the president that he and the Ministers were inspired by the best feelings toward Parliament, and hoped that its work, with the assistance of the legislative projects which the Ministers had prepared, would be beneficial to the country.

Head Found In City Hall.

Kingston, March 7.—Laborers working on the dome of the city building found a tin pail containing the perfectly preserved head of a middle aged man.

An inquiry was made and it was discovered that a medical student at one time had used the tower as a laboratory and on being graduated, left the head, which probably has been in the tower ten years.

King Edward started for Biarritz today, by special train from Paris.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

On the step she stopped, half turned, a delicate flush coming to her cheek—a flush that deepened to damask at his look. She hesitated an instant as if about to speak, then suddenly entered, sat down, gave the word to the driver and was whirled away. The secretary stood looking after the retreating chariot.

"A splendid creature," purred Brooke, at his elbow, "albeit you found her wintry."

"Wintry!" exclaimed the young man. "She who is made only of summer, its incense, its colors, its dreams! Yours is an enchanted land, monsieur, and she its goddess!"

"Egad, I'll make a sonnet of that!" exclaimed Brooke. "Sink me, but it's coming back!" The latter remark was applied to the chariot, which had turned and was now approaching more slowly the spot where they stood.

As it drew up Anne leaned from the window. "Monsieur," she called, "I had quite forgot to speak of the indenture."

He drew it from his pocket and held it out to her.

"Such have to be conveyed, I make sure," she said, looking at it doubtfully. "Your delicacy, sir, forbade you to set me right. We shall have to sign and witness a deed and what not, I suppose."

"'Tis a plain indenture," said Brooke, peering.

She drew it away sharply. "Alas, we women know so little of business. I bethink me my father will wish to receipt to you for it."

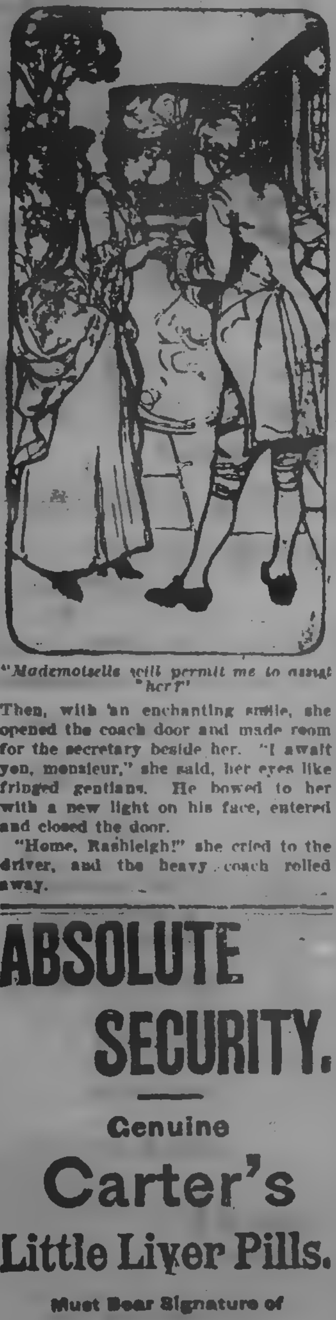
"Mademoiselle"—

"Aye, but he will. At any rate, you would not be so ungallant as to have me blamed, sir? Will you not ride to Gladden Hall with me? 'Tis scarce a half league away."

"Mademoiselle."

"Your father is in Williamsburg, mistress," ventured the exquisite. "I chanced to overhear him say this morning he would remain over at Colonel Byrd's until tomorrow."

Anne frowned. "I fear you did not hear aright, sir," she returned coldly.



"Mademoiselle will permit me to assist her?"

Then, with an enchanting smile, she opened the coach door and made room for the secretary beside her. "I await you, monsieur," she said, her eyes like fringed gentians. He bowed to her with a new light on his face, entered and closed the door.

"Home, Rashleigh!" she cried to the driver, and the heavy coach rolled away.

"Wintry," said the fop to himself, with a chuckle. "Methinks report does the lady wrong."

Jarrat meanwhile had been sitting in the skipper's dingy cabin, for Master Elves had now transferred responsibility to the ship's agent, his face properly smoothed to good fellowship over a noggin of rum from the locker. He had long ago cultivated a new affability with the master of the Two Sisters. Now he had an errand, though he was somewhat long in coming to the point.

"The Marquis de la Trouerie," he said finally and in a purely casual way as he smacked his lips. "It was nigh two months since that he died, if I remember."

The mariner took down his log from the shelf and, turning it with a hairy thumb, pushed it across the board. The other looked at it closely and laid the book open before him. Incidentally he filled up the glasses. "Knew you aught of his affairs in this colony?" he queried.

One might have noticed that the eyes opposite narrowed perceptibly.

"Not I," answered the skipper. "I hold to my own helm."

"A close tongue," vouchsafed Jarrat, "makes a wide purse."

The drift of this succinct remark was not lost upon his companion, who discreetly kept his eyes upon his glass.

The speaker continued, dropping his voice and leaning on the table: "The marquis and I had somewhat of business together, although we never met. In fact, I made this voyage at his own request. Now, to be frank, the news of his death will not aid a mutual venture of ours here in Virginia, which, for my part, has gone too far for backing. Zooks! A mortal pity to publish

There were interest and speculation in the narrow eyes if nothing more. Something jingled. It may have been the visitor's sword knot or a hand in a pocket. The skipper was not deaf.

"The passengers?" he hazarded.

"They are off for the north today. Boston blab will not hurt me. 'Tis the gazettes here I care about. As for the factors, they are bent on business. Our young Virginia woolsack has gone to Pennsylvania. I'll risk him."

"There's the marquis' secretary."

Jarrat snapped his fingers. "He'll be cheap. I know the breed. A leaf lost from a log is no great matter," he continued slowly as though to himself. Again the jingle. The skipper cleared his throat.

Jarrat's hand slowly, very slowly, tore out the leaf, folded it and placed it in his pocketbook. Yellow disks passed across the table.

"I'll be keel hauled if I see your game," said the skipper.

The other smiled. "I'll be keel hauled if I see why you should," said he.

Brooke was scarce done twisting his lovelock when Jarrat crossed the wharf from the ship hot from his bargain with the skipper. He made inquiries concerning a young gentleman dressed in gray and by good luck hit upon an apprentice lad who told him he had carried the young gentleman's chest to the Swan tavern, at which he had been directed to bespeak supper and lodging.

CHAPTER IV.

FOR some time the two in the coach rode in silence. The way, when they had left the clustered shipping of the town behind them, wound along the reed rimmed bank of the river where plethoric crows cawed to their mates. The afternoon had come with a vivid sky burning to a char on the horizon. The young secretary gazed out of the open window, and through it the wind came, sweet with the clean smell of dry grass. Anne stole a side glance from under drooping lids.

"You are deeply occupied, monsieur," she said at length, with a lurking thread of sarcasm. "I should not marvel since all Virginia lies just outside."

He threw her a smile that softened his clean cut mouth and lightened his eyes. "All Virginia is not outside the window for me, mademoiselle."

With a woman it is the new sensation which captivates. Mistress Tillotson had been used enough to pretty speeches. The beaux of half Virginia had recited quatrains to her fan. Here was an unaccustomed subtlety.

"Yet your eyes were there," she rejoined. "Had your thought fled still farther? Overseas, mayhap?"

He met her look full eyed. "Shall I tell you of what I was thinking? I have seen many fair ladies in my own land, gracious and kind belike, but few whose charity could reach to an object so far beneath them as a bondwoman; fewer yet whose graciousness would lead them to sue for pardon from a stranger—like me."

"I," she answered more lightly, "was thinking of how the frost has set the woods afire. Saw you ever such copper reds and russet golds? And those wedges of pink rock—they have the look of raspberries crushed in curdled milk. God is spendthrift of his hues."

The country through which they passed was hung with the marvelous colors which a Virginian autumn lavishes so prodigally. There were the maroon of the wild rose stalk, the ripe brown seams of butternut bark and the shifting tints the sun lends the frosted alder, the gray lichen and bronze fir splotched with scarlet creeper and stippled mosses like saffron butterflies. Here and there showed the splash of a bluebird's wing or the vermilion crest of a kingfisher.

"It is very fair," he said, "as it should be."

Again a silence fell, while the road swung across forest stretches, under springing roofs through which the sky swam in dazzles.

At last she spoke demurely:

"And of what else were you thinking, monsieur?"

"I was thinking what you are most like. Some ladies are like snow mountains that stand very far off, white and beautiful, but cold—so cold you cannot warm them, and so high. Some are like blossoms, sweet and perfumed, made for only a nosegay in the evening. When the sun is hot they wither. Some are like a song that one hears and thinks lovely—hums it awhile and forgets."

"And which of these am I, sir?"

"You are like a sword—slim and shining and straight and yet delicate. It took centuries to make the sword, mademoiselle. It will bend, bend, but not break. It is sharp and cold to all the world save one—the one who wears it at his side. But to his touch it becomes alive to ward him harm, to guard his life, to keep his honor."

"An we were truly swords," she flashed, "we ladies of Virginia, there were less of bitterness in this fair colony of ours."

"So the sword has the temper!" he cried, his eyes kindling. "It is not for ornament alone! And these troubles of the colonies—they strike so deeply then? Do even the ladies of a land such as this feel the sting?"

She gazed out toward the low knobbed hills limned against the deepening sky, her elbow on the window sill, her chin in her gloved hand, silent. Above them in sun stained air shreds of torn clouds folded away like dreams. From near by came the startled flutter of field larks and the rustle of ripening corn.

The road curved quickly and lurched into a pine forest, where the day filmed to twilight and the hoofs fell noiselessly into a carpet of brown needles. It was a pleasant way, full of mingled odors, all strangely pure and agreeable, where clamorous wood things piped to a musical silence.

"'Tis not all Virginia, after all, that one sees here, monsieur," she said slowly after a time. "Far to the west of us is a vast region, raw, full veined and of scattered tenants. There are great mountain peaks and ravines, wastes waiting seed and hoe, plateaus and woodlands where the musket and the ax are never silent. Deer run in the brake. Wolves race along the ridges. There strong men have lived and toiled and fought back the savages and cleared themselves homes. Their children have grown up unyielding like the granite in the mountain's heart, untrammeled like its torrents. And this life amid the silences has taught them a justice that may not be bought, a strength that knows neither fear nor favor. The region you see here, monsieur, to this great weave I speak of is but the raveled edge.

"Here broad rivers run brackish with tidewater, and ships lie at the wharfs. They bring to our manor houses all of luxury and refinement which Virginia tobacco can buy. And here the planters—for Virginia was first settled by gentlemen, monsieur—choose to put on courtliness and dress in gold lace and make a bit of London for themselves on the edge of the wilderness.

"Just beyond those hills to the southward is Williamsburg, the capital they have built. It has a college and a court. There the cocks are ever fighting, the horses are ever running, the fiddles are ever playing, and there in his palace sits the royal governor his majesty is pleased to put over his colonials, levying on their leaf and sneering at their buckskins."

"The Earl of Dunmore?"

"Aye, my lord the earl. Think you he knows one whit more of this Virginia than does the king, a thousand leagues away? He drinks in his palace and drives his white horses and bullies his burgesses, the representatives whom the people have elected. They must pleasure him or he dissolves them. The king has forgot that the Virginians are Englishmen and that Englishmen love freedom."

"And Englishwomen, too," he said.

"We can do little," she went on. "We wear no swords. All we can do is to hope and to wait."

"Little!" There was a thrill in his tone. "Little! You call such a hope, such a feeling, small? You think it valueless or weak? Ah, mademoiselle, know you what makes a lady adorable to a man's heart, what makes him worship her? It is that she inspires him; that is it—not to dress for her or bow or sing her little songs, but to toil, to struggle, to fight, to die maybe—something high like the stars. Man has a want for two things—a cause to fight for first, and then—then a one, a perfect one, a loved face, to wait and smile on him when he has won.

"With this a man could do miracles. Ah, it could make of a poor nobody a king, an emperor! I, even I, mademoiselle, a stranger from another land—I could fight so well for these great things, for this Virginia of yours, if I—if I"—

He paused. There was a tense moment.

Then the air filled itself with a long, dull sigh, and on its train came a sudden snapping of dead boughs, an unjointed, cracking report, and both looked up startled.

A strange faraway circumstance had had part in this. Indians had not been used to fell trees as did their white conquerors. Instead they cut deep rings into the bark and let nature be axman. These trunks fell when dry rot had done its work, sometimes in storms, often when no wind stirred, crashing in a forested silence. A quarter century before perhaps a Mattapony brave had thus girdled a great pine with his tomahawk, and it was this dead tree, its limbs now white as bleached wolf bones, which was now, after its time, leaning to its fall from the roadside.

A shriek burst from Anne's lips as she saw the toppling bulk through the window, and she started to her feet. Simultaneously came a howl of terror from Rashleigh and a leaping jerk from the horses as he tried to lash them to safety.

There was an instant when the huge bole seemed to hang motionless in the air above them, an instant in which Anne frenziedly wrenched open the door and made as if to leap out. The same instant Armand seized her, dragged her back and threw himself and her against the rear wall of the chariot.

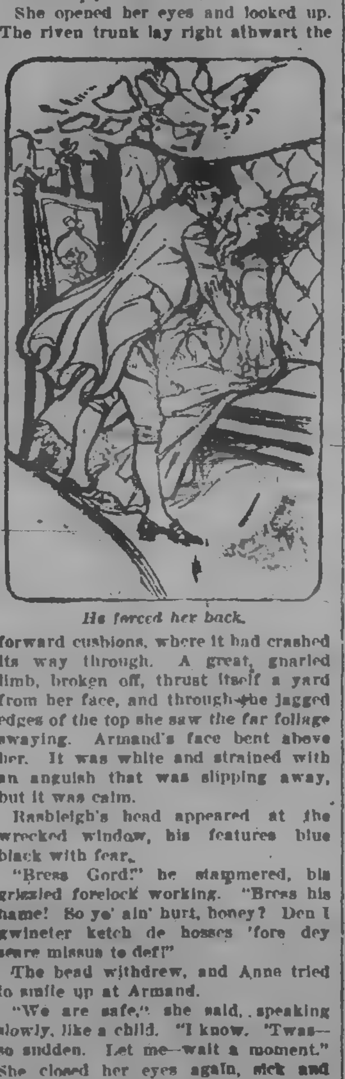
She struggled, but he forced her back and held her as the groaning mass came to earth with a crash that rocked the ground.

Anne, conscious even in her ecstasy of fright of a sense of safety in his arms, felt the body of the coach crush like an eggshell. She had hidden her face on his breast and shut her eyes, waiting the end. The whole world was a splinter of glass, a ripping of boarding, a sickening jumble of thuds, through which stabbed the agonized squeals of the horses.

Then there was stillness, broken by Rashleigh's sobbing scream:

"De good Lawd, Mis' Anne! De good Lawd! Is yo' daid?"

She opened her eyes and looked up. The riven trunk lay right athwart the forward cushions, where it had crashed its way through. A great, gnarled limb, broken off, thrust itself a yard from her face, and through the jagged edges of the top she saw the far foliage swaying. Armand's face bent above her. It was white and strained with an anguish that was slipping away, but it was calm.



He forced her back.

Rashleigh's head appeared at the wrecked window, his features blue black with fear.

"Bress Gord!" he stammered, his grizzled forelock working. "Bress his name! So yo' ain' hurt, honey? Den I gwineter ketch de hosses 'fore dey scare missus to def!"

The head withdrew, and Anne tried to smile up at Armand.

"We are safe," she said, speaking slowly, like a child. "I know. 'Twas—so sudden. Let me—wait a moment." She closed her eyes again, sick and faint in the reaction.

He did not speak at once, but she felt his arms, which were under and around her, shake with a little tremor and draw her closer.

"Suppose," she breathed, her eyes still closed—"suppose it had struck nearer?"

"We should not have felt it—a quick death and merciful."

She shuddered.

"They would have found us—so," he said, with an underbreath.

She lifted her head at this and started, the color coming back to her lips. "Help me out."

Stooping under the splintered door frame, he assisted her to the ground. It was a hurly of broken branches, sprangling spokes, thrusting springs and distorted fragments of wood. A snapped limb a foot in thickness lay with its end upon the bent and twisted step.

"Had I leaped it would have struck me!"

"Yes," he answered.

"So swift and terrible!" she said, her voice catching. "Like a bolt from a cloud—like the judgment. That moment—I would not live it again for worlds!"

He spoke with a flame in his cheeks. "And I—I would I might! Ah, I would endure all agonies for that moment again, that moment when"—

"Monsieur!"

He stopped at the indignation in her tone.

"Let us go," she said. "Gladden Hall is just behind these pines."

"I beg you"—

"Bethink, sir," she added coldly, "that so late as yesterday I had never seen you!"

"So late as yesterday!" he cried. "To measure all things by the bands of the clock! What has time to do with the feeling of the heart? Is death all that comes suddenly, unexpectedly? Are there no sweeter things that come as swiftly? Ah, a man can live a year in an hour, mademoiselle—a lifetime within one little day. Yesterday, you say? Mademoiselle, yesterday for me were only dim waters and gray sky; now there are flowers and birds and laughter and all glad things. Shall I tell you what has changed it all? The moment you spoke to me on the wharf, the hour we have ridden side by side along the field, most of all, mademoiselle, the moment you will not have me tell you of, that one moment I lived when death came falling out of the sky upon us, when you cried out—when"—

"Stop!" she protested, her hands to her red cheeks.

"When your face was on my shoulder—I felt your breath! You clung to me—to me—you, the fairest lady God has made! My arms were around you."

"Oh!" she gasped. "No more! You have no right"—

"Right?"

"No!" she cried stormily, her breast rising and falling. "No! You presume upon a danger into which fate thrust me without my wish. Why, we have but ridden a half league. I know not even your name! Who are you to speak thus to me?"

"Who am I?" repeated the young man slowly, the rich color dyeing his face. "I am—only a Frenchman, mademoiselle, only a man who gazed upon your face in a crowd and whom—whom you asked to ride beside you in the coach."

His tone had fallen. "Is it his fault, mademoiselle, if his custom is not the custom of your land, if he knows not to repress, if he must say what he feels?" He finished very low. "Is it his fault that he cannot forget that your face hid itself upon his breast for one little moment here in the forest?"

She was alternately flushing and paling, and her eyes were shining. "You must not! You must not!" she cried out with softer voice.

With the words she started walking rapidly, hastening without glancing at him. The dimness of the interlaced branches overhead parted; the trees stood sparser. Just ahead a leafy arch let in the fading sunlight and a view of yellow stubble, and beyond this showed a broad gateway—twin brick pillars crested with martlets—opening on a winding road to a great house that looked a many windowed welcome.

It sat snuggled in elms on a hill from whose crest a terraced lawn fell softly into the arms of the shining, twisted river—a southern home in its high days, its dairy, meat house, ice house and granaries all dazzling white against the blue and olive of sky and wood. Spacious offices stood to the left, and wide negro quarters squatted at some distance behind it. Near by a tiny creek sparkled down to wash a tangle of islands. From adjacent fields came the piping whistle of partridges in grass.

Just before the gateway the young man's voice caught her. "For the sake of that one moment, mademoiselle," he said huskily.

She paused, looked back and held out her hand. He dropped upon one knee and touched his lips to her fingers.

"I am glad I owe my life to you," she said softly.

Gazing at him uncertainly an instant, she hesitated, then turned and ran rapidly up the winding drive. Her hound lifted his shag head from the columned porch and came leaping down to meet her, while his whine drew Mammy Evaline peering from the kitchen door, her weather beaten face dilating into a smile.

"Lawd, dar come mammy's honey chile safe an' soun'!" she cried to Mrs. Tillotson, who came hastily to the steps and waved her hand at the girl's fluttering signal.

"Down, Sweetlips! Down!" cried Anne as the hound leaped against her. She stopped, bethinking herself of the indenture.

She ran back to the gateway, but the young Frenchman was not to be seen. As she stood peering into the pines the breeze went playing with some torn bits of paper scattered in the ruts. She picked up several fragments and strove to decipher them. "Which term the said bond servant faithfully shall serve * * * does covenant with the said Louis Armand, holder," she read.

Then she caught her breath and, forbearing to glance in the direction of the forest road, walked toward the anxious figure on the porch of the great house.

CHAPTER V.

IN the Swan tavern, which lifted its yellow Holland brick front and peaked shingle roof not far from the Yorktown river front, the candles had been early lighted that night. There, as day fainted out, supping at his ease at a table in the long parlor, sat a man of middle age whose effrontery and insolence had long ago earned him cordial hatred throughout Williamsburg. He was Captain Foy, aid to Governor Dunmore.

He looked up as another guest entered and dropped his knife clattering.

"Jarrat!" he cried. "I thought you were in London!"

"So I was; so I was, but I am returned today," Jarrat answered easily. "How goes it at Williamsburg, Captain Foy? And how does Governor Dunmore with that ant hill of disloyalty?"

"He is away with the troops to quell the Indians on the Pennsylvania boundary. He will not see Williamsburg again before November. You stayed not long abroad. I heard you were gone for a year of off duty pleasuring."

"These Virginias get in the blood." Jarrat simulated a sigh. "I have lost the old land love, I fear."

He did not see fit to tell the true reason of his sea voyage or that he had been more in Paris than in London. He was a more subtle servant of Dunmore's than the governor's aid, who dreamed he knew all of the great man's mind.

A communication was received from A. H. Stratton & Co. re supplies.

From the teachers regarding supplies needed.—Received and referred to the property committee.

From F. Larone asking for increase of salary.—Received.

FINANCE REPORT

The Finance Committee, through Mr. Lynch, chairman, reported recommending the payment of the following accounts;

Peterborough Fuel & Cartage Co. $140.00.
R. Hicks & Co., $15.97.
W. A. Sanderson & Co., $4.50.
Kingan Hardware Co., $1.47.
A. H. Stratton & Co., $8.50.
John Shannon, $2.00.

On motion of Mr. Lynch seconded by Mr. Burns the report was adopted.

T.A.S. TAXES

Moved by Mr. Lane, seconded by Mr. Murty that the taxes on the T.A.S. rooms be remitted by issuing a cheque for $19.85 in favor of the tax collector.

The motion was adopted.

SCHOOL SUPPLIES

The question of procuring a supply of maps, globes, etc., was referred to a committee consisting of the reverend superintendent and Messrs. Henry and Carveth.

Moved by Mr. Lynch, seconded by Mr. Lane that the property committee get tenders from A. H. Stratton & Co., for supplies required for the schools.—Carried.

Moved by Mr. Murty seconded by Mr. Hickey that caretaker for St. Peter's school be advertised for.—Carried.

LAKE-ST SCHOOL

On motion of Mr. Hickey, seconded by Mr. Primeau, the question of providing more accommodation at the Lake Street school was referred to a committee of the whole Board to consider, the committee to meet on Friday evening—Carried.

The Board then adjourned.

Contract for New Fire Alarm

Is Signed and Bell Telephone Co. Started Work This Morning

The installation of the electric telegraph fire alarm system has been settled and work was started by the Bell Telephone Co. this morning. The last agreement as prepared by the Fire, Water and Light committee and Messrs. Webber and Doane last Monday proved to be satisfactory to the Bell Co., as well as the city Council.

The announcement will be very welcome news to the majority of the citizens, the fire brigade and the City Council. It means that within a short time the brigade will be able to move into the new fire hall. It means that the city will be furnished with an efficient and modern fire alarm system. It means also that another step has been taken towards bringing the city's fire fighting apparatus up to the modern stand and the people wish it to be. The $25,000 by-law passed by the ratepayers for better fire protection last year has not as yet been carried out. So far only the new fire hall has been erected, the fire engine purchased, and now the alarm system contracted for. There is still a lot of apparatus to get, such as an aerial truck, new ladders, new hose, etc. At the present time the Fire, Water and Light committee are considering these and Ald. Johnston will push the thing through.

THURSDAY, FRIDAY AND SATURDAY

We are offering white lawn blouse waists, hemstitched, tucked and embroidered for 59c., and fine dress skirts in navy blue and black, well made and well trimmed for $1.59. These skirts were bought to sell at $3.25 and the season's very latest spring and summer coats, beautifully made in covert cloth and fine tweeds for only $6.49, and a host of other bargains too numerous to mention at the real bargain giving store. B. Y. Moyes, 408 George st.

Tenders Called for Collegiate

Board of Education Adopted the Plans—Work to Start by April 15th.

Tenders are now being called for the erection of the new Collegiate Institute and all tenders must be in by March 30th. The Board of Education met last night and went into committee of the whole and considered the plans and specifications. A few minor alterations were made in the specifications and were then adopted. The Board then met and authorized the chairman to call for tenders.

Work on the contract must be started not late than April 15th and the building completed by Dec. 15th, 1907. If the contract is carried out according to specifications the Collegiate Institute will be opened the first of the new year.

FRIDAY AND SATURDAY SPECIALS IN OUR NORTH WINDOW

HARRY ADAMS

Kaiser William Attacked By Man Who Went Suddenly Mad

Special to the Review.

Berlin, March 7.—Kaiser William's life was seriously threatened at a concert in the White Hall at the Palace last night. Herr Kupe, a member of the orchestra, suddenly went raving mad, and uttering piercing shrieks, seized a big bass drum and rushed straight toward the Kaiser, who occupied a seat in the front row. He fought viciously and several times almost broke away before he was overpowered. He was finally ejected from the hall and conveyed to a mad house. The Emperor remained cool throughout, but the audience was thrown into a panic.

Dog Poisoner is Again at Work; Several Canines are Victims

The dog poisoner is abroad. As a result two canines are dead and two are recovering from the effects of the poison. Mr. W. H. Isaac, 228 Dublin street, lost a valuable Scotch collie dog to-day. Mr. W. F. Ballard's Scotch collie was also given a dose, but is recovering. A little black spaniel belonging to Mr. J. M. White, of the Peterborough Fuel & Cartage Company, was almost a victim, but is getting better.

Mr. Vincent Eastwood, manager of the Royal Bank, had a Scotch collie dog poisoned this week. A sharp outlook is being kept for the miscreant, and if he is detected a warm reception awaits him.

Cornwall Hockey Player Dead; Was Fatally Injured in Game

Special to the Review.

Cornwall, Ont., March 7.—Owen McCourt, "Bud," a member of the Cornwall Hockey Club, received such serious injuries in last night's game here between the Victorias, of Ottawa, and Cornwall, that he died at the hospital at 8.30 o'clock this morning.

McCourt was highly esteemed by all who knew him, and his sad end has cast a gloom over the town.

Reminiscences by "The Rambler" Some Famous Sons of Asphodel

Who Received Their Early Education in the Old Log School House—Visit to Different Parts of Peteborough County.

The Rambler continues his "Reminiscences of Peterborough" in this week's issue of the Catholic Register. He says:

"Baunacht Lath a Sheamus," said I as I shook the hand of "Jim" Hayes, and bid goodbye to himself, to his family and to the Cork House. "Gho de thee Slaun," was the rejoinder of a "noble boy" who for many years has borne the name of the Earl of Cork, and forthwith I resumed my journey eastward, passing on the way a most fertile tract comprising several hundreds of acres all owned and occupied by Irishmen, and good men every one of them. Here I made the acquaintance of Joseph Redmond, Michael Hallahan, Thomas Buck, James Doris, better known as Councillor Doris, from his long connection with municipal affairs, the Egan Brothers, Redmond Carey, John Condon and a number of others, all of whom were farmers. They have all passed to that bourne from whence an Irishman has never yet been known to return, except Redmond Carey alone, but he being a Tipperaryite, it is easy to understand how he manages to hold such a tenacious grip on life. Continuing onward my tour, both of investigation and exploration, I soon reached the village of Keene, a place where the Irishman has never been known to any appreciable extent to take root. It is, however, owned and "run" by a number of thrifty, broad-minded and tolerant Scotchmen. There was a Catholic church of modest pretensions in Keene, when I first laid the foundation for an acquaintance with the pretty village, which was attended monthly from Peterborough, in the good times long ago, when that clever priest—Father Oliver Kelly—ministered to the spiritual needs of a large portion of the people of Peterborough county. It is now attended from Douro each alternate Sunday. A mile south of the Village of Keene I reached "The Island," and here I encountered a number of excellent Irishmen who settled on a fertile soil, washed by the waters of Rice Lake, and comparatively isolated were enjoying life in its happiest aspects. There were some points of similarity between Achill island and "The Island," partly surrounded by Rice Lake at its northern shore. Each was ruled by a potentate selected by the people, and whilst neither crowned heads nor presidents of republics ever gave formal sanction or recognition to the people's will, yet they never dispatched armies or fleets to nullify it. It was practically a measure of Home Rule, and the people were undisturbed in its fullest enjoyment. I do not know who was ruler of Achill island, but I do know very well that the word of John Grier, a most patriotic Irishman who left the County of Mayo away back in the 40's, was law on the "Island," as binding as was that of the Medes and Persians. The Bolands, the Quinns and other Irishmen whom I have had the pleasure of meeting, placed implicit faith, and deservedly so, in Mr. John Grier, whose sterling devotion to the land of his ancestors, whose practical adherence to the faith, which was his proudest inheritance, whose kindness as a neighbor, and whose humanity as a ruler, never evoked the shadow of dissent or syllable of adverse criticism.

Proceeding towards the township of Asphodel I encountered on my way, many excellent Irishmen. I have a tender recollection of many of the pleasant calls which I made at the home of Mr. James O'Keefe, who several years previously, had left his native home at the foot of Slieve namon, and settled down here to the honored life of a farmer. He is dead many years, but I have a clear remembrance of that large-hearted Tipperaryman, and of his large hearted Tipperary wife. A son of his—John—whom I have not met for well nigh a quarter of a century is, I am pleased to learn, firmly rooted in the soil, a position I would like to see every Irish Canadian hold. A daughter of his is the wife of Mr. James Doris, a successful farmer, residing in the township of Otonabee. Amongst the other Celts whom I assailed, and whose houses I stormed as I moved eastward were some bearing names unmistakably Irish, such as Walsh, McCarthy, McNulty, Murphy, Myles, and Mullins; Foley and Fitspatrick; Doherty, Dwyer and Daly; Lynch, Lehy and Landrigan; Crowley, Coughlin and others, not too numerous to mention but through a treacherous memory, are unavoidably omitted.

On the charming Sunday following I assisted at the Holy Sacrifice of the Mass in the old log church which was the Mecca of the pioneers of the settlement from the first days of their arrival in this section of the township of Asphodel. Father Quirk, now many years deceased, was the officiating clergyman, and here it may not be out of place to make a brief reference to the arduous labors of the early Catholic missionaries of Ontario which the life of this good priest can to a certain extent illustrate. For many years the Holy Sacrifice was offered up twice each alternate Sunday in the eastern part of the county of Northumberland, all being in charge of the Rev. John Quirk, who resided in the village of Hastings on the banks of the River Trent. Where only one priest exercised spiritual jurisdiction forty years ago, there are four busy men today. Campbellford has become a flourishing parish with very bright prospects before it, and is faithfully ministered to by a clever priest, Father Whibbs. Warkworth is annexed to Burnley, both of which are attended to by Rev. Father O'Connell, who resides in the latter place. Norwood is a distinct parish, the handsome stone church, which is a valuable addition to the many handsome churches which the eye encounters in this village; answering all the purposes of the old log building to which a brief reference has been already made. Rev. P. Conway has charge of this parish. The congregation of Hastings has left the old stone building, the use of which was kindly lent by Mr. John L. Driscoll, of Westwood, and taken to the crest of an adjoining hill, where a beautiful church, an imposing presbytery and a commodious school house, are objects which strike the eye. Rev. Father Bretherton is the officiating clergyman. My description of Asphodel and of what I saw there, will be as imperfect as all my descriptions are, but it would be much more so were I to omit some allusion to the old log school house, which very appropriately spent its many years of usefulness in the neighborhood of the old log church. It was truly rural, but it was controlled by able men and able women, who turned out upon the world, able men and women.

Dr. J. B. Murphy, superintendent of the Brockville Hospital for the Insane, who died, sincerely regretted, on his return home after assisting at the Holy Sacrifice of the Mass, received his primary education within its walls, and for a few years subsequently taught it himself most successfully. Dr. C. B. Coughlin, recently appointed to the Superintendency of the Deaf and Dumb Institute, Belleville, the son of one of the first settlers, was one of the young ideas who were taught to shoot, and he himself, in after years, was one of the clever ones who gave instructions in the art of shooting. Dr. John O'Sullivan, who was one of the ablest medical practitioners in the county of Peterborough and who for some years, represented the Eastern Division of the same, in the local Legislature, kept order in this famous academy when he was a very young man. Thus did the fame of the Asphodel school float in the air until it won a reputation which climbed over parish boundaries.

RAMBLER.

Westwood Case Will be Heard

Farmer Who is Said to Have Assaulted Son Will Come up.

W. D. Dickson, the Westwood farmer, who was charged some time ago with an assault upon his eighteen year old son, will come up for trial before County Magistrate Edmison next Tuesday afternoon at two o'clock. It will be remembered that the case was a most peculiar one, the assault, it was alleged, having been committed because the son persisted in chewing tobacco. The principal witness in the case will be a brother of the boy who was assaulted. He was severely injured while working in a sawmill yard a day or so after the assault is said to have taken place, and as a result the trial had to be postponed.

No Longer One of the Directors

Senator Cox Resigned From Board of Dominion Coal Co.

Montreal, March 6.—It is announced tonight that Senator Cox has resigned as a director of the Dominion Coal Company, and that Mr James Crathern, local director of the Canadian Bank of Commerce, has consented to accept a seat on the board, and that he will be elected to that body in the morning to succeed Senator Cox.

It is also regarded as decided that the directors, previous to the annual meeting tomorrow, will declare a dividend on the common stock at the rate of 4 per cent. per annum, the first quarter's dividend of 1 per cent. to be payable at the end of the present month.

OBITUARY

FREDERICK WYATT

The death occurred at Nicholls hospital early this morning of Frederick Wyatt who passed away after an illness of nine weeks' duration, suffering from inflammatory rheumatism of the heart. The late Mr. Wyatt was seventeen years old and was the second son of Mr. Jos. Wyatt of east city. The deceased was removed to the hospital yesterday, in the hope that he would recover more quickly than at home, but he became worse last evening, and passed away at 1.30 o'clock this morning. He was a bright young fellow and highly esteemed by a wide circle of friends who will learn with deep regret of his death. He was a member of the Woodmen of the World and attended St. Luke's church.

Besides his parents six brothers and two sisters are left to mourn his loss.

The funeral will take place on Saturday afternoon at 2.30 from the family residence, 490 Driscoll Terrace, to St. Luke's church and thence to the Little Lake cemetery for interment.

MRS. ROBERT NURSE

Mrs. Robert Nurse, an old and highly respected resident of South Monaghan, passed away on February 18th, after a few days' attack of la grippe, followed by inflammation of the lungs. The deceased was 73 years old and was born in South Monaghan. Her maiden name was Mary Smithson. About fifty years ago she was married to her now sorrowing husband who, with a family of six sons survives. The sons are Albert and Joshua, residing on the homestead; Richard of Otonabee; Nelson, of South Monaghan; George of Rice Lake, and Wellington, of Montana. An only daughter died some ten years ago.

The funeral service of the late Mrs Nurse, who was highly esteemed and respected, was conducted by Rev. J. E. Wetherell, of Fraserville and there was a large number of friends and neighbors in attendance.

Popular Young Man Dies in Toronto

Remains Will be Interred in Havelock—Banker Transferred—Other Notes

Havelock, March 6th.—The death of Mr. Lloyd Kneiwasser, son of Mr. and Mrs. A. Kneiwasser, of town, occurred at Grace hospital, Toronto, on Monday, March 4th, pneumonia. The remains were brought to Havelock on Tuesday night. The funeral will take place from the family residence, Quebec street on Thursday at 1 p. m. and will proceed to the Methodist church for service, thence to Maple Grove cemetery for interment. The funeral will take place under the auspices of Queen City Lodge, No. 262, and Trent Valley Lodge, No. 648, of the Locomotive Firemen and Engineers. The deceased was well-known in Havelock and vicinity having been brought up here. A few years ago he went to Toronto and entered the services of the C.P.R., and rose steadily, having been promoted to the position of engineer a short time ago. The many friends of the deceased will be sorry to hear of his death, he having been esteemed by all his friends. The bereaved parents, brothers and sisters have the sympathy of the entire village.

Miss M. Johnston of Norwood, is the guest of Mrs. H. T. Andrews for a few days.

Mr. Jas. McCracken and family left on Wednesday morning for Craighurst, where they will reside in the future, Mr. McCracken having been appointed section foreman on that section of the C.P.R. Their many friends will regret very much to hear of Mr. McCracken's departure from town.

Mr. E. Middleton of town, has moved into the house formerly occupied by Mr. James McCracken.

Mrs. Oldrey and children spent Wednesday at Blairton.

Mrs. J. H. Sexsmith, who has been ill, is recovering.

Misses Timmerman, McWilliams and Cole, have returned from Toronto, where they have been attending the millinery openings.

Mr. Geo. Barrie of Peterborough, is the guest of his sister, Mrs. Jas. Fowler.

Mr. C. Donnelly who was injured a couple of weeks ago, by being thrown off the C. P. R. snow plough is able to be around again.

Mr. and Mrs. Fred Barlow left on Tuesday for Souris, Man., after spending a couple of months in town, the guest of Mr. Barlow's parents, Mr. and Mrs. John Barlow.

Mrs. Crawford is moving her confectionery store and bake shop from Quebec street to Ottawa street, opposite the C. P. R. station.

Mr. Jas. Reid of Marmora, was in town on Wednesday.

Mr. J. McClean, teller in the Sovereign Bank here, left on Tuesday morning to accept a similar position in the Sovereign Bank, Stratford. Mr. Scott of the latter place will succeed Mr. McClean, as teller.

We regret to hear of the very severe illness of Mr. Steve Clark of Belmont.

Lenten services were held in St. John's church on Wednesday evening. Mr. Harris, pastor of Marmora church conducted the services.

The unknown evangelists are still holding their meetings in the old Havelock school house.

Miss W. Davidson was successfully operated on for appendicitis on Monday at the residence of Mrs. Jas. Campbell.

We regret to hear of the illness of Mrs. (Dr.) Joseph Holdcroft.

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10.00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

Mr. L. H. Seale, teller at the Dominion Bank here, has been transferred to the Market Branch, Toronto and Mr. Jones, of Orillia, will be moved to Peterborough to take Mr. Seale's place. The change will be made on Saturday.

Presentations to Father O'Sullivan

Rev. Father O'Sullivan, who is leaving Lindsay, where he has been curate for some time, to take charge of the parish at Port Hope, was on Tuesday evening, presented with a purse of $313 in gold and two complimentary addresses, one from the Bible History Class, and the other from the Boys' Catholic Literary Society. A large number of the citizens of Lindsay, assembled to bid farewell to Father O'Sullivan, and speeches were made by Ven. Archdeacon Casey and Rev. Father O'Sullivan of Victoria Road.

It Was England Versus Ireland

A fistic encounter between an Irishman who had tarried too long before the shining counter, and a sturdy son of Albion, attracted considerable attention at the corner of Hunter and Water streets yesterday afternoon. The Irishman had been using strong language and handing out some rough jolts to a little Englander when his more powerful countryman interfered. The newcomer proved to be quite handy with his fists and the son of the Emerald Isle called off his forces and beat a hasty retreat.

Health and Wealth

That's what the people get who trade at Kennedy's. Our Beef is prime, tender and juicy. We handle nothing but choice steers and heifers. Those who eat Kennedy's Beef will have no indigestion pains, which you are sure to have if you eat tough beef. Therefore, by trading at Kennedy's you can save the money that you would have to pay the druggist for medicine to digest tough beef. Give us a trial and be convinced as to the quality of our Beef.

TRIPE—This week we have nice fresh Tripe—the most delicious dish you could eat, when properly prepared.

PROVISIONS—A full stock of Fresh Provisions always on hand. Customers tell us our Cheese is the best in the city. You will find it rich and mellow.

Knox Church Extends Call to Rev. H. J. Keith, of Smith's Falls

Congregational Meeting Held Last Night—Invitation Will be Placed in Hands of New Minister at Special Meeting of Presbytery on 26th Inst.—Has Brilliant Scholastic Record.

At a meeting of Knox church congregation held last evening to moderate a call to a pastor, the Rev. Henry J. Keith, M.A., of Smith's Falls, was extended the invitation.

The call will be presented to him at a special meeting of the Presbytery of Peterborough, which will be held in St. Andrew's church, on Tuesday, March 26th, and it is expected that he will accept.

Mr. Keith occupied the pulpit at both services in Knox church on Sunday last, and created a decidedly favorable impression. He is an earnest and convincing speaker.

At the congregational gathering last night there was a large attendance. Rev. Dr. Torrance, interim *moderator of session*, presided, and Mr. William Shea acted as secretary

After an appropriate sermon preached by Rev. Dr. Torrance, the the business of the evening was proceeded with. Some eight ministers have been heard during the past few weeks in Knox church. In connection with the balloting, Mr. Keith received by far the greatest number of votes of any of the candidates, and on motion the call was made unanimous. The stipend was fixed at $1,000 a year. The call was signed by those present last evening, and a further opportunity will be afforded the members on Sunday next to attach their names to it.

As already stated, a special meeting of the Presbytery will be held on Tuesday, March 26th, when the call will be placed in Mr. Keith's hands. If he accepts—as doubtless he will—arrangements will at once be made for his induction to the pastorate of Knox church.

Mr. Keith is a young man, about thirty years old. He is a first-class honor graduate of McGill College in Arts. He took his theological course partly in Princeton, and partly in the Presbyterian College in Montreal, from which he graduated in 1903, taking the highest stand of the year and the gold medal.

Having a strong inclination towards missionary work, he was selected by the International Committee of the Young Men's Christian Association to take up special work in India, but after two years he had to give up the work in the foreign field owing to the ill-health of his wife His home is in Smith's Falls.

Must Have All Bars at Front; New Regulation Passed by Board

Centre Simcoe License Commissioners Make a New Rule—To Stop After-Hour Trade—Other Reforms Also Being Considered.

A Barrie despatch says;

The License Board for Centre Simcoe met there yesterday afternoon to consider measures preparatory to the issuing of liquor licenses for the year 1907—1908. Among other things a resolution was passed calling for the placing of all bars in the front part of hotel premises. Chairman Tyrer, when seen in reference to the change, stated that the move was made for the express purpose of checking bar trade during prohibited hours, and enabling the public to be in a position to see and judge for themselves whether the law was being observed.

There had been, he said, many complaints recently about this phase of the hotel business.

Other reforms are now being considered by the Board. The change, it is understood, will affect at least two hotels in Barrie—the Queen's and the King Edward. But in the country several houses will require to be remodelled to meet the new conditions.

THE CITY AND VICINITY

events tonight

Brock street rink, hockey match, Review and Examiner.

Grand Opera House, Uncle Josh Spruceby.

Park street church, annual Sunday school entertainment.

Salvation Army barracks, band concert.

NEW SHOP.

Messrs. Hickey and Snider have opened a new tailor shop at 374 George street.

AT THE SHELTER.

There are four inmates at the Children's Shelter—three boys and one girl. This is an unusually low number.

SHOULD TAG THEM.

A Peterborough alderman introduces a motion to tax bachelors That's right. They ought to make 'em wear tags too.—Belleville Intelligencer.

LENTEN ADDRESS

Rev A. J. Reid of Campbellford, gave the Lenten address in St. Luke's church last evening. There was a large congregation and the speaker's earnest remarks were closely followed.

FIRE, WATER AND LIGHT.

The Fire, Water and Light committee will meet this evening at half past seven. There are several matters of importance to come up. One of these is to advnace the preparations for moving into the new fire hall, and to order some new apparatus.

CASE ADJOURNED.

Re Peterborough Cold Storage Co (Wilson's and Balagh's cases).—C. W. Kerr, for Wilson and Balagh. R. E Wood (Peterborough), for liquidators. D. O'Connell (Peterborough) for former directors. Appeals from Master's report enlarged until 20th March.—Osgoode Hall

ANNUAL ENTERTAINMENT.

The Park street Baptist Sunday school will hold their annual supper and entertainment tonight. Children's supper will be served at six o'clock. Chair will be taken at 8 o'clock by Rev. A. H. Brace, when the parents and the public will be admitted. Miss Maggie Mann, the superintendent will read the report of the year and rewards will be presented to about six scholars.

MEETS TO-NIGHT;

Royal Black Preceptory, No. 261. meets to-night.

CHOIR PRACTICE.

St. John's choir will meet in the church at 8 p.m. this evening for special practice. Crucifixion and Easter music.

CANADIAN CLUB

Guelph is the latest city to organize a Canadian Club. Mr. J. S. Willison, of Toronto, addressed the first meeting on Tuesday night. Why should not Peterborough have a Canadian Club?

AT HAZEL BRAE

A party of fifty-two healthy, happy girls arrived at the Barnardo Home yesterday. They came over on the S.S. Dominion. The girls will all be placed in good homes, many applications being made at Hazel Brae. Three other parties will be received during the year, the next coming about the middle of May.

WILL NOT COME.

It is reported that the Coates Manufacturing Company have decided not to establish their proposed Canadian works and therefore, there is not a very bright prospect of Peterborough securing this industry—at any rate for the present. Mr. Dunwoodie, the Canadian manager of the company, has returned to Scotland.

OPERA HOUSE MEETING.

The local assembly of the Brotherhood of Saint Andrew, met last night St. John's school house, and passed the following resolutions:—That the mass meeting be held on Palm Sunday, March 24th, instead of next Sunday, March 10th. That an open air meeting be held on Good Friday, March, 29th, at 3.15 p.m. The executive committee will meet in Mr. Jos. Bell's office, Water-st., Friday, at 5 p.m.

GOOD GROCERY BARGAINS.

By reference to the Review advertising columns it will be seen that Mr. F. J. R. Mitchell has decided to retire from the grocery part of his business and confine himself altogether to the wine and liquor branch of the business. In the meantime the entire stock of groceries will be sold at prices that will ensure a speedy sale. The stock is fresh, up-to-date and at prices at which it is offered will mean money saved to early buyers.

BIRTH

PLOUFFE —On Tuesday, March 5th, 1907, at 173 Rochester street, to Mr. and Mrs. Eugene Plouffe, a daughter.

FROM $750 TO $8,000

I can now offer a varied lot of eligible **DWELLING HOUSES** and **LOTS** in the City of Peterborough, ranging in price from $750 to $8,000. Also vacant lots all over the city at right prices.

FARMERS would do well to see my large list of **FARMS** before buying—many of them being on the market for the first time.

Annual Meeting of the 57th Band

Officers Were Elected and Other Important Business Passed

The annual meeting of the 57th Regiment Band was held in the band hall last evening and there was a full attendance of the boys. The past year has been a most successful one in every way and the musicians are greatly interested in their organization. The open air concerts last year were most satisfactory to the band and were greatly enjoyed by the citizens.

Among other matters taken up was the ratification of the new agreement defining the duties of the band master, between the masters of the 57th Regiment and the band. The new understanding wipes out all the little difficulties which have caused some inconvenience in the past and the band starts out with a clean sheet again.

Arrangements wer also made for full rehearsals. The band master will be in the hall three nights a week Tuesday and Friday nights are the regular practice nights and Wednesday night will be for a beginners' class. The boys will get down to hard work at once and prepare for the open air concerts during the summer months, which will be held as usual.

The following officers were elected and the meeting adjourned until Tuesday night, when the financial statement will be presented;

President, R. Shelton.
Vice Pres., Walter Hughes.
Secretary, J. A. Harper.
Treasurer, R. Beach.
Librarian, Geo. Grange.
2nd Librarian, Geo. Chambers.
Executive Committee, R. Heiderman, C. Wesley, F. C. Miller, and Geo. Wesley.

Hastings Boy Killed by Lunatic

Fatal Result of Bullet From Revolver in Insane Man's

Word was received on Wednesday morning from Fort William, of the death of Mr. Bernard Armstrong, as the result of a bullet in the hands of an insane man named Manson Patterson, says the Hastings Star.

The shooting took place in a Riverside boarding house where Mr. Armstrong and another carpenter named Frederick Abbey were working, when without any notice whatever, Patterson rushed upstairs, pointed his gun, and fired.

Then he ran down stairs into the store and shot a man named Costello, who was just coming up from the cellar, in the arm.

Costello grappled with his assailant. Show cases were overturned, stovepipes knocked down, and the interior of the store was wrecked. Costello got the gun away from the maniac and broke the butt over his head, knocking him down. Then a crowd of boarders rushed in and Patterson was held till the police arrived.

Magistrate Palling was summoned, and, in short, disjointed sentences, Mr. Armstrong told his version of the affair.

He was unable to raise his arm to sign the statement, the shot having partly paralyzed it.

"I was working in the room," said Mr. Armstrong, "when I saw the prisoner come in and point a gun at me. I tried to get out of the way, but he was too quick for me. He said nothing.

"I know of no reason why he should shoot me. He came into my room this morning and told me something was going to happen before night."

Mr Armstrong was a native of Percy township, where his mother and family, who have the sympathy of the whole district, still reside.

He was 32 years of age, and leaves to mourn his loss, four brothers, Daniel, William, and Leo at home, and John of Hastings; and three sisters, Mrs. R. Walsh, of Asphodel; Miss Alice at home, and Maggie, who is attending convent.

The remains will likely arrive here on Saturday, and the funeral take place on Sunday afternoon or Monday morning, under the auspices of the Catholic Order of Foresters, of which Order the deceased was a member.

A Specialist's Prescription

for women

Who Feel Tired and Run Down.

A Remedy that Gives New Life and Vigor and makes Women Feel Good.

Dr. Hugo's Health Tablets for Women are the prescription of a specialist.

We don't say that no other living physician could prescribe so good a remedy for women. But we do say this. The ordinary practising physician cannot prescribe so good a one, and no living physician can prescribe a better one.

Dr. Hugo put into the prescription all the knowledge, experience and skill which he had acquired in forty years' practice as a specialist in women's diseases, and included as well the discoveries of all other great physicians.

All that is latest in medicine—all that has been found useful to women, is contained in them. Nothing useless has been included. Nothing useful has been left out.

The result is, that every requirement of the female system in any possible condition is met by them.

And this fact has been certified to by leading physicians and chemists on this continent, to whom Dr. Hugo's prescription was submitted.

If you are in a run-down condition and don't feel as well as you would like to, or suffer from any menstruation difficulty, or weakness peculiar to your sex, avail yourself at once of the prescription of this great and good physician.

The cost of 72 tablets, enough for an extended treatment, is only 50c.

Dr. Hugo's Health Tablets Make Healthy Women.

WEDDING BELLS

HARRISON—LANE

A very pretty wedding took place on Feb 27th, at the residence of Mr. Henry Lane, Young's Point, when his youngest daughter, Letitia May, was united in marriage to Mr. John Harrison, of Lakefield. The ceremony took place at seven o'clock in the evening, beneath an arch of evergreens, decorated with colors of red, white and blue and was performed by Rev. Mr. Bedford, of Lakefield, in the presence of about forty guests. The bride was becomingly attired in white, and wore the customary veil and orange blossoms. She was assisted by her cousin, Miss Louise Nelson, of Lang, while Mr. Ross Harrison, brother of the groom, acted as best man.

After a dainty wedding supper had been partaken of, the young couple drove to Lakefield, where they intend residing for the present. All join in extending heartiest congratulations and best wishes for a happy and prosperous wedded life to Mr. and Mrs. Harrison.

NICOLL—LILLIE

An interesting event took place on Wednesday afternoon in Norwood, when Mr. H. Nicoll of that village was married to Miss May, daughter of Mr. John Lillie, of Norwood. The ceremony was performed by Rev. G. A. MacLennan, pastor of the Presbyterian church. The bridal couple were [illegible] in [illegible] going-away dress of navy Venetian with white silk trimmings and hat to match.

A wedding breakfast followed the ceremony, and Mr. and Mrs. Nicoll left for a trip through Western Ontario. Returning, they will reside at Norwood. Many presents testified to the esteem in which the young couple are held.

The Trent Valley Canal Outlet

Port Hope Route Overcharged by at Least $1,000,000, Says Mr. Clarke

The following letter appears in the Port Hope Guide,—

A hasty examination of Mr. Walsh's report re outlet for Trent Valley Canal reveals the following points which may be of some interest to your readers, who, like myself, had hoped the shorter and cheaper route via Port Hope would have been selected.

Mr. Walsh says the cost of maintenance on the Port Hope route, would be less than on the Trenton route, but gives no particulars, only says that the latter would require twice to three times the number of employees than the former. He might have added that 44 miles on the Trenton route including three miles of tortuous channel leading from Trenton harbor would need the channel lighted with electric lights. These at a cost of $40 each would amount to $10,000 a year, which capitalized represents $250,000. Then again he should have added the cost of buoying the channel which would be a large amount.

2. Mr. Walsh adds to his estimates via Port Hope, the cost of extending piers 150 feet, and constructing another breakwater 1000 feet long, the large sum of $194,540. This expense according to former reports by Mr. Rogers and Mr. MacLeod, is quite unnecessary and I am sure every citizen will say so.

3. The route recommended is 1,000 feet east of Trinity College school, returning by park, and along by Mr. J. H. Helm's residence to harbor—why he should have selected such a circuitous route, I cannot tell, unless to save the cost of strengthening the electric light and other dams, which he estimates at a high figure.

4. Mr. Walsh charges up Port Hope route with a large amount of diversion of water along the Trent river, and includes $16,050.00 for damage to waterpower at Peterborough; and states that there will be no damages by Trenton route to waterpowers along the river.

The Royal Transportation Commission reported that the damages for diversion of water by either route would be the same, and reports on the Trenton route by former engineers speak of large damages, as, there are to be twenty immense dams. I am persuaded that owners of water powers along the Trent will have a different story to tell.

If we add together the items mentioned we have over $1,000,000 difference in the cost between the two routes in favor of Port Hope. So far as I am able to judge the report is very full and complete with the exception of the cost of maintenance and operation, which I think should have been included.

Yours very truly,
J. F. CLARKE.
Port Hope, March 4th, 1907.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Prosperous Year in George St. Church

Annual Business Meeting and Reunion Held Last Night

The annual congregational meeting of the George-st. Methodist church, was held last evening and was well attended. The members turned out in large numbers and a social and profitable evening was spent.

The annual reports printed in book form and distributed to the members, show the church to be in a very satisfactory condition, both financially and otherwise. Rev. Dr. Crothers occupied the chair and, after the exercises, extended a hearty welcome to the large number present. He was glad to see such a representative meeting. There were present a large number of the older members, but the doctor said he was particularly pleased to see such a good representation of the young men and women as well as the boys and girls. He paid a compliment to the good work of the Trustee Board. They were really the board of directors of the congregation. No board has ever done better work. The systematic way in which the work was carried out was commendable. The speaker said it was a good step in the right way when the societies were given representatives on the Quarterly Official Board.

[illegible] Reesor rendered a vocal solo which was much enjoyed. The financial report was then read by Mr. Felix Brownscombe and was followed by a few remarks from Mr. Geo. Robertson on the system of giving. The report was adopted as read.

A well rendered instrumental solo was given by Miss W. Gumpricht, and Miss Montgomery contributed an excellent recitation. Mr. Charles Barber was also heard to good effect in a vocal solo.

Mr W. C. Switzer, who teaches a ladies' Bible class, read a report on the work done by the class. He said that during the year Mrs. Curtis and the other members of the class had undertaken to make quilts for deserving families in the city and also children's dresses. They had also made an autograph quilt which was on exhibition last evening. A large sum of money was realized from this quilt by people giving so much for having their names put on it. Mr. Switzer said it gave him great pleasure to present Mr. Cressman, of the finance committee, with a cheque for $200 to be placed to the funds of the church.

Mr. Cressman on behalf of the committee, thanked Mr. Switzer's class for their contribution. He was sure their efforts were appreciated very much by the congregation. Mr. Switzer's class also presented Mrs. Curtis with a life membership certificate of the Women's Missionary Society. Miss Reesor was again heard in a well renderde vocal number.

Votes of thanks were tendered the choir and the ushers of the church for their good work. The Y.M.C.A. quartette contributed a selection, which was much enjoyed.

Refreshments were then served and a social time spent, after which the gathering dispersed.

A synopsis of the annual reports has already been published in the columns of the Review.

Women's Mission Circle Meeting

In Murray St. Baptist Church—Officers Were Elected

The annual meeting of the Woman's Mission Circle of the Murray street Baptist church, was held on Tuesday afternoon and was well attended. The secretary's report showed the membership to be three more than last year. Miss Rozie Kidd presented the report of the Willing Workers and Miss Ethel Hardwicke the report of the Mission Band, both of which were encouraging. The work on the foreign fields was outlined by Mrs. Dr. Scott, while Mrs. Ellis dealt with Home Missions. Work in the Northwest, especially among the foreigners, was presented by Mrs. M. R. Kidd. An address by Rev. J. R. Webb, the pastor, on work among the French in Quebec, showed very clearly Ontario's responsibility to the Province of Quebec. Mrs. Turner, in a few well chosen words, conveyed greetings from St. Paul's Women's Mission Society. Solos by Mrs. Miller and Miss Stephens were much enjoyed.

FINANCIAL STATEMENT.

Amt sent to Foreign Missions	$117.79
Amt sent to Home Missions	69.92
Northwest Indians	15.00
Monthly collection	8.67

A special sum was sent to India for lady missionaries' bungalow, $35. Total by Circle, $246.38. Amount raised by Willing Workers, $65.00; by the Mission Band $67.00; grand total $378.38.

The following officers were elected for the year:—

President.—Mrs. Du Hunter.
Vice-president.—Mrs. Dr. Scott.
Secretary.—Miss M. A. Nicholls.
Treas., Foreign.—Mrs. White.
Treas., Home.—Miss Aldridge.
Treas., N.W. Indians.—Mrs. Scott.
Treas. Mite Fund.—Mrs. Wood.
Collectors.—Mrs. Chalmers, Mrs. Wm. Montgomery, Miss Cochrane, Miss Matthews.

The Cayuga Murder Case Woman Placed on Trial

Mrs. Perkins Faces Charge of Killing Her Husband.

How Evidence Has Been Obtained—Witnesses Admit That Crown Attorney and Detective Asked Them to Give Testimony Which Seems Against the Accused Woman—Deathbed Scenes on Christmas Day.

Cayuga, March 7.—At the preliminary hearing of Mrs. Mattie Perkins for the alleged murder of her husband, E. F. B. Johnston, K.C., yesterday, forced Henry Wilkinson Canfield, a witness, to admit that Crown Attorney Murphy and Detective Greer had asked him to say that he had seen Thomas MacDonald leaving the Perkins home "dozens of times."

The witness said his testimony to the effect that he had seen MacDonald leave the house "half a dozen times, staying in one instance until 9 o'clock," was voluntary evidence. Then he said he had only heard this statement.

"That's a slender thread to hang a woman on," was Mr. Johnston's comment, and a general feeling of relief was evident in the crowded courtroom.

Mrs. John MacDonald testified that Detective Greer urged her "to own up to things that were not true, but I knew nothing wrong about Thomas."

Startling Facts Promised.

It was announced that startling facts would come out, and that neither I. A. MacDonald nor any member of the Curry family would be called.

That the case will go to a jury seems to be assured by the appointment of George T. Blackstock of Toronto as crown counsel to conduct the trial at the assises on April 16.

The prisoner entered on the arm of her sister, Mrs. Romain Hislop, wearing a black hat with a large feather and a heavy veil, a long black coat and a pair of gold rimmed spectacles. She looked to be forty-five years of age. The strain is telling on her despite the matter of fact way in which she has taken events since her arrest three weeks ago.

Tells of Perkins' Visit.

John S. Darragh of Canfield, lessee of the Perkins farm, was the first witness. He told how Perkins visited the farm on Sunday morning, Dec. 23, suffering severely. He admitted he was half asleep when Perkins arrived. He could not remember the exact words Perkins used, although he testified at the inquest that Perkins had said he did not feel safe.

Louis Mehlenbacher, the Canfield hotelkeeper, who was called to Perkins' bedside the day he died, testified that for seven years he had not known "two married people to get on better than Henry and Millie Perkins." He said Perkins wrote the telegram to William Spencer at Welland and instructed his wife to send it at once.

Henry Wilkinson said he had seen Thomas Macdonald enter the Perkins' home during the absence of Perkins half a dozen times between September and December and always at six o'clock.

Perkins Expected Death.

Mrs. John MacDonald stated she knew of Perkin's sickness on the Sunday prior to his death, but was not sure whether the prisoner had told her.

She told of the conversation with Henry Perkins at 7 o'clock on Christmas morning, three hours before he died.

Mrs. Perkins had left the room for a bottle of medicine and Perkins told her he would not get better.

The medicine was not given, Perkins having been attacked by another spell.

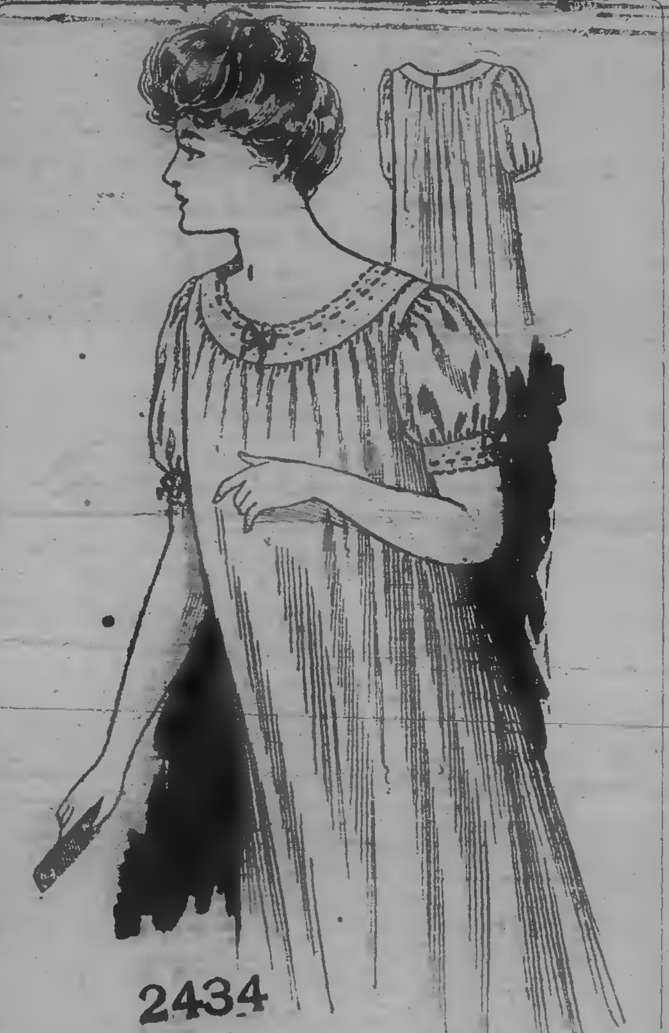
After that, continued the witness, "Perkins asked me to take hold of his hands and asked his wife to raise the window. She did so and went over to the bed, put her arms around him and kissed him."

"Did she speak to you as to the rights of Henry's relatives in case Henry died without a will?"

"Not that I remember of."

Mrs. MacDonald said that the relations between husband and wife were most affectionate.

Dr. Ellis of Toronto, provincial analysist, testified he had found strychnine in the vital organs, but that death had not necessarily been the result.



2434

A CHEMISE SHIRT GOWN.

A nightgown of simple design with several possibilities is shown. The neck is finished with a plain round yoke-band, which may be of wide insertion edged with lace or of plain material finished with beading. The sleeves may be in three-quarter length or shorter as shown, and should be finished similarly to the yoke. Though intended for a chemise nightgown which slips on over the head, the front may be slashed and an opening finished. Any of the usual materials may be used, longcloth or nainsook being suggested. For the medium size 6 3-4 yards of 36 inch goods are needed.

2434.—7 sizes, 32 to 44 inches bust measure.

The price of this pattern is 10 cents.

Leave your order and ten cents at the REVIEW OFFICE, and pattern will be sent you by mail.

Will be Presented In Belleville

Mr. H. J. Booth to Put on Queen Zephra in the Bay City

Mr. H. J. Booth, the director of "Queen Zephra," who has been spending a few days in Peterborough, left this morning for Belleville, where he will put on the popular musical extravaganza in that city, about the end of March, the proceeds to be in aid of the Belleville hospital. "Queen Zephra," will be repeated in Peterborough, on April 3rd and 4th, at greatly reduced prices. Afterwards Mr. Booth will go to Guelph where he has to fill an engagement.

The Manchester corporation is endeavoring to organize direct cattle shipments to Manchester.

Will Present The Crucifixion

The oratorio will be given by the combined choirs of St. John's and All Saints' churches on Thursday, March 21st, in All Saints' church at the 8 p.m. service. The first combined rehearsal will be held this evening in All Saints' church at 8 p.m., Mr. R. J. Devey conducting. Members please note and attend in full strength.

REVIEW LETTER BOX

ANOTHER PROTEST

To the Editor of the Review.

Sir,—With reference to the recent attack characteristic of Englishmen in Canada, which appeared in a recent issue of the "Examiner" I am glad to see you have given the matter further publicity.

The foolish accusation is unwarranted and unjust, and one would think the Examiner had something better to do than insert such a nonsensical effusion.

I am sure no Englishman in Peterborough attaches any importance to such a false and mean criticism, for what other nation has done more towards the progress and commercialization of Canada than the "Britisher."

I trust, ere the next meeting of indignation on Thursday, March 14, an ample apology will have appeared in the Examiner, and thus stay any worse feelings between Canadian working men and ourselves.

Hoping you will give this space,
I am,
Yours sincerely
JOHN BULL.
Peterborough, March 6, 1907.

BACHELOR'S TAX

To the Editor of the Review.

Dear Sir,—I was somewhat "pleased and gratified" to see in your issue of a day or two ago, that at a recent meeting of the city council the motion, of our most progressive and resourceful councilman, Alderman Tovey, that bachelors be taxed, was very favorably received by the mayor, and ten of the remaining eleven aldermen — whose could that one dissenting voice have been? We will think it over until the Morrow—by George! we will.

Now, Mr. Editor, I am sure that you, and all other right thinking men (married ones especially) will agree with Ald. Tovey in his views on the situation, and no one can but admire his "nerve" and courage when he so canny and deliberately voices his conviction, (although he probably at the moment felt quite secure, being in the company of eleven benedicts, with only one poor bachelor present) — a conviction, however, which is, to say the least, commendable.

Now some of the most confirmed old bachelors are likely to sneer (and swear, too), and say unkind things about our dear aldermen; and, in fact, one more sarcastic than charitable, said that our worthy alderman being himself a benedict, was only another living, or rather existing proof that "misery loves company."

Now sir, just imagine such a remark from a man, hale and hearty and in the very zenith of his manhood (as far as years go), when he should by all means, be perfectly conversant with his "infant-ry drill", and floor walking exercises, and should also know the proper method of administering Mother Winslow's Soothing Syrup, (for pale children) and the number of teaspoonfuls of paregoric, usually prescribed (per dose) in cases of insomnia (not in papa), melancholia, biliousness, appendicitis, hysteria, convulsions and evolutions, and all the sundry ills, peculiar to the six months' old.

Now Mr. Editor, I am a bachelor myself, though not from choice, and have the country's welfare at heart. I also agree with "Teddy" Roosevelt, in his views on the "race-suicide" question, and I think that every right thinking person will give Ald. Tovey, his or her most loyal support in the stand that he has taken.

But before too drastic measures are adopted, can a compromise not be effected? Could a society not be formed, with Ald. Tovey, of course, at its head; a society which would have as its object, the disseminating of knowledge, touching on and appertaining to the matrimonial question? and the bringing together in a sociable way, the aforesaid bachelors and some of the numerous young damsels of the city? Ald Tovey would cheerfully act the part of host at the society's first meeting, I am sure; and would probably entertain his friends, with an illustrated lecture on the "Life of Brigham Young" or "Sketches from the pen of Senator Smoot (Senator or 'ex-Senator from Utah, U.S.A.)."

Such a procedure would, in time, I think, have the desired effect, and Ald. Tovey would have the pleasure of seeing his efforts, "bearing fruit in due season."

Come bachelors, young and old, pause and think; do the right thing and spare yourselves the humiliation of having to be put on the "bachelor's tax roll," and avoid, if possible the stigma, which would otherwise rest on the fair, and hitherto universally respected name of bachelor.

Thanking you for your space, Mr. Editor,

I am, Sir,
"WOOD, P., BENEDICT."
Peterborough, March 6, 1907.

FOR OVER SIXTY YEARS

An old and well tried remedy. — Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

DEAN PATTERNS

Have you used any of the Dean Patterns which appear in the Review each evening. Those who have tried them find them most satisfactory in every way, not too elaborate for the home dressmaker, and not too extreme in style to wear well. Order such patterns as will suit you, and they will be sent you through the mail on receipt of ten cents for each pattern.

THE COWAN CO., Ltd., TORONTO

The Memory of a Noble Woman

The story of Sarah Maxwell should be inscribed in every new school reader published in Canada. It should be, and probably will be, told in every school from Halifax to Victoria, says the Ottawa Journal. A devotion to duty, which in the moment of trial, rose superior to the love of life, is surely a theme worthy of periodical recitation in the school rooms of our country. It is questionable whether Sarah Maxwell did any greater deed, than many another lady teacher similarly placed would have done. Yet the sort of calm, self-sacrifice to duty in which the heroine of Hochelaga school gave up her life cannot be too often spoken of. It is such heroic deeds that cast a bright light on the often dark pages of human frailties.

Russia After Japanese Fishers.

St. Petersburg, March 7. Russia will send two cruisers from the Black sea to prevent the Japanese from poaching on the sparsely guarded Siberian litteral during the fishing season commencing in April.

$50,000 Fire At Soo.

Sault Ste. Marie, March 7. Fire last night destroyed the new municipal buildings, fire hall and public library in the heart of the city. The loss will be $50,000, partly covered by insurance.

Canadian Cattle Barred.

London, March 7.—(C. A. P.) The Association of Chambers of Commerce have refused to adopt a resolution commending the free importation of Canadian cattle.

Italy Checks Emigration.

Rome, March 7.—The Government has forbidden the admission into Italy of foreign circulars urging peasants to emigrate, especially to the United States.

TAXING BACHELORS

You cannot force or drive people in this liberty-loving age. Compulsion will not make persons moral. Tyrannical measures often defeat the very object which they have in view. The total prohibition of any vice is no guarantee that it will be wiped out. It may assist, but, under the lash no man becomes thoroughly reformed. Example is better than precept and moral suasion is worth a dozen "thou shalls."

To seek to coerce men living in a state of celibacy to become benedicts by imposing a tax on them, would only arouse resentment and create [illegible] Love's proposal to tax bachelors five dollars a month must not b taken too seriously. Men would adopt any scheme except getting married to avoid the payment of the levy. The poll tax in any municipality is only one, or at most, two dollars, a year, yet comparatively few young men pay it. They resort to all manner of subterfuge in order not to hand over the dollar to the collector and there is an agitation now on foot to have the poll tax abolished altogether. A bill has been introduced to this effect in the Ontario Legislature. The tax is sometimes called the statute labor tax, and is imposed on all men between the ages of 21 and 60 years, who are not assessed on income, property, or business.

If the small poll or statute labor tax cannot be gathered in, how would it be possible to corral the bachelor tax of $60 a year? If a man is determined to live single all his life, he will do so in spite of taxes or any other imposition that the law may devise. You cannot goad him into matrimonial harness, but you may perhaps lead him. A man who is of the greatest usefulness and strength to the community, of the most benefit to the state, is he who marries early in life, buys or builds a little home, raises a family and does what he can in his own humble way to educate them, to give them a good moral training, and start them out on life's highway, well equipped with those forces of character and attributes of mind that look upon all labor, no matter how menial, as honest and respectable; that work is the only royal road to contentment, and the home is the greatest institution and bulwark in the world. When the spirit of Christianity reigns there, when love holds sway, when mutual confidence exists, and where God is honored and revered, great is the home in power and usefulness. There the brightest and truest ideals should prevail, there forbearance should be exercised and goodwill prevail. There is much in home training. Those men, who would like to rank as great, not in the ordinarily accepted sense, but as heroes of every day life, are the ones who quietly foster such an institution as the home and seek to raise a family, the members of which will be a credit to their parents, to their place of residence and the country which they are proud to claim as the land of their birth.

MINISTERS AND POLITICS

To what extent should a minister become mixed up in politics and athletics is a debatable subject, and opinions differ widely.

In the contest now going on in Manitoba several clergymen have dabbled in the fray and made wholesale charges, which, it is claimed, cannot be substantiated. Of course, in the face of corruption, immorality and malfeasance of office, it is not expected that the pulpit can keep silent, where these are known to exist, but how far should preachers go in their utterances on these subjects? Should they openly name men and parties from the sacred desk, or should their denunciations and warnings be merely general and advisory in character? Discussing this matter the Toronto Star humorously remarks;

"Opinions differ as to the propriety of ministers of the Gospel taking part in political contests. Sane and moderate men, however, agree that it is right for preachers to talk politics on their side, but that on the other side it is very easy for them to pass the bounds of propriety. It is extremely irritating to hear a minister pounding away at the political party to which you belong and not to be able to reply. It also arouses your wrath that he, as a guardian of morality, should remain silent in the presence of the iniquities committed by the other party. The situation is full of difficulty, however you look at it."

Now, as to athletics, in the little town of Hespeler, near Galt, a young Presbyterian minister by the name of Rev. J. D. Morrow took an active interest in lacrosse and managed the team last summer. This aroused the opposition of the congregation, although many admit that the clergyman's presence had a wholesome effect over the players, who learned to appreciate his presence and worth. Certain staid members thought that the dignity of the cloth was not properly maintained by Mr. Morrow mixing up in athletics. The outcome is that the pastor has resigned. Why should not ministers take part in active, healthy, manly sports? The pastors would exercise good influence and show a noble example. A great educational authority has said; "Give me the boy who takes a high place in sports, who is regarded as an athletic chap, and you give me the strongest type of young Canad[illegible]"

The church of today must provide some attraction for the young man other than the ordinary service says the Woodstock Sentinel-Review. So numerous are the inducements held out by other institutions that there is a strong feeling amongst young men to absent themselves from church. That conditions more serious do not obtain is due in no small measure to the splendid work of the Y. M. C. A. Thousands of young men who never go to church find a pleasant home in this great institution, and there the environment is so healthful and invigorating that a really good influence obtains.

The church in order to win young men must hold out some attraction in the way of athletics. It would be well to establish a gymnasium in connection with the church clubs in Toronto and other places where this has been experimented with wonderful success has resulted. The young men engage in games and gymnastics, with the result that they are stronger, physically, mentally and morally, and wherever the minister has participated that success has been greater, and the good influence resultant has been intensified in no small measure."

SCHOOL SALARIES

In the annual report of the Education Department for 1906, just out, Hon. Dr. Pyne records his gratification for the interest and enthusiasm evinced both inside and outside of the Legislature by the recent educational reforms.

The minister states that the efforts now being made to reconstruct the educational affairs of Ontario should be regarded as only the beginning of a movement to raise the standard of efficiency, for there remains much to be done, and further advances will depend in no slight measure upon the co-operation afforded by the people of the province."

Concerning the needs of rural schools the minister said; "The object sought by the legislation of last session should be regarded as a principle from which a backward step must not be taken."

In dealing with the work of the Commission on School Text Books, the Minister states that "action consistent with the information gained will be taken with a view to relieving the parent of unnecessarily high prices for text books, and with the aim of providing better books."

The Minister also states that "it may be necessary to treat the educational problem in all our newer districts on lines somewhat different from those found to be suitably adapted to older Ontario."

Some interesting statistical information is given.

The report shows that in 1905 there were in Ontario 5,798 Public schools, 428 Separate schools, 140 High schools and Collegiate Institutes. The pupils number respectively 397,170, 49,324 and 28,664. The expenditures were; On Public schools $5,524,102, on Separate $637,134, on High $1,004,498, making a total of $7,165,734. The total number of teachers was 10,338. A tendency toward increased salaries in rural districts is noted, the average for male teachers increasing from $385 in 1904 to $402 in 1905 and for females, $294 to $311. This of course was before the legislation of last session went into effect.

Cook's Cotton Root Compound.

Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

PEN POINTS

St. Patrick's Day is drawing nigh.

There is one class in the community that strongly favors the proposed tax on bachelors. If you do not believe it ask the issuers of marriage licenses.

The sale of Sunday newspapers has been stopped in Toronto, the good. Probably the residents of the Queen City will now do more Bible reading.

There is a battle royal being waged throughout Manitoba, but it is confidently expected, according to the latest advices that the Roblin Government will be returned to power today.

The man who walks into a newspaper office and demands that some legitimate item of news be suppressed, is generally the one who, when he returns home, will complain longest and loudest about there being no news in the paper. The daily press runs across such specimens of mankind every day, but there is no accounting for the eccentricities of human nature.

The Montreal school horror should cause all persons entrusted with the safety of school buildings to ask themselves whether they have done their full duty in the matter of fire escapes and the proper housing of the pupils for whose lives they are responsible. It is wisdom to move in these matters before a catastrophe comes, not afterwards.—Lindsay Post.

According to the London Tailor and Cutter there is a probability of fashionable England adopting the kilt! The Daily Graphic in contemplating such a sartorial revolution as the Sassenach in kilts mildly remarks that they are draughty garments for the month of February and March, but, perhaps, the idea is that they shall only be worn in the weather in which, as Mark Twain once said, the human skin is the most comfortable of all costumes." While it thinks they are "a step in the direction of the ideal," it laments that they give little scope for the cutter.

How do you like hotels as a permanent place of residence, New York City has more vast and rich hotels than any city in the world. The great ones number two hundred and seventy-six and there are about one thousand smaller ones. The magnificence of the great ones would dazzle a stranger's eye with their marble stairs and entrances, brass banisters, gold wash nobs, and superb furnishings. It costs $125 a day for a special room at the St. Regis. The lookout of the top window of one of these hotels would almost make one dizzy; yet thousands of families live the year around in these places. It is estimated that one-eighth of New Yorkers live in hotels or apartment houses. The Americans seem to dislike house-keeping.

The lack of small houses in Peterborough is commencing to be a serious matter. It is stated that at the present time there are several married men working in the shops who cannot bring their families here because of their inability to secure residences. Toronto and Hamilton are in the same kind of fix and are seeking for a solution of the trouble. What Peterborough needs is a lot of smaller houses of from four to five rooms, which would rent at a reasonable figure. No man can afford to pay more rent per month than he earns in a week, yet many of the existing houses cause that drain. There needs to be some action with reference to this subject, and it is one which should be taken up at once in order to commence construction in the spring. The manufacturers are interested as well as the men. For a man likes to have his folk around him; and the entire community is also concerned for lack of residences of the class named is a hindrance to the full showing of the development which the city is making. The subject is one which might well be taken up by the Board of Trade, and there should be little difficulty in interesting capital on behalf of the proper remedy.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

TO BREAK UP A COLD

An eminent authority on lung trouble who effected many remarkable cures in his camp for consumptives in the pine woods of Maine, advises the use of the following formula: Virgin Oil of Pine (Pure), one-half ounce; Glycerne, two ounces; good Whisky, one-half pint. Shake well and take in teaspoonful doses every four hours. It will break up a cold in twenty-four hours and cure any cough that is curable. The ingredients are not expensive and can be secured from any good prescription druggist, but great care should be exercised to have them pure, as there are many adulterated imitations of pine product which create nausea and never effect the desired results.

Virgin Oil of Pine (Pure) is put up in half-ounce vials for druggists to dispense in filling prescriptions. Each vial is securely sealed in a round wooden case with engraved wrapper, with the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ontario—plainly printed thereon. To avoid substitution, it is best that the ingredients be purchased separately and the mixture prepared at home.

Annual Outing of Grove School

Lakefield Boys Had Fine Time—Peterboro' Talent at Local Entertainments

Lakefield, March 6.—Mr. W. Graham of R. Graham & Son, is in Toronto this week, purchasing spring goods for his firm.

Miss Call who has been away on a visit returns to Lakefield this week, to resume her position as head of R. Graham & Son's millinery department.

Mr. Badgeley of Montreal, spent the week end at the Grove, as guest of Mr. and Mrs. MacKenzie.

Rev. J. C. Davidson of Peterborough is to be the preacher at St. John's church next Friday evening, at the usual Lenten service.

The recent unexpected spell of cold weather, caused trouble in many Lakefield homes. Every day one heard of gas tanks, water tanks, and water pipes freezing. It was a reg[illegible]

The annual sleighing outing of the Grove school boys, which took place on Friday last was a highly enjoyable affair. Two sleighs loaded with humanity and provisions took their way to Mr. Stewart's Woods, near Young's Point, where on arrival fires were made and holes dug in the snow for resting places for dinner. Mr. MacKenzie assisted by two or three ladies made an excellent chef, and it was not long before an appetizing repast was prepared for the consumption of the party. Needless to say it was thoroughly enjoyed by everyone. After dinner the ride was resumed, the party returning home by going through Young's Point and past the House of Refuge. Mr. and Mrs. Stewart's hospitality to the older members was keenly appreciated and deserves grateful mention.

The doings of that pest of rustic neighborhoods, the dog-poisoner, are very much in evidence around Lakefield at present. If the miscreant or miscreants were as much in evidence themselves, it would bring joy to the hearts of all who have suffered by their villainy. Last week, Mr. Harry Fitzgerald, who is the latest victim, had his pet dog poisoned. He offers a reward of $25 for the discovery of the culprit, and promises to extend to all the leniency towards him of which he is master. This promise does not extend to attempting to soothe his lacerated feelings if he is consigned to jail.

The story reaches us of a young pupil living not a hundred miles from Lakefield, who informed his brother scholars a few days since that there was somebody ill at his home. This reached the ear of the principal, who wishing to ascertain the nature of the illness in order to safeguard his flock, sent the boy home to get a definite statement of the matter. The boy soon returned with the report that his mother was sick, "but she told me to tell you, sir," he concluded, "that's its a boy and it ain't catching."

A few days ago, we noticed in your "Pen Points" notes that the waste paper basket was yawning for contributions from spring poets. This is a wise hint to the spring-struck bard. If editors W. P. B.'s would develop a taste for swallowing obituary poetry, with some gusto, the literature-loving public would be thankful.

Rev. E. A. Langfeldt of St. Luke's church, Ashburnham, preached at St. John's church, last week. Mr. Langfeldt is always a welcome visitor to Lakefield.

Mrs. Weddell of Kelowna, B. C., who has been visiting with her father, Mr. C. J. Blomfield, for the past three months, returns home on Monday next.

Mrs. H. G. Fitzgerald has been paying a week's visit to Mr. and Mrs. Alexander Fitzgerald, in Ashburnham.

Mrs. F. J. Tate paid a visit to Peterborough on Tuesday last.

The audience, which greeted Mr. R. M. Dennistoun on Monday night though small, was appreciative. His reading "Jean Valjean," an admirable synopsis of Victor Hugo's masterpiece "Les Miserables," deserved a much larger audience.

Mr. and Mrs. E. A. Tanner spent a few days in Toronto, last week, visiting friends.

Mr. Ed. Cox of Peterborough, was in Lakefield on Tuesday last.

Parents Did Not Use Boy Well

So the Ten Year Old Lad Will be Taken Care of at the Shelter

At a special sitting of the police court yesterday afternoon a Children's Aid Society case was tried before His Worship Magistrate Dumble. Mr. and Mrs. C. Schwartz, Victoria street, were charged with abusing their ten-year-old son, Frank. Mr. E. L. Goodwill, solicitor for the Children's Aid Society, appeared for the boy.

Several witnesses were heard. Inspector George Cochrane was first called. He said that the father of the boy had come to him and asked that the lad be taken to the Shelter. He was at the Shelter for a while, then the boy was given back to his parents. Last Wednesday the boy was found by Mr. Bert Tamblin. He was afraid to go home and was taken to Mr. Tamblin's, where he stayed all night. The witness said he was notified and the boy was removed to the Shelter.

Mr. Henry, of the Children's Shelter also was a witness. He said they never had a better inmate in the Shelter than Frank Schwartz. Mr. Henry said the boy complained of being abused at home and showed a mark on his head where he was struck by his mother. The lad was clothed at the Shelter.

Mr. and Mrs. R. J. Saide, who roomed at the home of Mr Schwartz testified that they had seen the boy abused on several occasions. They said they saw the mother hit him with a fork at dinner one day. They thought the boy was shamefully treated. They left there after remonstrating with the parents for the way they treated the boy.

Several neighbors testified that it was the talk around that part of the city—the way the child was treated.

Mr. and Mrs. Schwartz testified in their own defence. They denied having abused the boy. The boy was a bad one. He would stay out at nights and never would be home at his meals, and this was why they whipped him. They had no control over him. The parents wanted him sent to the Reformatory.

The magistrate decided to give the boy to the Children's Shelter, although the parents protested strongly against it. He would be [illegible] Mr. Henry said it would be a shame to send him to the reformatory for he was a good boy.

Will Meet Here In Three Years

Triennial Council of Maccabees Coming to Peterborough

The next triennial provincial convention of the Knights of the Maccabees, will be held in Peterborough in 1910.

The gathering was held this week in Brantford and was attended by over 200 Knights. Mr. John Titterson, who represented Peterborough Tent No. 69, when it came to discussing the place for next meeting presented the claims of Peterborough in such a favorable light that this city won the day against all comers.

THE MARKET REPORTS

Peterborough Market

Liverpool Grain and Produce.

Liverpool, March 6.—Wheat—Spot steady; No. 2 red western winter, 6s 2½d. Futures steady; March 6s 4⅝d, May 6s 5⅛d, July 6s 2½d.

Corn—Spot American mixed, new, quiet, 4s 5d; American mixed, old, steady, 4s 7½d. Futures firm; March 4s 4½d, May 4s 5½d.

Bacon—Long clear middles, light, quiet, 52s 6d; long clear middles, heavy, quiet, 52s.

Lard—Prime western, in tierces, dull, 48s 3d; American refined, in pails, quiet, 48s 9d.

New York Dairy Market.

New York, March 6.—Butter—Steady, unchanged; receipts, 8785. [illegible] Eggs—Firmer; receipts, 32,244 [illegible] Pennsylvania and nearby, brown and mixed, firsts to extra firsts, 18½c to 19c; western firsts, 18½c; official price, 18½c; seconds, 18c to 18½c.

CATTLE MARKETS.

Cables Steady — Cattle Continue Strong at Chicago.

Liverpool, March 6.—Liverpool and London cables are steady at 11c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9¼c to 9¾c per lb.

Montreal Live Stock.

Montreal, March 6.—Receipts were 600 cattle, 50 milch cows, 900 hogs, 200 calves, 50 sheep and lambs. The market for hogs was weaker, in spite of small supplies, and prices declined 10c to 15c per 100 lbs. The demand from dealers was fair, but packers showed no disposition to operate freely, owing to the continued discouraging advices from European sources on Canadian bacon, and trade in consequence was slow, with sales of selected lots at $7.25 to $7.40 per 100 lbs., weighed off cars. The butchers were present in large numbers, but trade in cattle was slow, and prices were lower than they were on last Wednesday's market. A few of the best cattle sold at about 5c per lb., but they were not extra; pretty good sold at 4c to 4¾c, and the common stock at 2¾c to 3¾c. Quite a number of the milch cows were rather thin in flesh, and these sold at $25 to $35 each; the other cows sold at $35 to $55 each. Calves sold at $2.50 to $8 each, or 3½c to 5c per lb. Sheep sold at 4½c to 5c, and lambs at 6½c to 7c per lb.

East Buffalo Cattle Market.

East Buffalo, March 6.—Cattle—Receipts, 300 head; slow and unchanged.

Veals—Receipts, 150 head; active and higher, $4.50 to $9.50.

Hogs—Receipts, 2800 head; fairly active and a shade higher; heavy, mixed and yorkers, $7.35 to $7.40; pigs, $7.40; roughs, $6.50 to $6.65.

Sheep and Lambs—Receipts, 3000 head; active; sheep steady; lambs 10c higher; lambs, $5 to $7.80; yearlings, $6.25 to $6.70.

New York Live Stock.

New York, March 6.—Beeves—Receipts, 1128; good to choice steers firm; medium and common slow; bulls full steady; bologna cows slow to 10c off; medium and good do. steady to strong; steers, $4.85 to $6.86; stags and oxen, $4.10 to $5.50; bulls, $3.50 to $4.35; cows, $1.65 to $4; heifers, $4.75. Liverpool and London cables quoted live cattle firm at 11½c to 13c per lb., dressed weight; refrigerator beef, 9c to 9½c per lb. Exports, 920 cattle, 1000 sheep and 6520 quarters of beef.

Calves—Receipts, 1041; veals steady; barnyard calves nominal; veals, $5 to $9.80; few tops, $9.75 to $10; culls, $4 to $4.50.

Sheep and Lambs—Receipts, 2452; sheep almost nominal; lambs firm to higher, sheep $3.50 to $5; lambs, $7 to $7.25 for common and medium; one car choice, $8.15.

Hogs—Receipts, 6022; steady feeling; whole range quoted at $7.50 to $7.75.

Chicago Live Stock.

Chicago, March 6.—Cattle—Receipts, 20,000; common to best steers, $4.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3 to $4.50; calves, $2.50 to $7.25; stockers and feeders, $2.50 to $5.

Hogs—Receipts, 25,000; market steady, but slow; choice, heavy, shipping, $6.95 to $7; light butchers', $6.92½ to $6.97½; light, mixed, $6.92½ to $6.97½; packing, $6.50 to $6.95; pigs, $5.75 to $6.95; bulk of sales, $6.90 to $6.95.

Sheep and Lambs—Receipts, 18,000; market for lambs strong to 10c higher; sheep steady, but dull; sheep, $5 to $6; lambs, $6 to $7.70.

France is not opposed to the discussion of limitation of armaments at The Hague conference.

THE PRICES HAVE NOT BEEN RAISED

Public Will Get Big 10c Worth To-night

The Brock street rink management wish to emphatically deny the rumor that the prices for tonight's big press game have been raised. While they realize that the public is getting the biggest ten cents worth ever heard of in Peterborough, the price of admission will be ten cents, which includes admission to the fast game between Best's Happy Thoughts, between seven and eight, the faster press game, between eight and nine, and for the hour's skating which will remain. The rink was opened at 5 a.m. today and several seats for the game were sold at 5.01. The crowd of the season will be on hand and no wonder.

The proceeds tonight will be handed over to the Children's Aid Society.

Cup Has Gone to Lindsay

Peterborough Curlers Defeated in Annual Match Yesterday

The Peterborough-Lindsay Cup will make its home at the club house of the Lindsay Curling Club for 1907. The silverware, which was won by Peterborough last winter, took a jaunt northward yesterday when the annual Peterborough-Lindsay match was played. The Scugog curlers won out, being twelve shots up on the round. Four Lindsay rinks came to Peterborough, and four quartettes from the local club went to Lindsay, making an eight-rink contest. The Peterborough curlers won out at home being eight shots up at the end of the match. The score at Charlotte street rink being 67—59. At Lindsay, however, the Peterborough men were not as successful, the homesters being 22 shots up, thus giving Lindsay the match by fourteen shots.

A large number were in attendance at the curling rink yesterday to witness the games, and were rewarded by seeing some splendid curling. J. D. Flavelle, the famous Lindsay skip, was drawn against Sam Ray and great interest centred in this match. The Lindsay men started out strong and at the end of the fourth end the score was 10—3 in their favor. From that on, however, the Peterborough curlers commenced to pull up and won out by 21 shots to 13. In none of the four games was the score close. Skip Knowlson of Lindsay, suffered the worst defeat, C. N. Brown's rink defeating him by 20 shots up.

The rinks and scores were as follows,—

J. H. Ferguson	R. McFee
G. Hay	Rev. J. W. Wallace
Dr. F[illegible]wood	W. E. Reesor
S. Ray,	J. D. Flavelle
Skip 21.	Skip 13.

Kenora to Play the Wanderers

Kenora, March 6th.—At a meeting of the Executive of the Thistle Hockey Club, held in the new town hall yesterday afternoon, the challenge of the Wanderers of Montreal was accepted and dates were wired.

Tuesday and Friday of next week are the choice of the Thistles.

Two games are to be played, the total number of goals to govern the championship.

The games will be played at home.

HOCKEY

THE KNOCKERS WON

The Knocker Club hockey team added another notch to their stick by defeating the Knox church senior team in a runaway game at the Brock street rink last night. Morphet, Galley and Webb, of the Knox church team failed to put in an appearance, for some reason not known, and the five that did play were somewhat outclassed. The final score was 13—1 in favor of the Knockers. Denoon and Doris were replaced by Henderson and Fred Holland in the second half. Leo Derocher refereed in his usual satisfactory manner.

The teams lined up as follows;

	Goal	
Killingbeck		Allen
	Point.	
Hamilton		Denoon and Henderson
	Left Wing.	
Moore		Hillier and Holland
	Centre	
White		Doris and Hillier
	Rover	
Stewart		Bartley

Killingbeck played a good game for the Presbyterians, while the knockers played their usual game throughout.

Arnprior Team Was Not Up To Their Advance Notices

Locals Walloped Them 13—3 and Could Have Made it Worse—Visitors Were Weak in Every Department.

The occasional scoring of goals was the only feature of last night's game between the Arnprior team, champions of the Upper Ottawa League, and the Peterborough septette. The score was 13—3 with the Easterners at the short end. The visitors made a disappointing showing, and after the first few minutes were never seriously in the game. The locals outskated and outplayed them in all departments, and scored almost at will. The home team was in fine shape, and played with fine dash and stamina. Every one of them was in good shape and ran through the Upper Ottawa players with comparative ease. The visitors were slow on their feet and with their sticks, and as for any knowledge of combination they might have had they apparently left behind them, when they hit the trail from Arnprior. It seems strange that a team of the calibre of last night's visitors should win the championship of a league like the Upper Ottawa, one where good hockey is reputed to be played. Foley, in goal, played a good game for the visitors, and certainly had a busy night. The puck came at him from all angles and at all times, but he managed to turn aside a good number of them. The Easterners were also strong on the wings, and the men in these positions, Ratter and Beattie, made many fine dashes and against a team with a weak defence, would have been decidedly dangerous. Ratter played with the Canadian Soo in International League company last winter, but he does not come up to the standard of the senior men in Ontario. Milne, at cover, had a great shot, but he was slow in his movements, and did not get much chance to do anything. The other players were not up to the average of the local City League men The visitors had plenty of weight and should have made a much better showing.

The home team took things easy once they had taken their opponents' measure, and never had to let themselves out. Miller, Moore and Par[illegible] ing and zig-zagged through the visiting team time and again. Miller was perhaps the best of the trio and was exceedingly effective in netting the puck. The fair-haired boy has shown wonderful improvement since being placed at rover, and next year should be one best in the business. Graham also did good work and worked in well with the forwards. Glover and Crowley had a great night of it, and in addition to crushing the hopes of the Arnprior forwards, rushed repeatedly tearing through the eastern team with ease. Lang was called on to stop a number of hot shots, and picked them off in great style. He displayed fine headwork in critical portions last night.

The game was never very fast and the losers kind of lost heart after the score had been piled up against them, and devoted their attention to keeping down the tally. There was practically no rough play, although there was some good, stiff checking.

The crowd, which numbered about 400 people, extracted a good deal of amusement from the work of the referee, Parnell McGonigal, of Arnprior. He was apparently somewhat out of practice at the job, and, while eager to catch every off-side, was slow in ringing the bell. He did not have much to do in the penalty line, and one time caused considerable amusement by putting Graham and Foley, the Arnprior goal tender, off for a minute each for tapping each other's sticks during an off-side near the visitors' goal.

The half time score was 6—0. Peterborough got seven in the second half and the visitors three.

The teams and summary follow;—

	Goal	
Foley		Lang
	Point	
Combs		Glover
	Cover	
Milne		Crowley
	Rover	
Jones		Miller
	Centre	
McMillan		Parnell
	Right Wing	
Ratter		Graham
	Left Wing.	
Beattie		Moore

Referee—P. McGonigal, of Arnprior.

SUMMARY.

1—Peterborough—Parnell.
2—Peterborough—Moore.
3—Peterborough—Parnell
4—Peterborough—Graham.
5—Peterborough—Parnell.
6—Peterborough—Crowley.

HALF TIME.

7—Peterborough—Moore.
8—Peterborough—Parnell
9—Arnprior—Ratter.
10—Peterborough—Miller.
12—Peterborough—Miller.
13—Arnprior—Beattie.
14—Arnprior—Jones.
15—Peterborough—Miller.
16—Peterborough—Miller.

PENALTIES.

The penalties were;—Moore, Graham, Foley and Crowley, one each.

The first half was played under eastern rules, which do not permit skating a man on side. The second period was governed by the Ontario [illegible]

NOTES.

Arnprior wore a uniform similar to that of the home team, except that a white band encircled their sweaters.

The local management should endeavor to arrange a game with one of Ottawa's fast teams. The match would draw a big crowd.

The crowd was curious as to how the Peterborough team would line up. There were no surprises, however.

The local players who played against Arnprior are not professionals. The visitors were an amateur team

---

Harry Morgan was not feeling well, and as a result was not in the game. But the score was large enough as it was.

The spectators rather enjoyed the game. At times it was fairly interesting to look at.

Great Press Game Will Be Surely Put on To-night

Bring on your bluff,
And skiddoo to him,
Who first cries hold, enough.
—Shakespeare.

The great today has arrived at last. Each tick of the clock brings the hour of the Review-Examiner hockey match nearer to hand, and with the approach of the momentous struggle the excitement increases. Tonight at Brock-st. rink between eight and nine o'clock, fourteen of the greatest hockey players that ever saw the glitter of ice will meet in combat fierce and will perform feats the memory of which will be handed down to posterity and to generations yet unborn shall serve as an incentive to emulation.

The programme at Brock street rink is a stupendous one and everyone with ten cents and a sense of the ridiculous should not fail to attend To see the Examiner misfits perform will be worth a year's subscription to the Review. For them to try and play hockey is about equivalent to driving a square plug in a round hole.

Best's "Happy Thought's" play Ackerman's "Leather Eaters" On the Happy Thoughts' line-up will be such notables as E. M. and Razor Best, and "Thistle Down" Myers while Dobbin and several other heavyweights will perform for the "Leather Eaters." Then comes the big press game which will last until nine o'clock if Hutchison and his braves do not become winded. But as they have always been strong in this department they should be able to last the hour. There will be skating between nine and ten o'clock. Ten cents admission covers the two games and the skating and the proceeds go to the Children's Aid Society.

George Lynch will handle the bell and has been warned to keep his eye on Hutchison and Clarke, the two men who are likely to cut up.

The Review team will be picked at the rink at 7.30 by Manager Begley, from the following players; C. Wilson, R. Pearson, H. Burridge, H. Gray, G. Butcher, A. C. Herridge, L. Gilgour, A. Frank, R. Brown, "Capt" Hounsell, C. Burns, John Cook, Alphonse Corrigan, "Sammy" Jamieson, D. Kane, "Davy" Moore, J. J. Thompson, W. H. Handley, H. Handley, P. Crane and D. B. MacRae.

A whirlwind of a team can be picked from the above and they should be about able to take the Examiner outfit's measure.

In order that the public may be able to recognize the Examiner players we print the following points about them;

Craig in goal, is short, straight as an arrow and has fair hair.

Clarke, at point, is the light man of the team. He weighs 98 pounds and is grace personified.

Hutchison, the cover point, is 19 years of age, clean shaven and 4 feet 2 inches in height.

Theobald, the rover, is dark complexioned, has long curly dark hair and is likely to appear in a mask.

Huston, at left wing, stands six feet two inches in his stocking feet and is not built in proportion. A couple of his lady friends will lead him on to the ice.

Henry at centre, is short and stalky, standing 6 feet, 2 inches, and weighs 178 pounds.

Robinson, right wing, is a counterpart of Henry and equally slow. He wears a full beard.

THE BEST STORE FOR MEN IN PETERBORO'

This is no idle boast sir! Every single article will be of the best CHARACTER and QUALITY.

There'll be no store like it for Men's Furnishings. Up-to-date in everything and in every way.

HOCKEY

VARSITY WON.

Varsity defeated Argonauts in a city championship game at Mutual street rink last night, 19—4. The students had it all their own way.

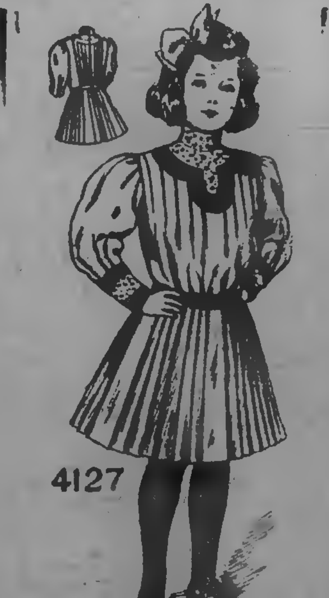
EASY FOR WANDERERS.

Wanderers defeated Shamrocks last night in Montreal, 16—5.

ARNPRIOR ALL RIGHT.

Peterborough made enquiries at O. H. A. headquarters about Arnprior's standing before taking on the Ottawa Valley team. Arnprior appears to be pretty nearly right for a hockey team in that neighborhood, though in bad company from the viewpoint of amateur sport. The difficulty about touring teams of this kind is that they may run in any kinds of players, and the home team has to take its own chance of protecting itself in such cases.

Latest Dean Patterns



4127

4127.—A CHARMING LITTLE PLEATED GOWN.

Some pretty new models in frocks for little maids are pleated in waist and skirt and the gown shown is a pleasing example. Yokes are always becoming and youthful and are much used in frocks for girls. The yoke in this gown is unusually attractive and improved by the dark trimming band which outlines it. The sleeves in all of the new dresses are long or below the elbow and these may be either. The waist and skirt which are joined at the waist line are fully pleated and very graceful. The fulness of the sleeve is also retained at the elbow in tiny pleats. For developing this model, cashmere, henriettas, pongee or another seasonable fabric might be used. The medium size calls for 3 1-4 yards 44 inches wide.

4127.—Sizes, 6 to 14 years.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

NOTES OF THE DAY

Dr. Charles Wagner was called to the witness stand at the resumption of the Thaw trial in New York today.

Thomas Foley of the widely known contracting firm of Foley Bros. and Larsen, is dead at St. Paul, Minn. He was sixty-five years old, and was born in Lanark county.

Two cases of smallpox have been found at the Imperial hotel, Brantford, and removed to the Isolation hospital The other inmates of the hotel have been placed under quarantine.

A railway car ran off the track at Fergus and tore the siding out of a house. Mrs. Fischer, who was sitting in the house, was caught between the car and the wall, and had her ankle broken.

General Booth, the aged leader of the Salvation Army, arrived in New York today. He will spend two days as the guest of his daughter, Commander Eva Booth, and then will leave for Canada.

FACTS Just Plain, Pointed Facts

Former Peterboro' Man Was Elected

In Conservative Interest in Avondale, Manitoba

Among the successful candidates in the Conservative interest, in the Manitoba election yesterday, was Mr. James Argue, who was chosen as the representative of Avondale. Mr. Argue is a former Peterborough man. He managed a farm for the late George Hilliard, ex-M.P., in Douro, and later a farm for Mr. D. W. Dumble in that township. In 1881 he left for the west in company with Mr. Frank Dumble and they conducted a large farm together for some years. Mr. Argue has retired and now lives near Elgin. He is wealthy and honored by all who know him. The newly-elect M. P.P. for Avondale, is Grand Master of the Orange Order in Manitoba.

Mr. J. H. Howden, who was elected in the Conservative interest at Beautiful Plains, is also well known in this city, although he has no relatives here.

Passengers for Great Britain

And Europe Should Book Now and be Sure of Accommodation.

The public are herewith reminded that now is the time to book passengers to either Great Britain or Europe, via the Allan Line, Dominion Line, or C.P.R. Atlantic Steamship line. The ocean traffic promises to be very heavy during the coming summer and accomodation should be booked ahead.

Englishmen, Irishmen and Scotchmen, you are all as welcome to this fair Canada of ours as the flowers in May, and don't forget when you send for your family or your best girl, purchase a prepaid ticket from W. McIlroy, City Passenger Agent, C.P.R, 343 George street, Peterborough.

GROCERIES CHEAP

China Hall is selling off the stock of groceries bought from Mr. Rountree at cost price, to make room for China Hall proper. As we wish to have China Hall in full blast by the first of May we are making short work of the groceries. We are giving great bargains in crockery, china and silverware at the same time. China Hall Co.

BURLEIGH FALLS POWER

Engineers Will Visit the Spot Next Week and Report at Once.

Mr J. A. Culverwell, managing-director of the Northumberland-Durham Power Company, has sent the following message to Mayor McWilliams from Kingston — "Urgent, important business detained me at lake front. Engineers and I will go to Burleigh Falls next week, and afterwards make tender."

AMUSEMENTS

SEARGEANT KITTY.

The representative of Sergt. Kitty (a military opera, is in the city today arranging for the appearance of his company here. With Sergeant Kitty, is Miss Helen Byron, as leading lady. This company is exactly the same which opened the Walker opera House in Winnipeg on Christmas day. The Walker opera house is one of the handsomest places of amusement in America and Sergeant Kitty made a great hit. The company appears here on Thursday night.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington Tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Mrs. Mary Dimmick

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

Dear Mrs. Pinkham:—

"I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D.C.

Her second letter:

Dear Mrs. Pinkham:—

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick 59th and East Capitol Sts., Washington, D.C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life.

Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

ARMIES CANNOT UNITE.

Ballington Booth Declares General's Force Is Autocratic.

New York, March 8.—Ballington Booth, head of the Volunteers of America, declares that there can be no amalgamation of the volunteers and the Salvation Army in America as long as he lives, and that he has not heard of the arrival of General Booth, his father, in this country until he read of it in the newspapers.

It had been reported that General William Booth, as head of the Salvation Army, would try to bring about a union between the older organization and the volunteers through his son, but the latter declared the principles upon which the two organizations were founded are so different that a union is impossible.

He said the heads of the Salvation Army are autocrats, and the leaders of the Volunteers of America democratic.

Saskatchewan's University.

Regina, Sask., March 8.—The University act, introduced by the Provincial Government for the purpose of establishing and incorporating a university, which has received its first reading, establishes a body politic and corporate consisting of a chancellor, a convocation, senate, board of governors and council.

Is to have equal power and authority—to give such instruction and teaching as may be determined by the senate and to examine candidates for degrees and for certificates of honor and to grant degrees after examination in the manner provided in the act.

No religious tests will be required of either professors or students, though the right is given to any affiliated college to make such provisions in regard to religious instructions and worship for its own students as it may deem proper.

The maintenance of the university is to be provided out of the general revenues of the province, and by a percentage of the net receipts of the province for the current year under the succession duties ordinance and out of the fund collected by the Supplementary Act.

The real and personal property of the university is to be exempted from taxation.

Contest In Carleton.

Ottawa, March 8.—William H. Harten, Independent Conservative of Twin Elms, announces himself in the field to contest against R. H. McElroy, the seat in Ontario Legislature, vacated by the death of G. N. Kidd.

Alberta Surplus $418,388.

Edmonton, Alta., March 8.—Premier Rutherford laid the public accounts on the table last night. They show a total of $1,803,311.65, of which $412,398.06 is surplus. The surplus last year was $473,252.64.

Fugitive Banker Found.

San Francisco, March 8.—Pinkerton detectives have located W. F. Walker of Connecticut in this city. He is wanted on the charge of embezzling $565,000 from the savings bank of New Britain.

FOR OVER SIXTY YEARS

An old and well tried remedy.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

King Edward started for Biarritz today, by special train from Paris.

Mr. Roblin Sweeps Manitoba; Great Conservative Victory

Winnipeg, March 8.—After a keen struggle the returns in the elections held yesterday resulted in the return of the Conservatives by 27 to 10 with two seats doubtful.

Elections are to be held in Gimlie and Gilbert Plains later, the date not yet being announced. These are sure to go to the Government.

It is a great victory for Mr. Roblin who made his present appeal for support on the boundary question. The party was well organized. The chief cry of the Opposition was the "time for a change" argument, coupled with some "moral reform" issues.

Polling took place in 29 constituencies, and of these the Government carried 25 and the Liberals 12 with 4 in doubt. These were both Government seats at the last election.

Following are the results:

Conservatives—	Total	25
	Gains	5
	Losses	9
Liberals	Total	12
Liberals—		
	Gains	9
	Losses	5

Doubtful.

Dauphin—Harvey (Con.), Campbell (Lib.).

Gladstone—Wilson (Con.), Armstrong (Lib.).

In the last Legislature both were Conservative.

Quebec Bye-Elections.

Montreal, March 8.—Bye-elections took place yesterday in two counties in this province. In L'Assumption, left vacant by the death of Charlemagne Laurier, M.P., Dr. R. Lanner, Liberal, was returned, defeating Elis Lemere by 250.

In Richelieu, where the vacancy was caused by the elevation of Mr. Bruneau, M.P., to the bench, Lanctot, straight Liberal candidate, was elected over Bondeau, Independent Liberal, by 1,885 majority. The Conservatives did not put up a fight in the last named constituency.

Mrs. Perkins Was Committed; Jury Will Decide Her Case

Sent to Assizes on Charge of Poisoning.

Medical Evidence Shows Man Was Killed With Strychnine — Evidence as to Thomas Macdonald's Relations With Prisoner—Brother Admits Prejudice Against Mrs. Perkins About Will.

Cayuga, March 8.—That the death of Henry Perkins was due to strychnine poisoning, was evident from the medical testimony given when the preliminary examination of Mrs. Perkins, accused of the murder of her husband, was resumed yesterday morning. Important testimony was given by Dr. Kerr, of Dunnville, who was the family physician. He said that Mrs. Perkins was adverse to having any postmortem or an inquest, and that either she or her sister, Mrs. Romaine Heaslip wanted him to call upon Crown Attorney Murphy and see if such a procedure could not be avoided. He believed it natural for a family to express a wish that no autopsy should be held.

Dr. Kerr had given a certificate of death being due to stomach trouble, but in view of the reports of the doctors and Professor Ellis, he was now satisfied that Perkins had died from strychnine poisoning. He believed that Perkins must have taken the poison at some time between Monday morning and Tuesday morning, Christmas Day, when he died.

Two other medical men, Doctors Bauer and Edgar of Hamilton, both testified that in their opinion the death of Perkins was due to strychnine poisoning.

Prisoner Is Self Possessed.

At 2 o'clock the courtroom was densely packed, fully 200 more than Wednesday. Yesterday the women overcame all restraint and sat perched up above the magisterial desk.

The prisoner came in with her sister, and appeared to be more self possessed than in the morning.

Miss May Moody of Canfield was the first witness after lunch. Miss Moody keeps a store at Canfield and was well acquainted with the prisoner. She had talked with Mrs. Perkins about the state of her husband's health. She had stated that her husband was very poorly, and it was only a matter of a few months.

Cross-examined, witness stated that she believed Mrs. Perkins at the time, and that she knew that Perkins had been ill for several years. She had heard that his father had died a horrible death from cancer of the stomach.

It had been generally understood that Perkins was a sick man.

No Intention to Kill.

"You did not think from what she said that she intended to kill her husband?" asked the lawyre.

"Oh no."

C. C. Hall, a Welland contractor and Ralph Gadsby, a carpenter, from Welland, had worked with Perkins for some time previous to and on the day he left home. They did not consider Perkins a sick man.

Mrs. Viola Spencer, wife of William Spencer of Welland, who boarded Henry Perkins for a couple of months before he died, stated that Perkins was not sick a day during that time.

To Mr. Johnston, Mrs. Spencer said that she knew nothing of the man's condition. He never complained. Witness did not know Perkins took medicine, nor that he had been doctoring.

Perkins Enjoyed Good Health.

William Spencer of Welland, husband of the last witness, and Arthur Headley, a farmer near Canfield, also gave evidence to the effect that Perkins enjoyed good health generally while working with them.

The Brother's Evidence.

John Perkins of Winnipeg caused quite a stir when he was called to the witness stand. A man of 35 years of age, he was a younger brother of the late Henry Perkins.

He returned to Cayuga on Feb. 3, 1906, and saw the prisoner on Feb. 6. There was something about the will spoken of.

"She said," continued the witness, "that as Henry left no will she hoped there would be an amicable settlement. I said I did not come here for that. I came here to see who poisoned my brother and I hoped she would help me. I asked her if she thought Henry committed suicide, and she said No! Henry would not do such a thing. If he got strychnine, she said, it was Dr. Kerr that gave it to him."

Mr. Johnston took the witness, who admitted that he had been on pretty good terms and had written four or five times to Henry at the time of his father's death.

"You took a general interest in the will and objected to Henry getting all the property."

"I did not."

"Will you swear that you didn't?"

"I did not write to Henry."

"Did you object?"

"I believe I did." (Laughter.)

"Was there feeling between you and Henry over the wife?"

"Yes. There was hard feeling between the family and Mrs. Perkins after the death."

Hunting Up Evidence.

"You have been trying to hunt up evidence to convict Mrs. Perkins of poisoning her husband?"

"Yes."

"Did you ask her what she knew?"

"I asked her if she thought Henry committed suicide. She said if there was poison found it must have been Dr. Kerr who gave it to him."

"What else did you say?"

"I don't remember."

"Did you say that 'I am here to prove poison?'"

"No."

"Did you ask anything else?"

"Yes. I said she ought to help find out who killed him, and she said that she was accused, but that they would have to prove it, and she would spend every dollar in defending herself."

"That is just what you would say if anyone accused you?"

"Yes."

Saw Them Together.

Fred Diets, a railway section man of Canfield, boarded some weeks with Mrs. John MacDonald. He knew the prisoner well and had seen her with Thomas MacDonald, standing beside the store with their arms around each other. (Hisses.)

"Did you ever see them walking up the hall together?"

"Yes. I thought it was funny for a married woman to act that way with a young man."

To Mr. Johnston witness stated that he would go as far as he dared with a woman, even young girls about 16 or 17.

"If somebody had not been talking to you, you never would have thought anything?"

"No."

"Who first talked to you?"

"John Perkins."

"Oho! The man who had his eye generally on the property."

MacDonald Takes the Stand.

Thomas MacDonald stated that he was a hardware merchant.

"Do you know prisoner?"

"Yes."

"Did she ever speak to you or your mother about Henry's making a will?"

"She never spoke to me."

"Did she ever tell you what her rights would be if Henry died?"

"She never did. She told father, but I don't remember what she said."

Witness had often been to the prisoner's house.

He had been alone with her and stayed at her house as late as 12 o'clock at night. He had had his arms around her at times and been driving with her.

Mr. Murphy asked about a will and Mr. Johnston objected, with the words "mere gossip." Witness stated that Perkins had been sick before Mrs. Perkins had ever stated to him her expectations regarding the length of life of her husband.

Were No Immoral Relations.

To Mr. Johnston witness stated that there never was immoral relations between himself and the prisoner and that there had never been the slightest hint that if Perkins dropped off he would take his place. He contradicted Diet's story emphatically, and said that he had been pressed to say that he had improper relations with Mrs. Perkins.

Mr. Murphy asked that the prisoner be committed for trial.

Mr. Johnston jumped up. "There is not a title of evidence to connect this woman with any poison at all and, granted that he died of poison, and strychnine, there is nothing to connect the prisoner with it. I am surprised that such a thing would take place in this county, and I mean what I say."

"We have considered the matter," said Magistrate Harrison, without looking at Magistrate Cline, his colleague, "and we will send her for trial."

AMONG HIS OWN PEOPLE.

Body of Dr. Oronhyatekha Taken to Deseronto For Burial.

Deseronto, March 8.—The body of Oronhyatekha arrived at Deseronto at 2.30 yesterday afternoon. The special train stopped at Napanee, where a large number of people boarded the train and saw the casket and flowers.

A large crowd awaited the detraining of the casket and a party of Indians followed the cortege five miles to the "Pines."

Sixty persons traveled on the special train, including four nephews of Oronhyatekha, Chief Hiawatha of the Cayugas and three other Indians from the Six Nations reserve. All the executive were on board, also Dr. and Mrs. Acland Oronhyatekha and Mrs. Percy Johnston.

It is said by the Indians that Oronhyatekha's brother is dangerously ill on the Grand River reserve.

RUSSIA'S EMPRESS IN ENGLAND.

Precautions to Protect Her Majesty From Anarchists.

London, March 8.—The Dowager Empress of Russia, arrived here yesterday morning and was greeted at the railroad station by her sister, Queen Alexandra, the Prince and Princess of Wales, and the staff of the Russian embassy.

The empress reached London half an hour earlier than the time publicly announced, and the foreign Ministers, who had not been apprised of the change, arrived at the station after the departure of the royal party.

The expediting of the empress' arrival was, it is understood, planned by the police, who have taken stringent precautions for her protection.

While the officials of Scotland Yard have little fear that the anarchists in London will jeopardize their chances of obtaining an asylum in England by any attempt on the life of the empress, they are taking no chances, and every possible avenue of attack will be guarded.

COLONIAL RECIPROCITY.

Chambers of Commerce Ask For Favorable Negotiations.

London, March 8.—At yesterday's session of the Associated Chambers of Commerce of the United Kingdom, which are holding their annual meeting here, a resolution was adopted, asking the Government to conduct negotiations at the forthcoming colonial conference with the object of promoting reciprocal trading within the British Empire.

Robert H. Roade of Belfast, ex-president of the Chamber of Commerce of that city, who moved the resolution, contended that the colonies were denied preferential treatment, and that if this was further refused they would look elsewhere for better treatment, and Canada, in particular, would seek for reciprocity with the United States, thus leading to the disintegration of the Empire.

TAX ON MINING PROFITS

Government Measure Endorsed by Members of Opposition.

Public Revenue Must Receive Share of Mineral Wealth—Studying the People's Interest—Scale of Taxation to Be Uniform—Farmers Will Not Pay For Natural Gas Consumed At Home.

Toronto, March 8.—The Government bill of Hon. Frank Cochrane, the Minister of Lands and Mines, providing for the taxation of mining profits was endorsed in the Legislature yesterday by several Liberal members. Hon. Mr. Mackay and Hon. R. Harcourt expressed their approval of the principle of the measure, and Mr. Hyslop (Huron) went so far as to eulogize and congratulate the Minister upon it.

A Just Provision.

In moving the second reading of the bill Hon. Mr. Cochrane briefly explained its leading features. The object, he said, was to obtain for the public revenue a reasonable share of the mineral wealth which has passed, or shall hereafter pass, from the general ownership of the people to the ownership of individuals.

"In every civilized country on the globe," said the Minister," the people are insisting upon their law-makers keeping steadily and persistently in view the people's right and the people's interest in dealing with the public utilities and public resources. This is particularly the case with those mineral deposits which, being the property of the Crown, or of the people, are handed over on very easy terms to the private individual.

"I trust there is nothing in the bill injurious to the mining industry of this country—an industry yet in its infancy, but rapidly taking its place among the leading factors in the prosperity of the people of Ontario. I would hesitate to press the measure did I believe its provisions to be calculated to cripple, or even hamper that industry in the smallest degree. I do not think it will have any such effect, but I am confident that the people of Ontario demand, and rightly demand, that the great prizes in the shape of enormously rich mineral lands should no longer be given away for practically nothing, but that a fair share of their value shall be obtained to assist in defraying the necessary expenses of Government, to provide the means for benefitting the mining industry itself, and to assist in developing the resources of the newer parts of the Province."

Uniform Scale of Taxation.

Hon. Mr. Cochrane proposed a change in the bill as now printed, which calls for a sliding scale of taxation, viz., the percentage of tax increases with the increase of profits. This was objectionable to the mining men and their arguments were convincing enough to lead to a change to a uniform scale. The first draft would penalize success and fine men for careful and economical management. He would, therefore, make this amendment in committee.

Answering Col. Atkinson (North Norfolk) Mr. Cochrane said it was not the intention to tax farmers who were themselves using natural gas, but only those who were trafficking in it on a commercial basis.

Mr. T. H. Preston (South Brant) protested against the tax on natural gas, which was destined to provide cheap light, heat and fuel. The Government, in his opinion, should rather bonus than tax.

Tax On Natural Gas.

Hon. J. P. Whitney, the Prime Minister, said the Government could not put an export tax on natural gas. It was on that account—and only on that account—that the Government had determined to put a tax on natural gas and rebate for that used locally.

Mr. E. Jessop (Lincoln) said that if the tax would prevent the exportation of natural gas from Ontario to the United States it was a step in the right direction. Last year over 97,000,000 cubic feet of natural gas was exported to the United States.

In reply to Mr. McCoig (West Kent) the Minister said that the Government would meet the question of meters in various ways. Mr. McCoig contended that near Chatham natural gas was forced ten miles, and that in this way there was considerable loss. He thought the meters should be placed where the gas was delivered.

No Double Taxation.

Hon. Richard Harcourt (Monk) endorsed the principle of the bill. Relative to gas there was no difficulty if the tax were on the gross output, but when one came to profits he was on illusory grounds. Mr. Harcourt wanted to know if it was fair to tax a natural gas company for revenue, and now to tax them again.

Hon. Mr. Cochrane said that the bill provided against that.

"That settles my objection then," said Mr. Harcourt. "We did not want double or triple taxation."

Messrs. Smith (Sault Ste. Marie) and Labrosse (Prescott) spoke against the bill and Hon. Mr. Mackay and Mr. Gamey (Manitoulin) in favor of it.

Mr. McDougal (Ottawa) protested against the position in which the purchasers of Cobalt Lake found themselves. They had already paid the Government more than it had received from all the other mines. Mr. Hyslop (Huron) on the contrary declared the bill a step in the right direction, and, although a Liberal, congratulated the Minister of Mines upon his courage in dealing well with a difficult subject.

The measure passed its reading without division and the House adjourned.

Ship Sights Big Iceberg.

New York, March 8.—An immense field of ice was sighted off the Newfoundland banks by the steamer Saint Cuthbert, which arrived here yesterday from Antwerp. The Saint Cuthbert steamed for 50 miles along the southeast edge of the floe.

Suffragists Will Fight.

London, March 8.—The woman suffragists, by insisting upon martyrdom are placing the authorities in an embarrassing position.

Mrs. Despard, sister of General French, and several of her fellow agitators, were released from prison yesterday after a term of confinement for participation in the recent agitation at the House of Commons.

Several of the suffragists delivered speeches in which they announced their purpose of forcing the authorities to keep them in prison by committing breaches of the peace until suffrage legislation is enacted.

Bryce Coming.

Washington, March 8.—Ambassador Bryce called upon Secretary of State Root yesterday and had a general talk about pending matters of business in which the State Department and British embassy are actually interested.

The ambassador has arranged to go to Canada next month to confer with Earl Grey, the Governor-General, concerning all questions of a diplomatic nature now at issue between the United States and Canada.

Pupils Kill Teacher.

Gotebo, Okla., March 8.—Because he attempted to whip a boy pupil, Perry Evans, teacher of a country school was assaulted yesterday by a number of male pupils and injured so that he died a few hours later.

The young men who committed the assault are under arrest.

Earring Shaped Lake.

The Pend d'Oreille lake, in Idaho, took its name from its shape, which resembles that of an earring.

Solitary Confinement.

Solitary confinement is calculated, doctors state, to produce melancholia, suicidal mania and loss of reason. Nine months of absolutely solitary confinement are almost certain to result in the mental ruin of the convict.

Solomon's Temple.

A gleaner of Biblical curios says that Solomon's famous temple was only 107 feet long, 36 feet wide and 54 feet in height.

Veronese's Big Painting.

Veronese loved to represent festive gatherings on a colossal scale. His "Marriage of Cana" is 30 feet long and 20 feet high and contains 130 figures. The most remarkable feature of the painting is the group of musicians in front around a table. Among this party Veronese represents Titian, Tintoretto, himself and other celebrated painters.

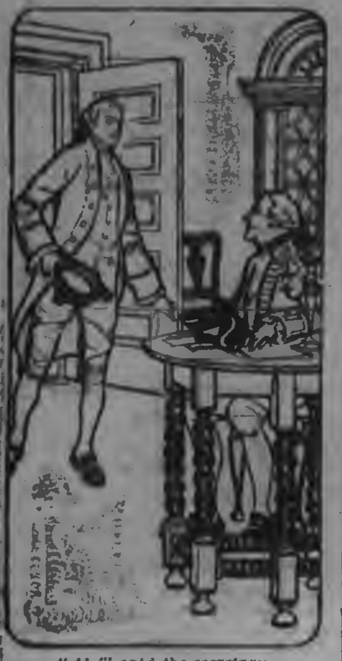
HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

"What has happened since I left, captain?" he finished.

The other got up, pulled the door to carefully and came back. "Jarrat, I wonder if I shall ever see you royal governor of this colony you love so well."



"Ah!" said the secretary.

Jarrat had risen with an exclamation.

"Sit down, man," said Foy. "'Ods fish! 'Tis a fair enough ambition. Why not? You are young, and you can do much yet for Lord Dunmore. The king rewards his servants. Demme, I like you the better for aiming high! Stranger things have happened. Methinks Mistress Tillotson would not frown so upon a royal governor, eh?"

Jarrat sat down again. It is a harrowing moment when one's most secret thought is laid bare at a slash. He waited to hear what the other might say.

"Affairs are awry here," Foy continued, "and I must overtake the governor with advices. Meanwhile there is an important matter I intend to tell you. I judge I can speak plain. You may be able to assist in a delicate undertaking, and you can rest easy Dunmore will not be ungrateful, nor will the king neither."

A keenness came into Jarrat's face. "Say on," he said.

"Very well. Here it is in a nutshell. As you perchance know, Lord Stormont in Paris has been at much pains to keep informed of the feeling in the French court. He has lately reported a growing danger. That rascally son of a tinker, Beaumarchais, whose schemes so tickled the fancy of the old king, has been buzzing about Louis XVI. to some purpose. De Vergennes, his dog of a councilor, was always itching to comfort the colonies. Well, the matter has come to a head, and France's aid is in a fair way to be pledged in the near future to the colonies. Egad, Jarrat, an the rebels' congress knew all that is in the wind at Versailles they would split themselves with joy!"

"I warrant," said the listener, noncommittal.

"Louis," pursued Foy, "is pretty well assured of affairs in the north, thanks to that renegade Franklin, but as to the Virginias he is not so certain. So he is sending over one of his noble popinjays to see for him and report. 'Twas rumored in Paris that the envoy was to be the Marquis de la Trouerie."

"I have heard of the gentleman," said Jarrat, with careful deliberation. "Another young poppet of Marie Antoinette's, and a worse republican than Beaumarchais. And you think he will report that Virginia is ripe for insurrection?"

"Think! Why, the whole colony is a seethe of it. To be sure he will. Trust the courtier to smooth the king the way he would be smoothed."

"When does the gentleman arrive?"

"A fortnight since word came hither by the Royal George that he was soon to take ship."

Jarrat smiled beneath his hand. Knowing himself so close to the governor's confidence, he could afford to be amused. Moreover, he had had more than one meeting while abroad with Lord Stormont in regard to this same matter. Foy's hangman's humor, however, made him a favorite with Lord Dunmore, and it was still worth Jarrat's while to cultivate him.

"I am flattered that you confide in me," he said. "But what will you do with him when he comes? You cannot seize his person."

"Why not?" cried Foy pettishly. "There's more to his coming than that, Jarrat. He will report 'aye' to this venture of the king. Well, Louis needs no further messenger. He will straightway make the marquis his envoy. And think you the visitor need be let deliver that message? By the fiend, no! Seize his person, eh? We shall see, Jarrat! The earl knows his muttons. Meanwhile this marquis must be watched for. We must know where to put a finger on him. The lower ports are well under espionage. But some of us must watch here at Yorktown. 'Tis what I want you to do, Jarrat. Gad's life! 'Tis too delicate a matter to intrust to any boggler."

"Again you flatter me." Jarrat had been studying Foy through half shut eyes. Now he opened them.

"Enough, captain; I accept the commission. I take it upon myself to welcome the noble sojourner should he land here. Who knows, I might even make friends with him?"

"Good!" Foy's look wore relief. "I can leave tomorrow for Winchester, then, and shall tell Lord Dunmore that I have confided in you."

"Tell his excellency," Jarrat responded as the other rose, "that I shall keep a sharp eye for the marquis. From the moment he lands I shall be his shadow. A pleasant journey, captain. Leave everything to me."

"And now," said Foy, "for a bottle of old sherry."

Jarrat went to the yard to see him go and when he had disappeared turned his eye to a narrow blank window under the shingle roof.

"Louis will send another messenger when the news reaches France! When it reaches France!" he muttered. Then more slowly, "When it reaches France!"

He stood musing a moment, turned and entered the door.

• • • • • • •

The radiant Frenchman that evening, returning to the Swan afoot through the late dusk fall, went up the tavern stair to find that the door of his chamber stood ajar. An exclamation of surprise escaped him. He mounted quickly and went in.

Jarrat sat there by the little table, waiting.

"Ah!" said the secretary. His eye darted swiftly to his chest in the corner. Then he crossed the room and tried the lid. It had not been opened.

"I am no common thief, curse it!" spat out Jarrat.

"No?" observed Armand, with a rising inflection. "Monsieur will pardon me. I did not know." He sat down composedly. "To what do I owe this pleasure?" tentatively.

Jarrat leaned elbows on the table and regarded him. "You are no fool," he said at length. "All the better."

M. Armand wore a look of polite inquiry.

"My word for it," said Jarrat suddenly, "there are richer paymasters than Louis XVI."

The other fronted him fiercely, menacingly. "What mean you?" he cried.

Jarrat laughed. "You see that I know what was the marquis' business in the colonies."

He went and closed the door.

"Now," he said, returning, "M. Armand, master secretary, clerk of a dead master, I have a proposition to make to you."

"And if," said the young foreigner slowly a half hour later, looking across into the ferret eyes—"if I do this—what you call it?—masquerade; if I, the humble secretary, the clerk, as you have said it, become changed for the purposes of my lord the earl to the courtier, the noble"—

He paused. They were sitting at ease now, and on Jarrat's face satisfaction was spread thinly, like oil. The ingratiating mood became him, and his companion's distrustful look had vanished into something that smacked more of friendliness.

"Think you not," the latter finished, "that these Virginians will know the difference?"

"'Sblood!" scoffed Jarrat. "What know they here in the desert of French nobles? No more than my lord bishop of London's scullery maid!"

An expression of curious intentness lurked in Armand's face. He was silent, searching the other with half smiling gaze.

"And the life. Like you balls and dances with the quality? You shall be sought after. Would you set the fashions for the gallants? They will jostle the lackeys to hob with you. Gad's life! The colonials are cubs at bootlicking a lord! The fat of the land, I tell you—rides, hunts, dances, wenches and a merry season!"

The secretary's eyes sparkled. "You think I would do it well?" he asked naively. "Ah, you never saw my master! He was a real nobleman. He was born so. One cannot learn it, monsieur. It is in the blood. But I? I? I have not the ton, the address?" He looked inquiringly at the other.

"Pshaw!" Jarrat said. "I suppose your master was fine enough, but fine feathers will do it. There's not one of them will scent the difference. I know them."

M. Armand's lids were drooped, his face thoughtful.

"You wish me," he reflected slowly, "to do two things. My master, as you have guessed—he was to be the eye of the king of France in the Virginias. Very good. You want me to be that eye. Only I shall see things always bad for the Whigs, eh? And you would have me write such letters as you shall frame, but in my master's hand, so Louis shall be fooled, so he shall think the Virginias loyal to the English crown, so he shall no longer plan to offer the aid of France."

"Sooth," applauded Jarrat, "it couldn't be plainer. You have written to your master's hand and should know his signature. Neither De Vergennes nor Beaumarchais need be the wiser, and be sure no one in the colonies will be."

"And if in spite of what were written him this foolish king should still wish to comfort?"

"Why, then the message he sends to his dear marquis will come safe to you, and we shall chuckle over it in our closets. But small chance of that. The king leaned upon your master. A dozen letters of the proper complexion and he will forget he ever dreamed of fleets a-sailing westward."

"You have the true finesse, M. le Capitaine," M. Armand said gravely. "Permit me to congratulate you."

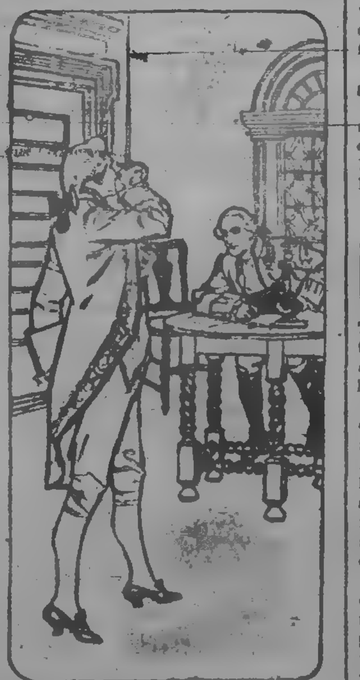
"The reward is a tidy one." Jarrat licked the words lingeringly. "'Twould take you longer to earn a commission in your own country."

"In France to be an officer in the army one must prove descent from a family ennobled for at least a hundred years."

"Nor are doubloons to be plucked from the bushes by any stool pigeon."

"It is not too much, monsieur," the Frenchman interposed, "because you pay me for what I know of my master—habits, speech, writings, seal, all. I can write so that the king of France will never know he is dead—never till I choose. He will send no other; no—not till he has found it out. But when he does, what then? Shall I escape his wrath? Shall I not be an alien, an exile from my country?"

Jarrat bent toward him and spoke smilingly in the arrogance of full blood:



"Louis Armand is gone away, monsieur," he said.

"Is there no compensation even for that? Look, you! There be bright eyes in the middle plantation—bright eyes and red lips and little waists and soft ways. There are slender fingers to be kissed, and these fingers oft hold purse strings. Love is a pretty game, and by benefit of clergy 'tis sometimes wed with broad plantations that bring golden guineas across the water."

He laughed at the look the other gave him. "Zooks!" he cried. "Why not? Think you the proudest of them all would not blush to be wooed by a noble? There are few 'my lords' in the valleys."

M. Armand sprang up, pushed the shutters of the window wide and leaned out, drawing a deep, long breath. Dark was come down over a moonless vast flooded with waves of bishop's purple, to which trees lent a deeper mystery of shadow. When he turned his face was tender, his eyes luminous.

"Virginia ladies," Jarrat continued, "are as proud as any court dames. They have the St. James sniff for the commoner. But 'tis yours to choose from them all an you use your wit."

"Mine to choose," the young foreigner said as if to himself—"mine to choose!" He looked out again into the dark, while his tempter smiled discreetly behind him. "But to win—is it always to keep, monsieur? Some time some time the truth must come to light. She whom I would win must love me. Would she love me then?" He spoke low, rather to the outer silence than to the other.

"Pooh! When a woman has once wed think you it matters whether her husband be a hero or a rogue? When the game is over the heifer is in the stall, and there's the commission to console her. Bethink, too, that the game is honored by the governor's approval. 'Tis a crown service, done at the solicitation of the royal governor. We shall presently set out for Winchester, where he lies with the troops. He shall guarantee this betimes there. What say you?" Jarrat's voice was contemptuous.

M. Armand turned from the darkness, his look suddenly changed. "Yes," he said slowly, "I will do it."

His visitor rose with a covert twist to his lips. "You have decided well," he said. "You have the assurance to succeed too! To flutter the farthingales you will need money, of course."

"Money?" the other smiled. "And me the Marquis de la Trouerie? Talk of money between gentlemen? Plenty of time for that—afterward."

"Better and better," said Jarrat, the old sneer returning now that the game was won. "It bespeaks good faith. I hope you shared your master's gold with our honest skipper, Elves. But you will need brave clothes. 'Tis not too much you look like a marquis at present."

M. Armand laid his finger on his lip laughingly. "Ah, that is my secret. Clothes!" He crossed to the chest, unlocked it with a key from his pocket, threw it open and began with rapidity to take out coats, waistcoats, short clothes—all of beautiful texture and heavy with lace.

"Clever robber!" said Jarrat admiringly under his breath. "A neat plucking of a useless cadaver!"

The secretary laughed gayly as he took out these, with a ribbon of foreign orders and a sword.

"Clothes!" said he again. "Let me see which I shall wear." He was lifting the exquisite garments. "I beg monsieur will turn his head away for one moment. Comme ça!"

He called to imaginary body servants: "Alphonse! My waistcoat! The flowered one—that is right. Now my coat. Vila! My sword belt, Pierre. So! The fairest lady in the world would be pleased with that. Now M. le Capitaine!"

Jarrat, looking around, could scarce repress a cry. The gray coated figure was no more. In its stead a vision invested in pale rose satin, with gold chain, jeweled and smiling, stood before him.

The secretary raised the sword and gave Jarrat the fencer's salute.

"Louis Armand is gone away, monsieur," he said, lifting eloquent shoulders. "Henceforth behold in me M. le Marquis de la Tronerie, noble of France, messenger of Louis XVI!"

CHAPTER VI.

ON a hazy afternoon following Jarrat's stroke of diplomacy a Berlin chaise, in lieu of the ruined chariot, bearing Mrs. Tillotson and Mistress Anne on a visit to Berkeley, drew through Ashby's Gap, along slopes spotted with clumps of lilac and goldenrod.

Francis Byrd rode beside the window, for he was to join Lord Dunmore at Winchester, whither the governor, in a burly fit of rage at his recalcitrant burgesses, had betaken himself to await the gathering of troops from the northern counties for the expedition against the restless Shawanee Indians on the Scioto river.

They had met but few travelers of quality so far to the westward—for the most part wandering petty chapmen or perhaps a Palatinate trader coming from Pennsylvania. These latter drove teams of six or eight horses wearing jingling bells, and their huge Conestoga wagons were loaded with plow irons and with salt, lead and gunpowder for the lower settlers.

At the notched summit Byrd rose in his stirrups.

"The Shennando, Anne!" he cried.

Below, where the unbroke sunshine spun its web, lay a gold valley clasped in hills. The near mountain walls stood all matted with burnished leaves of wild ivy and bloom of chamœdaphne, its white cup shapes stained with purplish red. In the wooded bottom the river shivered with the tumbling foam of steep torrents and went slipping soapily over ledges and between wild acres of mottled sycamore, of drooped willow and of birch. The sun as they rode became dull saffron gold between the overlapped wedges of crimsoning hills.

"Poor dear!" sighed Anne as an extra heavy jolt brought lamentation from her nerve racked companion. "We shall soon be there, Aunt Mildred. Winchester is just beyond the next forest."

"It's been just beyond the next forest for three hours!" moaned the lady. "The colonel really must have new springs put to the chaise. This road is barbarous!"

"There is Winchester!" Anne exclaimed joyfully. "I see the flag on the fort."

This, a great square fortification with four bastions, the stockade built by Colonel Washington before the reduction of Duquesne, was gone much to ruin. It sat on the town's edge, with generous barracks rearing above the walls and soldiery grouped before the entrance. Here Byrd left them to report his arrival, and the two ladies rode to the town ordinary.

They descended to find the long parlor thickly set with guests and passed quickly through the hall to the inn yard, waiting disposition of their luggage.

"The place is overfull, it seems," Mrs. Tillotson said to the landlord.

"Oons!" he answered. "There are a-plenty of beds, though nigh all my tankards are kept well in use. 'Tis the soldiery at the fort draws them, a good thing for the King's Arms. The Indians may go a-scalping as oft as they will."

"They are all king's men within?" asked Anne.

"Aye, a proof of my loyalty. These be times," he added, scratching his grizzle head as he went in, "when 'tis hard to choose betwixt old and new things, with the Whigs so hot. As for me, though, methinks the old will outlast my time."

"Aunt Mildred," called Anne delightedly, "look! There is my Lord Fairfax's chariot!"

It stood under the wide shed, huge and ungainly. Anne went to it and patted the dark leather and laid her young cheek against the purple cushions.

"He is here, then!" she cried. "I wonder if we could see him." Drawing Mrs. Tillotson after her, she passed to the wide low window and peered within. It was flung half open, and through it came glassy tinkles and a babble of talk.

Colonial costumes were sown through the long room, and here and there were royal uniforms flagrantly crimson. Cocked hats and greatcoats lay about on the chairs, and riding whips were scattered on the tables.

Opposite them, against the farther wall, Burnaby Rolph of Westham sat squat in his oak chair where the candles glinted on his gold lace, stirring with his dress sword a punch of Jamaica rum in a great bowl. Beside him, his arm flung carelessly back, lounged Captain Foy. Now the spirit was in his mottled, sensual face, and it seemed to cloak a devil in scarlet.

The girl shrank back instinctively and held her aunt's arm more closely. Then she turned her eyes over the assembly.

"Mistress Anne!" exclaimed a voice behind her.

"Oh," she cried, turning, "Mr. Henry! How good it is to see you!"

He took her hand and bowed to Mrs. Tillotson.

"It seems as if we had not seen you for a year," Anne continued, looking up into his sallow face and then, with a hint of approval, at his dark wig and suit of minister's gray.

He saw her glance and smiled a little quizzically. "I am being fast spoiled," he said. "I have a plenty of coats good enough for me, yet once I go to the congress I must get a new one to please the eye of other folk. I am on my way back from Philadelphia now."

"Are you lodged at the King's Arms?" asked the elder lady.

"At the Three Rams. Methinks the royal tang hereabout is a bit strong for me. I have a scent for it like a beagle for a porcupine."

"Lord Fairfax is here," said Anne, "but he has not yet seen us. We shall surprise him." She clapped her hands together softly. "I wonder how he will look. We were playing eavesdropper just now, Aunt Mildred and I, only to steal a view of him. Is it very dreadful? Come with us and look."

"I shall leave her to you, Mr. Henry," said Mrs. Tillotson. "The chests are in, so be not long, Anne. I shall wait in our chamber."

As they crossed to the window Anne stopped and looked at him questioningly.

"What of the congress?" she asked. Her voice was sharp and eager.

He shook his head a little sadly, his brows together over his deep sunk eyes. "'Tis not the time yet. The assembly is too young. They fear to take a step in the dark. It is the blind leading the blind," he said a little bitterly. "There is no open eye. Stay—there is one. He offered them a thousand men-at-arms."

"Colonel Washington!" she said under her breath.

"Aye, Colonel Washington, the best soldier in America today. The only one who sees. For the others, it is temporize, temporize, wait the king's better humor. Parson Duche, the rankest Tory of them all, opening the session with prayer.

"Why, a Philadelphia delegate named Galloway spoke for a new plan of reconciliation, with close allegiance, an American legislature and a president general appointed by the king. It came nigh to stampeding the whole convention. They see only war and the ravage of our towns—not one rood beyond that. They see not that the time and people are ripe for it. They see not that such a war cannot be fought alone—that we shall, we must have, help from Europe, that we must win.

"Oh," he said with sudden passion, his eyes burning like coals, "of such stuff is our congress made! A multitude of counselors and no leader. The sacrifice laid waiting, but no fire!"

Anne came closer to him, her fine face flashing.

"But this is not the last time," she said. "The congress will meet again. When it does Virginia should lead them. The colonies must look to us if it comes to worst. You say we have the best soldier. So shall we have the best regiments. Virginia alone of all the rest was settled by a single people. 'Tis held by gentlemen, and gentlemen fight best!" She put out her hand and laid it on his arm. "You can be the leader," she said. "You can be the fire!"

Thereafter neither spoke for a moment. From the stables a horse whinnied softly, and a gust of laughter and the sound of a falling ale pot came from the crowded parlor.

Then they moved forward and stood by the open window.

"I see Lord Fairfax," whispered Anne, "there by the door."

The old nobleman whom her smiling eyes sought out sat quietly apart, his sword across his knees, with his body servant standing behind him. His near-sighted glances, sent squinting, searched the assembly with a lurking distrust. They were king's men truly, but not gentle like those of his own time. He turned his face toward Foy as the latter, pounding the table with his sword, suddenly spoke up loudly:

Extensive Plans of General Booth

Will put People in Possession of Small Land Holdings

New York, March 5. — General William Booth, the aged leader of the Salvation Army, arrived in this city today from London, and will remain two days as the guest of his daughter, Commander Eva Booth.

The General shows remarkable vigor for a man, who on April 10th will celebrate the 78th anniversary of his birth.

"I have three great schemes on hand," he declared.

"First, I hope to complete my experiment of putting the people in possession of small land holdings, say of five or six acres, near market towns, where they can support themselves. I have one tract near Colchester, England, and have been given $500,000 for the work there.

"Next I have a great colonization scheme with Rhodesia, South Africa, as the location. We shall have a new world in the centre of South Africa.

"My third scheme is to create two institutions, one in London, and the other in New York, to teach suitable persons the proper way to deal with the vices, sins, misfortunes and miseries of mankind, generally."

OBITUARY

MRS. THOMAS WHITE.

The hand of death has again been laid upon one of Millbrook's much respected residents after some years of decline and suffering. Mrs. Thos. White, whose maiden name was Wood, was born in the township of Cavan and lived there until her removal to Millbrook with her husband and daughter some six years ago. Ever since coming to Millbrook her health had been declining and during the present winter she has gradually weakened until on Tuesday the spark of life fled.

During her residence in Cavan and also in Millbrook, deceased was highly respected by all with whom she came in contact. About four years ago, her husband, who was one of the successful farmers of Cavan, was called to his reward, and now his partner in life is placed beside him in their last resting place. Two daughters, Mrs. Geo. Fair, of Cavan, and Miss Margaret, and one son, Dr. W. E. White, of New York, are left to mourn the "call home" of a mother whom they are called upon to bid farewell to with many tears of sorrow, and to whom the sincerest sympathy is extended.

JOHN GRIERSON.

Messrs. R. J. and H. C. Winch have received word of the death of their brother-in-law, Mr. John Grierson, who passed away on February 28th, at his home in Brooklyn, N. Y. The deceased was seventy-four years of age, and was many years ago, married to Miss Sarah A. Winch, sister of the Messrs. Winch of this city. A wife and family of seven children—five boys and two girls—survive. Mr. Grierson had of late years, lived a quiet retired life, and the news of his death will be learned with regret.

MORE DEAD DOGS!

The Dog Poisoner is Still at Work—Who is He?

The dog poisoner is still continuing his rounds. Mr. Wm. Gibbs, east city, lost a valuable Newfoundland dog a day or two ago, while Mr. Andrew Moore, of Division street, also had his canine poisoned. Master Charles Pogue, 292 Division street, is mourning the death of his Scotch collie. The dog was a handsome one and was a great pet. He was the playmate of many children on the street.

Five dogs have met death by poisoning during the last few days, while as many more have had close calls. After suffering severely for some hours, they have recovered.

THURSDAY, FRIDAY AND SATURDAY

We are offering white lawn blouse waists, hemstitched, tucked and embroidered for 59c., and fine dress skirts in navy blue and black, well made and well trimmed for $1.59. These skirts were bought to sell at $3.25 and the season's very latest spring and summer coats, beautifully made in covert cloth and fine tweeds for only $6.49, and a host of other bargains too numerous to mention at the real bargain giving store. B. Y. Moyes, 408 George st.

Portion of Thumb Was Ground Off

Mr. Robert Hagerman Met With Painful Accident

Mr. Robert Hagerman, an employee of the Wm. Hamilton Manufacturing Co., while operating a steel grinder yesterday afternoon met with a painful accident. His hand was caught and his right thumb ground off. In his efforts to extricate his hand, Mr. Hagerman severely wrenched his arm. He was taken to his home at the corner of Dickson and Victoria streets, and is progressing favorably.

Large Spot is on Face of Sun

Get out Your Smoked Glasses and Have a Look at it.

Local members of the Peterborough Astronomical Society should get busy. One of the largest spots that has ever been observed is now to be seen on the face of the luminary. It is large enough to be detected with the naked eye, if precaution is taken to look through smoked glass. The dimensions of the spot are given as 118,000 miles in length and 30,000 miles in breadth. The earth could be dropped into it without materially altering its appearance. Sun spots are usually connected with unusual disturbances on the earth. Photographs of them show that they are something like vast whirlpools of flaming gas. No satisfactory cause has ever been offered for their occurrence.

Senator Cox Will Remain on Board

Of the Dominion Steel Company—Reconsiders His Decision

Senator George A. Cox, who, it was reported, had resigned as a director of the Dominion Coal Company, has reconsidered the matter, and will remain on the Board. Mr. Angus stated that the difficulties with the Dominion Steel Company would be settled outside of the courts. Overtures were being made from the steel company which tended towards a peaceful settlement. Senator Cox has been induced to remain on the Board.

HARRY ADAMS

Defence Has Closed its Case; Attorney Jerome is Indignant

Considers the Lawyers of Thaw Guilty of Professional Breach in That They Did Not Give Him Warning—Countess of Yarmouth Will be Called by Prosecution.

Special to the Review.

New York, March 8.—When court convened for the Thaw trial today Mr. Delmas announced that the defence had no more evidence to introduce. Court adjourned until Monday when Mr. Jerome will begin rebuttal. Mr. Jeromes considers Harry Thaw's lawyers are guilty of a professional breach in that they did not give him warning that they were going to close their case so abruptly. It is declared that the District Attorney will retaliate by calling the Countess of Yarmouth to the stand in rebuttal. His hope would be to prove through her that Evelyn Thaw's story of her European conversations with Stanford White's slayer was full of flaws and that the narrative was not related as she had sworn on the witness stand.

Presbytery Has Arranged Sunday School Institutes

They Will be Held at Port Hope, Peterborough and Campbellford on March 13th, 14th and 15th.

The Presbytery of Peterborough has arranged for a series of Sunday School Institutes to be held at three points in the district embraced by the territory as detailed below. One will be held in St. Andrew's church, Peterborough on Thursday, March 14th. The Institute held here will include Presbyterian Schools of Omemee, Lakevale and Mt. Pleasant, Warsaw and Dottaloe, Norwood, Lakefield and North Smith, Springville, Centreville, Keene and Westwood and St. Paul's and Knox churches.

Tea will be provided by St. Andrew's to delegates from outside points.

These Institutes should prove exceedingly helpful and no doubt will be largely attended. Those who will conduct the Institutes and the places and dates of meeting are as follows;

Rev. Alex. Macgillivray, S.S. Convener, Synod of Toronto and Kingston.

Rev. A. [illegible], Convener, Presbytery of Peterborough.

Rev. J. C. Robertson, General Secretary for Sabbath Schools.

Afternoon and evening sessions 2.30 and 8.

Port Hope, First Church, Wednesday, March 13th.

Peterborough, St. Andrew's church Thursday, March 14th.

Campbellford, St. Andrew's church Friday, March 15th.

The following subjects are recommended to the Schools, from which to select those they wish to have discussed;

I

The Supreme Aim of the Sabbath School.
The Relation of the School to the Home, and to the Church.
The Attendance of Scholars at the Services of the Church.
How to Increase the Enrollment of the School.
How to Secure Greater Regularity in Attendance.
How may we better Interest the Parents in our Work.

II

The Selection of Teachers.
The Teacher Training Course.
Teachers' Meetings.
Teaching the Regular Lesson.
Teaching Special Lessons, e. g. Temperance, Review.
A Teacher's Encouragements and Discouragements.

III

The Schoolroom.
The School in Session.
The Value of Music in the School
Grading the School.
The Primary Class and Its Improvement.
The Adult Bible Class Movement.

IV

The Place of the Bible and of Lesson Helps in S.S. Work.
The Place of Special Days, e. g., [illegible]
The Place of Missions in the S. S. Work.
The School Records and the Secretary's Work.
Giving, and the Treasurer's Work.
The Library and the Librarian's Work

V

Bible Study in the Home.
Written Home Work.
Memorization of Scripture and the Catechism.
The Supplemental Lessons.
The Cradle Roll Department.
The Home Department.

Dairy Show Will be Considered By the Council on Monday Night

Committee of the Whole Will Select a Deputation to Join With the County Council, Board of Trade and Farmers' Institute Delegates.

There will be a meeting of the Committee of the Whole Council on Monday. His Worship Mayor McWilliam's upon receiving notice of the dairymen's meeting in Toronto next Wednesday morning consulted with a number of the aldermen and then decided to call the committee of the whole together. The object of the meeting is to appoint the deputation from the city to attend the Toronto meeting and to discuss the different features of the proposed show and what the city would do towards providing accommodation should the dairymen decide to establish the fair here.

The city's committee will be a strong one and it will meet with the committees already appointed by the County Council, the Board of Trade and Farmers' Institute. They will all leave on the eight o'clock train and upon arrival in Toronto will proceed to the Iroquois hotel where the meeting will be held. Arrangements will be made for one speaker from each of the bodies represented and two from the City Council and these gentlemen will voice the claims of this city, county and district, for the dairy show. It is all expected that the dairymen will explain what accommodation they will require and give pretty full details as to the nature of the show, what it is and what it is proposed to accomplish. After that the Peterborough deputation will have a much better idea of what can be done. Nevertheless, every effort will be made to present the advantages of this city so forcibly before the dairymen that they will not hesitate a moment in deciding upon Peterborough as the location.

At the present time the city council is a little in dark as to what the dairymen will require. But it might be stated again, as it has been on several occasions in these columns, that for accommodation a large building will have to be erected at an expense of probably $25,000 or $30,000. Of course, this estimate is based upon a structure the size of the one used by the Provincial Winter Fair. A smaller building would cost much less. No objection should be raised to this, however, as the city requires a larger and better market building, and it also requires a building where conventions of all kinds could be held. This necessity is becoming greater each year as more conventions are being held here, and still more would come if there was accommodation.

Hon. J. P. Whitney to Open Fair; Decision of Society Yesterday

Rules and Regulations Revised—Membership Has Reached 200 Mark—More Active Directors Appointed—Committees Elected.

Hon. J. P. Whitney, Premier of Ontario, and leader of the best government, which ever controlled the destiny of the province, will be requested to attend the opening ceremonies of the Peterborough Industrial Exhibition, which will be held on Sept. 26, 27 and 28. The Board of Directors met yesterday afternoon, and decided unanimously to invite Mr. Whitney. A better choice of speakers could not have been made, and a more popular man with the people could not have been selected. If Hon. Mr. Whitney can possibly arrange to come to Peterborough, the directors of the fair will be assured of one big day. Realizing this the directors will leave no stone unturned in their efforts to have the premier accept their invitation.

The directors also spent considerable time in revising the rules and regulations of the Association, and as a result practically the whole constitution is changed, and all exhibitors will do well to read them over thoroughly when the prize lists have been published. It is believed by the members of the association that the new rules will give general satisfaction to both exhibitors and the society. The main feature however, will be that the rules must be observed to the letter.

Those present were,—President R. H. Leary, John Young, of Ennismore, W. B. Stewart and S. Deyell, Otonabee, J. J. Turner, Dawson Kennedy, Geo. E. Elliott, Jas. R. Bell, William Collins, city.

The following were appointed active directors under section 7 of the Agricultural and Arts Act,—H. C. Winch, H. C. Garbutt, W. E. Conway, Wm. Switzer, Jas. Baptie, and William Collins. Mayor McWilliams and Warden McNulty were added to the honorary list of members.

COMMITTEES.

The following committees of management were appointed,—

Speeding in the Ring — J. M. Brooks, H. C. Winch, Jas. Baptie.

Light Horses.—Geo. E. Elliott, W. B. Stewart and S. Deyell.

Heavy Horses—J. H. Garbutt, John Young, Wm. Switzer,

Cattle—Dawson Kennedy, S. F. Redmond, Wm. Collins.

Sheep and Swine — Robt. Vance, John Brown, H. C. Garbutt.

Poultry—Jas. Baptie, Jas. R. Bell, John Brown.

Agricultural Products (Garden vegetables and fruits) — James R. Bell, Wm. Switzer, H. C. Garbutt.

Dairy and Horticulture—G. A. Gillespie and John Young.

Fine Arts and Ladies' Work—J. J. Turner, W. E. Conway.

Domestic Manufacture — James R. Bell, Geo. E. Elliott.

Printing—W. E. Conway, J. J. Turner and the president.

Executive Committee—J. J. Turner, Geo. E. Elliott, W. B. Stewart, Dawson Kennedy, W. E. Conway, G. A. Gillespie, Jas. R. Bell, and President R. H. Leary.

NEW MEMBERS.

One of the most encouraging features connected with the exhibition this year, is the splendid success, which the membership ticket sellers are having. Mr. Dawson Kennedy has handed in another list of fifty names, while the other directors have sold twenty-three. This makes a total of one hundred and eighty-six members, whose money has been paid to the secretary, including of course, one hundred and thirteen names from the last list. There are also about thirty or forty tickets sold and not yet reported, so that at the present time there are over two hundred members and the work is just nicely started.

DIRECTORS LIST.

New members secured by the directors,—Messrs. J. E. A. Fitzgerald, Robert Vance, John Hanbidge, Bruce Savigny, T. Thorn, Robert Deyell, Herbert Deyell, Robert Jackson, George McClellan, M. T. Crowley, John Johnston, E. Deyell, J. Staples, W. Reid, N. Breckenridge, W. J. Porter, A. Shearer, J. Fife, D. Cameron, W. Sisson, J. Thorne, D. Hutchison.

DAWSON KENNEDY'S LIST.

Percy Hamilton, Peterborough; Drummond and Duffus, Porter White, R. Neill, W. J. Johnston, R. J. MacPherson, J. T. Stenson, B. T. [illegible], E. H. Clarke, S. A. Oke, Peter [illegible], [illegible] & Jury, Joseph Picard, J. D. Cunningham, G. N. Babcock, R. A. Dutton, P. Downham, W. H. Meredith, W. Might, P. Campbell, A. A. Hollingshead 3, T. C. Elliott, T. A. Rednor, Peterborough Light and Power Company 5, Dr. Geo. Burnham, S. R. Armstrong, J. J. Howden, B. R. Poole, V.S., W. H. Meldrum, F. J. R. Mitchell, A. E. Micks, W. Bradshaw, John Carnegie, John Marvin, Geo. Linton, J. H. Cobb, W. E. Stewart, A. A. Fowler, N. K. Reid, S. D. Hall, W. H. Bradburn, C. N. Brown, John Savigny.

Fire Water and Light Committee

Revising Rules of Fire Hall—Other Matters Dealt With

The Fire, Water and Light Committee met for a couple or three hours last night and got a lot of business put through. Those present were Ald. Johnston, chairman; Duncan, Morgan, Leary and Mayor McWilliams.

The first thing taken up was the fire alarm system, and in this connection the following motion was passed:—

Moved by Ald. Duncan and Leary,—That the fire alarm box at the corner of Waterford and McDonnel streets be removed to Water and McDonnel streets; the one at Benson and Murray street to Stewart and Edinburgh, and the one at George and Barnardo to George and Smith.

Moved by Ald. Duncan and Morgan,—That the committee recommend that the council pay the accident insurance for the members of the fire brigade, and that the chairman be authorized to place the insurance, and that the treasurer pay the premiums on the certificate of the chairman.—Carried.

Moved by Ald. Leary and the Mayor,—That the city solicitor prepare a by-law to compel owners of buildings, of which the third story has not more than one exit and are occupied by ten persons or more, to provide fire escapes, similar to those required for hotels.—Carried.

On motion of Ald. Leary and Morgan, the chairman was authorized to purchase a set of harness for the team of horses.

BRIGADE'S REPORT.

Report of fires from January 1st, 1906, to March 1st, 1907, from the secretary of the fire brigade, was read to the meeting. It showed the brigade had been out 51 times:

10 times to false alarms.
13 times to chimney fires.
11 times to house and outbuildings.
1 grass fire, which might have ended disastrously if not stopped.
1 Jackson Park small building.
15 times to fire in central places and places of industry.

RULES OF FIRE HALL.

Chairman Ald. Johnston is working hard upon the reconstruction of the rules and regulations governing the fire hall. He is not satisfied with the way the present hall has been looked after, and he intends to have the new hall put in charge of a first class man, who will attend to his business and look after the interests of the city. The rules and regulations are being revised by the Fire, Water and Light Committee, and at the next meeting of the Council a report on the matter will likely be ready.

CITY CLOTHING STORE

Hunter Street Will be Opened

Through to the Lift Lock—Deal With Armour Estate Has Been Settled

The city now owns the right of way straight through to the lift lock. Hunter street will be [illegible] ed this spring and before the tourist season open, all obstructions on Armour's Hill, will have been removed.

It will be of general interest to know that the negotiations between the city and the Armour estate, which were carried on last year by the Board of Works, have been closed. The deed has been transferred, the money paid over by the city, and the bylaw signed and sealed. The price paid was $400, and the sale includes sufficient property through the Armour estate to give a full width street.

The deal would have been put through last year, and the road put through for traffic had it not been for some difficulties between the owners of the land and the tenants. This, however, has been overcome, and in future if a stranger asks to be directed to the lift lock tell him to go directly east on Hunter street until he gets there, and there will be no fear of him trespassing on private property.

AMUSEMENTS

UNCLE JOSH SPRUCEBY

The attraction at the Grand Opera House last night was the pastoral play "Uncle Josh Spruceby." This production was greeted by a fair sized house. The mechanical and scenic effects were good, particularly the realistic saw mill scene showing a mill in full operation on the stage. The old fashioned "husking bee" and the ancient New England home were also good. There were many touches of pathos in the play as well as considerable fun, while the plot is interesting. The different members of the company were, however, only fair and some of them might have made more out of the stirring incidents in the play. The cast could certainly stand strengthening in several parts.

The next attraction at the Grand Opera House will be Dora Thorne, which will be presented tomorrow (Saturday) night.

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10.00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

Young Englishman Suddenly Died in Norwood Yesterday

Employee of McGregor House all Winter—Sick Only an Hour—Funeral Held This Morning—Cause of Death is Unknown—No Inquest Held.

Special to the Review.

Norwood, March 7.—Something of a sensation was caused here yesterday morning, when it was announced that Thomas Howard had died. Deceased was a young Englishman, having immigrated last summer. He had been working around the old McGregor House, all winter, and was apparently in his usual health up to the time of going to bed Wednesday. But about three o'clock Thursday mornink, he was taken suddenly ill. Dr. Pettigrew, medical health officer was called immediately, and he did all in his power, but the young man died within an hour.

Howard was not very well known and he had no friends or relatives in Canada, having come to this country alone to take a chance of making his way in life. But the suddenness of his death and the unfortunate circumstances, created considerable feeling in the town. The cause of the illness or its nature is not known, although there was not the slightest indication of self-destruction. The coroner, Dr. Gray, of Peterborough, was notified of the death, but when he learned the particulars he decided an inquest was unnecessary.

The funeral arrangements were conducted by the municipality, although the English people of the town provided a casket, and interment took place this morning at ten o'clock.

Peterboro' Team May Enter a Dominion Tournament

To be Held at Toronto to Decide the Basketball Championship of Canada on April 5th and 6th.

A Peterborough team will likely be entered in the first annual tournament to decide the basketball championship of Canada to be held in Toronto under the auspices of the C.A.A.U., on April 5th and 6th. The matter is now being discussed and a decision can be expected shortly.

At least ten teams will be entered and for the first time the winners may truthfully claim to be the unquestioned champions of the Dominion.

The scheme cannot but meet with the hearty approval of the exponents of the great indoor game. For many years there have been really three sections of basketball of local interest only, the West, Western Ontario and Eastern Canada. Occasionally a team from Toronto or Western Ontario, would make a brief trip east or an eastern team journey to the western portion of the province with most unsatisfactory results so far as affording a means of comparison. Even between Ottawa and Montreal and Kingston the respective strength of the teams is only guaged by the showing made a couple of years ago The Toronto, Hamilton, Brantford, London and Peterborough Y.M.C.A. teams have a series of home and home games every season, but no regular league. Hamilton has been strong for years. Winnipeg is an unknown quantity.

To the victors a handsome banner or trophy emblematic of the championship will be presented while sets of six gold, silver and bronze medals will be given to the individual players of teams coming first, second and third respectively.

Industries Where Steel is Used Press for Lower Tariff

The industries of the Dominion that use steel in the manufacture of their goods are making a strong fight for the reduction of duty on this material. Mr. Fielding's new tariff placed such a high duty on the importation of steel that it meant that many industries in the Dominion would suffer severely, among them the Peterborough Shovel and Tool Company. This establishment uses a large amount of steel for the manufacture of shovels and the other products turned out and the high tariff practically meant that they would be unable to compete with the firms engaged in the manufacture of similar goods in the United States.

As soon as the tariff was published the manufacturers of steel goods at once made a strong protest against the excessive duty and by the pressure brought to bear succeeded in getting a reduction made in several lines of steel. The agitation for lower rates on other lines is still being kept up and the matter is now in the hands of the Department officials at Ottawa. The officials at the local Customs House expect to receive their instructions in this conection in a few days.

It will be gratifying to the citizens of Peterborough to learn that a progressive local industry such as the Shovel and Tool Company, is not working under a handicap.

THE CITY AND VICINITY

NOTHING DOING.

There was nothing doing in the police court this morning. This has been a slow week at the mills of justice.

OLDER BOYS' BIBLE CLUB.

This club under the leadership of Mr. W. D. Morrow will hold its regular weekly meeting tonight at the Y.M.C.A. The life of Paul is being studied.

YOUNG MEN'S CLUB.

The Young Men's Club of George Street Methodist church will hold a regular meeting in their rooms tonight. A full attendance is requested, as business of importance is to be discussed.

A FINE TEAM.

Mr. McNeil, Warden of the counties, purchased at Christie's sale their fine team for the farm at the House of Refuge. It is a splendid, well matched team of mares, weighing twenty-eight hundred. The price was $410.—Millbrook Reporter.

DIED IN BELMONT.

Mrs. Albert Curtis of Belmont, passed away on Saturday afternoon, after a year's illness. The great white plague was responsible for Mrs. Curtis' early demise and the bereaved husband has the sympathy of a large circle of friends.

THE SIXTH "POP"

A most varied programme, presented by the best talent, with many new features, will be put on at the sixth Y.M.C.A. "Pop." on Saturday night. Twenty people will take part in the programme. It will be the best "Pop" of the season, without a doubt

BOY'S HALF HOUR.

At the Y.M.C.A. Boys' Weekly Half Hour Rally held in the Y. M. C. A. yesterday, Mr. E. Dingman, gave a very interesting talk on "Christian Athletics." The talk was followed by a discussion. All boys over 12 years of age, are invited to these rallies.

SECURES A LEASE.

Mr. Andrew Graham, grocer, corner of McDonnel and Aylmer streets has leased the premises at the corner of Rubidge and Townsend streets, formerly occupied by the Ontario Bank as a branch to serve the south end of the city. Mr. Graham will continue his grocery business in his present stand.

TRAIN WAS LATE

The 5.10 C.P.R. express from the east was over two hours late this morning. The train was late in leaving Montreal.

SHIPPING CATTLE.

Twenty-two head of fine young cattle were weighed on the market scales this morning and then shipped to Montreal for export.

LADIES' AUXILIARY OF Y.M.C.A.

The Ladies' Auxiliary of the Y.M.C.A., will meet at the Y.M.C.A. on Monday evening at 7.30 o'clock, to complete arrangements for the birthday party.

PROPERTY SOLD.

Dr. G. H. Burnham, of Toronto, has sold the double brick dwelling at the corner of Water and London streets at a good figure to ex-Ald. Jas. G. Graham. It is understood that Mr. Graham will make extensive improvements to the property.

WILL RESUME WORK

The Dominion Engineering & Construction Company expect to resume operations on the transformer building of the C.G.E. Co. about the middle of next week. The concrete work will be pushed rapidly to completion.

CONCERT TO-NIGHT

A number from the city will attend the concert to be given in the House of Refuge, in Lakefield, this evening. Lakefield talent will contribute the programme. The proceeds will be devoted toward purchasing an organ for the House of Refuge

READING CRICLE.

The German Reading Circle will meet next Saturday evening at the residence of Miss Marion Rush. Instead of reading German authors they will join the Saturday Reading Circle. Rev. E. A. Langfeldt will give a lecture on "Napoleon, as a Statesman and Empire Builder."

Wise Old Owl is Jordan's Horse

Messrs. Jordan Bros.' old gray horse is "a wise old owl." He also belongs to the union and will not work over-time if he can help it. This morning the old fellow was left standing in front of the green houses on Argyle avenue, while the proprietors were getting a number of orders prepared for delivery. But before the load was ready the town clock struck twelve. On the first stroke of the dinner hour "Old Billy" turned the sleigh around and striking a merry clip started for home and the oat-bin. Several corners were turned before the horse reached the barn and no damage was done. The best trick of all, however, was when the animal followed the old custom and backed the sleigh into the drive shed where it is kept and was doing his best to get the harness off when "Sammy" arrived and assisted the animal to undo the buckles.

George Walton Was Elected

Peterborough Boy Defeated Provincial Secretary in Manitoba Elections

The despatches from Manitoba state that Mr. George Walton, Liberal, defeated Dr. McFadden, Conservative, Provincial Secretary, in the election for Emmerson yesterday, by a large majority.

Mr. Walton is an old Peterborough boy, being the son of the late Joseph Walton, a prominent Conservative of Smith township. He was well known in this city, and although he left here about 25 years ago, has still many Peterborough friends who will be pleased to hear of his success, although he might have chosen some other Tory to defeat. Dr. McFadden was the only Cabinet Minister of the Roblin Government who was defeated.

Peterboro' Man is Interested

In the Maple Leaf Mining Co—One of the Richest Mines in the Province

The Soo Times says:—W. J. Kearns, formerly of the Canadian Soo was a visitor in town this week. Mr. Kearns informs us that he is in company with Messrs. J. Conmee, M.P.; W. Hamilton, president of the W. Hamilton Manufacturing company, Peterborough, Ont.; E. A. Forster, Toronto, and D. D. McDonald of this city, have been granted a patent for the Maple Leaf mine in the township of Gladstone, Ont. Samples of ore from this mine have been sent to the Provincial Government assayer at Belleville, Ont., and are found to contain 22.51 per cent. of copper with traces of gold and silver, the vein is 11 feet wide from wall to wall and the indications are that it will be one of the richest mines in Ontario. Active mining operations will be commenced in the course of the next few weeks. Mr. Kearns and his company have also secured the services of two expert prospectors to take up new locations in the vicinity of the mine. They also intend going after silver in the Cobalt district this summer.

WEDDING BELLS

CURRELLY—OUTRAM.

A pleasant event took place at the home of Mr. and Mrs. William McGibbon, Brown street, Port Hope, Wednesday afternoon, when her sister, Lillian A. Outram, youngest daughter of Mr. Fred. Outram, of Port Hope, was united in marriage to Mr. Frederic R. Currelly, of Canton, the Rev. A. M. Irwin, pastor of the Methodist church, Canton, officiating.

The bride was given away by her father, and the ceremony was performed under an artistic arch of flowers, the wedding march being played by Miss Stella Mason, Bowmanville. Miss Inez Mason, of Bowmanville, acted as bridesmaid, and Mr. Will Bickle, of Canton, supported the groom.

The bride was prettily attired in Louisana ivory silk, with trimmings of lace and applique, and carried a shower bouquet of white roses. Miss Mason, the bridesmaid, looked very pretty in a rich gown of Persian lawn, trimmed with Vallencienne lace and insertion, and carried a bouquet of white carnations. Miss Elsie McGibbon acted as flower girl, and Miss Laura Outram as ring bearer, the ring being carried in a calla lily. Both ladies are nieces of the bride and were dressed in ivory satin.

Mr. and Mrs. Currelly left on the 6.51 train for Toronto and points west and on their return will reside at the Currelly homestead, Canton.

MOTHER'S GRATITUDE TO ZAM-BUK.

IT CURED HER BOY OF PAINFUL SORES.

Nothing is more unpleasant to the eye and more painful to the sufferer than boils and ulcers. At this period of the year many adults suffer acutely from these painful outbreaks. When boils, ulcers, etc., occur on children, it is pitiful to see the little ones suffer.

Mrs. E. Holmes, of 30 Guise St., Hamilton, is grateful for what Zam-Buk did for her little boy when in this pitiful plight. She says; "I wish to express my gratitude for the benefit my child received from your famous Zam-Buk Balm. He suffered from Spring eruptions and then boils broke out in his neck. I tried blood purifying remedies, salves and ointments of all kinds, but nothing seemed to do him the desired good. The boils got worse and became so loathsome and unsightly that I could not send him to school as some of the boils and ulcers could not conveniently be covered. About this time a sample box of Zam-Buk was given to him and we tried it. The small sample did him a little good, so I bought a fifty cent box. The result was really amazing. Inside a week's time the boils had begun to dry up, and in a very short time indeed every one of them was healed."

Zam-Buk is a sure cure also for eczema, scalp sores, ring worm, poisoned wounds, chronic ulcers, chapped hands, cuts, cold sores, cracks, festering sores, eruptions and pustules due to blood poison, etc. It stops bleeding and cures piles, fistula, etc. Is antiseptic; an excellent "first aid." Every home and farmstead should have its box of Zam-Buk. All druggists and stores at 50 cents a box, or from Zam-Buk Co., Toronto, for price. 6 boxes for $2.50.

Montreal is again in trouble with its water system, through the breakdown of a 12,000,000 gallon pump.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

After the Big Game Was Over

The Players and Friends Had an Enjoyable Banquet

After the great press game last evening the players of the teams and a number of their friends gathered around the festive board at Hooper's palm gardens and enjoyed a social time.

The supper provided was up to Mine Host Hooper's usual high standard and he deserves great praise for the good spread provided on such a short notice.

After everyone had enjoyed the good things provided a short toast list was run off, Mr. M. J. Hutchison acting as toast master. The first toast to the King was honored in the usual way.

The toast to the Review hockey team was then honored and responded to by Manager Begley and others.

The toast to the "Examiner team" was proposed and replied to by several members of the team.

The toast to Mr. Jack Thirndyke, the popular caretaker of the rink, was proposed by Mr. M. J. Hutchison in very fitting terms and responded to by Mr. Thirndyke.

Other toasts drunk were "Our Guests" and "The Ladies."

New Party Will Be Organized

Local Labor Unions Have Received Important Notices

A convention has been called for the formation of an Independent Labor party for Ontario. Circulars were received by the different labor unions of Peterborough this week announcing that a convention will be held in Toronto to determine ways and means of carrying out the views held and endorsed by the Dominion Trades and Labor congress. The convention will be held on Good Friday, March 29th, in the Labor temple at Toronto, and the local unions are requested to send representatives. They will be appointed as soon as the unions meet. The trades councils, local unions and federal unions will be entitled to send delegates, and ex-delegates to the Dominion Trades and Labor Congress will also be entitled to seats at this convention.

The circular calling the convention states;—"The time was never so favorable for the advocacy of independence in political matters. Encouraged by the success of the Labor party in Great Britain, and in the recent by-election in East Hamilton and municipal elections all over the country, we feel that the time has come when the laboring class should be represented in the Legislatures and Parliament by men from their own ranks. The working people have a more immediate concern in the measures annually before the legislatures and parliament than any other class in the community, and it is believed that the presence of a large number of labor representatives in the house will make for better government, better citizenship, a higher regard for the rights of the public, more economic administration of the public finances, a readier attention to the wants of the people, and less graft. It depends upon us to make this movement a success."

The convention is called by the Dominion Trades and Labor Congress, of which the executive consists of Messrs. Walter R. Rollo, of Hamilton; J. Barnett, Toronto; Edgar Empey, Ottawa, and J. T. Marks, London.

Brotherhood of St. Andrew's Mass Meeting This Month

Mid-Lenten Service Will be Held in the Opera House—The Object and and Work of of the Brotherhood—Labors in a Quiet Way.

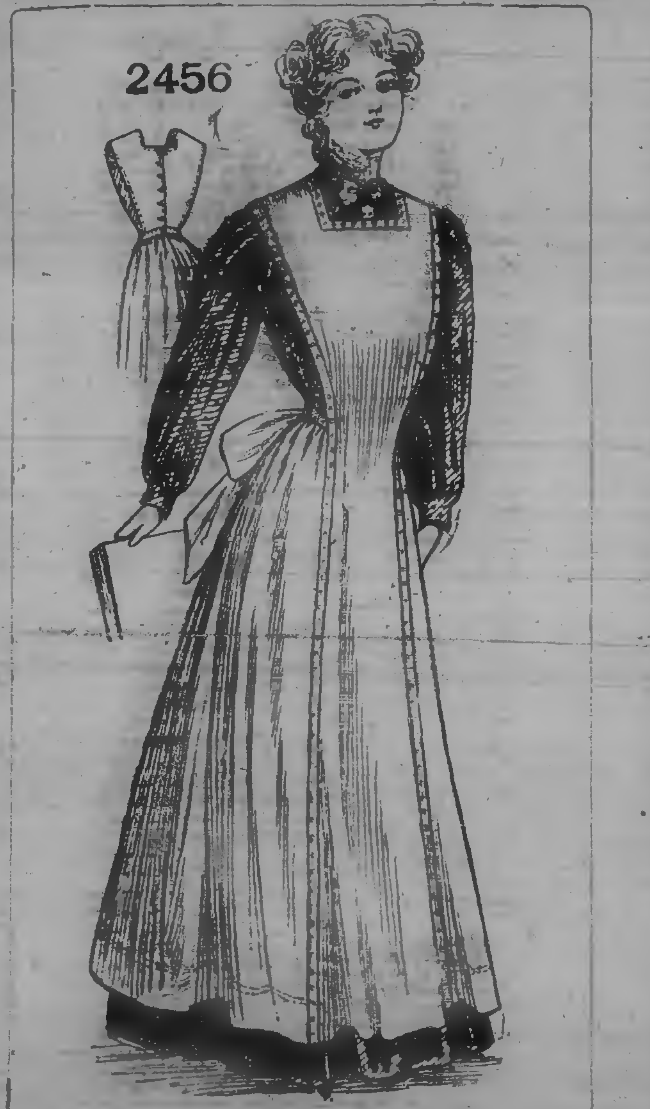
The Brotherhood of St. Andrew of this city, have been enabled to make arrangements to hold a mid-Lenten mass meeting in the opera house next Sunday, through the generosity of Mr. J. J. Turner, the proprietor. This service is one similar to those now being held throughout the United States and Canada, and are all well attended by the public, and if the citizens of Peterborough wish to know something of the work of that noble body of men whose rule of service is to spread Christ's kingdom among men they will attend. Many no doubt wonder why this worthy organization is called the Brotherhood of St. Andrew, being in connection with the Anglican Communion of the great church catholic. The history of this organization is no doubt well known to many, and it would be a waste of time and space to repeat it here in these columns. The reason why, that this body of Anglicans is called after St. Andrew is:

1st. It was organized on St. Andrew's day or evening, in the crypt of St. James church, Chicago, 1881.

2nd. They took for their example, Andrew, who when he found the Christ, went after his brother Simon, and brought him to Christ. (See John 1, 40-42.)

In many of the congested centres of population, large mass meetings are held daily during Lent at noon for 25 minutes. In Old Trinity church, New York, for years, this service has been conducted and thousands attend, principally the bankers and brokers of Wall street, to hear the word of God preached. Last year about this time Canon Davidson was away in St. Louis, taking part in just such a meeting, as is being held in New York, and other cities, and just such a one as will be held tomorrow afternoon. The opera house should be packed to the doors bright hymns will be sung and a more profitable hour could not be spent anywhere. It means a good deal of hard work by the members of the brotherhood, and it is hoped that they will be rewarded by seeing the largest audience that was ever in the opera house. If the work, which will be done there, will be of lasting good, it must be followed up afterwards and be constantly on the watch to "touch" the other fellow and take him to Christ. Let the Christian people of this city, when they kneel by their bedside tonight ask God's blessing on this gathering, and follow up that prayer by going there themselves, and taking their brother along with them. Who knows but that they may be taking a "Simon" to the Christ. The Brotherhood, if it stands for anything, it stands for much, and it behooves its members to be constant in prayer, not only once a day, but all day long, for the spread of His Kingdom among the Simons of our city. It behooves them to go out and bring their brother man to the Christ. The Brotherhood of St. Andrew have taught the men of other cities how to be religious in a manly way, and this doubtless has had the effect of bringing many Simons to the Christ. They have supplied a religious tonic to the people throughout the continent and why not in Peterborough. This organization has solved the problem, how to reach the men of our country and they are reaching the men of our land as probably no other organization. It reaches all classes. Millionaires vie with mechanics and laborers, to emulate the example of Andrew, and where, at least, engaged, in this work, they are a common brotherhood. Nothing in the world's history has done so much in a quiet way, to do the Master's work. Their work is not heralded in the columns of the newspapers. On the contrary they seek, not secretly, but a humble unostentatious way to do His will, and His service, and they have succeeded.

THE LATEST DEAN PATTERN.



AN EXCELLENT WORK APRON

An apron which is a great favorite with the housewives everywhere is sketched and will be found unusually attractive and serviceable. The ud serves to lower the fulness of the fanciful yoke appears only in front a waist portion, which is a real factor in its becomingness. A shaped cirthe skirt, which has two generous dle finishes the waist and joins it to pockets for the necessaries of the housewife. Sleeves of full length are provided so that the wearer is entirely protected from possible dirt and the whole goes on easily and launders without difficulty. Any of the apron stuffs may serve, 4 1-2 yards 30 inches wide being needed for the medium size.

6849.—7 sizes, 32 to 44 inches bust measure.

The price of this pattern is 10 cents.

Leave your order and ten cents at the REVIEW OFFICE, and pattern will be sent you by mail.

THE SEVERN RIVER OUTLET

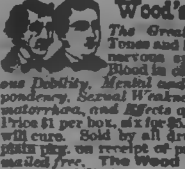
Orillia Paper Wants Hon. Mr. Emmerson to Rush Matters

The Orillia News-Letter says:—Rumors are afloat that the Dominion Government having discovered the superiority of the Severn River outlet for the Trent Valley Canal, is about to make a substantial appropriation in the supplementary estimates. It is hoped that Hon. Mr. Emmerson will rush the matter in order to retain the good opinion of him formed by his fellow-voyagers down the Severn waterway in the summer of 1906.

BORN

PLOUFFE.—On Tuesday, March the 6th, 1907, in Ottawa to Mr. and Mrs. Eugene Plouffe, a daughter.

BRACE.—On March 6th, 1907, in Victoria, B.C., to Rev. A. J. and Mrs. Brace (son of Rev. A. H. Brace Peterborough) a son.



Wood's Phosphodine,
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

LAST BRITISH HERETIC

VIEWS OF REV. R. J. CAMPBELL, OF LONDON CITY TEMPLE.

Much Discussion, Some Very Accrimonious, Has Been Created By New Theology of a Noted Preacher—Main Conclusions Reached In Recent Sermons Containing His Views of the Christian Religion.

Throughout the country much discussion is taking place regarding the views of the Christian religion that have been expressed by the Rev. R. J. Campbell, of the City Temple. These are his main conclusions, says Lloyd's London Weekly:

"To say that Jesus was born without a human father is untrue.

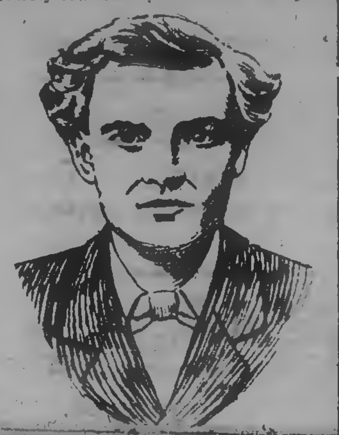
"Whatever Jesus is now, He certainly was not co-equal with God when on earth.

"We believe that the story of the Fall, in a literal sense, is untrue. It is literature, not dogma; the romance of an early age used for the ethical instruction of man.

"We reject wholly the common interpretation of the Atonement—that another is beaten for our fault.

"We do not believe in Eternal punishment. Ultimately every soul will be perfected."

Preaching to a crowded congregation at the City Temple recently, Mr. Campbell said views varied greatly as to the scope and functions of the society founded by Jesus. He was perfectly sure Jesus appointed neither bishop nor priest to carry on any mere mechanical machinery. Such a foundation was too flimsy. "In the primitive sense of the word," added the preacher, "I am a bishop. I do not say that the sacerdotal view is wholly bad, but it has wrought much harm. We want a Christian federation to take in all—even the Church of Rome—united for common action."



REV. R. J. CAMPBELL.

He did not believe in eternal damnation. Man was constituted for immortality. The true Church of Christ existed to make the world better and gladder—to make it the kingdom of God. The Labor party believed in making the world better. The spirit of brotherhood was necessary. To achieve anything men must get together—must form a society.

In an exposition of his views given at Tynemouth Congregational Church Mr. Campbell emphasized the difference between religion and theology. The starting-point of "the new theology," as it had been called, was belief in the immanence of God and the essential oneness of God with men. There was no real distinction between humanity and the Deity. Our being was the same as God's, although our consciousness of it was limited, and His was not. Every man was a potential Christ, and all that could be said about the love of Christ must be said about all the humble sons of toil. Jesus came to call us up to God. The "new theology" looked upon evil not so much as a positive, but as a negative term—a shadow where light should be.

While recognizing the value of the Bible as a unique record of religious experience, it was handled as critically as any other book. It was the slow growth of centuries, not let down by a string from Heaven. It was the religious experience articulating itself as it went along. The real seat of authority was not without, but within, the soul.

The "new theology" believed in the immortality of the soul. A ray of the universal consciousness could not be destroyed and must go back to God, but they believed there were many stages in the progress. It seemed probable we should go on ascending when we crossed to the other shore, and ultimately every soul, they believed, would reach its fore-ordained home.

It had been stated that the new theologians denied the Atonement. This was far from being the case; they merely denied the usually accepted theories of the Atonement. Every Christian sect believed in living the Christ life, but "the new theologians" went further, and believed a man's life should be like Christ's, a daily atonement. If all Christians lived this life all social problems would be solved.

At Brunswick Chapel, Newcastle, Mr. Campbell spoke on "The Atoning Will," and was received with alternate cheers and marks of dissent.

When Christ died on Calvary, the preacher said, they were sometimes still told He bore all the sins which had been committed and all that would be committed.

This was not true, and it ought not to be true, but there was a grand truth behind the sacrifice of Christ. It must be repeated in human hearts.

Magical and mechanical the work of Christ never was. The gift of Christ to the world was His perfect self-sacrificing life—the kind of life which ought to be and must be theirs. No one need wish to dethrone the Jesus who was the Christ.

Death and evil were defeated at Calvary, which proclaimed the perfect example which they sought to destroy. It was a sublime victory for truth over falsehood, for light over darkness. The spirit of Jesus the Christ was that of ideal manhood. He showed man what he could do, how he could attain to one Christhood.

To say that Jesus paid some mystical penalty for human sin was to entirely mistake the meaning of His sacrifice.

Here there was audible dissent among ministers on the platform.

The atoning work of Jesus was much misunderstood. There were vague statements about the mystery of the Cross, and some held it to be beyond explanation.

On the contrary, he believed that he could get a child to see his explanation of it. The preacher then cited, by way of illustration, an instance of rash speculation on the part of a brother, which had involved the welfare of his two sisters. By refraining from condemnation, and showing a readiness to forgive and forget, they saved their brother, body and soul. They had drawn forth his better manhood by the spirit of Christ which they had shown.

Here was the Christ assumed in two lives, and by the bearing of that cross they had saved a soul. This only atoning love, the spirit of Jesus, needed to be repeated in all their lives. It was the only atonement.

The sacrifice of Christ continually repeated on the altar of human hearts was the only power that could lift mankind out of darkness into light.

The other day some music-hall artists assisted in entertaining a party of poor children at the City Temple. If he had been there he might have come down on some of the songs which they sung. But he said with conviction that those music-hall artists were acting in the very spirit of God, and had everything to do with Calvary.

Here there was applause and dissent among the congregation.

Referring to the Lord Mayor of London's care for crippled children, Mr. Campbell remarked that in the days in which Christ lived a little crippled child would not have been allowed to live, but whilst learned theologians were contending about the Atonement they were in these ways living it (loud cheers).

Thomas Foley of the widely known contracting firm of Foley Bros. and Larsen, is dead at St. Paul, Minn. He was sixty-five years old, and was born in Lanark county.

The Daily Review

FRIDAY, MARCH 8, 1907.

MANITOBA SPEAKS

Manitoba, like British Columbia, has spoken, and the result is a sweeping victory for the Conservative party. Premier Roblin and his government have carried the day in the prairie province, and will meet the legislature with a majority of sixteen. This is a slight reduction in the Conservative majority at the time of dissolution—which was 23—but the result is a source of much satisfaction, considering the bitterness of the campaign and the efforts made by the Laurier Government to encompass the defeat of the Roblin Administration. The Liberal party in Manitoba to-day is [illegible] Edward Brown, who sought to champion the Opposition forces, went down and out by a majority of 22 against him in Portage la Prairie. On the other hand all the members of Mr. Roblin's Cabinet have been returned, with the exception of Dr. McFadden, Provincial Secretary.

The figures show most conclusively that the Roblin Government enjoyed the confidence and esteem of the people, and the result is an unmistakable vindication of the policy of progress and development, and its zeal and efficiency on behalf of the welfare and well-being of the residents of the prairie province.

The voice of Manitoba yesterday is a strong endorsation of the agricultural, educational, railway and telephone legislation that has been introduced and carried out under the Roblin regime. The outcome is also a stinging rebuke to certain clergymen, who allowed partisan prejudice and political bias to lead them to make misleading and impassioned statements, which have proved to be without foundation. It is hoped the result of the lesson will not be lost upon Rev. Dr. Gordon, Rev. Dr. Bland, and others. The pronouncement of the electors is a mandate that Manitoba's boundaries must be extended northward and the province given an outlet for its produce by way of Hudson Bay. The Roblin Government has certainly looked well after the transportational, educational and other interests. Its financial policy has been sound. It has had a surplus each year, whereas under former Premier Greenway, there were constantly recurring deficits. The electorate have shown by their votes that they appreciate the services rendered, and have conferred upon the Conservative administration another term of office.

Against great odds, in the face of all the federal machinery that the Liberals could command and in spite of every artifice and resource that could be brought to bear, the Roblin Government has achieved a notable victory. The independence and integrity of the province will be preserved. Conservatives throughout the Dominion will rejoice over the good news. Those from Ontario particularly, where great interest was taken in the outcome, will extend hearty congratulations to the party and its aggressive, active and energetic leader, Mr. Roblin, in the great sister province of the west.

PEN POINTS

We are not talking about hockey these days.

The Conservatives may lose in hockey but they can win in provincial elections.

Joy for the ladies and woe for the men, the spring millinery opening is with us again.

Three cheers for Roblin and his great victory! Now watch Manitoba grow!!

The Liberal leader in Manitoba was certainly done up Brown.

The Review hockey team has by no means disbanded. Though a little battered, it is still in the ring.

McBride in British Columbia and Roblin in Manitoba—Hats off to their splendid victories.

The two greatest events in Canada yesterday were the Manitoba elections, and the Examiner-Review hockey match.

A New York telephone manager complains that his girl operators are married off faster than he can fill their places. Now, girls, who wants a telephone job in New York?

There is great joy in the Examiner office today. Nearly every employee went to work hatless, owing to his head being so swollen over the great victory the team managed to achieve.

Hon. Robert Rogers has attacked Rev. C. W. Gordon (Ralph Connor) saying that he has slandered the Manitoba Government in order to advertise his silly novels. We do not know what Mr. Rogers looks like but he "listens" like G W Fowler.—Toronto News.

The Chairman of the Board of Works in an adjoining city is said to have delivered himself of a few things, which may be of interest to the present and future chairmen of Public Works in Peterborough. For instance, he believes in the continuing of corporation work throughout the winter months when labor is cheaper and weather fine. The municipal stone crusher might be kept working most of the time. It could be moved to some vacant lot near where the [illegible] be [illegible] during the road improvement campaign, and a few dollars would erect a rude shelter from the storms. During the winter stone could be drawn and on fine days crushing might be carried on. In the summer months the stone cannot be crushed fast enough at times, and a good supply might be crushed in the winter and kept on hand. The above remarks might not fit the case of Peterborough—and then, again they might. Anyhow, no harm will be done by thinking them over.

The Mail and Empire makes this demand,—

"There can be no doubt as to what Mr. Aylesworth's duty is at the present moment.

As Minister of Justice it is his place to defend the public interest and to bring offenders to trial.

In the Adamson case he ought to take action.

Members of Parliament must not be allowed to squeeze in between the Government and the land purchaser and to take a "rake-off."

There are, however, other transactions which call for activity on the part of the Minister of Justice.

The McGregor and Hitchcock land grants are among these.

Here, two politicians get from The Department of the Interior huge land concessions.

These they take to London and sell for $850,000.

Is Mr. Aylesworth prepared to defend this operation?

Does Mr. Aylesworth believe the apportionment of the public estate among politicians who stand between the Government and the settler and collect a "rake-off" is a proper thing?

Surely the operation ought to be stopped and the law ought to be put in motion with a view to bringing it to an end.

To Mr. Aylesworth the country now looks for action in respect of these matters.

Let Mr. Aylesworth show that he is the Minister of Justice, and not a defender of graft."

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

DIED

McDOWELL. — On Saturday morning, March 2nd, 1907, at 1590 Bloor street, west, Toronto, Elizabeth McDowell, in her 83rd year, late of Peterborough.

Funeral on Tuesday, March 4th at 2.30 p.m. from Mr John Roberts' to St. James' Cemetery.

PECULIAR RELIC.

Beautiful Carved Head of a Woman to Tell of Ship Wrecked on Hudson Bay Shores.

In a certain house in Fort Frances Ont., there is an object which at once excites curiosity. The beautifully carved head of a woman, of Grecian mould, with gilded necklace and other ornaments untarnished, looks down wonderingly upon her strange surroundings. Last summer she lay upon the shores of Hudson Bay, and for two winters, storms and snows have drifted over her. Those who may find, in years to come, the decapitated body of the Figurehead Lady may wonder, indeed, over the peculiar sight. Three years ago the gallant ship Lady Head, foundered on the Gasket Shoals, 150 miles north of Charlton Island. Last summer Mr. J. A. Osborne and a party of explorers came upon the figurhead of the wrecked vessel, in a perfect state of preservation. The body was garbed in flowing robes of a classical period. The find was a little too bulky to carry away entire, but Mr. Osborne could not resist the temptation to take away at least a part of it. Summary decapitation was accordingly decreed for the unfortunate lady, and her head now graces his den.

Mr. Osborne is editor and proprietor of The Fort Frances Times. From May to September he traveled 1,100 miles by canoe and portage north of the height of land. His party ran 42 rapids, and made 17 portages. At Moose Factory a boat was obtained and the adventurers sailed to Fort George and Great Whale River, the latter being the last Hudson Bay post on the east side of the bay. At this place there is only one white man.

The Eskimos Dying Off.

"From there," said Mr. Osborne to a Standard interviewer in Winnipeg, "we journeyed for 200 miles north, pushing our way through immense fields of ice, from the middle of July to the 1st of August, which made it extremely dangerous. We were finally driven ashore by the ice. At this point we found the remnants of the wreck of the Lady Head, which foundered on the Gasket Shoals, 150 miles north of Charlton Islands, some three years ago. The pieces we picked up are the only relics of the ill-fated vessel that have ever been found.

The Eskimos, Mr. Osborne states, are rapidly dying off or moving to Labrador, following the tracks of the reindeer, whose migration the late Leonidas Hubbard, jr., of the ill-fated Hubbard-Wallace expedition, went up [illegible]. Asked with regard to the much-talked-of question of the navigability of Hudson Bay, Mr. Osborne said that on the way up he met Captain Ford, of the H. B. Co.'s steamer "Discovery," at Charlton Island, who said he had been sailing the bay for 18 years, and he could see no reason why it should not be navigable for four or five months during each year without danger. Mr. Osborne himself believes that once Hudson Bay becomes a highway between the great West and the markets of the Old World, not only will the tide of immigration be turned direct to the West through the bay, but it will be found to be an easy and inexpensive route to the east, both for passengers and freight, especially grain which will greatly reduce the cost of transportation as it exists in the West at present. In his opinion the Hudson Bay country itself will furnish a great deal of wealth to the Dominion. The fisheries have never been exploited. The bay is teeming with cod, whitfish, salmon and speckled trout, while there is no doubt that the surrounding country is filled with great mineral possibilities. The southern and eastern portions of James Bay are heavily timbered with pulp wood, which must be very valuable in a few years. As a game preserve, too, James Bay is a sportsman's paradise, it being the breeding ground of all sorts of wild fowl, such as ducks and geese, which throng its marshes in thousands.

20,000 H. P. Energy.

Mr. Osborne said "At Moose Factory I saw some of the finest gardens it has ever been my lot to see. On some of the innumerable rivers crossed by the line of the G T P there is water power sufficient to turn all the wheels in Canada. The country is well stocked with fuel, both in wood and coal. I myself found splendid samples of lignite in a number of different places. The climate is said to be mild in winter, owing to its proximity to the bay and its moderate sea level."

Mr Osborne gave some interesting facts regarding the progress of Fort Frances. In connection with the power house, by the 1st of next January, 20,000 horse-power of energy will be available, of which a large portion is expected to be utilized in the near future for flour mills, pulp mills, woodworking factories, etc. Two railways are now building as rapidly as possible from the south, one from Duluth and one from St Paul.

To Walk Round the World.

Two young men, H. L. Tiffany of Delaware and W. G. Drayton, who reside at 79 Maple street, London, Ont., have announced their intention of starting out on a trip around the world on a wager, the stipulation being that they cover the 25,000 miles in one year and eleven months. The wager is for $6,000, and, as far as it is possible, they will walk the entire distance, carrying about 30 pounds of luggage and securing money only by the sale of picture post-cards. F. R. Thompson of New York, who makes the wager, is an enthusiast in globe-circling, and lately offered the sum mentioned to anyone who completed the trip in the time stated, under an agreement that they were to start without a cent, and would not be allowed to represent any firm on their travels.

School Savings Banks.

The Victoria, B. C., Times states that the school savings bank system which was started in a tentative way in some of the classes of the Victoria Public Schools last October has proved a great success, and it is now to be extended to all but the primer classes. The Times thinks the movement supplies a most needed incentive to habits of thrift.

Montreal is again threatened with a water famine through the breaking down of a waterworks pump.

CANADA FOR CANADIANS

Resolution to Limit the Preference on British Goods.

Only Stuff Imported Through Canadian Ports to Get the Benefit—Freight Schedule Criticized — Mr. Logan Wants Fast Atlantic Service—Sir Wilfrid Laurier Says Wait —Time Is Not Yet Opportune.

Ottawa, March 8.—The House upon assembling yesterday went into committee upon the tariff, and Hance Logan (Liberal, N. S.) asked that the British preference be confined to goods imported through Canadian ports. He offered a resolution so limiting the preference after May 1, 1908. At present, of the $69,000,000 of imported goods entitled to the preference, $13,000,000 came through United States ports. He pleaded for a fast Atlantic service, which, incidentally, would contribute to the prosperity of the I. C. R. Respecting the Canadian railway service from the Maritime ports, the all-round freight schedule was the best in the world.

Freight Schedules.

Mr. Kemp (East Toronto) said all favored the principle underlying the resolution. He paid scant respect, however, to his freight schedules. As a matter of fact, in some cases, it required a fortnight to move a carload of freight from Toronto to Montreal. The great bulk of imports, under the preference, came by the St. Lawrence route, he said. There was a strong feeling among the people to exploit Canada for the Canadians, and in time this problem would adjust itself. Meanwhile it must be remembered that many steamship lines charged, for the same freight, twice as much from Liverpool to Halifax as from Liverpool to New York. The railway companies charged a rate that equalized these differences. He was satisfied that all the Canadian railways would oppose Mr. Logan's contention.

For Canada's Benefit.

W. F. Maclean said he intended to give the proposal, not only his sympathy, but his vote. He had no great belief in a measure of trade based on a preference where the Government offering it asked for nothing in return and where the Government receiving it did not see the propriety of giving anything in return.

"If we wish to build up Canadian [illegible] and connect them with railway systems in the West, let us concentrate everything we can in that direction, and not abandon this national policy for a temporary consideration. I am ready to disturb the U. S. or the bonding privilege any day if it is to the advantage of Canada to do so.

Premier Says Wait.

Sir Wilfrid Laurier said that the principle involved in the resolution had been approved by every speaker except the member for East Toronto (Mr. Kemp). A more difficult question was this: Is the time now opportune for its application? Since confederation, our national policy had been to build up Canadian ports and harbors. That policy would not be abandoned. That ultimately the policy embodied in Mr. Logan's resolution would be adopetd every one would admit. It was not, however, feasible to adopt it immediately. Mr. Logan had recognized this in proposing to make his resolution effective a year hence. It would be all right, say, in 1911, when the G.T.P. was completed.

He proposed an amendment providing that "on and after a date to be fixed by the Governor-in-Council the British preference shall apply only to imports brought directly to Canadian reports."

Fielding's Position.

Mr. Foster stirred up the Minister of Customs, and a brisk debate ensued, in which R. L. Borden participated respecting the attitude of the Government in 1904, and the inaction of the tariff commission in not investigating this question.

Dr Sproule pointed out the inconsistency of the Premier and the Government upon this question, and Dr. Daniel (Conservative, New Brunswick) urged the Minister of Finance to define his position.

Mr. Fielding said that a resolution corresponding to the Logan resolution had passed the House in 1904 without division. Both parties had supported it. He regretted that after forty years we were not commercially independent. He was satisfied, however, that the facilities were sufficient even now to carry out Mr. Logan's resolution. However, he declared his adhesion to the substitute suggested by the first Minister.

The Laurier substitute was carried.

Two-Cent Clause.

Ottawa, March 8.—When the Grand Trunk Railway Co.'s bill came before the Commons Railway Committee yesterday morning it was announced that the company had decided to drop the clause providing for the repeal of that portion of the act of 1852, which provided that the company must maintain a penny-a-mile service. W. F. Maclean wanted to know why the clause was dropped. He had heard that the Minister of Railways had insisted on it. No answer was given by the Minister or the railway. The bill was reported.

Adams Jury Disagrees.

Wallace, Idaho, March 8.—The jury in the trial of Steve Adams for the murder of Fred Taylor, last night announced it was impossible to agree on a verdict, and was discharged.

France Not Fighting Vatican.

Paris, March 8.—The Foreign Office has authorized a denial of the reports from Rome that France is trying to prevent the Vatican from being represented at The Hague conference.

Takes Poison by Mistake.

Detroit, March 8.—John Gray of Aylmer, Ont., took belladonna by mistake Wednesday and narrowly escaped death. He is thought to be out of danger.

The ship subsidy bill at Washington, which has been before Congress two years was dropped.

For Baby's Bath

you must have a soap, pure enough to clean the skin, and as delicate as the petals of a rose. Such a soap is

"Royal Crown" Witch-Hazel Toilet Soap

It is two soaps in one — toilet and medicated— for the price of one. Only 10c. a cake. 3 for 25c.

Druggists everywhere have it.

DEAN PATTERNS

Have you used any of the Dean Patterns which appear in the Review each evening. Those who have tried them find them most satisfactory in every way, not too elaborate for the home dressmaker, and not too extreme in style to wear well. Order such patterns as will suit you, and they will be sent you through the mail on receipt of ten cents for each pattern.

Corn—Spot steady; American mixed, new, 4s 5½d; American mixed, old, firm, 4s 8½d; futures, firm; March 4s 4⅞d; May, 4s 5⅛d.

Bacon—Clear bellies, quiet, 53s 6d; shoulders, square, dull, 42s 6d.

Wheat—Spot, No. 2 red western winter, 6s 3d; firm.

New York Dairy Market.

New York, March 7.—Butter—Weak; receipts, 6520; street price, extra creamery, 31½c to 32c; official prices, creamery, common to extra, 21c to 31c; held, common to extra, 21c to 30½c.

Cheese—Firm; unchanged; receipts, 1970.

Eggs—Easier; receipts, 20,914; western firsts, 18½c; official price, 18½c; seconds, 18c.

CATTLE MARKETS.

Cables Unchanged—Cattle Are Up 10c at Chicago.

Liverpool, March 7.—Liverpool and London cables are steady at 11c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9¼c to 9¾c per lb.

Toronto Live Stock.

Toronto, March 7.—Receipts of live stock since Tuesday at the city market, as reported by the railways, were 96 carloads, composed of 1363 cattle, 1683 hogs, 263 sheep and lambs, with 125 calves.

Exporters.

There were no straight loads of shipping cattle on sale. There may have been a few lots selected from loads of butchers' cattle. A few export bulls were reported at $3.75 to $4.50 per cwt.

Butchers.

Prime picked lots of butchers' cattle sold at $4.75 to $5 per cwt., and in one or two instances a picked heifer, 1050 to 1100 lbs., sold as high as $5.25; loads of good, $4.35 to $4.65; medium and good cows, $3.85 to $4.25; fair cows, $3.40 to $3.70; medium cows, $3 to $3.30; canners, $1.50 to $2.75.

Feeders and Stockers.

A few light stockers, 700 lbs. each, sold from $3.25 to $3.50 per cwt.

Milch Cows.

About sixty cows were on sale, many of which were of common to medium quality. Prices ranged from $35 to $55 each for the bulk.

Veal Calves.

About 120 calves sold at unchanged prices, $3.40 to $7 per cwt.

Sheep and Lambs.

Receipts light. Trade firm for all of good quality. There are too many lambs that are a disgrace to Ontario farmers, being little more than skeletons if the wool was off. Lambs sold at $6.60 to $7.25 per cwt. for good quality; common lambs, $5 to [illegible] per cwt.; export ewes, [illegible]; culls and rams, $3.50 to $4.

Hogs.

Mr. Harris got about 1700 hogs. The market was easy at $6.80 per cwt. for selects and $6.55 for lights and fats.

East Buffalo Cattle Market.

East Buffalo, March 7.—Cattle—Receipts, 125 head; quiet; prime steers, $5.50 to $6. Veals—Receipts, 100 head; active and steady; $4.50 to $9.50.

Hogs—Receipts, 2100 head; active and strong; heavy, mixed yorkers and pigs, $7.40; roughs, $6.50 to $6.65; stags, $4.75 to $5.50.

Sheep and lambs—Receipts, 4800 head; active; steady; lambs, 5c higher; lambs, $5 to $7.95.

New York Live Stock.

New York, March 7.—Beeves—Receipts, 115; nothing doing; feeling steady.

Calves—Receipts, 447; veals, steady and demand equal to supply; common tot choice veals, $6 to $7.90; fed calves, $4.

Sheep and lambs—Receipts, 1872; sheep, nominally steady; lambs, strong; common to prime lambs, $6.50 to $8.12½.

Hogs—Receipts, 2567; feeling, steady; whole range quoted at $7.50 to $7.75.

Chicago Live Stock.

Chicago, March 7. — Cattle—Receipts, 5000; steady; plain to best steers, $4.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3 to $4.50; calves, $2.50 to $7.25; stockers and feeders, $2.50 to $5.

Hogs—Receipts, 22,000; steady to strong; choice to heavy shippers, $6.97½ to $7; light butchers', $6.85 to $7; light mixed, $6.92½ to $6.97½; packing, $6.80 to $6.95; pigs, $5.75 to $6.75; bulk of sales, $6.92½ to $6.97½.

Sheep—Receipts, 12,000; strong; sheep, $5 to $6; yearlings, $6 to $6.65; lambs, $6 to $7.75.

Extend Canadian Northern Railway.

St. Catharines, March 8.—The St. Catharines Board of Trade's annual meeting adopted a resolution that as the Canadian Northern Railway has some 3,000 miles of railway in the west, it was desirable that this system should be extended eastward and into cities and town of Ontario, in order that manufacturers and merchants may more fully participate in the benefits of trade with Western Canada.

Minister Dead; One Dying.

Rome, March 8.—Signor Galle, Minister of Justice, died yesterday. He was born in 1849, and formerly was Minister of Public Instruction, President of the Chamber of Deputies, and Minister of Education. Signor Massimini, Minister of Finance, who was stricken with apoplexy Wednesday, is said to be dying.

Band Robs University.

Moscow, March 8.—While the officials were being paid off in the university yesterday, seven armed men entered, threatened all present with pistols and demanded money, fired in the air, seized $20,000, and decamped, after killing a police sergeant.

Caught and Torn by Cog Wheel.

Guelph, March 8.—Robert Rollinson was caught in a cog wheel while oiling the machinery in Graef's tannery at Clifford and was badly torn. He was brought to the General Hospital here.

Bright Prospects for Lacrosse

W. S. Davidson Will be Nominated for C. L. A. Council —Junior Team

Mr. W. S. Davidson of this city, will be nominated for the Council of the Canadian Lacrosse Association by the Peterborough Lacrosse Club. This has practically been decided upon, although it will not be made official until the annual meeting of the Club is held. Mr. Davidson would make an excellent man for the council and should poll a large vote. He is thoroughly conversant with the lacrosse situation and in every way is well qualified for the position. Last year, Mr. E. M. Best was nominated for the council and came very close to being elected.

Lacrosse matters are in a somewhat speculative stage in Peterborough just at present. Of course, there will be a team in the junior C.L.A. and with the bunch of boys on hand, the local juveniles should be in it right up to the finish. Last year's junior team was a crackerjack, and with the experience gained last season, the boys should make an excellent showing.

As far as the intermediates are concerned, nothing has been definitely settled. The annual meeting of the local club will be held within the next two weeks, when some interesting developments are expected. It is said that there will be a pleasant surprise for the lacrosse loving public of the city, but as yet there is nothing for publication.

From all appearances the game is going to boom in Peterborough this summer as it never has before. That there will be some fast lacrosse can be depended upon. There is the material here for a team of senior calibre, and in all probability they will be given a chance to show what they can do.

The annual meeting of the C.L.A. will be held in Toronto on Good Friday.

Happy Thoughts Won the Match

Best's "Happy Thoughts" defeated Ackerman's "Leather Eaters" in a fast game of hockey at Brock street rink between seven and eight o'clock last night. The score was 4—2 and the match was well contested all the way through. McNern, of the Happy Thoughts received a nasty cut over the hand that required two stitches.

W. Crough made a satisfactory referee

The teams were as follows;

Ackerman's		Happy Thoughts
Elliott	Goal.	Archibald
McWha	Point	E M Best
Dobbin	Cover	Myers
Robertson	Rover	McNern
Mann	Centre	Grange
Loomis	Right Wing	Foley
———	Left Wing.	R Best

The game was played six men a side. R. Best did not play until McNern was hurt and had to retire.

HOCKEY

GAME CALLED OFF.

The game between the Catholic Literary Society Hockey Team, champions of the Lindsay City League, and the Strathconas, champions of the Peterborough City League, which was to have been played next Tuesday night, has been called off, the Lindsayites backing out.

A CLOSE GAME

A closely contested game of hockey was played last evening at the Brock street rink from 10 to 11 o'clock between two teams from East City. The team representing the northern section of East City won by the close score of 1—0. The game was fast and interesting at all stages. Mr. Leo Derocher refereed the game satisfactorily.

BANKERS TO PLAY.

The Bank of Ottawa and Bank of Toronto teams will meet at Brock street rink between 5 and 6 o'clock this evening.

BELLEVILLE BEATEN.

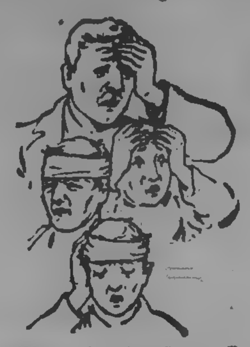
Guelph defeated Belleville on the latter team's ice last night. 6-2 No Cornwall men played for Belleville owing to "Bud" McCourt's death.

Great Press Game Was Most Stubbornly Contested

Over 500 People Went Crazy With Excitement at Brock Street Rink Last Night—The Review Team One, But the Examiner Got Three.

The tumult and the shouting die
Or doon and headland sink the fire.
Lo, all the pomp of yesterday
Is gone, who was the biggest liar?
But cuts and scars we carry yet
Lest we forget, lest we forget.
—Kipling's Recessional brought up to date

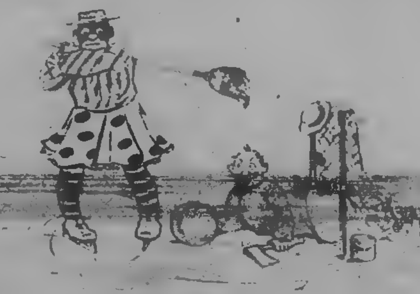
The great press game is a thing of the past, and likewise a good slice of the reputation of the Review hockey team. But though beaten, we



Some of the Examiner Players To-day

are still in the ring, and, to quote the immortal words of Alf. Smith, of the Ottawas, "Wait till next year."

Before a crowd of nearly six hundred people the big match was played at Brock street rink last night, and after the tumult was over and the perspiration had dried on the



Josh Craig Laid Down in the Nets.

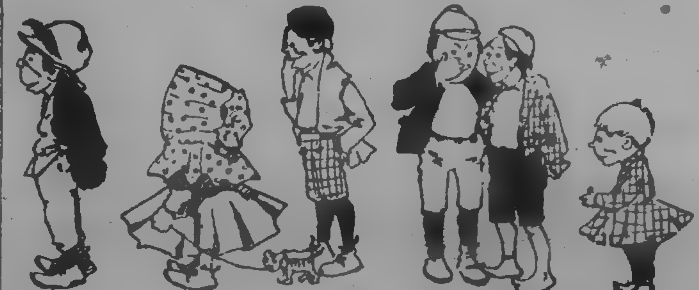
ice, it was found that the score was 3—1. The Examiner laid claim to the three. 'Nuff said. The Review had what was left, namely, the one. We have had it sterilized, wrapped up and tied with a pink ribbon

Goal Umpire Martin in a Critical Moment.

and laid away in a cherished spot in the sporting sanctum of this great family journal. How we love that ONE Like a ray of sunshine breaking through the clouds of darkness, like a green spot in the desert, like a violet peeping from under the snow it came and stuck with us, and, like Melville Jenkinson Hutchinson, when he became tangled in the goal nets, would not depart.

TWO GREAT TEAMS.

With all due respect to other aggregations that have cavorted on the shiny surface at Brock street rink during the season, the press game was the greatest in years, and the spectators went home wearing "Sunny Jim" smiles and better men and women for what they had seen. The interest never lagged from the time the puck was first placed in motion until the teams hit the trail



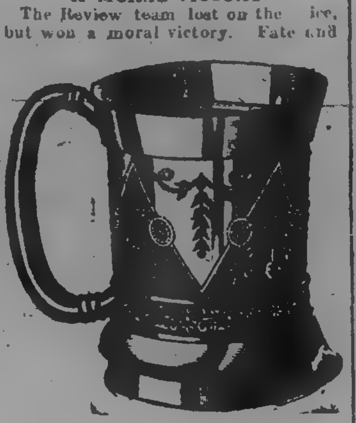
Joy in the Examiner Camp.

Theobald's Young Lady Was Shocked at His Uniform.

for the dressing rooms. Several strange and startling new features were introduced, the like of which were never seen before, and will not be witnessed again on this side of the great divide. So be it.

A MORAL VICTORY.

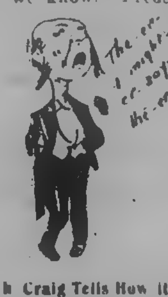
The Review team lost on the ice, but won a moral victory. Fate and



The Trophy the Other Fellows Won.

another hockey team were against them, and the two combined resulted in the downfall of the greatest aggregation of hockeyists that the stars overhead ever shone down upon. Fate is a hard thing to go up against, anyhow, and next year we intend to refuse admittance to this gentleman when he comes to the wicket at the rink. The gatekeeper has already been given instructions to this effect. If the Review team had scored three goals more they would have won the match, and, while they should have won it they did not and there's the sum and substance of the whole thing, as John Milton, author of Paradise Lost, would have remarked

All the scoring was done in the first half. The Examiner took three in a bunch; then the Review got one, and then half time was called. There was no scoring in the second period, although the Grits were constantly on the defence and had to fight like demons to stave off defeat It was the busiest night "Josh" Craig has had since the summer's evening when he called on eighteen young ladies one after the other and—but we do not propose to tell all we know. Frederick Corn-



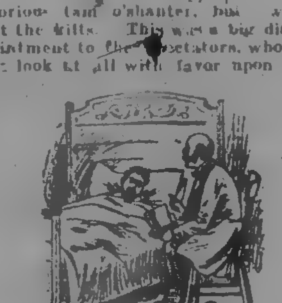
The er- I might er say er the-er-er

Josh Craig Tells How it Happened

tassels did not propose, either.

THE OTHER FELLOWS

The Examiner had on the same line-up that won the back alley championship in 1822, or "23." Old timers will recall the occasion. Hutchinson, Clarke, et al, were then in their prime. "Josh" Craig, who in the big game last night guarded the nets, essayed the role of a Scotchman and appeared in a glorious tam o'shanter, but without the kilts. This was a big disappointment to the spectators, who did not look at all with favor upon the



A Doctor Was Called to See Hutchinson at 2.05 This Morning.

pads "Josh" wore. And say, would you believe it the aforesaid verdant youth did not do half bad. True, he laid down several times, and, to make things worse, he stooped to ice right in front of the nets, and prevented the team from scoring. Three penalties were handed out to "Corntassels," exclusive of a large number of lemons.

Jim Clarke, he of the Billy Bounce proportions, made the hits of the evening Every time he hit he hit hard, and

If the ice could but speak.
What a tale it would tell,

Trainer Begley Attempts an Explanation.

How hard and how often did Mr.
Clarke fell.*

*Poetic license.

The poet must have had M. J. Hutchinson, the Examiner cover point, in mind when he pened the lines;

"With neck outstretched, you fancy how,
No medals hanging round,
And out of plumb in front, you know,
And out of line behind."

Huston's Girl Was All Smiles.

Truly the cover point was a wondrous sight. His famous rushes and dazzling stops were not features of the game, as they did not take place. "Hutch" had forgotten the combination and could not get them out and into play.

That bright spot just ahead of the cover point was not a new comet nor a spot of blood on the ice. It was Harry Theobald, better known as a member of the Knockers Hockey team. He had the electric lights faded when it came to brightness. A hole in the ice as if caused by excessive heat marks the place where he landed on his head. The hole is still there and can be seen to this day.

Huston lived up to his reputation. Failing to get into touch with anything

Jim Clarke Hit the Trail for Home

better he hugged the boards closely, and as usual got several bumps for being too fresh. "But this is not the first time I've been bumped when I tried this hugging game," he sagely remarked after the match as he shook some Otonabee wheat chaff out of his socks after he had removed his little shoes and packed them in a trunk which he always carried for that purpose.

Henry and Robinson were a little bit of everything combined. Put Craig, Clarke, Hutchinson, Theobald and Huston in a hat, shake it well then pick out two fifths of the residue, split it in two, hand each part a hockey stick, and you have Robinson and Henry. What more can be said?

The referee was Geo. Lynch, who afterwards expressed his pleasure at being alive. He was eminently satisfactory, and though the lemons occasionally rolled his way, they were not meant for him "The better team might have won," was the way he summed up the game and nothing more could be got out of him. It will be pleasing intelligence to the hockey loving public to learn that Mr. Lynch has consented to referee next year's press game, and will appear in a special costume.

CAUGHT IN THE NET.

Not being content with stealing the game, Malcolm John Hutchinson made a desperate attempt to steal one of the goal nets. He dragged the lace curtains will over the ice before he would loose his hold, and only a liberal dose of seltzer, administered where it would do the most good, made him give up his grasp. You have seen glue stick to a glue pot. That is exactly how he stuck to the net.

The gladiators were as follows,—

Examiner		Review.
Craig	Goal	Wilson
Clarke	Point	Thompson
Hutchinson	Cover	Burns
Theobald	Rover	Burridge
Henry	Centre	Gilgour
Robinson	Right Wing	Butcher
Huston	Left Wing	MacRae

The puck was faced shortly after eight o'clock by Mr. J. H. Burnham, President of the Children's Aid Society, who took great interest in the game. The play was beyond description. It had to be seen to be appreciated.

NOTES OF THE GAME.

The Review team one, but the other fellows got three.

M. J. Hutchinson, the speedy cover, of the Examiner team, was showered but not with blessings. Some one turned the seltzer on him to cool him off.

Knocker Theobald was a shining star at all stages of the game.

Mr. Corntassels Craig was the most popular man on the ice, especially with the feminine portion of the crowd.

Mr. J. Hampden Burnham, who took a great interest, faced the puck off at the start and after the game, very generously presented the players with cigars. Ended in smoke did we hear someone say?

Lemons were handed out most generously to both teams.

Splendid Concert Given by the Band

Salvation Army Musicians Excel Themselves in Varied Programme.

A most successful concert was held last evening at the Salvation Army barracks, under the auspices of the band. A large number of people were present and enjoyed the excellent programme.

Adjutant Wiggins ably occupied the chair.

Mr. J. Mandel Greene, the leader of the band, and all the members deserve great credit for the excellent showing that they made. The applause was frequent and the audience showed its appreciation of the splendid numbers presented, time and time again. Following was the programme,—

Opening Song, "Some Join Our Army."

Prayer.

March, "Proclamation," by Band.

Vocal Solo, "The Holy City," by Henry Burr, piano accompaniment

Recitation, "Prayers and Potatoes," by Eva Stevenson.

Piano Solo, Ethel Card.

Selection, "The Army Flag," by Band.

Vocal Duet, "As Thy Day and Thy Strength, Shall Be," Misses Leader.

March, "Cadet March," Band.

Vocal Trio, "Message of the Bells" F. Gray, F. Gandy, R. Brown.

Violin Solo, "Life Let Us Cherish," W. Leader.

Recitation, selected, by Eva Stevenson.

Vocal Solo, "The Salvation Army," by R. Brown.

Gramophone Selection, selected.

Vocal Duet, "Oh why did He love me so," F. Gandy and F. Gray.

Selection, "Echoes of the Congress," Band.

"Praise God I'm Saved"

Musical "At Home" Was Great Success

The members of the Fraser Mission Band of St. Paul's church held a musical "At Home" at the residence of Mrs. W. H. Meldrum, McDonnel street, yesterday afternoon from four to six o'clock. There was a large attendance. Mrs. (Dr.) Torrance, the president of the Band, and others, served tea to their friends A very pleasant time was spent. Miss Helen Davies and Miss Lillian Moore sang solos with fine effect. Miss Evelyn Henderson pleasingly recited, and charming numbers on the piano were given by Miss Bertha Moore, Miss Lottie Davidson, Miss Geraldine King, Miss Lizzie Scott and others.

An Aged Resident is Called Home

Death of Mr. S. J. Griffin in 91st Year of His Age

An old and very highly respected citizen of this city, passed away at five o'clock this morning in the person of Mr. S. J. Griffin, after an illness of a few days duration. The deceased was ninety years of age and never had illness of any account until a few days ago, when he contracted pneumonia, which was the cause of his death.

The late Mr. Griffin was born in Berthier, Que., in 1816. In 1838 he was married to Adelia Ann Burnham at Middleton, Vermont. She predeceased him a number of years ago. He later married again, his second wife being Eliza Ann Simpson of Brighton, Ont. She died two years ago. Mr. Griffin had resided in this city for twenty-five years. Prior to coming to Peterborough he lived for fifteen years in Norwood, where he conducted a woollen mill. By his first marriage twelve children were born, five of whom are left to mourn his loss. The sons are S. J. Griffin of Groton, S. D.; Chas. S. Griffin of this city, and C. B. Griffin of Detroit, Mich. The daughters are Mrs. B. M. Wylie, of Sault Ste. Marie, Ont., and Mrs. M. Otis O'Brien, of Minneapolis, Minn.

The funeral will take place on Monday morning at ten o'clock from the residence of his son, Mr. Chas. Griffin, 257 Stewart street, to the 11.38 C.P.R. train for Norwood, where interment will take place.

City Treasurer Ready to Report

Has Examined Books of Peterborough Light and Gas Co.

City Treasurer Frank Adams has about completed his work on the Peterborough Electric Light and Gas Company's books, and as soon as the power committee is ready to meet Mr. Adams will have his report prepared. The figures furnished by Mr. Stuart were found correct, and looking at the business in one way it is a profitable proposition, but in another way, it may not be such a good thing. It will be for the committee and council to decide after the treasurer reports, whether or not the city can handle the business as economically as the company can. If the council believes it can, it will be time to have an electrician well versed in his business, look over the company's plant and place a value on it. If the value is anything like the price the company is asking, then arrangements can be made to purchase it.

Rev. Dr. Marsh Will Lecture

Rev. Dr. Marsh, of Springville, will deliver a lecture in the Presbyterian church, Mount Pleasant, on Tuesday evening, March 12th, on "The Wonders of the Heavens." He will also deliver a lecture on Thursday evening next in the Presbyterian church, Omemee.

The Coroner Will Hold an Inquest

Into the Death of Thomas Howard Who Died in Norwood

The coroner will

Coroner Dr. Gray has decided to hold an inquest into the circumstances touching the death of Thomas Howard, who died suddenly at the McGregor House in Norwood on Wednesday night.

Dr. Gray has issued his warrant for the inquest and High Constable Cochrane left for Norwood last night to subpoena witnesses and summon a jury. The inquest will be opened on Monday afternoon at two o'clock in the Norwood town hall. There has been a certain amount of gossip relative to the death of Howard and in order to clear up these stories the coroner thinks it advisable to hold an inquest.

Are You Strong?

Do You Eat and Sleep Well? —Or Are You Pale, Weak and Miserable?

Has your nerve given out? Have you lost confidence in yourself? Has work become such an awful burden that you look upon it with horror?

There's just one thing left to do, and that is to take Ferrozone and get your system into good shape again.

It's quite impossible for anyone to be weak or nervous that uses Ferrozone. It contains so many strength-giving properties benefit is bound to result from its use.

Ferrozone possesses the power to kindle new vitality and vigor where almost a dying condition of weakness exists.

It is an extraordinary and magical tonic, containing more actual nourishment and strengthening elements than you can get at in any other way. As a blood purifier, nerve strengthener and appetizing tonic there is simply no equal to Ferrozone. Of this we are positively sure.

It is crowned with the success of splendid cures; will restore anyone to health who uses it. The following letters from people who have actually experienced what Ferrozone can do will clearly show you just how beneficially it acts:—

No Medicine Ever Did So Much Lasting Good as Ferrozone.

"It would be difficult to express my thanks for the benefit I have received from Ferrozone," writes Miss Eva Wight, of Florenceville. "I was so weak and miserable that I could scarcely go around the house. My head ached, there was a dragging weakness in my limbs, and I felt as if every spark of life had left me. Ferrozone improved my appetite, toned up my blood, and soon made me well. Nothing I ever used did me half the good I got from Ferrozone."

The Great Tonic, Ferrozone, Brought Back Life.

"I am anxious to speak a good word for such a magnificent tonic as Ferrozone," says E. P. Gerow, of Yorktown. "I was wretchedly worn out. I was apprehensive, and lacked confidence. It was simply due to my very weak state. The only remedy that really did me lasting good was Ferrozone. It rebuilt my strength, has made me as vigorous and happy as a man could be. In the whole range of medicines I never used anything with half the merit I found in Ferrozone."

Though you spend a thousand dollars on doctors, you can't get a more vitalizing, strengthening tonic than Ferrozone. It is the best that money, combined with scientific research, can produce. If anything in this world will make you strong it must be Ferrozone. Others have proved its worth. You can easily do so for yourself. It will send new vital energy and renewed youth singing through your veins. It's nature's own remedy—a true food tonic.

FERROZONE FOR BRACING HEALTH!

Price 50c per box of fifty chocolate-coated tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

CORPORATIONS ACTIVE

Effort to Overthrow Movement For Public Ownership.

Beck Power Policy Said to Be In Danger—Premier Whitney Says Hydro-Electric Commission Is Proper Tribunal to Deal With the Matter—Mr. McGarry Gives Explanation of His Action.

Toronto, March 9.—Somewhat of a sensation was created in the Legislature yesterday by the publication of rumors concerning a corporation effort to overthrow the Beck power policy and check the movement for public ownership of public utilities as encouraged by the progressive Whitney Government.

The rumors were the outcome of opposition in the Private Bills Committee to the clause in the Ottawa bill enabling the city to have its power matters under the control of the Government Hydro-Electric Commission. This clause was fought by Mr. G. F. Henderson, counsel for the Ottawa Electric Light Co., who is a legal partner of Mr. D. J. McDougal, the Liberal member for Ottawa. It was charged that Mr. McDougal backed up the corporate pleading of his partner by his words and vote.

Mr. McDougal brought the matter up in the House and gave his assurance that no improper motives had inspired his action in the matter.

Best and Proper Tribunal.

Hon. J. P. Whitney, the Prime Minister, said he recognized that under any proper system of responsible Government it could not be expected that all the members of a legislative committee would see eye to eye with the Government. However, in this case, had he (the Prime Minister) been present he certainly would have voted with the majority. In his opinion the Hydro-Electric Commission was the best and proper tribunal to deal with the matter in the interests of the public at large. The Hydro Electric Commission consisted of gentlemen who had made a special study of the power problems in the interests of the people. It was a part of the Government, an integral portion of the executive council. Rates had best be governed and settled by them if public rights were to be protected.

The Prime Minister hoped no improper motives had prompted the course of any member in the matter, he did not believe there had been. But members should always be guarded. It was easy to place themselves in an unfortunate light. He had once been unjustly blamed for getting involved with corporate influences himself, for no one cared less for the corporations than he.

Mr. McGarry Explains.

Mr. McGarry said the consideration of the Ottawa bill was the first occasion on which he had taken part in the Private Bills work this session. He had not seen or been interviewed by anyone. Some one had told him that the reason the Ottawa Electric Co. opposed the Hydro Power Commission was a personal one, because the solicitor was related to one of the Commissioners. He supported the Government and approved of the Hydro-Electric Commission but he thought this was a valid reason, coupled with the fact that the Ottawa City Council had by a vote of 13 to 11 voted to take out the proviso. Mr. McGarry challenged anyone to show he had been tampered with or his vote in any way influenced. He was not bound to any party policy in the matter. He would resign rather than be driven in and forced to vote any particular way. He had moved the resolution to take control from the Hydro-Electric Commission himself. The vote was a tie and Chairman Lucas gave the casting vote against it. It was a non-party vote. He felt sure that neither Mr. McDougal, Mr. Ferguson or himself had retainers for any corporate concern in the matter. He had no interest beyond that of doing his duty as a member of the House.

Maintenance of Asylums.

The proceedings in the House were comparatively brief. Mr. Hislop (Huron) moved for a return showing the amounts credited to the cities, towns, villages and organized townships in the Province of Ontario, under the Supplementary Revenue Act, 1899, and also the amount charged for the maintenance of inmates of lunatic or other asylums in the Province.

In speaking to the motion Mr. Hislop questioned whether the present act was working out satisfactorily. By holding back from the municipal returns from railway taxation the maintenance of non-paying inmates of asylums Mr. Hislop claimed municipalities were encouraged to improperly send their insane to the Houses of Refuge instead of to the asylum. In one of the townships in Huron the railway taxation return had amounted to scarcely four cents per head. The farmers required an even greater rate of railway taxation. The railways earned over $13,000,000 per annum in Ontario and he suggested to the Government the advisability of taxing them on their gross earnings in a similar way to which mining profits were to be taxed. Mr. Hislop also urged a percentage tax on capital stock which would prevent some of the water stock and over-capitalization dangers.

May Check Railway Construction.

Hon. Col. Matheson complimented Mr. Hislop on his address which was worthy of consideration. He was almost certain, however, that the Province had no power to tax the earnings of the railways. Any tax Ontario imposed must be a direct tax. The Minister supported Mr. Hislop's motion, which carried, but pointed out that the Government must be on its guard lest by forcing the railway tax up too high they stop railway construction in the Province.

Pressmen Avert Big Strike.

New York, March 9.—Franklin Association of Press Feeders and the Typothetae agreed on a new wage scale Thursday, averting the threatened strike in book and job offices.

DRIVER JUMPED IN TIME.

Grand Trunk Express Strikes Sleigh at Cataraqui.

Kingston, March 9.—Geo. Haffner, a poultry dealer, made a flying plunge from his sleigh in the early grey of yesterday morning and saved his life from collision with a Grand Trunk express. He was returning to the city, and at Cataraqui drove on the crossing, and in a moment found the train upon him. He plunged from his sleigh and fell on the road. The sleigh was shivered to splinters.

Won't Tax Patent Medicine.

Ottawa, March 9.—A large deputation representing the Ontario and Quebec druggists waited on the Minister of Inland Revenue and renewed the protest against the feature of the patent medicine bill that imposes a Government tax on all these preparations.

As a result of their representations, the tax proposal will be eliminated from the bill, and it is very questionable, in view of the advanced stage of the session that has now been reached, if the whole measure may not have a stand over till next session.

WHAT MR. FOWLER SAID

He Made No Charges Says Sir Wilfrid Laurier.

Premier Declares Fowler Left Nothing to Investigate, and Says Incident Is Closed—Mr. Bourassa Asks For An Enquiry Now Insurance Report Is Down—Duty On German Silver and Nickel Taken Off.

Ottawa, March 9.—Canadians far away from the capital will have some difficulty in figuring in their mind's eye the scene in the Commons yesterday afternoon. With it went the last vestige of self respect that the popular chamber is supposed to have been possessed of. It declared by its action, or want of action, that the reputation of the House, the reputation of the Government, the reputations of Ministers, were each and all of them of no concern to any one in it.

The feature evident was the treatment of the House of the Fowler charges involving the "wine, women and graft" connections of Ministers of the Crown.

Incidental, was the conduct of Sir Wilfrid Laurier in regard to the inforcement of the charter rights of the people along the Grank Trunk to be given a penny-a-mile service. By his indifference Sir Wilfrid showed his contempt for public rights and his friendship for Charles M. Hays in his defiance of the sacred undertaking of a great railway, franchise and an immense national subsidy in the early days of the Grand Trunk.

Came Out With Credit.

The man who came out of the afternoon with credit was Henri Bourassa. Few outside of the political arena can imagine the courage necessary to go into a fight of this kind and, standing in his place, call upon the head of the Government to clear his Cabinet of charges, even of insinuations, leveled against them. Mr. Bourassa did his work courageously and put it right up to Sir Wilfrid, and, for that matter, up to the Opposition, and having done his work, sat down, amid a cold resentful silence.

Mr. Bennett also showed courage by standing up and asking Mr. Carvell, who had thrown charges at him, to make them good. True, Mr. Carvell was away, but he should have been there. Mr. Bennett was there, and he was ready, and he wound up by telling the Premier that not only had Mr. Fowler not withdrawn his charges of "Wine, women and graft," but Mr. Bennett repeated them in substance as against at least one Minister.

Bourassa Stirs.

Mr. Bourassa recalled the statement made some days ago by the first Minister. He then had said that the session could not close without the charges made by Mr. Fowler, either being withdrawn or thoroughly investigated. He had only stipulated for delay until the report of the insurance commission should be received.

This report of the insurance commission contains matter of the highest importance, and that newspapers are charging members of this House with conduct improper for members of Parliament. In this House innuendoes and charges have been made respecting a certain land deal against Messrs. Foster, Fowler, Lefurgey and Bennett. On the other hand, Mr. Fowler has said in the House that if he were attacked on account of anything connected with the insurance investigation, that he would show improper conduct on the part of Ministers and members involving women, wine and graft. If not attacked he would conceal his knowledge; if he was attacked he would expose them.

Both the first Minister and the leader of the Opposition had promised that the session would not be allowed to close without Mr. Fowler's charges being investigated. He called upon them to make their statements good.

Sir Wilfrid Laurier said there were no charges. Mr. Fowler had used some strong language, but no charges were made, no names were mentioned. There was at present nothing to investigate. He was not aware that anything contained in the report of the insurance commission so concerned any member of the House as to call for action by Parliament.

R. L. Borden emphatically denied that there was any deal between himself and the Premier involving any saw-off. There was no understanding and there would be none.

"If any charges are made," said Mr. Borden, "against any member of the Opposition, then as leader of the Opposition we will brook no delay in demanding an investigation. I am ready this afternoon to go ahead if any charges are filed."

New Member Introduced.

Mr. Michaud, the new member for Victoria, N.B., who succeeds Hon. John Costigan, was introduced yesterday in the House by Sir Wilfrid Laurier and Mr. Emmerson.

The remainder of the sitting was devoted to the tariff in Committee of Ways and Means, nearly all the items being passed.

Mr. Fielding announced that it had been decided to take off the duty on German silver and nickel. Mr. Foster suggested that the Finance Minister reconsider the duty on newspaper matrices. Mr. Fielding promised to look into the matter, and said that if he found there was an injustice it would be remedied.

At the close of the discussion on the tariff the Finance Minister announced that where there had been an increase in the duty since the budget announcement they would not go back and collect, and that, on the other hand, when there had been a decrease, the parties concerned would get the benefit of it.

The House adjourned at 11.30 p.m.

Cobalt Miner Killed.

Cobalt, March 9.—While using a pick-axe in one of the drifts of the Trethewey Mine, George Thompson struck a blind hole and was killed in the explosion that followed, yesterday.

The Manchester corporation is endeavoring to organize direct cattle shipments to Manchester.

A WARNING TO LAURIER.

Premier Roblin Sums Up Significance of the Elections.

Winnipeg, March 9.—The latest results from the province show that the Conservatives have swept the constituencies.

The revised figures yesterday give 26 Conservative and 13 Liberals, with delayed elections in two ridings, Gilbert Plains and Gimli.

In the case of Arthur, Williams (Liberal) is elected over Lyle (Con.) by a majority of 3. Dauphin has gone Liberal.

Premier Roblin says: "The issue before the electors was: 'Shall Manitoba have equality among the provinces that go to make up the Dominion or shall she be the "postage stamp province," as people in Eastern Canada sneeringly call us?' The people of Manitoba has answered emphatically in favor of equity and justice. I trust that the pronouncement has been made loud and clear enough so that Sir Wilfrid Laurier will have heard what the people of Manitoba want in this connection.

"I also accept the vote as an endorsement of the general policy of Government.

"I hope that Sir Wilfrid Laurier will see the necessity of enlarging the boundaries of Manitoba before the present session of Parliament is prorogued. I will not take or accept of any territory less than what is ours in law, and in taking that view I am doing no injustice either to Ontario on the one hand or Saskatchewan on the other."

Edward Brown said that the Opposition had a good fighting force, and this was not the time to give up the fight. Only weak-kneed men would do this. They must go on and expose the rascality of the present administration, and they would be able to do it, he thought, so that the Government themselves would run away from the exposures.

At any rate they had succeeded in arousing the conscience of the people, and he would continue to do his duty as a citizen regardless of results.

SOCIALISTS SNUB KING.

Refuse to Rise While Representative of His Majesty Is Present.

Victoria, B. C., March 9.—The first sensation of the session of British Columbia's new Parliament, which opened Thursday, has been provided by some members of the Socialist party, who deliberately, after consultation, declined to rise in accordance with the custom during the presence of Lieut.-Governor Dunsmuir, as the representative of King Edward.

Leader Hawthornthwaite subsequently defended the course of the party as consistent with the declaration during the campaign, that they recognised no flag but the red banner of Socialism.

He said they had remained seated because they did not propose longer to participate in "the mere mummies of Parliament."

They had not risen in courtesy to the King's representative, nor would they do so hereafter when prayers were read by the bishop or any of the clergy.

Speaker Eberts yesterday made careful examinations of the rules and authorities, but could find nothing to prescribe a penalty for the implied discourtesy to the crown, although a spoken slight is duly dealt with.

TAXATION IN ALBERTA.

Street Railway, Insurance and All Public Utilities Must Pay Tribute.

Edmonton, Alta., March 9.—The Alberta Legislature Thursday passed exterporaneously Premier Rutherford's bill providing for the taxation of practically all conceivable public utility and financial concerns.

Street railways will pay $200 per annum and $10 per mile for everything over twenty miles.

Telegraph companies pay $1 a mile for every mile of line.

Telephone companies pay 50 cents per instrument in cities of 10,000 and 75 cents in cities over.

Gas companies pay $500 annually; electric lightning companies $500 in cities of 10,000, $100 in towns and $25 in villages.

Express companies pay $500; corporations taking money on deposit, $200; banks, $400 for head office and $200 per branch; private banks $200, and $25 for branch.

Insurance companies pay a percentage on gross premiums; trust and loan companies $100 on $100,000 capital.

The bill has passed through all committee stages and becoming law is now only a matter of formality.

REAL BAYONET CHARGE.

Honduras Defeat Nicaraguans With Heavy Loss in Men and Arms.

Puerto Cortez, Honduras, March 9.—Advices received here yesterday confirm the reports that President Bonilla of Honduras defeated the Nicaraguans at Namasiquo, Honduras, March 6, and again defeated them March 7 at Tiguare.

In the fight at Namasiquo, the Honduran forces delivered a bayonet charge against the Nicaraguan trenches, dislodged the enemy, and, besides a number of rifles, captured one cannon.

Salvador In It, Too.

San Salvador, Republic of Salvador, March 9.—The national assembly yesterday decreed the Republic of Salvador to be in a state of siege.

President Zelaya of Nicaragua has issued a violently worded program against Honduras, Guatamala and Salvador.

Previous reports that the Honduran troops are triumphing over the Nicaraguans have been confirmed.

Dying From Fall On Fence.

St. Stephen, N.B., March 9.—William Franks, a cabinet worker, fell from the roof of his house yesterday afternoon, alighting on a picket fence, 15 feet below. He cannot recover.

Played With Matches; Dead.

St. Stephen, N.B., March 9.—The little daughter of Charles Blakely died last night from burns received as a result of playing with matches.

Dr. Charles Wagner was called to the witness stand at the resumption of the Thaw trial in New York today.

THAW TRIAL ADJOURNED

Sudden Termination of Evidence For the Defence.

Move Finds Jerome Unprepared to Proceed—Jury Are Warned Not to Read the Newspapers—No More Experts to Be Called—Witnesses to Be Called to Give Rebuttal Testimony.

New York, March 9.—The trial of Harry K. Thaw yesterday was adjourned until Monday morning at 10.30. After Delphin M. Delmas had announced upon the opening of the court that the defence had concluded its testimony, District Attorney Jerome stated that he had no witnesses ready to proceed with in rebuttal, and at his request an adjournment was taken.

This action was unexpected, for Mr. Delmas served notice late yesterday upon the District Attorney that the defence had abandoned its plan of calling two more experts. Mr. Jerome did not consider the notification as official, and so came into court yesterday morning prepared to listen to more testimony as to Thaw's unsound condition of mind.

The Defence Rests.

When Justice Fitzgerald had ascended the bench and Clerk Peny had called the jury roll, Mr. Delmas arose and said:—

"The defence rests."

Mr. Jerome then said he would have to ask for an adjournment of the case until Monday morning.

"When court adjourned last Wednesday evening," he said, "I had no reason to expect that I would not be confronted this morning by experts called upon to answer a hypothetical question which Mr. Delmas was to frame extemporaneously. Thursday evening, Mr. McPike called upon me with a letter from Mr. Delmas, saying the defence had changed its plans, and would call no more witnesses.

"Under the circumstances I must ask for an adjournment, as I have no witnesses available to-day. My experience with hypothetical questions, framed extemporaneously, has been that they require a long time in the asking, and are subject to more or less discussion. I had expected the putting of these questions would require all of to-day session."

Justice Fitzgerald turned to Mr. Delmas, who said:

"There is not the slightest objection on our part."

Adjourned Till Monday.

Justice Fitzgerald then ordered the adjournment until Monday, admonishing the jurors not to discuss the case with anyone, or among themselves, and, above all, not to read the newspapers.

District Attorney Jerome said he was not prepared to add anything further to his statement of last night, that the evidence he will have to offer in rebuttal will be before the jury by Wednesday evening.

He added that the case should go to the jury by Friday next.

Mrs. Evelyn Nesbit Thaw was in the witness room yesterday, and when court adjourned she immediately went to the Tombs to visit her husband.

Mrs. Wm. Thaw was reported to be dissatisfied that she was not allowed on Wednesday to testify on the question of hereditary insanity in the Thaw family. She wished to explain the statements made during the trial that members of the Thaw family have been in insane asylums. Mrs. Thaw, it was stated, felt that a great injustice had been done the Thaw family by these statements, hence her desire to publicly deny them.

Urges Railroad Construction.

Quebec, March 9.—A large and influential deputation, interested in the extension of the Lake St. John Railway from Robeval to Chibogamon and James Bay, waited upon the Government yesterday to urge the importance and necessity of beginning the construction of the proposed extension without further delay.

Hearst Seriously Ill.

New York, March 9.—William R. Hearst is seriously ill at his home, according to an announcement yesterday, and his engagements for some time to come have been cancelled. Mr. Hearst recently contracted a severe cold.

King Edward started for Biarritz today, by special train from Paris.

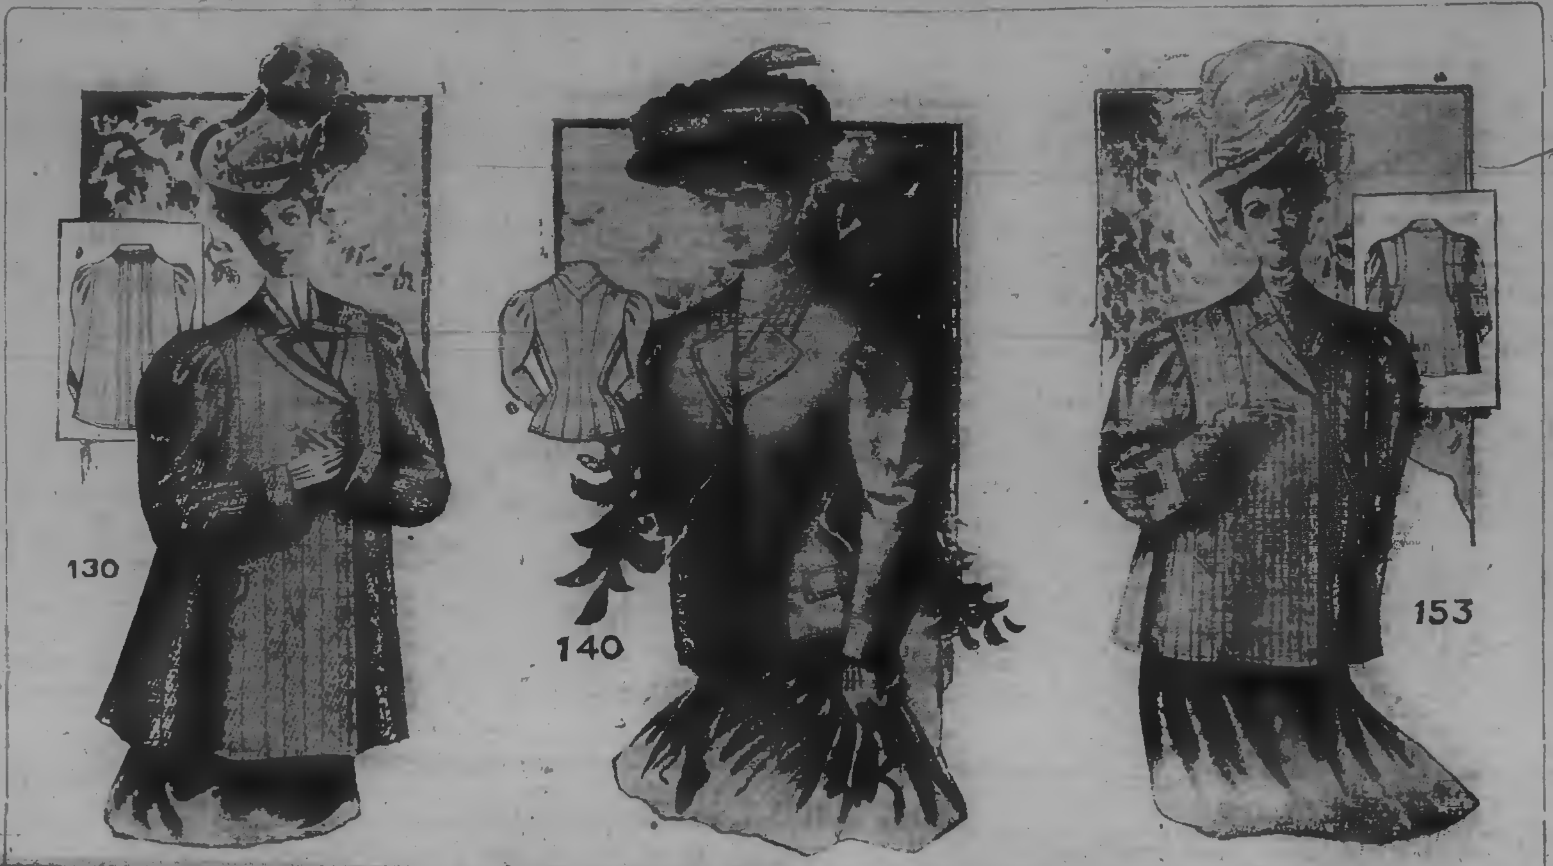
Something of Special Interest In the Realm of Women



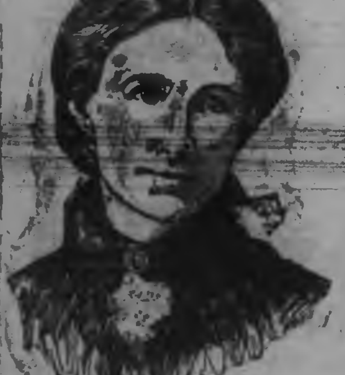
SOME OF THE LATEST IDEAS SHOWN THIS SEASON.

MRS. EMMA A. SUMMERS.

The California "Oil Queen" and Her Business Ability.

One of the most interesting personalities in California is Mrs. Emma A. Summers of Los Angeles, the "Oil Queen." This name has been bestowed upon her primarily because of her vast operations in one of the greatest mineral resources in the state, but it most aptly describes one who by virtue of most superior mental powers rules. There is no brute force in her away, but nevertheless it has been most effective, and, could the story be told, this modest, refined and truly feminine woman has gained victories over combinations of masculine training and abilities that have been backed by capital and influence so powerful that strong captains of industry have gone down under the impact.

But the story of today is success. It has come through purpose and genius. Inheriting from her father, a banker, a farseeing intelligence in financial matters, but reared in a southern home, where all the womanly qualities were accentuated, she is a rare combination of the artist and the business person—one seldom seen, but when found always at the heights of attainment. It was with money earned at



MRS. EMMA A. SUMMERS.

music teaching that she made her first investments in lands and oil wells. In the former, depending upon her own judgment, she has had wonderful success, and she owns lands and houses in various sections of Los Angeles, buying and selling for herself.

But it is in her oil operations Mrs. Summers has attracted the widest attention. When oil was first discovered in the vicinity of her California street home she secured a location for her first well. This was most profitable, and she kept adding to her collection of wells until she had a large number. From the very first she has been thoroughly businesslike in all her dealings and soon commanded the respect of all with whom she was associated. It has not been plain sailing. She has taken her hard knocks without whimpering, however, and has asked no favors in her business because of the fact that she is a woman. Possessed of an undaunted spirit, every backward step has meant an effort that has lifted her still further in her business career. Among oil men she is known as a "good fellow," and there isn't one of *them* better in touch with crude oil conditions and the market than is she.

In personal life Mrs. Summers is a charming woman, full of spirit and delicate intuition. She is intensely interested in Los Angeles and feels herself a part of its innermost workings. Its development is the spirit that animates her. Simple and unaffected in her home life, she is one to comfort and command.—Los Angeles Times.

Sink Knowledge.

Several times a year the average housewife finds herself confronted with a stopped up sink. Amateur efforts at opening the drainpipes are unavailing. Trained skill must be called in, and commotion and plumber's bills follow.

This is one of the many instances where an ounce of prevention is worth a pound of cure. There are kitchens to which the plumber's visit is almost as rare as a blue moon, and with a fairly modern system of drainage and a little care their number might easily increase and multiply.

Sink stoppage is usually caused by grease, sometimes by coffee grounds and in ninety-nine cases out of a hundred by carelessness. See that your plates are scraped free from grease and scraps before they go into the dish pan. Insist that coffee grounds shall find their way into the garbage can rather than the sink. Keep a small, stiff scrubbing brush and an iron sink scraper with a rubber edge near at hand and enforce their use after each dishwashing time.

If these few simple rules are obeyed, if none of the greasy water in which vegetables have been cooked, gravies or other greasy liquids are poured into the sink—and it is not the place for them—if the pipes are scalded daily with clean water and plenty of common washing soda, you run very little risk of stoppage.

A plumber once said to me: "If women would use more soda in their sink pipes, there would be less work for us. Some of them use lye, which cuts the grease, but ruins the pipes. Soda is far better."

Study Deportment and Defy Old Age.

Now, deportment is all a matter of education and habit. In the bringing up of some girls it is utterly neglected. They are never taught to hold themselves properly, and as they get older they deteriorate in this particular to a dreadful degree. Some women at thirty-five look fifty and more simply from the ungainliness of their deportment and the way in which they have allowed their figures to, as it were, run to seed.

They have neglected to throw back their shoulders so as to preserve the flatness of their backs; they have neglected the selection of a suitable make of corset; they have neglected the exercise which would make them agile and keep them supple. The consequence is that they grow stiff of limb, heavy of movement and unwieldy of figure long before they ought.

In some cases, of course, advice is superfluous and perhaps impertinent. We have all a right to do what we like with our own, and if we prefer to look old before our time there is no law to hinder us from doing so.

Those, however, who think otherwise and who consider it worth while to make the best of themselves as long as they can should remember that in this particular the figure is as important as the face, and that if we wish to keep looking young we must of all things not neglect to attend to our deportment.—St. Louis Republic.

In the Bathroom.

The one thing to be avoided is a clutter of small things—too many bottles and boxes on the shelves and tables, a number of rumpled towels and, above all, a rack of clothes hung up to dry. The nickel plate should be kept shining with constant polishing and the white porcelain, tiles and enamel immaculate. The nickel quickly collects the green oxide, and the white enamel takes on a peculiar yellow stain if neglected. Any one who has attempted to correct the results of this neglect in either case has found her task a difficult one and if the neglect has continued too long almost an impossible one. With daily care, soap and water, combined with vigorous scrubbing and rubbing, are quite sufficient. A gritty soap should not be used on either the nickel or the enamel.—Harper's Bazar.

Spots on Tablecloths.

The best way to remove any sort of a spot from a tablecloth is to place a bowl under the spot and draw the cloth over it so there is a little dip in the center. Then pour boiling hot water over it, and it will be found when the spot is dry that the stain has entirely disappeared. This is an excellent way to remove a spot after the table is all set, for by pushing a plate underneath the stain can be removed without difficulty with the boiling water, and by pressing and smoothing it afterward with a dry napkin there will be no trace of it by the time the luncheon or dinner is ready.

Hiding the Radiator.

An unsightly steam radiator has been thoroughly eliminated and disguised by putting an ordinary shelf on iron braces about a foot above it and hanging a curtain in front. The top of the shelf is covered with denim or burlap, and curtains are tacked at each end that hang straight to the floor. The curtain across the front is hung from a slender brass rod and may be pulled to one side when more heat is needed. The shelf extends some distance beyond the ends of the heater and is used for books and pretty bits of china.

Mending Mackintoshes.

An excellent mending cement for mackintoshes is made by dissolving some shreds of pure india rubber in benzine, which will form a stiff paste. Spread the injured part of the mackintosh on something flat, apply a little of the paste to the part to be mended and leave until the cement is hardened. This may also be very satisfactorily employed in mending rubber gloves.

Oiling Floors.

When oiling floors, use a woolen cloth rather than a brush. If the oil is thoroughly rubbed in with the cloth, the result will be much more satisfactory than when put on with a brush. The same is true in staining floors, and in this case the stain should be rubbed into the wood with one cloth and then rubbed off with another.

Rusty Old Oak.

Old oak that has been neglected should be washed in warm beer; then, when dry, wash it again all over with a soft brush with the following mixture: One quart of beer, in which has been boiled a piece of beeswax the size of a walnut, and a tablespoonful of sugar. Leave this to dry, then polish with a soft cloth.

Trays In Drawers.

If one finds herself confronted with deep drawers in which many things must be kept smooth, inserting trays as in a trunk is a good idea. If tape hangers are sewed at either end, the tray is easily removed when wishing to get at things beneath.

It is a good plan to tack a piece of white oilcloth on the wall back of the kitchen tables, as otherwise it will soon become discolored and greasy, a result that is almost unavoidable.

When linoleum begins to show wear, paint the surface with a good quality floor varnish and allow it a longer time to dry than would be necessary for wooden boards.

Hand massage is very helpful in distributing superfluous flesh over the chest and neck. No other treatment can accomplish this.

An underskirt that is outgrown can be lengthened by a yoke at the top or a ruffle at the bottom.

Glasses and the Eyes.

Every one knows that in using a field glass it is necessary to adjust it to a proper focus. Suppose that you put one of the tubes at your focus and the other tube at a focus that suited some one else and then you looked through both tubes. You would have a more or less blurred vision, and if you kept on looking the chances are that you would feel giddy and get a headache. Now, the two eyes are supposed to have an equal natural focus, and when by any chance that focus is unequal a headache results. The remedy is a pair of glasses or a single glass to make the eyes equal in power.

THE LITTLE WOMAN.

Exercise and Tricks of Dress That Will Make Her Seem Taller.

The woman who wants to seem taller must see how slender she can be. The thinner she is the taller she will look, other things being equal. But there are things she must do.

These are the things to be learned: First, to hold up your head; second, to dress in long skirts, and, third, to dress your neck longer and wear the hair as high as possible. You must wear your gowns broader on the shoulders and must dress wider, so to speak. Little women make a mistake if they wear tight fitting shoulders and long, thin sleeves. They only make themselves look wizened.

The following is a good exercise to practice: Lift the arms. Then stoop and rest on the right knee. Rising, reverse the motion and rest on the other knee. Then run down the room, jumping from foot to foot. Then come back, still jumping and this time lifting the feet as though you were skipping. The final movement is to toss the arms upward and bend backward.

There is a reason for all things, and the reason why these exercises make the little woman taller is that they make her supple. She grows much more limber, and if you are limber you will seem to be taller than you really are. The little lithe woman who can skip about if necessary is much taller in appearance than the little stiff woman who cannot jump about to save her life and must walk as though she were in a vise.

PERFUMED CAPS.

Dainty Method of Imparting a Faint Scent to the Hair.

For the woman who enjoys delicate scents the most bewitching cap has been invented. It is made of either pink or blue taffeta and lined with soft white silk. It is gathered up like the caps of our great-grandmothers, leaving a charming little ruffle at the edge, from which a curl or two may legitimately escape.

The cap is softly wadded and perfumed. One night's sleep in the pretty affair leaves your hair delightfully scented for days, or it may be worn for a short time in the afternoon before going out for a dance in the evening, and the hair will be sufficiently perfumed.

The hair has the quality of retaining any odor, pleasant or unpleasant, for a very long time. That is why the housekeeper is urged so strongly to cover her locks with the rubber cap when frying buckwheat cakes.

Liquid perfume should always be used in an atomizer. It will then be scattered in the minutest quantities and will reach those near you in what poets are pleased to call "faint, indefinable waftings." If you place your handkerchief at the top of the bottle and swash the contents against the fabric, you will waft anything but an "indefinable" perfume. Atomizers are to be had in all sorts of charming designs, both expensive and inexpensive. —Chicago News.

Two cases of smallpox have been found at the Imperial hotel, Brantford, and removed to the Isolation hospital. The other inmates of the hotel have been placed under quarantine.

Bungalows.

Bungalows may be built of stud walls on a brick foundation, covered externally either with tiles, weatherboarding creosoted or stained and varnished, with rough cast or half timbered work. Inside the walls should be plastered.

Pingyang.

Pingyang, in northern Korea, was the first "literary center" in the Peninsular Kingdom. Its chief author was an ancestor of Confucius named Kishi, who, gathering up his writing materials and leaving China in 1122 B. C., emigrated eastward into Korean regions. His name is greatly venerated, and many tablets still exist in his honor in the northern parts of Korea.

A Big Family.

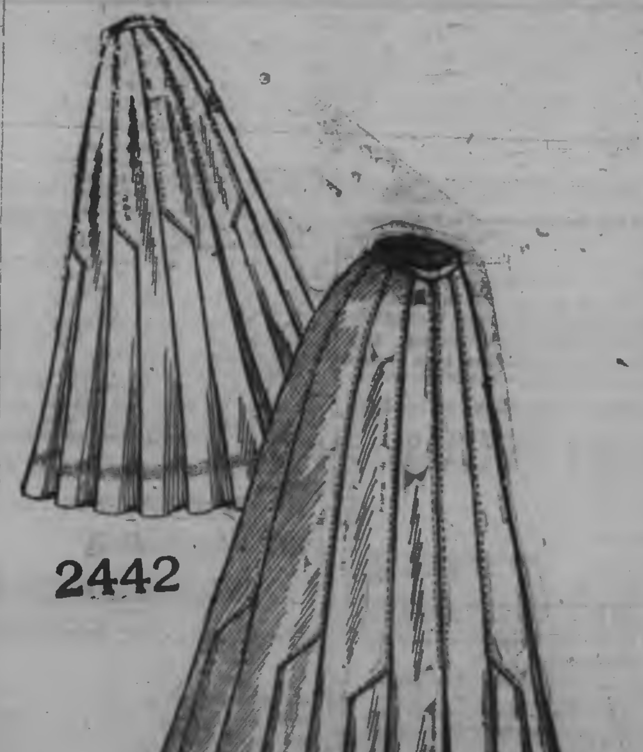
Dennis Koorobee, who died in Ireland in the early part of 1852, had 48 children, 236 grandchildren and 944 great-grandchildren.

The Camel's Foot.

The camel's foot is a soft cushion peculiarly well adapted to the stones and gravel over which it is constantly walking. During a single journey through the Sahara horses have worn out three sets of shoes, while the camel's feet are not even sore.

The Roman Catacombs.

The Roman catacombs are 580 miles in extent, and it is estimated that from 6,000,000 to 15,000,000 dead are there interred.



2442

One of the New Pleated Skirts.

The separate skirt is to be very popular during the coming months and its most fashionable guise is a multitude of pleats. Here is a skirt rather unique in style and yet not difficult to fashion. There are eleven gores, the extra fulness let in at flounce depth being arranged in side pleats with inverted pleats at front and back. This insures a perfect-fitting upper portion and plenty of fulness at the lower edge. Checks and stripes are very smart for these odd skirts and either might be used here while one of the many plain materials would also prove pleasing. For the medium size 7 1-2 yards of 42 inch goods are needed.

2442.—5 sizes, 22 to 30 inches waist measure.

The price of this pattern is 10 cents.

NO SENSE OF HUMOR.

A Scientist's Criticism of a Comic Book For Children.

Charles Monselet, a Frenchman of letters, published a comic "scientific dictionary" for the benefit of children, who found no little amusement in his odd accounts of things in the animal world which were perfectly familiar to them, but which were described in a rather fantastic way in M. Monselet's book.

The editor of a certain scientific journal, however, was much surprised and shocked at M. Monselet's ignorance when he took up the book, and he wrote an article about it in his paper, which ran as follows:

"A certain M. Monselet has published a dictionary for the use of children, which contains definitions showing the most extraordinary ignorance, such as the following:

"'Sardine—A little fish without any head which lives in oil.'

"As if a fish could live without a head and in oil!

"Another definition:

"'Parrot—A bird somewhat resembling the pigeon, generally green when it is not red or yellow or blue. Cockatoos sometimes live to be a hundred years old, except when they are stuffed, and then there is no limit to the length of their life.'

"Now, it happens that the parrot is not a pigeon at all and never has the colors that M. Monselet gives to him, and, in short, this M. Monselet knows no more of natural history than he has grains of common sense."

THE MALE OPERA HAT.

Why It Rises [illegible] Passing Fashion Dictates.

Men generally protest against the changes of style in hats, and one of the sex has written to the New York Mall this complaint:

Why attack as a "collapsible, many named pretender" the opera hat, or chapeau de claque?

I have such a hat and also a silk hat, in which respect I think I differ from most Gothamites. Whenever I have an option I wear the opera rather than the other. It's more convenient.

At the theater or opera you can carry it better on your between the acts promenades. If there is no rack for your hat under the seat you can tuck it in your overcoat and put it on the floor under you without destroying it, as you would do with a silk hat.

If you put your hat in the rack under your seat and then rise and stand close to it to permit a late comer to pass an opera hat suffers no damage. A silk hat would be either ruffled or crushed.

The opera hat looks as well at all times as the silk hat and requires much less care. Indeed, I think it looks better. The glossy surface of a silk hat, like the glossy bosom of a stiff white shirt, is an uncomfortable survival of the time when men wore polished helmets and breastplates.

There is so much reason in the opera hat that men of discrimination will continue to wear it, the style of the moment regardless.

A Dog Habit.

Have you ever thought why it is that a dog turns around and around when he jumps up on his cushion or starts to settle himself anywhere for a nap? Now that you are reminded you can recall that you have seen a *dog* do it many times, can't you? This habit is about all that is left to our tame little doggies of the days long ago, when they were a race of wild animals and lived in the woods. Their beds then were matted grass and leaves, and it was to trample enough grass and properly arrange the leaves that the dog always trod around a narrow circle before he would lie down. The dog of today keeps up the same old habit, although there is no longer any need for it, and of course the animal has no notion why he does it.

A Bond of Sympathy.

While the new maid tidied the room the busy woman kept on writing.

"Do you make that all out of your own head?" asked Jane.

"Yes," said the busy woman.

"My," said Jane admiringly, "you must have brains!"

"Brains!" sighed the woman despondently. "Oh, Jane, I haven't an ounce of brains."

For a moment Jane regarded her with sincere commiseration.

"Oh, well," she said presently, "don't mind what I say. I ain't very smart myself."

Similarity of Writing.

"From my pile of autographs I take one of a statesman well known and lay it side by side with the autographs of a great author and a great ecclesiastic," writes a British publicist. "All three are very small, exquisitely neat, very little slanted, absolutely legible. Well as I knew the three writers, I doubt if I could tell which wrote which. They were Cardinal Manning, Mr. Froude and Lord Rosebery. Will the experts tell me if in this case similarity of writing bodied forth similarity of [illegible]?"

A GRATIFYING SHOWING

In reference to the report of the Royal Insurance Commission, the evidence of the Sun Life Assurance Company before that body has proved to be the strongest and most convincing advertisement that the company ever had. It showed the great strength and absolute safety of the investments of the company. It further demonstrated the sound business principles and conservative management which have characterized this old and progressive organization. A complete and irrefutable answer to any little fault finding on minor matters that was done by the commission will be found in another column. The surplus earned during 1906 by the company was $921,721.34, the greatest amount of profits by any insurance company in Canada. The annual report also shows splendid growth in all departments. The cash income from premiums, interest and rents was $6,212,615.02, an increase of $495,122,79 over 1905. The assets of the company on Dec. 31st, 1906, stood at $24,292,692.65, which is an advance over 1905 of $2,983,307.83. During 1906 there was paid $1,980,855.52 in death claims, matured endowments, profits and other payments to policyholders, while the payments to policyholders since the company's organization has been $15,099,223.87, and the total life assurance in force on December 31st, 1906, was $102,566,398.10. The figures proclaim in eloquent terms the standing and growth of the company, its rapid progress and excellent administration and expansion. Reverting to the insurance commissions report in a recent interview, Mr. T. B. Macauley, general manager, takes exception to some of the criticisms passed by the commission upon his own company, remarking, however, that the real judges in this matter were the public, and that the public verdict had evidently not gone against the Sun Life. "The public has been in possession of the evidence relating to the company for a considerable time," said Mr. Macauley, "and, indeed, we made special efforts to see that it was put in possession of that evidence as thoroughly as possible; and the business of the company, during and since the investigation is a sufficient evidence of what the public think of us."

Regarding investments, Mr. Macauley says: "In the matter of investments the commission has gone to such an extreme that it should be comparatively easy for the insurance companies to convince Parliament of the inadvisability of its proposals. Bank stock, which appears to be about the only stock we are free to invest in, is particularly unsatisfactory as an insurance security. As for investments in bonds, I have only to point out that any company which had confined its purchases to gilt-edged securities of that class, during the last ten years would have lost from 10 to 20 per cent. by their shrinkage in value and would probably by this time be insolvent. It is losses of this kind which have made some of the strongest British companies pass their dividends in recent years, and compelled them to write down their securities by millions of dollars. The whole tendency of the present financial movement is against the creditor or the holder of the fixed-value security, and in favor of the debtor class, or the owners of real producing wealth. The holding of stock is the only way of sharing in the earnings of any undertaking, and these earnings are going up, just as the value of obligations is going down. This is a condition which rests largely on the question of gold production, and the value of money, which I can hardly go into now; but I do not believe there is any evidence that the movement which has been going on for years is going to end."

THE ENGLISH IMMIGRANT

Toronto News.

The Peterborough Examiner recently published a remarkable letter alleging that Englishmen were less worthy of being allowed to enter Canada than Chinamen, who were of some use, being at least able to wash shirts. Every now and then somebody with a cacoethes scribendi writes a lot of bosh to his favorite journal voicing his contempt for the English immigrant. The reason is not a general knowledge of his subject. Rather it is a general ignorance. One individual experience with some half-dazed, half-sullen lad, fresh from England, has soured the writer's whole spirit toward the Mother Country. It is always dangerous to generalize from a particular case, because these cases are on the whole infrequent, although they are the only ones we hear about. The employer who is well satisfied with his English employee does not spend time writing to the papers. Thus the thousands of intelligent, hard-working and generally satisfactory Englishmen, who have good positions in Canada, are seldom if ever, heard of in the papers.

The Examiner was within its right in publishing the letter, even though the Young Conservative Club of Peterborough met and passed a resolution condemning the sentiments in the offending letter, and denouncing the Examiner for printing it. Of course, it would be hard to imagine that the Young Conservative Club would be pleased with anything the Examiner might do or say. It is hard for a political club to agree with the organ of its opponents. The club's resolution records strong disapproval of the action of the Examiner in encouraging a feeling of hostility on the part of Canadians towards English immigrants. 2. Disapproves of the contemptuous sentiments expressed in the letter. 3. Extends a very cordial welcome to all immigrants to Canada from the British Isles, and declares that Canadians will give them a most hearty welcome.

It may as well be admitted that among too large a class in this Province, the English immigrant is at a discount. For many years we received comparatively few immigrants from England, and they were of the best type, sturdy pioneers, sober, efficient workmen, a strength to any community. Then the hard times in Great Britain, following the Boer War changed this, and there came a rush of the class we do not need and do not want, those who are unemployed because they are unemployable. The type could be seen last year on the streets of this city. The double-peaked cap, the pale, putty-colored face, the impudent leer, the cigarette, and the vari-colored language, all marked him of the type that had left his country for his country's good. But this class of immigrant is not coming here now, at least not in any appreciable numbers. And, at best, they make but a small portion out of the total number of young Englishmen, who are making a good livelihood here, a credit to their native land, and to their adopted country.

Surely it is obligatory on us, in this strong young country, to bear more patiently with the faults and foibles of the English immigrant. They like ourselves, belong to the one stock, and if that stock was so bad as a few people aver, there had been no British Empire today. It is our duty to welcome the immigrant, and try to help him find his bearings in his new home, and to be patient until he learns our ways. Above all, we should not bluster contemptuous platitudes about the uselessness of the English immigrant. Such talk is foolish and short-sighted in the extreme, when we consider how this country needs the sturdy British immigrant, and it is quite natural that Englishmen should resent such vaporings as were printed in the Examiner.

The Galt School Board has decided to engage an extra teacher whose duty it shall be to give individual instruction to backward pupils. The plan is to have a small room at present available, to which all pupils needing special instruction may be sent at stated hours. The duty of the extra teacher will be to take up with the pupils so sent the various subjects in which they are deficient. The idea is one that might be adopted elsewhere. Backward pupils have a tendency to retard the progress of other pupils in their classes

---

In addressing the deputation of oil men which waited upon him the other day to protest against the proposed tax on natural gas, Hon. Frank Cochrane, Minister of Lands and Mines said:—"I had hoped that the day was past when the argument of vote-getting or vote-losing was supposed to weigh with a minister over what he believed to be right, and what was in the interests of the province." Such an expression was never heard nor even thought of in the days of the Ross administration. Had a Cabinet Minister then dared to give utterance to such sentiments he would have been told by his political associates that he was suffering from paresis.

Good News for Householders

Eggs are Coming Down in Price—20 to 22c To-day

The price of eggs made a noise like a waterfall on the market this morning, dropping from 25c and 26c per dozen to 20c and 22c. Not since last summer was there such a big supply on hand and the natural result was a downward trend in prices. The market opened at 24c and 25c. per dozen, but there were few sales at these figures and quotations started to come down. Twenty-two cents was the ruling figure for small lots.

Butter showed no tendency to move from the old groove and was in fair demand at 24c to 26c per pound for dairy rolls and prints.

Potatoes were 90c. per bag, beef 5c and 6c, and pork 10c and 11c per pound, by the quarter. Some fine beef was offered for sale.

Poultry was scarce, especially turkeys. There was practically none of the latter on hand and several people who were after them were disappointed. Chickens sold at 60c. to 90c. per pair.

Several loads of hay sold at $14 per ton.

Fine Programme for T.A.S. Concert

It Promises to be a Great Success.

A splendid entertainment is assured for Monday night, March 18, when the annual concert under the auspices of St. Peter's T.A.S. will be held at the Grand Opera House. An excellent programme is being arranged, including vocal selections by Miss Levina Hallihan and Mr H Ruthven MacDonald, of Toronto, a one-act Irish drama, "A Limerick Boy" and a tableaux entitled "Erin" which is said to be exceedingly pretty. The T.A.S. band will render Irish airs and there will be several other features.

It is expected that the concert will be a great success. The plan will open at the Opera House on Friday, March 15th.

Y. M. C. A. SECRETARY HAS RESIGNED

Mr J. C. Hayden secretary of the Y.M.C.A., left last evening for Lachine, Que., where he has accepted a position as superintendent with the Canada Radiator Company. Jack's departure was rather earlier than expected, and consequently it was impossible to show in a tangible form Port Hope's appreciation of his untiring efforts in every good cause He carries with him the best wishes of every Port Hoper for a bright and happy future, and we hope soon to have him back with us again.—Port Hope Guide.

HARRY ADAMS

Old Fashioned Fight at Corner Of George and Charlotte Streets

Young Man Taken to Doctor for Repairs--He Intended to Thrash Policeman But He Has Postponed the Affair Indefinitely.

A lot of young fellows created a very lively time at the corner of Charlotte and George streets late last evening. Two of the gang had a few words, and then had a good old-fashioned fist fight. The story of the great event, as told by one of the party was briefly as follows:—A couple of the boys got—about two sheets in the wind, and then they thought they could "lick" the whole British army. They had a grudge against Policeman Newball from a previous fracas, and last night they thought was about as good a time as any to give that cop all that they thought was coming to him. They started up street to carry out their scheme, but were met by a number of their friends who undertook to prevent them carrying out their purpose. For a while the would-be pugilists submitted and walked down Charlotte street to Aylmer, when they suddenly wheeled and started back for the cop. At the corner of Charlotte and George streets another halt was made, and one of the peace-makers remonstrated with one of the braves. Inside of one minute the fellow who had imbibed too freely "hauled off and smashed" his friend in the face. That was all that was necessary, and for several minutes biff! bang! biff! was all that could be heard, except that each blow was punctuated with "——— I'll show you who you're hitting."

The scrap ended when the fellow with the jag had to quit. One eye was closed, his lips were cut on the inside and were badly swollen, and one or two nice cuts on the head, besides several minor bruises. He was a fit subject for the doctor to look after, and the services of Dr. King were secured.

The other young fellow received a black eye or two, several punches in the face, and he also broke a bone in his hand.

Site for the New Catholic Church Has Been Purchased

The new Catholic church will be built at the corner of Romaine and Aylmer streets. The site for the edifice has been purchased on the north-west corner at the intersection of the thoroughfares named above and the erection of the church will be commenced in a few weeks. The lot purchased was the property of Mr. N. de Laplante and is spacious and well-situated. The site is a splendid one for the purpose required and the new edifice will add greatly to the appearance of that part of the city.

The architects are now working on the plans for the building which, it is said, will be a beautiful one. In view of the rapid growth of the south end of the city and the bright prospects for still further expansion the church will be built somewhat larger than the needs of the present demand. The future has to be considered.

Most Daring Wire Walker Lives Quietly Near Port Hope

Eclipsed the Wonderful Blondin in the Early Days—His First Performances in the Lakeside Town—The Former Signor Farini Now Enjoys Rural Life and Drives Speedy Horses.

Two or three weeks ago the veteran theatrical manager, Marcus R. Mayer, was standing in the corridor of the King Edward Hotel, says Toronto Saturday Night, when a handsome old gentleman came up and shook hands with him, with the remark "You won't remember me; we last met in London, Eng., in 1871."

Mr. Mayer, who prides himself on his remembrance of faces and names, looked him over for a second, and said, "Hello! Farini!" and he was right, for the man who addressed him was a man who, forty years ago, was famous the world over as Signor Farini, supposed to be the most daring wire walker and all-round circus performer of his time. He eclipsed the wonderful Blondin, and earned large sums of money all over America and in every country of Europe. Talk revealed that the man who once struck thousands with awe by his hairbreath feats was living the quiet life of a country gentleman near Port Hope, Ont., his native town. Although the world supposed him to be an Italian, he was in reality a lad off a Durham county farm by the name of Hunt. His dark, distinguished appearance, bore out the illusion that he was a foreigner, but for years he was in the habit of dropping back to the old town to see his friends. When a few years ago he dropped the circus business, after having amassed a considerable fortune, he decided to spend his old age on the old farm, where he could drive good horses and amuse himself with pastoral pursuits.

Old Port Hope boys tell an interesting anecdote of young Hunt's first public appearance of any kind as a wire walker. Inspired by the example of the famous Blondin he had practiced his future profession on the ridge pole of the barn. His skill had been bruited abroad by all the envious youths of the countryside, and when he announced a public exhibition hundreds gathered from far and near to see him. This was somewhere about 1859 and 1860. Through the main street of the town of Port Hope runs Smith's Creek, then a more imposing stream than it is at present, with tall mills on each side of the stream, the banks and bed of which are solid lime stone. It was on a wire stretched from one mill to another across Smith's Creek that young Hunt made, with success, his first public appearance. The sensation which it caused was preceded by a hardly less sensational episode. Some of the town boys prior to the performance climbed up to the roof of the mill and thrust a cat out on the wire. The poor beast was afraid to back up and saw no escape, but to attempt wire walking itself. It struggled along, sometimes slipping off, but invariably catching the wire with its front paws and clambering back again. At last came the fatal slip and the women groaned and children screamed as the cat hurtled through the air straight for the limestone ledge below. Then, to the blank astonishment of all, puss struck on her feet and scampered off unhurt. She had justified the theory that a cat has nine lives, and she did not wait to witness the future Farini's performance.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Grand Opera House, Dora Thorne.
Y.M.C.A Hall, Sixth Saturday night "Pop."

W. A. A. MEETING.

The Madonna Club of the W. A. A. will meet on Monday evening at 7.30, at the residence of Miss Hamilton, Reid street

STRANGER'S TEA.

The first of the Stranger's Teas of the Y.W.C.A., which are to be held monthly, will take place tomorrow evening at five o'clock.

GOING TO TORONTO.

Mr Alfred T. Byrd, who has been employed at the C.G.E. works for two years, has accepted a position in structural steel work in Toronto. His fellow workmen in the tool drafting department presented him with a valuable mathematical "slide rule." Mr. Byrd's many friends will wish him every success in Toronto.

NOT FOXY GRANDPA.

Mrs Colden, of Roslin, had an exciting adventure a couple of weeks ago. While at her home she heard her dog making a great fuss outside of the house. She looked out and saw the dog after a fox. Mrs. Colden hurried out and grabbed a stick. Just then the dog caught the fox and held it, and the lady gave Reynard his quietus with the stick. It isn't every farmer's wife who can kill a fox in her own back yard.

BIBLE CLUB.

"With the Disciples—About His Death," is the subject for the Saturday Bible Club at the Y. M. C. A. tonight at 7.45 o'clock. Mr. Shook the leader, will be present.

ENTERS UPON DUTY.

Mr Stewart Masson, a former Peterborough barrister, who has been appointed police magistrate of Belleville, has entered upon his new duties.

WHAT'S IN A NAME.

That was a "fair-mix" at Port Hope the other day when Miss Susan Micks of that town, became the bride of Mr. Robert Best Fair of Peterborough.—Norwood Register.

WILL RECITE.

At the entertainment on Thursday night —Englishmen's night —at the Young Conservative Club rooms, Col. Miller will recite "The Flag." Mr H. R. H. Kenner, B.A., will also give a five minutes' talk on "The Beauties of Rural England." This will be a decided feature of the evening's entertainment.

SOME QUICK HANDLING.

On Monday last, the 14th inst., Geo. Peters unloaded a car of flour containing 21 tons, in a little less than three hours, hauling it from the station to Mr. J. L. Squire's warehouse in five loads. If you doubt it, ask either George or John Patterson, who were loading the same car for the west, and were more than eye-witnesses of the work.—Norwood Register.

BIG ICE HARVEST.

Mr. J. L. Squire of Norwood, reports the ice harvest this year to have been far ahead of all previous years, quite 6,000 tons having been cut, nearly 400 carloads were shipped away and considerably over $1,000 paid out as wages.

RESIDENCE SOLD.

Mr. Geo. W. Buck has purchased Mr. I. N. Ackerman's handsome residence on Ridge street, Norwood. Mr. Ackerman has reserved a portion of the lot, upon which he will proceed as soon as spring opens to erect another house for himself.

A GOOD CHOIR.

The Millbrook Mirror speaking of the visit of George street choir to that town, among other things says: "The concert given by the Peterborough, George Street Methodist choir in the Millbrook Methodist church on Tuesday evening, proved a real treat to all who attended. The choir is about thirty-five strong, among whom are a number of soloists of a high order. The program was one of the best ever presented to a Millbrook audience."

A NOTED CRIMINAL.

Evangelist Alex. Torrie will be the speaker at the Y.M.C.A. on Sunday at 4 o'clock. His subject will be "A Noted Criminal." The male quartette will sing. There will also be other special music. Every man in the city is invited to attend.

FARMERS NEED MEN.

Farmers are continually writing the government immigration bureau for farm help. At the present time some [illegible] applications are on file at the Ontario immigration office. Mr. J. H. Tutt, the immigration agent, states he believes farm labor will be harder to get this year than ever. Only 10 out of the last 150 immigrants arrived in Ontario have gone to the farm.—Madoc Review.

GOOD GROCERY BARGAINS.

By reference to the Review advertising columns it will be seen that Mr. F. J. R. Mitchell has decided to retire from the grocery part of his business and confine himself altogether to the wine and liquor branch of the business. In the meantime the entire stock of groceries will be sold at prices that will ensure a speedy sale. The stock is fresh, up-to-date and at prices at which it is offered will mean money saved to early buyers. tf

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10.00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

LANG & MAHER
CLOTHIERS AND FURNISHERS TO MEN WHO KNOW.

PERSONAL

Mrs. Laiviolette left yesterday for Grand Rapids, Mich.

Mr. T. George Holmes, of Port Hope, was in the city yesterday.

Mrs. Vance, of Millbrook, has been a guest of Mrs. R. Neill for the past few days.

Messrs. Byron and Charlie Haddy of Toronto, are the guests of Mrs. Wm. Thompson, Stewart street.

Ald. A. A. and Mrs. McIntyre left this morning for Toronto, where they will visit with friends for a few days.

Rev. Canon Davidson was in Lakefield yesterday and gave the address at the Lenten service held in St. John's church last evening.

Mrs. P. Sarginson, of Peterborough, is spending a few days in town, with her brother, Mr. S. Laidlaw.—Lindsay Post.

Mrs. Chas. Dusty, of Peterborough, is at present visiting her son-in-law, Mr. H. Hammond, superintendent of the waterworks.—Lindsay Post.

Mrs. Wm. Pringle, Bethune street, entertained a number of her friends at "twin teas" on Wednesday and Friday afternoons of this week.

Miss Mabel and Master Harold Brown, George street, entertained about thirty of their young friends last evening at their home.

Mrs. Blight is arranging the programme for the Strolling Players tomorrow, assisted by Mrs. Ernest Payne, Mrs. Sidney Muirhead and Mr. R. N. Joliffe.—Toronto News.

Miss Clark, Harcourt street, who has been ill for the past two months we are pleased to see, is well again, and has gone to visit her sister, Mrs. W. H. Cluxton, Peterborough.—Port Hope Guide.

Miss Reid, of Richard Hall & Son Limited, left this morning for New York, to attend the dress makers' openings which open there next week. Miss Reid has been fortunate in securing cards of admission to all the leading, exclusive and high class dress makers' parlors, which gives her a great chance to view and examine the gowns worn by the greatest society women of America.

Three Rinks are Left in Running

In the scheduled rink competition of the curling club three rinks are tied for first place, those skipped by S. Ray, C. Rutherford and D. Hall. They will play off early next week and the games should be exceedingly close and interesting as all the rinks are good ones. The first prize is four pairs of gold cuff links and the second four silver spoons.

On dit that 4th Vice-President F. H. McGuigan is to become president of the Grand Trunk Pacific Construction Company.

Difficult to Secure Teachers

The Lindsay Board of Education are in a quandary because of inability to secure school teachers. The two engaged at the last meeting are not available, one having been engaged just the day before the Lindsay Board's acceptance reached him, and the other, a lady, withdrawing after being engaged.

PILES CURED IN 6 to 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

A Young Lady Lost Her Watch

Finder Requested to Leave With Chief Roszel or at Review Office

Chief Roszel this morning received a letter from Miss Grace Howes, stating that while walking up and down the station platform Wednesday she was unfortunate enough to lose her watch. The young lady also walked up Charlotte street before she discovered her loss. The watch is of gun metal, with a brass fob attached, initialled G. D. H. The finder is requested to leave it at the police station or at this office, when it will be forwarded to the owner.

Health and Wealth

That's what the people get who trade at Kennedy's. Our Beef is prime, tender and juicy. We handle nothing but choice steers and heifers. Those who eat Kennedy's Beef will have no indigestion pains, which you are sure to have if you eat tough beef. Therefore, by trading at Kennedy's you can save the money that you would have to pay the druggist for medicine to digest tough beef. Give us a trial and be convinced as to the quality of our Beef.

TRIPE—This week we have nice fresh Tripe—the most delicious dish you could eat, when properly prepared.

PROVISIONS—A full stock of Fresh Provisions always on hand. Customers tell us our Cheese is the best in the city. You will find it rich and mellow.

KENNEDY'S

ARE YOU INTERESTED

We are alive to the interest of our customers.

Supreme Chief of Foresters

Mr. E. G. Stevenson, of Detroit, Succeeds Dr. Oronhyatekha

Mr. Elliott G. Stevenson, of Detroit, Supreme Councillor of the Independent Order of Foresters, has been chosen as the successor of the late Dr. Oronhyatekha in the position of Supreme Chief Ranger of the Order.

Mr. Stevenson is a member of the law firm of Messrs. Dickenson, Stevenson, Warren and Butzel, Detroit, Michigan, and is one of the best known Foresters in the Dominion. The late Chief Oronhyatekha expressed the desire that Mr. Stevenson should succeed him. Mr. Stevenson was the choice of more than a majority of the members of the Supreme Executive.

MORE CROWS SEEN TO-DAY

Persons residing in the vicinity of the G.T.R. station are of the opinion today that spring is near at hand. This afternoon three crows passed over that locality, calling shrilly as they flew along. With this kind of weather the crows should have no caws for complaint.

LOCAL NEWS ITEMS

NOTHING DOING.

As usual there was nothing doing again this morning in police court. All was peace and quietness.

BRIGHTENING UP.

Messrs. Duncan and Doupe are making improvements to their paint shop on Brock street.

LECTURE AT ST. JOHN'S.

On Monday evening Rev. H. Ben Oliel of Millbrook, will give a lecture on Jerusalem at St. John's church.

BOARD OF EDUCATION.

A regular meeting of the Board of Education will take place at the Secretary's office, 437 George street, on Monday next, at 7.45 o'clock.

DANCE AT CHEMONG

[illegible] ong Park hotel on Monday evening. A number from the city will attend.

COSTLIER TEA.

As predicted a few weeks ago consumers of tea will have to pay a somewhat increased price for the article, the figure having advanced in the last few days. On the low grades the advance is about four cents a pound, on medium grades two cents, while on the high grades it is slighter. The increased figures are attributable to a shortage of about thirteen million pounds in the crop, while consumption has increased. English houses are actually importing teas from Canadian dealers.

MR. FORSYTH TO TAKE PART.

On Friday evening, March 8th, the young ladies of Knox Mission Band purpose holding a concert in the town hall, Norwood, for which first-class talent has been secured.—Miss Maude L. Smith, principal of the elocution department of the Metropolitan School of Music, Toronto, elocutionist; Miss A. Ivary, soprano; Miss M. Harrison, contralto; Mr. J. W. Markie, bass; Mr. Cecil Carl Forsyth, pianist and accompanist, of Peterborough, will take part.

PETERBOROUGH ARTISTS.

The Millbrook Mirror says —"The concert held in the Presbyterian church on Thursday evening last, was not as well patronized as the excellence of the programme provided would call for. Professor Forsyth of Peterborough, with his company of entertainers, delighted those who availed themselves of the opportunity to attend. Mrs. W. Howson, soprano, of Peterborough, more than sustained her former reputation, her numbers being exceptionally fine and most beautifully rendered. Prof. Forsyth proved himself a master of the piano in his accompaniments.

DENIES REPORT.

Mrs. William Dickson of Westwood, was in the village on Tuesday, and speaking in reference to an item which appeared in several of the papers a few weeks ago, with reference to Mr. Dickson punishing his son for using tobacco, says the Norwood Register, Mrs. Dickson states that there is not a shadow of truth in the report; that the two boys were not near the woods on the day mentioned and had no intention of going. The case has not been tried and is not likely to be. Mrs. Dickson states, as there is no foundation whatever for the story, which she says was deliberately circulated to injure them.

CEMENT WALKS.

The question of borrowing money on debentures to build cement sidewalks and enlarge the town hall was pretty fully discussed last week by Mr. Buck, says the Norwood Register. There is one point, however which we would like to mention. We are paying out $300 per year in repairing the present wooden sidewalks, whereas the interest on the $10,000 would only amount to $268.70 per annum. In other words we would have the use of the new walks for twenty years and also have the improvements made to the town hall for less than what the old walks are costing us for repairs. These old wooden walks are getting worse and worse every year. We cannot hope, therefore, that the expenditure on these will be any less in the future only as they are replaced with cement.

General Booth, the aged leader of the Salvation Army, arrived in New York today. He will spend two days as the guest of his daughter, Commander Eva Booth, and then will leave for Canada.

NEW ARMOURY FOR BELLEVILLE

Plans Have Arrived for the Large Handsome Structure

Col. Stewart has received plans of the proposed new drill shed, which, judging by the said plans, will be quite an ornate structure. It will have main doors facing on Bridge and Pinnacle streets, the officers' quarters being on the corner of Bridge and Pinnacle. The plans call for the erection of a building of cut stone front with brick elevation. No intimation has yet been received as to when the work will start but, as Col. Stewart expresses it, "It looks as though things were moving." The building will have an exterior measurement of 210x135 feet.—Belleville Intelligencer.

Passengers for Great Britain

And Europe Should Book Now and be Sure of Accommodation.

The public are herewith reminded that now is the time to book passengers to either Great Britain or Europe, via the Allan Line, Dominion Line, or C.P.R. Atlantic Steamship line. The ocean traffic promises to be very heavy during the coming summer and accomodation should be booked ahead.

Englishmen, Irishmen and Scotchmen, you are all as welcome to this fair Canada of ours as the flowers in May, and don't forget when you send for your family or your best girl, purchase a prepaid ticket from W. McIlroy, City Passenger Agent, C.P.R., 343 George street, Peterborough.

Eastern Champs Wanted Game Here

Wanderers Wired for a Match Here To-night

The Montreal Wanderers, champions of the Eastern League, who are [illegible] ara, where they will play for the Stanley Cup, yesterday wired C. G. Graham asking for a match at Peterborough to-night. However, the locals did not care to take on the eastern professionals and the game was not arranged. The Wanderers play in Toronto against the pros. on Monday night. The Montrealers are also arranging games with Berlin and Guelph.

NEW THEORY AS TO TUBERCULOSIS

Ottawa Journal.

Judge Barron, who has this winter addressed audiences in various parts of Ontario on tuberculosis, advances a theory that is new to us, but which, if it is authoritative, will bring much comfort to those who are the victims of the disease, or who fear that they may have the germs of it lurking in their systems.

The judge declares that "when an individual is completely and surely cured of a focus of pulmonary tuberculosis and sclerosis of the area previously affected has taken place, the individual becomes habitually and permanently immune, and this immunity, unlike the disease itself, can be transmitted from parent to offspring."

The average layman is unaware of this, but it will carry comfort to many who, by reason of the fact that they, when cured of tuberculosis, still thought it their duty to the race, forsook the path of patrimony, and denied themselves the allurements of conjugal bliss.

You have No Reason for Not Using

Zutoo

Some people think that all headache cures are alike—that they all undermine the health, even if not perceived at the time of taking them.

Well, we'll admit that the drug cures do this, but that is no reason why you should not take Zutoo.

Zutoo is a harmless vegetable remedy. One ingredient is soda—just old-fashioned soda that our grandmothers used to take to settle the stomach, when they had sick headache. And there is nothing better.

The principal ingredient—the one that stops the headache, is a vegetable ingredient, imported for us from Japan. It wont hurt you any more than will the soda.

There is absolutely no reason why you should not use Zutoo.

If you suffer from headache there is every reason why you should.

Taken in time, two tablets will ward off a headache. Taken later, they will stop it in twenty minutes, and leave you feeling good every time.

If you are using a drug remedy, why not discard it?

Zutoo will cure just as quickly and will save you the penalty, that all must sometime pay, who take the drugs which these cures contain.

If you will give Zutoo one trial, you will never take any other headache remedy again.

The Product of a Local Industry

Handsome Axminster Square Made by Brinton Carpet Co.

There is on exhibition in one of the windows of R. Fair & Co's. store a beautiful Axminster square that is attracting more than passing interest on account of it being one of the first products of the Brinton Carpet Company of this city. The square is of Turkish design and in size it is [illegible] feet. The quality and workmanship [illegible] Browning head of the carpet department of the Golden Lion Store informs the Review that the rug is of superior quality to those imported from Kidderminster, Eng., at the same price. The square in Mr. Fair's window is priced at $30.

Needless to say Manager Preen, of the Brinton Carpet Co., is well pleased with the quality of the goods being turned out.

PASSED AWAY IN ROCHESTER

Mr. John H. Lynch, Formerly of Peterboro' Expires

The news of the death of John H. Lynch, of Rochester, and formerly a resident of Peterborough, was received in the city this morning. The deceased was a son of Mrs. Jas. Lynch, Aylmer street, but had resided in Rochester for the past fifteen years. He had been ill for some time. A widow is left to mourn his loss, besides his mother, three brothers and two sisters. The brothers are Harry of Chicago; Fred, of New Westminster, B.C., and Wm., of this city. The sisters are Mrs. J. J. Lynch and Mrs. M. Fitzsimmons of this city.

The funeral will take place on Tuesday morning in Rochester.

SEWERS AND SIDEWALKS

Notice is hereby given that petitions for Sewers and Sidewalks must be received by the City Council on or before May 1st, next and that any such work petitioned for after that date will not be done until the work laid out is completed.

Curling Match; Oyster Supper

Messrs. Chas. Frost and W McIlroy Put up a Great Game last Night

A lot of excitement was worked up last night at the curling rink, over the game between Skips Chas. Frost, and W. McIlroy. The match had been arranged on a bet and for the oyster supper. Fourteen ends were played and the score was close all through, but McIlroy's rink won out by twelve shots to eight.

The rinks were,—

J. H. Ferguson	J. W. Fulton
W. Reid	T. Wallace
R. Hicks	D. Davidson
C. Frost, skip 8.	W. McIlroy Skip 12.

Finals Have Been Reached

Much Interest in Points Competitions at the Curling Rink

The finals in the junior points competition are being played at the curling rink this afternoon. Only two are left in the contest, Messrs. R. N. Merritt and J. H. Ferguson. Merritt defeated Wiley yesterday afternoon 11—9, and as Ferguson won from Webb, only the above two are now left in the running. When they meet to decide the honors this afternoon, there should be a great contest. Yesterday's game between Mreritt and Wiley, was keenly contested, right up until the last stone was shot. Merritt won the last end and as a result took the game.

In the senior competition, Messrs. T. Brightman and T. J. Wallace are left in the running and will play off early next week. First and second prizes will be awarded in each competition.

HOCKEY

BANK OF TORONTO WON.

An interesting game of hockey was played last evening from five to six o'clock at the Brock street rink between the staffs of the Bank of Toronto and the Bank of Ottawa. The result of the match was a win for the Toronto Bank boys by the rather one-sided score of 15 goals to 4, the half time score being 10—2. The Ottawa bankers played a good game but were outclassed by their speedy opponents.

Mr. Hague Bowers, of the Bank of Montreal, refereed most satisfactorily.

The line up was as follows:

Bank of Toronto		Bank of Ottawa
Armstrong	Goal	McCallum
Black	Point	Thompson
Cahill	Cover	Mulhern
Kelly	Rover	Currier
Campbell	Centre	Brownscombe
Porter	L. Wing	Corkary
Boyd	R. Wing	Hayes

The Bank of Toronto's winning the game was largely due to the fact that Godon Campbell was playing. He did most of the scoring. He is not on the staff of the Bank of Toronto.

OMEMEE WON.

The return game between Omemee and Fenelon Falls was played Thursday night in the former village and resulted in a win for the home team by 8 goals to 6 after playing 15 minutes overtime. The full time score was 6-6.

SOUTH ENDERS DEFEATED.

In a fast and interesting game of hockey played this morning by two juvenile teams, the South Enders and Wescott's ponies, on the former's rink on Park street, Wescott's ponies won out by the score of nine goals to seven. S. O'Connell starred for the losers, while the winners all played a fast game. W. Gordon gave every satisfaction as referee.

The teams were as follows:—

South Enders		Wescott's Ponies
F. Barnett	Goal	T. Barnett
T. Greene	Point.	H. LaPlante
P. Rogers	Cover	H. Gordon
S. O'Connell	Rover	E. Briou
W. O'Connell	Centre	D. Barnett
T. Donovan	Right Wing	J. Molloy
E. Donovan	Left Wing.	W. Kenneally

A CHALLENGE

The hockey team of the Central School would like to arrange a game with some other team in the city, the players of which are under sixteen years of age. Replies can be sent to this office.

ANOTHER PRESS GAME.

The hockey team of the Lindsay Post will likely meet the Examiner septette at Brock street rink on Tuesday night. Arrangements for the game are now being made.

CHIEFTAINS WON AGAIN.

The Chieftains won another victory last night, when they defeated the Invincibles by 12 goals to 4. The match was played at Brock street rink between 3 and 7 o'clock.

STRATFORD SENIOR CHAMPIONS.

Kingston, March 8.—The senior O.H.A. championship this year goes to Stratford, whose team wont the final round from the 14th Regiment, of Kingston, by 8 goals to 6. The final game here to-night resulted in favor of the Kingston team by a score of 3 to 1. But Stratford, having a lead of four goals from last Monday night's match on their own ice, came out on top. About 1,900 people saw the final contest, which was fast and keen. The ice was sticky but the pace was fast throughout.

BERLIN'S GOOD LEAD.

Berlin, March 8.—The Berlin intermediates administered a crushing defeat to Collingwood's championship aspirants here to-night, winning out by 9 to 3. The half time score was 8 to 2.

THISTLES WANT BAIRD

The Kenora Thistles are after Billy Baird, the speedy point man of the Ottawas. Captain Tom Phillips wired there yesterday for Baird to practically make his own term and leave for the west. An intimate friend of his received the wire and sent it on to Baird, who was intending to play the balance of the season with the Portage la Prairie septette. Edgar Dey, of Ottawa, is captain of this team and made a very flattering offer to Baird to finish out the season. Baird accepted and started west.

Kenora may land him, but his friends think he will go to Portage la Prairie.

Baird will be seen in an Ottawa uniform next year again.

CURLING

GAMES LAST NIGHT

Four games were played at the curling rink last night. The first one in the following list was a scheduled fixture, Mr. Hall's win putting him into the finals in the rink competition. The rinks and scores were:—

W. Taylor	C. James
J. Montgomery	A. Lovekin
W. Lang	M. C. Tooley
D. Hall	J. Stanger
Skip 8	Skip 7

J. H. Ferguson	J. W. Fulton
W. G. Read	T. J. Wallace
R. Hicks	J. Davidson
O. E. Frost	W. McIlroy
Skip 8	Skip 12

H. Rose	O. Dumble
W. Smith	R. Moore
Dr. Wightman	C. N. Brown
J. Gibson	G. Fitzgerald
Skip 7	Skip 11

S. Sharp	A. Bowes
H. P. eKnnedy	H. Meredith
T. Brightman	W. G. Morrow
S. T. Medd	E. B. Clegg
Skip 11	Skip 7

A railway car ran off the track at Fergus and tore the siding out of a house. Mrs. Fischer, who was sitting in the house, was caught between the car and the wall, and had her ankle broken.

JAMES BAY TREATY NO. 9

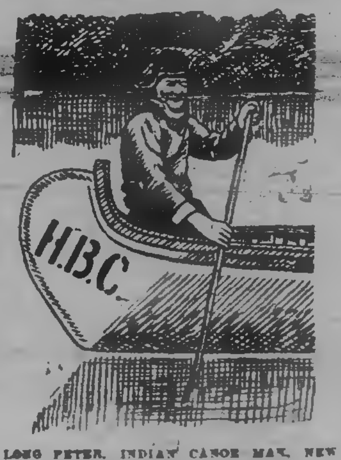
HOW AN EMPIRE HAS BEEN REDEEMED BY INDIAN TREATY.

Dominion and Ontario Commissioners Traveled Hundreds of Miles On Foot, By Boat and By Canoe In Its Accomplishment — Territory Which Comes Under Scope of the Treaty Comprises 90,000 Miles.

In the making of "The James Bay Treaty No. 9" the commissioners representing the Dominion Indian Department and the Province of Ontario traveled many hundred of miles on foot, by boat and by canoe during the summers of 1905 and 1906. In the first year they were not able to see all the Indians necessary to the completion of the treaty, a number of them being away on hunting journeys, hence the work was continued last year. The Indians who are parties to the treaty represent the Ojibway, Cree and other tribes, and the territory which comes under the terms of the treaty comprises some 90,000 square miles. Roughly speaking, the area is bounded on the south by the height of land, on the north by James Bay, east by the eastern boundary of the Province and on the west by the height of land west of Lake Superior. The development already in progress in northern Ontario and steadily pressing still farther north, and to which the construction of the Grand-Trunk Pacific will give a tremendous impetus, made it essential that the treaty should be concluded now.

Reserves are allotted to each band of Indians to the extent of not more than 640 acres of land for every family of five persons. In addition the Dominion undertakes to construct school buildings and to pay for their equipment and the salaries of teachers. A bounty of $4 per head per year is also to be paid to the Indians. This bounty will come from the funds of Ontario, but the Dominion Government undertakes to bear the cost of its distribution to those entitled to it.

The commissioners were Messrs. Duncan Campbell Scott and Sam Stewart of the Indian Department, for the Dominion, and Mr. D. G. McMartin, Perth, for the Province of Ontario. They were accompanied throughout their journeys by two members of the Northwest Mounted Police force, a surgeon and officials of the Hudson Bay Company, the latter having arranged for the transport of the party.



LONG PETER, INDIAN CANOE MAN, NEW BRUNSWICK HOUSE.

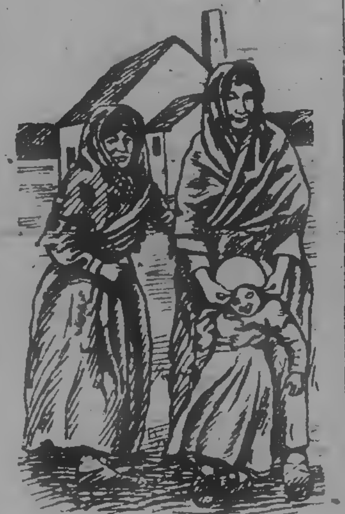
A recent number of Scribner's Magazine contained an article by Mr. Duncan Campbell Scott on "The Last of the Indian Treaties," in which a graphic account was given of the experiences of the commission. From that article the following extracts are taken:—

"The Indian policy of the Canadian Government was inherited from the British procedure in the American colonies, which still survives with additions and modifications. The reserve system appeared at the earliest, and there was but little difference between the policy of the French and British in Canada with the exception that in the French design evangelization was an important part. So that in 1867, when the Dominion of Canada took over the administration of Indian affairs, the Government found a certain well-established condition. The Indians of the old Provinces of Nova Scotia and New Brunswick had been given lands; in Quebec the grants of the French King had been respected and confirmed; in Ontario the Indian titles had been surrendered by treaty for a consideration in land and money, as between sovereign powers. The first of the treaties was made by Governor Haldimand in 1784.

"In the early days the Indians were a real menace to the colonization of Canada. At that time there was a league between the Indians east and west of the River St. Clair, and a concerted movement upon the new settlements would have obliterated them as easily as a child wipes pictures from his slate. The Indian nature now seems like a fire that is waning, that is smouldering and dying away in ashes; then it was full of force and heat. It was ready to break out at any moment in savage dances, in wild and desperate orgies in which ancient superstitions were involved with eastern ideas but dimly understood and intensified by cunning imaginations inflamed with rum. So all the Indian diplomacy of that day was employed to keep the tomahawk on the wall and the scalping knife in the belt.

"This territory comprises much arable land, many million feet of pulpwood, untold wealth of minerals, and unharnessed water powers sufficient to do the work of half the continent. Through the map of this unregarded region Sir Wilfrid Laurier, Premier of Canada, had drawn a long line, sweeping up from Quebec and curving down upon Winnipeg, marking the course of the eastern section of the new transcontinental railway. The aboriginal owners of this vast tract, aware of the activity of prospectors for timber and minerals, had asked the Dominion Government to treat for their ancient domain, and the plans for such a huge public work as the new railway made a cession of the territory imperative. . . .

"The treaty policy so well established when the confederation of the Provinces of British North America took place has since been continued and nearly all civilized Canada is covered with these Indian treaties and surrenders. A map colored to define their boundaries would show the Province of Ontario clouted with them like a patchwork blanket. As far north as the confines of the new Provinces of Saskatchewan and Alberta the patches lie edge to edge. Until lately, however, the map would have shown a large portion of the Province of Ontario uncovered by the treaty blanket. Extending north of the watershed that divides the streams flowing into Lakes Huron and Superior from those flowing into Hudson Bay, it reached James Bay on the north and the long curled rubbon of the Albany River, and comprised an area of 90,000 square miles, nearly twice as large as the State of New York.



INDIAN GIRLS, NEW BRUNSWICK HOUSE.

"As soon as the treaty had been signed a feast had been promised by the commissioners. There is a rigid etiquette at these feasts; the food is piled in the centre of the surrounding Indians, the men in the inner circle, the women and children in the outer. When everyone is assembled the food is divided as fairly as possible and until each person is served no one takes a mouthful, the tea grows cold, the [illegible] grows rigid, and half the merit of the warm food vanishes, but no one breaks the rule. They still wait patiently until the chiefs address them. With us the cloth is cleared and the speeches follow; with the Albany River Indians every formality precedes the true purpose of the food, the eating of it.

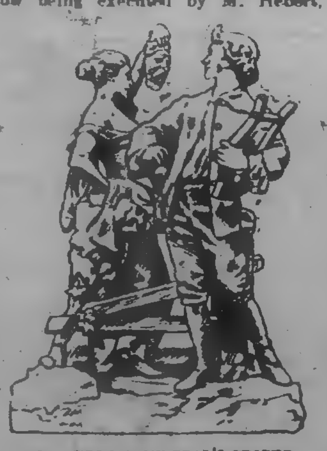
"The James Bay treaty will always be associated in my mind with the figure of an Indian who came in from Attawapiskata to Albany just as we were ready to leave. The paylists and the cash had been securely packed for an early start next morning, when this wild fellow drifted into the camp. Pere Fafard, he said, thought we might have some money for him. He did not ask for anything, he stood, smiling slightly. He seemed about twenty years of age, with a face of great beauty and intelligence, and eyes that were wild with a sort of surprise—shy at his novel position, and proud that he was of some importance. His name was Charles Wabinoo. We found it on the list and gave him his eight dollars. When he felt the new crisp notes he took a crucifix from his breast, kissed it swiftly, and made a fugitive sign of the cross. "From my heart I thank you," he said. There was the Indian at the best point of a transitional state, still wild as a lynx, with all the lore and instinct of his race undimmed, and possessed wholly by the simplest rule of the Christian life, as yet unspoiled by the arts of sly lying, paltry cunning, and the lower vices which come from contact with such of our debased manners and customs as come to him in the wilderness."

Sunlight Soap is better than other soap but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

THE GOVERNOR'S TROPHY.

Drama and Music Trophies Given by His Excellency Earl Grey.

The above picture represents the model of one of the two identical trophies competed for at Ottawa last week by music and dramatic companies from various parts of Canada at the invitation of His Excellency the Governor-General. The groups are now being executed by M. Hebert, the brilliant French-Canadian sculptor. The figures represent Music and the Drama. Music is represented by a man with a lyre, not classic, but rather Watteau period. The Drama is represented by a woman towards whom Music turns his eyes for inspiration. As the woman holds up the horror-stricken mask of Tragedy she herself is smiling, to suggest Comedy. As Acting and Music are always crossing the border into each other's territory each figure has a foot on the stile which divides them. The Drama Trophy was won by the Winnipeg Dramatic Club, and that for Music by the Quebec Symphony Orchestra.



THE GOVERNOR-GENERAL'S TROPHY.

INJUSTICE OF NEW REGULATION

Regarding the Removal of Projecting Overhead Signs

To the Editor of the Review.

Sir;—Notices have been served by the police on those having projecting signs that a new by-law has been passed by our latter day city solons prohibiting the further use of such signs, with a proviso that the by-law shall not affect a few favored ones who have what they call "illuminated signs," which however, are larger and obscure the view to a greater extent and are therefore more objectionable. With intermittent brain storms our councillors wake up betimes to do something wrong, but this is the silliest of all their actions, and one fraught with serious consequences to those effected thereby, as these signs have cost hundreds of dollars; but what care they for the well being of their constituents? Whoever voted for such a by-law, or in anyway countenanced such an injustice should be a marked man and voted out of the Council at the next election, unless these notices are countermanded and the by-law rescinded. These signs are usually small and decorated with gilt letters, if not indeed a work of art. If the Council is really sincere and wish to be consistent in their condemnation, why do they not prohibit the miles of awning that obstruct the view so completely and the unsightly poles that disgrace our streets with their hundreds of deadly fire wires, bringing death to our homes every year, without even the semblance of inspection against danger? Previous by-laws, with varying provisions have been passed regulating projecting signs, and as often have they been rescinded to the annoyance and expense of the people using them. If I remember rightly, the latest one required the signs not to exceed a certain size, to be at least seven feet above the sidewalk and not to project beyond a certain distance, and it showed the wisdom of the framers. If any one has not complied with the conditions, why should the innocent ones suffer for their infraction. Stores or those occupying the ground floor have no reason for using such signs, but to the business men of the upper flats, with narrow entrances, they are indispensible.

Yours, etc.,
A SUFFERER.

Peetrborough, March 9th.

Finances of Peterboro' County

Statem entof Receipts and Expenditures at End of February

The finances of the county at the end of February were as follows, according to a statement of receipts and expenditures furnished the Review by County Treasurer E. M. Elliott.

Sulphur yellow will be the popular shade in 1907, both for women's dresses and house decorations.

PILES CURED AT HOME BY NEW ABSORPTION METHOD

If you suffer from bleeding, itching, blind or protruding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write to-day to Mrs. M. Summers, Box P. 62, Windsor, Ont.

SECOND PART

PETERBOROUGH, ONT., CANADA, SATURDAY, MARCH 9, 1907

THE PLACE WHERE OVER 1,000 CITIZENS EARN THEIR DAILY BREAD

Peterborough's Greatest Industry is the Canadian General Electric Company, Limited—How the Work in the Different Departments is Carried On—Interesting Description of Various Processes of Manufacture—Illustrations Giving Interior Views of This Hive of Industry.

From a bit of platinum half as long as a pin, and one-six-thousandth of an inch thick, to a 15,000 horse power generator weighing 200 tons, is the province of the Canadian General Electric Company, Limited.

The Canadian citizen who presses a button to turn on the light in his hallway unconsciously epitomizes the whole works of the C.G.E. All he notices, perhaps, is the incandescent bulb, which may have been screwed into its socket that morning. But he should take the trouble to trace the light to its source he might find it a hundred miles distant, in an 8,000 kilowatt generator at Niagara Falls, built by the Canadian General Electric Company. If from that he should retrace his steps he would find that every piece of mechanism in the circuit had been made by the Canadian General Electric Company, including the insulated copper wire in the distributing lines and the incandescent bulb. From generator to bulb he might be able to count hundreds of individual parts, each calling for the skilled labor of scores of people, and utilizing the most modern mechanism in hundreds of machines. Similar discoveries might be made by this Canadian citizen if he should try to find out what runs the machinery in this factory, the elevator in which he reaches his office, or the trolley car in which he rides home in the evening.

The works of the Canadian General Electric Co. are at Peterborough, 75 miles from the city of Toronto. Four miles above the works is the hydro-electric installation where is generated the electricity to drive the hundreds of machines making the thousands of things turned out in the company's shops.

The mere housing of this enormous plant has called into existance the following buildings, every one of which is already cramped and [illegible]

Peterborough Shops in 1889.

ed by increasing numbers of machines and the tremendous increase in the company's output.

The central machine shop is 527 feet by 100 feet, with galleries on all sides 25 feet wide; storage and shipping building and punch-press department, two stories high, 440 feet, with [illegible] gallery on one side of ground floor; lamp and wire department 272 feet by 50 feet, and two stories high; transformer building 125 feet by 50 feet; compound building 145 feet by 50 feet; brass foundry 137 feet by 42 feet; blacksmith shop 170 feet by 42 feet; carpenter shop and pattern department 125 feet by 60 feet, two stories high; boiler house 54 feet by 58 feet; electric sub-station 52 feet by 38 feet; carbon building 150 feet by 75 feet, three stories high; porcelain department 150 feet by 100 feet, two stories high; storage shed 204 feet by 26 feet; paint shop 122 feet by 30 feet; new buildings are in course of erection, including new transformer building, 303 feet by 80 feet, with gallery on one side 45 feet wide.

A DECADE OF DEVELOPMENT.

A few concrete illustrations to show the rapidity with which this cycle of industries has developed.

Lamp Shop, showing bulbs ready to be exhausted.

Fifteen years ago the biggest generator ever built in Canada was of 100 horse power capacity. A few months ago the Canadian General Electric Co. built entire the great generators, each of 12,000 horse power for the Electrical Development Co. at Niagara.

Seven years ago a transformer of 1,000 lights capacity was considered a marvel. To-day the Canadian General Electric builds transformers to capacity of 45,000 light of 3,000 horse power each.

These are but isolated illustrations of the remarkable electrical development that has taken place in Canada during the past decade. Nowhere in the world has electricity made such strides in comparison to population? For this there are three broad reasons: The tremendous expansion of industrial Canada consequent on the building of railways, and the unrivaled water powers of Canada, and the personal courage, foresight and administrative ability of the directors of the Canadian General Electric Co., Limited.

Everywhere about the works at Peterborough spells modernity. Everything made there is part of the technique of electricity. The visitor may ramble through shop after shop and never dream that steam was ever a power in the world. Instead of horse-power tensile strength and the bending moment of beams, he hears about kilowatts, amperes, candle-power and resistances. Iron and steel, he may see there, by hundreds of tons, but he will see also miles of copper wire, tons of rubber, cords of glass bulbs, bushels of brass, webs of cotton, carbon by the hundred weight and stacks of marble slabs. Instead of boilers, locomotives, pumps, bridges, cast-iron pipes, bolts and screws, he will see scores of generators, motors, transformers, controllers, steam turbines and lamps.

INCANDESCENT LAMPS

We shall not attempt to describe each shop in the order of magnitude, but suppose instead we briefly outline how some of the various electrical commodities required for Canadian use are manufactured by the Canadian General Electric Company.

We shall begin with the most obvious, the incandescent lamps, [illegible] pany; like all other departments, but worse, is painfully cramped for room. "We are almost literally walking on lamps," said the superintendent of the lamp factory. Almost everywhere on this floor were crates and boxes of bulbs piled nearly to the ceiling and so close that it was a difficult matter to pass through. The reason of this is that within the last couple of years the output of this department has so materially increased that the plans are now being prepared for a new lamp factory, having four times the present capacity. This, of course is the finishing department for incandescent lamps, the caps for which are made in another building. The chief commodity here is bulbs. Scores of employees are busy with gas blowers and pincers converting the bulbs into lamps. One row does nothing but fuse the copper wires for the circuit connection into the glass plug which stops the top of the bulb. This one here does nothing but fuse on the ends of the copper tiny bits of platinum, which is picked off a tray with small pincers, bits so small that they can scarcely be distinguished with the naked eye. Over by the wall may be seen a boy operating a machine which does nothing but cut the platinum coil into ends for fusing; another machine is employed in cutting copper wires. Yonder along a bench is a row of girls, who do a bench is a row of girls who do with its copper, platinum and filament coil into the top of the bulb. Another company are busy doing nothing but exhausting the bulbs by a mechanism which is attached to a vacuum pump. This operation which took half an hour for a lamp a few years ago, is done in less than one minute.

SOCKETS

Meanwhile the sockets for all these lamps are being made in another building. The socket is as complicated as the bulb and requires even more separate operations in the making. Each part calls for its own set of tools and for all the parts of a simple lamp key socket no less than 78 separate tools are required. The raw materials [illegible] porcelain and fibre. Down [illegible] minute brass castings made in the brass foundry in another part of the works have been formed in a punch press into contacts; the brass sheets have been punched, cylindered and threaded for the part of the socket that screws over the bulb. This is here being threaded to fit the screw already made on the bulb cap, and there being fitted with its insulating fibre. A few steps further and a number of employees at a long bench yonder have been busy assembling the fuses; still another lot assembling the switches and every switch is tested by an experienced hand and discarded at once if found defective.

The rosettes of porcelain for ceiling attachments are also made in this department the shapes for the rosettes having already been formed in the porcelain department, which is housed along with the carbon department near by. Several employees here do nothing but insert the small screws into each contact which fits into the porcelain frame. With its scores of busy flying fingers, this rosette and socket department is the more mechanical if less picturesque replica of the bulb room, and its capacity must correspond accordingly, and next summer it is expected that the extension to the lamp building already referred to will be completed.

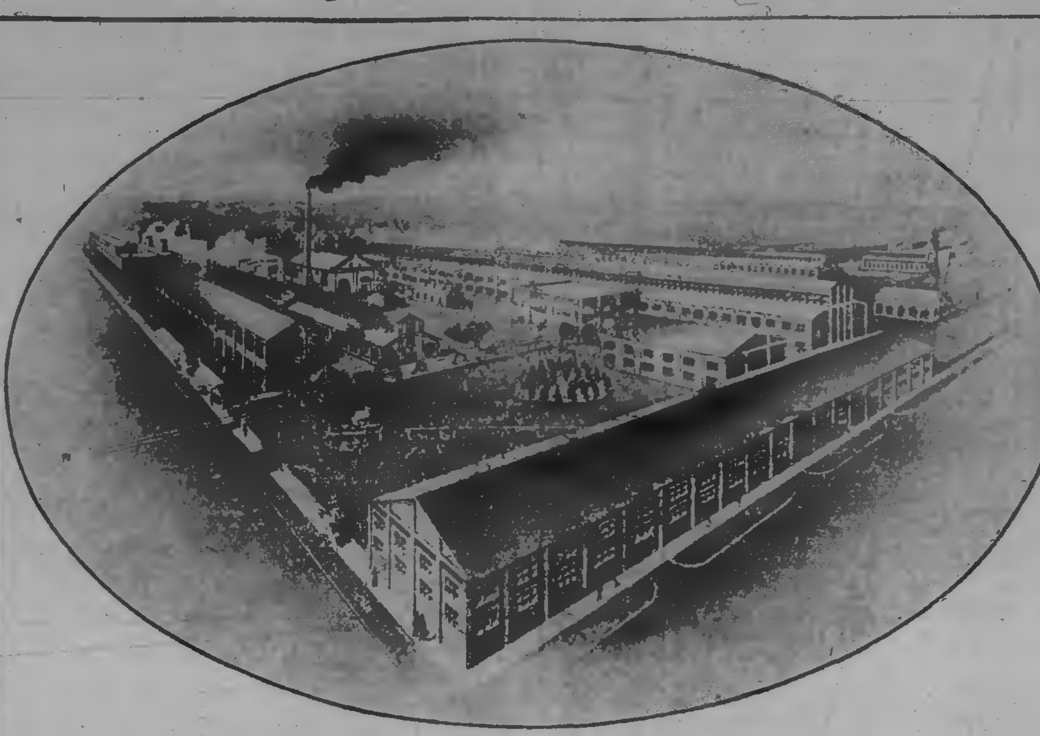
WIRES AND THEIR INSULATION.

Take next the insulated wires for distributing electric current before it reaches the electric lamp in the premises of the consumer; these again are produced in another building. When you take hold of a many colored and plaited silk wire to move your incandescent lamp to whatever part of the room you need it, you are not aware that the mere insulating of that wire has called for a score of diversified operations. A general outline of this complicated cycle of operations must suffice, and will necessarily include all installations, whether of wires for lamps, cables, transformers, generators or for transmission and distribution lines. The basis of insulation is rubber and cotton. First then a trip to the rubber house. Here crude rubber is the raw material, coming in bales of dried-up gluey balls that hang together like chunks of dried putty. The rubber room is full of rollers and the rollers are hot. A gang of men constantly busy, one man in the corner there feeding great wads of crude rubber on top of hot steel rollers and mixing it into a suitable compound. The mass is crushed through and begins to wind itself into a black shroud around the rollers, each time it comes around like a side of shoe leather, it is peeled off and thrown in again, and crushed again, and mixed and re-mixed until the mass is of the right composition and consistency, when it is transferred to the stripping rollers. These cut the gummy, non-conducting stuff into shreds of tape suitable for winding on the wires. When a wire is wound with strips of rubber it is ready for its outer coating of vulcanized cotton. Then if you have an ornamental wire for a parlor lamp by which you may carry a hundred volts or so in your hand without getting a shock, the wire must be given a final winding of tri-colored strands of cotton or silk.

The winding and braiding department is one of liveliest in the whole works; that is, the wire winding proper, for the armatures are wound in the central machine shop for the sake of convenience. In this wire-winding room half the things in operation seem to be devoted to dancing the Maypole: spools twelve in a ring, bobbing in endless rhythm around the wire which is threaded down through a guide in the centre and is wound as scientifically as any mummy in the pyramids of Egypt. Miles upon miles of wire pass through these delirious winding machines in a day; thousands of yards of cotton are used in the winding hundred-weights of rubber.

TRANSFORMERS.

From wiring a natural step is to transformers. In the large storage building may be seen hundreds cased up waiting for shipment; some as high as a man; some not much bigger than a man's head. In practical use you may see one of these transformers the size of a hornet's nest up a pole, or [illegible] in Toronto [illegible] the biggest transformer station in the world [illegible] of them each as large as a switchman's shanty or in the sub-station of the C.G.E. at Peterborough you may see them as high as a man along one wall, all busy transforming the current generated at Nassau, four miles away and conveyed at 6,000 volts pressure into currents for use in the various shops of the works.



Peterborough Works, Canadian General Electrical Co., Limited.

The first thing the layman notices in the raw material of transformers is a large number of slotted iron sheets cut in various sizes, corresponding to the size of the transformer to be built. Every transformer must be built up of layers of these sheets of slotted iron, all plugged closely together, and wound around with insulated wires. But unless the transformer's anatomy were properly insulated, one wire intended to convey its part of the current would short circuit with another, and burn out the transformer, and therefore the insides of the transformer must be specially treated, so that it is the beginning of its manufacture when you notice the dozen of power punch presses in the shop of the C.G.E. getting ready the sheets for the annealing ovens.

ANNEALING AND ENAMELLING

This leads you for a moment to another building alongside the central machine shop. Here are some of the ovens. A long brick enclosure contains two of them; pits large enough to roast two oxen at once; each covered with a huge lid, each full of a seething black compound, in which are stroked thousands upon thousands of these laminated sheets, not merely transformer sheets, but sheets for use in making all sorts and conditions of armatures, such as are turned out by thousands a month. The compound in these vats is fluid, which at 770 degrees F. is burned into the plates, so that when they come out they are as black as tar. You think they are ready to be built into transformers. Not yet. Take a glance into that long room there at the end of the oven room. Here are gangs of boys, one gang at one end of a long machine as long as a small house, busy fishing plates out of a vat and putting them on an endless chain carrier.

"What is in that vat?" you ask. The reply is, "Our special compound." The plates are smeared with this compound; placed upon the endless chain, they are carried into the furnace in the middle of which you may see vistas of flickering crude oil lights. Through these lights go the compounded plates, and by the time they reach the other end they are enamelled, ready to go into the anatomy of a transformer or armature. The next process is assembling the transformer; wound with its swathings of cotton-covered wire it looks to your imagination ready to go into its case. The maker knows better. The wires must yet be thoroughly insulated and the transformer's interior anatomy gone over again in toto. So you pass out of the big winding shop with its bobbing [illegible] its miles of copper and its leagues of cotton thread, into a dark room, in which are a pair of vats sunk under the floor similar to the ovens in the oven room, but deeper. These vats are eight feet deep. One of them is empty, the other full—of what? Transformer coils and a black boiling compound, in which scores of them, if they are small enough, and perhaps but one, if it is a 2,000 kilowatt, is steeping at a high temperature. When the steeping is done the compound is pumped off into the next tank which has already been stacked with transformers for insulating. The insulated batch in the first tank are hoisted out as black as tar.

Now the transformer is literally soaked with insulation.

Looking through the window you ask what might be the long, red skeleton of a building out there? It is already three storeys high, 303 feet long and 80 feet wide; built so far all of structural steel from the bridge shop of the Canada Foundry Co. in Toronto. You are told that it is the new transformer building on which work has now ceased for the winter, but by next fall will be complete, with its large insulation rooms, its twelve huge ovens, its plate-punching department, and its wire-winding department, with a total capacity of 600 transformers a week, or nearly 32,000 a year. And from this calculation alone you get an idea of what the electrical expansion of Canada is now, and is to be in the near future.

Switchboard Gallery

THE CENTRAL MACHINE SHOP.

Time now to take a visit to the central machine shop. This building is the spinal column of the works. At first sight it is a perfect chaos of machinery, in which you might gaze for an hour, without being able to discern the working order. The most obvious things to notice at first are the two 50 ton electric travelling cranes as they rumble on their way from the ends of the shop to the centre or back again as the men in the cars are directed. At one bird's-eye view, these crane drivers may see thousands of tons of steel and iron in machines and in material for the building of the great aggregations turned out by the C.G.E. At one end may be seen scores of men doing nothing but wind armatures. At the other end, 500 feet distant, is a turbine wheel being bucketed for a steam turbine generator. The wheel must be moved to the erecting department further down the shop. A crane stops over the necessary spot and the chain is let down and the big lumbering mass is lifted into mid-air, to go swinging on to the assembling department, where the electric generator is ready. All day long the men in the cars jig to and fro wherever they get the signal in their section of the shop. Now it may be to transfer a 500 horse-power motor; now an 800-kilowatt generator; now a huge armature, wound with miles of wire. This bewildering machine shop of the C.G.E. pictures modern Canada better perhaps than any shop in the Dominion; the Canada of electricity. For here the big units are all built and assembled. Into this shop come thousands of tons of raw material every week in the shape of huge castings and wire and copper and brass and marble and wood. Out of this shop go every month thousands of tons of finished products in the shape of generators, motors, transformers, controllers, commutators, switchboards, turbines, etc.

The place is crowded hard. The men in the cranes can see scarcely a patch of floor as big as a door-mat that is not covered with machines, materials and men. The demands on this shop have outgrown its capacity. The entire staff in it are waiting anxiously for the time next summer when into the transformer building will go everything connected with transformers; then the [illegible] central structure will be left free for the building of motors, generators and turbines.

BUILDING THE BIG GENERATORS

The spring and summer of last year was the time when the hundreds of men and operatives and bosses and foremen and the mechanical superintendent and the general superintendent and the General Manager in the head office at Toronto longed for more room. Then was the greatest time in the history of the company. It was the time when Niagara was reaching out for equipment. The wheelpits and the tail-

A Row of Machines in Brass Department.

races and the tunnels of the Electriting ready for the turning on of the cal Development Company were getwater from the great cataract. The hundred miles of transmission lines were already up with their thousands of tons of copper wires strung on the steel towers between Toronto and Niagara, each ready to receive 60,000 volts pressure. The largest transformer plant in the world was being erected on Davenport Hill to distribute power to the city of Toronto and beyond with the twelve transformers of 2,400-kilowatt capacity made by the Canadian General Electric Co. But there was yet no power for the 8,000-kilowatt generators were not yet installed; were being built in the central machine shop of the Canadian General Electric Company at Peterborough.

The castings for the generators were already shipped from the works of the Canada Foundry Company. The copper wires were ready on the reels. The insulating department was ready to go on with the work. But in all the works of the C.G.E. was not a winding machine big enough to wind the tremendous armatures of one of these immense machines. Nowhere in the world, not even in the General Electric Works at Schenectady, was there a winder big enough. Impossible to buy one. It *must be made*: must be designed and built on the premises of the C.G.E. Orders were sent to the Canada Foundry Company for castings the necessary size. And one day the huge machine was rigged up in the only vacant spot in the storage building, because there was no room in the machine shop, and to-day it is well known that these great generators have been built and erected, and are in daily successful operation at Niagara Falls.

VIEW IN MOTOR SHOP.

Then motors: Immediately upon entering the shop you are fair in the midst of the motor department. Here are twenty-five machines of the various descriptions busy on the numerous parts of a motor, perhaps a one horse power baby, required for a printing press or a 500 horse-power monster able to run an entire factory. The individual motor system has been rapidly spreading in Canada of late, and this leads to the making of more low-power motors in comparison to the number of high-power motors requiring belt and shaft drives. Down at the far end of the shop may be seen the turbine department with its iron floor, over which machines are moved, as needed, by the travelling crane above. Here the most interesting single object is the bucketing machine for making the buckets in a turbine. These buckets are small niches in the rim of the turbine wheel. To make these buckets with a machine requires considerable ingenuity, since with the same machine must be made buckets of many sizes and shapes. And you may see the index of it all spelled out by the cam at the bottom of the machine, which gives the tool above the motion necessary for the desired shape. This machine was designed and built in the Peterborough works.

UP IN THE GALLERIES.

The gallery of the machine shop is scarcely less crowded, though much less confused than the floor below. Here on one side may be seen a gang of men busy on nothing but electric railway controllers. The passenger in a Canadian trolley who watches the motorman with his left hand on the brass handle reaching down into its iron case has perhaps little idea of the technical mechanism of the controller, with its centre shaft insulated with fibre and compound, its contrivances for gradually cutting out resistances as the handle turns, until the resistances are all cut out in the copper connections and the car is at full speed forward. Still less may he reflect that the controller in the vestibule, the motor with which it connects under the car, the rheostats under the car, the trucks of the car, the feed wires and the cables and incandescent lamps are all made by the Canadian General Electric company.

Then, by a short stroll you come to the switchboard department, with its up-ended slabs of marble, and close by a horizontal slab being drilled by a drill suspended from the ceiling. These are in all sizes from two feet square for small plants up to 160 feet long by 7 feet high for central stations. A switchboard built by the C.G.E. recently, and shipped for central station work at the Angus shops of the Canadian Pacific Railway, consisted of 20 panels from 24 to 36 inches wide, and 7 feet high, controlling 3000 electrical horsepower used for operating and lighting the entire shops. Further around the gallery may be seen the tool room where from sheaves of blue prints skilled workmen are busy marking out the patterns of hundreds of new tools needed in the company's works. As much fine skill and caution are required here as there is system in fil-

Mounting Room, where sockets, rosettes, etc., are put together.

INTENSIFIED FRUIT JUICES AN IMPROVEMENT ON NATURE

A Discovery that is Revolutionizing Medicine.

Remarkable Success Attends the Finding of a New Medicinal Compound by Combining the Juices of Apples, Oranges, Figs and Prunes.

Fruit helps to keep one healthy. Fruit, in itself, will not cure disease. The medicinal principle—or that part of fruit which has a curative effect—is in such infinitesimal quantities, that it is unable to overcome a diseased condition of the stomach, liver, bowels, kidneys or skin.

Just here is where science stepped in. An Ottawa physician did what nature could *not do*. He *first* found that some fruits were stronger medicinally than others—and that apples, oranges, figs and prunes contained all the healing properties of other fruits. There are two principles in fruit juices—bitter and sweet. After extracting the juices of the four fruits mentioned, this physician succeeded in replacing one atom of the sweet principle by one of the bitter. This resulted in an entirely new combination being formed. This new compound was many times more active medicinally than the fruit juices. Where eating fruit only helped to keep one well, this compound actually cured disease.

To make it more valuable still, this physician added the finest tonics and antiseptics, and then, by evaporating the entire compound to a powder, made it into tablets.

This, in short, is the method of making "Fruit-a-tives"—these wonderful tablets — the most reliable cure for Constipation, Billiousness, Stomach Troubles, Kidney and Bladder Disease and Skin Affections. Being made from fruit, "Fruit-a-tives" may be taken by women and children without fear of ill-effect.

Don't take a substitute. If your druggist does not handle them, send 50c for a box to Fruit-a-tives *Limited*, Ottawa.

A CREATION OF CANADA

AUTHOR OF "SAM SLICK" WAS PROGENITOR OF "UNCLE SAM."

Birthplace of the Alert, Worldly-Wise "Uncle Sam" Hardly to Be Credited Except By the Very Contrast—How the Scene Appeared in the Days When Judge Haliburton Lived Down By the Sea.

A journey to Halifax, a ride across country, skirting for ten miles the picturesque and romantic Bedford Basin, past the Lily Lake, the Rocky Lake and numerous other gem-like lakes, with equally pretty [illegible] that form the backbone of Nova Scotia, to the place where the River St. Croix flows out into the broader estuary of the Avon, brings one to the settlement known long ago to the French and Indians as "The Meeting of the Waters," and later to the English as Windsor, the settlement in which it is supposed the Uncle Sam we are familiar with first saw the light.

The tide is out, and only two or three narrow streams of water are creeping through the deep, shining, mud-lined channel of the Avon. The train has come and gone, and utter listlessness settles down upon the two rows of low, brown buildings, which form the street of Windsor. It seems hardly credible that the alert, worldly-wise "Uncle Sam" could have sprung into being here except by very contrast.

From so much dullness of the present one turns instinctively to the past for some sign of life, and an easy link is found on the high hill overlooking the station in the green mounds that once formed the ramparts of Fort Edward.

The fort, named for the Duke of Kent, was constructed for the protection of the whole country round about the Basin of Minas after the English gained possession of it. Its building was doubtless a wise precaution, for the village at the base of the hill was one of those flourishing Acadian villages depopulated at the time of the expulsion, and the one which served as the last rendezvous of Coulon de Villiers and his band after their long winter march, and from which they set forth on snowshoes in a blinding storm for the massacre of the English forces at Grand Pré.

Features of Windsor.

If by this time the tide is rushing in under the two bridges of Windsor, bringing the boats that make this town the third shipping port in all the Dominion, the place but now so dull may exhibit an enterprise sufficient to satisfy even *Uncle Sam's* enterprising people.

What does Windsor sell? Gypsum, above all, or plaster, as it is better known to commerce.

At the western end of the village a short distance one comes to a place where the road forks, the one branch, a wood road, suggesting a long disused driveway, leading through tangled underbrush under the heavy shade of fine old trees; the other, the broad, sunny, sultry highway. People who live in Windsor choose the latter road; those who do not, the former.

There is a peculiar charm about an old driveway under long standing trees, which accounts doubtless for the fascination this place possesses for artists. Nowhere else is the play of sunshine and shadow prettier. Nowhere else do wind and rain produce such soft and delicate harmonies.

This driveway, moreover, is not lacking in the weird attraction of a veritable ghost. The haunted spot is known as "the piper's pond," a sink hole, in reality such as are common in countries underlaid by lime or gypsum. Into the water of this pond, a long time ago, a bugler dropped his instrument, and, rashly leaping in to regain it, sank, never to rise again. It is no rare thing, however, to hear the strains of his sad piping still floating out upon the evening air.

Judge Haliburton's House.

The shadowy wood road suddenly emerges upon the wholesome lawn in front of the low, spreading house in which Samuel Slick of Slickville, vendor of wooden clocks, first saw the light, and which was Judge Haliburton's third home in Windsor.

"I and my father were born in the same house, but 20 miles apart," often remarked the judge, and it was a fact, for between the two births the building was floated down the River St. Croix to Windsor from Douglass, 20 miles above.

There was a second home, like the first destroyed, to which, as a minor, the judge brought home the young Miss Neville, his bride, whom he had met while on a visit to his uncle in England. It was to the artistic nature and training of this daughter of an East India captain of dragoons, a young woman whose life had been filled with strange adventures, that much of the attractiveness of the third home is due. Together they planned and graded and planted until the place became a fairyland, a marvel of landscape gardening to all comers, and here together they enjoyed the development of Sam Slick.

What were the sources from which such a character could be drawn?

According to Mr. Slick they yield to laziness and procrastination without any loss of self-esteem. Like many other sluggards they had their conscientious reasons: "When the spring comes, and the fields are dry enough to be sowed, they have all to be plowed, 'cause fall rains wash all lands too much for fall plowin'. Well, the plows have to be mended and sharpened, 'cause what's the use of doin' that afore it's wanted. Well, the wheat gets in too late and there comes rust, but whose fault is that? Why, the climate, to be sure, for Nova Scotia ain't a bread country."

He Hated Politics.

Political agitation never had any charms for the judge.

"For my part," says Sam Slick, "I hate politics. There are cleaner things to handle and pleasanter to smell."

He describes his personal experience in elections thus: "I was an assemblyman, but since then I give up politics. There is nothing so well taken care of as your rights and privileges, Squire. I shall never forget the day I was elected. I felt two inches taller, and about a little the biggest man in Slickville. I knew so much was expected of me. I couldn't sleep a-trying to make speeches, and when I was in the shop I spiled half my work by not having my mind on it.

"'Save your country,' says one. 'Save it from ruin; cut down salaries.' 'I intend to,' says I. 'Watch the officials,' says another; 'they are the biggest rogues we have. It don't convene with liberty that public sarvants should be masters of the public.' 'I quite concur with you,' says I.

"'Reduce lawyers' fees,' says some. 'They are a-eating up the country like locusts.' 'Just so,' says I. 'A bounty on wheat,' says the farmer, 'for your life.' 'Would you tax the mechanic to enrich the agriculturist?' says the manufacturer. 'Make a law agin' thistles,' says one. 'A regulator about temperance,' says another. 'We have a right to drink if we please,' says a third. 'Don't legislate too much,' says a fourth; "it's the curse of the state.'

"And so on, without end. I was fairly bothered, for no two thoughts were alike, and there was no pleasing nobody. Then every man that voted for me wanted some favor or another, and there was no bottom to the obligation. I was most squashed to death under the weight of my cares, they was so heavy."

Even England came in for her share of criticism, for, says Sam: "Perhaps there ain't no place in the world such nonsense is talked as in parliament. They measure every one by themselves, as father did about his clothes. He always thought his ought to fit all his boys, and proper laughing stocks he made of us."

Painting the Forth Bridge.

The Forth bridge receives a new coat of paint every three years, and one-third is done each year, so that the painters are continually at work. Besides the painting every part of the structure is carefully examined and loose or defective rivets removed and new ones put in their place.

Names For Queen Elizabeth.

Queen Elizabeth was called Good Queen Bess by her friends and Bloody Bess by her enemies. She was also designated the Maiden Queen, the Queen of Virgina, the Untamed Heifer, Fortune's Empress, the Glory of Her Sex, the Miracle of Time, Astraea, Oriana, the True Diana, Gloriana and other names respectful and the contrary.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. *New pamphlet* mailed free. The Wood Medicine Co. *(formerly Windsor)* Toronto, Ont.

MAY BE CAUSE CELEBRE

POSSIBILITY OF ANOTHER BECK CASE IS AGITATING ENGLAND.

Son of Church of England Clergyman Undergoing a Term of Imprisonment For Mutilating a Horse Who May Be Innocent—Parliament May Order a Searching Investigation—The Evidence On Which He Was Convicted.

England is at present agitated over the possibility of another Beck case, the victim being George Edalji, at present serving a term of imprisonment for mutilating a horse. Our readers will remember the case of Adolph Beck, the Norwegian, who was twice unjustly condemned on charges of theft, and whose innocence was finally demonstrated in a miraculous manner. Beck's wrongs created a tremendous sensation, and English public opinion regarded him as a martyr of the Dreyfus type. It is fortunate, indeed, as The Spectator says, that the people of England become so much in earnest whenever they suspect that a wrong has been done a private citizen, however obscure. It is now certain that when Parliament meets a thorough investigation of the Edalji case will be demanded, if not ordered, by the Government.

The Anonymous Libeler.

Edalji is the son of Rev. S. Edalji, a Church of England clergyman of Parsee origin, and was born in 1876. In 1888 a number of threatening letters were received at the vicarage, and their author was proved to be a dismissed servant girl who was prosecuted. Four years later the Edaljis were again the victims of anonymous libels circulated in the village. These letters continued to be written till 1895, when they ceased, but not before the local Staffordshire papers had printed a forged letter of apology, admitting the authorship of the letters, signed by George Edalji and Frederick Brooks. In 1903 there was another outburst of scurrilous letters. It does not appear, however, that the same person wrote all the letters, and it seems clear that Edalji could not have been the author of them all, if, indeed, he wrote any of them, which he has steadfastly denied.

Mutilating Cattle.

On Feb. 2, 1903, took place the first of a series of hideous outrages on cattle, that eventually led to the young man's arrest and imprisonment. Before Aug. 17 six instances of mutilated horses and cattle occurred in the neighborhood, and on Aug. 18 George Edalji was arrested, apparently because his name had appeared so often in the anonymous letters that were in full blast about that time. In pressing the charge the police appear to have tried two or three lines of prosecution before settling down to their theory. They finally tried to prove that the crime was committed by the prisoner between the hours of 11 o'clock on the night of the 17th and 6.20 the next morning. The prisoner's father swore that his son went to bed shortly after 7 o'clock, and did not leave his room until 12 hours later. They slept in the same room, and Edalji, jr., always locked the door.

The Evidence For the Crown.

The police produced a coat belonging to the prisoner, which was damp, and on the cuff of which were bloodstains, proved by a medical expert to belong to some mammalian animal. The prisoner's trousers and boots were also shown to have been muddy, and the latter fitted exactly into tracks found in the field with the wounded pony. One of Edalji's razors was wet, and had evidently been recently used. Twenty-nine horsehairs were picked off Edalji's clothing. This was the evidence for the prosecution, with some expert testimony to show that the prisoner had written a threatening letter to the police. Edalji was convicted, and sentenced to seven years' imprisonment. He was in jail awaiting trial when another outrage occurred, with a horse as victim, and for six months thereafter horses and cattle were found wounded. Finally a man named Farrington was arrested and convicted. He was sentenced to three years' imprisonment. Edalji served three years and was released.

For the Defence.

At the trial and since some facts have been brought out that point to Edalji's innocence. In the first place he was under surveillance for some time previous to his arrest, and the vicarage was watched the night of the pony outrage. He was not seen to go out. It is obvious, however, that the watch was not very strict, for the field was also watched in the same way, but the pony was wounded nevertheless. Edalji suffers from astigmatic myopia, and without glasses can see only a few yards, and as it is a considerable distance from the vicarage to the field, it would certainly have been extremely difficult for him to make his way there at night. As regards the damp coat, if it was worn that night, it would have been more than damp, for the rain fell heavily. But if the coat was damp, why were not the bloodstains also damp? As a matter of fact, they were dry, and could only be recognized by careful analysis.

The Hairs on the Coat.

The mud on boots and trousers is explained by a walk Edalji took early in the evening. But the most important contention of Edalji's friends is that the coat was examined by the police and not a hair found on it until 12 hours later. Then the police had also in their possession a piece of the dead pony's skin, and the suggestion is that the hairs got on the coat while both were in the hands of the police. Edalji's case was taken up by Henry Labouchere, in Truth, and latterly by Sir A. C. Conan Doyle, in The Telegraph. Their presentation of the facts given above was so telling that the conviction grew that an innocent man had been punished. It has been suggested that the Home Office has been actuated by personal bias in the case, and since the Beck case this branch of the civil service has been none too popular.

A Deadly Enemy.

It seems more probable, however, that if any animus was shown it was at the prosecution. Edalji seems to have been unpopular, and one can imagine that a young man of Parsee descent, whose physical infirmity made it impossible for him to go in for sports, would be coldly received in certain English districts. Moreover, his connection, however innocent, with scurrilous letters would not improve his position. Edalji is apparently the victim of some deadly enemy of a type more common in fiction than in real life.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

CANADA LIFE ASSURANCE COMPANY

SIXTIETH ANNUAL STATEMENT

ASSETS	
Government, Municipal and other Bonds, Stocks and Debentures	$18,414,224 41
Mortgages on Real Estate	6,442,127 57
Loans on Bonds, Stocks, Etc.	118,931 55
Loans on Policies	3,885,202 96
Real Estate owned (including Company's Buildings in Toronto, Hamilton, Montreal, Winnipeg, St. John, N. B., London, Eng.)	1,827,531 65
Premiums in Transit and deferred (net)	650,746 80
Interest and Rents accrued	412,748 61

Total paid to Policy-holders	$1,854,229 07
Commission, Salaries, etc.	674,441 04
Taxes and Government Fees, etc.	314,224 99
Balance	2,006,131 26
	$4,849,026 36

GAINS IN 1906

In 1906 the increase in business in force of nearly $5,000,000 evidenced the strong confidence in which the Canada Life is held by the insuring public.

Assurances in force Dec. 31, 1906	$112,572,028 39	Increase over previous year	$4,890,145 00
Assets	32,280,542 59	Increase over previous year	1,951,177 23
Assurance Reserve Fund	29,987,249 00	Increase over previous year	1,481,313 00

Gratifying Increases were also made in the Premium and Interest Income. A material decrease in the expense ratio in 1906 is practical evidence of good management, while a lower lapse ratio in a time of unrest indicates the satisfaction of Policy-holders in The Canada Life Assurance Co.

THREE OUTSTANDING FACTS

REGARDING THE CANADA LIFE

In 1906 the Business in force increased by nearly $5,000,000.
In 1906 the Expense Ratio was Reduced.
In 1906 the Lapse Ratio was Reduced.

A detailed report of the Company's affairs as submitted to the 60th Annual Meeting, together with a complete list of securities owned, will shortly be published and will be sent to Policy-holders and others desiring it.

SERPENT POISON.

The Venom of the Cobra Is Deadly Almost Beyond Belief.

It was in the autumn of 1891 that Calmette, while acting as director of the Bacteriological Institute of Saigon, Cochin China, first commenced his experiments on the neutralization of serpent venom in the animal system. He had exceptional opportunities in the matter of serpent venom wherewith to carry out his investigations, inasmuch as a band of cobras had recently attacked a village in the vicinity of Baclieu, and by order of the governor of the district no fewer than ninety specimens of the terrible Naja tripudians, or cobra de capello, were forwarded in a barrel to the institute.

Forty of the reptiles arrived alive, and several were at once sacrificed to secure their venom glands. Each gland, resembling both in size and shape a shelled almond, contains about thirty drops of venom, and in this transparent limpid liquor is embodied a toxin of extraordinary strength. As is well known, this cobra is the most dreaded of all serpents, and it is widely distributed over India, Burma, Sumatra, Java, Malacca and Cochin China. Until Calmette, however, set to work to systematically study the nature of this reptile's venom but little precise or reliable information had been obtained as to its character. It was, of course, necessary in the first instance to ascertain, within as narrow a limit as possible, the exact degree of toxic power inherent in the venom and to determine if possible the precise dose lethal in respect of each variety of animal experimented upon.

A correct calculation of the quantity of venom required in every case was, however, found to be quite impossible, for so virulent is the poison that a single drop of an emulsion produced by pounding up eight glands in 300 grams of distilled water is sufficient, when introduced into the vein of a rabbit's ear, to kill it in five minutes. All the mammals to which Calmette administered this cobra venom, such as monkeys, dogs, rabbits, guinea pigs and rats, succumbed more or less quickly, according to the size of the dose.—Westminster Gazette.

Key West.

The Spaniards called Key West Cayo Huesco, or Bone Islands, some say from their coral origin.

Chinese Trades Unions.

Trades unions have existed in China for 4,000 years. The Celestial workman levies toll on every transaction according to laws laid down by his trades union and without for a moment taking into consideration what his employer may consider proper.

Raleigh's Jeweled Shoes.

The most splendid pair of shoes on record were those worn by Sir Walter Raleigh on great court occasions. They were of buff leather, covered with precious stones and valued at $35,000.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is tenn fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

COUNCIL MET IN HAVELOCK

Accounts Passed—Tax Collector's Time Extended Until April 2nd.

Havelock, March 8.— A regular meeting of the council was held in the town hall on Monday, March 4 at 7.30 p.m. Reeve Thompson and Councillors Campney, Knox, and Young were present.

The minutes of the last meeting were read by the clerk and approved.

The following accounts were ordered to be paid;

Philip Bros. hardware, $7.80.

Electric lights, $63.33.

Subscription to Municipal World, 50 cents.

Elias Williams, constables' salary, $16.66.

J. W. Bryans, reg. deaths, births, and marriages, $10.80.

Toronto Mail & Empire, $2.96.

School Board, $175.00.

Moved by Mr. Knox, seconded by Mr. Young and carried, that Jas. Bacchus be employed to repair sidewalks at 15c per hour.

Mr W. W. Webster was appointed a member of the Park Board in place of Ward Patterson who resigned.

The price to be paid for 2-inch cedar plank was set at $15 per M. and 3x5 stringers at $14.00 per M. to be subject to inspection of street inspector.

On motion the collectors' time was extended until April 2nd. The collector stated that there was still $200 of unpaid taxes.

Mr W. Patterson and Mr. F.C. McMaster, municipal auditors, presented their report.

The report was accepted and the clerk was ordered to pay each of the auditors $7.50.

Montreal is again in trouble with its water system, through the breakdown of a 12,000,000 gallon pump.

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

THE BACHELORS LAMENT

Of all the tricks I ever heard,
Is Ald. Tovey's scheme,
To tax the poor unmarried men,
Alas, 'tis only a dream.

'Tis sad to think of our bachelors
Of which there are but a few,
And if in wedlock should decide,
What will the old maids do!

If all the girls were sweet sixteen,
The "bacny" soon would marry,
But when his choice is old scarecrows,
With his mamma he'd sooner tarry.

But rather such a fate than take
A wrinkled old maid's offer,
Ten thousand I'd be glad to pay,
To swell the city's coffers.

No sir, the joy is not for me
To listen to a dame so wrinkled
In a dungeon I would sooner be,
Than kiss a mug that's wrinkled.

And if perchance that I did marry,
Some toothless, hairless fright,
Her burdens I would have to carry,
And to the opera take her every night.

Oh save me such a fate as this,
The tortures I would suffer,
Decline this matrimonial bliss,
Than be an old maid's duffer.

Throw out the tax and old maids too,
And the friends of Tovey's scheme,
For neither one I wish to do,
'Tis the worst I have ever seen.

R.I.P.

Peterborough, March 7, 1907

BLACK FOX KILLED

Messrs. B. Walley and Fred Young, of Lindsay, the Lucky Hunters.

A black fox, one of the most valuable of the species, was recently killed in Bryson's swamp near Cambray station. For two days Messrs. B. B. Walley and Fred Young had been on the animal's trail. It was finally shot with the aid of hounds belonging to Mr. George Wellington, of town. Mr. Wellington claimed the fox on the ground that it was through the exertions of his dogs that the animal was captured. The matter was finally settled by a division of the purchase price.

The fur of the black fox is in great demand, and a good skin is valued at $150.—Lindsay Post.

The Daily Review

SATURDAY, MARCH 9, 1907.

THE CANADA LIFE

Seven is looked upon as a perfect number, and the record of the above company for the past seven years seems to come pretty near to carrying out the idea of perfection. To quote from the vice-president's address at the annual meeting,—

"In the seven years 1900-1906 inclusive, we have increased our assets by $10,916,460.53, and paid to policyholders in cash, $13,970,929.57, making a total paid or credited to policyholders during this period of $24,887,410.10 while during these seven years we have received from policyholders by way of premiums $21,511,[illegible]. From [illegible] policyholders have been paid or credited with $3,375,854.02 more than they paid in. This means that in these seven years the interest earnings of the company have not only paid all the expenses of its operation, but have assisted in the growth of our assets to the extent of the amount mentioned, $3,375,854.02."

The year just closed has also been one of marked success, the interest income and growth in assets being the largest in the company's history.

The new business paid for amounted to $10,211,000 and the total business in force now amounts to $112,572,000.

The payments to policyholders amounted to the large sum of $1,854,229.07, of which over $1,287,000 was for death claims.

An evidence of the careful management the company enjoys is a reduction in ratio of expenses to income and a lower type ratio testifies to the confidence in which the management is held. Mr. E. W. Cox is the active and aggressive representative of the Canada Life in the Peterborough district. His offices are in the Bank of Commerce Building.

THE PREFERENTIAL TARIFF

There was a lively discussion in the House of Commons on Thursday over Mr. H. J. Logan's motion, that the preference should only be given to goods coming through Canadian sources. The majority of speakers were in sympathy with the proposition. Mr. Logan, who has long advocated such a policy, has received only luke-warm support from his political chief, Sir Wilfrid Laurier. The former contends that the restriction of the preference to goods landed in Canadian ports is in the best interest of Canada, and will result in the establishment of a thoroughly Canadian national policy. It would help government railways as well as Canadian towns and cities. In 1906 the total imports to which the preference applied were valued at $82,000,000, of which $13,000,000 came by way of United States ports. This is altogether too large a proportion of Canadian imports entering the Dominion by way of foreign ports. In 1903 the following resolution was passed by the Commons;

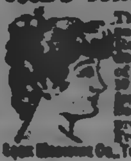
"That in the opinion of this House the preferential tariff shall only apply to importations through Canadian seaports."

Her was a definite declaration of policy on the part of the Government adopted four years ago, yet the present administration has done but little to see that it has been given effect to. It has been dilly-dallying with the matter. Nothing definite has been undertaken to bring the proposal into operation. Does anyone imagine that the United States would for one moment extend a preference and allow it to be applied on foreign goods entering Uncle Sam's domains through Canada? Not a bit of it! Uncle Sam is too shrewd for that sort of thing and has never overlooked an opportunity of directing trade through his own channels. Yet in connection with Mr. Logan's motion all that the Premier said was by way of an effort to mark time on this matter, and he moved the following amendment, which was carried:—

"That on and after a date to be named by the Governor-General the British preference shall apply only to goods brought into Canada, if shipped through the Canadian seaports."

This defers the question of confining preferential goods to the ports of Canada for an indefinite period and unmistakably shows that the Government does not take seriously its resolution passed in 1903, that the preferential duty should only apply to importations through Canadian seaports.

Cook's Cotton Root Compound.



The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

ANOTHER LAND DEAL

There was another exposure in the Dominion House yesterday in connection with lands, this time with an official of the Government implicated.

Mr. Northrup, member for North Hastings pointed out that a year or two ago, two prominent Vermonters, with means went out to the Northwest and bought a tract of land through Mr. J. Obed Smith, Commissioner of Immigration at Winnipeg. Misrepresentations were made, it is alleged, and when the purchasers came to investigate into their holdings they were 7,000 acres short of the quantity they had ostensibly purchased. They brought action in the courts, and were successful in securing judgment against Mr. Smith and his partner.

The worst feature of the transaction from a public point of view, was the admission of Mr. Smith, that in his capacity as a prominent official of the Government, he had made use of official information to make money "on the side."

Mr. Northrup and other members of the Conservative side severely condemned the transaction and Mr. Boyce of West Algoma, offered an amendment, that the employes of the Government should be dismissed who used official information for their private gain. Hon. Mr. Oliver, Minister of the Interior, came to the defence of Smith, and the obedient Grits voted down the amendment by 40 majority.

With members of parliament and officials securing rake-offs the general public will wonder where they are supposed to be at, and they can keep on with said wondering so far as the Laurier outfit cares.—Brantford Courier.

PEN-POINTS

Peterborough is going to land the big dairy show or else know the reason why.

It's a toss up which will end first—the present session of the Dominion Parliament or the Thaw trial.

Tenders for the new Collegiate Institute are being called. It looks as if the dream of years is about to realized.

Former Peterborough county residents seem to have made excellent candidates in the Manitoba election and won out with ease.

The Examiner does not yet appear to be editorially cognizant of the fact that there was an election in Manitoba on Thursday.

If municipal elections were only held on the first Monday in December, as provided in the bill now before the Ontario Legislature, how much might the joys at the glad Christmas season be enhanced by the knowledge that some candidates, who we had a grudge against had suffered defeat. Then we could afford to be charitable and have nothing but feelings of good will for those fellows whom we had the satisfaction of seeing put down and out in the battle—oh, think of the possibilities of exultation.

Many friends in Peterborough city and county will regret to learn of the death of Mr. Edward Cochrane, M.P. for East Northumberland which took place in Ottawa yesterday. Mr. Cochrane passed away from stomach trouble. He was a strong Conservative, a fair fighter, and possessed a saving sense of humor. He represented East Northumberland in the Commons continuously for a quarter of a century, with the exception of one parliamentary term. Mr. Cochrane was a gentleman who was highly esteemed and enjoyed the confidence of his constituents to a marked degree. He was genial in manner, earnest in purpose and faithful in the discharge of duty. He was one of the most familiar figures on the Conservative and in the passing away one of the old guard is removed from the public life of Canada.

The Services In The Churches On Sunday

ST. PETER'S CATHEDRAL.

At St. Peter's Cathedral there will be three masses celebrated—at 8.00 a.m., low mass; children's mass at 9.15 a.m.; high mass at 10.30; Vespers at 7.00 p.m., with sermon.

ST. JOHN'S (ANGLICAN) CHURCH.

Rev. Canon Davidson, M. A., rector, 4th Sunday in Lent. 8.30 a. m. Holy Communion; 11 a. m., Morning Prayer, Litany and Sermon; 3 p.m., Sunday school and Bible class; 7 p.m., Evensong and sermon.

ALL SAINTS' CHURCH.

(Anglican) Cor. Rubidge and Sherbrooke streets. Rev. W. Major, rector. 4th Sunday in Lent. Morning Prayer, Litany and Sermon 11 a.m., 3 p.m., Sunday school and Bible class. Evensong and sermon at 7 p.m. The rector will continue his series of sermons on the parable of "The Prodigal Son." Sidesmen for the day, Messrs. W. Comstock and J. D. Manley.

ST. LUKE, THE EVANGELIST.

(Anglican) East side — Rev. E. A. Langfeldt, M. A., rector. 4th Sunday in Lent, 8.30 a.m., Holy Communion, 11 a.m., Morning Prayer and Sermon. 3 p. m., Sunday school and Bible class. 7 p. m., Evensong and Sermon. The rector will officiate at both services. Subject for the morning service "Judas and Achan's Confession: 'I have Sinned.'" At Evensong, the rector will preach on "Worldliness." During the week, special preachers at the Wednesday and Friday evening service are Rev. R. A. Armstrong of Orillia, and Rev. Wm. Major, of All Saint's, Peterborough. On Tuesday evening, Rev. C. H. Brooks will give a lecture on "The People and Religions of Turkey," at Stewart's Hall, Otonabee.

ST. ANDREW'S.

Rev. Jas. G. Potter, B. A., pastor. Services 11 a.m., and 7 p.m. Mr. Potter will preach at both services. The evening hour will be one of sacred song. Bible class and Sabbath school at 3 p.m.

ST. PAUL'S.

Rev. A. Bright will preach in the morning at St. Paul's and Rev. Dr. Torrance will preach in the evening.

KNOX CHURCH.

Rev. J. J. Wright of this city will preach at both services at Knox church tomorrow.

GEORGE STREET.

10 a.m., class meetings in the Sunday school rooms. Rev. Dr. Crothers will preach at 11 and 7. Sunday school 2.30. Epworth League Monday at eight. Prayer meeting Wednesday at eight. Strangers, especially young men cordially welcomed. Choice music by a large choir.

CHARLOTTE STREET

Rev. H. M. Manning will preach at both services at the Charlotte street church. The Sunday school and Bible class will meet at 2.30.

MURRAY ST. BAPTIST.

Rev. J. R. Webb will preach at both services on Sunday. In the evening he will preach a sermon of special interest to young men. The Sunday school will meet at the usual hour.

PARK STREET BAPTIST.

Rev. A. W. Torrie, the noted Baptist evangelist will preach at both the morning and evening service, in Park street Baptist church tomorrow.

BETHANY TABERNACLE.

Pastor Steuernagel will speak in the morning on "The Only Live Anchor amid Infinite Peril." Mrs. Steuernagel will address the evening congregation. The public generally is cordially invited.

SALVATION ARMY BARRACKS.

Simcoe street, Adjutant and Mrs. Wiggins in charge. Sunday meetings, 7 a.m., prayer meeting; 11 a.m., holiness meeting; 3 p.m., free and easy. 7 p.m., Salvation meeting.

N. G. Somerville Talks About Dairy Industry in This District

Held Meetings in the Neighborhood all Winter and Has Organized Ten Cow Testing Associations—Dairy Show Will Come to Peterborough.

The cheese meetings throughout this district have been very successful during the past winter. Mr. N. G. Somerville, of Ottawa, has been delivering lectures at the various gatherings of farmers and the result has been most encouraging. The meetings in Peterborough county, have been exceptionally well attended and the dairying industry here is growing wonderfully. At the present time it would be very difficult to find a section where greater interest is manifested. It would, in fact, be hard to find a better cheese district in Ontario.

The majority of the farmers here are connected with the business and they are constantly adding to and developing their herds of dairy cattle. Mr. Somerville expressed himself as being more than pleased with his tour. He has always received a good reception and found an audience ready and anxious to take up any scheme he might put forth which would be of benefit to their business.

During the winter so far he has organized ten cow testing associations and started them going. Seven of these were in the Peterborough district. Next week the lecturer leaves for the district around Belleville and to Prince Edward Island, where he will conduct a similar campaign.

At all the meetings in this district, Mr. Geo. A. Gillespie, the well known cheese buyer, of this city, has accompanied Mr. Somerville. He is well known to every farmer in the whole section and he has been of valuable assistance to the man from the Dominion Department of Agriculture. While on his tour Mr Gillespie has also done a lot of quiet work among the farmers in connection with the proposed national dairy show and in every part of the county he has found the greatest enthusiasm on the part of the dairy men. The Peterborough press, and especially the Review, which has taken a very active part in advocating Peterborough as the home of the big show, is deserving of great credit, said Mr. Gillespie. The farmers have been reading the papers and they are already pretty well informed as to the nature of the enterprise, and they have promised to do all in their power to make it a huge success.

In speaking of the meeting in Toronto next Wednesday when the dairy associations will decide upon the date and the place where the exhibition will be held, Mr. Gillespie said he would not hesitate in saying that this city would be selected. The feeling is very strong in favor of Peterborough and if the thing is properly handled next Wednesday this city will win out against the western part of the province very easily. The whole eastern section will support Peterborough, and as most of the cheese men come from this end, the opposition of the west should not be hard to overcome.

Evangelist Torrie Will Begin Special Services in Peterboro'

Well Known Baptist Revivalist Will be at Park St. Baptist Church To-morrow—Has Met With Great Success in His Work.

Revival services will commence at the Park street Baptist church tomorrow, March 10th, and continue each night for two weeks. The evangelist is Rev. Alexander Torrie, a young man greatly honored of God. He is a graduate in arts of McMaster University. His last pastorate was Midland where he was most successful and greatly beloved. The church and congregation doubled and finances went up correspondingly. The Home Mission Board laid their hands upon him at the last convention held in Peterborough and the success which has attended him all through the country proves the wisdom of their choice. From Creemore comes this testimony;

The hand of God was upon us. Bro. Torrie's clear presentation of the Gospel was accompanied with the Holy Spirit's power. He is emphatically a gospel preacher. He holds his audience spell bound with the theme His prayer for life, his personal magnetism, combine to awaken a sense of deep conviction and a longing desire to see Jesus. From Collingwood the message comes;

"He has been with us one week. The people are experiencing great blessing, over forty souls have confessed faith in the Lord Jesus and it looks as though we are to have all our Sunday school converted."

Expectation is running high. The choir has been enlarged, several volunteers coming. The Torrey-Alexander song books will be used. A song service each night at 7.45. Prayer meeting for workers at 7.30. Gospel service at 8. Children's Services Tuesday and Friday at 4.20 p.m.

The male quartette of Y.M.C.A. has consented to take part several nights. A collection to defray expenses will be taken every evening. Workers from all denominations are invited. Bring all your Torrey-Alexander song books to the meetings and help.

The ship subsidy bill at Washington, which has been before Congress two years was dropped.

Fresh from the springs
To you it brings
Health and good cheer
Year after year.

Easy to Dye with **Maypole Soap**

Maypole Soap not only gives a fast, brilliant color but makes home dyeing safe, sure, pleasant, easy. No muss or trouble. It's a cake of soap that washes and dyes at one operation. Made in England but sold everywhere.

10c. for Colors—15c. for Black.

DAIRY INDUSTRY IS INCREASING

Norwood Cheese and Butter Men Will Adopt Cool Curing and Cow Testing

The dairying industry in and around Norwood is increasing and greater interest is continually being taken by the farmers. Yesterday Mr. N. G. Somerville, a lecturer, from the Dominion Agricultural Department, who has been holding meetings in the Eastern district all winter, and Mr. G. A. Gillespie, were in Norwood and started a movement to form a cow testing association, and a cool curing room at the cheese factory. The visitors found the interested parties very enthusiastic. They had been reading a great deal about these matters and very little effort will result in both schemes being carried out.

Mr. D. A. Oakley, cheese maker at the factory and Mr. J. W. Valleau, proprietor and maker of Ormond factory, along with the outside gentlemen, had a very profitable and interesting discussion on the subject. Mr. Somerville feels confident that a cool curing room will be established at the factory and a cow testing association will be established in the district in the very near future.

The Norwood factory had a very successful year in 1906. Something over seventy-five tons of cheese were turned out during the season. But this quantity will be greatly increased if the modern process is adopted. The factory also made butter during the fall and early winter, but after the first of the new year the milk supply became very small and it was not profitable. It is hoped, however, that next winter, the supply will be better.

Sheep and Lambs—Receipts, 2000; steady; sheep, $4.75 to $6; yearlings, $6.10 to $6.75; lambs, $6.25 to $7.75.

WOMEN WILL NOT VOTE.

The Suffragettes Bill Killed For This Session.

London, March 9.—The debate in the Commons was a repetition of the familiar arguments for and against female suffrage and there was a complete divergence from the usual party lines, the rejection of the bill being moved by Mr. Whitehead, Liberal, another opponent being Mr. Cremer, also a Liberal, while both Conservatives and members of the Labor party were found among its supporters. An attempt was made to closure the decision, but the Speaker declined to accept the motion and the opponents of the bill held the floor until 5 p. m., when the sitting was closed automatically. They thus won the day as this practically kills the bill for the present session.

"Undesirable" Shipped.

London, March 9.—(C. A. P.)—Recently magistrates at Carlisle, Cumberland, discharged a prisoner, suggesting that his friends send him to Canada. Bruce Walker wrote the magistrates protesting against making Canada a dumping ground for such people. The magistrates replied expressing regret at this suggestion and promised the man would not be sent. Yesterday, however, Walker discovered the same man under a different name as a passenger on the Empress of Ireland, and had him stopped. The Salvation Army have taken charge of the man.

McGee Gets Eight Years.

Montreal, March 9.—William J. McGee, the ex-secretary-treasurer of the People's Mutual Building Society, who pleaded guilty to the embezzlement of the society's funds and to charges of forgery in transferring shares of the society, was yesterday sentenced to eight years in the penitentiary—five years for forgery and three years for theft.

In assigning for the benefit of his creditors, McGee, who is only thirty years of age, states his liabilities are $101,000 and his assets about $58,000.

THE PLACE WHERE OVER 1,000 CITIZENS EARN THEIR DAILY BREAD

(Continued from Seventh Page)

shop is the blacksmith shop and the brass foundry.

As all the grey iron castings used by the C.G.E. are made in the works of the Canada Foundry, it is not necessary to do more than cast the brass and copper in Peterborough, and, as has been noted there is a vast amount of brass required in the works. One man's whole business here is to gather up the scraps and millings of brass in the works and transport them to the rear of the brass foundry, where they are washed and separated from the debris, so that scarcely a pound of brass goes to waste in a year.

We have said as yet nothing about the meter department overhead in the storage and punch press building. One hundred and fifty tools are required to make one meter, the magnet alone of which is tested for six

A View in Store Room.

months before being passed. In the testing room for meters alone are a gang of men who do nothing but test meters made by the company. This room alone with its large switchboard and 20,000 candle power of test lights, is a sort of miniature of the whole works.

Then there are the carbon and porcelain departments, [illegible] from lack of room are housed several blocks away in separate buildings and here are made all the carbons for arc lights and the rosettes and porcelain accessories for lamps.

Many smaller subsidiary buildings were also visited, and lack of space forbids a detailed description, but no matter what department one may view, the observer cannot fail to be impressed with the foresight and care which have been devoted to the all-important factor in a modern factory, viz., the facilities for transporting and handling the raw materials entering the works, the output during process of manufacture, and the shipment of the finished products. Miles of railway sidings have been built, so that every shop may be fully served. Electric cranes from 50 tons capacity to smaller sizes are utilized, according to the work to be performed, and pneumatic hoists are arranged to handle the work on individual machines; in fact every modern method that has been devised to facilitate production has been utilized.

As a means of selling and distributing the output of the works of both the Canadian General Electric Company and the Canada Foundry Company, branch offices are maintained in Canada from the Atlantic to the Pacific, viz., at Halifax, Montreal, Ottawa, Winnipeg, Rossland and Vancouver. At Halifax, Winnipeg and Rossland the company owns extensive and suitable premises, and at other points the premises are leased, although the company have recently purchased property in Vancouver for the purpose of erecting a commodious warehouse, suitable for the requirements of their office there. Each office has its own staff, consisting of a district manager, engineer, salesmen, etc., and it is thus able to keep in close touch with customers at a distance from the head office in Toronto.

Good Programme Has Been Arranged

For Englishmen's Night at Young Conservative Club Rooms

Englishmen's night promises to be a grand evening of enjoyment at the Young Conservative Club. The programme, as will be seen by the list of names given below, is one of unusual excellence. Next Thursday evening the members of the Club are entertaining at a smoking concert newly arrived immigrants from the Old Country, all of whom are very cordially invited to be present, and also a number of invited guests. The rooms, though large, could not be expected to hold the large number who would otherwise be included in a general invitation. The Rev. Dr. Crothers will deliver an address on "The Empire," and the management appreciate his kindness heartily and cordially accepting their invitation to speak upon this topic. Mr. Wm Buller, treasurer of the club, will be chairman. The concert begins promptly at eight. The programme is as follows:—

Song—Tom Bowlin—Mr. Chandler.

Song—Selected—Mr. Morphet.

Recitation—The Wreck of the Julie Plante—Ald. Phelan.

Song—Selected—Mr. Jas. Browne.

Song—"I'll be your Rainbow"—Mr. Lucas.

Address—"The Empire"—Rev. Dr. Crothers.

Song—"There is a Land"—Mr. Firth.

Mandolin and Banjo Selection—Messrs. Mendel and Clarke.

Song—Selected—Mr. Denham.

Reading—"How Wild Bill Made Good"—Mr. Burnham.

Song—Mr. Coleman.

Banjo Solo—Familiar Airs—Mr. Clarke.

Song—Selected—Mr. Coleman.

Song—She Waits by the Deep Blue Sea—Mr. Lucas.

Glee, two selections—Messrs. Mitchell, Brown, Hooker and Sheppard.

FOR OVER SIXTY YEARS

An old and well tried remedy. — Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

Police Instructed to Enforce The Overhanging Sign By-law

Many Notices Served on Business Men Yesterday---Protests are General and Some Fun is Expected--More Illuminated Signs Will be Put Up.

What will be the outcome of the new overhanging sign bylaw? Many merchants, business men and professional men are kicking vigorously against it. They do not object so strenuously about having to take down their own little signs but they object to other men having illuminated signs hanging four feet over the sidewalk.

Some firms have had their signs out for the past forty years. For instance, the Golden Lion, over R. Fair & Co.'s store. It has become part of the business and Mr. Fair would very much dislike to have to take it down. There are many others just the same. But if the bylaw is enforced they will all have to come down.

On the other hand several merchants realize that there is a certain amount of danger from the overhanging signs and they will not object to taking them down and putting up illuminated signs. They would gladly pay the special tax of $2 a year and know that the sign is perfectly secure. Whether the people like it or not the probability is that a large number of illuminated signs will be added to the streets and it will not be long before Peterborough will be known as the city of many lights or the rainbow city.

During the past week the city engineer gathered in the names of all the firms having signs hanging over the sidewalk, illuminated or otherwise, and yesterday the police served a large number with notices to take their signs down, or in case of the illuminated sign to secure a license. It is understood that the police met with a great deal of protest, but unless the signs come down the owners will be brought up and asked to explain matters to the magistrate.

Punch Presses Making Transformer Plates.

The Regiment Has Bright Prospects for the Season

Activity Will Soon Reign Supreme in the Ranks of the Old 57th--Signalling Class Opens Monday Night.

With the opening of the drill season a little over two weeks away activity is again commencing to spread itself in the ranks of the 57th regiment, Peterborough Rangers.

"The regiment will have one of the best years in its history this summer," said one of the officers of the regiment to a Review representative yesterday, in talking over the prospects of the popular corps. The fact that there are bright prospects of the armouries being completed at an early date, has given stimulus to local military affairs and a season of great activity is looked forward to. The regiment was in fine shape last summer, but it should beat all past records in 1907."

A feature of this season's early drill will be the signalling class for officers and non-commissioned officers of the regiment. This class opens on Monday night, and it is expected that twenty five or thirty will enroll for the course, which will be of about six weeks' duration. An instructor is being sent here from Ottawa. He will arrive here on Monday. But it is not yet known who he will be. The assurance has been given, however, that a good man will be sent and that no effort will be spared to make this class accomplish the purpose for which it is intended, that of making the officers and non-coms. proficient in the use of the signals. It is expected that the class will prove of great value to those who take up the work, in which instructions will be given. It will prove an opportunity not hitherto at the disposal of those interested and should prove a great success. The class will likely meet two or three times a week, but this will be decided on at the inaugural meeting on Monday night.

The regular drill season of the regiment will open about the first of April. Recruits will be taken into practically every company and it is not expected that there will be any difficulty in securing plenty of good men. No "march-outs" will be held until near the last of April and this will depend largely on weather conditions.

The officers of the regiment are now discussing the annual trip of the regiment. The corps has received invitations to visit several places, but it has not been decided yet where the regiment will go. An announcement regarding this matter is expected at an early date.

As regards equipment, the regiment is in good shape. Nearly all the uniforms are new, and not many new ones will have to be secured this season.

Winding Transformer Coils.

Wing Will be Built to The Lake Street School

The Lake Street Separate School will be enlarged. This will be accomplished by the erection of a wing which, in all probability will be divided into two rooms, thereby providing accommodation for two more classes. The school is overcrowded at the present time and it has been felt for several months that it would have to be enlarged. The south end of the city has grown so rapidly and the number of pupils has increased to such an extent that more school room is necessary.

The enlargement of the Lake street school was considered at a meeting of the committee of the whole of the Separate School Board last night. It was decided to erect a wing to the present structure and plans for the same are now being prepared. It will be necessary to purchase the land upon which to erect the wing as it is not desirable to encroach upon the lot used at present as a play ground.

Work on the addition will be commenced as soon as the weather permits and will be rushed to completion without delay.

Covering Wire Machines.

LET US BROTHERS BE

Do Not Destroy Wheat Crop in Order to Get at a Few Tares.

To the Editor of the Review.

Sir,—Is it not nearly time that this useless discussion ceased re Englishmen, for after all, are they not our brothers? I would like to ask in all fairness should Englishmen be seen through the same spectacles with which we see the Chinese. I, as a British subject, believe in getting a living and let live and I also believe that it would be a terrible mistake to destroy the wheat crop in order that we may destroy the few tares. Cut out this useless discussion and let our townsmen see that men should brothers be.

Yours etc.,

PRO BONO PUBLICO.

MUSIC AT ST. JOHN'S

The music at St. John's church tomorrow will be;

Matins.

General Booth, the aged leader of the Salvation Army, arrived in New York today. He will spend two days as the guest of his daughter, Commander Eva Booth, and then will leave for Canada.

New Fire Alarm Boxes Were Finally Located Yesterday

The location of the new electric fire alarm boxes has been definitely settled. There will be 25 in all and a board sign now signifies the spot where the box will be erected. Yesterday afternoon, Mr. Dennis, manager of the Bell Telephone Company in this city, and members of the Fire, Water and Light Committee drove around the city, and placed the boxes where they will be of the greatest service to the greatest number of people. Several changes were made in the old locations, but that was only to give a better service.

The following locations have been selected and it will be well to cut these out and paste them in your hat for future reference.

Victoria avenue and Water street.

In Auburn near Louise street.

Smith and George streets.

Edinburgh and Stewart streets.

McDonnel and Water streets.

Dublin and George streets.

McDonnel and Reid streets.

J. A. STOREY R. H. LEAR

RORY McLENNAN DEAD.

Conspicuous Figure In Canadian Life Succumbs After An Operation.

Cornwall, March 9.—Col. R. R. McLennan (Rory), who represented Glengarry in the Conservative interest in the House of Commons for many years, died yesterday morning. He underwent an operation on Saturday last, but he had been in excellent spirits until a few hours before his death, when he had a talk with an old friend, Major Beattie of London.

The late Col. McLennan was born at Glen Donald, Jan. 1, 1842, and received his education there. He gained distinction as an athlete, particularly as a thrower of weights. Once his hammer killed a boy, and he never again participated in the sport. He became an extensive railway contractor, and subsequently went into business as a private banker. At the time of his death he was honorary president of the Farmers' Bank of Canada, a director of the Manufacturers Life Insurance Co. and the Toronto General Trusts Corporation.

Death of E. Cochrane, M.P.

Ottawa, March 9.—The death occurred yesterday morning at the Protestant Hospital of Edward Cochrane, Conservative member for East Northumberland, in the House of Commons. He was operated on several weeks ago for cancer of the throat, and although he regained strength sufficient to permit him to leave his bed, there was little prospect at any time of a complete recovrey.

Mr. Cochrane has been a member of the House since 1882, with one break of four years, from 1887 to 1891. He was familiarly known by all the members as Uncle Ned. He was a native of Northumberland and was born in 1826. His second wife, who survives him, was Miss Lillie E. O'Dell of Ottawa.

Senator Casgrain Dead.

Windsor, March 9.—Charles E. Casgrain, member of the Dominion Senate, died yesterday at 1.30 p.m., at the Hotel Dieu. Only the immediate members of the family and their relatives were at the bedside.

The Senator's illness extended over a year. He submitted to an operation on Jan. 20, and for a brief period he appeared to be recovering. A relapse followed and he gradually sank. His brother died a week ago in Quebec.

RAID IN ELGIN COUNTY.

Proprietor Arrested But Escapes From Pursuing Officer.

St. Thomas, March 9.—Provincial License Inspector Ayerest of Toronto made a successful raid on the hotel at Yarmouth Centre Thursday morning. He, with High Constable Hopkins and a score of officers, visited the resort and found a supply of liquor and some women of alleged questionable character.

The proprietor, John Wilcox, was arrested. There was a big dance in progress, and over one hundred people were having a high old time.

Constable Prowse of Port Stanley was placed in charge of the prisoner, but he, seeing an opportune opening, bolted for liberty, followed by the officer, who emptied his revolver after the fleeing man.

Wilcox was one of the men wanted to give important evidence in the celebrated Orwell hotel case, but fled the country.

YESTERDAY'S WRECKS.

G. T. R. Engine Derailed and C. P. R. Train Also In An Accident.

Toronto, March 9.—Yesterday morning Grand Trunk express No. 4, leaving Toronto at 9 a.m. for Montreal, came to grief while passing Oshawa, through the flange on one of the drive wheels breaking. This derailed the engine and baggage car and damaged the track for some little distance. The coaches and sleepers kept the rails and beyond a severe shock no one was injured. The train was obliged to wait until another engine was sent from York.

A similar misfortune befell the C.P.R. train about the same time, east of Havelock, but the sudden use of the emergency brake prevented the engine being derailed. The accident delayed the Montreal train for Toronto three hours.

Archie Roosevelt Better.

Washington, March 9.—The condition of Archie Roosevelt, the President's son, who is suffering from a severe attack of diphtheria, was encouraging yesterday, though the patient is still in a critical conditoin.

Powers Not Dickering In Orient.

Paris, March 9.—The Foreign Office here denies the report that negotiations are proceeding between Great Britain, France, Russia and Japan for the delimitation of their interests in the Far East.

Mrs. Sage's Way.

Situated in the rarefied stratum of women of wealth and social position, two traits give Mrs. Russell Sage distinction—her excellent mental endowment and her democracy. Her compelling sense of equality—that is the noblest element in her makeup. She will criticise a servant for a mistake or a coachman for a delinquency in *precisely* the way that a city editor "calls down" one of his staff. It is masterful, complete, and it leaves no resentment. She has done it in a big, strong way. She hasn't been patronizing him.—World's Work.

FACTS—Just Plain, Pointed Facts

MERRELL & MEREDITH

To the Gentlemen of Peterborough:

We have pleasure in announcing the opening of our extensive New Spring Stock in Ready-to-wear and Ordered Tailoring Departments, embracing:

New Spring Suits
New Spring Overcoats
New Spring Rainproof Coats
New Spring Trousers
New Spring Hats
New Spring Shirts
New Spring Shoes
New Spring Outfittings

We also direct the attention of correct dressers to our new Importations of Spring Woolens—Suitings, Overcoatings and Trouserings. Orders are now being booked. By leaving your measure now, you get the advantage of first choice of our large and fashionable selections, and assure yourself of a new outfit for Easter.

Merrell & Meredith

Outfitters For Gentlemen and Their Sons.
Nos. 375 and 377 George Street, Peterborough.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

"I am just come from Philadelphia, gentlemen, where the ragamuffin congress sits, and may I be flayed if I ever saw a finer lot of noodle heads! Our Virginian cocks-o'-the-walk were all there, slimy from their hell broth of treason at Williamsburg. 'Od's heart! It sickens to the marrow of the bones to see that lout, Patrick Henry, strut about in Quakerdom."

Anne flinched as if she had been stung and seized Henry's wrist. "Oh," she said under her breath, "come away! 'Tis shameful!"

"No; let us hear it," he answered. "Think you I am not used to such as that?" His voice trailed a slender line of infinite scorn. "Look!"

For more than one of those there had got up and were going out at this. Even among those who sided with the king there were many who had spoken open disapproval of the stamp act days and loved Henry for that if for naught else.

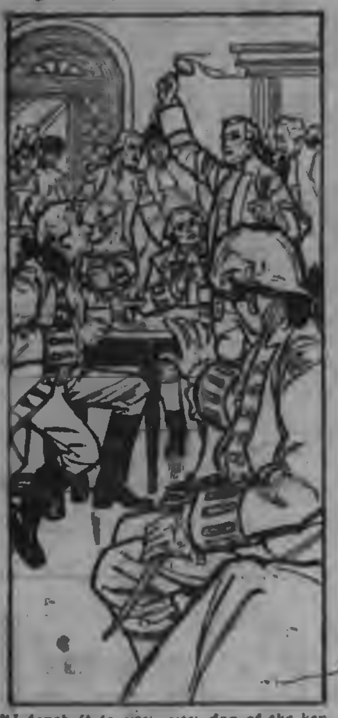
Foy saw it. "Aye, let them go—let them go," he sneered. "'Tis time folk knew where loyalty lay, as they know with you and me, my lord."

A slow contempt went over that rugged old face. The baron had small love for this coupling. He despised the blackguard confidant of Governor Dunmore too heartily to bandy talk with him.

Foy filled his glass. "'Tis said in Philadelphia," he resumed, "that one of our Virginians got on his hind legs and told them he wished to God he could fight it out single handed with George. What think you of that, Rolph?"

Lord Fairfax had deliberately turned his back upon Foy, but he shifted in his seat now at the answer of one of the quality.

Burnaby Rolph, Foy's companion of the gold lace, already heavy with the



"I teach it to you—you dog of the kennel!"

punch and rocking tipsily in his chair, lifted his head and laughed drunkenly.

"Sooth," he hiccoughed. "The same one offered to enlist a thousand men at his own expense and march them to relieve Boston."

Anne's face went colorless, and her fingers clasped Henry's arm with a force that made him wince. "Cruel! Cruel!" she said, for the old baron broke in, stammering with choler.

"The infernal rebel!" he cried, trembling. "Is it gone so far then? Do they flout their king to his face?"

The buzz in the room ceased, and all eyes looked at the tawny old nobleman, his features working with wrath. Henry's fingers were tight closed, and Anne's white teeth bit her under lip till a spot of blood came upon it.

All in that room knew the old man. Many loved him. Not a few held lease upon his land. He was one of the last brave barons who bore his name, for the most part, whether crusaders or poets, men gentle, reckless and mindful of God—men who lived cleanly lives and died commending their souls to Jesus and bequeathing torches and sheep for their funerals. He was a man every inch of him! He blamed the king's ministers, but he loved the king.

At the leer Foy gave him some half rose angrily, but others, of the lower sort, scenting what was coming, slyly winked and smiled behind their palms.

"One could scarce be too severe with such a bloody knave, my lord."

"He should rot in Tyburn!" blazed the old man.

"Swelp me!" cried Foy with a coarse laugh. "And who, gentlemen, think you was this hangman's cur, this dirty factious scoundrel? Why, Colonel Washington, i' faith—turncoat since the French war!"

There were murmurs at this from all sides, even from these Tories, at the trap that had been set, at the wanton affront to a friendship that had been well known throughout the colony since the days when Lawrence Washington first brought sweet Anne Fairfax from Belvoir to Mount Vernon.

"Hound!" ground Henry between his teeth. A cold hand seemed pressed upon Anne's heart.

The stanch old loyalist's face had turned a gray white. He half choked, and his hand went fumbling to the lace at his throat. He was silent for a moment, his great brows together, his fingers on the arm of the chair clasping and unclasping, while Foy sneered audibly in the quiet.

"Not George!" he faltered at length. Something almost like a dry sob escaped him. He [illegible] the sneering face before him, now searching about for applause. He turned to the company with a gesture appealing and pathetic.

"Why, gentlemen," he said—"why I've known him since he was sixteen! I remember in '48 when he was a ruddy faced boy and ran my lines for me! The Whigs have misled him, maybe, but he could not take up arms against—his king!"

There was a little stir in the place, a sort of waiting silence. Then a young man arose in the back part of the room and bowed gracefully. It was M. Armand, and he held a slender-stemmed glass, which he filled.

"Messieurs," he said simply, "I am not of your country, nor am I of the allegiance of your king. My country is one far away, and it is one that has learned of war to love a soldier and a brave man."

As he spoke Henry's face lighted with a great flash of surprise and pleasure. He did not see the white and red changing in his companion's cheek, did not note her uneven breath nor the wondrous beauty that came softly courtesying in her eyes.

The voice went on:

"But we of my country know one American so well—we know him because it is against our own arms that he has fought, before Duquesne. Messieurs, I pledge you a brave man. Colonel George Washington!"

Armand lifted his glass gravely as he finished and drank, and a little hushed cheer ran around the room. One could not have told from the speaker's face that he knew he had drunk alone. My Lord Fairfax had no glass, but he rose in his seat and bowed to him.

The toast drunk, Armand set down the glass with a clash on to the table. His face became all at once set and cold, and he stood very straight.

"One thing more, messieurs," he said, "we know in my country. We know the courtesy. Our postilions know what is due to the gentleman of birth. And thus"—he turned sharply upon Foy—"I teach it to you—you dog of the kennel!"

With this he flung the glass full into his face.

So unexpected had been the action that Anne gave a little scream, unnoted in the stir across the sill, and Henry let out a great oath of admiration.

Foy's countenance turned a devil's, and his sword was out before he got up.

Armand bowed to Lord Fairfax and then to Foy. "Monsieur," he asked the latter, "is the affront to your liking?"

"'Sdeath and wounds!" raved Foy in a fury. "We need go no farther than here to settle this! I killed a man at Minden for less."

The old baron got up, with the aid of his negro body servant, breathing heavily. "Sirs," he protested, "let there be no bloodshed. I beg of you!"

"My lord!" Armand's voice was quiet and contained, and it was all he said. Lord Fairfax stopped short, looked at him a moment, swallowed and stood still.

Rolph came lurching forward, his shifty eyes sobered by the outcome. "Gentlemen," he cried, "clear the room and send the servants away. We shall need to confer."

The baron crossed the room at this and held out his hand. "I beg of you," he said, "to honor me by your presence at Greenway Court tomorrow."

"I thank you, my lord," said Armand.

Then the old man, with his head up, erect and leaning on his servant's arm, passed out to his chariot. He knew very well that Foy was reputed to be the best swordsman in the colonies.

"Have you a friend who will serve?" asked Rolph. Armand shook his head.

"Aye," said Henry fiercely, and, swinging his long legs over the sill, he strode into the room. "If you will allow me, sir!"

Anne waited to hear no more, but ran back through the courtyard to the door. Her eyes, blinded by tears, scarce saw the great, gaunt figure till she felt his hand upon her hair.

"You here, my dear, in Winchester? [illegible] You must ride to Greenway Court. We shall be blithe for you! I have just invited a guest for tomorrow."

Looking up as she held his hand, Anne saw two drops—little shining miniatures of his big heart—roll down his cheeks.

CHAPTER VII.

"AND you will not stay?"

"I cannot, mademoiselle."

They stood a little way from the inn porch between low box rows, and the young Frenchman's eyes looked back the stenciled moonlight.

"Yet," Anne continued, "last time we met, monsieur, I should not have deemed it too much to ask of you. There are those of your sex who would not scorn the tedium of an evening with me. Would I had spared my invitation and my blushes!"

"Cruel! When you know I would give so much—anything—for an hour with you."

She touched his sleeve lightly. "We shall sit before the fire," she said, "and you shall tell us tales of France and of the life in your own country. 'Tis chill here."

"Mademoiselle, I cannot. I have a tryst tonight."

"With beauty? Then will I not delay so gallant a cavalier."

She left him and walked toward the porch, but her steps lagged. Turning, she saw him standing still, looking after her, then came back, lacing her fingers together.

"You will not stay?"

He shook his head.

"I know why you go," she said after a moment's pause. "I heard it—I saw it."

"You saw"—

"The quarrel in the parlor. I was in the courtyard by the window. I know what you would do."

He looked at her uncertainly, his eyes dark and bright.

"'Twas a craven thing," she went on, "a dastardly sneer at a brave, true hearted gentleman. My Lord Fairfax is old, and the cowards, the pitiful cowards who knew him and have eaten at his table, they sat and heard and tittered behind their hands. But you must not fight! You must not!"

"And why not?" he asked. "An old man, a noble baited by a swine! Should not such be resented by gentlemen? And shall I, who have struck that scoundrel, refuse to meet him?"

"He has killed before!" she cried. "He has the quickest rapier in Virginia. It would be murder."

"Mademoiselle, I ask you—would you have me fear?"

"'Tis no question of courage," she went on hurriedly. "Must not I, who saw it, know that? Only you of them all dared to resent it. Monsieur, you are brave."

"Mademoiselle!"

"But it was in my lord's cause, and I ask it for his sake. If—if you fall, he would sorrow for it till his death. And—and"—

"And you?" He had bent forward eagerly. "Would you sorrow, mademoiselle?"

"My lord's grief would be mine."

The young Frenchman drew a deep breath. "That is all?" he said sadly. "I am nothing but a shadow—a passing stranger, whose coming or going cannot make your heart beat one bit faster or more slow? Because our ways have crossed but once, shall you tell me I cannot know your heart? We are like stars, mademoiselle, we human ones—little stars wandering in a vault of blue. When one star has found its mate, about which God has made it revolve, shall the star refuse to obey because it has never known that star before? Have I found the one woman in the world for me, and she does not see the divine in it?"

Somewhere far away a whippoorwill began to call, a liquid gurgle through the clasping dark. There came the stamping of horses and a whinny from the stables.

"Tell me, am I no more to you than that stranger passing by?"

Anne's voice held a tremor, but she spoke earnestly and softly: "You are more than that. You are one who once guarded me from danger—one whom I have this evening seen do a gentle deed that I shall remember always."

"Ah, it was nothing," he answered. "Was it more than any gentleman might do? They were not gentlemen there. But I would be so proud of it, mademoiselle, if it made you care ever so slightly, as I have said. If it made you think of me not as a stranger, but as suddenly a little nearer, a little closer than all else besides. Do you remember what I told you that day as we rode in the wood? That a man has a want for two things—a cause to fight for and some one to wait for him? It is near the time now, and I must go, mademoiselle, out into the moonlight. I should go joyful if you but told me that last want was mine. You—you cannot give me that?"

Anne did not answer, but she was trembling with a new sense of intoxication.

"I ask you to give me a token, something to carry with me as I ride to keep the memory of always, to"—

"Monsieur!"

"I love you!"

"No, no!" she cried. "I cannot listen! I—"

"I love you!"

"Stop!"

"Once to touch your lips"—

He was leaning near her, so near she could feel his breath warm upon her cheek. In a sudden surge of revolt she thrust out her arm as if to further the distance between them.

"No!" she cried. "No! How dare you ask me that? How dare you?"

"Ah, mademoiselle!"

"Count you me so cheap?" she asked, turning half way, but she did not hasten. He dropped on one knee and lifted the hem of her skirt to his lips.

She let her hand fall upon his head with a fluttering gesture. Then, as he started up with a joyful exclamation, she ran back toward the porch.

Standing with bared head in the moonlight, he saw her pause on the threshold—saw the heavy door close behind her.

"You clod!" bubbled a furious voice behind him.

The young man turned composedly as the figure came out of the darkness of the highroad behind him.

"Ah, my Jarrat," he said, "is it you, then?"

"Look you!" Jarrat's voice was hoarse with passion. "There are some things that are denied you. This is one. Be warned!"

"Warned? And by you?" laughed the other. "You lay a law for me? Wherefore?"

"Our compact"—

"And do I not hold to it, monsieur? Did you not tell me to search out the bright eyes and red lips? Did you not say to me that love was fair in the middle plantation? Did you not whisper of proud ladies waiting to be kissed?"

Jarrat burst into a laugh.

"You! Why, you pitiful fool! So this is the why of such brave daring! Insults, forsooth, and duels with gentlemen! A fine nobleman it is, to be sure! Think you the toast of Virginia is to be charmed by your tinsel swashbuckling? Think you that Mistress Tillotson would lower her eyes to you?"

"She has already lowered her eyes to me, monsieur."

"I tell you I will have you keep your clerk's face elsewhere!"

"Clerk?" repeated the young man. "No, no. Not a clerk; a nobleman, a marquis—one of the high blood—a title guaranteed me this morning by my lord the Earl of Dunmore."

"So that is it," jeered the other fiercely. "You think to wed a lady by this brave masquerade. You dream"—

"Not by this masquerade—no," said the Frenchman, a brightening stain coming to his face. "By only my heart. By only what it holds, monsieur. I said she had already lowered her eyes to me. Yes, the fairest lady in Virginia, and still she does not guess of our plan and of my bargain this morning with his excellency! Ah, such happiness! I did not even dream it would be so—that she would regard me, me just as I am. When his excellency has returned when I am a nobleman—I shall have this to remember—that it was so. That when she first gave me her hand to kiss it was to me, just to M. Armand—not to the marquis which I shall become."

"A title," prompted Jarrat, "good only so long as I please."

"You will not tell her otherwise. No. Because you wish me to carry out this purpose—this pretty play the plan of which has so joyed the noble earl in the fort yonder and made him smile upon you and swear you were fit for a cardinal. You would not cloud this beaming favor of his with early failure. No, you will tell no one. A man serves either love or ambition, and your ambition is master. And I? I am not worthy to kiss her hand. No one on earth, rich or proud as he may be, could think himself that. But I could offer her more than you; for if I had the whole world I would give it all—wealth, name, ambition—just to be but a vagabond on the street with her! No, you will not tell her, monsieur, that I am not what I may come to seem. You will not tell her."

Jarrat's face purpled.

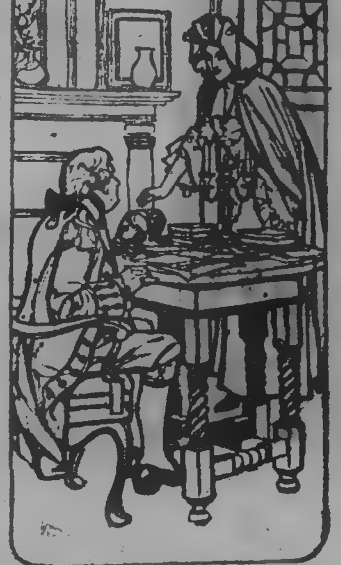
"Beware, you spawn!" he said in a choked voice. "On other points you are free while you serve in this. But go not far along the way you have chosen—with her. She is not for such as you."

"She is for whom she loves," answered the young Frenchman.

The clatter of horses sounded, and the lank figure of Henry came from the stable yard leading two mounts.

As the pair took saddle and rode away Jarrat stood looking after them down the highroad.

"So the lady has lowered her eyes to you?" he scoffed, with a dark smile



She came into the center of the room.

on his arrogant lips. "And I dare not spoil your gay masquerade? I wouldn't give a pistole for your chances with Foy. He will end you as he would undo an oyster. You made a mistake, my new laid marquis, in soaring so high, and a worse one in bragging of it. But for that touching scene in the yard I had stopped that blundering idiot, but now he may spit you and welcome!"

The rattle of departing hoofs had scarce died away when Anne crept softly down the stair of the inn. She had donned a long cloak, and from under the edge of its hood, drawn over her hair, her blue eyes looked out with a feverish brightness.

The hall was lighted with a great lantern, whose yellow flood added to the flower white pallor of her countenance. The clock was striking 10. The soldiers had sought the fort to gain early rest, and the townfolk were gone home. The long parlor was still and dark. Through the open door Anne could see the litter of tankards and pipes and a lean dog, stretched with black muzzle laid to the threshold, asleep.

She slipped through the door and to the highroad, and then, with tremulous fits of fear at the shadows, ran at her best pace toward the fort. It was a good half mile, and she reached it out of breath. A sentry at the gate stopped her, and to him she said she wished to see the governor on important business.

"I know not if he will see you," he objected doubtfully. "It is late, and the march is to begin at sunup."

"But he must see me," she told him. "Tell him he must!"

He left her for a moment, then, returning, led her across a court of hard beaten earth into a log building containing a single room. At the far end was a table strewn with papers and maps. A sword rack was nailed to the wall.

In an armchair before the table, his plumed hat and sword tossed across it, sat the governor, heavy, coarse featured, with reddish, muddy skinned complexion under a black curled wig. He was pig necked and his eyes were bloodshot.

She came into the center of the room and courtesied slowly, while the earl rose clumsily, his red eyes flaming over her lithe young beauty, and sat down again, tilting back his chair.

"Your excellency," she began, "will pardon this intrusion and my haste. A duel is to be fought this night on Loudon field, and I—I appeal to you to prevent it."

"A duel?" The earl bent his bulky neck. "I' faith, this is not the court at Williamsburg. I have weightier redskin matters at present to fill my time. But 'tis truly a desperate encounter to cause such a pretty interest from Mistress Tillotson. And what fight they over, pray? I warrant me they have seen your eyes—eh?"

"At the King's Arms tonight," she said, flushing, "an affront was offered to a gentleman who was absent."

"Who was this gentleman?"

"Colonel Washington."

"The Mount Vernon farmer whom the rebels bespeak to drill their hinds. Humph! And whose was the affront, eh?"

NOBODY NEED HAVE INFLAMMATORY RHEUMATISM!

THAT'S FACT THAT MEDICAL SCIENCE CAN PROVE TO YOU EVERY DAY IN THE YEAR—CARELESSNESS COURTS IT—PRECAUTION PREVENTS—IT'S NOT A CONTAGION THAT STEALS IN UNAWARES!

South American Rheumatic Cure

is the fortress behind which you may be perfectly secure; and why take chances if, through exposure to heat and wet, you feel those unwelcome chills, then the fever, then the sweating, then the pains in the joints. Do not put off securing the greatest of rheumatic and neuralgia cures. Experience shows that the duration of inflammatory rheumatism, under ordinary treatment, will cover a period of six to eight weeks; and what a wracking it gives to the sufferer, and it seems almost incredible that the great South American Rheumatic Cure has, in thousands of instances, controlled and conquered most stubborn and next to baffling cases in from one to three days.

Lumbago is one of rheumatism's full brothers. It comes and prostrates at times with the suddenness of a thunderclap, and yet, as in the most acute inflammatory cases, the great South American Rheumatic Cure comes as a ministering angel, holds out its healing hand, and bids the bent and bedridden take on the suppleness of youth. Lots of testimony for the asking. 11

Healthy kidneys are kept so by South American Kidney Cure, and unhealthy kidneys are cured by the same great remedy

PARK STREET SUNDAY SCHOOL

Anniversary Tea and Concert Passed off Delightfully

The Park street Baptist Sunday school anniversary supper and entertainment was held Thursday night. That there is an attraction in well-selected pictures for young and old, there [illegible] no doubt, [illegible] experience [illegible] there was great crowd. The difficulty was where to put the people. The teachers were busy from six o'clock serving supper and had barely time to arrange seats when the crowd began to pour in. At 8 sharp Rev. A. H. Bruce took the chair and called the meeting to order. The secretary read the report, which represented a good year's work, showing the school to be in a very healthy and aggressive state, the increase being considerable over last year, and the finances in good shape. After meeting all liabilities, a balance remains in the bank of $11.52. The handsome sum of $95.25 was raised by the school for the building fund of the new church. This year a special donation from the school funds of $10.00, makes $105.25 as the school's share towards the new church for the year. $63.70 has been given to missions. The grand total raised by the school for all purposes is $305.16. The treasurer's report and the rewards were presented by the assistant superintendent. The prizes went to the following; Bruce Kemp, Boyd McMillen, Rebecca Juby, Edith Jobe, Mina Throop, Gertie Killingbeck, Lillie Booth, Pearl Peters, Earl Bartie, Wilton Tranter and Jennie Peters. In addition to a most enjoyable trip through England seventeen sets of moving pictures were shown. Mr. Stubbs, though a prophet in his own country, is deservedly popular and is certainly master of his business. It was indeed a most enjoyable evening and full of profit for old and young. The teachers and officers are to be congratulated for the great success of the undertaking.

No Easy Existence Intended for Man

Rev. J. H. Teney Say Greatest Difficulties are With Ourselves

At the usual Friday evening Lenten service last night at St. Luke's church, Rev. J. H. Teney, of Omemee was the speaker. A fairly large congregation was present. Rev. J. H. Teney preached a very helpful and inspiring sermon from the words found in the 23rd verse of the 9th chapter of St. Luke's gospel; "If any man will come after Me, let him deny himself and take up his cross daily and follow Me."

The reverend gentleman began his sermon by saying there was nothing worth having that was not difficult to get. The sweet things of life come drop by drop and success was founded upon effort. When we compare the conditions of things twenty-five years ago and the present time we should think of the labor and toil spent by our forefathers that we might have the conveniences which we enjoy at the present time.

Continuing the speaker referred to spiritual things. There was great difficulty in the acquisition of character. Man was not intended to have an easy existence. Some people would have man to be subject to no temptations or to have no struggles. Man's greatest difficulty was with himself. It was so hard for one to deny himself. At this Lenten season we should come apart from worldly things and deny ourselves and bear the cross. In conclusion Mr. Teney said Heaven was for those who fought and struggled and through the strength of Christ, won.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Sun Life Assurance Company of Canada

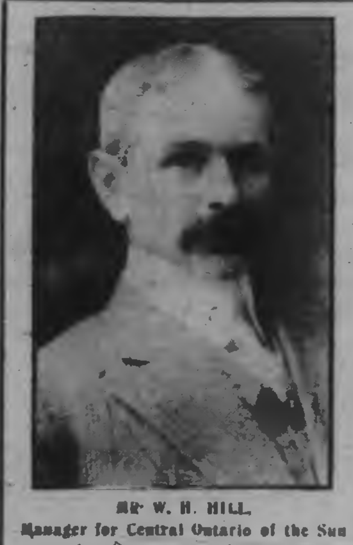
Evidence Before the Royal Commission Has Proved Best Advertisement Company Ever Had—Comment by the Management.

The four months which have elapsed since the close of the sessions of the Royal Commission have shown that the enquiry has been of untold value to the Sun Life of Canada. The evidence brought out as [illegible] and absolute safety of its investments, [illegible] the large [illegible] policyholders, and the good faith of its directors and officers. Now that the full report has been issued the management note with satisfaction that the criticisms of the company are few. It is true that the commissioners felt compelled to find some fault, but most of the points mentioned are of very minor import.

The commissioners "do not find any necessity for the increase of capital stock in 1897," from $500,000 subscribed, $75,000 paid up, to $700,000 subscribed, $105,000 paid up as at present.

Several of the states which we desired to enter required a minimum paid-up capital of $100,000. Even apart from this, however, and even if it were granted that the increase were not absolutely necessary, that it was highly desirable can hardly be doubted. In 1897 the company had policy liabilities of about $7,000,000, and today these liabilities are about $23,000,000. The disparity between liabilities of $23,000,000 and a capital of $75,000 need not be dwelt on. Few we think, agree with the commissioners in considering the increase to $105,000 unwise. The management does not favor excessive capitalization, but it is of the opinion that if the capital of the company be open to criticism, it is because it is too small rather than too large.

Reference is made to the fact that the company pays dividends to its shareholders of 15 per cent. True. But that this may be seen in its real proportion, it is only necessary to state that these yearly dividends since 1897 have been but $15,750, and as the capital itself earned at least five per cent., only $10,500 per annum came from the profits of the company. The actual profit earned last year was $921,721.31. Was $10,500 an excessive sum to pay from this to the shareholders, who stand as guarantors to the policyholders, not merely for $105,000, but for $700,000 of subscribed capital?



MR W. H. HILL,
Manager for Central Ontario of the Sun Life Assurance Co. of Canada.

But if fault be found with the increase of capital, the terms upon which the extra stock was issued should, in fairness, be stated. For each share on which, but $15 was paid up ($100 subscribed), the company received in hard cash $45, or three hundred per cent. Dividends have been paid only on the $15, not on the $45. At five per cent. interest the $45 earned the entire dividend, so that the additional stock has not cost the policyholders one dollar since it was issued in 1897, and so long as five per cent interest can be earned, it will not cost them one dollar for all time to come, unless the rate of dividend be increased. By the issue of this stock, $90,000 of additional cash was paid in for the security of the policyholders, of which $60,000 (the premium) went into the general surplus, and the shareholders also became liable for another $170,000 of subscribed but uncalled stock, and all this has cost the policyholders for ten years—ABSOLUTELY NOTHING!

Another point that might in fairness have been mentioned is that although the charter leaves the decision of what amounts shall be paid to shareholders, absolutely to the discretion of the directors, that proportion has been voluntarily reduced to five per cent., the policyholders receiving 95 per cent., although the usual proportions are 10 and 90. The interests of the policyholders have always been first with the Sun Life of Canada.

A few other unimportant matters are also referred to. The so-called "concealed" expenses consist principally of small expenses connected with certain securities which were, as we consider correctly, deducted from the profit made from the sale of these securities. This is certainly the course which nine out of ten bookkeepers would consider right. However, these matters were all explained in detail, and we think satisfactorily, at the sittings of the commission and were fully reported in the press. The public are the real judges in this matter, and that the public was eminently satisfied with the company's evidence has been shown by showers of congratulations. The investigation has, in fact proved a huge advertisement for the company—the best in its entire history—because these facts brought out met with the approval of the public. Under these circumstances we are well satisfied, even though the commissioners have not seen eye to eye with us on some minor points.

EVANGELISTIC MEETINGS

Evangelist Mr. Robert Telfer, of Toronto will conduct special meetings tomorrow at 3 p.m. and 7 p.m. in the Union Hall, Simcoe street above Brown's feed store. All are welcome.

CONTRACT COMPLETED

Mr. F. R. J. MacPherson has just completed installing a system of hot water heating in the residence of Rev. Father Kielty, rector of St. Joseph's church, Douro.

House of Industry Organ Concert Was a Big Success

People of Lakefield Turned Out and Packed the Town Hall—Splendid Programme—Excellent Addresses by Warden McNulty and Others.

Special to Review.

Lakefield, March 8.—Great success attended the concert given in the town hall here this evening. It was for the benefit of the House of Refuge organ fund and consequently every resident of the village was interested and anxious to help. The hall was crowded to the doors and from start to finish the audience thoroughly enjoyed the programme. Every number was well rendered and nothing but praise can be said about the participants.

County Councillor R. N. Scott, who is chairman of the House of Refuge Management committee, occupied the chair. In a neat little speech he referred to the very laudable cause for which the concert was given and he, on behalf of his committee, extended his hearty appreciation to the people of Lakefield, and especially those who had taken an active part in making the affair so successful.

Addresses were also given by Mr. W. M. Graham and ex-Reeve Moore, of the village, and Warden P. McNulty. Mr. McNulty made a splendid speech. He was in the village during the day on business and stayed over for the concert in the evening. When called upon by the chairman the Warden expressed the pleasure it gave him to associate for at least one evening with people who had such noble characters as those who had undertaken to get up a concert for so good a cause. He was glad to know that the people of the village were in sympathy with the purpose of the House of Refuge, and that they felt so kindly towards the inmates as to furnish an organ for the home. No doubt the old people would spend many pleasant hours as a result of this concert and on behalf of the County Council the Warden extended his hearty thanks.

The following programme was rendered:—

PART I.

Piano duet.—Misses Hunter and Grylls.
Chairman's address.
Violin solo.—Miss Balsdon.
Solo.—Mr. Campbell.
Recitation.—Miss Emma Vincent.
Vocal duet.—Mrs. Young and Mr. Campbell.
Solo.—Miss M. Kline.
Cornet solo.—Mr. Labelle.
Recitation.—Mr. L. A. Short.
Selection.—Citizen's band.

PART II.

Piano duet.—Misses Nelson and Kline.
Solo.—Mrs. James Young.
Recitation.—Miss Kelly.
Solo.—Miss M. Webster.
Piano solo.—Miss Ida Sanderson.
Song.—Mr. Marshall.
Recitation.—Mr. L. A. Short.
Piano solo.—Miss Edith Griffin.
Comic song.—Mr. R. W. McKibbin.
Selection.—Citizen's band.
God save the King.

Peterborough Wholesale Men Do Not Sell to Retail Trade

The article which appeared in The Canadian Grocer last week in reference to the treatment of the retail grocers by the wholesalers was not taken by some in the city as the writer had intended. Mr. Davis, manager for T. Kinnear & Co's branch here, wishes to state that his firm have never accepted an order from anyone not a retail merchant. Nearly every day either letters are received or parties call at the offices wanting to buy groceries wholesale. But the firm has refused every one. They realize that it would not be fair to the retail merchants. Messrs. T. Kinnear & Co. have worked up their business here on the principle of "honesty is the best policy." Mr. Davis, however, did not contradict the main argument in the article, nor any of the charges laid against the wholesale houses. He said he knew that outside firms which sent travellers here were taking orders from hotels and restaurants, and also from private individuals. He gave as one reason for this that the outside firms were being gradually crowded out of the city and district, and had adopted such means, more to cut into the local wholesale trade than to injure the retail merchants. No doubt there is a great deal in Mr. Davis' argument. The three wholesale houses here, viz., T. Kinnear & Co., Perkins, Ince & Co., and Charles Bishop have pretty well corraled the grocery trade of the district. All three firms are doing a good business and it is constantly growing. Since Messrs. Kinnear & Co. have moved into their new premises they have been increasing their sales every week, and in a short time the business will be doubled.—Canadian Grocer

MONTREAL SCHOOL FIRE.

Jury Places Blame On Lack of Drill and Escapes.

Montreal, March 9.—The following finding was reached yesterday by the coroner's jury in the Hochelaga school fatality:

(1) That the children who lost their lives were asphyxiated as the result of Mr. Hand having left certain doors open, thus having allowed smoke to reach and pass through the halls of the building.

(2) That the fire drill, of which the school had boasted, had been omitted, besides which the Protestant school commissioners should have ordered more frequent practice.

(3) That Miss Maxwell, the teacher who lost her life, waited too long in notifying the children of the upper storeys of their danger.

(4) That the fire apparatus, namely, exterior fire escapes, were missing from the building.

None of the grounds given above constitute a crime. The Protestant school commissioners cannot therefore be held criminally responsible.

We suggest that in each school a marshall or caretaker shall be employed, who shall watch for such exigencies.

Oklahoma Gets Two-Cent Fare.

Guthrie, Okla., March 9.—A two-cent fare provision was made a part of the constitution of Oklahoma Thursday. Railroads, which can show that they are losing money at the two-cent rate, however, are excepted.

Belgian Cabinet to Resign.

Brussels, March 9.—Because of an adverse vote on a question of inter[illegible] members of the Belgian cabinet have virtually decided to proffer their resignations when King Leopold returns to the capital.

Still Goes Via Vancouver.

London, March 9.—(C. A. P.)—Postmaster-General Buxton has stated that the mail route to New Zealand via Vancouver is not suspended as far as the British postoffice is concerned.

Duclos Escapes Again.

Montreal, March 9.—Alex. Duclos, who shot Alphonse Desrosiers a year ago and who recently made a sensational escape from Longue Point Asylum, has again effected his escape from that institution.

The Cry is Heard About Watered Milk

A cry is going out to Sanitary Inspector Ball on account of the milk supply just now. Two ratepayers said to the Review today; "The farmers are milking the pump again. We are getting the thinnest milk we ever did in spite of the pure milk bylaw."

At the present time, of course, the farmers have a difficult proposition before them. The majority of the cows are going dry and the supply of milk is very short. Nevertheless the same difficulty is experienced every year and there is no excuse for it. A dairyman can regulate his herd so as to have several fresh milch cows at the time that others are dry. He does not need to have his herd all dry at once or any noticeable portion of it.

Then the new bylaw prevents the one or two cow dairies in the city selling any milk and the citizens are at the mercy of the milkmen. If these men wish to pollute the milk the people have to buy it and pay full price. It would do no harm if the sanitary inspector took samples of milk and sent it to Toronto at once and if the milk is polluted have the vendor prosecuted.

OTTAWA VIA C. P. RY.

Excursion to Ottawa, Ont., and return, via Canadian Pacific Railway, under auspices of Campbellford Board of Trade, on Tuesday, March 19th. Fare for round trip only $3.80 from Peterborough. Also from Indian River, $3.65, Norwood $3.45, Havelock $3.35. Tickets good going only on special train leaving Peterborough at 1 p.m. sharp, March 19th. Cressman's

Small Docket at Police Court

Man Fined for Injuring Pavement With an Axe

At the police court this morning, Leslie Crouter, who was remanded last week on the charge of stealing some groceries from the sleigh of W. H. Hamilton, was allowed to go on suspended sentence. Mr Gordon appeared for Crouter.

John Nunam was charged with breaking the pavement when chopping ice on the street. He pleaded guilty and was fined five dollars.

John Kelly, a shantyman, who was on his way home to Trenton, had to contribute five dollars to the funds of the city this morning. He was arrested for being drunk and disorderly on Sunday and had to pay the price of a Sunday drink.

The Grand for yours next Thursday. Plan opens Tuesday.

MERCHANTS IN POLICE COURT

If Ice is Not Taken off the Sidewalks To-day—Chief Has His Orders

There is every probability that the frequenters of the police court will tomorrow morning be furnished with an entire change of program. The d and d.'s, vags and pugilists will be put on only as specialties. The great feature will be several merchants, who will be asked to explain why they have not cleaned the ice off their sidewalk. The chief of police was instructed last week to notify everyone within the fire limits to get the ice off their walks. This has been done and a few merchants have failed to comply with the instructions. Today the chief received orders to have all the offenders in police court tomorrow morning. Today is positively the last day and the merchants who have not yet complied with the law will do well to get busy at once.

NEW DRESS MAKING PARLORS

Miss Hazard, formerly with J. Sutcliffe & Sons and Robt. Fair & Co., has decided to open dressmaking parlors at 238 1-2 Simcoe street two doors west of Aylmer street. Special attention will be paid to elderly ladies' requirements and all work will be done in Miss Hazard's usual satisfactory manner.

Bill Gets its Second Reading

Extending Hours of Polling on Municipal Election Days Until 8 p. m.

Mr. T. E. Bradburn's bill to extend the hours of polling at municipal elections to 8 o'clock passed its second reading in the Ontario Legislature on Friday. It will now be considered by the municipal committee and will likely come up some day this week.

The city of Peterborough's private bill will come before the Ontario Legislature private bills committee on Thursday of this week.

Passengers for Great Britain

And Europe Should Book Now and be Sure of Accommodation.

The public are herewith reminded that now is the time to book passengers to either Great Britain or Europe, via the Allan Line, Dominion Line, or C.P.R. Atlantic Steamship line. The ocean traffic promises to be very heavy during the coming summer and accomodation should be booked ahead.

Englishmen, Irishmen and Scotchmen, you are all as welcome to this fair Canada of ours as the flowers in May, and don't forget when you send for your family or your best girl, purchase a prepaid ticket from W. McIlroy, City Passenger Agent, C.P.R, 343 George street, Peterborough

A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N.J., who is a graduate Nurse from the Blockley Training School at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes:

"I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use.

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would bloat after eating and frequently become nauseated. I had pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the female organs, that bearing-down feeling, inflammation, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound.

It is well for women who are ill to write Mrs. Pinkham, Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant for many years before her decease, and for twenty-five years since her advice has been freely given to sick women. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is strictly confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds where Others Fail.

Mrs
Martha
Pohlman

General Booth Now in Toronto Was Given Cordial Reception

Will Visit Nearly All Canada's Chief Cities.

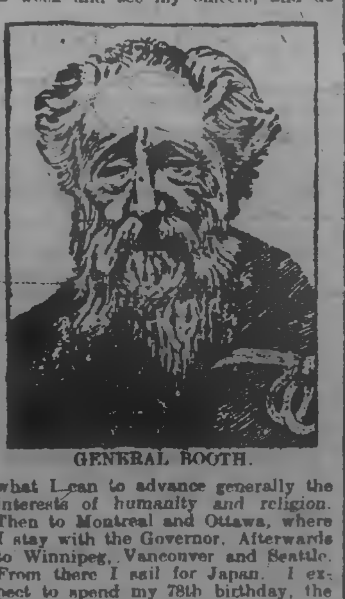
Tells the Story of His Army's Work—Emigration Is a Science With Them—The Government Should Provide Transportation—General Commends Ontario System of Dealing With Immigrants—Approves Jail Farm.

Toronto, March 11.—General William Booth of the Salvation Army reached the city shortly before noon Saturday, and was escorted to Government House, where he will be a guest during his stay in Toronto. There was no demonstration by the Army. At 4.15 in the afternoon he was tendered a civic reception at the City Hall, which was largely attended. In the evening he was greeted by Army officers and soldiers from all parts of Canada, who thronged Bond street Congregational Church to the doors, and who gave the venerable commander a rousing welcome.

Plan of Campaign.

In answers to questions as to his plan of campaign he general said:

"First of all I stay in Toronto for a week and see my officers, and do what I can to advance generally the interests of humanity and religion. Then to Montreal and Ottawa, where I stay with the Governor. Afterwards to Winnipeg, Vancouver and Seattle. From there I sail for Japan. I expect to spend my 78th birthday, the 10th of April, on the Pacific Ocean."



GENERAL BOOTH.

Speaking of his emigration schemes he went on to say:

Emigration Work a Science.

"The Salvation Army is rapidly reducing emigration to a science. What has been done has created the confidence now existing. Whatever people may think of the religious operations of the Salvation Army, and whatever they may thing of our peculiar methods—and they are somewhat peculiar, forcing religion on the attention of men—I think the large majority (seven-eighths probably) of the people of England believe we are reliable. They have not been equal to the task, and they turn to us. When I came away we were getting 1,000 letters a day, 750 letters and 250 applications at least a day, and as these represent families, the work is very important.

Commends Ontario.

He commended the Ontario system of making people repay what was advanced to them.

"It is a wonderful plan, and it is the only colony that does so," he observed.

With respect to the character of the men sent out he repeated his answer to Lord Rosebery. He could not guarantee that the men had never said a bad word, or told a fib, or taken a drop too much, or done any chicanery.

"For that class you must go to the House of Lords," he told Lord Rosebery.

"They are all archangels there," agreed Rosebery.

"As far as we can we guarantee that the men are honest and industrious, and likely to make such settlers as a Government desires," the general declared.

He approved of the idea of a jail farm for the province.

"It is one of my great schemes," he said. "I commend you to make the trial. There are enormous difficulties," he added. It is best to let men mix up with the mass, and then they do not feel that they are branded, he advised as to after treatment.

MAY BURN US UP.

Vesuvian Astronomer Matteucci Fears Comet Will Ignite Atmosphere.

London, March 11.—The approach of a new comet which will imperil the world has been announced by Prof. Lorenzo Matteucci, of the Royal Observatory on Mount Vesuvius, who with his more famous brother has recorded for years the eruptions of that volcano. He and his brother are both agreed that if the actual nucleus on the comet is merely crossed by the earth the danger will be brief, though necessarily acute. But if the earth collides with the tail of the comet our atmosphere will probably be ignited, and every trace of life will be immediately and violently destroyed.

U. S. to Get Nelson Relic.

Annapolis, Md., March 11.—Permission has been granted Rev. E. W. Matthews, secretary of the British & Foreign Sailors' Society, to address the midshipmen of the Naval Academy.

There will be presented to the academy, Mr. Matthews said, in his application, a valuable memento of Nelson's flagship Victory. This relic comes from the British admiralty, and bears the initials of King Edward.

Archie Roosevelt Better.

Washington, March 11.—Marked improvement was shown yesterday in the condition of Archie Roosevelt, the President's son who is ill with diphtheria. Surgeon-General Rixey this morning expressed the opinion that Archie was practically out of danger.

According to the verdict of the coroner's jury in the Hochelaga school fire catastrophe, the children were smothered. Contributory to the disaster was the negligence of the caretaker in leaving the doors open in the basement, thus allowing smoke into the passage.

BANK CLERK ARRESTED.

Will Be Taken Back to England to Face Charge of Theft.

Winnipeg, March 11.—Chased thousands of miles and having escaped pursuit for nearly seven months, Henry Douglas Anderson, former clerk in the branch of the Bank of England at Manchester, Eng., was captured Saturday near Dominion City by Provincial Constable Waddell.

Anderson has been working there weeks for a farmer about twelve miles from the town. When arrested he made no attempt to deny that he was the man wanted. He does refuse to admit the charge of theft on which he will be arraigned when he is taken back to stand trial.

It is alleged that Anderson, while employed by the bank at Manchester, stole £1,081. Large quantities of coin passed through his hands, and it is supposed he substituted copper coin for gold.

Before the alleged theft was detected Anderson left the employ of the bank coming to Winnipeg last August and putting up at the Imperial Hotel, where he stayed for about a month.

He returned to the old country until about six weeks ago, going to work for the farmer near Dominion City on his return.

The provincial police authorities were notified shortly after Anderson's first departure from England, and a search was made for him, but without success.

On the second arrival here, the police got a clue that led to his arrest.

The authorities in England have been communicated with, and an officer will be sent here to take the prisoner back to stand trial.

Anderson is about 42 years [illegible], quiet and unassuming.

TO PROTECT PERSIA.

Great Britain and Russia Make a Deal to Settle Differences.

London, March 11.—The internal affairs of Persia, which, according to official information, are far from satisfactory, are being closely watched by the officials of the Foreign Office.

Great Britain and Russia have already agreed on the steps to be taken by them. Great Britain anticipates that, should the condition of the country reach a critical stage, the Shah who frequently called on Russia before he ascended the throne for financial assistance and sought the advice of the representatives of that country in other [illegible], will ask for Russia's help to restore order.

The Russian Government could comply with the request with the full knowledge that no objection would be made by Great Britain. Russia may even offer assistance without the invitation of the Shah, an offer which Great Britain would advise the Persian ruler to accept.

Great Britain would do her part by sending war ships to the Persian Gulf ports, but she would not go further unless the landing of a force became necessary to protect foreigners in Southern Persia, which by agreement would be recognized as Great Britain's sphere of influence.

This condition is a result of negotiations that have been going on twelve months for the settlement of all outstanding differences between the two powers, which continue to progress satisfactorily, and which shortly may be brought to a successful close.

This better understanding between Russia and Great Britain has made smoother the negotiations between Russia and Japan.

PROPHET DOWIE DEAD.

Founder of Zion City Passes Away Unexpectedly In Delirium.

Chicago, March 11.—John Alexander Dowie died at 7.40 Saturday morning at Shiloh House, Zion City. There were present with him when he died only Judge D. N. Barnes and two personal attendants. It had been Dowie's custom to hold religious services every Sunday afternoon in the parlor of Shiloh House. About 350 of his original followers attended these services. Dowie always wore his apostolic robes and made a characteristic address. Seven weeks ago these meetings ceased and Dowie appeared no longer in public. The Sunday meetings, however, were still held by his adherents.

Since that time Dowie has gardually been failing. Friday afternoon, however, there was no indication of approaching death. He receives a few followers, and prayed for some people.

His Last Words.

His condition seemed to be about the same as for the last two or three weeks. One of the attendants remained with him until midnight and was relieved by the other attendant.

Shortly before one o'clock Saturday morning Dowie became delirious and his talk was the same as at a religious meeting in the days of his prime. He denounced with the old-time vigor, ordered the guards to throw out disturbers, and acted just as he had on many previous occasions. He gradually became weaker and weaker, and the attendant telephoned for Judge Barnes, who reached Shiloh House at 7 a. m. Forty minutes later Dowie died.

Bomb Throwers Get $7,500.

Kutais, Transcaucasus, March 11.—Three bombs were thrown at the treasurer of the local revenue, two policemen and several local officers, while they were driving through the streets with $7,500 on Friday.

This attack was followed by a volley of revolver shots. The policemen, the driver of the carriage and one of the officials were killed, and the treasurer and four other officials wounded.

The robbers seized the money and escaped.

Russian Parliament Rests.

St. Petersburg, March 11.—Parliament adjourned Saturday night at the conclusion of the election of officers. It accepted the suggestion of the president to take a recess for several days.

Sir Daniel Dixon Dead.

London, March 11.—The Right Hon. Sir Daniel Dixon, member of Parliament for North Belfast, is dead. He was 63 years of age.

William Franks, of Calais, N.B., fell from the roof of his house while removing snow and was seriously injured on a picket fence.

BIG FIRE IN TORONTO

Plate Glass Company's Premises Entirely Destroyed.

Damage Estimated At $185,000—Loss Covered Up to $145,000 By Insurance Divided Among a Score of Companies—Capt. Crawford Severely Injured By Falling Ladder—Roof of Hospital Caught Fire.

Toronto, March 11.—The most destructive fire in a long time totally wrecked the premises of the Toronto Plate Glass Importing Co., 135 to 143 Victoria street, early Saturday afternoon. The building was of four storeys, going back 117 feet to a lane. The loss is estimated at $185,000, with insurance of $145,000.

Falling walls and flying glass were a menace to the firemen and several were more or less hurt. Capt. Wm. Crawford of Hose 4, Berkeley street, had his collar-bone broken. He was struck by a ladder, which was thrown over by the collapse of a wall.

Delay in sending in an alarm doomed the building before the firemen arrived. It is stated that when a boy, an employe of the building, ran to the corner of Queen and Yonge streets to send in an alarm a policemen refused to credit that there was a fire, and would not let him pull the box. One man says he stood in the lane in rear of the building for over 10 minutes watching the fire spread. He took it for granted that somebody else was calling the fire department.

Was Full of Fire.

Anyway, when the firemen did arrive on a telephone alarm about 2.15, the building was full of fire and when 5 minutes later the alarm box at St. Michael's Hospital, across the lane to the rear, was struck. Deputy Chief Noble says that the flames were distinctly visible from Queen and Portland streets, a mile and a half away, the flames having gotten through the roof.

Thousands of people out for Saturday afternoon amusement were attracted by the pall of smoke and the billows of flame and seemed to enjoy the two hours of excitement that was furnished. The conflagration was one of the most spectacular for the general public in a long while, for the pyrotechnics were within plain view while the hall fighting forces of the fire department labored heroically with extension ladders, aerial trucks and throbbing engines. The tumbling walls added the necessary evident spice of danger to satisfy the most fastidious taste.

Hospital In Danger.

Tenants in nearby buildings had to vacate, and St. Michael's Hospital and the new six-storey building at Queen and Victoria streets were for a time in danger. Once the hospital roof ignited, but the blaze was promptly quenched.

The loss as estimated by S. J. Rutherford, manager of the company, is $185,000, divided $40,000 on building, $20,000 on plant and $125,000 on stock There is an insurance of $145,000 scattered among a score of the leading companies.

The following officers and men of the fire brigade were also hurt during the fire: Capt. W. J. Smith, truck 1, hand badly cut, and Lieut. Deans of truck 2, back and arm injured. Firemen Armstrong, Spence and Waterman received minor injuries.

FIVE MILLIONS INCREASE.

Canadian Revenue For Eight Months Shows Substantial Growth.

Ottawa, March 11.—The financial returns of the Dominion for the eight months ending with February shows a revenue of $57,986,513, an increase of over eight million dollars, as compared with the same time in the previous year. The expenditure was $37,629,000, an increase of about a half million dollars, so that there was a betterment in the finances of over seven and a half millions. In the capital expenditure there was an increase of one and a quarter million. This leaves a total increase in revenue of five millions. The figures for the month of February show an increase in the revenue of nearly two millions and an increase in the expenditure of about one million.

NOT TO REDUCE NAVY.

First Lord of the Admiralty Denies Peace Conference Rumors.

London, March 11.—The Lord of the Admiralty, Baron Tweedmouth, in a speech at Oxford Saturday night, referred to the fact that the Government was receiving considerable obliquy from untruthful statements regarding its action in the matter of the Hague peace conference.

The Government, he said, did not intend to weaken its naval power, believing the British navy must be kept sufficient for its purposes, whatever the cost.

"We should go to The Hague," he said, "fully desirous of reduction, and, if the other powers do not meet us, they must take the responsibility."

Alleged Curious Fraud.

Kingston, March 11.—An angry husband, living apart from his wife, has threatened law against parties for fraud in attempting to palm another woman's baby upon him as his own. It is said that a married woman connived with a young woman from the country to assume her child at birth. The two entered the maternity ward of the hospital on the same day, but a nurse soon found out the deception of the married woman and exposed the fraud. The husband, when he went to the hospital, was told by his wife that the baby was dead and taken away. Later he learned the real facts, and there is trouble.

Iroquois Fire Case Dropped.

Danville, Ill., March 11.—Judge Kimbrough has decided that the Chicago ordinance, on which was based the trial of Manager William J. Davis, charged with manslaughter, in the Iroquois Theatre fire case, is invalid, thus putting an end to the trial.

Mr. Gordon Smith of Paris, has been appointed superintendent of the Six Nation Indians, with headquarters at Brantford.

MR. E. G. STEVENSON CHOSEN.

Elected to Succeed Late Dr. Oronhyatekha As Supreme Chief Ranger.

Toronto, March 11.—On Saturday the Supreme Executive of the Independent Order of Foresters met in the Temple Building to appoint a successor to the late Dr. Oronhyatekha, Supreme Chief Ranger, and Mr. E. G. Stevenson, Supreme Counsellor was unanimously elected.

Mr. Stevenson's promotion in the order leaves one vacancy, and may cause still another. Should Mr. J. D. Clark of Dayton, Ohio, Supreme Vice-Chief Ranger, succeed Mr. Stevenson as Supreme Counsellor, Mr. Clark's position would be vacant.

Mr. Stevenson's salary is to be settled later. The late Dr. Oronhyatekha's stipend was $15,000. Mr. Stevenson's income last year, private and I. O. F., was $30,000, it is said.

Memorial resolutions were passed to-day.

Elliott G. Stevenson was born in Middlesex County, Ontario. The family moved to Port Huron when he was 16, and he studied law with O'Brien and Atkinson of that city. For two terms he was prosecuting attorney in St. Clair County, and was the first Democrat in 25 years to fill a St. Clair office. He was Mayor of Port Huron in 1885, declined nomination to Congress, and in 1887 went to Detroit, becoming a member of the law firm of Dickinson, Thurber, and Stevenson. Mr. Dickinson was Postmaster-General during the Cleveland Administration, and Mr. Thurber became Secretary to President Cleveland. Mr. Stevenson was once asked to accept the Vice-Presidential candidature, but declined.

Mr. Stevenson has a residence at Amherstburg, Ontario, as well as in Detroit, and has resided in Canada fully six months in the year for some time past.

HIS MILLIONS VANISHED.

Secretary and Manager of New York Company Commits Suicide.

New York, March 11.—Business associates of Leonidas M. Preston, secretary and manager of the Timken Roller Co., undertook yesterday a thorough investigation of the tangled affairs of Mr. Preston, who died suddenly in his apartments in the Hotel Cumberland, by drinking prussic acid, just as his partners were about to call on him for an explanation of the company's business.

Mr. Preston came to New York from Dallas, Texas, several years ago and was reputed to own considerable property near Dallas and to be heir to an estate in New Orleans reported to be valued at $3,000,000. Investigation so far has not located any of this property. A brother in Texas says he never heard of its existence. Preston received $12,500 a year as secretary and manager of the company. It is feared he has had losses and involved the Roller Company in them.

Poisoned Himself.

Last Thursday afternoon three members of the company, William H. Timken, E. R. Gwitt and Leonard Gray called at the hotel. Preston sent for them to come to his room and then excused himself to his wife and her woman friend who were present, went to the bath room, and on returning expired suddenly before his associates arrived. It was at first stated that he died of natural causes, but an autopsy was insisted upon by his partners, and showed the presence of the acid. An examination of his accounts is now being made.

HAD TO USE CANDLES.

Electric Lights In Paris Go Out Owing to Strike.

Paris, March 11.—Without a word of warning, the employes of the electric light and power companies went on strike Friday afternoon at five o'clock. The few lights that were burning were extinguished, and electric elevators ceased running. General confusion set in where electricity is employed as the sole means of lighting. Tradesmen closed their places of business, and the proprietors of cafes made hurried searches for lamps. Hundreds of candles were thrust into empty bottles for lighting purposes. The evening papers failed to appear. One that is issued at 7 o'clock managed to get out an edition at 10.

Strike Ends.

Paris, March 11.—The strike of the electricians of Paris, which threw the city into obscurity for the best part of two nights, has come to an end as abruptly as it began. The electrical companies have conceded the principal demands of the workmen in the matter of pensions, hours and wages.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

"Your excellency's aid, Captain Foy."

The governor slapped the table, highly amused.

"'Twas Foy? 'Od's fish, but he has a high stomach. He carries a pretty point, though, and has used it too. He can take care of himself. And why think you I should trouble myself over such playful bloodletting, mistress? Soldiering makes one not so squeamish. Haith, but I have had affairs in my day. When I was a braw young blade—aye, and there were pretty eyes went red then, too," he added, with a boisterous laugh.

Anne's fingers quivered with resentment, and storm came to her eyes.

"Your excellency," she cried, "the thing was but a trick to wound and flout a loyal hearted gentleman!"

"Ah, indeed! And who this time?"

"My Lord Fairfax."

The earl chuckled in his chair. "So the baron took up for his farmer friend, eh?" he asked, shaking his sides. "I scarce assume that Foy is going to fight the old man."

Anne had drawn herself up, her face pale with this added humiliation. She replied with dignity:

"No, your excellency. The affront was answered by a French gentleman named Armand."

At the name the governor dropped his feet shuffling, and a quick gleam darted across his florid face.

"Armand!" he cried. "The devil, eh? Foy to fight him?" He struck the bell for the orderly as he spoke.

"It shall be stopped," he went on. "An affront to Lord Fairfax, you say—a king's man, aye, and a loyal. Loudoun field, is it? Foy shall be disciplined, the rascal! I thank you, mistress, for this information. I shall send at once and put a stop to the meeting."

He was leading her to the door as he spoke, not waiting her thanks, and as she went out she heard him rumbling angry instructions to his orderly.

Before she had gone from view of the fort gate four mounted men poured out and clattered down the highroad at a planter's pace.

Later, in her own chamber, Anne opened her window and, leaning far out on the ledge, gazed into the night.

"'Like little stars,'" she murmured, "'wandering in the blue.'" Then, after a pause. "'A little nearer, a little closer than all else besides.'"

CHAPTER VIII.

THE spot selected for the meeting was not near by, since Virginia's earl governor had forbidden encounters within a ten mile of a military camp. Foy rode thither with his seconds, Rolph and a lieutenant in the royal forces.

"I like not these night affairs," spoke the lieutenant. "Dew is slippery, and the light deceives. I have known of accidents."

Foy cut in with a laugh of contempt. "'Twill be an accident i' faith," he said, "if I send not his soul a-scurry to hell for that glass!"

"I mind me that fight at Minden," said the lieutenant musingly. "'Twas no white night such as this, but black as the Earl of Hell's riding boots. Roots and slimy grass and"—

Foy cursed him, with his hand shaking on his rein. "Let that alone for now!" he snarled. "They lied an they said he slipped. They lied! 'Twas fair, I tell you!"

"Aye," said the other, surprised. "'Twas a fair thrust. None doubted it."

"Where are your wits?" said Rolph, reining close. "Know you no better topic? When you have triced the young upstart, Foy, we shall have a toddy tonight. This air has an ague."

A lantern had been set at the byroad, and at this Henry and Armand turned into the open space. The curving road on the higher Blue Ridge slope had been delicately grayed with a gossamer mist creeping up from the late downs. Here it had risen thicker, curdling more deeply against the ground and sopping the air with the smell of wet beech bark. With the sailing moon above, it was like going in some murky, dull toned world where near things were shadowy and far vanished into opaque whiteness.

The other party was in waiting, the horses, in charge of a groom, tethered near by under clusters of black scarred, white stemmed birches, which stirred dimly as if afraid. Through their moving branches fitful flashes of fog-mixed moonlight filtered whitely on Foy, striding up and down, slashing off goldenrod heads with his sword and listening to the rustle of late rabbits, scurrying.

"Gentlemen," said Henry gravely, "know you no means by which this meeting may be avoided?"

"The young cock's crowing less loudly, eh?" Foy turned to his seconds with a rolling laugh.

A quick word of anger was on Armand's lips as he faced Henry, which died as Burnaby spoke:

"Let him to his knees and ask Captain Foy to use his riding whip instead of his sword."

The Frenchman's laugh rang out clearly and loud. "I have seen M. le Capitaine ride. If he uses his sword as poorly as his whip"—

"Damnation!" said Foy. "Measure those swords, Rolph, and be quick about it."

Henry held Armand's coat and waistcoat after he had stripped them off and stood, slight and young, in his shirt. He looked at him with rising pity. All Virginia knew of Foy's sword skill. He had a black record in the army of Duke Ferdinand of Brunswick, and these tales had been whispered wide in Williamsburg. There he had come to no open quarrel as yet and was made a boon companion by such pot tipsters as Burnaby Rolph and lesser toad eaters like young Brooke. But the better class gave him a cold shoulder as unworthy to mix with gentlemen of character and would have needed little to have named him to his face for a sneaking whelp that smelled strong of the hangman.

The young Frenchman took Henry's hand between both his own. "I have been so occupied these last three hours," he protested contritely. "Have I said to you that you are generous and kind to assist thus in the affair of a stranger? Have I said that I was grateful?"

"Colonel Washington," said Henry, "is my best friend. An' I had been in the inn parlor, [illegible] toast with you."

The night was very still. Scarce a leaf stirred in the vagrant breeze or shivered in the haze. Only a dull humming chirr of night insects from the thicket and drifting across this—a gold snake on a sad carpet—the rich, plaintive bubble of a whippoorwill.

"Gentlemen," cried Rolph, "is all ready?"

"Have you no command, monsieur?" Henry asked.

The young man's eyes were soft as he shook his head. "How sweet it sings!" he said. "Listen!"

It died, and the tapping of a bell, very faint and far and tenuous, came over the still valley. Henry knew the sound. Away to the eastward on a high knoll, stood a long, low structure of limestone, with a wide veranda. Perched upon its roof were two wooden belfries with alarm bells, which had been hung twenty years before, after Braddock's defeat, when the Indians turned their tomahawks against the white chief that dwelt there. The Indians had been driven westward long ago, but the bells still rang whenever the master, with yelping hounds or by flaring torches, came back to his lodge. At this moment, while Armand stood in the moonlight with a naked sword in his hand, my Lord Fairfax, for whose affront he stood, was come again saddened to Greenway Court.

Foy's voice broke in, sneeringly wrathful. "Are we come to string beads"—

"En garde!" cried Armand, turning sharply, and the two blades rang together with a clash.

Foy's attack was wonderfully strong. He had the trick of carrying the head well back and resting the whole weight of his body upon the left leg, a sign of one whose learning had been without masks. The other's method was as different from that of his antagonist as night from day. He fought far forward, engaging much with the point.

A maitre d'escrime might have seen in his action some of the freedom and directness which later gave Bertrand, the greatest fencing master of Europe, the surname of the "Terrible." But to the watchers it seemed to be utterly without method—barren of rule—to be loose, uncontained. He possessed the appearance of a child at careless play with a serpent, not conscious of its sinister intention.

A pain came into Henry's dark eyes and a paler tinge to his cheeks. He groaned inwardly as Foy suddenly came at Armand, pressing him back in a furious chasse-croisse, first the right foot forward, then the left.

The lieutenant stood close to Henry, his lips parted, watching. "They say Foy was taught of Angelo," he whispered, "and that the pupil could best his master. Your friend is in evil case."

So indeed it seemed. Foy was a brute, and he fought like one, with face distorted and breath rattling with rage. He came on with the lunge of a hunter at a boar, his blade hate heavy, and the very fury of his rush sent the young Frenchman back to the verge of the bushes.

Armand returned with a stop thrust, parried a lunge and answered by a riposte. Then for a moment there was nothing but the du-tac-au-tac of slim steel, cutting wayward blue white flashes where the milky light caught its edge.

"End the cub, Foy," cried Rolph with an oath, "and let us to town! You could have spitted him forty times!"

"By heaven!" suddenly burst out Henry. "Bravo!"

The Frenchman's blade, beating up a flanconnade, had nicked a crimson gash on Foy's shoulder.

The latter, smarting from the prick and enraged beyond measure, came on again cursing, his chin set forward from his neck and a fleck of foam on his lips.

Armand had changed his tactics. He still had the appearance of looseness and lack of close defense; but, strangely enough, Foy's point, though wielded by the redoubtable swordsman that he was, had not so much as slit a ruffle of his shirt. He was untouched, immaculate, careless and debonair.

Now he became of a sudden winged. He turned, circled, was here and there with the rapidity of an insect. The fight turned this way and that, crushed the bushes, was all over the ground. There was a maze of pricking, whirling arrows of sulphur colored flame in the moonlight. Foy's breath was coming hoarsely in his throat like that of a strangled dog. Armand began to laugh outright as he thrust and parried.

The lieutenant wedged an exclamation amid the flick and scrape of steel. Foy's face was become a welter of sweat and rage. This was a sort of fighting new to him. He tried every attack, every feint, double engage, coupe—each ineffectual. Armand, nimble, laughing, began to hum a tune as he ran.

Nothing could have been better calculated to goad his adversary to point of impotency. Already Foy had begun to cut and lunge in utter, whirling madness. Rolph no longer called to him to end the matter. All alike saw that such ending was fast coming into Armand's power alone.

Again and again Foy laid his guard open to Armand's thrust, taking no thought, but still the Frenchman withheld it. [illegible] the other's coat to flapping ribbons, pricked him on the thigh, in the armpit, in the hand—wasp stings that drew blood and rage, but harmed not.

At the first spurt of crimson Rolph leaped forward, crying that it was enough, at which Armand politely lowered his blade, but Foy reviled his second with such curses that he went back to his station gritting his teeth.

The lieutenant raised his hand, with drawing his eyes an instant from the combatants. Henry listened, and his ear caught the tattoo of hoof beats flinging over the road, mixed with the falling of a lash upon horse's flanks a frenzy of impatience in the sound. As it came nearer Rolph turned his head with a quick gleam of relief.

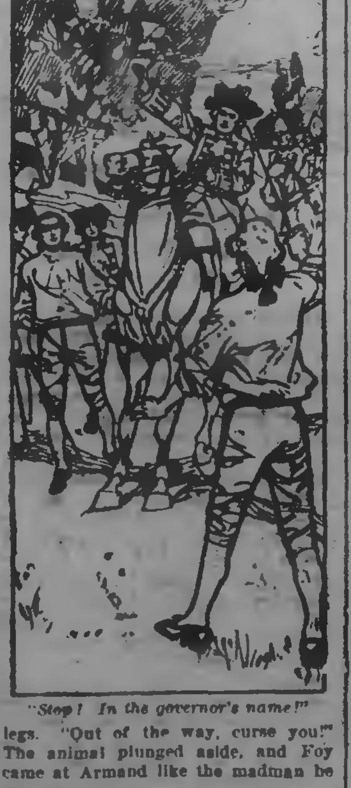
At the same instant Armand, swerving far forward, wounded his antagonist in the right wrist, and, Foy's fingers relaxing on the hilt, with a sweeping twist sent his sword rattling a good ten feet away.

Foy was after it to snatch it up, with a snarl more like a wild beast than a man, when an officer, at a gallop, leading three soldiers, broke into the clearing and spurred fairly between.

"Stop!" he shouted, out of breath. "Stop! In the governor's name!"

Armand tossed his sword to the ground.

"Hell and fury!" foamed Foy as he sprang back, slashing at the horse's legs. "Out of the way, curse you!" The animal plunged aside, and Foy came at Armand like the madman he was.



"Stop! In the governor's name!"

The officer threw himself off the horse too late, as Henry rushed forward. Armand stood perfectly still, his hand pressed to his side, where a stain was spreading crimsonly among the white ruffles.

"Bear witness," Rolph said with coolness, turning to the soldiers, "that Captain Foy is not himself for liquor."

"There has been no liquor drunk lately. You meant murder!" Henry turned fiercely upon Foy, who, his rage suddenly sobered, stood biting his nails.

"Enough, gentlemen," interrupted the officer. "There will be time for that. I have his excellency's orders to bring all here in his command to the fort. Captain Foy, Mr. Rolph, lieutenant, I call on you to accompany me without delay to town!"

"You are hurt, monsieur," cried Henry, throwing an arm about the young Frenchman, who staggered slightly. "Sir, you will not leave him so, bleeding, here by the roadside? Greenway Court is not far distant. In the name of humanity I ask you to assist me to take him where he can have proper attention for his wound."

"I have imperative orders, sir. Mount, gentlemen."

"Well to leave him to the dogs!" burst forth Foy in a sudden simmer of white fury as he turned in his saddle. "And you, you upstart rebel, Virginia would long have been the easier for your gibbeting!"

Their hoof beats grew fainter, then were gone in blankness and echo, and Henry, feeling the young man's form grow suddenly limp, laid him gently down upon the turf.

The baron had driven from Winchester that night with a hurt in his gallant old breast. When he settled back in his seat his hands trembled greatly, clasped atop his sword. The huge chariot, drawn by four wild ponies that would go at any gait except trot together, swung swaying from its leathern springs, and the road seemed very long.

"Are we almost there, Joe?" he asked more than once.

And the old negro riding behind him would reply stoutly, "Almos' dar, Mars' Torm; almos' dar."

The fog, fold on fold, shut out the beauty of the way. Lower in the wooded valley the shadows lay very thick, like dead men strewn on a battlefield. [illegible] the leaves fell like the illusions of youth, like happiness, like glory, like power.

"Almost there, Joe?"

"Almos' dar, Mars' Torm; almos' dar."

Up the craggy way a flicker of light stabbed down through the drab-lace tree traceries, and the chariot, turning in to the clearing amid clamorous dogs, woke the cloistral silence of Greenway Court. A negro came out, beat back the dogs and let down the step, and the old man descended, leaning on Joe's arm.

Joe brought my lord his supper of venison and bordeaux, standing behind his chair till his master was done. This was not long tonight.

My lord took up a book, but threw it down again. Then he lit his pipe and sat long silent till the fire domed blackening. Joe came in, piled pine knots on it and went shuffling out again. The hounds yawned about the hearth or whimpered softly in their dreams.

Crackling steps roused them, and they scrambled out to bay and sniff and yelp, when the negro clubbed them back.

A heavy tread stumbled up the steps. An aged mastiff, curled under the old man's chair, hunched shoulders, growling, and the baron, sitting by the dead hearth, with the ashes fallen from his pipe, turned his head.

Henry stood on the threshold, carrying Armand in his arms.

As his bearer stood, rocking, the young man stirred, opened his eyes wide on the baron and thrust down his legs. "My lord," he cried gayly, but with weakness and husking breath, "I come early to—keep—my—appointment." He took a step and lurched forward on to the floor.

Lord Fairfax stood up like a blasted tree with two dead boughs left swinging. "Great heaven! The lad! Has Foy killed him?"

"Not yet," Henry answered. "No fault of his, my lord."

The baron shouted for his servants and for cloths, hot water and lily vinegar. "He must have a leech," he said.

"I will ride myself for the doctor at Ashby's Gap," Henry answered. "But I will dress the wound first." With Joe's help skins were spread on one of the couches and Armand laid thereon. Then, with a woodsman's knowledge of wounds, Henry drew his knife and cut away the clothing.

"It is not mortal?" asked the old man anxiously.

"No. But 'twas a foul lunge. Think not he was the poorest swordsman. Never was such a skill seen in the Virginias as he showed this night."

"Is it so?"

"Sir, he held that rat's life on the point of his steel. I swear to you he could have run him through a score of times an he would. They stopped the duel—soldiers from the fort—and that red devil of Dunmore's attacked him when he had thrown his weapon by and was empty handed."

"Ah!" cried the baron.

At length Henry stood up. "I am off to the Gap now. I shall not return with the doctor, since I must go on to Williamsburg tomorrow. But for safety's sake I shall pray him speed."

A struggle showed in the baron's face. No one had ever gone uncheered from his door. He kept open table at the Winchester courts, fed the poorer settlers with his own produce and would have filled the ragged hat of a beggar with guineas. One passionate hatred he had—hatred against the enemies of his king. All were alike to him, high or low. The times, growing beyond him, had put forward patriots. But, all alike, he deemed them vipers that bit the hand that fed them.

As Henry approached the door my lord was fidgeting in his chair. The hand was upon the latch when he could restrain himself no longer.

"Joe," he thundered, "fetch a stirrup cup! You may be a rebel, sir, but—blast my whips and spurs, you shall drink before you go! I could wish you were not an enemy of the king."

"Not of the king," said Henry, and smiled. "Not of the king, but of the king's rule."

A gleam of fierceness, of the uncompromising principle of his life, shot from under the old man's brows. "I hold with no disloyalty."

"I hold," said Henry in a low voice, "with my friend Colonel Washington."

"I abet no treasons," flamed the old man.

Henry's eyes hid a sudden gleam of satiric humor. He stretched out the glass the negro had brought him and proffered it to his host.

"I must decline," he said, "to accept hospitality from any man on earth who has aught to say against the character of Colonel Washington."

The baron stood for a moment with his jaw dropped, then coughed. "God knows"—he said, his voice shaking like a child's—"God knows I"—

But he got no further. "My dear Lord Fairfax!" exclaimed Henry, and drank the glass at a draft.

CHAPTER IX.

IN the gray wreathed dawn Lord Dunmore, at the head of his Virginia troops, marched off with fife and drum for Fort Pitt, and the buff and scarlet passed the King's Arms, where Anne peered from the window to see them off. In one of the scarlet groups she distinguished Francis Byrd. Drawing the curtains close under her chin, she put out a hand and waved to him, smiling, and he saluted her face with a flash of his sword and a wistful look as he rode by. Immediately behind the governor, near Jarrat, rode Foy, and a sting of resentment made her clinch her hands, with the steel in her eyes.

When they had gone she crept back into the warm bed and lay smilingly thinking. She should see Armand soon again, and he should never know what she had done. So thinking, she dropped to sleep and did not wake till the sun was high.

She breakfasted with gay spirits, insisted on riding horseback and, followed by John the Baptist, galloped off a half hour in advance of her aunt's chariot along the way to Greenway Court.

She entered. No one was in the hall, and her feet fell noiselessly in the thick buffalo robe on the floor.

She pushed open the door of the living room and then stopped, startled.

She saw a settle strewn with skins, a wave of curling brown hair pillowed on it, and under this a glimpse of a pale face turned away. There was a shaded window opposite, and light came through it whitely. A hand and wrist hung over to the floor. There was something desolate in the silence, something appealing in the droop of that hand that brought a smart to Anne's eyes as she looked.

Suddenly she caught her breath and took quick steps forward into the room, gazing searchingly at the figure on the couch—the strong hair, setting all the paleness of the face in a shadowy frame; the blue circles under the closed lids, the young mouth, the upward sweep of the rounded chin. She began to tremble exceedingly, her lips unsteady, her great blue eyes misting, her whole face caught in a quaking terror. She had gone whiter than a moon flower.

"They were too late!" she whispered. "You fought, then? Ah, while I was so glad!"

She crouched down by the settle, her hand pressed tight against her heart, full of a joyful anguish she had never known. Something she had fought down hitherto rose in her throat and choked her at sight of this hurt, this helplessness.

At last, yielding all at once, with a little sob and a gesture of pride and longing and surrender, she bent slowly, like a swaying lily, and kissed him on the forehead.

He stirred and opened his eyes with wonder in them to see her face so near.

"Mademoiselle!"

"You have been wounded!" she breathed.

He tried to rise and, failing, smiled at her. "It is a little thing. The doctor has told me that. And you care! Then it is nothing—less than nothing."

"You make light of it."

He lifted himself on one elbow and stretched out an uncertain hand toward her. "Mademoiselle," he said, "was I dreaming when you came or did—or did"—

She was on her feet now, and her eyes turned their gaze away.

"No, no," she answered; "you were asleep."

"As I opened my eyes just now it seemed—as if you had—kissed me on the forehead. Was that a dream, mademoiselle?"

"It was a dream," she said hurriedly, her voice wavering.

"You kissed me?" Joy was in his look.

"No."

"Ah, mademoiselle!" He fell back on the skins.

With suddenly rosying cheeks she ran toward the door to meet the old baron entering from the hall.

To be continued.

Aldermen are Making Trouble

Chairman of the Finance Committee in Brantford is a Sore Head

Some of the aldermen of Brantford are agitating for the abolition of the assessment commission in that city and reverting to the old system of two assessors. It is also noteworthy, that Ald. Andrews, who was last year a most energetic aspirant for the office, is the leader in the present movement. That fact alone should kill any chance the alderman has of carrying his proposal through. It is claimed by the finance committee, of which Ald. Andrews is chairman, that the assessment commission is too expensive, and that is the most serious charge. But the most prominent citizens in Brantford are strongly opposed to the old system of two assessors. The matter will come up in the council tonight in the shape of a report from the finance committee, and a vote will be taken on it.

STEWARTS SETTLEMENT

Interesting Budget of News From This Centre in Otonabee.

Stewart's Settlement, March 9th.—The young people's meeting was held as usual and was well attended. It was principally Bible study this week and a very profitable time was spent. Mr. Mervin Deyell and Mr. Oswald Gibbs gave very interesting papers on the Endeavor topic. Misses Thorn sang a duett and Mr. Clayton Hanbidge also sang.

Mr. John Deyell held a sale of all his farm stock and implements on Tuesday and it was one of the largest sales of the season.

We are glad to learn that Major Stewart has recovered and is able to be around again.

What might have proved a serious accident occurred on Tuesday afternoon. Two young ladies were driving a spirited horse when, by some means it took fright and started to go at an unusual gait and before long had overturned the cutter and contents. We congratulate the young ladies on their skill and bravery, as they escaped without any injuries and prevented what was destined to be a runaway.

Miss Helen Hanbidge is visiting in the city this week.

Mr Melville Stewart was down to Ottawa this week.

Three valuable grays left the neighborhood this week. Our farmers are getting popular for their select standard of horses.

Mr. and Mrs. R. A. Deyell gave an oyster supper to their friends on Friday evening. A large number was present from Monaghan, Otonabee and Peterborough, and a very pleasant time was spent in games and music.

We welcome to our vicinity Mr. Jas. Lang and family, who have recently moved into our settlement.

GEORGE ST. CHURCH

A meeting of the Trustee Board will be held on Wednesday night.

The Women's Missionary Society will meet tomorrow afternoon at 3.30 o'clock.

Did Howard Get Proper Attention?

Inquest Touching Death of Young Englishman Began To-day.

Coroner Gray, County Crown Attorney Wood, and High Constable Cochrane left on the 11.38 train today for Norwood, where they will conduct an enquiry into the death of Thomas Howard, the young Englishman who passed suddenly away on Wednesday night last in the McGregor House, Norwood. It seems there is no suspicion of foul play connected with the death of Howard but it is alleged that there was neglect on the part of some one or ones, that he was not given the proper medicine and a physician promptly called when he was taken ill. The man was seized with pains about 11 o'clock at night, and died shortly after two o'clock, a few minutes after a doctor had arrived. It is said that the body may be exhumed and a post-mortem held to ascertain exactly the cause of the death.

Collection of Forty Dollars

Taken up in George Street Sunday School for Chinese Famine Fund

At George street Methodist Sunday school yesterday a collection was taken up in aid of the Chinese famine fund and the sum of $40 was subscribed. About $6.50 was also received from Grace Sunday school. Some time ago a collection amounting to about $20 was taken up in the Epworth League, so that all combined will make a very snug sum to send with other Canadian contributions to the suffering Chinese.

The show of the year—Sergt. Kitty.

Next Sunday is St. Patrick's Day

Rev. Father Fitzpatrick Will Preach Sermon at St. Peter's

Next Sunday will be the anniversary of the birth of St. Patrick, Ireland's patron saint, and as usual the services at the Cathedral on that day will be of an appropriate nature. The St. Patrick's Day sermon will be preached at Vespers by Rev. Father Fitzpatrick, of Ennismore, under the patronage of Division No. 4, Ancient Order of Hibernians, the members of which will receive Holy Communion in a body at eight o'clock Mass next Sunday. The collection next Sunday evening will go to the St. Vincent de Paul Society.

ST. LUKE'S CHURCH

Tonight at 8 o'clock the meeting of the Girls' Auxiliary will be held and also the meeting of the Men's Guild.

On Wednesday evening Rev. R. A. Armstrong, M.A., of Orillia, will preach at the Lenten service.

After the service on Wednesday a meeting of the Brotherhood of St. Andrew will be held.

The W. A. meets on Thursday at 2.30 and the Mission Band on Friday at 4.15.

At the Friday evening service, Rev. Wm. Major, rector of All Saints' will be the special preacher.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

Harry Adam's

While Placing a Belt on Pulley Wm. Spence was Fatally Injured

Distressing Accident at No. 2 Power House of Peterborough Light and Power Co.—Injured Man Was Alone at the Time—Arm so Badly Crushed That it Had to be Amputated--Several Ribs Broken--Internal Hemorrhage Caused His Death at Nicholls Hospital a Few Hours Later.

Mr William G. Spence, an employee of the Peterborough Light & Power Company met with an accident yesterday about noon at No. 2, or the old power house, which resulted in his death a few hours later His arm was so badly crushed and bruised that it had to be amputated at the shoulder. He was so weakened from the shock received that he passed away in Nicholls hospital about nine o'clock last night

The immediate cause of death was due to internal hemorrhage. One of the fractured ribs pierced the left lung. Mr. Spence was conscious up to the last.

The late Mr. Spence was alone in the power house, which is at the foot of Murray street, at the time of the accident. It is difficult to tell exactly how the mishap occurred. It is supposed that he went down to the lower floor shortly before one o'clock yesterday. There the big waterwheels are located and it is believed that he attempted to adjust a belt from the pulley of a grind stone on to a slow revolving shaft. It is supposed he wished to use the grind stone. In adjusting the belt his coat sleeve evidently caught between the belt and shaft with the result that his left arm was badly crushed. The belt is only about eight feet long and was found broken. The fact of it breaking is believed to have resulted in Mr. Spence avoiding being killed instantly; otherwise he certainly would have been whirled around the shaft. The man had presence of mind enough to crawl upstairs and make his way to the front door, where he was found a few minutes later in great pain, by a boy that Mr. Mac Young had sent down from the upper power house to see how the water was. The lad, immediately, [illegible] the situation of affairs, notified the Dan Spence ambulance, and the sufferer was taken to Nicholls hospital. An operation was performed on him yesterday afternoon by Dr. Greer, assisted by Dr. Eastwood and Dr. Cameron. Mr. Spence's left arm was so badly crushed and fractured that the physicians found it necessary to amputate the member at the shoulder. Mr. Spence was suffering greatly from the shock. Several ribs on the left side were fractured. One of the broken ribs pierced the left lung and internal hemorrhage hastened the unfortunate man's sad end.

The death of Mr. Spence has cast a deep gloom among his many friends, with whom he was very popular

Just how the accident happened will never be definitely known as Mr. Spence was alone in the power house and was afterwards not able to give a clear account of the unfortunate affair. But, judging from what he was able to narrate, and the position of the belt downstairs, the accident occurred in the manner already stated. The deceased was a trustworthy and reliable employee of the company.

The late William G. Spence, who passed away at Nicholls hospital last evening at nine o'clock was 38 years of age. He had worked for the Peterborough Light & Power Co., for about twelve years. He was the second son of the late Samuel Spence and was born in South Dummer. He had resided in this city for the past fifteen years and was very highly esteemed by all who knew him. He was unmarried and was a member of the George street Methodist church.

Besides his mother, two brothers and two sisters are left to mourn his loss. The brothers are Rev Robt E. Spence of Winnipeg, and Mr. Stanley Spence of this city. The sisters are Mrs. H. A. Fife and Mrs R. G. Ritchie of this city.

The funeral will take place from the residence of Mrs. H. A. Fife, Harvey street, tomorrow afternoon at 2.30 to the Little Lake cemetery.

Concert Hall to be Built by The Conservatory of Music

In all probability a concert hall will be erected in connection with Peterborough Conservatory of Music. This announcement comes from a reliable source and it is understood that men were at work to-day taking measurements of the available ground at the Conservatory and securing other data relative to the erection of the proposed building.

It is said that if nothing unlooked for happens the erection of the new structure will be commenced as soon as weather conditions permit.

It is proposed to erect a first class building in every respect and to have it well equipped for the purpose for which it is intended, that of a place for holding recitals, concerts, etc. The need for such a building has long been felt. The opera house is too large for small events and there is hardly another hall in the city conveniently situated that is suitable for such purposes.

Citizens of Peterborough to Banquet Mr. R. M. Dennistoun

Meeting Held at Peterborough Club Saturday Night--Banquet Will be Given at Oriental Hotel on Evening of April 2nd--Strong Committee Apointed

A citizens' banquet will be tendered Mr R. M. Dennistoun on Tuesday evening April 2nd. A meeting of prominent citizens was held in the Peterborough Club rooms on Saturday, evening when a large number were present. The suggestion when made was received with enthusiasm in every quarter, and it took only a few minutes to get down to business and to start the ball rolling.

Mr. R. M. Dennistoun, as was been already announced, will leave the first week in April for Winnipeg, where he will make a new home for himself and family, and follow his profession. When Mr. Dennistoun first made known his intention of moving west, the people of the city and county were greatly surprised and were very sorry. He is one of the most prominent figures in the city, and has been a resident here all his life. He is a member of one of the oldest families, and is known to every man, woman and child in the whole district. But his reasons for making the change are for the benefit of his family of boys, who will soon be ready to launch out on the sea of life for themselves.

While general regret is expressed at his leaving, Mr. Dennistoun will take with him the very best wishes of everyone, and the banquet on April 2nd will show in a small way the great esteem in which he is held. The idea of the entertainment is a laudable one as there is probably no other man more thoroughly popular and respected.

The call to the meeting was heartily responded to, and a strong honorary committee was organized, the personnel of which is:—R R Hall, M. P.; T. E. Bradburn, M.P.P.; His Honor Judge Weller, His Worship Mayor McWilliams, Dr. J. T. I. Halliday, W. G. Ferguson, Ald. W. G. Morrow, Hugh Waddell, A. H. Stratton, T. F. Matthews, W. H. Denham, F. D. Kerr, L. M. Hayes, Jas Hampden Burnham, D. Hughes Charles, J. E. Belcher, R. A. Morrow, W. H. Meldrum, W. H. Hill, H. LeBrun, F. H. Dobbin, J. Kendry, J. R. Stratton, E. G. Patterson, Dr. R. P. Boucher, D. O'Connell, T. H. G. Denne, Robert Fair, Peter Campbell.

The banquet will be held in the Oriental Hotel, and the number of guests will be limited to 100, as the dining room will not accommodate more. But the affair will be a purely citizens' one, and the first hundred who make application will receive the tickets. Mr. Robt. Fair was appointed honorary secretary.

Other arrangements were also made such as striking the toast list and selecting the speakers. The chair was occupied by Mr. J. R. Stratton and he was elected honorary chairman of the banquet, and will propose the toast, "Our Guest." Mr Peter Campbell was elected vice-chairman.

A PROTEST.

A letter of protest was personally handed to Mr. Stratton, chairman of the committee, and Mr. Fair, secretary, this morning, before 11 o'clock. Upon learning that, in spite of this protest, their names were to be included in the list published, the letter was handed to the Review

Peterborough, March 11. 07.

J. R. Stratton, Esq., chairman of the R. M Dennistoun Banquet Committee:

Dear Mr. Stratton,—The undersigned would beg leave to notify you and the committee of which you have made us members, that we feel that the chairman of the banquet should be Mayor McWilliams, who should also propose "Our Guest" as Mayor and representative of the city. We would be sorry to put you to any trouble or inconvenience, or the other gentlemen on the committee, but we cannot take part in the celebration under any other circumstances.

We think also that an opportunity should be given to any citizen who wishes to attend to secure a ticket.

(Signed)

JAS. KENDRY,
T. E. BRADBURN,
J. W. MILLER,
H. WADDELL,
J. H. BURNHAM,
G. W. HATTON,
F. H. DOBBIN.

A Military Comic Opera—Sergt. Kitty.

Right Hon. James Bryce, British Ambassador at Washington, will arrive in Ottawa on the 27th.

Moroccan troops at Tangier opened fire on a calf, mistaking it for the enemy's forces. The animal was unharmed.

CHAMBERS STREET IS UNSIGHTLY

"As the city officials are raising a holler about the ice on the sidewalks" said a Hunter street business man to a Review representative to-day, "would it not be well for the police to investigate the condition of affairs on Chambers street. Four feet of the east side of the thoroughfare is filled with boxes, ashes and rubbish of various kinds almost all the way from Hunter to Brock streets. Is Chambers street different from others in the city when this state of affairs is allowed to exist? It must be somebody's business to see that this rubbish is cleared off the street, and the somebody should get busy."

WATER POURED INTO CELLAR

The rapid melting of the snow yesterday caused a pond of water to accumulate on Hunter street in front of Miricola Bross' store. As the water continued to increase and had no outlet, it backed up on to the pavement and flooded the cellar of the fruit store. Fortunately someone noticed that the cellar was being flooded and made a channel for the water to escape. Not much damage was done.

Sergt Kitty is a French Soldier.

Millbrook Had Fire on Sunday

At an early hour Sunday morning fire was discovered in the residence of Dr. J. D. Deyell, of Millbrook An alarm was given at once, and everything possible was done to extinguish the flames, but with no avail. The building, which was a frame one on King street, was a total loss, and a lot of the contents also destroyed. The cause of the fire is unknown, unless it was from from the kitchen stove. The building was valued at about $600 and was insured.

OBITUARY

MR. WM. HAMILTON.

A lifelong resident of Peterborough passed away on Saturday evening last in the person of Mr. Wm. Hamilton, at his residence, corner of Bethune and Sherbrooke streets, after an illness of only a few days' duration. The late Mr. Hamilton was seventy years of age, and was born in the same house, as where he passed away.

The deceased was for a great many years associated with the Peter Hamilton Manufacturing Company, and conducted a foundry business in Fenelon Falls for some years. He had lived a retired life for the past twenty-five years. The deceased was married to Ellen Hayden of Cold Springs, near Cobourg, and who survives her husband. He was a member of the Presbyterian Church and in politics was a Reformer.

Messrs. Peter Hamilton of this city, and James of Lindsay, are brothers, and Mrs. Robt. Innes and Mrs. John Cameron of this city are sisters of the deceased. He also leaves to mourn his loss, three sons and two daughters. The sons are W. H., Percy and Frank, all of this city, and the daughters are Misses Margaret of Stirling, and Edith at home.

The funeral took place this afternoon at 2.30 o'clock from the family residence, and was largely attended.

Paid Tribute to Brave Teacher

Mr. Langfeldt Contrasts Miss Maxwell's Deed to One Committed by Thaw

At the morning service in St. Luke's church yesterday, the rector, Rev. E. A. Langfeldt, prefaced his sermon with an eloquent tribute to Miss Maxwell of Hochelaga in her heroic effort to save the little children committed to her care He contrasted this noble deed with the sad and loathsome antics of the man Thaw, who is fighting for his life in the courts of New York, in whose behalf the forces of wealth are arrayed to have him escape the just sentence of death for the murder of a man killed in passion and lust, for the sake of a profligate woman. In this age of selfishness and cruelty it is refreshing to see the Divine Image reproduced in some of us, as it was in Miss Maxwell, who gave her life for the little ones whom their parents had entrusted to her.

The congregations at St. Luke's were very large yesterday. At the evening service. The story of the Cross was sung. The rector preached on "Worldliness." taking his text from II. Timothy IV.; 9;10 He defined worldliness as "living for the world and the world only." Let us eat and drink for tomorrow we die." It means stifling all one's higher instincts and trampling down one's better nature. It means as though this world were the stage on which we are to play our parts through all eternity. instead of being merely the training ground for the higher life to come. It means joining in the mad race for wealth, determined by any means, fair or foul, to scrape together a competence. It means living as if pleasure were the highest aim and end in life It means caring only for the world's opinions—bowing down before and accepting its decisions, even where these clash with the statutes of God. It means recognizing the claims the world has on us, but ignoring God's claims. Some people have no difficulty whatever in defining "worldliness." By them 'worldliness" is easily explained. Of course, going to races and theatres and balls, there you have it. Mr. Langfeldt [illegible] concerned to deny that we find worldly people at these [illegible] but he did deny that "worldliness" consists exclusively in those things. And what he said was that there are hundreds of people who have never been on a race course and who do not know what the inside of a ball room or of a theatre is like, who are intensely worldly for all that.

After explaining how the good world could be enjoyed, he closed with urging his people to remember the higher object of one's life. There is not required of any Christian any hypocritical profession of contempt for the world, but there is required from all a serious reflection upon the fact that we carry latent within us, the power of an endless life. Filled with this thought, lifted above the world by it, we shall so live in the world that, by God's grace, we shall be kept from the evil.

BUDGET OF NEWS FROM SPRINGVILLE

Springville, March 11. 1907.

Mrs. Leonidas Hubbard of Labrador fame, who some weeks ago delivered a lecture in St. John's church school-house, Peterborough, will deliver a lecture in the Presbyterian church, Springville, [illegible] Rev. Dr. Marsh will preside, and a number from the city will attend.

At the service in the Presbyterian church on Sunday night, the young men had full charge, and the edifice was crowded to the doors. Rev. Dr. Marsh preached an appropriate sermon. The young men rendered several songs to old popular airs, which were much appreciated. Messrs. Wilson and McBain favored with a duet, the choir joining in the chorus. Several other excellent numbers were contributed.

The rest-day law in France, threatens to cause a Ministerial crisis.

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10 00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

Miss Edith Talbot has returned to the city after an absence of four months in Toronto, where she underwent treatment in the Orthopedic Hospital. Her many friends will be pleased to hear that she is somewhat improved, but it will be several months before she will be able to be around.

"ABIDE WITH ME"

An interesting feature of the evening service at St. Paul's church yesterday, was the singing by Miss Davies of the well-known hymn "Abide with Me," to music written by her father, Mr. Alfred Davies. The score shows an intimate grasp of the requirements of this famous hymn, a charming accompaniment for the organ and should be a welcome addition to the realm of church music. Miss Davies gave an exceptionally fine rendering of the number.

City Council—Special meeting in committee of the whole.

WESTWOOD CASE.

Dickson, the Westwood man charged with assaulting his son, will come up before County Magistrate Edmison tomorrow morning.

DANCE AT CHEMONG.

A large number from the city will drive out to Chemong tonight to attend a dance at the hotel in the park

LADIES' AUXILIARY OF Y.M.C.A.

The Ladies' Auxiliary of the Y.M.C.A., will meet at the Y.M.C.A. on this evening at 7.30 o'clock to complete arrangements for the birthday party.

BLACK CROWS

A well known farmer in Smith who lives just a short distance out of the city reports having seen a flock of wild geese on Friday. Then on Saturday he saw a flock of about seventy-five crows. That spring is coming is sure and it is doubtful if much more cold weather will be experienced.

SIGNS OF SPRING.

The Board of Works Department has a gang of men cutting drains all along the sides of the streets to let the surface water run away. The last two or three days the warm sun has turned the main streets into small rivers, and the sleighing is gone. Wheels were put on today for the first time since before Christmas.

PRTOECT SHADE TREES.

Orillia News-Letter.— The 1907 council will wage fierce, relentless war against parties cutting or mutilating shade trees or scattering waste paper or other rubbish in town during the coming summer. —Peterborough Council should make a similar resolve, and instruct the police to look sharply after all offenders.

WILL HOLD SMOKER.

Court Stanley, No. 7680, A. O. F. will hold a Smoker in the S. O. E. hall tomorrow evening. A good programme will be rendered.

Y.M.C.A. DEBATING CLUB.

The subject for debate at the Y.M.C.A. debating club on Wednesday evening March 13th will be, "Resolved, that modern inventions have not added to the happiness of the human race." All young men interested are invited.

FINE PHOTOGRAPH

A handsomely framed group picture of Warden McNulty, County Clerk Elliott, County Engineer Belcher and all the members of the Peterborough County Council is on exhibition in the window of Macdonald's drug store. Mr. Roy was the artist.

A NEW CHURCH

The new Victoria Avenue Baptist Church of Belleville was opened and formally dedicated on Sunday, the preacher at both services being Rev. Vernon H. Cowsert, a former pastor, now pastor of the Western Baptist church, Toronto. The church is handsomely furnished, will seat about 700 people and cost $17,500. Rev. Charles H. Emmerson is the pastor.

SOCIAL EVENING.

Court Stanley A.O.F. will hold a social evening in the S.O.E. hall tomorrow night for the members and their gentlemen friends. Games and a choice programme of instrumental have been provided. Bro. H. C. Wilson of Toronto, High Court Treasurer will give an address. It is hoped there will be a large turnout of members, and that each will bring a friend. There will be no admission. Everybody welcomed and a very pleasant evening is promised to all who attend.

A LONG DROP.

Mr. W. Fletcher was engaged at Little Bob in putting a cross arm on a pole for stringing a wire to one of the houses. He had his belt around the pole and was using both hands in driving a spike through the crossarm when the metal snap on his belt broke. He fell 20 feet, landing flat on his back. Fortunately there was a fairly good depth of snow, which broke the landing sufficiently to prevent any serious injury. There was a flaw in the hook which caused the break, and it is fortunate indeed that it did not break last fall.—Bobcaygeon Independent.

EVANGELIST TORRIE
Who opened two weeks special services in Park street church yesterday.

PAY ATTENSION TO THE HOME MARKET

In his evidence before the Agricultural Committee of the House of Commons a few days ago, Mr. J. A. Ruddick, Dairy and Cold-storage Commissioner, emphasized the importance of the producer paying increased attention to the home markets, and pointed out that under the census of 1901, while the export of dairy produce was valued at $29,000,000, the home consumption absorbed products to the value of $666,000,000

The figures show that the production of dairy products in Canada, supposedly butter and cheese, in 1901 was valued at $95,000,000, of which about 70 per cent. was consumed in Canada in the home market, and about 30 per cent. exported

According to the Trade and Navigation returns, Canada's exports of butter and cheese, in the fiscal year, 1906, were as follows.— Butter, 34,081,142 pounds valued at $7,086,019; cheese, 215,916,157 pounds, valued at $24,441,664; a total value of $31,527,683 of exports. If $31,527,683 is 30 per cent. of the entire production, that production must be valued at $105,092,279, of which $73,564,596 was consumed at home. This amount shows to a certain extent the value of the home market to the Canadian producers of butter and cheese.

But Canadian producers of butter and cheese did not supply all of the Canadian demand for those articles in 1906, for our imports of them in that year were 143,451 lbs. of butter valued at $34,944, and of cheese 368,631 pounds valued at $65,309, a total value of $100,253.

SAVE THE CHILDREN FROM FIRE PANIC

While inspections of Peterborough schools are proceeding in order that the little ones may be protected in case of fire, there is much that, after all, lies below the surface of these precautions. Fire escapes are often futile and fire drills become, in a panic utterly useless. When they are so rarely performed as in Peterborough. It is probable that a glance at the registers of the schools will discover that hardly one fire drill had been conducted during the winter until quite a recent date. Then the structure of the building should be seen to, no staircase with a turn should be allowed in any school. Straight, wide stairs are better than any intricate fire escape system.

The root of the matter of the protection of the helpless little ones from fire, lies deeper, however. There should be more efficient fire drills The rules are now all framed and the method of treating an alarm of fire, duly set forth, but there should be a different method yet. When a fire alarm occurs a triangle is clanged and the children, first startled, and taught thus that there is a fire—and danger! Then again, various schools have varied methods in this. If a child leaves one school he finds a strange system, which is bad.

The whole danger lies in the word panic. No system that does not eliminate that is really a safe one. The children should be taught to go out on a fire alarm just as easily as at a dismissal of the school. This can be done. In some Toronto and New York schools there is a most excellent system in vogue. A piece of smudge is fired in the basement of the school; it does it no harm, but smoke ascends throughout the building. The youngsters file steadily out. They are previously taught not to touch each other in going so and are easily handled. Frequent repetitions of the smudge fire drill so use the children to smoke, that they do not fear it. Fear drove those poor little tots back to death when they saw smoke at Hochelaga!

If this drill is regularly performed and fear driven out of the child-mind when a real fire occurs with actual smoke, there is no panic but safety. As a soldier is drilled to war's alarms, so should the child be to fire alarms, so that they do not balk at smoke and will not touch each other in leaving the premises in some military order. The dismissal gong should be the one to call the alarm upon; one that they are used to and nothing to frighten them into a belief that anything out of the ordinary has occurred, as is done under present rules.

The teachers should conduct these fire drills, the ones the children are used to. No outsider should do it, but those who are repeatedly handling the charges, so that coolness may be ensured. This is the chief feature that should be prominent in all fire alarm teachings. They are suggestions by a practical teacher, well used to the handling of children. Fire escapes and structural matters, kindergartens upon ground floors are fine, but other ideas should aid the good cause.

All schools should have one system of alarm regularly tested, and the books looked over to see why fire drills have been neglected altogether recently. The warning of Montreal might have come too late but Peterborough has now the matter lying before it to handle. It is a serious problem for the school authorities and other public bodies controlling institutions.

Bank of Ottawa Branches Out

Opened Agency in South End of the City This Morning

The Bank of Ottawa is branching out and intends to keep pace with the growth and progress of Peterborough.

This morning the bank opened up an agency in the south end of the city, at the corner of Rubidge and Townsend streets. The sub-agency will be under the management of Mr. A. A. Hollingshead, manager of the George street branch. The new branch in that portion of Peterborough will be a great convenience to the business men and others in the rapidly expanding locality and the enterprise of the bank will doubtless be appreciated.

The Bank of Ottawa has also in contemplation extensive improvements and enlargement of its George street branch in the near future.

ASTRONOMICAL SOCIETY OFFICERS

The Peterborough Astronomical Society has recommended that the following officers be chosen and it is expected that the recommendation will be ratified at the first public meeting to be held in the Y.M.C.A. hall on Friday evening, March 22nd.

President, Rev. Dr. Marsh, Springville

1st Vice President, Mr. Wm. Pringle.

2nd Vice President, Mr. D. Walker

Secretary, Dr. Neal.

Treasurer, Mr. D. E. Esson.

Council, Messrs. Dr. McFall, S. W Lowry, Dr. Neal and Mr. Collier.

Rev. Dr. Marsh will give a lecture to the members of the Society on the 22nd inst. The organization will hold two meetings each month and has very bright prospects.

AMUSEMENTS

DORA THORNE.

"Dora Thorne," a dramatization of Bertha Clay's famous novel of that name, pleased a large audience at the Grand Opera House Saturday night. The company was fully equal to the one that played here last year, and the piece was well put on in every particular. Miss Sarah Morrison took the part of Dora Thorne in a very able manner, while Joseph Shafer as Richard Dacre, and Edward Horner as Hugh Fernley, were exceptionally strong in their protrayal of these characters. The company was a well balanced one, and the hearty applause signified the audience's appreciation of their work.

"Sergeant Kitty" is the next attraction at the Grand. It will appear Thursday night, and should draw a crowded house.

Ex Mayor Nelson Ames, noted for bravery in the civil war, died at Marshalltown, Iowa.

DRESSMAKING

MISS McLEAN, 159 James Street, is open for engagement as Dressmaker at her residence. Orders left with her or sent her by mail will receive prompt attention. 6d

Caretaker Wanted
—FOR—
ST. PETER'S SEPARATE SCHOOL

Duties to begin on April 16th, next. For information as to duties apply to H. Carveth, Esq., Chairman Property Committee.

Applicantions to be sent to
John Corkery,
Secretary, Separate School Board
Peterborough.

DON'T GIVE IT ALL TO THE LANDLORD

If you will take our advice—which will be free—you will learn how the rent you're now paying will make you a house owner within a few years. No use in printing the details here —call around and get fullest information.

Brick House on Bolivar Street, with all modern conveniences. A bargain at $2,250.

A New Brick House on Westcott Street for $1,800.

Brick House, corner Bolivar and Thomas Streets with all modern conveniences. For further particulars call at Office.

As property is advancing rapidly, it is wise to procure a house at once or a good lot on which to build one. Can suit you in both. Try us.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.
The Kind You Have Always Bought
In Use For Over 30 Years.
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

Revival Services at George St. Church

Open To-night and Will Continue for Some Time

Evangelistic services will commence at George street Methodist church tonight and will continue for some time. Tonight's meeting will open with a song service at 7.45 o'clock, no Epworth League meeting being held tonight on account of the special services. The regular Wednesday evening prayer service has also been dispensed with, while the revival meetings are in progress.

The evangelistic services will be held every night and will be conducted by Rev. Dr. Crothers, with such help as can be secured from the surrounding district.

It is expected that these services will result in great good being done.

An Able Address Given to Men

By Evangelist Torrie at Y.M.C.A. on Sunday Afternoon

The largest crowd that has been in attendance at the evangelistic meetings for men was that which greeted Evangelistic Torrie in the Y.M.C.A. hall A stirring song service was conducted by Mr. J. F. Thornton, was assisted by the male quartette, the latter giving a selection before the address.

Revs. Brace and Bright were present and both took part in the meeting.

The subject of Mr. Torrie's address was "A Noted Criminal." His address was brief yet his remarks bore conviction to those who so attentively listened to him. He pictured the characters of Pilate, Barabbus and Jesus in a most graphic way.

He urged all to accept Christ who not only took Barabbus place on the cross, but the place of all sinners.

ST. JOHN'S CHURCH

Rev H. Ben Oliel of Millbrook, will give his lecture in costume on "Jerusalem" tonight at 8 o'clock.

The annual meeting of the Women's Auxiliary will be held tomorrow afternoon at 3 o'clock.

The Girls' Auxiliary will meet tomorrow night at 7.30 A cottage prayer meeting will also be held tomorrow night.

On Wednesday evening Rev. C. H. Brooks, of Grafton, will be the special speaker at the Lenten service.

The Mission Band meets on Friday afternoon at 4.15 o'clock.

MARK STREET CHURCH

The Epworth League meets tonight at 8 o'clock. Miss Kennedy will have charge of the meeting and Mrs. Speer will lead the topic.

The Women's Missionary Society will meet at 3 o'clock Wednesday afternoon at the parsonage.

The usual prayer meeting will be held Wednesday evening.

A cottage prayer meeting will be held at the residence of Mr. John Wicker Sophia street.

MURRAY ST. CHURCH

The Young People's Union will hold a social meeting this evening, to which all the members of the congregation are cordially invited.

The deacons and finance committee will hold a joint meeting tomorrow night.

The regular weekly prayer meeting will be held on Wednesday night.

Mr. Hooker sang a solo in good [illegible] at the evening service last night.

Rev. J. R. Webb, the pastor, delivered a stirring address to young men last night, from Judges, 13th chapter and 24th verses. From the career of Sampson Mr. Webb drew many important lessons, which he vividly impressed upon the young.

On Tuesday evening March 26th, the Young People's Union will hold an open meeting, when the pastor will give an address on "A Vacation in London and Paris," which will be illustrated by limelight views. A silver collection will be taken up in aid of the Church Improvement Fund.

ST. PAUL'S CHURCH

A joint meeting of the Board of Managers and Session will be held to-morrow evening.

The regular weekly prayer meeting will be held on Wednesday night.

Rev. A. Bright preached in St. Paul's church yesterday morning, and Rev. Dr. Torrance in the evening.

CHARLOTTE STREET.

The Epworth League will hold a consecration meeting this evening at 8 o'clock. Mr. Wright will lead the meeting.

The regular weekly prayer meeting will be held on Wednesday night.

Rev H. M. Manning preached at both services yesterday.

ST. ANDREW'S CHURCH

At St. Andrew's church this evening the Young People's Society will hold a meeting.

The Ladies' Aid Society will hold a meeting at the manse this evening.

The regular weekly prayer service will be held on Wednesday evening.

The Boys' Guild will meet on Friday evening.

On Tuesday evening of next week the Young Men's Guild will hold a debate, with the Literary and Debating Society of the Y.M.C.A. The debate will be on "Capital vs. Labor." Representatives from other guilds will be invited and Daughters of Erin will serve refreshments at the close of the proceedings.

ALL SAINTS' CHURCH

The Girls' Guild will meet on Monday night at 7.30.

The Woman's Auxiliary meets on Tuesday afternoon at 2.30 o'clock.

A meeting of the Junior Auxiliary will be held on Thursday at a quarter past four o'clock.

The Boys' Brigade meets Friday evening at eight o'clock.

A joint practice of the choirs of the Anglican churches for the presentation of the Crucifixion will be held in St. John's church on Tuesday evening.

The regular choir practice will be held on Thursday night at 8.30 o'clock.

The Lenten services will continue this week as usual. Monday, Tuesday and Wednesday at five o'clock. Wednesday night a cottage prayer meeting at 135 Lansdowne street. Thursday night at 7.45 o'clock in the church and Friday afternoon at five o'clock for the children.

KNOX CHURCH

Rev J. J. Wright preached at both services in Knox church yesterday.

The prayer meeting on Wednesday evening will be conducted by the choir. Fanny Crosby's hymns will be sung.

The call to Rev. Henry J. Keith of Smith's Falls, to the pastorate of the church, was signed by several more persons yesterday. So far 61 members and 24 adherents have attached their names to the call.

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Subscriptions Will be Received

To Raise Funds to Erect New Catholic Church

At the different masses at St. Peter's yesterday Rev. Father McColl announced that a site for the new Catholic church had been purchased at the corner of Aylmer and Romaine streets, and that subscriptions would be taken up to raise the necessary funds to erect the new edifice. It is fourteen years since a subscription list was circulated among the members of the congregation before. The subscription lists will be put in circulation today. Several members of the congregation made handsome donations yesterday. Work on the new church will be commenced as soon as weather conditions permit.

"Elijah" Dowie Has Passed Away

Founder of Zion City Once Visited Peterborough

John Alexander Dowie, "Elijah III." who was the founder of Zion City, near Chicago, and the central figure in a number of unique affairs, died on Saturday morning. Dowie once visited Peterborough — about fourteen years ago — and created great excitement in this city, during his three days stay. He was then at the zenith of his power. The only other Canadian city visited, was Toronto. The despatches in connection with his death, thus refer to his Canadian tour:

"Dowie and his wife visited Toronto before the World's Fair in Chicago, and spent three weeks here. They came as the honored guests of some prominent citizens, whose natural reluctance to have their names associated with "the Restorer" may be readily understood. It was as an apostle of divine healing [illegible] orthodox doctrine, indeed, that Dowie came to Toronto. He spoke three times a day — in Association Hall, Richmond Hall and Victoria Hall — gave hundreds of interviews and demonstrations, and concluded his visit with a monster meeting in Bond Street Church.

An Anglican clergyman who heard Dowie on these occasions said recently that he was one of the greatest speakers he ever listened to, sound, sane and eloquent. Many profess to have been disgusted with him, even at that time, and certainly when he left Toronto, and went to Peterborough for three days, he set the town by the ears. He had his enthusiastic champions and his vigorous denouncers. Neither in Toronto, nor in Peterborough was he warmly received by the clergy or the medical profession.

IN PRIVATE LIFE.

In private life a very kindly charming old gentleman he was; on the public platform, when angry, a coarse, vindictive fellow, whose utterances seem little less than blasphemy.—

Whatever else he may have stood for, John Alexander Dowie, seemed to stand for a pure personal life. He preached this doctrine to his flock continuously, and it was generally believed that he was sincere. Because of his preaching and his apparent practice of a stainless life, and because his followers stood in the community above reproach, Zion City won the respect of all its neighbors.

THE DOWIE CREED.

The tenets of the Dowie faith were given out as follows,—

First—That we recognize the infallible inspiration and sufficiency of the Holy Scripture as the rule of faith and practice.

Second—That we recognize that no persons can be members of the church, who have not repented of their sins and have not trusted in the Christ for salvation.

Third—That such persons must also be able to make a good profession and declare that they do know in their own hearts that they have truly repented, and are truly trusting the Christ, and have the witness, in a measure, of the Holy Spirit.

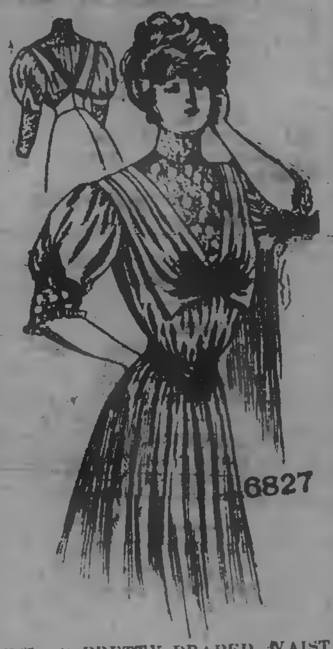
Fourth—That all other questions of every kind, shall be held to be matters of opinion, and not matters essential to church unity.

Dowie's greatest bid for fame was in the fall of 1903, when, at the head of three thousand believers in his claim as Elijah III., referred to in the Bible as the Restorer, he invaded New York, and began a proselytizing campaign. His extreme views, however, attracted a few, though repelled thousands, and it was admitted that his New York campaign was a flat failure.

Hard on the heels of the New York failure came the financial failure of the enterprises at Zion City. Eventually the matter was settled and the concerns are now in a thriving condition so far as outsiders can judge. They consist of lace factories, the only ones in the United States; candy factories, printing offices, and several other concerns that do an export trade. There are fine churches, banks and educational institutions, handsome residences by the score, comfortable homes and clean shops.

From a material point of view the most serious charge made against Dowie was his extravagance and his appropriation of the moneys of Zion for the gratification of his own vanities. Nothing was too rich for him, while his followers were on the verge of starvation. The entire value of his property was placed at $154,000. Shiloh House and cottage cost, it is said, $65,000 and $25,000 respectively.

LATEST DEAN PATTERNS



6827

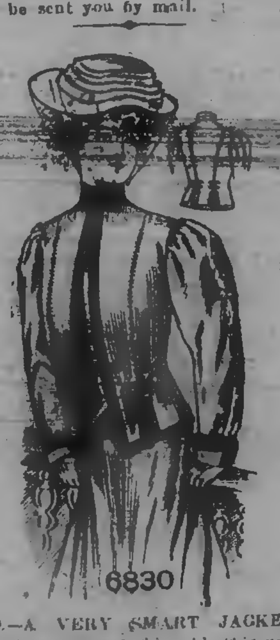
6827.—A PRETTY DRAPED WAIST.

There is no more graceful mode of fashioning the new materials than by means of shirrs and drapery and a pretty waist showing draped portions in front and back is shown. The waist is very simple, the body portion being easily full on the lining as far as the yoke, while the trimming portions form the drapery. These may be of material of the waist or contrasting, while the narrow band which finishes the sleeve puff should also show contrast. The style is one suited to development in silks, crepe de chine, veiling or similar lightweight fabrics, the medium size requiring 3 yards of 27 inch goods.

6827.—Sizes 32 to 42 inches bust measure.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6830

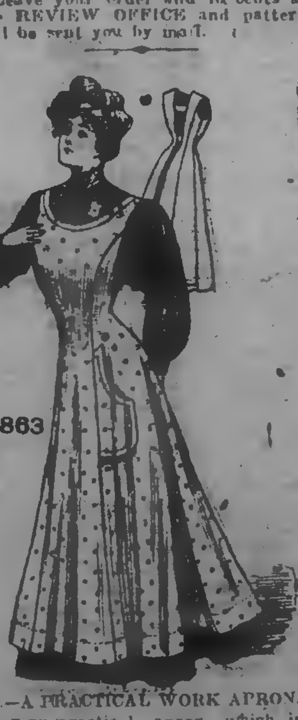
6830.—A VERY SMART JACKET.

Vests are very fashionable this year and a novel effect gained by the lapping of pointed vests is seen in the coat shown. The coat is partially fitted and is of excellent style for women of stout or slender lines. The front closes at the throat in trim military fashion, opening gradually to the lower edge and disclosing a most fetching little vest of embroidery. The side front and side back seams are left free below the waist and bound with soutache as are the other edges. For its making any of the seasonable cloths, worsteds or panamas might serve, the medium size calling for 1 7-8 yards of 54 in. material.

6830.—6 sizes 32 to 42 inches bust measure.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6863

6863.—A PRACTICAL WORK APRON.

A very practical apron which is popular with housewives everywhere is given here for the benefit of our readers. The apron is fitted by means of gores which extend the entire length and afford the wearer a trim appearance. Two generous pockets are placed conveniently at the sides of the front and are found indispensible for holding the necessaries of the housewife. The apron may be made of any fabric of durable texture, percale, gingham, searsucker and crash being much used. For the medium size 4 1-4 yards of 36 inch material are needed.

6863.—Sizes 32 to 42 inches bust measure.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

Good Programme at Sixth "Pop"

Many Took Part at the Gathering Saturday Night

The sixth "Pop" attracted the largest attendance of the season, the Y.M.C.A. hall being well filled on Saturday night. The programme was very much enjoyed and numerous encores were in order. The numbers were varied and the entertainers excelled themselves.

As Mr. T. E. Bradburn was unable to be present owing to another engagement Mr. G. L. Galley, chairman of the Physical committee occupied the chair in a most capable manner. Vocal solos were given by Misses Dawson and Chasty.

Misses Crane and Robertson rendered a piano duet, Miss Bell responded to her first number with a take off on Ald. Tovey's bachelor tax. Messrs. Thompson, Coleman and MacLaren sang humorous solos. Mr. W. Dundas proved himself an expert with the banjo.

The Mandolin club, composed of Messrs. Halland, Cranfield, Brightman and Theobald, gave a pleasing selection.

Robt. Barrowman, the Scotch Bengough, proved himself an excellent cartoonist and entertainer. The rapidity with which he put on his sketches, the evolutions of them and the stories sandwiched in between reminded the audience of the great Canadian cartoonist, J. W. Bengough.

Mr. Barrowman also sang a Scotch song.

The entertainment closed with God Save the King.

The attraction for the 7th "Pop" next Saturday evening will be 'Seeing England, Ireland and Scotland, by stereopticon, by Mr. F. D. Kerr. There will also be a musical programme.

Piano Recital by Clever Pupils

Fine Programme Rendered at Y. M. C. A. Hall

Mr. Rupert Gliddon's piano pupils gave a most successful recital in the Y.M.C.A. hall Saturday afternoon, commencing at four o'clock. Those taking part in the programme acquitted themselves with great credit and the different numbers were much enjoyed.

The programme was as follows,—

Piano Duet, "Joyeux Retour," Rizeuet, Misses Edwina Palmer and Janet Titterson.

Piano Solo, "Peasant Dance," Nolck Master Layton Anderson.

Vocal Solo (Soprano), "Dawn," Miss Julia Choate.

Piano Solo, Heimwei, Miss Mary Gibson.

Piano Solo, "Russian Dance," Miss Marion Kendry.

Piano Solo, "Cavaletta," Miss Janet Titterson.

Mendelssohn's song without words, "Hope," Miss Edwina Palmer.

Transcription, "Evening Star," Wagner Liszt, Miss Agnes Hall.

Piano Solo, "Shepherds All and Maiden's Fair," Miss Annie Sisson.

Overture, "Magic Flute," Mozart, (arranged for two pianos and eight hands) Misses Hall, Beatrice Stark, Laura Edwards, Annie Sisson.

Deputations to Be Appointed

To go to Ottawa and Toronto—Council Meets This Evening

The committee of the whole council will meet tonight for the purpose of arranging for deputations to Ottawa re the completion of the Trent Canal this year, and one to Toronto, in connection with the dairy show. The deputation to Ottawa will in all probability include the whole council and the city officials. The county will send all the county councillors and officials. To go to Toronto, however, the deputation will not be so large, but it is also of great importance.

British Age Pensions.

London, March 11.—The Tribune on Saturday confirmed recent rumors that the forthcoming budget will provide a certain sum of money for some kind of old age pensions scheme, the Government having decided to make a start in this direction this year. This start will be only tentative, however, as it will take two or three years to carry through the completed plans.

Raisuli Escapes Again.

Tangier, March 11.—The news that Raisuli has escaped again is confirmed. Kaid Mehalla, the representative of the Minister of War, dislodged the Beniarus tribesmen, burned seven villages, killed twenty of the tribesmen and took a number of prisoners, but Raisuli got away.

Trade Secretary Short $5,000.

Baltimore, March 11.—David D. Carroll, president of the Merchants' and Manufacturers' Association, states that at a meeting of the directors on Friday, Clarence H. Forrest, secretary, was summarily discharged, it having been discovered, according to Mr. Carroll, that he was short in his accounts between $5,000 and $10,000.

California Would Bar Asiatics.

Sacramento, Cal., March 11.—The Senate Saturday unanimously adopted a joint resolution protesting against the naturalization of Japanese and instructing California's Senators and Congressmen to work for an exclusion law to include all Asiatics.

Nicaraguans Again Routed.

San Salvador, March 11.—At noon Saturday, a Nicaraguan column, as a reprisal for the recent victories of the Honduras, attacked the cavalry of Honduras at Tugnare. After three hours' fighting the Nicaraguans were annihilated.

CANADA.

I was thinking, dear editor,
To give poetry making oe'er
But there is always something more
To say about my Canada.

Our Government have been trucking
With a company that were hooking
Immigrants which they were booking,
At a high price to Canada.

It is a great wonder to me
Who these counterfeit men could be
NORTH ATLANTIC TRADING COMPANY,
That were trucking with Canada.

The company dare not tell their name,
Some say the Government is to blame,
I think it is a burning shame
If they should hurt my Canada.

NORTH ATLANTIC TRADING COMPANY,
Were bound to make lots of money
But it seems to me so funny,
Their names are kept from Canada.

Let such imps commit suicide,
Over Canada far and wide,
Let good morals be the best guide
For the people of Canada.

If Government is very strong,
They can help their own friends along,
But if the morals are all wrong,
It will be bad for Canada.

These companies of the shaky kind
Assisted by immoral mind,
Are the worst rogues that we can find,
Against the good of Canada.

Why should a government connive
To help their own friends in the hive,
Such drone's should never be alive
To hurt the name of Canada.

The Government with big money,
Keeps newspaper friends in honey,
To advocate vile tricks funny,
Among the good of Canada.

Big newspapers throughout the land,
And small organs make money grand,
How long will such a government stand,
To corrupt men of Canada!

Thirty thousand dollars clearly
Paid to one newspaper yearly
All people should stand sincerely,
Against the knaves of Canada.

Is there no man who fears the cost
In all the governmental host!
[illegible]
By grafting deals in Canada?

Our biggest men are most to blame.
Our biggest organs are the same,
All void of conscience, void of shame,
Deceiving thieves of Canada.

Enough to make a patriot sigh,
To see big men in places high,
Robbing, pilfering, on the sly,
Hooking the gold of Canada.

What is our clergy bound to do,
Are they to say a word or two?
Or are they also in the stew.
Against the good of Canada.

I call upon good clergymen
As well as that, of good laymen,
And all who nobly use the pen
To help the good of Canada.

I fear that we will have a curse,
If morals go from bad to worse
Let mighty men of moral force
Do all they can for Canada.

If man is poor and without blame,
If virtue is his highest aim,
When he dies, he will leave a name
Equal the best of Canada.

O dear, how happy I would be
If I could make good poetry,
In interest of morality,
So needful now in Canada.

CANADA.

MONDAY, MARCH 11, 1907.

OBJECT OF TAXATION

The Ontario Government has been asked to abolish the provision that blocks of two acres and upwards in cities shall be assessed as farm lands. This is an instance of a general law enacted to meet a special case, says the Toronto Star. The collapse of a real estate boom left some of the owners in a tight place and they persuaded a good-natured Legislature to ease their burden of taxation on blocks of unsaleable land. The law was wrong in principle, and now, the circumstances having changed, it is seen to be wrong in practice.

In the [illegible], northern and western sections of Toronto, large sections of land are held as "farms" and assessed accordingly, in one case as low as $2 a foot. The moment a piece of this land is sold to a workingman or anyone else who builds a house on it, the assessment is raised to the regular city rate for property in the neighborhood. Portions of a large property on Queen-st. east have been sold in this way, and the assessment raised from $2 to $16 a foot.

At present there is a demand for houses for persons of small means, and an outcry against tenements and slums, and it is even said that the city ought to go into the business of building houses. Yet the statute book contains a law encouraging owners to hold back large tracts of land that might be sold for building purposes. If an owner holds his land idle he is let off with a nominal assessment, while the value increases through the industry of his neighbors. But if a man buys twenty feet of this land, builds a house upon it, and thus assists in solving the house problem, the assessment of the lot is raised from $40 to $309 and he is also assessed for the full value of the house that he builds. The law is unjust and absurd. Taxation should be so adjusted as to force vacant city land into the market, not so as to encourage the maintenance of "farms" within the city limits.

ST. PATRICK'S DAY A NATIONAL HOLIDAY

For the first time in some years all the manufacturing establishments in Peterborough will close down on St. Patrick's Day, the merchants will not open their stores and all business will be suspended. The anniversary of the patron saint of Ireland will therefore be generally observed—not only by loyal sons of Hibernia, but by all classes and nationalities in the city. The day will be more widely honored than any other holiday in Peterborough has been for some years past.

Throughout the Dominion Irishmen will watch with interest the working of the legislation passed at the last session of Parliament, which makes St. Patrick's day of the present year a national holiday throughout Canada. All businesses of every kind will be suspended throughout the entire day. Stores and offices are compelled by law to keep closed, and even the hotel bars will be closed up tight under pain of severe penalty.

No person will be allowed to engage in any public games, such as football, or baseball, or even to be present thereat, under a penalty of a fine of $40 and costs, but there is no objection to meetings or services held in churches.

As this is the first occasion of the operation of the new law, the effect of the act will be watched with interest, not only by Irishmen, but by all Canadians whose business on St. Patrick's day will be effected by the recently enacted legislation.

St. Patrick's Day falls on Sunday next. 'Nuff said.

PEN POINTS

The West is alive and progressive. What is probably the most important declaration ever made by any Provincial Western Government was made by the Hon. W. H. Cushing, Minister of Public Works, when he stated the Government's policy on the telephone question. Briefly, the Government is not only going to supply all cities, towns, rural municipalities and local improvement districts that want them, with telephones at the lowest possible price, but the province is undertaking the installation, operation and maintenance of the whole system, all over the province. The Minister did not state any figure, but private members announced their belief that Alberta could supply the farmers with telephones at $10 to $12 a year, and give long distance connection for a little more than the cost of a postage stamp.

Mention is made in another column of the mayor of Campbellford getting busy after the Government for the completion of the outlet end of the Trent Canal. If Campbellford is interested, surely we who are right on the Canal should be equally as much so when we have far more to gain by the completion of this work, says the Hastings Star. The only way the town is ever going to go ahead is by all parties concerned getting together and working to develop the natural resources right at hand. There is a great deal of work to be done in order to place the town where she should be, and there is no time like right now for starting it. What are we going to do towards house accommodation for new residents coming in with the Radiator Co. There is need for half a dozen houses being built to accommodate the present population, and something must be done as soon as the weather will permit of building operations towards preparing for the increase in population.

FOR OVER SIXTY YEARS

An old and well tried remedy. — Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

LAID TO REST

Funeral of the Late Mr. Frederick G. Wyatt Was Largely Attended.

The funeral of the late Frederick George Wyatt, whose death occurred on Thursday last, took place on Saturday afternoon at 2.30 o'clock, and was very largely attended. A short service was held at the house, Driscoll Terrace, after which the funeral proceeded to St. Luke's church, where the funeral service was conducted by Rev E A. Langfeldt. He referred to the life of the deceased in very fitting terms, and spoke words of comfort and cheer to the family and friends.

A large number of Sherwood Camp, Woodmen of the World, of which the deceased was a member, attended the last sad rites.

The pall bearers were Messrs. George Armstrong, A. Barclay and H. Chatham, members of the Woodmen of the World, and Messrs. A. Primeau, Jos. Primeau and Percy Crane There were a large number of beautiful floral offerings.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is tenn fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

THE OLD GOSSIP

Says a writer: Gossip has made a home a hell on earth; gossip has parted husbands and wives; gossip has blackened and sullied the character of many poor girls; gossip has parted lovers who would have been very happy, had it not been for gossip. One little misstep or one little indiscretion causes gossip to arise with new strength, and start on its mission. A gossiper is about the lowest and meanest thing on earth.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

SCIENTIST CLAIMS CONSUMPTION IS SPREAD BY SPITTING IN PUBLIC

The bacillus of tubercolosis starts tubercles in the lungs. These cases, soften and are ejected from the lungs in coughing. A dry cough will spray the air full of these germs; a loose cough will deposit the sputum on the sidewalks, where it will dry, be trodden to powder, whirled about in the wind for healthy people to breathe, and so start up new plantations of these bacilla. Dr. Knopp says that an advanced case of consumption will eject about seven billions of these germs every twenty-four hours.

It is a murderous practice to spit where others may bring the infection into the house, on shoes or skirts, where it may dry and become a powder, to be sent into the air and be breathed into the lungs. If the lungs are sore from colds or any other cause, these germs settle on the sore spot and set up what is called a "mixed infection." This is the starting point of consumption, and prompt treatment is required.

An eminent authority on lung trouble advises the use of the following simple formula, which can be secured from any good prescription druggist at small cost;—Half ounce Virgin Oil of Pine (Pure), two ounces of Glycerine and a pint of good Whisky. Mix and use in teaspoonful doses every four hours.

It is said that the mixture will break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients should be pure, and to avoid any substitutes, they should be purchased separately and mixed in the home of the patient. The Virgin Oil of Pine (Pure) should be purchased in the original half ounce vials, put up for druggists to dispense. Each vial is securely sealed in a round, wooden case, with the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ontario, plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are put out under similar names and style of package. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea and never effect the desired result.

Peterboro' Parties Desire to Acquire Healy Falls' Power

Contest Now on in Earnest for the Control of the Falls, Says a Despatch From Kingston—Who Will Get the Government's Share is the Question?

Are Peterborough parties after the Dominion Government property in connection with the Healy Falls water power? According to the following despatch published in the Sunday World they are.

There is a contest on in earnest for the control of Healy Falls on the Trent. Peterborough parties desire this splendid water power for the use of their city, whereas parties on the lake front, from Port Hope east to and including Kingston, want the said power for their [illegible] [illegible] supporters are the Northumberland and Durham Power Co., of which Senator Bowell, of Belleville, is president, and the Dominion Government. The government's property, while not so large nor so important as the company's, is necessary for the full development of the available power in the vicinity of the falls and rapids.

The thing is to secure the government's share. If the present company get it, development work will be begun at once. In order that the government shall know of the sentiments of the lake front municipalities in the matter a large deputation is being arranged to visit Ottawa and present the views of the large section interested.

Party politics [illegible] few exceptions [illegible] in the lake front cities and towns are blocking the way of the Healy Falls Company, though in doing so they are injuring their own localities.

Cars Tottered on the Bridge ; An Awful Calamity Averted

Narrow Escape of Train Falling Into Niagara Rapids.

Refrigerator Car Jumps Track—Smashed the Rails and Hung Toppling Over the Edge—Below Was a Chasm of 180 Feet—Damage Not More Than Few Hundred Dollars—Spectators Have Experience.

Niagara Falls, March 11.—A car jumped the track on the steel arch bridge of the Grand Trunk over the river, tore up the wooden filling between the heavy stringers, broke away from the train about the middle of the bridge and tottered on the edge Saturday.

The car behind it, pulled from the rails, plunged across the structure to the north side and stopped with the end hanging well out.

It seemed as though a breath would topple either car into the rapids, 180 feet below.

A New York Central switching crew took a long freight train from the Lehigh Valley yards on the American side to pull it to the Grand Trunk yards on the Canadian side.

Car Jumps the Track.

As the engine passed the water-tank switch, about 600 years from the eastern end of the bridge, an empty refrigerator car about the middle of the train left the rails. It bumped along the ties, across Lewiston avenue, tearing up the planking and ballast.

There being a sharp curve around the postoffice at the American entrance to the bridge, the engineer did not hear the cries of spectators nor see the signals of the crew. The train kept on over the bridge, the derailed car staying well within the rails, but smashing the railroad deck.

The car broke loose when about half way across. It swerved to one side, ripped through the pipe railing and hung as if in a balance.

Stops At Edge of Bridge.

The next car, jerked from the track by breaking of the train, veered off. One of the trucks caught in the bridge and the car stopped at the edge, one end swaying over the river.

The wrecking crews of both the New York Central and the Grand Trunk hauled off the forward and rear ends of the train. They they carefully pulled the two cars back, jacked them up and put them on the rails.

The damage to the bridge will be covered by a few hundred dollars, being in the main to the wooden stringers and the deck.

There practically was no interruption of traffic, the derailment having occurred on the south track.

The accident is said to have been the first of its kind here.

Seat Collapses' Two Dying.

New York, March 11.—Six persons were precipitated into the hold of the Hamburg-American steamship Romani, at Hoboken Saturday, when the hatchway on which they were sitting gave way.

Boatswain Lewis and Seamen Walker, Horton and Kennok and Moss Boys Parsley and Cater were removed to a hospital in a serious condition. Walker and Parsley probably will die.

Baby Dead From Laudanum.

Chatham, March 11.—The 13-months-old daughter of Mr. and Mrs. Basil Milner died yesterday as a result of laudanum poisoning, after physicians had labored nearly 20 hours to save the life.

The mother left the child alone in a room Saturday for five minutes, during which time the child opened a sewing machine drawer and took from it a bottle.

Dundas Woman's Death.

Hamilton, March 11.—Some time during the night Mrs. Frank Brown, of Dundas, who had been in poor health since the death of her child, a couple of months ago, got out of bed, and without dressing herself wandered out of the house. When her absence was discovered search was instituted, and about 10.30 yesterday morning her lifeless body was found below the dam. It is supposed that while wandering aimlessly about she accidentally fell over the dam and was either drowned or killed. An inquest will be held.

34 Lost In Shipwrecks.

Berlin, March 11.—A despatch from Cuxhaven reports the loss of thirty-four lives by the foundering of two vessels—a German cargo steamer, the George Wattern, and a trawler—during a heavy gale in the North Sea.

QUEEN SENDS SYMPATHY.

Her Majesty's Admiration of Miss Maxwell's Heroic Conduct.

Ottawa, March 11.—The following cable has been received by Earl Grey from the Colonial Secretary, Lord Elgin: "The Queen has learned with regret of the disastrous fire which occurred in the Protestant children's school at Montreal. Her Majesty desires me to convey to you her great admiration of the heroic conduct of Miss Maxwell, who gave up her life in a gallant attempt to rescue the little children entrusted to her care, as well as her Majesty's deep sympathy with the bereaved relatives of this brave woman." (Signed) Elgin.

West Durham Liberals.

Bowmanville, March 11.—It was decided at the annual meeting of the West Durham Liberal Association, held Saturday, to hold the district convention April 9, when Liberal candidates for the local House will be selected.

Among the speakers were: F. G. Inwood, general secretary of the Ontario Reform Association, Toronto; D. B. Simpson, John W. McLaughlin, Hayden, and William Rickard.

Officers were elected as follows: President, R. D. Davidson; secretary, F. W. Allen.

Belcourt May Be Senator.

Ottawa, March 11.—Already there is discussion as to who is to succeed Senator Casgrain in the Senate. It is claimed to be the seat of an Ontario French-Canadian and rumors are strong that Hon. N. A. Belcourt, ex-Speaker, is destined for the vacancy.

Pay for Immigrants.

Ottawa, March 11.—Following the termination last fall of the contract with the North Atlantic Trading Co. for the encouragement of immigration to Canada, the Government has now arranged to pay a commission of ten shillings per head on each adult and five shillings per head on each child booked for Canada by the booking agents of the continental steamship companies. The immigrants so booked must be those who have signified their intention to follow farming or railroad work in Canada, or to accept positions as domestic servants in the case of females.

EVANGELIST TORRIE HERE

Well Known Baptist Revivalist Opens Series of Meetings at Park St. Church

Large congregations attended the opening revival services at Park street Baptist church yesterday. The church was crowded to the doors at both services and great interest was manifested. Rev. Alexander Torrie, the well-known Baptist revivalist, who preached yesterday will conduct services each evening throughout the next two weeks. Rev. Mr. Torrie is a young man and is a most fluent speaker and presents his sermon in a clear and simple manner. He speaks emphatically and plainly and holds his congregations attention all the time. The service last evening was especially bright and attractive. The Torrey-Alexander hymns were sung and the congregation joined heartily in the singing. Rev. Mr. Torrie preached a most helpful and inspiring sermon from the words, found in part of the 51st verse of the 10th chapter of St. Marks's Gospel, "Lord, that I might receive my sight." In a clear and vivid manner the evangelist pictured to the congregation, Jesus passing by on his way to Jerusalem, where he was soon to die on the cross for sinners. As he passed by, there sat by the roadside a blind beggar calling out, "Jesus, thou Son of David, have mercy on me," and the people told him to keep quiet, but having great faith he called out the more, and Jesus hearing him stood still, and when the blind man was brought to him, he asked him, "What wilt thou have me to do?" and the blind beggar answered "Lord that I might receive my sight." The speaker said there were many at the present time, who were blind, not physically and spiritually. There were many whose eyes were closed to the great truths and messages of the gospel. If there were any who were in darkness, the evangelist said "Pray that they might receive their sight: that they might be led to believe in Christ and know of his unfailing love. The Saviour was so ready to [illegible] to Him with that cry of the beggar "Thou Son of David have mercy on me'." The evangelist said it was not necessary for prayers to be eloquent and of great length. Open your hearts to Christ and tell Him your sins and troubles, and He will forgive and help you.

Regardless of the crowd telling the beggar to keep quiet he kept on calling to Jesus. This showed his great faith. The speaker urged his congregation to have faith in Christ, and he would help them through all the trials and sorrows of this life.

The reverend gentleman pictured the blind man, after he received his sight. His great joy and thankfulness to God. Just so there was great joy in a Christian life. He concluded by urging any who had not already been saved to give themselves to Christ.

Several gave testimony of their conversion after the sermon, and a short service for any who wished to stay was held.

Sheep—Estimated receipts, 1000; steady; sheep, $3.75 to $5.65; lambs, $4.75 to $7.40.

Thinks Bond Verbose.

London, March 11.—(C. A. P.)—Sir Robert Bond has sent the Birmingham Post a verbatim report of his speech protesting against the fisheries agreement with the United States. The Post says it is a verbose, contentious production, and does not think the circulation of the protest in this country will result in the enlistment of English opinion in his favor.

Mrs. Girnett, a member of Charlton Board of Guardians, in protesting against the proposal to send several children to Canada, characterized Canadian farmers as no better than slave drivers. A. Skivington declared the consent of children a mere farce, as they were misled by unreliable pictures of the country and its possibilities, drawn up by paid agents of a Canadian railway. The Board decided to send the children. The Guardian regrets the strong protest did not meet with the success it merited.

UNDER THE CITY CLOCK

THE MIDGETS TO PLAY HERE

Famous Lindsay Team to Meet Strathconas Friday Night

The famous Lindsay Midgets will play the champions of the Peterborough city league, the Strathconas, at Brock street rink on Friday night of this week. This will likely be the last game of any importance here this season and there should be a record crowd on hand. Definite assurances have been received from the management of the Midgets that they will be here whether they win the junior O.H.A. championship or not. Stratford comes to Lindsay to-morrow night with a lead of five goals, but the Scugog players have every confidence that they can overcome this margin and win the round.

The Strathconas will face the Lindsay players with the same line-up that won the city league championship and should [illegible] the [illegible] junior champions a good run, perhaps land a victory, as the Strathys are playing fine hockey. The Midgets will bring down their strongest seven, including Stoddart, McDougall, Koyle, Sullivan and the others of the septette.

These two teams should furnish an excellent exhibition of hockey, in fact just about as good an article as has been seen here this season.

COMPETITION IS NOW OVER

Messrs. Wallace and Ferguson Won Out in the Points Finals

The winners of the junior and senior points competitions at the curling rink have been decided. Mr. T. J. Wallace has won the senior with Mr. T. Brightman second, and Mr. J. H. Ferguson has captured the junior honors, Mr. R. N. Merritt getting second place.

Messrs. Wallace and Brightman played Saturday afternoon and the former won by a comfortable margin, the score being 13-6. Mr. Wallace secured the lead early in the game and succeeded in piling up the score until he had the required number of points.

Messrs. Ferguson and Merritt played at night and the game was much better contested than the one in the afternoon. It looked at one time as if Mr. Merritt would win, the score being 12-9 in his favor, but Mr. Ferguson took three in the next end and secured another on the next end, thus winning the game. Both men played a fine game and many excellent shots were made. Every play was carefully considered and the game lasted about three hours. A large number witnessed the interesting struggle. There was little to choose between the two players and either might have won out with credit.

Congratulations are due the winners and the runners up for the splendid showing made.

Good Scores at Shooting Gallery

B. Dusty and C. Dugan Won Yeotes Bros. Prizes

B Dusty and C. Dugan were the winners in the shooting contest at Yeotes Bros. shooting gallery last week, Mr. Dugan for shooting at rest and Mr. Dusty for off-hand firing. Each winner was presented with a large Plymouth Rock rooster. The scores were;

OFF-HAND

B Dusty	56
C N Gutterson	55
O Dugan	55
J Martin	55
H Mackey	55
C Kylie	55
W Conway	54
W Boycott	54
J Bennett	54
W Hewey	54
N Cameron	54
B Manley	53
G Mooney	53
J Smith	53

AT REST

C Dugan	55
W Boycott	55
J Bennett	55
A Davis	55
N Cameron	54
W Edmonson	54
A Trude	53
W Dennon	53

Green Ground Bones, ground fine for hens, 3c a pound, at J. Mervin's Butcher Shop.

Kenora Team Strengthening for Their Stanley Cup Games

Despatch From the Hockey Town Says the Two Smiths of Ottawa Have Been Secured.

Kenora, Ont., March 9.—The Thistles have secured the services of Chambers, of Winnipeg, for point, and the two Smiths of Ottawa for the forward line. The exact line-up for Tuesday's game is not yet fixed on, but one thing is certain, that Alf. Smith and Tom Phillips will hold down right and left wings respectively. The forward line will undoubtedly be the strongest the Thistles have ever had, as Phillips and Smith are considered here the best wing men in the business today. It is possible that Griffis may play point and Hooper cover, with Harry Smith centre and Whitcroft rover, Chambers being carried as spare. If this is not done Whitcroft will play centre and Hooper rover, while Harry Smith will be carried as spare. The game between Portage and Brandon last night was not on till ten o'clock, the arrival of Billy Baird being waited for. Phillips, Griffis, Whitcroft and Geroux were the seniors out last night. The boys are all in pretty good fighting trim now and with the recent acquisitions will present a most formidable front to any opposition whatever.

An Ottawa despatch says that the Kenoras have secured Alf. Smith, but that Harry Smith and Pulford who were also wired to go, declined the offer. Harry Smith is not in the best of shape.

The New England Football Champions to Play Here

Fall River (Mass.) Team Will Play at Peterborough in May--Are Touring Canada.

The Fall River, (Mass.) Rovers Football Club will make a tour of Canada this spring, and will play a game in Peterborough. The crack American team of soccer experts will meet a picked team in this city some time in May. The arrangements for the game are being made at present. Mr. J. A. MacPherson of Toronto, is arranging the series of matches, and so far has arranged for the Fall River team to play at Dundas, Berlin, Seaforth, Toronto, Peterborough and Montreal.

The Fall River team is the only one that defeated the famous amateur team, the Corinthians, during the Englishmen's tour of Canada and the United States. They are champions of the New England league, 1901-2-3-4-5 and 06. The team consists largely of old country players, and will no doubt be a great drawing card here. Peterborough should be able to place a strong team in the field, and to give the visitors a close game.

Further details will be announced in a week or so, when the dates of the games at the different places will be given.

TO ORGANIZE CRIKET CLUB

A movement is on foot for the organization of a cricket club in Peterborough. With this end in view a meeting will be held at the Y.M.C.A. on Thursday night at eight o'clock to which all lovers of the good old English game are invited. It is to be hoped that there will be a large attendance and that the movement will result in the organization of a club. There are many good cricketers in Peterborough, and all that is necessary is someone to take hold of the matter and carry it to a successful issue.

There will be no difficulty in securing grounds upon which to practice and play games if the club is formed.

MR. RAY'S RINK COMES FIRST

Mr. Sam Ray's rink has won the scheduled rink competition of the Curling Club. The award was given on Saturday when the number of games played was gone over and it was found that Mr. Ray's rink was entitled to first place. Mr. D Hall's Mr. C. Rutherford's rinks are tied for second place and will play off just as soon as possible.

HOCKEY

SENIOR SERIES IS A JOKE

It's Peterborough this time, says Toronto Saturday Night. Berlin, Guelph and Barrie left the O.H.A. at the earliest solicitation of the powers that be, but Peterborough is out because, it is claimed, they did not receive proper treatment at the hands of the Executive. This is a charge that will need some proving, but the fact remains that Peterborough has withdrawn from the O.H.A.: the reason does not appear so much at this moment. The fact is that the senior series as finished this year is a joke, and something needs fixing pretty badly. Another year like the past one and the average man will not waste his time nor his money on a senior game. The available talent of this city is at present divided up among three teams, none of which can give any of the outsiders an argument. There's one thing that needs fixing. There is something in a name, but not enough to carry an inferior team into the esteem of the public, and if the clubs concerned cannot fix up some sort of an amalgamation by next winter, Toronto might as well fade off the hockey map as a senior proposition. It seems a sad thing that Toronto cannot produce more than one good senior team, but facts are facts, and one good seven is infinitely preferable to three second-raters.

WHEN GREEK MEETS GREEK.

It was, says the Lindsay Post, with a proud spirit and a haughty manner that the Typos of the Post, threw down the gauntlet to the Peterborough press, and defied them to meet in royal battle on the slippery field of glory, and it was with satisfaction that an answer accepting the challenge was received from the Examiner this morning.

The games will be played this week, the probable dates being Tuesday in Peterborough, and Thursday in Lindsay, and the exhibition will have everything from Barnum's circus to the fall fairs beaten by 23 miles for the spectacular.

NO MORE GAMES.

The Peterborough hockey team will play no more games this season. The boys have decided to hang up their sticks for this year.

VARSITY'S BIG SCORE

Toronto Varsity defeated the All-Toronto team at Mutual street rink Saturday night, 25—6.

STRATFORD AT LINDSAY

The Stratford Midgets play at Lindsay tonight in the final game for the O.H.A. junior championship. The Westerners have a lead of five goals.

BASEBALL

LINDSAY'S PROSPECTS.

Lindsay expects to have a strong team this year as the following from the Post will show:.

Lindsay should have a bunch of pennant winners also. Some clever players were [illegible] in league circles last year, and a nine could be picked that would give them all a hustle for the Midland championship.

[illegible] Cinnamon, the [illegible] of the [illegible], is still [illegible] and never played better ball in his life than he did last summer. Bill made his debut as a pitcher last summer and did well. He has the full assortment of twisters and towards the end of the season had good control and was beginning to get greater speed. His fielding helped him out a lot in the box.

"Dicky" grey, the phenomenal pitcher of the Sylvester team last year, is still in town. His record of 19 strike-outs out of 21 men facing him, still is subject of gossip among the fans. For backstop Bill Williams is available and can deliver the goods. Herb Workman, Harry Soanes, and other fast 'uns, would be the nucleus for a good bunch of fielders.

What's wanted is a good, hustling management who understands the game and are true sports. The rest would be easy.

BARBERS AND TYPOS TO-NIGHT

The barbers will try to shampoo the Examiner printers at Brock-st. rink tonight between 10 and 11 o'clock while the type jugglers will endeavor to pie the razor handlers' forms. In other words a hockey match will be played and a big time is anticipated. Ray P. Best will handle the bell. There is no truth in the report that he sold the game for the price of a half dozen shaves.

The teams will line up as follows;

Typos		Barbers
	Goal	
McBrien		A Lewis
	Point	
Gibson		E Wright
	Cover	
Long		Jokpen
	Rover	
Theobald		H Darling
	Centre.	
Henry		E Harrison
	R. Wing	
Martin		B Hayes
	L. Wing	
Mahoney		G Campbell

Suicide Bureau a Success.

New York, March 11.—Miss Booth of the Salvation Army announced yesterday that the anti-suicide bureau has successfully passed the experimental stage, and that it will be made a permanent feature of the organization.

Gets Hingston's Seat.

Ottawa, March 11.—Sir Wm Hingston's successor in the Senate will be J. J. Dessaulles, business man, of St Hyacinthe, Quebec.

Dice.

Dice are said by some to have had their origin in occult sources, but more reasonably they are ascribed to Palamedes of Greece B. C. 1244. Those exhumed at Thebes are identical with those used today, and the games played with them are the simplest and most widely known games of chance in the world.

Irish Bog Oak.

Irish bog oak is probably the best known example of workable wood dug from the ground. It is perfectly black and has good grain for carving.

To Prevent Bunions.

Easy shoes with wide soles and straight heels will be found the most effectual preventive of bunions on the feet. When they exist they can be relieved by spreading thickly with cold cream or some healing salve before going to bed. A round piece of court-plaster over the salve will keep it in place and save the bedclothes.

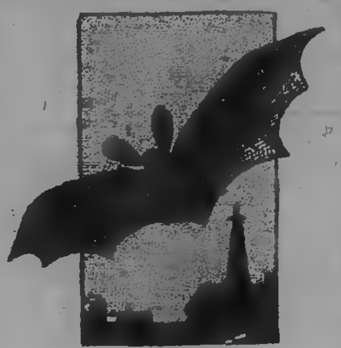
FOR YOUNG FOLKS

FLITTERMICE.

The Peculiar Habits of These Queer Animals.

Children, do you know that the little flittermice and bats are one and the same? Well, they are, and for four or five months each year during the cold weather they hide away in caves, dark crevices of rocks or deep, snug, hollow places inside trees, and there in their winter quarters they hang, head downward, to the walls, sleeping as the great bears sleep through the winter time.

But when the first warm weather comes, when the sun sends its good cheer even into the caves, crevices and hollows of trees, then Mr. and Mrs. Flittermice and all the little Flittermices awake. "It's time to be getting up," says Mr. Flittermice, stretching himself. "The warm weather is here again."



ON THE WING.

And Mrs. Flittermice calls to her babies, for she is a thoughtful mother, to "come, get on my back and let us be out of here." And how you would laugh could you see those little baby bats catch their sharp, strong little claws into Mamma Bat's furry coat, where they hang on for dear life, as she opens her wings and flies away. And once out under the cover of night their eyes become very bright, for, like the owl, they see only through the dark.

They are very hungry, and it takes a great many gnats and mosquitoes to furnish a meal.

But who would not be hungry after several months of fasting, pray?

I'm sure we would, wouldn't we?—Washington Post.

A BOXING KITTEN.

Its Funny "Fistic" Antics Made a Big Dog "Laugh."

The proprietor of a small store in New York owns a black kitten that cultivates a habit of squatting on its haunches, like a bear or a kangaroo, and then sparring with its forepaws as if it had taken lessons from a pugilist. The Telegram tells how the kitten conquered a big dog.

A gentleman took into the store an enormous black dog, half Newfoundland, half collie, fat, good natured and intelligent. The tiny kitten, instead of bolting at once for shelter, retreated a few paces, sat erect on its hind legs and put its "fists" in an attitude of defiance.

The contrast in size between the two was intensely amusing. It reminded one of Jack the Giant Killer preparing to demolish the giant.

Slowly and without a sign of excitability the huge dog walked as far as his chain would allow him and gazed intently at the kitten and its odd posture. Then, as the comicality of the situation struck him, he turned his head and shoulders around to the spectators, and if animal ever laughed in the world that dog assuredly did so then and there. He neither barked nor growled, but indulged in a low chuckle, while mouth and eyes beamed with merriment.

The Earth's Interior.

It has been found by subterranean boring that the temperature increases about one degree for every fifty-five feet. Water would boil therefore at a depth of less than two miles, and at a depth of thirty miles all known substances would melt. The scientists believe that the interior of the earth is a molten mass. The volcanic discharge of lava, which is nothing but melted earthy matter, goes to confirm this belief, as do also the hot springs that are found in different parts of the world. It has been proposed to make use of the hot water that lies in beds underground by sinking shafts to reach them. Many things even more wonderful than this have been done, and therefore the suggestion does not seem unreasonable.—Chicago News.

Conundrums.

When is a schoolmaster like a man with one eye? When he has a vacancy for a pupil.

Why is a dog's tail like the heart of a tree? Because it is farthest from the bark.

What Tommy Dropped.

"Oh, dear me, isn't dinner served?
I think you're awful slow!"
And Tommy fumed and fretted till
His father said: "Oh, ho!
Go pick up what you dropped, my son,
Before you came inside."
And Tommy quickly ran to look,
But not a thing he spied.

"That's strange," quoth father, "for I saw
Two boys with faces bright,
Who talked together at the gate
In manner most polite.
I heard a voice speak pleasantly,
Till on the porch it stopped.
And so I thought your manners, Tom,
Outside the door you'd dropped!"
—Pauline Frances Camp in Little Folks.

George Thompson, a miner at Cobalt, had his head blown to pieces by an explosion of dynamite.

THE ENGLISH SYSTEM.

Not a Hundred Persons Affected by a Change of Administration.

"All told, the government of England consists of only forty-six persons, and the transfer of political control from one party to another directly affects only these forty-six persons and a few great functionaries of state whose duties are purely ornamental," says A. Maurice Low in Appleton's. "In all not 100 persons are concerned by a change of administration. Postmasters, government employees of every class, from messengers to ambassadors and colonial administrators, are not disturbed by the transfer of power. Clearly no political party in England can count upon patronage as a political asset.

"The principle on which the parliamentary system of England is founded is the rule of the majority, and the majority elects to surrender its power to one man—the premier. The power of the majority is so strictly recognized that the rules of the house of commons deprive the minority of all power to initiate or shape legislation. When a majority of the electorate of the kingdom has sanctioned a policy represented by a political party that party is given free hand to put its policy into operation. In all legislatures the power of the majority is the control which it exercises to tax the people and spend their money. See, then, how absolute is the power of the prime minister in his command of the treasury."

LETTERS BY MESSENGER.

A Postal Law of Which You May Not Have Knowledge.

The statement made in an uptown club one evening lately that the law prohibits carrying an unstamped letter past a postoffice and delivering it caused much argument. Inquiry was made at the postoffice, where an official said that the question had been asked frequently. "You may send a letter by messenger anywhere, past as many postoffices as you please," said the official, "but you have no right to send your mail that way regularly or at stated periods. This is prohibited by the postal laws and regulations. Sections 1136 and 1137 were enacted to prevent the establishment of private mail routes, because the [illegible] government is recognized as having the absolute monopoly of the transportation of letters and 'packets' or bundles of letters by regular trips and at stated periods on all post routes. As to open letters and circulars, they may be delivered by rival concerns, but the people who make the delivery of circulars a business have no right to deliver unstamped closed letters. The law shuts out the milkmen and the tradesmen, who travel regularly along established post roads, who would otherwise become rivals to the United States postoffice for the purpose of accommodating their customers."

An Anecdote of Shelley.

The poet Shelley tells an amusing story of the influence that language "hard to be understood" exercises on the vulgar mind. Walking near Covent Garden, London, he accidentally jostled against an Irish navvy, who, being in a quarrelsome mood, seemed inclined to attack the poet. A crowd of ragged sympathizers began to gather, when Shelley, calmly facing them, deliberately pronounced:

"I have put my hand into the hamper. I have looked on the sacred barley. I have eaten out of the drum. I have drunk and am well pleased. I have said 'Knox Ompax,' and it is finished."

The effect was magical. The astonished Irishman fell back. His friends began to question him. "What barley?" "Where's the hamper?" "What have you been drinking?" and Shelley walked away unmolested.

As Clean as a Whistle.

Any one who has witnessed the manufacture of a rustic whistle can be at no loss for the origin of the saying, "As clean as a whistle." A piece of young ash about four inches long and the thickness of a finger is hammered all over with the handle of a knife until the bark is disengaged from the wood and capable of being drawn off. A notch and a cut or two having been made in the stick, the cuticle is replaced, and the instrument is completed. When stripped of its covering the white wood, with its colorless sap, presents the very acme of cleanness.—London Answers.

Joseph Bonaparte.

Joseph Bonaparte fled to America after the hundred days and bought a home in Philadelphia, where he lived in winter, and a mansion in New Jersey, where he passed his summers. He was much liked in this country, but could not make up his mind to stay here, so returned to Europe, hoping to profit by the changes of government in France. He was always disappointed and found himself an unwelcome guest in every country save England. He finally secured permission to live in Italy and died in Florence in 1844.

Considerate.

Singleton—What have you in that package, old man? Wedderly—An ash receiver. It's a present for my wife. Singleton—What! You don't mean to tell me she smokes cigarettes? Wedderly—Oh, no, but if she has an ash receiver for me to put my cigar ashes in it will save her the trouble of sweeping them up. See?

There are some truths that are perceived less by the intellect than by the heart, and the man who is devoid of this heart perception is lacking in much.—Terrell (Tex.) Transcript.

Edward Boldus, an old resident of Hespeler died yesterday from a paralytic stroke.

SAMPLES SENT FOR EXPERIMENTS

The members of the Ontario Agricultural and Experimental Union are pleased to state that for 1907 they are prepared to distribute into every township in Ontario, material for experiments with fodder crops, roots, grains, grasses, clovers and fertilizers. About two thousand varieties of farm crops have been tested in the Experimental Department of the Ontario Agricultural College, Guelph, for at least five years in succession. These consist of varieties from nearly all parts of the world, some of which have done exceedingly well in the carefully conducted experiments at the College and are now being distributed free of charge for co-operative experiments throughout Ontario. The following is the list of co-operative experiments in agriculture for 1907.

No. 1—Three varieties of oats, 3 plots.

No. 2 a—Three varieties of six-rowed barley, 3 plots.

No. 2 b—Two varieties of two-rowed barley, 2 plots.

No. 3—Two varieties of hulless barley, 2 plots.

No. 4—Two varieties of spring wheat, 2 plots.

No. 5—Two varieties of buckwheat, 2 plots.

No. 6—Two varieties of field peas, 2 plots.

No. 7—Emmer and Spelt, 2 plots.

No. 8 — Two varieties of Soy, Soja, or Japanese Beans, 2 plots.

No. 9.—Three varieties of husking corn, 3 plots.

No. 10.—Three varieties of mangolds, 3 plots.

No. 11—Two varieties of Sugar beets for feeding purposes, 2 plots.

No. 12—Three varieties of Swedish turnips, 3 plots.

No. 13.—Kohl Rabi and two varieties of fall turnips, 3 plots.

No. 14—Parsnips and two varieties of carrots, 3 plots.

No. 15.—Three varieties of fodder or silage corn, 3 plots.

No. 16.—Three varieties of Millet, 3 plots.

No. 17.—Three varieties of Sorghum, 3 plots.

No. 18.—Grass Peas and two varieties of Vetches, 3 plots.

No. 19.—Field Cabbage (and two varieties of Rape, 3 plots.

No. 20.—Three varieties of Clover, 3 plots.

No. 21.—Sainfoin, Lucerne and Burnet, 3 plots.

No. 22.—Five varieties of Grasses, 5 plots.

No. 23.—Three varieties of Field Beans, 3 plots.

No. 24.—Three varieties of Sweet Corn, 3 plots.

No. 25.—Fertilizers with Potatoes, 8 plots.

No. 26.—Fertilizers with Swedish Turnips, 6 plots.

No. 27.—Sowing Mangels on the level and in drills, 2 plots.

No. 28a.—Two varieties of early Potatoes, 2 plots.

No. 28b.—Two varieties of medium ripening Potatoes, 2 plots.

No 28c.—Two varieties of late Potatoes, 2 plots.

No. 29.—Three grain mixtures, for grain production, 3 plots.

No. 30.—Three mixtures of Grasses and Clover, for hay, 3 plots.

The size of each plot in each of the first twenty-seven experiments and in Nos. 29 and 30, is to be two rods long by one rod wide; and in No. 28, one rod square.

Each person in Ontario who wishes to join in the work may choose any one of the experiments for 1907, and apply for the same. The material will be furnished in the order in which the applications are received until the supply is exhausted. It might be well for each applicant to make a second choice, for fear the first could not be granted. All material will be furnished entirely free of charge to each applicant, and the produce will, of course, become the property of the person who conducts the experiment.

FLYING METER WAS OBSERVED

As two men were driving from Peterborough to Springville on Saturday night, when about four miles from the city, the atmosphere round about was made almost as bright as day by a large meteor which fell in front of them. The flying body burst in mid-air. A portion of it was a bright, whiteish light, while another portion was of a greenish, violet hue. The scattered parts resembled a rocket. The sight was one which the gentlemen will long remember.

Last night local astronomers were out in full force. The aurora borealis was very bright and the star gazers were well pleased with their observations.

EXECUTORS' NOTICE TO CREDITORS

In the Surrogate Court of the County of Peterborough, in the Matter of the Estate of HENRY JOHNS, late of the Township of Otonabee in the County of Peterborough, Yeoman, deceased.

Notice is hereby given pursuant to R. S. O., 1897 Cap. 129, Sec. 28 and Amending Acts, that all persons having claims against the estate of the said Henry Johns, who died on or about the first day of February 1907, are required to send by post prepaid or to deliver to Hall & Hayes, solicitors for Benjamin Yelland and and Thomas Sargent, executors of his will on or before the **Second Day of April 1907**, their names, addresses and descriptions and a full statement and particulars of their claims and the nature of the security (if any) held by them, duly verified, and that after the said day the executors will proceed to distribute the assets of the deceased among the the parties entitled thereto, having regard only to the claims of which they shall then have notice.

Dated this eighteenth day of February A.D. 1907

Dickson Co. Surveying Property Corner Hunter and Burnham Sts.

Property Will be Sold for Residential Purposes--Plan Filed With the City Clerk and Permission Asked to Open a Forty-five Foot Street.

The Dickson Company have surveyed the property at the corner of Hunter and Burnham streets just east of the Hunter street bridge and will cut it up into building lots. For many years the company has used it in connection with their lumber business and for stabling their horses, etc. But as they have no further use for it they have decided to sell it for building purposes.

The parcel of land referred to contains several acres and is valuable for residential purposes. It is high, well drained and the location is vary desirable. A plan of the survey has been made and in order to carry it out the company has decided to open a new street running west from Burnham street to the raceway. This street is forty-five feet wide and will serve the residents adjoining thereto. A plan has been filed with the city clerk and permission has been asked the City Council to put the street through.

The Council some time ago decided that no plan of a street could be registered without the Council's consent unless it was the full width, viz., 65 feet. This new street is not the full width and there is a feeling that it should not be allowed. It would certainly be a great improvement if all the streets were the full width. In this case, however, the Dickson Co. claim that it is impossible to make the street the full width. Before the plan is passed the Board of Works will consider it and report to the Council.

Good Programme Thursday Night

Englishmen's Evening at the Young Conservative Club Rooms

An unusually interesting programme has been prepared for Englishmen's night at the Young Conservative Club rooms, on Thursday night of this week. There will be good songs, short speeches, and many bright, musical numbers. The Smoker promises to be a big success, and the rooms will doubtless be crowded.

They Gave Him Every Attention

Misleading Report as to Treatment of Young Man Who Died in Norwood

The evidence in the inquest touching the death of Thos. Howard, at the McGregor House in Norwood, showed that there was no neglect or carelessness whatever on part of any one, and particularly on the part of Mr. and Mrs. Terrence Smith and daughter, who did all in their power to minister to the bodily wants and comfort of the deceased during his short illness.

Coroner Gray also states that Mr Smith and family did everything possible for the young man. The rumors that he had not received proper treatment at their hands are misleading and wholly without foundation.

Assyrian Gets Six Months for Vagrancy

Merchant Fined for Piling Goods on Walk—Other Cases

There was a somewhat lengthy police court docket this morning.

The dull times for the past few days were made up for this morning. The first case before His Worship was an Assyrian charged with vagrancy. This fellow could speak very little English. No one could make out his name. He came from McKeesport, Penn. The Magistrate concluded that six months in Central prison would the best thing for him. He would learn to speak English there.

GOODS ON WALK.

Mr. E. F. Mason, grocer, George st., was fined $5 this morning for piling goods on the sidewalk in front of his store on Saturday last. According to the by-law no goods can be placed on the sidewalk on Saturday and on other days they must be all taken in before 12 o'clock noon. It is the intention of the authorities to enforce the by-law and all offenders will be dealt with the same

CLEANING THE WALKS

Frank Clarke, jeweller, corner George and Brock streets, was charged with not cleaning the ice off the sidewalk in front of his store. He pleaded guilty but the Magistrate reserved judgment.

TOO TIRED TO STIR!

ARE YOU ONE OF THE
WEAK WOMEN
To Become Bright, Happy and Healthy?—Use Ferrozone.

Modern life makes demands on every woman's strength that seem impossible to meet. Only the robust and strong can stand the strain. The weak, with their delicately balanced organisms, must fail. Blood gets thin, it's innutritions. Nerves go to smash, vitality declines, and then follows misery and suffering caused by interference with certain functions upon which the very existence of every female depends.

Don't let your condition grow worse. Check the decline of vital force before it is too late! The one sure remedy is Ferrozone—not a temporary stimulant—but an uplifting nutritive tonic that contains the kind of building material a weak body requires.

FERROZONE revitalizes the system by putting new life into the blood. Not only does it nourish the ordinary blood supply—it does more, it makes new blood, the rich, red kind that denotes health.

Energy is reinforced, strength is steadily and surely rebuilt. Keen appetite, strong nerves, more restful sleep, buoyant feelings, all tell of the enormous good Ferrozone invariably accomplishes. For restoring the weak, the pale, the despondent, there is no treatment so instant and permanent in effect as Ferrozone. A trial proves this. Won't you use Ferrozone yourself? It will surely make you well—its effect is instant.

BUILT UP HER STRENGTH

Mrs. M. E. Etherington, a well known merchant's wife, of Troy, writes: "I am quite willing to give a public testimonial for Ferrozone, believing it to be a tonic of superior excellence, and one that will rapidly build up strength and supply new energy to anyone not feeling well. Last Spring I was in a very poor condition of health. I was nervous, felt tired and completely worn out. No doubt it is quite a common complaint with ladies of my age, but I placed great reliance in Ferrozone, and took it for several weeks. It made me quite strong, and, in fact, I have been in better health ever since. I can heartily recommend Ferrozone."

Ferrozone Assures Good Health!

WARNING! Beware of the substitutor who urges you to accept something "just as good." Only FERROZONE can cure satisfactorily, see you get it, and nothing [illegible] 50c per box or six boxes for $2.50 [illegible] or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ontario.

Railway Fares Were Discussed; Interesting Time in the House

For a Two-Cent Rate on G. T. Railway.

Hon. Mr. Emmerson Goes On Record On Important Matter—Inveighs Against Principle As a Dangerous Doctrine—Clause of Labor Bill Struck Out—Any Industry Not a Utility—Case of Railway Men.

Ottawa, March 12.—The House was visibly stirred yesterday afternoon by the startling state of affairs disclosed through a few pointed questions by W. F. Maclean (South York), and the staggering attempts at answer perpetrated by the Minister of Railways.

The House was in committee on a private bill entitled "an act respecting the Grand Trunk Railway Co. of Canada." Artfully buried under tons of verbage, there had been inserted in this bill a section respecting that part of the Grand Trunk charter passed in 1862, which in consideration of a grant of $3,000 a mile, required the company to run over the length of its line at least one train a day, carrying third-class passengers at a penny a mile. As reported to the House from the Railway Committee, this section was dropped. It had been withdrawn by the solicitor of the G. T. R. in committee, who did so at the request of the Government.

Mr. Maclean demanded that the Government should state its position. Terrified by public opinion, it had retained upon the statute book the penny-a-mile clause. Did it now intend to enforce that clause?

Mr. Emmerson replied that he was "not the father confessor of the Grand Trunk Railway." Indeed, he knew little about its charter. He assumed that any provision contained in its charter would be faithfully observed by the G. T. R."

Sir Wilfrid Inquisitive.

At this point Sir Wilfrid butted in, to the great embarrassment of his Railway Minister.

"On what authority do you say that this Government had the G. T. R. withdraw this clause?" he asked.

Mr. Maclean: "On the authority of Mr. Biggar, solicitor of the G. T. R., who was notified by the Minister of Railways and Canals."

Sir Wilfrid made no further interruption, but later on, Mr. Emmerson in a way, impugned the veracity of Mr. Biggar and then inveighed against the two-cents-a-mile as a "dangerous doctrine."

He put forward these two propositions!

First, that the railways of Canada at present only charged two cents a mile, second-class.

Second, that in Nebraska the passage of the two-cents-a-mile act had led to the railways abolishing all passes, excursion rates and other privileges.

Information at Last.

"Answer me these two questions," demanded Mr. Maclean. "Is this penny-a-mile clause in force, and do you intend to enforce it?"

"I never denied that there was such a statute," said Mr. Emmerson, but he positively refused to make any pledge that he would enforce it.

Settlement of Strikes.

Consideration of the bill of the Minister of Labor, to aid in the settlement of strikes and lockouts in mines and public utilities was also resumed yesterday in Committee of the Whole.

The principal change effected was the withdrawal of the clause empowering the Governor-in-Council to declare any industry a public utility within the meaning of the act.

The Minister refused to have it enacted, that pending investigation of a labor dispute the employer may not alter the hours of employment or rate of wages any more than he may order a lockout. Mr. Borden pressed this change upon the Minister, but without avail.

Railway Men Object.

R. L. Borden could see nothing to criticise in the railway trainmen preferring the act of 1903. He doubted whether Mr. Lemieux's amendment had any such effect as he claimed for it. He suggested some change in phraseology that might to some extent carry out the purpose of the proposed amendment. Mr. Lemieux said that the only objection by the railway men was one based on the large expense involved. He insisted that they could keep clear of the pending legislation by acting promptly, and the case arose by invoking the act of 1903.

Mr. Borden pointed out that the railway men urged that they already had a system of patient and exhaustive enquiry between employer and employe, and, moreover, there had been no strike or lockout since 1903. It was now proposed that either one side or the other could invoke the proposed bill and refer the whole matter anew to a third tribunal.

Mr. Lemieux replied that the present bill would only be put in operation in case the railway men should fail to invoke the conciliation clause of the bill of 1903.

The bill did not get through committee. It is to be reprinted and further considered.

Boulter Wins In Brampton.

Brampton, March 12.—J. H. Boulter defeated Edward Hale in the municipal election yesterday, despite the fact that he was disqualified by reason of having an action against the Carnegie Library.

St. Kitt's Enquiry Closes.

St. Catharines, March 12.—The evidence in the civic investigation was completed yesterday, but the hearing of the arguments of counsel was postponed until Wednesday, March 20.

Horseshoe Inventor Dead.

Hanover, Conn., March 12.—Rodolphus W. Fuller, the inventor of the machine to make horseshoes, died yesterday, aged 85 years. The inventor died poor.

Cook's Cotton Root Compound.
The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

STUDENTS BLINDED.

Result of Practical Joke at a McGill Union Concert.

Montreal, March 12.—A practical joke was played on the science freshmen in McGill Union on Saturday night which may result seriously. A concert was held at McGill Union by the freshmen in science. All went along very nicely until about 10 o'clock, when the electric light wires were cut, and at the same time a large bottle of ammonia was thrown into the hall from a lounging nook on the second floor. The bottle broke and filled the room with the overwhelming fumes peculiar to ammonia. This got into the eyes of several of the fellows, and four of them had to be taken to the hospital and treated for very painful injuries. There is danger of the eyes of some being permanently injured.

The Sophomore Science year is supposed to include the offenders, and it is announced that, as soon as their identity is established, they will be expelled.

Coming so soon after the theatre night rumpus last fall, when the whole student body came in for a severe castigation at the hands of Principal Peterson, this case promises to result disastrously for the offenders.

$50,000 Fire In Liner's Hold.

Boston, March 12.—About $50,000 damage was done by a fire that broke out in No. 4 hold of the Leyland Line Steamship Devonian at her dock here yesterday.

Pope Motor Strike Settled.

Toledo, Ohio, March 12.—The Pope Motor Co.'s strike of machinists, involving over 1,000 men, has been settled.

THE GREAT SEAL HUNT.

Twenty-Three Steamers Sail Up the Labrador Coast.

St. John's, Nfld., March 12.—At daybreak yesterday the sealing fleet of 23 steamers sailed for the north to begin the annual taking of seals off the Labrador coast. On account of inshore winds, which have packed the ice heavily along the coast, the work of the fleet this season is expected to be unusually difficult. The fleet carries 3,891 men.

Strike Against Ruler.

Teheran, March 12.—As a protest against the extortion and reactionary methods of the son and the staff of the Governor-General of Ispahan, Masud Mirza Zill-Es-Sultan, who is the eldest uncle of the Shah, a general strike is in full progress at Ispahan, formerly the metropolis of Persia. Attempts to repress the strike have led to serious disorders, during which many casualties occurred among the strikers, some of whom have sought refuge on the premises of the British telegraph line.

Urgent telegrams from the inhabitants of Ispahan, have reached the Persian Parliament, demanding the recall of the governor-general, and the expulsion of his family from the city. The telegrams have been handed to the Minister of the Interior for transmission to the Shah.

To Tour the World.

London, March 12.—It is stated that Prince Edward and Prince Albert, the two eldest sons of the Prince of Wales, will in due course make a tour of the world in a battleship. Prince Edward is destined for the army and Prince Albert for the navy.

ATTACKS WIFE'S STORY

Questions As to Thaw's Cruel Treatment Admitted.

Trial May Last Two Weeks Yet—Thaw Family Attorney Placed On Stand—Battle of Words Between Counsel—Rebuttal Evidence Produced, Little Headway Made—May Attempt Alibi For White.

New York, March 12.—Yesterday, the first day of the state's rebuttal in the trial of Harry K. Thaw, District Attorney Jerome came to a temporary standstill against a practically solid wall, the rules of evidence built around the story of Evelyn Nesbit Thaw.

Jerome began to attack this story as soon as court opened. There ensued a well-nigh incessant fight between the prosecutor and Delphin M. Delmas, leading counsel for the defence, at the end of which Justice Fitzgerald upheld the rule laid down at the beginning of the trial—the story is admissable only as tending to show the effect it might have had in unbalancing the defendant's mind, its truth or falsity being immaterial.

Although he doubtless will be blocked by the same rule when the time comes, it is said he may attempt in the same way to prove an alibi for Stanford White as to the events testified to by the wife of the defendant.

Ten Witnesses Called.

The district attorney called ten witnesses during the day, but, aside from obtaining from the state's eye-witnesses to the tragedy the opinions that Thaw seemed rational the night he shot and killed Stanford White, little real headway was made.

Lining up all his forces in rebuttal, Jerome decided to open his fight upon the defence by attacking the story told by Evelyn Nesbit Thaw. He called to the stand Frederick Longfellow, and asked him first about the case in which Ethel Thomas is alleged to have sued Thaw for damages because of cruel treatment.

Delmas objected to questions along this line under the professional privilege of lawyer and client, but before Justice Fitzgerald sustained the objection and ruled out the evidence Jerome declared:

"The story of the girl tied to a post and whipped by Thaw is the story of [illegible] poor girl, in [illegible]

Jerome [illegible] photographic copy of the affidavit Evelyn Nesbit is said to have signed in the office of Abraham Hummel, which alleged Thaw used her cruelly while abroad in 1903, "because she would not tell lies against Stanford White."

Dispute Over Papers.

Jerome followed this up by asking the witness if Mrs. Thaw did not turn over to him certain papers to which she had subscribed. Mr. Longfellow said she had. There was a long controversy between Jerome and Delmas, at the conclusion of which Mr. Longfellow brought his entire examination to naught by declaring Mrs. Thaw never showed him a paper similar in any way to the Hummel affidavit. He thereupon was excused without cross-examination.

During the afternoon recess Jerome sprung something of a sensation by calling to the stand Dr. Rudolph Witthaus, a chemist and expert in poisons.

New Hypothetical Question.

The district attorney framed a hypothetical question covering Evelyn Nesbit's story, and asked if there was any known poison which would cause insensibility in two minutes and permit of the quick recovery testified to by Thaw's wife.

Around this vital point, which would bring up means by which the prosecutor could attack the truth or falsity of Mrs. Thaw's story, argument raged for an hour or more.

Jerome insisted he was not attacking the truth of Mrs. Thaw's story. He was calling for an expert opinion, he asserted, to the effect that no known drug would produce the effect testified to by Mrs. Thaw.

Did She Really Tell Thaw?

"My question indicates the answer I expect to get to the question," said Jerome, "and I can show there is no such poison in the world; if I can show there was no such occurrence as testified to, then it is for the jury to infer whether or not Evelyn Nesbit told her story to Thaw in Paris in 1903."

Bulgarian Premier Slain.

Sofia, Bulgaria, March 12.—M. Petkoff, the Premier and Minister of the Interior, was assassinated here yesterday.

M. Petkoff, with other Ministers, was walking in the Boris Garden when he was attacked by a stranger, who fired at him with a revolver. The Premier was hit by three bullets and instantly died.

M. Guenadieff, the Minister of Commerce and Agriculture, was wounded in the arm.

'Twill Advertise Us.

London, March 12.—(C. A. P.)—The pavilion, which will accommodate the Canadian exhibits at the International Exhibition, Dublin, is of imposing dimensions, and promises to be a splendid advertisement.

Canadians are much more ready, judging by past experience, to pass local option laws than to enforce them, says The Scotsman.

Increase the Grant.

Toronto, March 12.—The Government has decided to give the Salvation Army a $3,000 increase in the grant for their extra work this season in immigration and colonization. The former grant was $7,000, which will be increased to $10,000. Premier Whitney foreshadowed the increase at Massey Hall on Sunday.

Two Named In Carleton County.

Ottawa, March 12.—R. H. McElroy is the official Conservative candidate, and William H. Hartin, the independent farmers candidate for vacancy in Carleton County, to be filled next Monday.

Mr. Gordon Smith of Paris, has been appointed superintendent of the Six Nation Indians, with headquarters at Brantford.

$1,600 MISSING.

Bank Messenger Has Disappeared and Cannot Be Found.

New York, March 12.—William O. Gillespie, a messenger of the National Park Bank of this city, has been missing since Tuesday, when $1,600 of the bank's funds also disappeared, it was officially stated by the bank officials yesterday in this announcement.

"William O. Gillespie, 25 years old, a messenger in the employ of the National Park Bank for about six months, failed to return last Tuesday afternoon, after making his customary collections. He had collected between $1,600 and $1,700 and no trace of him has been found."

Gillespie is said to be a native of Scotland, who came to the bank from Canada about six months ago. His duties were to make collections on notes and drafts sent in by the correspondents of the bank. He lived at a boarding-house on East 89th street.

Last Tuesday afternoon he is said to have gone to his rooms, where he was joined by another young man with whom he had been friendly. The two men left the house together and on the corner met two young women.

Later it was learned a party of four answering the description of Gillespie and his friends boarded a train for Buffalo at the Grand Central Station.

Agents of the bank are reported to have searched unsuccessfully for Gillespie in Buffalo and in Canadian cities.

[illegible]

Attendance of All the Ministers Discussed By the Press.

London, March 12.—(C. A. P.)—Botha announced he would attend the colonial conference.

Churchill, replying to Lyttelton, said yesterday that the Colonial Secretary had determined that the constitution of the colonial conference should be a matter for that body itself, but it would be the first subject of importance to be brought before the conference.

The Morning Post says there is much more in the Canadian suggestion that all Colonial Ministers might be invited to the colonial conference than meets the eye. In effect it marks a distinct advance to a common crown, but while in this sense it may be invited to the colonial conference be regarded in some quarters as a step towards the dissolution of the empire, the principles advocated would facilitate the solution of the imperial council.

The Standard contends that Ministers other than Premiers should only be in attendance when matters affecting their departments are being discussed.

LORD PENRHYN DEAD.

Famous Dispute With His Slate Quarry Employes Recalled.

London, March 12.—Lord Penrhyn, whose dispute with his employes at the Bethesda slate quarries brought him into great prominence, is dead.

The quarrymen struck and Lord Penrhyn refused to parley with them, shut down the quarries, and refused to re-open them except on his own terms. The men yielded after three years' struggle, which cost the Bethesda district nearly $2,000,000 in wages, and which, it is claimed, did not do anybody any good, except the foreign quarrymen, who, as a result of the dispute, developed a thriving business in the way of sending slates to England. The deceased peer was born in 1836, and succeeded his father in 1886.

CHEAPER THAN BATTLES.

People Regard Cost of Battleships as an Insurance Rate.

San Francisco, March 12.—Lord Charles Beresford, Admiral of the British Channel fleet, has arrived here on his return from Texas, where he has been settling the estate of his brother, the late Lord Delaval Beresford. The admiral still believes in battleships in spite of the international project of disarmament. "The people have become the arbiters of peace," he said. "They realize the horrors of war and that battleships are cheaper than battles. War is no longer determined by Parliament and potentates, and the people look upon the cost of battleships as an insurance rate."

William Franks, of Calais, N.B., fell from the roof of his house while removing snow and was seriously injured on a picket fence.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

There was at last a long November week while Anne was at Winchester and when she and Armand, his wound healed, rode together along the valley ways. The young Frenchman still remained a guest, for the baron would hear no word of departure. He swore he should not leave him till the season opened again at Williamsburg.

The day before their return to Gladden Hall the ladies spent at Greenway Court. As the mild November afternoon faded Armand and Anne sat in the rustic house, built of twisted grapevine, set where the round spur on which the lodge was built fell steeply down. A book lay on her knee.

Far away against the long sashes of sapphire light the sweep of ragged Blue Ridge stood listlessly. The river bottom was a violet gray reach of stain soaked grasses, hung with wreaths of trailing Virginia creeper, dabbled in the summer's blood, or as if the peaks ran down with red wine wasting.

She bent slowly, like a swaying lily.

Anne pointed where just below the river wavered like a sheet of spun silver, edged with soaked velvet.

"The Indians call it Shennando," she said, "Daughter of the Stars."

He leaned forward and lifted the little book, its binding of parchment, pale yellow, like antique ivory. "It is a tale of my own land," he said softly, "of Normandy, in the old days when the troubadours sang."

"I have not yet read it," she answered. "Tell me the story."

"It is of the son of a poor woodcutter. Toiling once by his hut in the forest, he saw by chance the daughter of a king as she rode past with her cavalcade. He brought her a cup of water, and she smiled on him. So fair she was that he loved her to desperation and could not rest nor sleep from thinking of her face. He traveled far and came by night beneath her window and sang songs to her, songs delicate and beautiful, in phrases that only his great love had taught him, and when he sang he touched the strings of his own heart. The lady listened, and her tears fell down from the window in the palace wall. She was a great lady and he the lowest of the land, and in the hopelessness of his passion he sang that he was a prince of a hostile country, wooing in attire of rags the darling to whose presence he might not rightly come. His were not like the songs of the gilded courtiers that flocked her father's gate. They were more noble and true, and his love climbed upon them as if on stairs of gold and drew her heart out to him over the sill. One night she slipped out to his arms in the darkness. Then he knelt on the yellow forest leaves and told her the truth and pleaded as excuse his great love. And he would have gone from her and left her to go back alone."

"What then?" demanded Anne.

"She took his hand and kissed him and went away with him to his hut in the forest."

Both were silent a moment.

The vivid tints in the sky were paling. The river's silver dulled to mauve. The gloom, all luminous, seemed an impatient suitor stealing amorous upon the drowsy day. The day stirred, glowed again and spread out a tawny flood as a woman drops her hair under some golden lamp to please a lover's whim.

"Think you," he asked then very low, "that such a love might be?"

"'Twas for love of her," she said softly.

When he spoke again she felt a thrill in his voice.

"Mademoiselle, suppose a man loves with a love that fills all the sky; that for him there was but the one woman in the world. Suppose she found that he was not what she had thought him when she first loved him; that the idol she had worshiped was just clay. If he stood mean and small before the world—before her—but still loving her, adoring her! If it were not a princess going to a hut in the forest, but a woman prideful and—and ashamed! Could she still love him as before? Could she? Could she?"

Her eyes could not meet his burning ones.

"Monsieur," she said, quivering, "when a woman loves, she will forgive anything—everything—in the man she loves save"—

She stopped. There was a muffled sound of horse hoofs from the climbing road.

"Save what?"

"Save lack of love for her."

The hoof beats were coming nearer. She made a desperate effort to compose herself. He had bent toward her, so near she could smell the fragrance of hazel bushes in his hair.

"Then it would not matter, she would not care!" he cried joyously. "He might be either the prince or the woodcutter, mademoiselle?"

The last shaft of the sunlight stumbled and tangled on her brow. Dark loomed near. Only a gold brush was laid lightly upon the middle distance.

"If a woman loved and was loved so naught else would count, not even—even if he were despised by all the world—even"— Her lips were tremulous. She felt his hand on the bench beside her suddenly touch her own.

There was a trampling behind them. [illegible] Fairfax stood [illegible] welcome the [illegible] dismounted. The young man made an exclamation.

"Why," exclaimed Anne, "'tis the governor himself, returned from Fort Pitt!"

As they approached, the girl crimsoning with the memory of her night errand to the Winchester fort, the earl was bending bulkily over the hand of Mrs. Tillotson in the doorway.

"You honor my poor house with this visit," said the old man, beaming. "Anne, you know his excellency."

The governor bowed to her courtesy and set his eyes on the paler face of the figure at her side. First a low chuckle began in his throat; then he slapped his thigh.

"So that was how the land lay!" he guffawed. "Not content with quarreling with my soldiers, eh? And incognito yet, I'll be bound!"

The baron stood staring, and Anne looked a bit frightened.

The governor reached a thick arm and prodded the young man genially in the ribs.

"Sly dog, eh?" he winked. "Tut, tut! Would you still deny us poor Virginians? Haith, then, come here! Ladies, my Lord Fairfax, it pleasures me to present to you M. le Marquis de la Trouerie."

CHAPTER X.

The Marquis de la Trouerie was a huge success. Williamsburg's wealth and beauty vied in entertaining him, and no rout was complete without him.

At the Raleigh tavern, whose low wooden walls were kept a-throb with packs of new deviltries brought by young bloods of the navy from the sloop of war Fowey, come to anchor in York Roads, he was the center of observation when he diced. Commissions in the royal navy went for gold in that rotten reign, and their holders were younger sons with as much money to spend as the younger sons of the broad manors of Virginia.

Young Brooke, who, by aid of half the broken fortuned harpies and rooks of London, had long ago run through all he could lay hands on and whose talk was always, "When I hunted at Tunbridge Wells with my Lord This," or "When my Lord That had me at Hendron castle for Easter," had now nobility near at home to descant upon.

"A great man in France," he would enlighten the roomful, smoothing his ruffles, "favorite of Marie Antoinette's, they say, and as rich as John Dory. Egad, I'd like the pattern of the coat he had on this morning!"

As for the marquis, he took his honors quietly, superbly. More than once it was reported that he had dined privately with the royal governor, but he himself clearly thought it scarce worth mentioning.

An interesting story of a duel with Captain Foy gained currency for a time. The captain was said to have wounded the marquis slightly by foul means, but Foy was absent much of the time on business for the governor, and the story was forgotten save for the passing glamour it cast upon the new favorite.

The nobleman's preference for the beauty of Williamsburg was soon perceived, and very early Mrs. Byrd had begun to hint at broken hearts and the folly of young girls who set their eyes too high.

Anne herself was never so beautiful, never so brilliant, never so willfully captivating, as now, when a scarf of gayety hid the passion of many hearts fermenting.

On an afternoon they two, Anne and Armand, walked slowly under the pines that stretched down from the gateway of Gladden Hall.

Just before the martletted gateway he stopped.

"You are cruel to me, mademoiselle." His voice was anxious, vibrating, longing.

"Why cruel, monsieur?"

"Ah, I need not tell you that!" he said, looking at her earnestly. "Is it that I have failed? Am I not somehow what you would wish in—a nobleman? Is there something lacking?"

She shook her head. "No, no!"

"Yet something is different. I have searched so hard to find what it is. I have seen you at the routs and have danced with you, but you are not the same. At Greenway Court, there where the leaves were falling—I wish it could have been so always, us two, in the forest—you were kinder and not so cold to me!"

"Marquis!" There was a splendor of color in her face, bent sweet to him. Her eyes, tinted and lustrous, were gay beneath the warm glimmer of her hair.

"Marquis!" repeated the young man, flushing. "I was not that to you in the forest. I found then that you were not like the ladies of my land, who know naught save grandeur and titles, but that you could be above such things, that you were such a one as I have dreamed must be somewhere. I ask you only to be to me as you were then—as you were that day when the governor came back—when I sat with you on the hillside. Can you forget, mademoiselle, that I am not just the same that I was then?"

"You are so much more. Then I did not know who you were."

[illegible] he said. "I would have [illegible] you just the same as I had been—the same as when for one moment I held you in the broken coach, and that moment when I opened my eyes at Greenway Court and saw your face!"

She felt her hands trembling, her heart beating its way through her breast. His voice was very low as he went on:

"A man finds some time the one of all the world he would not have cold to him. He may never have seen her—her whom he has looked for all his life—the woman in his heart! But he always knows her when he hears her speak! He can never know when or where that may be. It is at the ball or walking in the street or riding in a coach. That day, mademoiselle—and it was before you knew—I was just M. Armand, not the Marquis de la Trouerie. I was not great then, but just a man—and unworthy!"

"No," she said, her tone tremulous; "not unworthy. That night at the tavern in Winchester—that was the bravest thing I had ever seen—the noblest! Do you think anything, anything, could make me forget that?"

"And you would have come to me! But now—but now"—

She looked at him with a little vibrant thrill of pride. How sweetly blind he was! "Now?" she asked.

"Now I can only ask you to remember that it was M. Armand, not the marquis, who knelt to you when you laid your hand on his head that night at Winchester, with the whippoorwill and the moonlight, and who told you—what he is trying to tell you now, what he tried to tell you when you saw him lying at Greenway Court, only you would not listen."

She turned to him a look that was all melting, all tenderness, all confusion of impulses, a look that caught him and held him spellbound.

"You kissed me," cried Armand in a triumphant voice. "You kissed me! It was not a dream! Look in my eyes."

She looked at him, paling, feeling her hands imprisoned in his own. He laughed with a low, fierce delight, for her breath was quick, her eyes like mist and fire.

"Do you love me?" he breathed, a sudden passion leaping in his voice. "Do you love me?" He caught her close to him. The whole world turned beneath her feet, and the stars shook. "My gold rose! Tell me! Is it so?"

She moved her head with a mingled gesture of pride, of shame of yielding, of assent. Then with a little cry, frightened yet joyful, she felt his arms, masterful, draw her close to him and stood trembling, joyous, a wave of love engulfing her.

"Answer me," he said. "The night we sat in the rustic house and the sun was a big red flower closing. You remember what I asked you?"

"Yes."

"If the man you loved—if I—should come to be mean and unworthy before the world"—

"But you are not."

"If I were?"

"My king!"

"If you saw me sneered at, despised, but still loving, still worshiping"—

"I would love you! I would love you!"

A light came over his face, brilliant and pale. "With the love that is the all, that is greater than the world, that is above station, above honors, above name? That outlasts them all?"

Her arms went up about his neck, and their lips met in a first long kiss.

"All," she whispered. "All! All! Louis! My beloved!"

* * * * * * *

Anne peered into the warm library of Gladden Hall, all aglow with her strange new delight. The fire was low, and doming embers made the dusk rosy and uncertain. She smiled as she saw the dim figure sitting with feet outstretched, just the top of the powdered peruke showing over the back of the big chair.

With her finger on her lips in that instinctive pantomime that belongs to woman, she stole across the floor on tiptoe and, swooping suddenly, clapped her cold palms over the eyes of the solitary occupant and laughed gayly as he started and put warm hands to her chill ones.

"I have a secret to tell you," she breathed with a fluttering laugh, "and you mustn't look at me when I say it. I wonder if any one in Virginia can be as happy as I am. The Marquis de la Trouerie—uncle, he has asked me to wed him"—

She ended with a subdued scream and, stumbling, went back a few steps, for the figure that had risen from the chair was not Colonel Tillotson. Even in the dim light as she retreated she could see the glare of flaming malice in his look and the sneer curling his full lips.

"I tell you, Captain Jarrat," she said in a wave of fierce anger, "I hate you! I hate your face and your crafty ways! Ah," she ended, stamping her foot, "no gentleman would have let me speak—would have listened."

"I am no marquis," Jarrat rejoined, with a ghastly smile. "I am only sorry I did not hear the end of that sweet confidence. The fair Mistress Tillotson answered that she would joy to wed the noble gentleman, I suppose."

"Aye, and if she did?"

He laughed—a jarring, mirthless [illegible] should wish her joy of the tinsel of her title."

"You mistake," she cried passionately. "An you were the king himself I would not look at you. The man I love I would wed the same were he poor and nameless and of no report—aye, a laborer in the fields instead of the nobleman he is!"

A voice in the hall struck across the quivering tones:

"Rashleigh, a bottle of my best canary, and stir your bones about it. Come in, come in, marquis. We shall have a glass to this, I promise you." The door opened, and Colonel Tillotson came forward, blinking in the blaze of the branched candlestick he carried.

"Ah, here you are, Anne, intrenched in the dusk with re-enforcements, eh? Well, the battle is over, and I have surrendered."

She had raised her hand to stop him. "Uncle," she warned, "you have a guest."

The colonel stopped at sight of the other in some confusion.

"Why," he exclaimed, "I am indeed sorry! Rashleigh, you black rascal, why did you not tell me the captain was here?"

"I did but call to bear a message to your niece, colonel," Jarrat answered.

"I have delivered it. I must offer apologies for being an intruder at such a moment."

"Tut!" said the colonel. "Rashleigh, set that tray here. Another glass for the captain. Captain, we drink unending happiness to a fair woman and a gallant cavalier."

Jarrat raised the slim glass with its topaz liquid, and his smile lingered darkly on Anne's face, still anger white. The smile hid a quality that made her shiver.

"A fair woman," he repeated, "and—a noble gentleman! What more pleasant toast? Now must I leave you and back to Williamsburg. Mistress, I kiss your hand. Marquis, my most blithe felicitations. Colonel, I beg you will not disturb yourself. I will get my horse myself. Gentlemen, I bid you good day."

CHAPTER XI.

The tension in Virginia was grown thin. Again and again the burly Earl of Dunmore prorogued the assembly on the pretext of popular excitement. The burgesses submitted with a bow, and the fiddles played in their town houses. Dunmore thought himself a diplomat and went on wining his Tory favorites at the palace. But under the music was an ominous muttering.

News came of the king's speech on the opening of parliament. The colonies' protests were "unwarranted attempts to obstruct the commerce of this kingdom by unlawful combinations" and showed "a most daring spirit of resistance and disobedience to the law." This pronouncement was received in Williamsburg with an intense astonishment.

And what, meantime, had Henry been doing?

Her arms went up about his neck.

Restless, eager, he had ridden hither and thither like a sallow shadow—at courthouses calling the minutemen, overseeing the election of the committees recommended by the congress, at Alberti's poring over lists with Jefferson, uniting north and south in a network of nerves, laboring, tireless and convincing.

It is a thing to note, since rebellion commonly springs from the people rather than from the quality, that it was contrary in Virginia. There the aristocracy was not Tory. There were few enough, like my Lord Fairfax, who, born noble, held nobly to their loyalty. Those who held with the king, besides the toad eaters, were for the most part the lower classes, officeholders, tradesmen who looked for sales, lawyers just over from London. The stanchest rebels were the great landed planters. Sedition was in the club room and the parlor. One must to the tavern bar for toasts to the king.

And so came about this strange thing: That Williamsburg, the miniature copy of the court of St. James, aping the manners of the royal palace, its old church graveyard and college chapel standing for Westminster abbey and St. Paul's—that this spot should prove "the heart of the rebellion." If this fact alone remained it might well make the world wonder at the enduring blindness of the king's ministers and whether God had not indeed covered their eyes because he would have it so.

It was little George cared for the actions of the first congress, halting, ineffectual, or for the petitions of British merchants. He had set his jaw. In vain the Earl of Chatham moved in the house of lords to withdraw the troops from Boston. Instead the colonies received a bill offering pardon to repentant rebels, and the patriots of Virginia heard with shocked surprise that this excepted Patrick Henry!

On the day this news was printed in the Williamsburg Gazette Henry and Jefferson met at Alberti's and set out on horseback for Richmond. There, in St. John's church, the new Virginia convention, mindful of the bloody threats of the sinister governor, had elected to meet, and thither had gone a half of Williamsburg, leaving Dunmore with his troops at his palace to bite his nails in impotent anger.

The 23d of March dawned over Richmond's unwonted bustle in a quivering wizard haze of intense blue, where cloud puffs swam like lazily pluming swans. Anne had arrived the night before at Goochland and drove in that morning in the Payne chariot. Spring was up, the earth quick with it. All along the way wild crab apple boughs droned with clinging bees, and by the snake fence rows of peach trees had pitched their tents of bloom.

She met Henry in front of the Indian Queen inn and walked with him up toward the churchyard, now filling with a vast throng.

"Tell me," she questioned eagerly, "Will it come today?"

He looked down at her with that rare smile which seemed to be the higher part of him, gilding and transfiguring his other self. "What faith you have in me!" he said.

"I know," she answered. "I have seen it in your face. No one in Virginia can do it save you—none of them. It must be the voice before the arm."

"The spark before the explosion," he muttered, "and the train is nearly laid." His hands moved restlessly.

"I have longed—prayed—for some new overt act of Dunmore's that should be spark to powder. But he lies low. And it must come from us. You were right when you said that last fall at Winchester. Boston is trodden on, but she lies quiet. The colonies look to us. It is the voice of the south, of Virginia, that is wanting."

He stopped. Jefferson was hasting toward them. He bowed to Anne.

"Have you heard the buzz from London?" he asked Henry hurriedly. "'Tis all among the delegates. 'Tis declared that our petitions to the king are graciously received, that all the acts will be repealed save the admiralty and declaratory and that North and Dartmouth will be replaced."

"Aye," burst Henry fiercely. "Another Tory tale! And they will waver again. Tom, Tom, it must be now or never!"

He stopped abruptly and strode across the churchyard over the matted ivy on the shrunken mounds and, threading his way between the old slate tombstones, upright like black lichened coffin lids, entered the edifice.

* * * * * * *

From her seat in the west gallery, whither Jefferson had taken her, Anne surveyed the scene below.

To be continued.

He Will Speak on "The Empire"

Rev. Dr. Crothers Will Deliver Address on Thursday Night

As has been announced Rev. Dr. Crothers will deliver the address on "The Empire" at the Englishmen's night of the Young Conservative Club.

Mr H. R. H. Kenner, B.A., will give a five minutes' talk on "The Beauties of Rural England."

Mr W. H. Denham will sing "When the Ebb-tide Flows."

Lt.-Col. Miller will recite "The Flag."

Mr. F. Clarke, the well known jeweller, will render several selections on the banjo of which he is a master, and Mr. Coleman, the caterer, will be heard in character songs.

There are many other items of a like attractive character. It is one of the club's open nights, and all Englishmen, especially recent arrivals, are cordially welcome. Later on an Irish and a Scotch night are to be given but in the meantime some to this one. Bring your pipes and have a good time Thursday night.

An Optician May Visit the Schools

Mr. Babcock, the local optician, was granted permission at the Board of Education meeting last night, to visit the schools of Peterborough, and examine the eyes of the pupils. Mr. Babcock asked that this privilege [illegible] no cost to the Board [illegible]

Mr. Dumble brought up the matter, and referred to the large number of pupils who suffered from affections of the eye, decayed teeth, etc., on account of the lack of inspection. There was some discussion on the matter before the above action was taken.

Mr. Pringle registered an objection to the action taken, not against the principle of it, but he did not think it right that one man should be given the preference. There was more than one optician in the city and it was not fair to discriminate.

WEDDING BELLS

HARPER—GAGE

A very pretty wedding was solemnized at the parsonage of the George street Methodist church last night at half past six, when Miss Letitia Gage, daughter of Mr Robt. Gage, of Glasgow, Scotland, became the bride of Mr. Geo. H. Harper, son of Mr. Robt. Harper, city. The ceremony was performed by Rev. Dr. Crothers. The bridesmaid, was Miss Florence Harper, sister of the groom, while Mr. R. D. Harper assisted his brother, the groom. The happy young couple will make their future home in Chicago, where they will be followed by the good wishes of many Peterborough friends

Winners of the Nicholls Prizes

Principal Fessenden has Received Names of Successful Pupils

At the meeting of the Board of Education last night a communication was received from Principal Fessenden of the Collegiate Institute, to the effect that he had been informed by the Minister of Education that the Nicholls prizes competed for at the Departmental Examinations here last July had been awarded as follows;

1. Senior Leaving and Matriculation, $50.—Miss Emma Kelles.
2. Junior Leaving, $15, W. P. Harvey
3. Junior Matriculation, $15. —Bruce Ingham.

Short Session of City Council

Two Reports Received and One By-law Was Passed

The Council held a short session last night after the committee of the whole had finished. The only object was to pass a couple of reports from the Fire, Water and Light committee, which has already been reported, and and the committee of the whole, which only embraced the matter taken up last night. A by-law authorizing the execution of an agreement with the Bell Telephone Company re the new fire alarm system was also signed and sealed. The only other business was reading a few communications which were referred to their respective committees.

NEW DRESS MAKING PARLORS
Miss Hazard, formerly with J. Sutcliffe & Sons and Robt. Fair & Co., has decided to open dressmaking parlors at 238 1-2 Simcoe street two doors west of Aylmer street. Special attention will be paid to elderly ladies' requirements and all work will be done in Miss Hazard's usual satisfactory manner.

Samples of Milk Sent to Toronto

Sanitary Inspector Ball Forwarded Them on Saturday

Yesterday the Review was informed by Sanitary Inspector Geo. Ball that he had already taken several samples of milk which is being delivered by the milkmen to the citizens. Some samples were taken last Friday and some on Saturday, and they have all been sent to Toronto to be analyzed. As soon as the report is returned it is probably that the Board of Health will be called together and the report made public. Sanitary Inspector Ball was not slow in getting busy. He did not wait for complaints to be made.

It might also be stated that the inspector is not only looking after the milk, but he has visited several of the famous alleyways, cellars and scrap heaps and as soon as the frost is out of the ground there will be something doing around the city.

Railway Men Enjoy Day of Rest as Result of New Act

How Lord's Day Law is Working in Havelock—C.P.R. Employees Enabled to Attend Church--Only Trains Carrying Perishable Goods Run on Sunday.

Special to the Review.
Havelock, March 11.

The Lord's Day Law came into force here yesterday, when all the employees of the C.P.R. ceased from work, except a few whom it was necessary to keep on. No trains came in or went out except those carrying perishable freight. A great many here are in favor of this law, which thus allows them a day of rest once a week on which to recruit for the work of the coming week.

Before, the majority of the employees had to work both on Sunday and on Sunday night. The only fault to be found with the new system is that the men who go out on Saturday night have to stay at the other terminal during Sunday, and are not thus allowed to spend Sunday at their homes. One good feature of the new law was shown yesterday by the increase in the number of men attending church. The new law so far as can be seen, is sure to be a great benefit, both to the C.P.R. in one way, and to their men, also.

Peterborough Teachers to Receive Better Salaries

New Schedule Will go Into Effect September 1st, 1907—Supervision Committee Reported at Last Night's Meeting of the Board of Education.

The Public School and Collegiate Institute teachers of Peterborough will receive an advance in salary, commencing September 1st of this year. This will be welcome news to the pedagogues of the city who in the past have not been sufficiently remunerated for their services, especially in comparison with the salaries that are being paid in other places.

In accordance with the motion passed at the last regular meeting of the Board, the Supervision Committee last night brought in a report dealing with the question of teachers' salaries. The report embodied a new schedule for Public school teachers' salaries, and was adopted, after a brief discussion. The increase is a substantial one, but it only brings the remuneration of [illegible] places of equal [illegible]

The report was read by Mr. Pringle, chairman of the Supervision Committee, and was as follows;

THE SCHEDULE

To the Chairman and Members of the Board of Education;
Gentlemen;

Your Supervision Committee, to whom the question of teachers' salaries was referred, beg leave to report as follows;

1. That the schedule of 1906 is hereby repealed, and the following substituted therefor, to take effect on the first of September, 1907;

Male principals, 8 rooms and over, must have at least First Class Professional. — Minimum, $1,000; maximum, $1,200.

Other male principals, must have First Class Professional. — Minimum, $800; maximum, $950.

Male assistants, First Class Professional. — Minimum, $700; maximum $900.

Male assistants, First Class Non-Professional. — Minimum, $700; maximum, $850.

Male assistants, Second Class Professional. — Minimum, $700; maximum, $825.

Lady assistants, First Class Professional. — Minimum, $400; maximum, $600.

Lady assistants, First Class Non-Professional. — Minimum, $400; maximum, $575.

Lady assistants, Second Class Professional. — Minimum, $400; maximum $550.

Kindergarten Directors, Directors' Certificate. — Minimum, $375; maximum, $500.

Kindergarten Assistants, Directors' Certificate.—Minimum, $300.

COLLEGIATE INSTITUTE

Principal, Specialist and University. Honor Graduate. — Minimum, $1600, maximum, $2,000; increase, $80.

Heads of Depts., Specialist and University Honor Graduate. — Minimum, $1,200, maximum, $1.500; increase, $60.

Commercial, Specialist. — Minimum $1,000; maximum $1,200, increase, $50.

Assistants, Graduate. — Minimum $800, maximum, $1,000; increase $50.

Inspector Walker. — Minimum, $1,600; maximum, $2,000; increase $100

We further recommend;

2. That only male teachers shall be engaged as principals, and that, in future, no teacher, other than those now engaged as principals, shall be appointed to the position of principal in any school unless he is the holder of a first-class professional certificate, at least.

3. That in the appointment of assistants, no applicant shall be considered, who does not hold at least a second class professional certificate and that preference shall be given in such appointment to holders of first class professional certificates.

4. Male teachers to receive an annual increase of $50 per annum.

5. Lady teachers to receive $50 increase for the first two years, and $25 increase per annum thereafter.

6 Kindergarten directors to receive $25 increase per annum.

7. Kindergarten assistants to hold Director's certificates, and no increase.

[illegible] inefficient and the case of any teacher so reported shall be carefully considered by the Board before such teacher can be re-engaged.

9. Teachers entering upon the duties during the spring term of any year shall have their increases date from the first of the following January. Teachers entering upon their duties during the fall term of any year shall have their increases date from the following September.

10. All teachers who have been engaged on the staff for one year or more shall, if re-engaged, receive for the year 1907 and 1908 one year's increase over the minimum assigned by this schedule, and all others shall be placed on the new minimum.

11. That no teacher shall receive less salary under the present schedule than under the schedule adopted by the Board in June, 1906.

All of which is respectfully submitted

WM. PRINGLE,
Chairman.

The adoption of the report was moved by Mr. Pringle, and seconded by Mr Ackerman, and carried.

Before its adoption, however, Mr. Pringle explained, that unless better salaries were paid the Board would not be able to retain their teachers. He had figures showing the minimum and maximum salaries paid teachers in Ottawa, Toronto, St. Thomas, Windsor and other cities, which were all above those paid to Peterborough teachers. He also pointed out that teachers out in the country, in the vicinity of this city, were obtaining larger salaries than those here.

Mr. Dumble proposed that the question be left over until next meeting to give an opportunity to consider it.

Messrs. Robinson and Hill did not think it was necessary to delay the matter any longer. The committee had gone into the matter most carefully, and no mistake would be made in adopting the report without further discussion.

The chairman and Mr. Hayes also took this view of the matter, and the report was adopted.

Routine Business of The Board of Education

School Attendance for the Month of February—Many Accounts Dealt With--Other Business.

The Board of Education held a regular meeting last night, at which were present Messrs. Fair, chairman, Dumble, Hill, Pringle, Robinson, Ackerman, Hayes, Crane, Dr. Morrison and Dr. Burnham. There was considerable business on the order paper, but the board wasted no time and finished up at an early hour. The members of the board are to be commended on the businesslike manner, in which questions coming before them are handled.

COMMUNICATIONS.

Among the communications received by the board were the following,

From the City Council, inviting the Board to confer with the City Council, in committee of the whole, regarding the improvements to the Nort Ward school.—Decided to wait on the council at once.

From Machine Telephone Company submitting a proposition to install telephones in the office of the P. S. Inspector, and in the schools of the city, at a cost of $15 per phone per annum. Referred to the Supervision Committee with power to act.

From John King, Wm. Head, and H. T. Cobb, asking for the position of janitor to the King Edward school. Referred to the Committee on Appointments.

From the Chairman of the Board of Education of St. Marys, asking the Peterborough Board to co-operate with them in waiting on the Government, in regard to monetary assistance from the Government to urban as well as rural schools. In connection with this matter, the chairman was given authority to appoint a delegation to join deputations from other schools to memorialize the Government regarding this matter.

The communication from the Machine Telephone Co. was referred to the Finance Committee.

MUST RESPECT LORD'S DAY ACT

Mr R. E. Wood, County Crown Attorney, is in receipt of the following letter from the Deputy Attorney-General with respect to the new Lord's Day Act:—

Dear Sir,—I am directed to call your attention to the fact that the Dominion Lord's Day Act passed in 1906 is now in force. By section 15 of the act no action or prosecution is to be commenced without leave of the Attorney-General for the Province, nor after the expiration of sixty days from the time of the commission of the alleged offence. The act is intended to secure so far as possible a proper observance of the Lord's Day, and with a view to prevent the necessity of prosecutions it would be well to let it be understood that the law is one which must be respected.

If you call the attention of the Department to any violation of the statute which comes under your notice, and furnish particulars, the matter will receive immediate attention.

Yours truly,
J. R. CARTWRIGHT.
Toronto, March 7, 1907.

Convention of City Teachers

Will be Held in Peterboro' on May 22 and 23

At a meeting of the Executive of the City Teachers' Institute held last night, it was decided to hold the Teachers' Convention in Peterborough on May 22nd and 23rd.

AN AFTER EFFECT

To the Editor of the Review.

Sir,—The far-reaching effect of Barton Earle's letters like Tennyson's brook, go on forever. While they have not shaken my loyalty as an Englishman, I am afraid that in some quarters they have had a bad effect. Our local poet in his last contribution to Canadian poetry, as published in your paper of yesterday, signs himself a Canadian, notwithstanding that he is an Englishman. Let us be thankful that he did not write himself down a Chinaman.

Yours,
CANADIAN.
Peterborough, March 12, 1907.

TAKE YOUR CHOICE

To the Editor of the Review.

Sir,—The mandate for cleaning the sidewalks having gone forth, the shopkeepers and others proceeded at once to comply therewith. To show the unreasonableness of the order, there is no possible way of getting rid of the ice without using an axe. I see by your paper of yesterday, that a man used an axe, and was fined five dollars for his compliance with the law. What are we to do?

REASON.

Queen Alexandra has cabled to the Governor-General expressing admiration at the heroism of the late Miss Sarah Maxwell at the Hochelaga fire.

SIGNALLING CLASS IS ON

Organization Meeting Last Night —Kingston Man in Charge

The signalling class in connection [illegible] ed last night at the drill hall. Lieut. A. M. Stroud, District Signalling officer, and Sergt. Crowley arrived yesterday from Kingston and will be in charge of the class. About thirty-five members of the regiment including officers, non-coms and men, were present last night and joined the class. Lieut. Stroud gave a short talk outlining the signalling course and the flags to be used were given out. It was decided to meet three times a week, on Monday, Wednesday and Thursday nights.

The class is open to all ranks of the regiment, not the officers and non-coms alone, as some people are under the impression.

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10.00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

PERSONAL

Mrs. Dr. Neal will not receive again during March.

Mr. H. Snelling, of Prescott, is in the city to-day.

Mr. J. McFarland of Warkworth, is in the city today.

Mr. Sidney H. Mitchell left last evening for Cobalt.

Mr. J. M. Watson of Morrisubrg, is registered at the Snowden House.

Mr W Martin has returned home from Toronto, where he spent Sunday.

Mr. James Dolan left this morning for Chicago, called there by the illness of his wife who is suffering from an attack of pneumonia.

Lindsay Post; Mr. Reginald H. Turner, representing J. J. Turner & Sons, tent and awning manufacturers, Peterborough, was in town today—Mr. Doug. Paton, of the Home Life Ins. Co., Peterborough, spent Sunday in town.

Mr. W. A. Buchanan, proprietor of the Lethbridge Herald, has been appointed Provincial Librarian of Alberta, at Edmonton, and will remove to that city. He still retains his newspaper interest. Mr. Buchanan, is an old Peterborough boy, and is to be congratulated upon his good luck.

Mr. P. C. Nicholson, who for some months past has been the energetic advertising representative and window dresser for Mr. A. W. Cressman, has resigned his position and will leave in a few days for Grand Rapids, Mich., where he has accepted a situation as advertising manager in a leading departmental store. Mr. Nicholson intends in the near future to establish an advertising bureau in Grand Rapids. Many friends will join in wishing him every success in his larger sphere of labor.

Employee Had Hand Badly Cut

Met With Painful Accident While Working at Circular Saw

Mr. Albert Sheppard, McDonnel street, an employee of the Machine Shop of the Wm Hamilton Manufacturing Company, met with a painful accident this morning. He was sawing a board at a circular saw, when by some means his hand came in contact with the saw. The result was that the fingers were badly lacerated. The ends of the first and second fingers of the left hand had to be amputated. The third and fourth fingers are also cut but will be saved.

They Will Hold Birthday Social

Interesting Event Arranged at Y.M.C.A. for March 19th

At the meeting of the Ladies' Auxiliary of the Y.M.C.A. last evening it was decided to hold a social in the form of a birthday party on Tuesday evening next, March 19.

A choice programme will be given and refreshments will be served.

It is expected there will be a large attendance. Each lady will bring a bag containing as many cents as she is old.

OBITUARY

THOS. MARTIN, M. P.,

Word was received in the city today that Thomas Martin, M.P. for North Wellington, who had been ill for some time, passed away in the Capital today. The deceased lived in Mount Forest, Ont., where he was a prominent oat meal miller and grain merchant. He succeeded Hon. James McMullen as the representative of the Liberal party in North Wellington in the House of Commons.

George Thompson, a miner at Cobalt, had his head blown to pieces by an explosion of dynamite.

Religious Instruction in The Schools of Peterborough

Discussed at Last Night's Meeting of the Board of Education—Ministerial Association Referred to Provincial Act.

The question of introducing religious instruction into the schools of Peterborough was dealt with at the meeting of the Board of Education last night. No material action was taken regarding the matter, the Ministerial Association being referred to the provincial act governing religious instruction in the Public schools. The question was brought up by the reception of a communication from the Peterborough Ministerial Association requesting the Board to take into consideration the introduction of undenominational, but definite religious instruction in the schools of the city.

When the matter was brought up Mr. Dumble, on ascertaining that there was a provincial act governing the question, said that he considered the proper thing to do would be to refer the Ministerial Association to the Act and to leave it in the hands of the ministers to suggest what could be done.

Mr. Robinson was of the opinion that the Board should not deal with the matter at all. The pupils were crammed enough at school at the present time without adding anything further to their studies. He did not think that parents would want their children to remain at school after four o'clock in order to receive religious instruction.

Dr. Morrison's views differed from those of Mr. Robinson. He thought that, perhaps, enough attention was not paid in the schools to the higher things of life. He was willing, however, to refer the ministers to the provincial act which states that ministers may give religious instruction in the schools, but not during the regular school hours.

After some further discussion it was moved by Mr. Dumble and seconded by Dr. Burnham, that the Ministerial Association be advised that the Act provides for religious instruction to Public school pupils, and this Board approves of the suggestion of the Ministerial Association and leaves it to the Association to arrange for such religious instruction subject to the terms of the School Act.

The Minister of Public Works Annual Report to Parliament

Dredging in the Otonabee River in Peterborough—Work Along the Entire Route of the Trent Canal—S. Clegg's Report on Boom and Slides.

The report of the Minister of Public Works for the Dominion of Canada, up to the end of the fiscal year, ending June 30, 1906, was received this morning. It contains a report from the Deputy Minister, the Chief Engineer and the Chief Architect; also a report on the Trent and Newcastle District Works, S. Clegg, Superintending Engineer.

[illegible]

With reference to the report on slides and booms, it may be here stated, that, towards the end of the fiscal year, the whole of the Trent and Newcastle works were transferred to the control of the Department of Railways and Canals, with the exception of the slides at Fenelon Falls, and Burleigh, which still remain under the control of this department as regards the passage of timber through these slides. The whole of the Trent River for the purposes of navigation is now controlled by the Department of Railways and Canals.

CHIEF ENGINEER'S REPORT.

Otonabee River is an important waterway through the town of Peterborough, and County of Peterborough, and empties into Rice Lake. It forms part of the Trent Valley Canal system.

At the last session of parliament, the sum of $12,000 was appropriated for dredging, and on October 30 last, authority was given to have the work performed. The dredge Trent belonging to the department of Railways and Canals was used to do the work, which commenced on October 27, and continued up till June 30, and is still in progress. It consists in dredging a channel between Hunter street bridge and the C. P. R. bridge on the west side of the river. The channel is to be 100 feet in width by eight feet deep.

Total expenditure for the fiscal year, 1905-6, $11,967.02.

Bensfort.

Bensfort is a small village on the Otonabee river, distant about fourteen miles south of Peterborough.

At the last session of Parliament, the sum of $850 was appropriated for the construction of a wharf, and on July 18 last authority was given to proceed with the work by day labor.

Work was commenced on July 27, and completed on Sept. 16 last, and consisted in the construction of a wharf with an approach 48 feet long by 12 feet wide, composed of cribs and spaces with an "L" on the outer end 20 feet by 40 feet.

Total expenditure for fiscal year, 1905-6, $847.66.

Crowe's Landing.

Crowe's Landing is situated on the south shore of Stoney Lake, distant 22 miles northeast of Peterborough, and is a small summer resort.

At the last session of parliament, the sum of $1,500 was appropriated for the construction of a wharf at this place, and on July 26, authority was given to expend the amount by day labor.

Work was commenced on September 16, and completed on June 25, and consisted in the construction of a crib 80 feet by 30 feet, with a stone approach.

In doing the above work some 17,172 feet b.m., cedar, 9,633 feet, b.m., hemlock and 175 lbs. iron were used.

A right-of-way was purchased from Mr. Chris. Crowe, for the sum of $250.

Total expenditure for fiscal year, 1905-6, $1,491.51.

Port Hope.

Port Hope is situated in the County of Durham, on the north shore of Lake Ontario, 63 miles east of Toronto, on the Grand Trunk Railway, and has population of 4,188. The chief trade is in lumber and grain.

At the last session of parliament the sum of $5,000 was appropriated for repairs to the piers, and on July 26 last, authority was given to proceed with the work by day labor.

Work was commenced on Sept. 4 and completed on June 30, and consists in rebuilding the wharf north of the freight shed for 192 feet in length by 32 feet in width and 5 feet in height, 60 feet of which had to be built under water and filled with stone. The breakwater was also repaired, and the planking relaid, from the shore to the warehouse. To the south of the warehouse, some 270 feet in length by 16 feet wide and 5 feet in height was also reconstructed. The west pier has been [illegible] long by 16 feet wide and 8 feet in height.

Total expenditure for fiscal year, 1905-6, $5,005.11.

Severn River.

Severn River (McDonald's Chute) is situated not far below Sparrow lake, and consists of a narrow gorge in which the waters were obstructed by a joint of rock, jutting out into the stream.

At the last session of parliament, the sum of $500 was appropriated for the removal of the obstruction, and on July 26 last authority was given to proceed with the work by day labor.

Work was commenced on October 11th and completed on December 11, and consisted in removing obstruction of rock and earth from easterly channel leading into and at the head of McDonald's Chute and removing part of obstruction on the west side of the river at the head of the chute. The portion of rock removed measured three feet deep by 36 feet long and 28 feet wide, and the earth two feet deep, eight feet wide and 150 feet long.

Total expenditure for fiscal year 1905-6, $500.

CHIEF ARCHITECT'S REPORT.

Addition to post office at Peterborough—A brick addition, 19 feet by eight feet, one storey in height was built at one end, to furnish additional office space for postmaster and also a new lobby. There was also a concrete platform and steps. Work supervised by Wm. Blackwell, architect. Contractor D. Belleghem.

REPORT ON THE TRENT AND NEWCASTLE DISTRICT WORKS

S. Clegg, Superintending Engineer
Peterborough, August 29th, 1906.
Eugene D. Lafleyrm Esq.,
Chief Engineer,
Department of Public Works.

Sir.—In accordance with your circular letter of July 16 last, I beg to submit the following report for the fiscal year ending June 30 last. These works extend from Chisholm's Rapids, on the Trent River, to Fenelon Falls, on Cameron Lake, a distance of about 150 miles.

Healey's Falls—The slide here is in a fair state of repair, the stop-logs put in by the Rathbun Co. in 1905 were too small. The timber was too light to make good logs and they were soon all broken and gone out. Had a new set of logs put in in the spring so as to be able to regulate the water and keep it up to navigation level.

Hastings.—The works here are in fair repair, the boom was overhauled and put in position for the season and some minor repairs done.

Little Lake, Peterborough.—There is about one-half mile of double boom and four glance piers. The boom was taken off for the winter and replaced in the spring for the season's operations and some repairs done. One of the piers was rebuilt from the water line with timber and stone filling, but sheeting on two sides to protect it from the ice-shove in the spring.

Ketchewannoe Lake.—The boom here extends from Lakefield to Young's Point, a distance of about four miles. The boom was considerably damaged by the ice and wind in the spring; quite a number of the chains were broken; the anchors were dragged and some of them lost. Had the boom put back in position, new chains and anchors were required and the whole of the boom overhauled and put in first-class repair.

Three piers in Ketchewannoe Lake were rebuilt from the water line, stone filling put in the other piers where required.

Clear Lake, Young's Point.—There is about one-quarter of a mile of double boom and three glance piers. Had the boom repaired, put in new chains and one large concrete anchor. Rebuilt the three glance piers with concrete tops, they were from 12 to 30 inches under water, raised them up to about 2 feet above high water and put on new iron snubbing posts.

Burleigh Falls.—The works here are in good repair. Had the side dam at the old slide rebuilt and new planking put on; put in one new glance-pier for the stiff boom, built a stone approach from the north end of the stiff boom to the shore.

Lovesick Lake.—There is about a half mile of boom and three piers. The boom was taken off in the fall and put in winter quarters, replaced in the spring; some new chains put in and minor repairs done. Some stone filling put in the piers.

Deer Bay.—The booms here were repaired and put in position for the season.

Buckhorn.—The boom here was placed in position for the season and some minor repairs done.

Fenelon Falls.—The works here have been put in good repair. Put new stop-log posts on the down stream side of slide. Rebuilt the side pier on the down stream side, put new hardwood sheeting on the side pier; put a new platform over slide with pine timber and planking, new tracks for stop-log winches, rebuilt the approach to slide with cedar timber and pine planking.

REPORT ON RIVER SAGUENAY.

In 1904-5 the sum of $24,938.16 was expended for the construction of piers and booms on the Saguenay River.

The expenditure during the fiscal year ending June 30, 1906, was $20,253.42 for the construction of booms and $1,566.82 for maintenance.

The works consist of five piers and 95,000 feet of booms.

The booms are built of British Columbia pine, 12x12 and of three pieces each.

Splendid Meeting at Park Street

Evangelist Torrie Delivered Forcible Address Last Night

The Park street Baptist church revival continued last night. A most [illegible] large congregation [illegible] al." Evangelist Torrie said that Jesus was a silent sufferer. Darkness was over the earth for three hours but infinitely greater was the darkness over His soul. Jesus stood in the place of the adulterer. The thief and the murderer were allied to Jesus, yet the guilty go free. Christ's humanity said innocent, His love said guilty.

The Torrie and Alexander songs went with a swing. The Y. M. C. A. male quartette rendered most acceptable service.

The after meeting was very solemn. Quite a number rose in different parts of the church in response to the evangelist's appeal, who afterwards received help from the workers. Song service tonight at 7.45. Prayer meeting at 7.30. All interested should rally early and come prepared to take part.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

A MAGISTRATE'S EVIDENCE IN FAVOR OF ZAM-BUK

MR. PERRY J.P.

Read carefully the evidence of Magistrate Perry given below and you will find that judged by men of experience who are fully qualified to decide. Zam-Buk more than fulfils all that is claimed for it.

"The Pavilion,"
Goldfields, B.C.

After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in their home. It truly does even more than you claim for it. For my own part I would not now be without it in the house. Yours very truly,
ROGER F. PERRY,
Justice of the Peace for B.C.

Facts About Zam-Buk

Zam-Buk is different to the older ointments and salves in being purely herbal, without trace of animal oil or fat.

Zam-Buk applied to an open sore will immediately kill all disease, germs and prevent festering, suppuration or blood poison.

Zam-Buk has penetrating power as well as healing power and used as an embrocation quickly cures rheumatism, sciatica and neuralgia.

Zam-Buk by its miracles of healing has won the praise and confidence of magistrates, doctors, nurses, and men and women who KNOW. Test it at our expense.

FREE BOX

This coupon and 1c. stamp sent to Zam-Buk Co., Toronto with name of this paper will ensure you a free trial box.

3Z2

Zam-Buk Cures eczema, face rashes, ulcers, abscesses, cuts, bruises, Spring eruptions, running sores, poisoned wounds, chronic sores, etc. It is also good for piles and enlarged veins. As an embrocation it cures rheumatism and sciatica, colds on the chest, etc. All druggists and stores at 50c. a box, or from Zam-Buk Co., Toronto, for price. 6 boxes sent for $2.50.

ZAM-BUK
THE GREAT SKIN-CURE

Havelock Residents Discuss Plan of Paying for Sidewalks

Some Favor Frontage Tax and Others the General System--An Immense Pine Tree Cut Down--Authorities Discover Important Clue Regarding Recent Burglary--Other News of Interest.

Havelock, March 11, 1907.

There is considerable discussion at present among the village ratepayers as to which is the best way of putting down cement sidewalks. Some favor the frontage tax, where the person pays a certain percentage of the cost when the walk is put down in front of their residence, while others are in favor of a general tax where all the ratepayers are taxed. In a general tax some of the ratepayers have to pay for sidewalks on which they seldom, and sometimes never walk. They may not have cement sidewalks in front of their place, while another man has, and yet each have to pay the same amount of taxes. Some are not in favor of a frontage tax because it necessitates the paying of a large tax in one year, while in a general tax they have several years to pay it. At the last meeting of the Council the matter was taken up and thoroughly discussed, but no definite way of taxation was set.

On Tuesday last 300 immigrants, from England, passed through by special train en route to Toronto.

The Havelock Electric Light and Power Company, Limited, will hold their annual meeting in the Council Chamber at 2 o'clock, on Monday, March 18th.

Mr. John Overend spent Sunday last with his brother in Campbellford.

LAID TO REST.

On Thursday last the remains of Loyd Kuriwasser were laid to rest in the Maple Grove cemetery. Private service was held at the residence of his parents, Quebec street, and afterwards public service was held at the Methodist church by Rev. Mr. Lock. The funeral was attended by about 25 of the Railroad Brotherhood from Toronto Junction. The many floral wreaths showed the great esteem in which this generous, manly and noble young man was held by all his friends and relatives.

A GIGANTIC TREE.

A pine tree, one of the monsters of the north, felled on the Charles Easton farm, at lot 19, con. 6, Belmont, recently, produced 3,424 feet of first class lumber. It was drawn out by F. Brackenridge's heavy team and cut up by Asheley & Son.

OTHER NOTES.

Mr John Knox, of town, was reappointed License Commissioner for East Peterborough by the Government.

Mrs. D. T. Somerville has returned to her home in Lotus, having been visiting her parents, Mr. and Mrs. Jas. Watson, for the past few weeks.

Mr John A. Garratt attended the memorial service in Toronto on Wednesday in honor of the late Dr. Oronohyatekha.

Messrs. F. Doherty and John Reynolds, of Norwood, spent Sunday in town.

Miss Ella Johnston, of Norwood, spent Friday in town, the guest of Miss A. Holcombe.

Miss Stewart has been engaged by McMaster & Oliver to attend the telephone office.

NEW BANK TO OPEN.

There is great talk at present of a branch of the British North American Bank starting in the Jeffs block, when Mr. A. C. Denike has moved out.

Mr. Wm. Andrews spent Sunday with friends in Campbellford.

SPRING AT HAND.

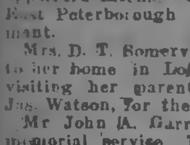
The snow has nearly all disappeared from the main streets in the village, and as the farmer draws in his heavy load of wood across the patches of bare ground he no longer hums the tune of "Merrily over the Snow we Go," but instead, falls back to the tune of "I'm Tired, so Very Tired."

Mr Wallie Rose, of Toronto, spent Sunday at his home here.

A special train went through here on Sunday evening carrying a number of immigrants. "Only perishable goods to be carried on the C.P.R. on Sunday."

The License Commissioners for East Peterborough will meet in the office over G. A. Williams' store, on Saturday when the appointments will be considered and general business transacted.

It has been reported that the officers who have been in search of the miscreants who burglarized F. C. McMaster's hardware store on Friday night, March 2nd, have found an important clue to who it was.



Wood's Phosphodine,
The Great English Remedy. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (formerly Windsor) Toronto, Ont.

Revival Services at George Street

Most Encouraging Series Opened Last Night—Good Attendance

The first of the series of evangelistic services was held in George street church Sunday school room last evening.

There was a good attendance the gathering was of a most encouraging character. The singing was hearty and was led by Mr. W. E. McCann, assisted by several members of the church choir. Rev. Dr. Crothers, delivered a stirring and impressive address from the words found in St. John's gospel, fourteenth chapter, "Ye are my friends if you do whatsoever I command you." The doctor spoke on the friendship of Christ and the necessity of all accepting Jesus as their friend and helper, counsellor and saviour.

The services which will be continued every night except Saturday begin at 8 o'clock. There will be a fifteen minutes song service previous. The gatherings will close each evening a few minutes after 9 o'clock. The public is cordially invited to attend these meetings and all persons, young and old, will be made welcome.

TRAINING OF TEACHERS.

University Governors May Borrow Money For New Faculty.

Toronto, March 12.—Despite governmental effort and the busy work and night sessions of the past two weeks, the plan to conclude the Legislative session by the Eastertide vacation will have to be abandoned. Hon. Mr. Whitney, the Prime Minister, has taken the wise position that there must be no rush or hasty legislation, and more remains to be done than can be accomplished between the present and the early Easter.

Yesterday, for instance, there were but three Liberal members in their places and Mr. Graham was forced to ask that furthur consideration of the estimates be deferred until he could muster more of his colleagues.

To Investigate Complaints.

In reply to a query from Mr. Smyth (Algoma) Hon. Mr. Cochrane, the Minister of Lands and Mines, said it was the intention of the Government to investigate the complaints made by residents of Northern Ontario that large areas of unpatented lands are held by speculators who do not reside on the land and who in other respects have not complied with the regulations under which the land was sold or located. It was the further intention of the Government to appoint an inspector or other proper officer to examine and report on the lands of the Crown in all Townships in Northern Ontario, now open for settlement or that it may be intended to hereafter open for settlement, with the object of preventing settlers from locating on lands not suited for agricultural purposes. The Government moreover, were considering the introduction of legislation confirming the title of bona fide settlers who have already obtained their patents or who are residing on their lands and have performed the necessary improvements thereon to entitle them to patents, to minerals, if any, on the lands and also to the timber, where the same was not sold to Timber Licensees by late Government.

University May Borrow.

The Prime Minister, Hon. J. P. Whitney, moved the second reading of the Government bill to amend the university act of last year. The purpose of this measure, he said, was to give the university power to borrow money, on the approval of the Government, for purposes identified with the objects of the institution. The Prime Minister mentioned the erection and conduct of high and public schools in connection with the new chair of [illegible]

Hon. Mr. Graham said he was at one with the Prime Minister as to the needs of the university and the necessity for dealing liberally with it. He was not, however, in accord with the plan of making its income dependent on the succession duties, though he admitted his view was at variance with that of the president of the university and Mr. Byron E. Walker, the financier of the Board of Governors.

The balance of a short session was taken up by giving a large number of private bills their second reading.

S. A. LABOR IMMIGRATION.

None Are Placed Where Trouble Is On, Says Brigadier Howell.

Ottawa, March 12.—Ralph Smith of Nanaimo elicited from the Minister of the Interior, by way of reply, to a letter from Brigadier Howell of the Salvation Army, setting forth the practice of the Army in regard to the immigration of artisans.

The effect of it was that there was always a certain number of mechanics among those desiring to emigrate to Canada, and the Army officers saw to their employment in Canada. The Army was careful, however, to see that such persons were not placed where there were any labor troubles.

"In fact," wrote Mr. Howell, "the Salvation Army is doing more in the interests of labor than many of the labor unions themselves."

Hon. Mr. Oliver said the Salvation Army received the same assistance from the Government as other booking agents; besides, the Army was allowed $5,000 a year as expenses of the London office, in consideration of the fact that they cared for their immigrants upon their arrival in Canada.

J. A. DUNCAN SENT FOR TRIAL.

Former Bank Manager At Ayr Charged With Raising Voucher.

Brantford, March 12.—John A. Duncan, former manager and latterly acting accountant of the Bank of Commerce at Ayr, arrested at Paris on Saturday on a charge of raising a voucher from $17.90 to $18,017.90, was arraigned at Paris yesterday. Harry Lay, manager of the branch, stated that he had examined the books and believed the offence had been committed by the prisoner. Mr. Smoke, who acted for Duncan, agreed to waive further proceedings of court, not having evidence in rebuttal, and consequently the prisoner was committed to stand trial in the county of Waterloo, in which Ayr is located.

Fleet Gets Ready for Fun.

London, March 12.—Six ships belonging to the British first cruiser squadron are being fitted out at Portsmouth preparatory to joining the international fleet, which is to assemble in Hampton Roads in honor of the inauguration of the Jamestown Exposition.

The quarter-deck of Rear-Admiral Neville's flagship, the armored cruiser Goodhope, is being cleared of numerous fittings so as to allow plenty of room for dancing. Other preparations indicate that much entertaining is projected on board the vessels belonging to the squadron.

Postal Agreement Near.

Washington, March 12.—Following the recent visit to Canada of representatives of the United States Postoffice Department regarding the announced intention of that Government to abrogate on May 7, the postal convention with the United States with respect to second-class matter, it was stated yesterday, that a satisfactory solution of the question probably will be found.

Moroccan authorities are forcing the people to pay taxes on the property destroyed by Raisuli.

Town Was Certainly Shaken Up; Great Commotion at Metchuen

Three Trainmen Killed and Many Injured by Explosion.

Boiler of Locomotive Bursts With Terrible Force—Many Fires Were Started — Parts of Engine Blown Into Buildings Two Blocks Away—Hundreds of Windows Broken—Nothing Left of the Freight Cars.

Metchuen, N. J., March 12.—Three men were killed and a number of others hurt, and Metchuen was shaken and threatened with many fires yesterday, when the boiler of a locomotive on the Pennsylvania Railroad exploded while drawing a freight train through the town.

The dead are: William J. Sisher, engineer, of Philadelphia; W. H. Fritsche, fireman, Trenton, N. J., and C. S. Smith, brakeman, Trenton N. J.

The train left Jersey City at 1 p.m. and was passing through this place under good headway when just opposite the railroad station the boiler of the locomotive exploded with terrific force Hardly any portions of the locomotive except the wheels was found at the point of the explosion. Portions of the boiler were blown two blocks away and tore their way into buildings The bodies of Engineer Sisher and Brakeman Smith were found a hundred yards from the railroad tracks.

Cars Caught Fire.

Many of the freight cars were piled in a heap and several of the train hands were injured, none seriously, in the wreckage. The broken cars caught fire from the scattered coal of the locomotive firebox, but the blaze was soon extinguished by the fire department.

A portion of the locomotive was blown into Hahn's drug store, two blocks from the track, and another piece of steel entered McCutcheon's pharmacy. Both stores were set on fire simultaneously, but in neither case was there any serious loss.

Miss Daisy Martin, telephone operator in the railroad station, was thrown from her chair by the explosion and slightly injured. The station caught fire, but the blaze was soon extinguished.

Windows in buildings within a radius of two hundred yards were broken by the explosion, the force of which was so great as to seem like an earthquake.

Deputation Going to Ottawa in Connection With Trent Canal

Whole City Council, City Officers, Local Members and Press Representatives--Small Deputation to Toronto re Dairy Show and Private Bill.

The Committee of the Whole Council met last night and appointed two deputations, one to Ottawa in connection with the Trent Canal, and one to Toronto in connection with the Dairy Show and the city's private bill.

Those present were:—Mayor McWilliams, Ald. Wilson, Elliott, Johnston Phelan, Leary, Duncan, Morrow and Morgan.

His Worship Mayor McWilliams explained that the first and most important matter to be considered was that of sending a deputation to Ottawa. The object [illegible] view the Dominion Government re the completion of the Trent Canal to Lake Ontario. The invitation came from the people of Campbellford, who are taking the lead, and this city should send a big deputation to Ottawa.

The size of the deputation was also discussed, and it was decided that it should not be any smaller than last year

The railway transportation has all been arranged by Ald. Phelan. A special train will run over the C.P.R. from Peterborough, taking in Indian River, Norwood and Havelock. The fare for the round trip from here will be $3.80 and the special train will leave the C.P.R. station at one o'clock Tuesday, March 19th, and go right through to Ottawa. Tickets are good going only on the special, but one can return on any regular train up to Thursday, March 21st. Besides the deputation from the City Council it is expected that a large number of citizens and the heads of manufacturing concerns will take advantage of the cheap fare and go down to the Capital. The excursion is being run under the auspices of the Campbellford Board of Trade and there will undoubtedly be a large crowd. The Campbellford deputation will come to Peterborough on the Grand Trunk and will number at least twenty-five and probably fifty or one hundred.

The object of the deputation is to induce the Government to place a sufficient sum of money in the supplementary estimates to complete the southern outlet of the canal this year. The route has been decided upon and it would be a distinct advantage to all the towns concerned to have the work proceeded with at once. As far as Peterborough is personally concerned it makes little difference which end is opened first. In fact it would be very much better if both ends were opened. Some of the largest manufacturers will receive more benefit by having the north end opened first while others will be better off if the lower end is opened first. But neither end can be opened without benefiting Peterborough.

Ald Phelan moved, that the whole City Council, with the City Clerk, City Treasurer, City Solicitor, City Engineer, the council reporters, R. R. Hall, M.P., T. E. Bradburn, M.P.P., compose the deputation from the city to go to Ottawa. Ald. Elliott seconded the motion, and it was carried.

The matter of getting other deputations was taken up, and Ald. Phelan suggested that the city clerk send a letter to the different municipalities, the Board of Trade and heads of manufactories, and ask them to send delegates, impressing upon them the necessity of having the canal completed. Ald. Wilson seconded the motion, and it carried.

FOR TORONTO.

The next matter taken up was the deputation to Toronto to attend the Dairymen's Association on Wednesday morning next. The Council has a deputation going to Toronto at that time in connection with the city's private bill, anyway. This committee was enlarged by adding Ald Leary and Ald. Wilson.

Thus the committee will be composed of Mayor McWilliams, Ald. Phelan, Ald. Stevenson, Ald. Bradburn, Ald. Morrow, Ald. Leary and Ald Wilson and any others who care to go.

CARTER'S SHELTER.

The Mayor stated that the carters who are supposed to use the stand, refused to put in a telephone. If a telephone is not put in, then the stand is no good.

Ald Leary and Ald. Stevenson were strongly in favor of hanging the whole thing up and wait until the carters came to terms. The aldermen discussed it at some length and decided to leave it with the chairman of the Property Committee until next Monday night.

Board of Education Received $25,000 for North Ward School

Amount Granted by the Council Last Night—Contract Will be Let at Once and Work Proceeded With as Soon as Weather Permits.

The Board of Education have secured the grant of $25,000 for alterations to the Nort Ward school. A deputation waited upon the City Council last night and made the demand. Mayor McWilliams stuck out for details as to how the Board expected to spend the money, but the Board would not give them. Time was being lost and finally Ald. Morrow and Ald. Leary moved that the money be granted.

The Board of Education will now let the tender and as Mr. A. A. McIntyre was the lowest tenderer he will be given the job. There is, however, some doubt as to whether or not he will accept it now. He put his tender in last fall and since then lumber has gone up $3 per thousand and labor has also gone up. An effort, however, willl be made to get him to proceed with the work. But, if he refuses to take the risk the Board will simply have to put up more money.

The contract will be let at once, no matter if it does cost more, and work will be started as soon as the weather will permit, as the school will be practically rebuilt with six additional rooms, making in all a ten-roomed school. It will be a plain structure but will be good, and put up to last for many years.

Mr. Fair, in introducing the Board, said the object of the deputation, was to ask the city council to make provision for the remodelling and enlarging of the North Ward School. He than asked Mr. Dumble to address the council.

Mr. Dumble, chairman of the Building Committee, said that when the Council gave the Government Dixon Park for a Normal school, they were bound to provide money for enlarging the North Ward school to a ten-room school, instead of a four-roomed school, as it is now. The Board asked for $25,000 for this work. That will not all be required, but the Board will not spend more than is really necessary. Tenders are already in and they know who should get the contract. But since those tenders were received lumber and labor have advanced, and the Board may have to spend more than last year's tender. Every day's delay is making it more expensive, but the Board cannot grant the contract until the money is provided. The Normal school will be open by Sept. 1st, and the North Ward school must also be ready by that time. He therefore asked that the money be granted at once.

Mayor McWilliams said it was quite clear that the City was bound to provide the necessary money. The next question was the amount. When the matter was discussed some time ago, it was thought that $15,000 was enough. Whether it is or not, it is the duty of the council to learn just what the board proposes to do with the money. He thought the board should furnish the council with fuller information.

Mr. Dumble said he did not see that it was necessary for the board to confer with the council at all in reference to plans. The law does not compel the board to confer with the council. Anyway this is too late a date to argue legal technicalities. They have had plans prepared and those plans have been adopted by the board. But the board intend to add six new rooms, which will cost so much each. The whole thing will cost at least $23,000.

Mayor McWilliams said it was not a question of objecting to the plans or anything else. But when the council is providing the money they should be given the same details as the people would be given in case a bylaw was to be put.

Ald. Morrow moved that the council provide $25,000 for the North Ward school. Ald. Leary seconded it. Carried.

Mr. Dumble further stated that all there was to the matter was that the board needed a ten-room school The heating and plumbing of the present school was now rotten, and would have to be replaced, which would cost $5,000 alone.

Selling Candy on the Lord's Day

Reported That Charlotte Street Grocer Gets a Lot of Sunday School Collections.

Attention has been drawn to the fact that a certain grocer on Charlotte street is selling candy to children on Sunday. If there is any ground for the charge, (the complainant is perfectly reliable) it should certainly be investigated by the police and the party severely dealt with. The story as related to the Review is, that Sunday afternoons after Sunday school little children go to the place mentioned and knock at the door. The proprietor admits them and in a few minutes the children come out with a bag of candy, which they divide between them on the street.

The offence of the store keeper, if he is guilty, is four fold. He, himself, violates the Lord's Day Act for the sake of a few coppers. He allows little children to break the Lord's Day Act. He encourages little children to steal their Sunday school collection and he encourages them to deceive their parents who give them the collection.

The average person would not think that a business man would stoop to such a level for the sake of a few coppers. The children do not need the candy and to say the least older people should set a better example to the children. No doubt the man referred to will stop all Sunday business with children after his attention has been drawn to his crime

The Daily Review

TUESDAY, MARCH 12, 1907.

TEACHERS' SALARIES

It is gratifying to learn that the Board of Education has adopted a revised schedule regarding teachers' salaries. The figures as published in another column will show that all salaries are fixed on a firm basis and that a sliding schedule will be in force. There will be a minimum and maximum wage and a certain increase granted each year until the maximum figure is reached. All instructors will definitely know what they are going to receive Efficient and worthy teachers will all be placed on same footing. The salaries on the whole are as liberal as those paid in cities of the same size as Peterborough and will doubtless result in increased enthusiasm and energy on the [illegible] the members of the staffs of the different educational institutions. The principle agreed on is a sound one in every particular. The Board of Education evidently believes that the laborer is worthy of his hire. The underlying motive of the Board will be to give generous salaries and, when it is found that a teacher is incapable, or non-progressive, he or she should be released. If the highest monetary allowances are accorded justifiable results should be obtained and it is the business of the Board to see that no incompetent instructors are retained, simply because of long service, local connection or other considerations. Sympathy should have no place in the engagement or retention of members of the staffs. If a teacher cannot demonstrate by the character of his or her work that the salary offered is honestly and faithfully earned, then such a one should be allowed to go.

The Ottawa Public school trustees have adopted this regulation and while the stipends in the Capital are high, the members of the profession must earn their pay and keep thoroughly up-to-date in methods They must, not only be wide awake and conscientious instructors but they must also be good disciplinarians and be able to show by results, their worth and capability. This is the right course to follow and shows that the board applies first class business management in the conduct of its affairs. Peterborough board should do likewise. No ratepayer objects to paying good salaries, but all teachers must be able to earn them. High salaries call for high class work and satisfactory results.

NECESSITY OF FIRE ESCAPES

The recent catastrophe in the Hochelega school in Montreal has called attention not only to the necessity of having all school buildings properly equipped with fire escapes, and also the advisability of having all structures over two stories high, where men and women are employed, provided with suitable means of egress in case of fire.

At the City Council meeting last night the Fire, Water and Light Committee made an important recommendation. It was: "That the city solicitor prepare a by-law to compel owners of buildings over two stories in height, the third stories of which have not more than one exit and are occupied by ten or more persons at any one time, to provide fire escapes similar to those used for hotels."

This is a move in the right direction It is better to be sure than sorry, and there is no telling when a conflagration may visit some large mercantile or industrial establishment.

The committee also took a proper course in recommending that; "The council pay for accident insurance for the members of the fire brigade, and that the chairman be authorized to place the insurance, and that the treasurer be authorized to pay the premiums on the certificate of the chairman."

This is done in all large cities where firemen, on many occasions, are called upon to risk life and limb in the defence and protection of the property of the citizens. It is pleasing to learn that the Fire, Water and Light Committee is alive and progressive. Both of the foregoing measures are worthy of support and encouragement.

PEN POINTS

There is one vacant seat or two in the Senate yet.

March seems to be a lively month—the revival of nature and a revival in the churches.

When the Trent Canal is completed what plea will deputations to Ottawa then have to put forth?

Those are not political meetings going on in Park street church every night, even though a well known Torrie is the leader.

The Torrie meetings now going on this city are not under the auspices of the Young Men's Conservative Club.

That heavenly body which was styled in last night's Review as a flying "meter," is simply an off shot of the pre-payment meter.

An exchange says:—"Wolves are plentiful in the lumber camps." So they are around Cobalt and other mining centres—would sort of eat—you with stock speculations.

The signalling class in connection with the 57th regiment has begun work. The ordinary citizen will, however, not find any signal in the code to "come over and have something." Too many would want to join the class.

Owing to the electricians' strike in Paris, France, all the lights in that gay city went out. It must have been rather trying for the red light districts to fall back upon common tallow candles and ordinary coal oil lamps.

A Cavan man refused to pay for a paper and was arrested. That's nothing. If every man who takes a paper and declines or neglects to pay for it was placed in custody, the county gaol would have to be enlarged to the size of the Quaker Oats factory.

The fire brigade received only fifty-one calls last year. When the new alarm telegraph system is installed by the Bell Telephone Company the fire laddies will be in danger of receiving that number of calls the first month. Everybody will be waiting to try the new boxes.

The suggestion is being made made that all the school children in Canada should contribute to a penny subscription towards a memorial in honor of Miss Maxwell, the Hochelaga teacher, who sacrificed her life in endeavoring to save the little ones placed in her charge. The idea is a good one. The Ottawa Citizen thinks the act was one to make all Canadians proud of their womankind, and the recognition of it should not be confined to one locality, but should be national in its character.

Enjoyable Time at Murray Street

Young People Spend Pleasant Social Evening Together

The young people of Murray-st. church had a very enjoyable meeting last evening. The gathering took the form of a social one and a large number of the young people were present. An interesting game in which all took part occupied the first part of the evening, after which the president, Mr. Hooker, took the chair chair and introduced a short programme of vocal and instrumental numbers.

The numbers were:—

Vocal solo.—Miss Emily Miller.
Vocal duet.—Misses Clara Kidd and Ada Jackson.
Vocal solo.—Miss Ruth Quinn.

Piano solos were contributed by several young people after which refreshments were served and a social time spent.

A pleasant and profitable evening was brought to a close by the singing of the National Anthem.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

Boundaries of the Wards Will Be Rearranged This Year

And Names Will be South, Central, North, West, and East Instead of Numbers—Fire Alarm Boxes Will be Numbered in Accordance With the Wards.

A movement is on foot and was introduced to the Council last night by His Worship the Mayor to change the boundaries of the wards in the city. This is a matter, which in the natural course of events, was bound to come up for consideration in the near future. At this time however, it was brought up in connection with the location of the new fire alarm boxes.

It must first be understood that the alarm boxes will not be numbered from one to twenty-five, although at first there will be only twenty-five. The scheme is, to have all boxes in Ward One numbered from one to ten; and from ten to twenty in Ward Two; twenty to thirty in Ward Three; thirty to forty in Ward four, and forty to fifty in Ward Five.

Instead of the wards being numbered they will be known—Ward one as the south ward; Ward Two as the central ward; Ward Three as the north ward; ward four as the west ward; ward five as the east ward.

The boundaries of the different wards will also be changed and they will be marked by streets that run right through the city north and south, and east and west. which will be much more easily remembered than at present. The wards as outlined last night, and left over until another meeting are as follows:

All south of Sherbrooke street will be the south ward.

All north of McDonnel street will be the north ward.

The centre ward will be all in between McDonnel and Sherbrooke-st. and west to Bethune street.

All west of Bethune street will be known as the west ward.

Ashburnham will remain the same, viz., the east ward, including Auburn.

While it is proposed to have the wards changed now, the change will not take effect until about October, after the assessors have completed their work. But the fire alarm boxes will be numbered and arranged according to the new system.

According to the new arrangement the south ward will be mostly manufacturing and residential for mechanics; the central ward all business; the north ward will be mixed; the west ward practically all residential, and the fifth ward mixed.

Roller Skating Rink Will Soon be Open to the Public

Few More Days of Mild Weather and the Ice Will be Taken Out of the Charlote Street Rink--200 Pairs of New Skates Ordered--Sandpaper Machine on the Floor

The ice skating, curling, hockey, tobogganing, bobbing, snow shoeing and skieing are about over for this winter. No one is really sorry, because there has been hardly a break in the weather since Christmas. The novelty of the winter sports has gone, and the people are beginning to long for something new, something different.

It will be only a few days until their wish has been granted.

Mr. S. J. Sheridan has been in the city for several days, and last night he said it would be only a few days when the roller skating rink would be in full swing and the young people would be rolling gracefully around the rink on a floor as smooth as glass. If this mild weather continues for two or three days the curlers will be through with the Charlotte street rink, and then the ice will be removed at once. In fact, most of the curlers are tired now, and would gladly give way to roller skating. There is only about an inch and three quarters of ice on the floor, and it has never melted since it was made. The floor itself is in good shape, and the ice has made practically no difference, so that it will take very little time to put it in shape.

As soon as the floor is dry, the roller skating rink people will put a new sand papering machine in the rink. This machine is propelled by an electric motor and runs over the floor [illegible]ness or dirt and leaving it like a sheet of glass. The work is done at the rate of three cents a square foot, and to complete this rink will cost about $200.

The prospects for the season are the very brightest, and Mr. Sheridan has made provision to accommodate nearly double the number he could handle last year. An order has been placed for eight hundred new up-to-date ball bearing skates, and the goods have been shipped and should be here almost any day. Two hundred pair will be left here for this rink, which with the three hundred pairs in use last year, will make five hundred pairs of skates. This should do away entirely with the rush for skates every night, and also give a much more satisfactory service to the public. The other five hundred pair will be sent to Ottawa for the large new rink there.

Death From Natural Causes Was the Verdict of the Jury

No One to Blame for the Death of Thos. Howard at Norwood—Inquest Held Yesterday.

An inquest into the death of Thos Howard, who died on Thursday in Norwood, was held there yesterday conducted by Coroner Dr. Gray and Crown Attorney R. E. Wood After considerable evidence had been heard the jury brought in the following verdict;

"That Thos. Howard came to his death from neuralgia of the heart, and that no blame for carelessness can be attached to anyone in connection with the affair.

The jury consisted of the following gentlemen; Geo. E. Miller, A. B. Greenbanks, E. P. Cuffe, Thomas Waller, J. L. Squire, W. H. Stevenson, A. S. Harrison, W. T. Buck, *foreman*; John McLaughlin, George Duffield, Chas. McDonald, J. W. Rorke, W. H. Tucker, and Chas. O'Reilly.

THE EVIDENCE

Dr. G. A. Pettigrew was the first sworn. He said he practiced medicine in Norwood. He was called to the McGregor House to see Thomas Howard on Thursday morning, shortly after midnight. He found the deceased in bed. Mrs. Smith was present. At first he wished for relief for pain over the heart. The doctor treated him for the pain. In about twenty minutes he seemed a little relieved and in four or five minutes more he lie back dead. Dr. Pettigrew said he had not seen him previously, professionally. Pain was caused by irregular action of the heart. His pulse was irregular. He concluded that the cause of death was neuralgia of the heart.

In answer to questions by the Crown Attorney the doctor said he was called by a messenger and arrived seven or eight minutes after being called. The deceased's breathing was labored. Was told the had had a weak spell at the post office. He gave him a stimulant. The doctor heard of no medicine the deceased had been taking and saw none.

MRS E SMITH.

Mrs Elizabeth Smith, wife of the proprietor of the McGregor House was next sworn. She said deceased had been with them three weeks. He did chores for his keep. He had his meals regular. She noticed he was ill the third day he was there when he seemed very tired. He said he had trouble with his heart for the last nine months. He would take spell, every other day or so and they would last about five minutes. He said he believed in no doctor nor in God. He asked the witness to get him a box of Milburn's pills and she did. He had a bad spell on Thursday in the post office. He walked home after it. Mrs. Smith's daughter gave the alarm about 11.30 p.m. The witness went to room of deceased. He had not retired. He complained of his heart. They got the doctor as soon as possible. She gave a small glass of liquor. It did not help him. They did all they could for him. She knew nothing of funeral arrangements. Council arranged for it. He had no money. He came from England two years ago. Seemed as though he did not want to talk about his family.

HOTEL PROPRIETOR.

Terrence Smith, proprietor of the hotel was next called. He said he never seen Howard till he came to stay at his house. Mrs. Smith gave him permission to come. He heard the folks say that Howard had a weak heart. He seemed to suffer severely at times. The night deceased was so sick witness was called to his bedside. He called Dr Pettigrew as soon as he could and the doctor arrived in a few minutes. After his death the council arranged for burial. He was to be buried Thursday at 2.30. He did not know of any arrangement for a clergyman. The witness said Mr. Searight came to him and said the cost would be $14. The council would pay $10. Mr. Smith said he would pay the $4. The body was coffined at the hotel and taken away between 2.30 and 4.30 Thursday afternoon He did not know who took it. Neither did he know why burial was stopped. After funeral the grave diggers called and he paid them $5 and Mr. Searight $1.

JAS. CALDER.

James Calder, the deputy postmaster was sworn and said he first saw Howard last Tuesday morning. Deceased stood for some time. When asked what was the matter he said he had trouble with his heart and would soon be all right. He was given a chair. He sat down for about an hour. He head no further conversation with him. He received no letters.

MISS SMITH

Miss Smith when sworn said she gave the alarm about Howard's illness about 11.30. She heard him moaning. He was alone. He did not speak She saw him have weak spells

L. LONERGAN

Lawrence Lonergan was next sworn. He was a farmer in Asphodel. The deceased lived with him at harvest time last year for four or five days. He left and returned about Jan. 1 and stayed three or four weeks He was very weak while at his place. He complained of his heart He said his parents lived 14 mile. from London, Eng. He was deaf. During last stay with witness deceased would take three or four weak spells every day.

A B GREENBANKS.

A. B. Greenbanks was sworn and said on Thursday morning Reeve Breault told him there was a young man dead at the hotel. They saw some other members of the council and agreed to give $10 towards burial and let Mr. Smith pay the rest. No time for burial was mentioned. He considered Mr. Smith and not not the council, was burying Howard. Hour of burial was left to Smith and Searight.

Mr Greenbanks, in reply to a question from Mr. Wood said Mr. Squires had ordered the removal of the body to the town hall.

J. L. SQUIRE

J. L. Squire was sworn and said—"On Thursday as I went to dinner I saw Searight at hotel door and asked him the hour of funeral. He said 2.30. I said "Not today" And Searight said "Yes. After dinner I asked Searight if he was going to bury him without services and he said those were his orders. They tried to get two ministers but they were both away. Mr. Squires suggested that body be removed to town hall and postpone funeral till 10 a.m. Friday. Funeral cards were put out and he said it was according to these arrangements the body was removed from hotel to town hall. Two clergymen were at funeral.

Mr. Wood called upon any one present who had anything to say to come forward. He said it must be a satisfaction to know that Mr. Squire had seen that the deceased had proper Christian burial and that the people of Norwood had not been left under the disgrace of having deceased buried without prooper burial services.

There was no response and the case was submitted to the jurors who brought in the above mentioned verdict.

To Reduce the Danger From Fire

At the Public Schools of Peterborough.

At the meeting of the Board of Education last night Mr. Pringle drew attention to the fact that something should be done in Peterborough towards reducing the danger to the lives of the pupils and teachers in case of a fire in the schools of the city. There was the fire drill of course, but that was not sufficient and something further should be done.

The question was discussed briefly by several members of the Board and several suggestions were made that will no doubt prove helpful. Fire escapes on the schools was one of the remedies proposed. Finally it was decided to refer the matter to the Supervision committee who will report at the next meeting.

Able Address on "Jerusalem"

Rev. H. Ben Oliel Gave Interesting Lecture on Ancient City

A fairly large audience attended the lecture on "Jerusalem" last evening in St. John's school house by Rev H. Ben Oliel, of Millbrook. The reverend gentleman was born in Assyria and therefore, is in a good position to speak on the subject of "Jerusalem." He appeared in the ancient eastern custom which added much to the interest of the lecture.

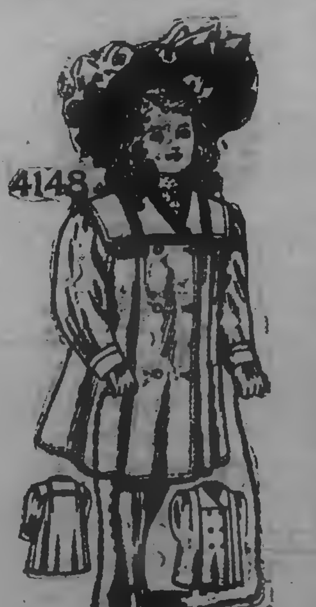
Rev Canon Davidson occupied the chair and in a few well chosen words introduced the speaker.

The speaker, in an eloquent and inspiring address told of the many characteristics of the holy city and its inhabitants. He vividly described the nature of the country, its inhabitants, and the many Bible incidents connected with Jerusalem. He said Jerusalem was looked upon by the Jew, the Mussulman and the Christian as the most holy place.

The lecture by Mr. Ben Oliel proved to be most interesting and instructive.

The proceeds of the lecture, which was under the auspices of the Women's Auxiliary goes towards missionary purposes.

LATEST DEAN PATTERNS.



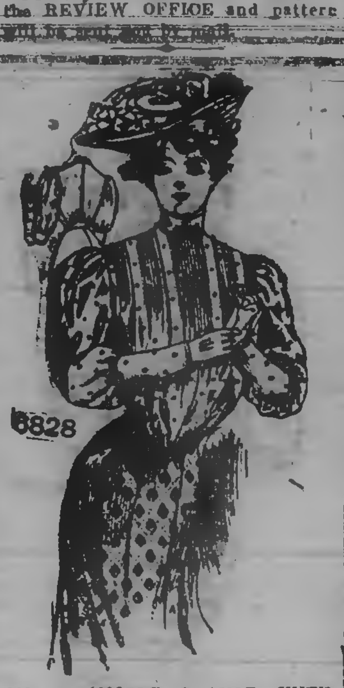
4148.—A PLEASING LITTLE COAT.

Coats for small girls are always a subject of interest to mothers who fashion them, and a suggestion for one of good style and becomingness is shown. The front closes in double breasted fashion, while a deep tuck at either side of the front and back lets in extra fulness for the skirt portion and proves very becoming. The shoulder bretelles lend breadth of shoulder, so vital a feature of the newest coats, while tiny tucks retain the fulness of the sleeve at the cuff. The style is one suited to development in any of the cloths, or worsteds, while Rajah, pongee or linen would prove pleasing. A braid may trim it or simply the stitching. For the medium size 1 7-8 yards of 54 inch material are needed.

4148.—Sizes 4, 6, 8, 10, 12 years.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



6828.—A SIMPLE BLOUSE WITH COMBINATION TUCKS.

Blouses which do service every day wean out so quickly that one needs to constantly replenish this part of her wardrobe. A pretty waist in dotted cloth has both wide and narrow tucks in very pleasing effect. The style of the waist is so simple that any one could make it without the least difficulty and be assured of a successful result. A seam in the centre of the front provides for the cutting of the material on the bias if desired. The sleeves are the practical puff and deep cuff, in long or three-quarter length. A waist of this kind is suitable to any of the light cloths, pongee, silk, linen or other lingerie fabrics. A collar of the same may finish the neck or a linen one with tie of silk as shown. For the medium size 3 7-8 yards of 27 inch material are needed.

6828.—6 sizes, 23 to 42 inches bust measure.

The price of this pattern is 10c.

Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

The Elder-Dempster steamer, Sokoto, drifted out of Louisburg harbor, Nova Scotia, during the terrible gale and grounded on White Rock shoal.

Lathered and Slathered Them

Barbers Shut Out Examiner Typos Last Night

It was a case of "23" with the Examiner typos last night when they met the Union Barbers at Brock street rink. The game was played between ten and eleven o'clock, and the score was 6—0, with the Typos at the short end of the tally. The ice was soft and slushy, which made fast hockey impossible, and proved tiring to the players. Despite this, they stuck to their work and kept up a lively pace until the finish. Campbell and Hayes starred for the winners, while Theobald did effective work for the typos. Wright was wrong side up several times, but little [illegible] handed the ball and had things easy. Not 1 man was ruled off.

The teams were,—

Typos		Barbers
	Goal	
McBrien		A Lewis
	Point	
Gibson		E Wright
	Cover	
Long		Inkpen
	Rover	
Theobald		H Darling
	Centre.	
Henry		E Harrison
	R. Wing	
Martin		B Hayes
	L. Wing	
Mahoney		G Campbell

The losers entertained the victors to an oyster supper at McCallum's after the game.

CURLING

LAST NIGHT'S GAMES

Although it looks as if spring was here the curling season is not yet over. Although the ice was somewhat soft last night, three rinks were going and the scores were as follows;

W G Read	H Lovekin
H P Kennedy	J Montgomery
R Hicks	W Lang
R. Neill	G Fitzgerald
Skip 19	Skip 15
R J Winch	J W Fulton
J Carton	C E Frost
J H Counal	T Brightman
H Foote	J H Ferguson
Skip 12	Skip 11
A Miller	W S Dodds
A J Bowes	E Cox
J Bogue	E H D Hall
A Blade	J Stanger
Skip 16	Skip 15

LACROSSE

MR. BAILEY IN THE RACE.

Mr. James D. Bailey, of Toronto who is first vice-president of the Canadian Lacrosse Association, is this year a candidate for the presidency. Mr. Bailey writing to the Review says:—I am this year a candidate for the office of president of the Canadian Lacrosse Association. I have been a member of the Council for some years, was 2nd vice-president two years ago, last year was 1st vice-president.

I have been actively connected with the Association since its inception in 1887, having attended every annual convention but one during that time in the capacity of a delegate or an officer. Being a resident of Toronto I have attended nearly every judicial meeting for some years and at no expense to the Association. Until now my business would not permit of my aspiring to the chair of president, and if elected will strive to fill the position in a manner which will reflect credit on the Association as well as myself.

ANNUAL MEETING.

The annual meeting of the Peterborough Lacrosse Club will be held at the National Hotel at 8 o'clock this evening. It is hoped that there will be a large turn out.

LISTEN TO THIS.

The Toronto Telegram says:—Peterborough is hinting that she has senior lacrosse team material, and that a place in the new series would be to her liking. But it doesn't look good from here. It's a long way from Buffalo to Rolled Oatsville. Compactness is one of the necessities of the new series. It has it as it now stands, and it is not likely any change will be made. However, Peterborough will have a junior O. L.A. team anyway. W. S. Davidson will be a candidate for the O.L.A. Council, and a good season is looked forward to.

Stratford Boys Junior Champions

Defeated Lindsay Midgets by Four Goals to One

A Lindsay despatch says:—In a game heart-breaking from start to finish on ice of the heaviest variety, Stratford won the final game for the junior O.H.A. championship and the Crosby Cup from the Lindsay Midgets, adding to their victory in the Classic City by a win on Lindsay ice of 4 goals to 1. The half time score was 2 to 1. The teams were exceedingly well balanced, and the game was stubbornly contested. It developed into a rough house exhibition towards the close, and just before time was called a set-to between Randall, of Lindsay, and Richards, of Stratford, was in progress. Hard checking was in evidence throughout the game as a result of the sticky ice. The teams appeared to be of equal merit, with the "horse collars" on the Classic City bunch. For Stratford Ramsay Rankin played a strong game. Preston and Simpson were silver spots on the forward line. Koyl was head and shoulders above all on the Lindsay seven. Norman Rule, of Collingwood, officiated and his work was only fair. He allowed numerous off-sides and seemed to be down on every Lindsay man. He eliminated rough play however.

COLLINGWOOD BY ONE GOAL.

Collingwood, March 11.—The game played here to-night between Berlin and Collingwood resulted in a victory for the home team by a score of 4 to 3. It was necessary for Collingwood to secure six goals to win out for the championship of the intermediates, but could not make it on account of the big lead that the Berlin team had. Berlin wins the championship by a score of three goals.

WANDERERS WON.

In the game last night in Toronto Wanderers of Montreal, defeated Toronto professional team by 12 goals to 10.

CRICKET

WILL MEET FRIDAY.

The meeting which was to have been held on Thursday night at the Y.M.C.A. to organize a cricket club [illegible] gathering in the Young Conservative rooms and the attraction, Sergt. Kitty at the opera house.

HOCKEY

TONIGHT'S GAME

An interesting hockey match will take place at the Brock street rink this evening between 9 and 10 o'clock when the Lindsay Post team will do battle with the Peterborough Examiner septette. It is expected that the contest will be one of blood and a large crowd will doubtless witness the game.

CITY LEAGUE TO MEET.

A meeting of the City Hockey League will be held at the Oriental Hotel to-morrow night at eight o'clock to wind up affairs for the season. It is understood that the League has had a good year, and it certainly furnished many interesting matches. The meeting to-morrow night will be a private one.

TO-NIGHT'S GAME.

The Pride of Lindsay.

The Typos, famous in rhyme and story, will measure their strength against the Peterborough Examiner staff to-night, in the Electric City, says the Lindsay Post.

They will leave on the eight o'clock train—owing to the lack of cars a special was unavailable—and will be accompanied by one lonely rooter, viz., "Spitter" Houlihan, the mascot. The line-up will be weakened by the absence of "Tuff" Williams, who is unavoidably detained at home, but "Chuck" Perkins, who never saw a puck in his life before to-day, will fill the vacancy at point. The return game will be played in town on Thursday.

Assault Case Was Dismissed

Trouble Between Barber and Apprentice Aired in Court

At the police court this morning an assault case was tried. A young man, an apprentice in a local barber shop, was charged with having assaulted, with attempt to extort money, Mr. Samuel Mack, who keeps a barber shop on Brock street. Mr. F. D. Kerr appeared for the accused while Crown Attorney R. E. Wood, conducted the case for the Crown. The accused pleaded not guilty. Mack was the first witness. He said that he kept a barber shop. The prisoner was an apprentice in his shop. He had been working three weeks. The accused gave Mack $50 when he started. Mack was to board him and teach him the trade. On Saturday the man wanted his money back. There was a citizen who came in in the morning and wanted a shave. The man wouldn't let the defendant shave him. This made him angry. In the afternoon Mack was signing his name to the receipt for $50 when the accused grabbed him and would have struck him but for another man. The apprentice said the receipt was not right. At night when they were about to go home, the prisoner said he wanted what money Mack had. Witness said he wouldn't get it. The defendant knocked him down and said he would choke him if he didn't give it to him. The defendant didn't give it to him. The complainant said he would call for help and he then let him go.

The accused was next sworn. He said that Mack had told him he was a first-class barber and that he could teach him as good as any barber in the city. Witness was to pay $50 and was to get his board till May. Mack was to teach him in two months, and witness was to be paid $2 a week. After two months he was to receive $9 a week. The first Saturday night and the second Saturday night Mack didn't give him his money as he said he had to pay the rent. Last Saturday he refused to pay him. The accused denied having put a hand on Mack on Saturday evening.

The magistrate said the charge was not proven and he would dismiss the case. He considered the barber had no business taking $50 from a man and promising to teach him the trade when Mack had not put in full time himself.

Headaches Mean Your Blood Is Poisoned

If your bowels, kidneys or skin are not ridding the system of waste-matter, the blood is laden with impurities, which inflame the nerves. It is these irritated nerves that make the head ache.

Powders and pills won't cure, they merely drug the nerves into unconciousness and relieve for a short time.

"Fruit-a-tives" cure Headaches, Neuralgia and Nerve Pains

because they purify the blood. They act directly on the three great eliminating organs—Bowels, Kidneys and Skin—and restore them to healthy action, thus ridding the system of all poisons.

"Fruit-a-tives" are fruit juices—chemically changed, by the process of combining them, into a far more effective medicinal compound than the natural juices. 50c. a box—6 for $2.50. At all dealers' or from Fruit-a-tives Limited, Ottawa.

Fruit-a-tives

Reply Sent to Mr. Jas. Kendry

Explanation Offered as to How Chairman of Banquet Was Elected

Below will be found a letter written by Mr. J. R. Stratton to Mr. James Kendry yesterday afternoon. This letter was in answer to the one sent to Mr. Stratton and signed by a number of members of the committee of management in charge of the farewell banquet to be tendered Mr. R. M. Dennistoun. The letter appeared in last night's Review and protested against Mr. J. R. Stratton being chairman of the banquet in place of Mr. R. F. McWilliams, the mayor of the city, whose position in the city entitles him to preside over banquets of a public nature. The signers of the letter also withdrew from the committee for the reasons named. Mr. Stratton's letter is in reply, and is as follows,—

Peterborough, March 11

Jas. Kendry, Esq., City.

Dear Mr. Kendry,—Your favor of March 11, was handed me at noon today.

On Saturday evening nearly all the gentlemen that were communicated with by me inviting them to be present were present.

All the arrangements arrived at were made by the gentlemen present at the meeting and not by me. I only acted as chairman, Mr. Fair as secretary.

Mr. Bradburn made the suggestion which you embody as ground for objection in your letter, but it was not seconded, and it was unanimously decided that this banquet was a "Citizens" banquet not a "Civic" banquet. The arrangements as made by the committee will be carried out and any citizen who cannot feel himself free to join in honoring one of our citizens most worthy of honor is also free to withhold his presence.

Mr. Hugh Waddell who signs your letter had previously signified his acquiescence.

Mr. T. E. Bradburn, M. P. P., who was present, further than the suggestion mentioned acquiesced at the meeting. Col. Miller is not a member of the committee; Mr. J. H. Burnham raised no objections and had stated he would be pleased to act; Mr. G. W. Hatton is not a member of the committee, and Mr Kendry was not present.

Any citizen who desires to be present at the banquet will have the opportunity afforded him.

I suppose that the honor was conferred on me, because I was the originator of the Citizens' banquet idea, rather than because of any prominence I occupy as a citizen.

Yours faithfully,
J. R. STRATTON.

THE AURORA WAS VERY BRIGHT

Astronomers Viewed the Northern Sky

The aurora borealis, commonly known as northern lights, was unusually bright last night, and local astronomers had their glasses turned on the sky for several hours.

"I never saw the aurora as bright before," said Rev. Dr. Marsh, of Springville, the well known astronomer, to the Review to-day. "It was a great sight, especially when viewed through a good telescope."

Dr. Marsh gave as his opinion that the unusual brightness of the northern sky was caused by a large solar disturbance on the meridian of the snow

THE MARKET REPORTS

Liverpool Wheat Futures Close Higher—Chicago Lower—Live Stock Markets—The Latest Quotations.

Monday Evening, March 11.

Liverpool wheat futures closed to-day ½d higher than Saturday, and corn futures unchanged to ½d higher.

At Chicago, May wheat closed ⅝c lower than Saturday; May corn ⅛c lower, and May oats ⅝c lower.

Winnipeg Options.

Winnipeg wheat futures closed to-day: March 75c bid, May 77⅛c., July 77⅝c. Oats futures—March 35½c bid, May 36⅛c July 35⅝c.

The Visible Supply.

	March 11, '07.	Mch. 12, '06.
Wheat	45,750,000	47,701,000
Corn	12,359,000	16,276,000
Oats	10,227,000	24,278,000

During the week wheat increased 868,000 bushels, corn increased 257,000 bushels, and oats decreased 677,000 bushels.

Leading Wheat Markets.

	May.	July	Sept.
New York	86⅝	[illegible]	85⅝

Toledo	80⅜	[illegible]	80⅝
St. Louis	76⅛	76⅛	....
Minneapolis	78⅜	79	78½
Duluth	80⅝	81	79½

Toronto Grain Markets.

Grain—		
Wheat, spring, bush	$0 71	to $....
Wheat, goose, bush	0 68	0 69
Wheat, fall, bush	0 74	0 75
Wheat, red, bush	0 72	0 73
Peas, bush	0 78	....
Barley, bush	0 55	....
Oats, bush	0 43	0 44
Buckwheat, bush	0 58	....
Rye, bush	0 65	

Liverpool Grain and Produce.

Liverpool, March 11.—Wheat, spot, firm; No. 2 red western winter, 6s 3d; No. 1 Californian, 6s 6d; futures, steady; May, 6s 5⅜d; July, 6s 3¼d. Corn, spot firm; American mixed, new, 4s 6d; American mixed, old, 4s 8½d; futures, quiet; March, 4s 4⅝d; May, 4s 5⅜d. Hams, short cut, steady, 50s; bacon, short ribs, steady, 53s.

CATTLE MARKETS.

Cables Lower for Cattle—U.S. Markets Slightly Easier.

Liverpool, March 11.—Liverpool and London cables are easier at 11c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9½c to 9¾c per lb.

Toronto Junction Live Stock.

Toronto Junction, March 11.—Receipts of live stock at the Union Stock Yards were 68 car loads, composed of 1396 cattle, 7 hogs, 99 sheep and 56 calves.

Exporters.

Prices ranged from $5 to $5.40 and one [illegible] Maybee, Wilson and Hall as sold at $5.50 per cwt. [illegible] sold at $5.15 to $5.30. There were a few loads of common light exporters reported under $5 per cwt., as will be seen by sales quoted. Bulls sold at $3.85 to $4.40.

Butchers.

The quality of butchers' cattle was generally not good, but prices for all classes were 15c to 25c higher than a week ago, owing entirely to the light delivery. Prime picked cattle, of which there were few sold at $4.85 to $5.25; loads of good, $4.50 to $4.75; medium, $4.30 to $4.45; mixed, $3.90 to $4.25; cows, $3.55 to $4.35.

Milch Cows.

A limited number, none of which could be classed as being of extra quality, sold at $36 to $58 each.

Veal Calves.

Trade was brisk for the best. Prices ranged from $5 to $7 per cwt.

Sheep and Lambs.

Export sheep sold at $4.75 to $5 per cwt.; yearling lambs, $6 to $7.50 per cwt.

Hogs.

H. P. Kennedy reports $6.75 for selects and $6.50 for lights and fats.

The Gunn Co. report paying about $6.60 to $6.65, f.o.b., at country points, which would mean at least $6.80 or $6.85 at Toronto.

Montreal Live Stock.

Montreal, March 11.—(Special.)—Cables from Liverpool and London on Canadian cattle came weaker and ¾c per lb. lower than a week ago, at 11½c. The demand for ocean freight from St. John, N.B., is very limited, and agents find it difficult to let space to any port at 25s to 30s. Exports last week from St. John and Portland were 1898 cattle. At the Montreal Stock Yards' West End Market the receipts of live stock for the week ending March 9 were 4289 cattle, 1660 sheep and lambs, 2440 hogs and 1227 calves, while the supplies to-day for local consumption were 900 cattle, 25 sheep and lambs, 800 hogs and 275 calves. Owing to the fine, spring-like weather, there was a large attendance. Sales of selected lots of hogs were made at $7.15 to $7.25 per 100 lbs., weighed off cars. There was no change in the condition of the market for sheep and lambs. Receipts continue very light, which indicates that there are few in the country ready to be marketed, for, if there were, present high prices would bring them out. The demand is keen from butchers for all the small lots coming forward, and there is also a good enquiry for export sheep, as the foreign markets are in good condition, but shippers find it impossible to secure sufficient to make up a shipment. Prices are very firm at 4½c to 6c for sheep, and at 6½c to 7c for lambs, per lb. Receipts of calves are steadily increasing, but the average quality of the same is very poor; in fact, a large percentage of them coming in are not fit for human food, they being too young, and it would pay farmers to keep them a few weeks before shipping, as such poor stock are only selling at $1.50 to $2; fair at $2.50 to $4, and good to choice at $5 to $8 each.

East Buffalo Cattle Market.

East Buffalo, March 11.—Cattle—Receipts, 4000 head; active and strong; prime steers, $5.60 to $6; shipping, $5 to $5.50; butchers', $4.50 to $5.25; heifers, $3.50 to $5.25; cows, $3 to $4.65; bulls, $3.25 to $4.75; stock heifers, $2.75 to $3.25; stockers and feeders, $3.25 to $4.60; fresh cows and springers, steady, $20 to $56.

Veals—2000 head; active and 25c higher, $4.25 to $9.50.

Hogs—Receipts, 12,800 head; fairly active and a shade lower; heavy, mixed and yorkers, $7.40 to $7.45; pigs, $7.45 to $7.50; roughs, $6.50 to $6.65; stags, $4.75 to $5.50.

Sheep and Lambs—Receipts, 17,500 head; active and higher; lambs, $5 to $8.20; yearlings, $6.75 to $7; wethers, $6 to $6.25; ewes, $4.75 to $5.50; sheep, mixed, $3 to $5.50.

New York Live Stock.

New York, March 11.—Beeves—Receipts, 4516; steers and bulls, steady; fat cows, steady; others, slow. Steers, $4.90 to $6.75; bulls, $3.75 to $4.50; cows, $1.75 to $4.12½.

Calves—Receipts, 2170. Veals, 25c to 75c lower; barnyard calves, weak. Several cars back, but will not be sold to-day. Veals, $5 to $9.25; general top price, $9; culls, $4 to $5.50; few barnyard calves, $3.37½ to $3.50.

Sheep and Lambs—Receipts, 5491; sheep, steady; lambs, 10c to 15c higher; sheep, $3.50 to $5.50; lambs, $7.62½ to $8.20; few choice, $8.25; culls, $6.

Hogs—Receipts, 16,224; market firm; state and Pennsylvania hogs, quoted at $7.60 to $7.75.

Chicago Live Stock.

Chicago, March 11.—Cattle—Receipts, 33,000, 10c lower; plain to best steers, $5.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3.25 to $5.60; calves, $2.50 to $7.25; stockers and feeders, $3.50 to $5.25.

Hogs—Receipts, 32,000; 5c to 10c lower; choice heavy shippers, $7 to $7.05; light butchers, $7 to $7.02½; light mixed, $6.95 to $7; packing, $6.50 to $7; pigs, $4.50 to $6.80; bulk of sales, $6.95 to $7.

Sheep—Receipts, 18,000, 5c higher; sheep, $5 to $6.25; lambs, $7.25 to $7.55.

The rest-day law in France, threatens to cause a Ministerial crisis.

LECTURE WAS A RARE TREAT

Mrs. Leonidas Hubbard Gave Address at Springvile

One of the most delightful events to which the people of Springville and vicinity have been treated for a long time was the lecture given last night by Mrs. Leonidas Hubbard, the intrepid Labrador explorer who, accompanied by four Indian guides, made the trip across that lone and barren land. It will be remembered that Mrs. Hubbard's husband lost his life while engaged in exploring Labrador and the work was taken up by his wife, who accomplished the hitherto unparralleled feat of crossing Labrador.

Mrs. Hubbard's lecture was listened to last night with great interest and her auditors could not find words to express their appreciation. The lecturer gave much the same account of her trip as she did when she lectured at St. John's church in the city, a few months ago.

Many Repairs to Cheese Factories

Superintendent Publow of the Eastern Ontario Dairymen's Association, has the following in his annual report, which will be read with interest,—

Never in the history of my work as chief instructor, have I been able to report such a great increase in the amount of money expended in repairing, re-building and re-equipping the places of manufacture. A total number of 196 factories were repaired in some material way and thirty-four new buildings were erected. The estimated cost of these improvements amounts to a total expenditure of $119,948, and before the opening of another season this amount will be largely exceeded. At present the amount is over $19,000 more than was reported last year, and represents one of the most encouraging results of the work of instruction. In connection with these results we have to give a great share of the credit to the aid we received [illegible] The work of the sanitary inspector [illegible] the winter and the coming spring should see a marked improvement in the conditions surrounding the manufacture. Never were the factories kept in such a clean, sanitary condition, and we owe our greatest appreciation for what we have been able to accomplish to the new sanitary laws regarding the manufacture of cheese. One of the greatest hindrances of the past, in getting the manufacturers to improve their buildings and equipments has been the lack of protection they were afforded by their patrons in return for the money expended. The price of manufacturing has been too small in many cases, and a factory owner cannot afford to make extensive repairs. Then again, he can never tell when some of his patrons will leave him or some one else come in and start a factory at a close distance and perhaps render valueless the building and business upon which he has spent so much. If factory owners could be given some protection in this respect I am sure it would not be very long until a majority of our factories were in a creditable condition.

THE CHURCHES WILL NOT UNITE

A committee of the Presbytery, Revs. G. A. McLennan, Norwood; Rev. J. G. Potter, Peterborough; Rev. S. S. Burns, Lakefield, and Messrs. G. N. Rogers, and C. L. Owen, Elders, met here Friday afternoon to discuss church union of St. Pauls' and Mill street Presbyterians and this long-talked of question is now settled and there will be no union says the Port Hope Guide. The Presbytery Committee met the Mill Street Board of Managers at two o'clock, and the first order of business was rather surprising, the Rev. R. B. Nelles, pastor of Mill Street Church, being asked to retire from the meeting, which he did. The committee said the first question to consider was whether the union of these churches would be desirable or not. But one of the Mill Street managers asked why this meeting had been called, and upon whose invitation the Presbytery committee was here. The reply was that certain pressure had been brought to bear upon the Presbytery to bring about this union, and they were here to ascertain if this move would be a desirable one, in the interests of Presbyterianism in Port Hope.

The managers all briefly expressed their views and all objected to the proposed union. They intended to erect a new church just as soon as possible. Their debts had all been paid, and the present congregation was self-sustaining. Everything was working in harmony in the Mill Street church, and why was there any need of such a change.

COMMISSIONER DISCHARGED

The Brantford city council has abolished the assessment commission established last year, thus discharging Mr. Donald Thorburn, Assessment Commissioner, who as the head of the department has been drawing $1,200 per annum. Messrs. James Watt and A. G. Ludlow, who have been assistants in the department, were elected as assessors at $700 per year, and with office assistant will do the work this year for $1,800 as compared with $2,800 last year.

George Young, aged 25, of Finch township, near Cornwall, hanged himself in a neighbor's barn this week. He had shown signs of mental derangement.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Park street church.—Special services.

S.O.E. Hall.—Smoker by Court Stanley A.O.F.

National Hotel.—Annual meeting of Peterborough Lacrosse Club.

Adjourned meeting of the 57th Regiment Band in band hall.

Union Hall, Simcoe street.—Meeting of City Hod Carriers.

Brock street rink.—Hockey match, Lindsay Post vs. Peterborough Examiner, 9 to 10 o'clock.

FIRE, WATER AND LIGHT.

A meeting of the Fire, Water [illegible] will be held [illegible] evening when several important matters will be taken up.

PAYMENT OF INTEREST.

The Bank of Montreal announce that they will compound the interest on their Savings Branch accounts quarterly, instead of half yearly, as heretofore.

WHITE RATES.

Mr. Richard Thomas caught a couple of rats with pink eyes and snow white skin, last night at Penryn Park. Unfortunately it was a spring trap, and the pretty animals were killed with it. — Port Hope Guide.

I.O.O.F. GRAND LODGE.

The Grand Lodge of the Independent Order of Oddfellows, which met in Peterborough last August, will assemble this year in Orillia. The St. Thomas Times says the lodges of that city, will invite the Grand Lodge there in 1908.

LADIES' LITERARY.

A very interesting meeting of the Ladies' Literary Society of St. Peter's T.A.S., will be held on Friday evening March 15th, when Rev. Father Galvin will deliver a lecture on King Lear. An exceptionally bright programme will be presented.

MAKING PROGRESS.

City Engineer Hay and Mr. T. Q. Quartermaine are making good progress with the work which was left over from last year and it will be only a short time now until the engineer's annual report will be ready and the Board of Works can get busy again.

DIED IN BELLEVILLE.

Mr. Thomas Wills, one of the best known and oldest residents of Belleville, passed away yesterday, the result of a stroke of paralysis sustained about a week ago. He had been County Clerk and Treasurer of Hastings over 40 years and was over 80 years of age.

TRICKS OF THE TRADE.

Two brothers engaged in the retail coal business up west. During [illegible] the younger [illegible] was not successful. One day, he closed his remarks with the enquiry, "Now, Abner, what is the real reason you will not join the church?" To which the younger replied, "It's all right, John, for you to belong to the church, but if I join, who will weigh the coal?"

College to Teach Art of LoveMaking

A Chicago despatch says:—Colleges of courtship for the reform of American love making are needed to fit love-lorn populace of the nation for matrimony, according to Prof. Chas. R. Henderson, of the University of Chicago. In an article on "Courtship in the Current Biblical World," issued from the university press recently, the professor urges expert instructions for those who are smitten with the "illusions" of love.

Hasty marriages, divorces and marriages of convenience are classed as results of the "barbarism" into which courtship and marriage have fallen. He gives as examples of the decline in true love, "where the wife is bought from the parent like a cow, or where she is compelled to secure a fortune from a rich fool."

Fashionable society exhibits depraved standard and alimony if accepted as a substitute for rational marriages, he declares.

The British ship Loch Garve, which struck a coral reef near Honolulu, has been floated off.

FACTS—Just Plain, Pointed Facts

Park Street Revival Services

Another Large Gathering Last Night—Visiting Vocolist Sings.

The misty, damp atmosphere was not enough to keep the people away from Park street church last night. A large congregation gathered. A new feature evidenced to the evident delight of all, was the singing of Miss Hamlin of Midland. She ably contributed a duet with Mrs. H. Jewett. Miss Hamlin will remain until the close of the services and will assist with solos, etc.

The sermon was a very strong presentation of the gospel from the well-known text, John 3-16. The after meeting was unique. Evangelist Torrie asked all who were converted at forty years or over, to rise. Only one person responded. He was asked to make a statement.

Then those converted thirty years and over were asked to rise. A number stood up. Each gave a reason "for the hope that was in them." Then a general testimony meeting followed. When an appeal was made, quite a number rose, desiring to begin a Christian life.

A very enthusiastic service for boys and girls was held at 4.20 in the afternoon. An interesting exercise at this meeting is the Books of the New Testament, set to music. The children go into it with a will. Many know them perfectly and can tell the exact location of each book. A service for the young people will be held on Friday at 4.20 o'clock p. m., when Mr. Torrie's subject will be "Why is a boy like an oyster?"

Meeting tonight at eight o'clock. Come early and bring the Torrie and Alexander song book.

Passed Away After Eating an Orange

A Brantford despatch says, — A curious coincident surrounds the death of the late Hector J. McIntyre which was recorded last week. The deceased a short time before his expiration had eaten an orange, part of which was in an over-ripe condition. He immediately complained of the effect which the orange had on his stomach which was in a weakened condition and had caused him trouble for some time past. Death resulted, due both to the condition of the stomach and to the ptomaine poisoning in the orange.

AMUSEMENTS

SERGEANT KITTY

Helen Byron, the star of the "Sergeant Kitty" company that will be seen at the Grand Opera House next Thursday evening is well known in Ontario by reason of her long connection with stock work in Toronto and Ottawa. This will be the first opportunity to see Byron in operatic work in this city although she has made a great success as an operatic star, notably in the "Wizard of Oz" and "Peggy from Paris," while in "Sergeant Kitty" she has been seen for the past three seasons with unvarying success. Miss Byron is a most winsome little body and most popular with the ladies.

SEWERS AND SIDEWALKS

Notice is hereby given that petitions for Sewers and Sidewalks must be received by the City Council on or before May 1st, next and that any such work petitioned for after that date will not be done until the work laid out is completed,

S. R. ARMSTRONG,
Feb. 6th, 1907. City Clerk.

THE STORE THAT NEVER DISAPPOINTS
"THE STORE FAMOUS FOR SMART DRESS FOR PARTICULAR WOMEN"

Have You Decided on Your EASTER GOWN
AT NO PREVIOUS STAGE in our history were we so splendidly ready to meet your requirements in selecting your Easter apparel as at the present. For months past we have been planning and selecting the nicest and most exclusive novelties in Women's Wear, with the result that our showing this season surpasses all other exhibitions of everything that charms and pleases the most fastidious and exacting of tastes. We draw particular attention to the New Eton and Poneto Suits that are a wealth of beauty and good taste—every one a triumph of the designer and tailor's skill. The Fabrics, too, are captivating in the extreme—several new weaves introduced with some of the more staple fabrics that still hold sway. The Suits are economically priced from $13.00 up to $30.00. Hundreds of New Separate Skirts and a shower of beautiful and exclusive Shirt Waists and Shirt Waist Suits ready for your selection.

A Handsome "Eton" Suit
In stylish shadow effect Pearl Gray Worsted. The Coat is an elaborately conceived idea in fancy braid and "draw" braid trimming; fancy silk trimming around inlaid collar and down front; prettily designed three-quarter sleeve: pleated skirt trimmed with gray "draw" braid........................ **18.00**

An Attractive "Poneto" Suit
In Black and White Shepherd's Check in the new ⅛ inch width; semi-fitting Coat in the latest "Poneto" cut. (which is a contraction of the Eton and Pony Coat) made with slash sides; front has vest and stole effect; elaborately trimmed throughout with fancy one inch black mohair braid. New panel pleated skirt with self application; trimmed with fine black soutache and draw braid and small black buttons........ **22.00**

Your Made-to-Order Easter Gown
Our exhaustive display of the season's popular fabrics will make it easy to solve the problem. We doubt if in any other exhibition you could have as good, and certainly not better range to choose from. Our Miss Wesley and her efficient staff of Dressmaking Artistes are kept on the go with the ever-increasing orders for Easter Gowns, which will be executed in the order received.

Peterboro' Deputation Meet the Dairymen

Addresses Delivered by the Mayor, Warden and Others—Toronto Putting Up a Stiff Fight for Dairy Show—Government Interviewed To-day

(Special to the Review)

Toronto, March 13.—The deputation from the city of Peterborough, representing the City Council, the County Council, Board of Trade, Cheese Board and Farmers' Institute, was heard this morning by the joint committee of the Dairymen's Associations at the City Hall. The Eastern and Western Ontario Dairymen's Associations, the Holstein, Ayrshire, and Jersey Cattle Breeders' Associations, were all well represented. They are most enthusiastic over the proposed show and if a decision to go ahead with the proposal is reached, it will be a big success from the start.

The Peterborough deputation arrived in the city in good time and proceeded directly to the City Hall where they were given a hearing. The speakers for the city were His Worship Mayor McWilliams and Ald R. R. Denny; Mr. F. D. Kerr for the Board of Trade; Warden P. McNulty for the County Council, and Mr. Riddell for the Cheese Board. All these gentlemen very forcibly presented the claims of this city and district and succeeded in making a favorable impression.

For the City of Toronto, Ald. Chisholm and Commissioner of Industries Harris delivered strong addresses and offered the dairymen the use of the St. Lawrence market building. This structure is a very large one, substantially built and in the centre of the city. It is well adapted for convention and exhibition purposes and is surrounded by hotels. Toronto is putting up a stiff fight for the show.

The Peterborough deputation accompanied the dairymen to the Parliament buildings, where an interview with the Minister of Agriculture was held. Everyone strongly supported the idea of a separate exhibition for the dairy cattle and dairy produce. It was also pointed out to the Minister the disadvantages of having the dairy men and the fat stock men combined, and the government was urged to assist the proposition.

A decision of when and where the show will be held will be given today and the Peterborough deputation will know whether the show comes here, and what accommodation will be required, before they come home.

MR. KERR WILL GIVE ADDRESS

Mr. F. D Kerr will give his interesting talk on "Seeing England Ireland and Scotland," at the 7th Y. M.C.A... Pr... on Saturday night at 8.15.

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends thanks to Mrs. Pinkham.

Mrs. Sarah Kellogg

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.:

Dear Mrs Pinkham: "For five years I was troubled with a tumor which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope.

"I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful periods, weakness, displacements or ulceration of the female organs, that bearing-down feeling, inflammation, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female trouble.

Mrs. Pinkham invites all sick women to write her for advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease has been advising sick women free of charge. She has guided thousands to health. Address, Lynn, Mass.

Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

DROPS INSANITY PLEA.

New Witnesses For Prosecution Will Prove Thaw Was Sane.

New York, March 13.—District Attorney Jerome has burned behind him all bridges leading to a lunacy commission, and has irresistibly pointed his course towards proving that Harry K. Thaw was sane the night he shot and killed Stanford White, and that being sane, his crime constituted murder in the first degree.

Within ten days or two weeks the case should be in the jury's hands.

Mr. Jerome yesterday played probably the strongest card he holds, evidence which came to his knowledge but a few days ago, and undoubtedly influenced him to abandon the idea of trying to send White's slayer to an asylum, and to seek a conviction under the criminal statutes.

The evidence came from Mrs. Stanford White's brother James Clinch Smith, who told a remarkably clear and succinct story of the events in Madison Square Garden the night White was killed, and of a long conversation he had with Thaw just prior to the shooting.

Acted as Though Sane.

It appears that Thaw sat for some time with Smith during the fateful first performance of "Mamselle Champagne," and discussed the play, Wall street common acquaintances, plans for the summer and many other things.

Thaw said he and his wife were going abroad later in the summer. There was no hint anywhere of Thaw's intent to inflict bodily harm upon any one. Mr. Smith did say however, that Thaw, not having a reserved seat, roamed about the garden and continually looked in the direction of spot where he subsequently killed White.

Mr. Delmas bitterly fought the introduction of this testimony for nearly two hours. He declared Mr. Smith was properly a witness-in-chief and should not be allowed to testify in rebuttal. Mr. Jerome replied that he had only known for a few days the real value of Mr. Smith's testimony and he appealed to the direction of the court to allow the testimony to go in.

New Evidence Admitted.

Justice Fitzgerald held that, in the interest of justice, the jury was entitled to all the facts. It was one of the most serious blows the judge has dealt the defence since the trial began.

Mr. Jerome said he would introduce as witnesses to-day Abraham Hummel and his stenographer. Then if his plans carried, he would conclude the state's case with the testimony of three experts, Drs. Austin Flint, Carlos MacDonald and William Maben.

It was agreed that after the defence had presented its sur-rebuttal, each side shall have one clear day for the summing up. The charge of the court will follow, and the consideration of the evidence by the jury.

The experts' evidence will not be reached before Thursday, and figuring upon the disposal of one a day, the last of the trio will not be examined until Monday next.

The defence will probably occupy the remainder of next week with sur-rebuttal and the summing up will probably begin Monday, March 25. That would bring the charge to the jury on Wednesday, March 27.

Miss Nelson's studio at St. Catharines was destroyed by fire on Sunday, causing a loss of $1,000.

Battle Ship Blown to Pieces; Seamen Were Crazed by Wounds

Eighty Sailors Killed and Hundreds Injured.

Great Battleship At Toulon Was Full of Explosives—Was Caused By Bursting of Torpedo—Rear Admiral Injured—Captain Among the Dead—Rescuers Unable to Approach.

Toulon, France, March 13.—The powder magazine on board the French battleship Jena blew up yesterday afternoon, resulting in the death of Capt. Adigard, her commander; Capt. Vernier, chief of staff of the Mediterranean squadron, and eighty bluejackets, and frightfully injuring Rear Admiral Manceron and hundreds of other men.

Naval circles are aghast at the catastrophe, and the public is stunned, coming as it does so soon after the loss of French submarine boat Lutin, in which sixteen men perished.

Practically the entire afterpart of the Jena was blown to pieces. The bodies of the victims were hurled through the air by a succession of explosions, and the panic-stricken workmen at the arsenal fled from the dock for their lives.

Scores of the men on board the Jena jumped either overboard or to the stone quays, and sustained serious injuries.

Cause of Accident.

The primary cause of the accident was the explosion of a torpedo. Why this instrument exploded is unknown, but the powder magazines of the Jena were set on fire and their contents, in exploding, ruined one of the finest vessels in the French navy.

The Jena had just undergone a final inspection of her hull and machinery. The latter had been completely overhauled preparatory to her joining the squadron to-morrow.

The crew was at its full strength, being composed of the rear admiral, twenty-four other officers and 630 men.

The magazines had been replenished recently and contained many tons of both smokeless and black powder, as well as a number of charges for torpedoes.

The crew of the Jena had just finished their midday meal and had dispersed to various parts of the vessel. Most of the men were engaged in work connected with the approaching departure of the warship, but quite a large party had been detailed to attend a lecture which was being given forward.

The first detonation was extremely violent and shook the vessel fore and aft. It was followed by other shocks. The crew were thrown into a condition of panic. They rushed wildly hither and thither about the deck.

The men forward, who had been attending the lecture, clambered over the bulwarks and jumped down, some of them to the deck, and others to the stone quay. Many of these sustained fatal injuries.

In Blinding Smoke.

The hundreds of men below were enshrouded in blinding smoke, and, while they groped their way toward the exits, suffocating fumes caused many of them to fall unconscious.

In the meantime, the explosions had become more frequent, and the entire afterpart of the Jena caught fire. Shells and charges in the magazines continued to burst and masses of metal were hurled into the air, to fall everywhere about the decks and the arsenal.

These flying missiles demolished the torpedo shed, the engine works and the pumphouse nearby, and were a menace to the lives of those who made their way toward the ill-fated battleship to begin the work of rescue. Despite the danger, many heroic efforts were made to render assistance, but for the most part in vain. The Jena was aflame, which prevented approach.

Those who escaped death suffered severe injuries, and, becoming temporary insane, rushed frantically about the vicinity of the drydock until they fell exhausted.

Then, amidst clouds of dense smoke, the search for the dead and wounded was begun. The lower decks were littered with shattered and torn bodies, while the surrounding water was dotted with human fragments.

It will be impossible to ascertain the exact number of killed and wounded until to-morrow, when a roll-call will be held, many of the men having been completely blown to pieces, while others were incinerated.

The fire is practically now out, and as soon as the battleship is free of the fumes, probably some time to-night, the work of bringing out the bodies will begin.

Mining Taxation Measure Was Discussed in the Legislature

Interests of the People First Consideration of Government.

Lobbying Story In Connection With Power Bill Is Denied—Oil Exempt From Taxation—Natural Gas Used For Domestic Purposes Gets Rebate of Ninety Per Cent.—Prime Minister Assures Fair Dealing.

Toronto, March 13.—The reiterated rumors, which seem to have grown rather than diminished, regarding alleged "lobbying" in connection with the consideration of the power clauses of the Ottawa bill in the Private Bills committee last week, called for further statements from Messrs. Ferguson (Grenville), McGarry (Renfrew), and McDougal (Ottawa), three of the members concerned, at the opening of the Legislature yesterday afternoon. They also elicited from Mr. Lucas, the chairman of the committee, who gave the casting vote against the members in question, a statement that, while he did not agree with the position they assumed, he was satisfied that the vote was the result of an honest difference of opinion.

Was No Lobbying.

Mr. Ferguson, who spoke first, regretted that the feeling seemed to be extending that there was something improper about the vote. This, he believed, was the fault of the newspapers in Toronto which in both their news and editorial columns took a position which was unfair and incorrect in reference to the matter. He gave the House his word that he had been in no way approached by any corporate interests nor had there been any attempt at lobbying so far as he was aware. There was no one keener for the people's rights as against private corporations than he.

Mr. McGarry thought it was unfair that his explanation made to the House previously, had not been accepted. He repeated his statement that he had acted of his own accord in what he deemed the best interests of all concerned.

Opinion Was Honest.

Mr. Lucas, the chairman of the committee, said he differed from the position assumed by the members in question, but he felt sure it was an honest difference of opinion.

Mr. McDougal read an interview with the Mayor of Ottawa in which he stated he was convinced that there was nothing improper in the vote, nor did it have any effect on the bill. Mr. McDougal also quoted Mr. P. D. Ross, the Conservative candidate at the last election as having declared that all disputes between the city of Ottawa and the Ottawa Electric Light Co. were finally settled, and there was no struggle now between the two.

Mining Taxation Bill.

The House then went into committee on the mining taxation bill, Mr. McDougal maintaining that the tax should not be imposed on properties now paying royalties or percentages.

Hon. Mr. Cochrane said the opinion of the Attorney General, was, that the measure was not a breach of faith on the part of the Legislature with those who had invested under the provisions of prior acts and amendments. Mr. Cochrane declared there was not a shipping mine in Cobalt that had not repaid actual money invested in developing and mining from the ore taken out of the mine.

Not In People's Interest.

To Mr. McDougal, who raised the question as to the taxation of oil, Hon. Mr. Cochrane reiterated his contention that the Government considered it would not be in the interests of the people to tax a commodity so generally in use.

Hon. Mr. Graham could not quite see why oil should be exempt if natural gas were taxed. The latter was, in many sections of the country, an every day necessity to the people.

The Prime Minister said that oil was exempted because it was a necessity in every rural home in the Province. On that proposition they were prepared to stand. The bill proposed to grant a rebate on the domestic use of natural gas, which did away largely with the objection.

Question of Royalties.

Mr McDougal asked what was being done in respect to mines which were paying royalties. The Right of Way Mining Co. were, for instance, paying 25 per cent. on its output, were they to pay an addition of three per cent?

Hon Mr. Cochrane said the percentages on output in such cases were simply part of the purchase price. They had nothing to do with the tax one way or the other.

The profits above $10,000 will be subject to a three per cent. tax, while the acreage tax will be two cents per acre or $2 per 100 acres.

The evening session was devoted to a continuance of the discussion of the mining bill in committee. The tax on natural gas, which the Minister named at two cents per thousand feet, was taken into consideration.

Ninety Per Cent. Rebate.

In response to a question from Mr. Preston (Brant), the Minister said the rebate on the gas used for domestic purposes would be ninety per cent. of the tax. This would be equivalent in its operation to an export duty.

The Prime Minister pointed out that the tax meditated an imposition on the gas exported and would thus serve to keep the gas for the people of Ontario.

Mr. Preston argued that the tax was not the perpetuation of existing taxation. The old tax, with the possible exception of one company, was not operative. The former tax was on company's earnings, not on the product as proposed.

Mr. Auld instanced the cases of Kingsville and Leamington, which had made preparation at heavy cost for a supply of natural gas for municipal purposes. He claimed special consideration for such cases.

Hon. Mr. Cochrane pointed out that the cases instanced were those of ordinary commercial character. The plants were installed on a similar basis to those of an electric lighting or other municipal plant, to which Mr. Auld retorted that it was against the spirit of municipal ownership.

Prime Minister's Retort.

Mr. Graham opined that the taxing of natural gas for municipalities was unfair and was a form of direct taxation.

"It is no use trying to work up any artificial indignation," quoth the Prime Minister. "Special cases called to the attention of the Government will be dealt with equitably."

Hon. Adam Beck characterized the Opposition as inconsistent. When in office they placed a heavy tax on every horse-power of electrical energy generated at Niagara Falls. The consumer was called on to pay it. Would the Opposition oppose a rebate of that tax if the Government should see fit to propose it?

"The question is whether an export tax is favored or opposed," declared Col. Matheson.

Mr. Harcourt argued that as there was no virtue in the 90 per cent. rebate, why not go further and place a higher percentage, to which Mr Whitney retorted that if injustice threatened the Government would protect those in danger.

THE TANNER'S COMBINE.

Mr. Fielding Denies That They Were Favored in the Tariff.

Ottawa, March 13.—Upon motion yesterday to go into Committee of Ways and Means, Armand Lavergne asked the Minister of the Interior if it was true that a bonus of 10 shillings was to be paid to booking agents for immigrants from Europe. Being answered in the affirmative, he gave notice that he would bring up the matter for discussion on Thursday.

Dr. Thompson (Yukon) called attention of the House to the gratifying reports of the geological survey. It was estimated that the gold-bearing gravel in Yukon district would yield at least $75,000,000. Dr. Thompson complained of the present form of Government, whereby six of the twelve members of the Legislative Council are appointed by the Dominion Government. He pleaded for full autonomy.

R. L. Borden discussed the curious anomaly that the funds of estates and other trust funds in Great Britain might be invested in bonds issued by Trinidad, Barbados, Ceylon and other British dependencies, but could not be invested in bonds issued by Ontario and Quebec and other provinces. He thought this due to the fact that the Imperial Government had no veto power over provincial legislation. Could not this difficulty be bridged by arranging that all provincial legislation respecting provincial securities be submitted to the Dominion Government and referred by it for disallowance to the Imperial authorities.

Mr. Fielding doubted if this would prove a remedy. The Imperial Government was very conservative, and there was a feeling in England that the trustee list should not be broadened. To do so would still further drive down the price for British consols.

The House then went into committee of Ways and Means.

A Soo Tragedy.

In committee Mr. Boyce (W. Algoma) called attention to the fate of the Canadian Electrical Chemical Co. of Sault Ste. Marie, organized to manufacture bleaching powder and caustic soda for the manufacture of pulp and paper at the Soo. Three hundred thousand dollars had been invested and the company had a payroll of $40,000. They desired a duty of 35 per cent., and the Laurier Government had jollied them along until after the general election of 1904. The company was finally forced into liquidation.

The item respecting boots, shoes, slippers, etc., was taken up. Mr. Fielding explained that the general tariff on finer shoes was increased from 25 to 30 per cent. Cheaper boots and shoes remain at 25 per cent. The boot and shoe industry in Canada paid in wages $3,700,000 annually. The American competition is quite severe, about 25 per cent. of the fine grade boots and shoes sold in Canada being manufactured in the United States.

Hyman Didn't Help.

Mr Fielding said that Mr. Hyman had not sought to influence the Tariff Commission or the Government. He denied the existing of a tanners' combine.

Mr. Roche (Halifax) said that there was a combine, but that as he understood it the tanners had combined to reduce prices and not to raise them.

R. L. Borden showed by evidence under his hand that there was a tanners' combine, and that they had been generously treated in the tariff.

Mr. Fielding said the statement had been oft repeated that the small tanners had brought the fact of a combine to the attention of the Government, but the fact was that no relief would have been afforded the complainant by recourse to the anti-combines clause of the tariff.

"This Government had knowledge of this tanners combine," said Mr. Borden, "but they did not exercise their power on account of some interest existing among the small tanners, because the small tanners did not ask them to go on."

The boot and shoe item went through, thus finishing up the tariff.

Moscow Reds Fight Police.

Moscow, March 13.—In a fight between police and a body of revolutionists yesterday, in which revolvers were freely used, one policeman was killed, two revolutionists were wounded and four were captured.

Thos. Martin, M. P., Dead.

Ottawa, March 13.—Thomas Martin, Liberal member of Parliament for North Wellington, is dead at the General Hospital, following an operation. He was ill only a week.

Plans Colonial Reception.

London, March 13.—(C. A. P.)—An official reception to the Colonial Ministers will be given by Countess Beauchamp on April 15, the opening day of the conference.

Waterworks For Simcoe.

Simcoe, March 13.—A bylaw for instituting a complete system of waterworks, to cost $70,000, was carried here yesterday.

Held Up and Robbed On Tracks.

Ingersoll, March 13.—While George Tune, butcher, was walking home on the G. T. R. tracks last night, two highwaymen dropped a bag over his head and robbed him of about $90, his receipts for the day.

Broken Rail Wrecks Train.

Port Arthur, March 13.—Sixteen cars were piled up at the foot of a steep embankment in the wreck of a westbound stock train, caused by a broken rail, east of here Monday night. Fifty horses were killed.

Warship Sent to Watch.

Victoria, March 13—The British war sloop Shearwater has been ordered to prepare for immediate despatch from Esquimalt to Central America to protect British interests in the war that has broken out.

Col. C. M. Boswell Dead.

Winnipeg, March 13.—Col. C. M. Boswell, former colonel of the 90th regiment, and one of the pioneer military men of the Canadian west, died here yesterday.

PERISHED IN THE FLAMES

Mother Dies With Her Two Little Ones.

Victims of Tenement Fire—One Babe Clasped In Her Arms, Other Clinging to Her Back—Climbed to the Cockloft — Another Tenant Overcome After Fierce Effort to Escape Through Skylight.

New York, March 13.—In a little cockloft or attic about four feet high between the roof and ceiling of the five-storey double frame tenement at 253 Bushwick avenue, Williamsburg, Mrs. Ada Bingalli was found dying of burns and smoke inhalation Monday just before noon by Battalion Chief Langdon and some of the firemen of Hook and Ladder 58. Mrs Bingalli, who was but 22 years old had climbed a ladder to the cockloft after she found that flames had cut off escape by the stairway, and she had fallen there, overcome. Clasped in the mother's arms was her three months-old baby girl. Another daughter, Maria, three years old, was on the mother's back, with her arms clasped around Mrs. Bingalli's neck. Both the children were dead.

The mother still gripped tightly a bag in which were $31 and a bank book. She died soon after she had been carried down the ladder from the roof to the street. In the loft, a few feet from where the mother and two children were found, lay a young Italian named Pietro Banaitro. The youth's face and head were cut and bruised where he had struggled savagely to get through the small skylight. If the skylight had been latched on the inside, as it should have been, instead of being nailed to the roof, Pietro, Mrs. Bingalli, and the two little ones that she was trying to carry to safety probably would have been able to reach the roof. Pietro, the physicians say, will die.

SUFFOCATED BY GAS.

Two Buffalo Sisters Found Dead In Their Room.

Buffalo, March 13.—Augusta and Mary Littlefield, sisters, were found dead in their room at a boarding-house on Franklin street yesterday. They were seated at opposite sides of a table and had evidently fallen asleep and had been suffocated by gas from a small stove in the room. They were about 40 and 35 years of age respectively.

KILLED BY ICICLE.

Trolley Car On Gorge Route At Falls Struck—Motorman Dies.

Niagara Falls, N.Y., March 13.—A huge icicle dropped from the cliffs of the Niagara Gorge on a trolley car of the Gorge road yesterday as it was passing the whirlpool rapids. Motorman Everet Ramsdell was killed. Dr. and Mrs. M. B. Nervy of Sioux City, Iowa, and Miss Nervy were struck on the back and badly bruised and S. S. Lindsay and wife of Pittsburg were injured, the former having his hand smashed. The injured were taken to the Prospect House.

Kidnappers Demand $1,000.

New York, March 13.—Kidnappers written to a New York detective agency, apparently from some point in Canada, threatening to kill 4-year-old Horace N. Marvin, jr., of Kitts Hammock, Delaware, if $1,000 in gold is not paid to them at once.

This is the second letter from the alleged kidnappers, the first, which was received yesterday, demanding the payment at some obscure point in Canada.

Baby Immigrant Dies On Train.

Montreal, March 13.—Lewis Chittender has applied for a burial permit for his baby boy, which died on a train while coming from Halifax. The father says his wife and five children were exposed on the steamer Virginia more than two hours, and that an accident to the train prevented him from getting the child to a doctor in time.

Mob Held Up Car.

Louisville, Ky., March 13.—One of the eight cars sent out by the street railway company yesterday was held up by a mob of 200 persons. After a fight with the police on board, three arrests were made, and the car proceeded down town with several windows shattered. The suburban service has not been resumed.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

The first proceedings interested her little—the reading of Jamaica's late memorial to the king—and her gaze wandered. Through the open windows she could hear the hum of the great crowd about the building and catch a glimmer of the foaming James. The space below her was packed and full of a strange intentness.

Here and there she could see faces which she knew. The ladies of Richmond were scattered through both galleries. Freneau and young St. George Tucker were leaning over the rail opposite. Jefferson and Colonel Benjamin Harrison of Berkeley sat together just below Peyton Randolph, the president.

Colonel Washington sat far back, hands on knees, quiet and meditating, and just below her Mr. Thomas Nelson shifted nervously in his seat, turning his eyes now there, now here.

Well to the front sat Richard Henry Lee of Chantilly, "the gentleman of the silver hand." The black bandage he wore over his hand fascinated her. She had heard it said he wore it to hide a wound he got swan shooting on the Potomac.

Her attention came back with a start as she heard the resolution in answer to Jamaica that "it is the most ardent wish of this colony, and we are persuaded of the whole continent of North America, to see a speedy return to those halcyon days when we lived a free and happy people." As she looked down at Henry, Anne saw that he was scribbling on a scrap of paper.

There was a hush as he arose and a buzz of expectancy as he mounted the rostrum. He held in his hand the paper upon which he had been scribbling.

Anne felt a touch of disappointment at the cold, [illegible] quality of his tone. With that flickering half smile which meant dissent he moved an amendment to the Jamaica resolutions. He read without a gesture, in pronunciation as plain as homespun. His voice moved evenly, almost carelessly, over the periods.

But as he progressed the assembly awoke with a shock, and Anne saw a certain ripple almost of alarm surge over it. Henry had spoken the phrase, "our inestimable rights and liberties."

At that moment the speaker raised his voice, and the last words came challenge-like, the snap of a whip. "We do resolve, therefore, that this colony be put in a state of defense and that there be a committee to prepare a plan for embodying, arming and disciplining such a number of men as may be sufficient for that purpose."

Anne looked at Henry in the black clothes and tie wig which set off his face and drew a breath. The humility, the diffidence, the modesty of address were gone, and in their place was sternness. Even his voice had grown harsh, as though in menace, and on the convention, uncertain and wavering, those lovers of the "halcyon days," the menace fell. It was the plunge from hesitation to resolve, from expostulation to powder. The fire had fallen!

Henry knew his men. All these years he had been learning them, drawing them out, questioning, story telling, watching effects, experimenting in their emotions.

His eye held every man within those walls. He turned it upon Richard Henry Lee, and he, his polished oratory forgot, hurled a blunt second at the chair.

Mr. Pendleton, Colonel Harrison, limping from the gout, and Colonel Richard Bland got upon their feet with arched frowns, barking that such action was "premature," and at the word Anne saw a pale scorn burn Henry's face. These, who had so lately sat in the Continental congress, prated of "dignified patience," "filial respect and discretion," "the relenting of the sovereign," "the nakedness of the colonies."

Anne had afterward no certain recollection of how Henry began in answer. All impression was swallowed up in that thrill which held every hearer. It has been said that he spoke as Homer wrote.

"Shall we shut our eyes—we wise men struggling for liberty—and listen to the song of the siren till she transforms us to beasts?" he cried. "Shall we, having eyes, see not, and, having ears, hear not the tidings of our temporal salvation? For my part I will know the worst, and I will provide for it. I cannot judge the future but by the past, and by the past how shall you solace yourselves? What is there in the conduct of the British ministries of the past ten years to justify hope?"

As he went on passion crept over his face like the wind that precedes a storm; his lean neck was scarlet and corded with white lines, and his eyes glared hollowly.

"Do you regard the insidious smiles with which our petitions are received? Be not betrayed with a kiss!"

Sitting in a quiver of feeling, with fingers clasping the gallery ledge, Anne felt the shaken pulses of the audience. Under the intrepid metaphor she saw the messenger of the colonial assembly standing before the king's attorney general entreating that Virginia had souls to be saved as well as England, and the brutish answer: "D—— your souls! Make tobacco." She saw the colonies supplicating on their knees, spurned, contemned, spit upon. She saw the chains forging, navies building, armies gathering. She saw British ministers, like harpies, with cold eyes upon the green of the Americas.

Henry's voice had risen louder, more intense, and his colorless features and eyes of fire had become terrible to look upon. He sat upon the whirlwind. The very walls seemed to rock with vibrations.

"There is no longer any room for hope. If we wish to be free, if we mean to preserve inviolate those privileges for which we have been so long contending, if we mean not basely to abandon the struggle we have vowed never to abandon until its object be obtained, then we must fight. We must fight! An appeal to arms, to the God of Hosts, is all that is left us."

Anne dragged her eyes from Henry's. Amid the sea there was one face that had not moved a line. It was Colonel Washington's. He sat stonelike, as immovable [illegible] at his prayers, his hands still upon his knees. He was as a soldier should be—cool of head and saving passion for the hand. And as a soldier he was slow to disallegiance. But cold as he seemed when Henry bent the wills of that assembly and whipped the conservatives to the wall, there was a glitter in his eye that leaped to flame behind the quiet mask.

"They tell us that we are weak. When shall we be stronger? Will it be next week, or next year? When we are totally disarmed and when a British guard is in every house? Shall we lie still till our enemies have bound us hand and foot? We cry 'Peace, peace,' but there is no peace. Why stand we here idle? What do you wish? We are three millions of people, armed in the holy cause of liberty and invincible! We shall not fight our battle alone! The war is inevitable, and let it come! Let it come!"

Henry's voice, which had been like a battle shout, sank in his throat. His form bowed itself in the attitude of a galley slave. On his crossed wrists the felon's manacles seemed actually to be visible. His very tone thrilled helplessness and heartbroken agony.

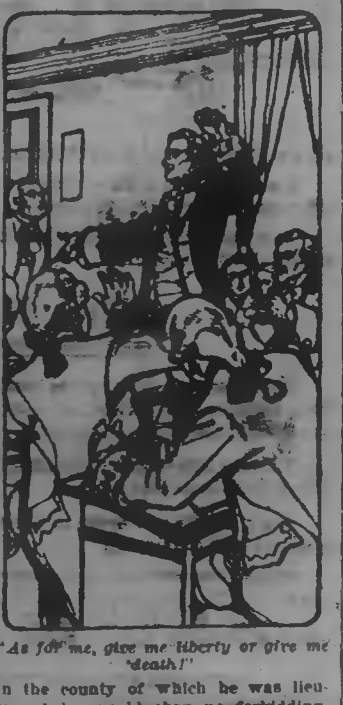
"And if we chose," he said heavily, "there is no retreat save slavery. Our chains are ready. We may hear their clanking on the plains of Boston! Is life so dear or peace so sweet as to be so purchased?"

He lifted his chained hands toward heaven. "Forbid it," he prayed, "Almighty God!"

With the words he straightened. His tendons strained against the fetters, and they fell from his wrists as he sent a look at the quaking loyalists of the house that chilled their blood.

"I know not what course others may take"—oh, the hissing scorn of that now triumphant voice!—"but as for me—as for me—give me liberty or give me death!"

Anne heard what followed as in a dream. She heard the studied oratory of Richard Henry Lee, aided by the elegant gestures he practiced before the mirror. She heard Thomas Nelson, the richest man in Virginia, no longer shifting in his seat, now crying out that if British troops should be landed in the county of which he was lieutenant he would obey no forbidding, but call his militia and repel them at the water's edge.



"As for me, give me liberty or give me death!"

She saw standing on the committee appointed to carry out Henry's resolution to arm the colony—greatest marvel of all—the very men who had cried out against it, Mr. Pendleton, Colonel Harrison, Colonel Bland.

At that moment a vast army began forming. From those walls in which later Benedict Arnold was to quarter his British marauders the message flew that day. One by one the battalions gathered, strong, but invisible. They were not called by drum or trumpet. They had no camp nor field nor garrison. But at plow, in shop or in chamber the recruits silently answered the summons and stood ready.

It had been the hour and the man. The hour had started the initial impulse of the Revolution, and the man was Patrick Henry.

CHAPTER XII.

"SHUT the door!" the earl commanded.

Foy did so and returned to his seat across from the governor in the arras walled council chamber at the palace. He sent a snaky look at Armand, who sat at ease in egg-blue satin and lace, attired for the evening's rout. And the look was malevolent.

Lord Dunmore's face this night focused slow hate, and he sat hunched in his chair. "Has Conolly come from the ship yet, Foy?" he asked.

The other shook his head.

"Hell's tooth!" raved the earl, leaping from his seat and striding up and down. "I'll show them! Tomorrow they shall whistle for their powder! There are the Indians still, and then the slaves. If I have to raise the plantations I'll bring these snivelling rebels to their knees! Freedom, forsooth! [illegible] for the king's in the Virginias!"

He paused in front of Armand and beat the table with his fist.

"And the slipperiest of them all you shall snare us, my fine marquis. 'Tis Patrick Henry! Haunch of a basted swine! A nice picture his tongue licks up for the clods! He is in Williamsburg tonight, and he shall not leave it till he sails for London and a gallows tree!" He strode off again in a rage, his face working like a Satan's.

At last he left off. "Give him his orders, Foy," he said quickly.

Foy leaned forward, chin in palm, and spoke.

"You will write a message now to Henry which I shall dictate. It will state that you are in receipt of news from France affecting the colonies and desire his immediate presence at a place which I shall name. You shall go thither to await Henry and detain him there till my own arrival with an armed file. Do I make myself clear?"

The young foreigner waved his embroidered arm lightly. "I beg to remind his excellency of our bargain."

The governor faced around with something like a snarl and sat down heavily.

"I was to write certain letters to De Vergennes, King Louis' minister, and to Beaumarchais—letters in the hand of the Marquis de la Trouerie, signed with his signature and seal. These have been written. They have said of the situation in this colony only what you would have them say, have they not? And you have sent them. Is it not so?"

To be continued.

A FATAL COLLISION.

One Man Killed and Three Injured at Massachusetts Town.

Williamstown, Mass., March 13.—One man was killed and three were injured here yesterday in a head-on collision between a freight train and a train of express cars on the Fitchburg division of the Boston and Maine Railroad. The accident occurred at the entrance to the local railroad yards.

The crew of the freight say that signals had been put out, but the engineer and fireman of the other train assert that no signals were visible when they came around the curve at the west entrance of the train yard. Both engines were badly smashed in the collision, and three freight cars and one express car were wrecked. The fireman of the freight, C. C. Ransom, of Rotterdam, N. Y., was instantly killed. None of the three injured men were fatally hurt.

Venturesome Man Lost.

Glace Bay, N. S., March 13.—Monday evening an unknown man was noticed on the ice pans about a mile from shore at New Aberdeen. The ice parted and he was unable to reach shore. The wind carried him out to sea.

Killed at Crossing.

Sherbrooke, Que., March 13.—W. J. Graveson, farmer, of Ascot, was killed on the Quebec Central track near Ascot corner Monday evening by the evening express from Quebec. The deceased was about 40 years of age and leaves a widow and eleven children, the eldest being 12 years of age.

15 Were Drowned.

Redding, Cal., March 13.—A train crew crowded to the end of a ferryboat on the Pitt River and upset it, 15 being drowned, yesterday.

Matrimonial.

Three Germans were sitting at luncheon recently and were overheard discussing the second marriage of a mutual friend when one of them remarked:

"I'll tell you vhat. A man vhat marries de second time don't deserve to have lost his first vhife."

Port Hope Flouts G.T.R. Proposal

Indignant at Request to Fill in the Viaduct

A Port Hope despatch says:—A largely attended meeting of the Town Council, Harbor Board, and representative citizens was held in the Council Chamber here to-night to protest against the proposed action of the Grand Trunk Railway to fill in the viaduct and close several streets. The G.T.R. made application to the Railway Commission for permission to carry out this scheme early in February, and it was not until Saturday last that Port Hope received any information about it.

For the past year the G.T.R. has been asking Port Hope and Cobourg for all manner of concessions, on the promise of the Ontario car ferry terminal from Charlotte, N.Y. This is now considered to be simply a plan to shut out the C.P.R. and C.N.R. from the water front. Every effort will now be made to block this latest scheme. If it were carried out several of the important streets leading to the harbor would be closed up, the town separated from the lake, and practically the only entrance to the harbor, upon which is situated one of the largest manufacturing establishments, would be Queen street. The town's chances of ever securing a competing line of railway would be lost. A strong resolution was unanimously passed recording earnest disapproval of the proposed changes, and asking for, if possible, the hearing of the case by the [illegible] in the town of Port Hope [illegible] personal inspection of the ground and structure.

A public meeting will also be held on Friday night to take further action to protest against this high-handed propposal of the G.T.R.

Cobourg Inventor is Satisfied

Believes That He Will Realize Handsomely out of His Invention

The Cobourg Sentinel-Star says:—We received a letter this week from Mr. J. B. Climo, Detroit, in reference to an article in last week's paper as to an invention of a Cobourg boy. We had it Cline instead of Climo. We congratulate our old townsman and trust that he may have all kinds of success. The following is what he says:—

Reading in your issue of March 1st "A Cobourg Boy's Invention," and realizing from the item that you may have gotten it from an indirect source, as there are some statements made that are just right, viz, you say Climo sold his interest for a few hundred dollars, which is true as far as the cash is concerned, but I also hold very large block of stock as well as an important seat in the Company, and I also have the Canadian and English patents yet to sell.

This Company may work out to something enormous, and should this prove correct my holdings will be very satisfactory to me, and in the meantime I am quite willing to work at my trade, and on other devices that I am now bringing out.

Assessment Commissioner Thorburn, of Brantford, has been dismissed and the work will be done under the old system at a saving of $1,000.

Milton Devitt, of Burlington, was buried under a straw stack for twenty minutes and died shortly after being taken out.

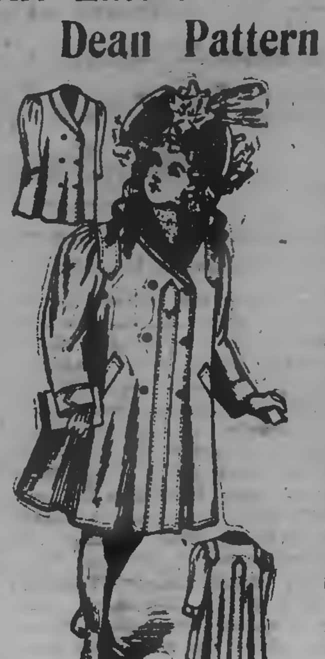
The Latest Dean Pattern



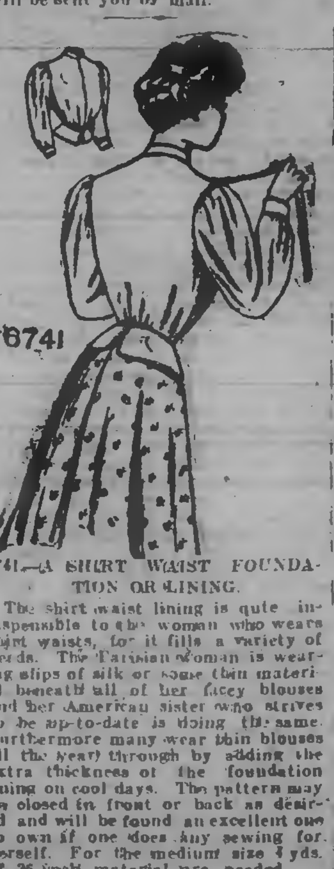
4164.—A PRACTICAL COAT FOR ANY SEASON.

A style of coat which is always good and never inappropriate is shown and the home dressmaker will find it most practicable for her making. The only seams to be closed are the [illegible] shoulder [illegible] is needed. The fronts close in [illegible] double breasted fashion and the rolling collar completes the neck in a pretty way. The trimming bands shown are but a suggestion for its adornment, but need not be used at all, or may be replaced by a narrow braid or pretty buttons. The coat is one suitable for development in any seasonable fabric from cloth to linen.

For the medium size 2 yards of 54 inch goods are needed.

4164.—5 sizes, 4 to 12 years.

The price of this pattern is 10c. Leave your order and ten cents at the REVIEW OFFICE and pattern will be sent you by mail.

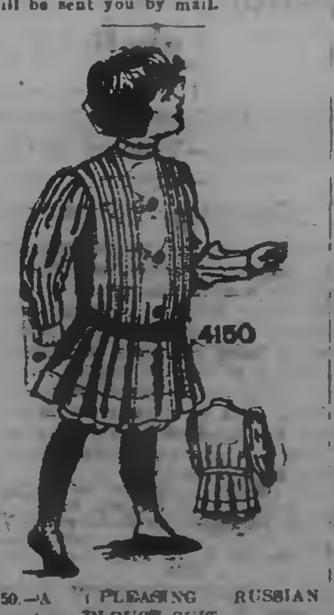


6741.—A SHIRT WAIST FOUNDATION OR LINING.

The shirt waist lining is quite indispensable to the woman who wears shirt waists, for it fills a variety of needs. The Parisian woman is wearing slips of silk or some thin material beneath all of her facey blouses and her American sister who strives to be up-to-date is doing the same. Furthermore many wear thin blouses all the year through by adding the extra thickness of the foundation lining on cool days. The pattern may be closed in front or back as desired and will be found an excellent one to own if one does any sewing for herself. For the medium size 4 yds. of 36 inch material are needed.

6741.—Sizes 32 to 44 inches bust measure.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.



4150.—A PLEASING RUSSIAN BLOUSE SUIT.

Mothers everywhere who fashion children's frocks appreciate the Russian styles because they are practical, being free and comfortable and an excellent towards trousers. The small blouse suit shown is developed in white flannel with a red leather belt for contrast. The front is tucked to the waist line the sleeves being finished with box pleats instead of cuffs. The low standing collar is a trig neck finishing for boys as it does away with the linen collar and tie which are always becoming soiled and needing frequent changing. The knickerbockers are full and easy for all of the boyish pranks, and made without a fly. Any of the worsteds, such as serge or cheviot as well as linen, crash or another washing fabric might be used. The medium size calls for 1 3-4 yards of 54 inch material.

4150.—Sizes 3 to 8 years.

The price of this pattern is 10c.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

C.P.R. employees in the Winnipeg shops may strike in an attempt to enforce the closed shop.

Liberals at Morris, Man., expect to defeat Attorney-General Campbell on a recount.

HOME SEEKERS

Now that all building material and labor are going to increase to such a degree for the coming season, it would be well for you to secure your homes before the advance in price. We have a few nice ones at last year's prices. First come, first served. Lots of lots in all parts of the city.

Budget of News From Graystock

Graystock, March 13.—We are pleased to learn that Mrs. John Lancashire, who has been dangerously ill for some time, is improving.

Many of our villagers who have been confined to their homes with severe attacks of la grippe, are about to be about again owing to the very fine weather.

Wood hauling and general teaming are things of the past.

Mrs. John Kindred and daughter, Grace, who have been spending several weeks with friends in Westwood, have returned home.

Mr. Thos. McIntyre, Keene, and Mr. Jos. Dionne, of this place, were the guests of Mr. Henry Reed, last Sunday evening.

Mrs. James Weaver of Coboconk, is at present visiting with her sister-in-law, Mrs. Henry Reed.

Miss Mary McWilliams of Peterborough, is spending a few days with her many friends here.

Dancing parties are almost a thing of the past, but we are promised with what is to be the largest one of the season at the home of Mr. James Mandy, in the near future.

Mr. Henry Reed has made himself a present of a fine Peerless incubator and intends to raise many fine birds this coming summer. We wish him success in his undertaking.

Successful Sale of Farm Stock

Thos. Nicholl of Harvey is Going to Manitoba to Take up Farming

High prices and quick bidding were the ruling features at Mr. Thomas Nicholls' sale in the township of Harvey, yesterday. The sale was conducted by Mr. C. Stapleton & Son, and was most successful in every respect, the gross receipts amounting to $3260. Mr. Nicholls is leaving shortly for Manitoba, with his family, where he will take up farming on the prairies, and he sold off his farm stock and implements. The prices for live stock was exceptionally high. Horses sold at from $85 to $182 and milch cows averaged $42.

WEDDING BELLS

SNELGROVE—SWEETING.

In the presence of a number of friends and relatives a very pretty and popular wedding was performed on Tuesday in Smith. The contracting partres were Mr. Percy Snelrove son of Mr. Jacob Snelgrove, and Miss Mary Jane Sweeting, only daughter of Mr. Manning Sweeting, of North Smith. The ceremony was performed at the home of the bride's parents, by Rev. Mr. McKinnon, pastor of the Gilmour Memorial Baptist church. The bride, who was attended by her cousin, Miss Ethel Harrington, of Peterborough, was very becomingly gowned in white organdie, trimmed with Valenciennes lace and insertion, and she carried a beautiful bridal bouquet. Mr. Bruce Snelgrove assisted his brother, the groom, while Miss Mabel Chasty of Peterborough, gave an excellent rendition of the wedding march. Many handsome and valuable gifts were received by the bride, who is very popular with a large circle of friends. After the ceremony a fine wedding breakfast was served, and the happy young couple left for their home at the Snelgrove homestead followed by the hearty good wishes of their friends.

Keene and Lang Played Tie Game

Interesting Hockey Match Which Ended 6-6—Other Notes

Keene, March 13. — Miss Belle Humphries, of Hastings, is the guest of her aunt, Miss Elizabeth Drummond.

Miss Frost, who has been visiting friends in the village, returned to Havelock last week.

Mr. Andrew Cameron, Hastings, was in the village Monday.

Miss Mabel Harrison spent Friday in Norwood.

Mrs. (Dr.) V. H. McWilliams returned Saturday from visiting in Toronto.

Misses Mabel Harrison and Blanche Clarry spent Sunday in Hastings.

Miss Maud Campbell returned on Monday from visiting friends in Hastings.

On account of the soft weather, the skating rink was closed on Tuesday evening.

Mr. A. B. Fee, of the staff of the local branch of the Bank of Toronto, spent Sunday in Barrie.

Mr. George Eason, of Westwood, was in Keene Saturday.

Don't forget the Hockey Club concert on Friday evening, March 22nd.

Mr. J. R. McIntyre attended the funeral of the late Mr. William Howson in Norwood on Monday.

Keene and Lang hockey teams played a fast and exciting game on Monday evening, resulting in a score of 6—6. The ice was, in spite of the weather, in excellent condition, and the spectators were treated to a fine game. Mr. J. R. McIntyre acted as referee with satisfaction to both teams. The line-up was as follows:

Keene		Lang
Dean	Goal	Fife
McIntyre	Point.	Speirs
Weir	Cover	Edwards
Newton	Rover	Dinsdale
Quinn	Centre	Walsh
Dickson	Right Wing	Edwards
McIntyre	Left Wing.	Dinsdale

Will Establish Motor Car Line Between Lakefield and Peterboro'

Mr. Fred Darcy Has an Important Project in View—Auto Car Will Make Frequent Trips and Will Doutbless be Well Patronized.

Special to the Review.

Lakefield, March 13th, 1907.—Mr. Fred. Darcy, of Peterborough, was in Lakefield on Tuesday.

Mr Darcy intends embarking in a new venture this spring, in the way of establishing a motor car omnibus business between Peterborough and Lakefield.

Seeing that the street railway project is still in the clouds, Mr. Darcy should be enabled to do a profitable trade, as there is a crying need for swifter and more frequent connection between these two points.

Mr. Darcy was promised every encouragement, and there is no doubt but that his enterprise will be appreciated and the large motor car which he will place on the route will be largely patronized.

Young Dickson's Injuries Were Sustained Accidentally

Somewhat Strange Turn in the Case of Wm. Dickson, of Westwood, Charged With Assaulting His Son.

Wm. Dickson, the Westwood farmer, charged with assaulting his son on January 15th, was acquitted in the county police court yesterday afternoon. The case was tried before Mr. D. W. Dumble, County Magistrate Edmison not occupying the bench, on account of the defendant being a former client of his. Evidence was given by William Dickson, the boy who was alleged to have been assaulted, Fred Dickson, a younger brother, Cassie and Mary Dickson, sisters, Henry Elmhirst, an uncle of Wm. Dickson, jr., and John Elmhirst, son of Henry Elmhirst. There was nothing in their testimony to show that the father had assaulted the son. The boy had received slight injuries, but it was shown that they had been caused by an accident.

It will be remembered that at the time the assault was said to have taken place it was said that Dickson had viciously assaulted his son because the boy persisted in chewing tobacco. It was shown that this story was without foundation.

Crown Attorney Wood, looked after the case for the Crown and Mr. F. D. Kerr looked after the interests of the defendant. A large number of residents of the vicinity of Westwood were present at the trial.

WM. DICKSON, JR.

William Dickson, jr., the boy who was alleged to have been assaulted, said he was the eldest son of the defendant. He was nineteen years of age. On the morning of January 15 he hitched the horses to the sleigh with the intention of drawing logs. On the sleigh was a wood rack with a bottom of two planks. Witness and his father were taking the planks off the sleigh and placing them across the top of a fence, used to form the walls of a pig pen. His father got across the fence and had one end of a plank in his hands. Witness held the other end of the plank. His father slipped and the plank fell back and struck witness on the side of the head over his right ear. He remembered being knocked down but did not remember getting up. He did not remember anything further until he ate his dinner at his Uncle Jack's, four or five miles away. To questions by Mr. Wood, witness said that the same morning his father had seen him with some tobacco and had taken it from him. This was all the trouble there had been between himself and his father. He did not know how he got to his Uncle Jack's. He remained there for three or four days. His mother and brother Fred came after him the same afternoon as he was injured. His mother wanted him to go home, but he refused. He was going to stay and help his Uncle Jack get out his wood. He came to his senses about dinner time. He was able to work next day and helped his Uncle saw some wood. Witness said he went home on Sunday when his mother and brother came after him. Witness stuck to his story about having no trouble with his father except the tobacco incident and that was not serious.

FRED DICKSON

Fred Dickson, a younger brother of the previous witness, said he was fifteen years of age. He was in the stable when his father discovered William, jr., taking a chew of tobacco. His father asked William for the tobacco, and the boy gave it to him. This was all that happened. He helped his brother hitch the horses to the sleigh and then left to do the chores. He was not present when the rack and planks were taken off the sleigh. When he came out of the stable, his father, and the horses and sleigh were gone. His brother came to the stable and told witness that he had better go to the woods with his father as he was not going. He did not notice that his brother's head was injured. Witness told about going after his brother, accompanied by his mother. The other details of his story did not differ from that told by his brother.

JOHN ELMHIRST.

John Elmhirst said he was a son of Henry Elmhirst, and a cousin of the Dickson family. He remembered William Dickson, jr., coming to his father's place on Tuesday forenoon, January 15th. He came there about nine o'clock, his sister bringing him in a cutter. William was dazed and did not talk sensibly. He said he wanted to go to his Uncle Jack's, and that he had left home because his father had hurt him. Witness harnessed a horse and drove young Dickson, to the home of his uncle, Mr. John Dickson, who resides about four miles from the Elmhirst home. Dickson, jr., had not told him any details as to how he was injured. He noticed that the youth's nose was skinned, but he did not see the injury on his head.

HENRY ELMHIRST.

Henry Elmhirst said he lived at Westwood, and was a brother-in-law of William Dickson. He remembered William Dickson, jr., being brought to his home on the Tuesday morning in question by his sister in a cutter. The boy was in a dazed condition and did not seem to know what he was doing. He wanted to go to his Uncle Jack's and witness arranged to have him sent there. Witness did not try to find out any further particulars regarding the affair as he regarded it as a family matter and did not want to interfere.

CASSIE DICKSON.

Cassie Dickson, an elder sister of the boy, who was supposed to have been assaulted, said she had not heard of any trouble between father and son on the morning in question. She caught up to her brother on the road while driving the younger children to school, and he appeared to be in a dazed condition. He wanted to go to his Uncle Jack's, but she did not have time to take him there, as her mother was waiting at home for the horse and cutter. She drove him as far as Henry Elmhirst's, and asked Mr. Elmhirst to drive him the rest of the way. Her brother did not tell her how he was injured.

MARY DICKSON.

Mary Dickson, a younger sister of William, jr., was in the cutter, when they overtook the boy on the road. Her story was practically the same as her sister's.

This was all the evidence. Mr. Wood said he could not ask for a committal on the face of the evidence.

Mr. Dumble in dismissing the defendant, said he was glad that it had been brought out that the father had not ill-treated his son. He would be very sorry indeed to think that such an affair could have happened, in a family like the Dickson one appeared to be.

Sanitary Inspector Ball Visited Lakefield on Inspecting Tour

Found the Sanitary Condition of the River to be Satisfactory—Village Will Have all Night Phone Service—Organ Fund for House of Refuge is Growing—Petitions for New Walks.

Lakefield, March 13.— Mr George Ball sanitary inspector, of Peterborough, was in the village Tuesday looking into the sanitary condition of the river. He reports matters as being eminently satisfactory, which it may be hoped, will ease the minds of Peterborough residents, some of whom seem to be under the impression that there is a good deal of contamination of the river at this point.

Mrs. Weddell, daughter of Mr C J. Blomfield, left for her home in British Columbia, on Monday last.

Mrs F. J. Tate, accompanied by her son, Mr. E. R. Tate, went to Toronto on a visit.

THE ORGAN FUND

Messrs. Finlay and Bradburn have kindly donated five dollars each towards the organ fund of the House of Refuge. The amount now on hand is about $36.

Mr. J. S. Kelly is in Toronto this week on private business.

NEW PHONES

The Bell Telephone Company are making a big increase in their exchange through the energy of their local managers, Messrs. C. H. Tanner and Bro. Some twelve new orders have been obtained and a night service for the village is now assured. Lakefield is going ahead.

QUILTING BEES

The ladies of the Presbyterian and English churches both held quilting bees on Tuesday last, the first named at the Sabbath school and the latter at the residence of Mr. J. P. Strickland.

Mrs A. S. Butchart returned home last week to Lakefield, after a lengthy visit to her friends at Owen Sound.

Miss Degne, of Peterborough, is in the village on a visit to Mrs. H. G Fitzgerald.

Rev Canon Davidson, of Peterborough, was the preacher at the Lenten service at St. John's church on Friday last.

NEW BRIDGE AT POINT

Mr. J. E. Kearney, of Young's Point, was in Lakefield on Tuesday and reports business rushing at the locks. The new bridge will soon be erected, as a big staff of men are engaged at it, under the superintendency of Mr. Buchanan.

Mr. Abraham Kennedy, of Bobcaygeon paid a visit to Lakefield on Tuesday last.

COUNCIL MEETING

The regular meeting of the Council was held on Monday last, all the members being present.

It was moved by Coun. Duff, seconded by Coun. Campbell, that a communication received from the mayor of Campbellford, asking that a delegation be sent to Ottawa re terminus of Trent Valley Canal be received.—Carried.

The finance committee presented their report, which was as follows:

Gentlemen:

We, your finance committee, having examined the accounts mentioned in the following list, and finding the same correct, recommend that they be paid.

Electric Light Co., $45.14.
Lakefield News, $7.00.
Wm Smith, labor, $10.50.
C. Graham, 35 loads gravel, $35.00
School Board, on account of rates, $800.00
Total, $897.64.

J. M. BYGOTT,
Chairman

The report of the finance committee was, on motion of Councillors Bygott and Fitzgerald, received and adopted.

Moved by Coun. Duff, seconded by Coun. Campbell that the report of the auditors for the year 1906 be received and adopted and that order be issued for their salary.—Carried.

The auditors' report states that the total receipts for the year amounted to $16,972.69 and the expenditure $16,928.68, leaving a balance of $44.01 on hand.

Moved by Coun. Fitzgerald, seconded by Coun. Bygott, that the Council grant to the Library Board the sum of $125 for the year 1907.—Carried.

Several petitions from owners of real property in the village, asking for cement sidewalks, were presented to the Council and referred to the road and sidewalk committee for consideration.

The council then adjourned.

Smith Council Held Meeting

All Animals Running at Large Will be Impounded

The council of the township of Smith met at the County Council Chamber, Peterborough, on Monday, March 4th. All the members present the reeve in the chair.

The minutes of the last meeting were read and confirmed.

A by-law was introduced by Mr. Garbutt seconded by Mr. Graham dividing the township into pound divisions for impounding animals for trespassing and running at large; to divide the roads into road divisions for the performance of statute labor thereon, and the expenditure of commutation money paid in lieu thereof and to appoint pound keepers, overseers of highways and fence viewers for 1907, and it passed its several readings and was signed and sealed.

Moved by Mr. Garbutt, seconded by Mr McKee, that the sum of $39.83 be allowed the collector over the roll of 1906 and that the clerk be instructed to return $37.83 of this sum to the county treasurer, to be charged against lands.

On motion of Mr. Graham, seconded by Mr McKee, the treasurer was instructed to pay W. J. Young the sum of $1.50 per month, from December 1st, 1896, to May 31st, 1907, for the premises occupied by Mrs. Hill at Young's Point.

Moved by Mr. Garbutt, seconded by Mr. White, that the auditor's report be received.—Carried.

On motion of Mr. White, seconded by Mr Garbutt, the clerk was instructed to have 200 copies printed for distribution.—Carried.

Moved by Mr. Graham, seconded by Mr. McKee, that the following claims be paid:—Frank Head, work on road, $1.00; R Gibbs, hack, removing patients to House of Refuge, $5.00.—Carried

The Council then adjourned, to meet on Monday, the 8th day of April.

Downie St. Creek Is Not Flooded

Board of Works Chopped the Ice Out of the Channel and Water Can Run Away

So far this spring, the Downie street creek has behaved itself very well. There has been no flood at all, and the residents of that neighborhood are very thankful to the Board of Works department. Other years when the snow and ice started to move out, the neighborhood of this creek has been flooded for blocks. Houses have been surrounded with water and even floated away. Great damage has been done gardens and lawns and worst of all lives have been lost in the flood.

A couple of weeks ago, however, the department of public works, sent a couple of men up to the creek, and had the ice chopped out of the channels so that a clear passage has been left for the water to run away. Had this not been done there would have been a flood as usual, although probably not as serious as in other years on account of the little snow this year.

Gave Address in Stewart's Hall

Rev. C. H. Brooks, of Grafton, Spoke on People and Religions of Turkey

The weather on Tuesday night was anything but favorable. The night was dark, and the roads were in a bad condition, and yet a large attendance, numbering about seventy, was present at Stewart's Hall, Otonabee, to listen to the missionary lecture of Rev. C. H. Brooks, of Grafton, on "The Peoples and Religions of Turkey." Rev. S. A. Langfeldt occupied the chair and opened the meeting with prayer. Rev. Mr. Brooks, who for eighteen years, has been a missionary at Constantinople gave a graphic description of the various religions and people of the much misunderstood country. A liberal offering was given for missions, and the audience appreciated very highly the lecture which gave them much valuable information.

"THE DAYLIGHT STORE"
MEN'S TEN DOLLAR SUITS

Good Suits at a medium price is a very scarce article in most stores this season.

There has been a big advance in the price of woolens, trimmings, labor and in fact everything that goes into a Suit of Clothes.

Now we have picked out a line of Suits in different patterns that can't be beat at the price.

The Result

To-day we are showing the best $10.00 Suits the city affords. The best tailoring, the best fabrics and the best of everything that it is possible for the money to procure.

The man who wants a medium-priced Suit will make a bad blunder if he fails to come here for it.

See a few Sample Suits in our window. The quality and appearance are both convincing.

The tea table, decorated with spring flowers, was in charge of Mrs. Weston, of St. John and Miss Crossen. — Toronto Star.

NOTES OF THE DAY

Mr G. C. Dessaulles, of St. Hyacinthe, Que., has been appointed to the Senate in the place of the late Sir Wm. Hingston.

James H. Bell, a cook on one of the Upper Lake vessels, died at Chicago.

While crossing the Sacramento River near Redding, Cal., in a boat, 22 Greek laborers were drowned.

Accused His Brother of Having Given Information

Wm. Dickson, of Westwood Was Going to Lay Strong Hands on Him When Bystanders Interfered

It may be "all in the family," as the saying goes, but it appears that there exists a rather strange state of affairs in the relations between Wm. Dickson, the Westwood man, who was tried in the county police court yesterday on the charge of assaulting his son, and one of his brothers, who resides in the same locality. It seems that the Dickson who figured in the police court case, accuses his brother of having been instrumental in having the charge laid against him, although the county police officials state emphatically that such is not the case. It is said that there has been bad blood between the brothers for some time, and after the case was over yesterday, Wm. Dickson and the brother who, was also present, exchanged some hot words, and it looked as if they were going to have a fistic altercation. However, the bystanders interfered and prevented anything of the kind from happening.

It might be stated here that the information upon which the charge was laid against Dickson did not come from his brother. The latter had nothing to do with it in any way. There was considerable excitement in the court room yesterday when Dickson made the attempt to get at his brother.

George E. King, one of the best known men in Wingham, is dead, in his 30th year.

Fraserville Choir Honored Organist

Presented Miss Ethel Waterman With Suitable Tokens of Appreciation

The home of Mr. B. Waterman, of North Monaghan, was the scene of a pleasant event on Thursday evening, March 7th, when friends from the Fraserville congregation gathered and presented Miss Ethel Waterman with a jewel case, gold chain and music cabinet accompanied by the following address:—

Miss Waterman:

Respected Friend,—A number of those associated with you in church work and worship, have gathered tonight to spend a social evening with you, and also to state how highly we value your efficient services as organist of our church.

By constant and faithful attendance you have done much towards making our public worship both pleasant and profitable. Your genial and patient spirit manifested in all matters pertaining to our choir has been admired by the congregation.

As a slight token of respect please accept this jewel case, gold chain and music cabinet and may you long be spared to labor in the cause of our Common Master, who will at last give a full reward to all who are faithful in His service on earth.

Signed for the friends.

MR. J. MADILL.
Sunday School Superintendent
MR. F. CLARKE.
Assistant Superintendent.

Miss Waterman, although taken by surprise, made a suitable and grateful reply. She gave expression to the pleasant and profitable time she has always enjoyed with the choir.

Afterwards a pleasant time was spent in social games and amusements. Then all did full justice to the refreshments that the ladies had prepared for the occasion. The company dispersed feeling that they had passed a merry and profitable evening.

AFTER THE MINISTER

To the Editor of the Review.

One of our preachers in his sermon last Sunday referred to the famous trial of Harry K. Thaw for murder now in progress, and before a mixed congregation of men, women and children, as reported by your paper of yesterday, he charges that in Thaw's behalf the forces of wealth are arrayed to have him escape the just sentence of death for the murder of a man killed in passion and just for the sake of a profligate woman, etc. Apart from the presumption of one not in authority to condemn a fellow being without hearing the evidence and who is hundreds of miles distant from the scene of the trial, the learned divine is guilty of contempt of court for making such a statement while the matter is still sub judice. His reference to the unfortunate child who was the victim to the most subtle devices of a moral monster, are quite in contrast with the words of our Saviour when he referred to a woman deserving of that name, as recorded in holy writ. It would be well for preachers as well as others, to follow in their Master's steps.

Yours, etc.,
MODERATION

THE BILL WILL BE OPPOSED

In addition to the representatives from the city council who will go to Toronto tomorrow in the interests of the city's private billl, a number of citizens willl also go along to oppose the measure. There is not an unanimity of opinion regarding the bill, and it will have its opponents as well as its advocates.

North Monaghan Will Send a Deputation

To Ottawa to Urge Early Completion of the Trent Canal

The township council of North Monaghan met Monday afternoon in the County Council Chamber, in Peterborough, at two o'clock. All the members were present, the reeve, Mr. John Brown, presiding.

The minutes of the last meeting were read and confirmed.

Mr. J. Mitchell, representing the Sawyer-Massey Co., of Hamilton, addressed the council, asking them to purchase a rock crusher from the company

Mr. Israel Payne was also present and applied for an increase of salary as collector of rates for 1907.

Mr. H. Phelan, alderman of the city of Peterborough, was present representing the city council, requested the council of Monaghan to send a deputation along with others on the Trent Valley route to Ottawa, to impress the Dominion Government as to the importance of completing the Trent Valley Canal at once.

ACCOUNTS.

The following accounts were handed in,—J. A. Porter, clerk of South Monaghan, half amount of gravelling boundary road, between South Monaghan and North Monaghan, $42. R. J. Bell, clerk of Smith, half the amount of building railing on boundary between South and North Monaghan, $25.46; Davis, Thompson & Co., premium on insurance policy, $5.95.

It was moved by Messrs. May and Morrow,—That the accounts as presented be passed and paid. This was carried.

ROCK CRUSHRE.

Moved by Messrs. Howden and May, that a committee consisting of the reeve and Councillors Dobbin and Morrow, are hereby appointed to look into the matter of purchasing a rock crusher, and report to the council at the next regular meeting.—Carried.

Moved by Messrs. May and Dobbin,—That the salary of Mr. Israel Payne be increased to [illegible] and that the clerk is instructed to prepare a by-law to that effect.—Carried.

GOING TO OTTAWA.

Moved by Messrs. Hunter and Morrow,—That the council is hereby authorized to go to Ottawa on Nov. 19th, as part of a deputation to wait upon the Minister of Public Works in regard to the completion of the Trent Valley Canal, and the treasurer is hereby directed to issue an order for a sum not to exceed $30 towards peyment of the expenses of the same. This was carried. the boundary road betwaen the city and township.—Carried.

OTHER MOTIONS.

Moved by Messrs. Dobbin and Howden, that orders be issued for the sum of $5 each in favor of B. Sanderson and R. Waterman, salary as auditors, 1906.—Carried.

Moved by Messrs. Howden and Dobbin, that the clerk is hereby directed to arrange a meeting for the committee of this council with the Board of Works of the city of Peterborough, in connection with making better arrangements for the repairs to

DANGEROUS CROSSING.

Moved by Messrs. Howden and May,—That the clerk is hereby directed to communicate with the roadmaster of the C.P. Ry in regard to the dangerous condition existing at the railway crossings in the 11th con. owing to the thick growth of underbrush hiding the approach of trains from persons travelling along the public road.—Carried.

KENDRY STATION.

Mr. Howden, as chairman of the special committee appointed at the last meeting to interview the authorities of the Canadian Pacific Ry., in regard to obtaining better transport and freight facilities for the public at Kendry siding reported that the committee, consisting of Messrs. J. Brown, May, Howden and Bennett, representing the Council, and Messrs. Wilson, T. Brown and Rev. Dr. Marsh, representing the ratepayers, met Mr. Nelson, the General Supt., and Mr. Brown, the General freight agent, of the Canadian Pacific Ry. Co., in Peterborough on Tuesday evening, the 19th ulto., and after very fully going over the conditions surrounding the proposition to make a flag station at this point, had received a very favorable assurance from the Supt. that the wishes of the committee would in a short time be carried out. This report was received.

SCHOOL BOUNDARIES.

Mr. Brown as chairman of the special committee re alteration of school sections Nos. 2 and 3, reported having given consideration to the proposed taking of pt. of lot No. 9, in 11 con. from S.S. No. 3, and adding it to S.S. No. 2, and recommended that the clerk be directed to notify each public school trustee in both sections affected by delivering them with a copy of the by-law making such alteration as asked for, to be passed at a meeting of the Council to be held in the town hall at 2 p.m. on the 18th day of May next, and also to have a copy posted in each school house.

On motion of Messrs. Brown and Howden this report was received and adopted.

ROAD COMMISSIONERS.

On motion By-law No. 579, a by-law to appoint road commissioners, poundkeepers and fence viewers, was introduced given the regular readings and finally passed.

The road commissioners for 1907 are as follows:—

Road div. No. 1.—Jas. Morrow.
Road div. No. 2.—R. Colin.
Road div. No. 3.—Geo. Moncrief.
Road div. No. 4.—T. Moncrief.

The pound keepers are:—

No. 1.—Wm. Williamson.
No. 2.—R. Sanderson.
No. 3.—Harry Clarke.
No. 4.—D. Doig.

The fence viewers are:—

No. 1.—J. Fowler, F. Stinson and Geo. Warde.
No. 2.—T. M. Hunter, Jno. McIntosh and J. J. Lynch.
No. 3.—R. Waterman, W. Whitfield and Jno. Armstrong.
No. 4.—Alf. Sanders, J. Bell and T. Williams.

By-law No. 580, a by-law to amend by-law No. 578, re collector's salary, was then introduced and finally passed.

Council then adjourned until next regular meeting on 2nd Monday in April in the town hall at 2 p.m.

UNDER THE CITY CLOCK

BACHELOR GIRL'S REPLY

Of all the clowns that I do despise,
Is the bachelor who does surmise,
That wrinkled old maids are not good
to kiss.
Their mugs imply ethereal bliss.
How easily this class can be mistaken
It is not my place to be herewith relating.
The subject I started to write about
Is Tovey's tax scheme the bachelors
to rout.
They are up in arms against this tax,
For fear of crinkled and wrinkled
smacks.
They refuse to help and aid this
town,
Like a lot of cheap skates of world
[illegible]
Ask them to marry, to get a wife,
Could not do so, upon your life.
Social functions, teas, etc., they do
pertain,
Bachelors they always will be and
always remain.
Like a miser after his lucre and
pelf,
They would not lift a woman off
old maid's shelf.
Thank goodness, we women are just
as free,
We would not have you so now, do
your see?
The tax, the tax, it must be paid,
If every bachelor's purse we do raid.
Our fair city must get out of debt,
Even if the bachelor is jailed, you
bet.
Put them one and all in glass cases,
So we can look at their immaculate
faces.
Ticket them and put them in a hall,
Those that do against this tax bawl.
Or else have them buy one of our
city houses,
And have some one pick out for them
their spouses.

BACHELOR GIRL.

Pretty gowns and girls in "Sergeant Kitty"
Miss Helen Byron as Leading Lady
Merry music and catchy songs

Signalling Corps to be Added to 57th Regiment

When the six weeks' course of instruction in signalling now being given to members of the 57th Regiment a signalling corps will be established in connection with the corps. It will be a separate part of the regiment and will have its own officers etc., the same as an independent company. The signalling corps will consist of eleven members, a commanding officer, sergeant, corporal, and eight privates. When the present signalling class is disbanded towards the end of April, the corps will be organized, the officers, non-coms. and privates to be selected from the members o the class.

The signalling corps will be a valuable addition to the strength of the regiment, and will no doubt prove its usefulness.

Deputation Left for Toronto To Meet With the Dairymen

City Council, County Council, Board of Trade, Cheese Board and Farmers' Institute are all Represented—Meeting Held Last Night in Clerk's Office.

A strong and influential representation of the municipal bodies and farmers and citizens of Peterborough city and county left on the eight o'clock train this morning for Toronto. At ten o'clock they met the joint dairymen's committee at the city hall in that city and presented the case of Peterborough.

The object of the meeting in Toronto is to decide on where the National Dairy Show will be held and when it will be held. This city was invited to send a deputation to the meeting as Peterborough is considered by a very large faction of the dairymen as the best place for the exhibition.

The delegates from the eastern section of the province will all hang out and fight hard for Peterborough They promised to do so at the annual meeting in Ottawa some time ago. But aside from this the eastern dairymen are unanimously opposed to the exhibition going to western Ontario, and they should have enough weight to carry their desire through. The number of factories and the number of patrons east of Toronto are three to one of those west of Toronto. Then the annual convention held here last year was the largest and most successful held by the dairymen for twenty-five years, which will be a strong argument in favor of this city.

Should the dairymen decide to hold the show in Peterborough, ample building accommodation will be forthcoming for January, 1908, and for following years. It is proposed to have constructed a large and commodious market building, with covered accommodation for rigs such structure to be designed with a view to offering all conveniences desired for the proposed dairy show, together with an up-to-date hall, capable of accommodating the largest possible convention.

The mayor pointed out that in such an event the present market hall could be used for offices, thus furnishing a revenue sufficient to provide in all probability sufficient monies for the sinking fund and interest on the [illegible] of the new market building and hall.

A meeting was held last night in the city clerk's office of representatives of the City Council, County Council, Board of Trade and the Cheese Board, who were appointed to go to Toronto. Addresses were made by several of those present and it was clearly pointed out that the farming community was greatly benefitted by these dairy meetings and dairy exhibitions. Mr. G. A. Gillespie, who is probably the best posted cheese man in the county stated that he could notice an improvement of at least fifty per cent. in the dairy industry here since the convention last year. There was an increase in the quantity produced and in the quality In fact there was more improvement during the past year than in five years previously and the cheese sent out of Peterborough last year was just a little better than that sent out from any other district in eastern Ontario. This was very largely due to the convention held here last year and is only an instance of what could be accomplished if the conventions were always held here as well as the exhibition.

When the meeting adjourned all those present were enthusiastic about the matter and they intended to put forth the very strongest efforts to secure the exhibition.

The delegates present were;

From the city, Mayor McWilliams, Ald Phelan, Leary, Stevenson, Wilson, Morrow and Bradburn.

From the County Council, Warden P. McNulty, Councillors Fife, Porter, Moher, Brown, Darling, Killen and Cohen.

From the Cheese Board, Mr. Riddell.

From the Board of Trade, Messrs. D. Hughes Charles, president; F. D. Kerr, P. Downham, W. C. Switzer.

Private Citizens Forced to Clean Ice off the Sidewalks

While Government Institutions and the City Property Go Unmolested—Police Commissioners Should be Consistent in Their Authority.

The police and police commissioners have been having a lot of fun the last few days enforcing the snow bylaw. They have had the pleasure of seeing, bank clerks, drug clerks, merchants, lawyers and others, get out the picks and shovels and endeavor to remove the ice from the walks. That part of it is all right. No one has any objection to the bylaw being enforced. But there is objection to the private citizen being forced to shovel his walk, while the government buildings and the city's own property is allowed to go free. The Customs House at the corner of Charlotte and George streets has not shovelled the walk all winter. The ice on the Water street side of the post office property is still there. The ice in front of the fire hall has never been touched and it is time the hose waggon and the hook and ladder truck were on wheels as the sleighing is gone and thus the only possible excuse the city had is gone. No attempt has been made by the city to remove the ice from in front of the parks and both Victoria and Central Parks are within the fire limits. It might also be mentioned that the George street walk at Central Park is one of the most dangerous and disgraceful stretches in the city. Water runs over the ice all day and it is always slippery. If anyone should fall, they not only receive the usual injuries, but will be soaked to the skin and run chances of contracting pneumonia.

The Mayor, Board of Works Department and City Council should remember the old proverb, — "If each person shovels the snow from his own walk the street will be clean," also "people living in glass houses should never throw stones." Before enforcing so strictly the snow bylaw as far as private citizens are concerned, the police commissioners and the city council should start at home and with the government institutions.

Good Programme Thursday Night

An unusually interesting programme has been prepared for Englishmen's night at the Young Conservative Club rooms, on Thursday night of this week. There will be good songs, short speeches, and many bright, musical numbers. The Smoker promises to be a big success, and the rooms will doubtless be crowded.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

COURT STANLEY HELD SMOKER

Pleasant Time Spent by Foresters Last Night in S. O. E. Hall.

After the regular business meeting of Court Stanley, No. 7680, A.O.F., last evening a smoker was held in S.O.E. hall, Hunter street. A large number of the members and their friends attended. They enjoyed a thoroughly interesting programme and social time. Mr. H. C. Wilson, of Toronto, Treasurer of the High Court, A.O.F., was present and gave an address on the work of the order.

The Chief Ranger, Mr. Thos. Hendry, occupied the chair and an informal programme was given while the gentlemen enjoyed their pipes and played games. The proceedings consisted of vocal and instrumental solos. Each number was well received and loudly applauded. The following is the excellent programme rendered:

Song.—Mr. T. Crow.
Song.—Mr. Pratt.
Gramaphone Selections.—Mr. Chas. Garside.

Violin Solo.—Mr. [illegible]

During the evening Mr. H. C. Wilson, of Toronto, gave an address containing much information of importance to the members. He said that it gave him much pleasure to be present at the smoker of Court Stanley He wished to say a few words, particularly to those who were not members. The Ancient Order of Foresters was the oldest fraternal organization in the world. It was organized over a hundred years ago. At first it was known as the Royal Foresters, but in 1834, at the first High Court meeting, the name was changed to the Ancient Order of Foresters. There are over one million members in all the combined courts. They have made steady progress and are now the strongest financial organization that exists. The A.O.F. is the only order doing business on the straight insurance line. He referred to the elevating influence of the Society. It was the Society for the workingman. The President of the United States had said that where fraternal societies exist there will be found the best men and the best legislation. The speaker congratulated Court Stanley on their splendid showing and hoped they would continue to grow until the membership might reach the two hundred mark, which they were trying for during this year.

A hearty vote of thanks was tendered Mr. Wilson for his able address. It was moved by Bro. R. J. McWilliams and seconded by Bro. S. Adlum.

The committee in charge of the smoker consisted of Messrs. S. Adlum, H. Hanwell, R. J. Goodenough, Geo Tremaine and T. Hendry. They deserve great credit for the splendid programme provided. They did all in their power to give the members a good time.

The singing of the National Anthem brought to a close a very pleasant and social evening.

Afterwards the Foresters adjourned to McCallum's restaurant where an excellent repast, prepared in admirable style, was partaken of. A jolly hour or two was spent in speech, song and story.

Will Re-arrange Seating Capacity

Murray Street Church Trustees Decide Upon Several Improvements

The trustees and finance committee of the Murray street Baptist church met last evening. Several accounts were ordered to be paid and the finances of the church were shown to be in a very satisfactory condition.

The trustees decided to have the cottage of the caretaker repaired.

They will arrange for seating the large congregations that attend each Sunday, more satisfactorily. Some people coming to church find their seats occupied. The trustees are going to try to avoid this and make more ample arrangements all around in view of the large numbers that are flocking to hear Rev. Mr. Webb. A new furnace will also be installed in the church.

The Interest is Nightly Increasing

Another Largely Attended Meeting at George St. Church

An excellent meeting was held at George street church last night. The interest is increasing. Rev. Dr. Crothers spoke from Isaiah 3-10, "Say ye to the righteous that it shall be well with him."

The praise service was conducted by Mr. G. L. Galley and Mr. McCann and was of much interest.

The public is cordially invited. Meetings bright and brief.

REVIEW LETTER BOX

THE WARD BOUNDARIES

"Civis" Strongly Favors the Idea Outlined by Mayor McWilliams.

To the Editor of the Review.

Sir,—The suggestion made by the Mayor to divide the city into five wards, so as to have a north, south, east, west and centre wards, has always been my idea since the incorporation of Ashburnham within the city limits. It makes the division of the wards more symmetrical, besides making them more easily described, and such a designation suggests their location. Of course I would have all east of the river embraced in the east ward which is the natural line of demarcation. The objection that there are twelve aldermen, which is not a multiple of five, need be no objection. Until recently we had only nine councillors, which was found to be quite sufficient, and if we had ten instead, which is a multiple of five, it ought to suffice, but if a greater number is desirable then have fifteen which is also a multiple of five. If however, it must be twelve, then let two of the largest wards have three aldermen each instead of two, which will make up the required number. These two wards could be made larger in proportion to their representation.

Many Streets Should Be Given Cleaning

All Refuse Should be Carted Away as Soon as Possible

To the Editor of the Review.

Sir,—You do well to condemn the unsightly condition of Chambers st and the partial obstruction to traffic occasioned by the rubbish allowed to accumulate thereon. You are led to do so no doubt, because you are "up against it," but there are other streets in even a worse condition, where otherwise valuable property is almost rendered useless in consequence. Would you therefore, kindly extend your field of operations and bring into line all such streets wherever situated and expose them to the limelight of your forceful pen in order that our Rip Van Winkle Council may wake up and get busy for a general cleaning up, and tell them to profit [illegible] of the past and get out the watering cart in time for the first dust that flies, so as to obviate the suffering to which we have been subjected in preceding years, and by doing so you will have earned the gratitude of a long suffering public.

Yours, etc.,
PURE AIR.

Peterborough, March 13th, 1907.

Peculiar By-laws Passed by Council

"Civis" States That Class Legislation is Being Introduced

To the Editor of the Review.

Dear Sir,—I am sure you will pardon me for intruding on your valuable space, but I was more than surprised when I read in your paper of the man being fined five dollars for complying with the law.

After giving the matter due consideration I am forced to believe that something is loose somewhere. In the first place last summer (if I may be permitted to go back so far) each and every bicyclist was compelled to purchase a bell and carry it on the handles. Everybody knows that bicycle bells in the city are only a nuisance, and no other reason can be discovered for such a ridiculous law, save that it was passed in the interests of the bicycle supply dealers. Now we are experiencing more of this same brand of law, making. The law compelling merchants, etc., to remove the signs that protrude over the streets, is somewhat the same. We do not see the need, furthermore, we do not see the least reason why a sign, like the Y.M.C.A. sign, should have to be taken down. Is there some patent sign company or other concern at the bottom of it all, or why was this ridiculous law passed? Again, we citizens of Peterborough, pay to have our sidewalks cleaned, and then we go out and clean them ourselves. Although I do not profess to be a Solon, I know that the council is doing more harm to Peterborough by such bylaws, than they do good by sending deputations here and there. It was only today that I was told by a prominent citizen that the council passed the bicycle bell bylaw because some other city, passed one some fifteen years ago; that it passed the sign bylaw, because New York and some other large American cities had done something along this line and that it was raising such a row over the ice on the sidewalks because it was pig-headed and obstinate.

Thanking you Mr. Editor, for this space, I am yours, etc.

CIVIS.

Peterborough, March 12, '07.

BAD STATE OF WALK

Why Does City Not Do Something in Front of Central Park?

To the Editor of the Review.

Sir,—While the civic authorities are exceedingly active in seeing that merchants and others clean their walks, why does not the city do something to remedy the awful state of affairs in front of Central Park. The water on the walks there is ankle deep and I am tired paddling through the accumulation of ice, snow, and water. "Consistency is a jewel," and "clean your own door step first," would be a good motto for the Peterborough authorities to follow.

Yours, etc.,
IRATE.

Peterborough, March 13th, 1907.

Sunday School Institute Meetings

Will be Held in St. Andrew's Church To-morrow Afternoon and Evening

The Sunday School Institute meeting arranged by the Presbytery of Peterborough will be held in St. Andrew's church to-morrow afternoon and evening. The afternoon session will begin to-morrow at 2.30, and the evening at 8 o'clock. Tea will be provided by the ladies of St. Andrew's church to the delegates from outside points.

The Institute here will include the Presbyterian Sunday schools of Omemee, Lakevale and Mt. Pleasant, Warsaw and Cottesloe, Norwood, Lakefield and North Smith, Springville, Centreville, Keene and Westwood and St. Paul's and Knox churches.

These Institutes should prove exceedingly helpful and no doubt will be largely attended. Those who will conduct the Institute here are:

Rev. Alex. Macgillivray, S.S. Convenor, Synod of Toronto, and Kingston.

Rev. A. E. Camp, S. S. Convenor, Presbytery of Peterborough.

Rev. J. C. Robertson, General secretary for Sabbath schools.

The following subjects are recommended to the schools, from which to select those they wish to have discussed:—

I.

The Supreme Aim of the Sunday School.

The Relation of the School to the Home, and to the Church.

The attendance of scholars at the services of the church.

How to increase the enrollment of the school.

How to secure greater regularity in attendance,

How may we better interest the parents in our work.

II.

The selection of teachers.

The Teacher Training Course

Teachers' meetings.

Teaching the regular lesson.

Teaching special lessons, e.g., temperance, review.

A teacher's encouragements and discouragements.

III.

The school room.

The school in session.

The value of music in the school.

Grading the school.

The primary class and its improvement.

The adult Bible class movement.

IV.

The place of the Bible and of lesson helps in S.S. work.

The place of special days, e.g., children's day, decision day, etc.

The place of missions in Sunday school work,

The school records and the Secretary's work.

Giving, and the treasurer's work.

The library and the librarian's work.

V.

Bible study in the home.

Written home work.

Memorization of Scripture and the Catechism.

The supplemental lessons.

The cradle roll department.

The Home department.

Will Rush Work on New Normal

Contractor for the Building is Getting Ready for Operations

Mr S. F. Whitham, of Brantford contractor for the Peterborough Normal School was in the city for a short time yesterday. Mr. Whitham will rush work on the new building just as soon as the weather permits. He also has the contracts for the new Normals in Stratford, North Bay and Hamilton, In conversation with Mr. Whitham he stated it was his policy to have all the work that was possible to be done locally and he was proceeding on that line in Peterborough. He expresses himself well pleased with the way he has been received by the various business men of the city and anticipates very satisfactory relations with all whom he is dealing with.

SPRING BLOOD TROUBLES

BILEANS CLEAR THE SKIN OF PIMPLES

Humors and impurities and in the blood force their way to the surface in the Springtime and cause eruptions and unsightly sores. Nature has provided a remedy in Bileans, which are pleasant to take, not unpleasant in operation, and are purely vegetable in composition. Women with skin blotches and eruptions should prove how speedily Bileans remove them. One or two Bileans taken just before retiring for the night—that is all! Morning sickness, debility, indigestion, biliousness, heartburn, headache, constipation, piles, and female ailments all disappear before a short course of Bileans. All druggists and stores at 50 cents a box, or from Bilean Co., Toronto for price. 6 boxes sent for $2.50. Send 1c stamp for free sample.

OBITUARY

MR. CHAS. SMITH.

A message was received in Campbellford this week announcing the death of Mr. Charles Smith, which took place in the hospital in Toronto Mr. Smith who was 67 years of age, was proprietor of the Hungarian flour mill and one of the most prominent citizens of Campbellford. He was reeve of the town for some years, and president of the Board of Trade and a public spirited man in every respect. In business he was very successful and was considered one of the best financiers in this part of the country. In politics he was a Reformer. He leaves to mourn his death a widow, two sons, William and Fred, and a daughter, Mrs. George Horkins, of California, who was with him in his last hours.

The Daily Review

WEDNESDAY, MARCH 13, 1907.

THE FAMINE IN CHINA

Conditions in China, where millions are starving to death, were supposed to be bad enough, but the latest advices indicate that the destitution is far worse than at first supposed. In many centres in Canada collections have been taken up. In Peterborough, at least one church has forwarded a sum of $60, and it is expected that this example will be followed by others. The need is pressing. "He gives twice who gives quickly," is an old adage, which applies with special significance in this case. So far we are told that the contributions are only a drop in the great ocean of need. Already 60,000 bags of flour have been distributed by the American [illegible] committee toward allaying suffering and averting death. It is said that in the interior of that great country — China — thousands are dying, and their deaths will never be reported. Around Chinkiang, floods have destroyed the rice crop as well as thousands of houses. The people are homeless and without food, and as the winter advances, the want and misery are increasing. "If men the world over, brothers be," surely now is the time to give a practical demonstration of this truth.

News from Kiangpeh district in Northeastern China continues to show terrible conditions. Upon outside relief, upon American contributions is based the only hope for the saving of millions of lives. Between 4,000,000 and five million human beings are in danger of death by starvation, by exposure to the winter's storms and colds, or by diseases bred in filthy camps of refuge. There are thrice as many destitute people in the camps around Tsiangpu to day as there were reconcentrados in Cuba in 1898. Official advices from that city, which is practically on the frontier of the devastated districts, show that without its walls there are fifty camps, each containing 10,000 or more famine stricken refugees. Tsiangpu proper has a population of 95,000 people none of whom is in proper case to give help to the suffering.

Other camps there are, around other cities, and it is actually true that in many of the smaller and more remote settlements, the only thing the authorities have been able to do for the sufferers is to designate for their use "a place to die in"—sometimes a cemetery. Sometimes a vacant area, given over in better times to refuse, pariah dogs and the outcasts of earth.

BOYS AND BOOKS

St. Catharines Star.

A New York theatrical manager, say an exchange, who employed a large number of boys in his office, gave orders the other day for the dismissal of every one of them, and the engagement of girls to take their places.

His reason was simple and strong. "I have grown tired of the laziness, inefficiency and impudence of these cubs."

The sentiment of the New York man is shared to a large extent by many others throughout the country. Not only in offices where boys are employed, but in shops where they are present as apprentices, employers are annoyed at the unreliability of the average boy. So great is the dissatisfaction with the juvenile element of the male persuasion that in the lighter trades girls are being admitted as apprentices. The trouble with the boys of the period is that they look upon the positions as "jobs," which are not to be regarded as permanent, but as stepping stones to something better. They have thus little or no interest in the work, and what they do is done perfunctorily.

It isn't the nature of the boy's work, but the way he does it, which tries him out before his master. Every one of Napoleon's soldiers thought he carried a marshal's baton in his knapsack and he fought the better for this ambition. Every lad mailing letters, running errands, answering the bell, doing the elementary work of the trades, has the potentialities of leadership in him.

The lazy, "sassy," shirking, cigarette-smoking boys, don't realize this. They idle and they wax impudent. If they are fortunate enough not to be "fired," they wonder why they are not promoted.

Wood's Phosphodine, *The Great English Remedy.* Tones and invigorates the whole nervous system, makes new Blood in old Veins. *Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhoea, and Effects of Abuse or Excesses.* Price $1 per box, six for $5. PEN POINTS

No less than four members of Parliament and four Senators have joined the silent majority since the opening of the present session. Verily death loves a shining mark.

With three provinces, Ontario, British Columbia and Manitoba strongly Conservative, it begins to look as though Laurier may see his finish if he looks far enough ahead.

What is a citizen going to do? If he cleans his sidewalk he is fined for chopping the pavement, and if he does not clean off the ice he is also taxed. A man is in a queer position—you can pay your money —and take your choice.

Stratford will henceforth be known as the "Hockey City," instead of the "Classic City." To land double honors like the junior and senior championships in one season is a distinction that would justify all the citizens taking a day off and having a real old-fashioned jollification.

A vacancy in the Senate occurred a few days ago through the death of Sir William Hingston, of Montreal, and it was filled on Saturday last by the appointment of Mr Desaulles. Quick work. Reason; The Irish Roman Catholics of Quebec were claiming the seat, Sir William Hingston being of that creed and nationality, but they did not get it.

The City Council of Toronto has passed a resolution to the effect that the Ontario Legislature should be asked to consider the advisability of reducing the hours for the sale of liquor in bar rooms. The vote was carried in council by 16 to 4. The question arises will decreasing the legal hours of sale minimize the amount of liquor consumed. Some maintain that it will and others that it will not. The only way apparently, is to try it yourself and find out.

It seems to be the general opinion that suspicion and distrust of the Laurier Government and Laurierism was a potent factor in winning decisive Conservative victories in British Columbia and Manitoba. We can quite believe it. The people of the West have seen graft rampant under Laurier's administration; scandal after scandal deliberately shielded by the Laurier Government; and two newly-formed Provinces shorn of their Provincial rights in obedience to the dictates of Quebec influences. Is it any wonder that the West distrusts Laurierism and votes against it?

In the death of Mr. Thos. Martin, M.P. for North Wellington, the Canadian House of Commons has lost one of its honored and most respected members. "Tom" Martin, as he was familiarly called, was a man of strict integrity, honesty of purpose, and sound judgment. He was one of nature's noblemen and was no less popular among Conservatives than he was on his own side of the House. Although a staunch Liberal, he was a fair fighter and a generous opponent. Following so closely on the demise of "Ned" Cochrane, M.P. for East Northumberland, the blow, is doubly sad and brings forcibly home the words, "That man is but a shadow and life a dream."

There are 199 independent newspapers in Ontario, showing that political "organs" are rapidly disappearing. Among some politicians, unfortunately, the view prevails that a newspaper that is not an organ has no reasonable excuse for existence. For this deplorable superstition the newspapers themselves are partly responsible; they have been in the habit of giving too much and exacting too little and politicians are very human in this respect, that the more they get, the more they look for, and what they accept the first time as a favor, the second or third time they demand as a right. There are very few organs left among the newspapers of Canada, and the number is constantly growing less. The influence of the organ has already almost wholly departed. The newspapers, or most of them, have made the discovery for themselves what the people want is honest news and honest comment. The politicians, too, are making the discovery that the value of the organ is not what it was.—Bowmanville Statesman.

Home Dyeing

"Maypole!" At last. Here's a cake of soap that dyes—not a powder that makes mess and trouble all over the house. Maypole yields brilliant colors that cannot fade. It dyes to any shade. At last home dyeing is made pleasant, sure, safe.

Made in England but sold everywhere. Maypole Soap Dyes.

10c. for Colors—15c. for Black.

That was a significant statement made by Premier Whitney in the Legislature yesterday when he refused to consent to a measure providing that the consent of the electors of municipalities be not necessary. "We must have the consent of the electors," he said, and the firm stand he took is to be admired for several reasons. There is a tendency on the part of municipal councils to evade the will of the people, and this is most unfortunate. The will of the people should be supreme, and representatives of the people should not refuse to bow to the popular will. Of course, there are times when it is unnecessary to take a census on a question, when it would be but needless expense to obtain a verdict, the popularity of which is very pronounced, but in questions that effect the standing of a municipality when a large expenditure is involved it is wisest to obtain the feeling of the ratepayers. Premier Whitney's stand is only further evidence of his unswerving fidelity to the interests he has been elected to serve.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

WEDDING BELLS

HEATH—HEAGLE

The marriage took place at George street church parsonage this morning of Miss Ethel Alberta Heagle, daughter of Mr. John Heagle of Rawdon township, to Mr. Walter Heath, son of Mr. David Heath, of the same township. The ceremony, which took place at ten o'clock was performed by Rev. Dr. Crothers. The bridal pair were unattended.

Mr and Mrs. Heath will reside in Rawdon township where they have a large number of friends.

Revised Rules and Regulations

Fire Water and Light Committee Have Finished Another Big Job.

A meeting of the Fire, Water and Light Committee was held last night, when a long time was spent in revising the rules and regulations governing the fire hall. The committee has spent a long time on these rules, and a number of changes have been made, which will make a great difference in the conduct of the new fire hall. Chairman Johnston is determined to have the rules carried out to the letter, and thus keep the fire hall in such condition that it will be a credit to the city.

A new official will be appointed, and he will be known as the foreman of the fire hall, and he will have full control over the entire building. He will not, however, have any authority at a fire nor over any of the firemen while on duty. He will also be caretaker of the new fire alarm system and the street wiring, and the house wiring.

A WINDSOR LADY'S APPEAL

To All Women: I will send, free with full instructions my home treatment, which positively cures Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Painful or Irregular periods, Uterine and Ovarian tumors or growths, also Hot Flashes, Nervousness or Melancholy, Pains in the Head, Back, or Bowels, Kidney and Bladder Troubles where caused by weakness peculiar to our sex. You can continue treatment at home at a cost of only about 12 cents a week. My book, "Woman's Own Medical Adviser," also sent free on request. Write today. Address Mrs. M. Summers, Box H. 62, Windsor, Ont.

SLIPS FROM COUNTY JAIL.

Tillsonburg Man Changes His Clothes and Escapes In Woodstock.

Woodstock, March 13.—Frederick Forbes of Tillsonburg, under sentence to serve one year in the Central Prison for larceny, escaped from the county jail here yesterday.

Spring housecleaning has been in progress at the jail for the last few days. Yesterday morning, while Governor Cameron was opening the rear iron door to take a ladder out, he noticed Forbes coming downstairs, and instructed him to go to the kitchen to get some water and start scrubbing.

The governor's attention was called elsewhere for a few minutes and, upon returning, he noticed a door leading out into one of the smaller yards was open.

Looking out he saw a pile of jail clothes in the corner. A search was immediately commenced and Forbes was found to be missing.

Apparently he had on a suit of civilian clothes under his prison clothes and, upon reaching the smaller yard, had pulled his prison clothes off and run out into the outer ward and through the gates, which also were open.

He is young and has quite a police record. He is of medium height, fair complexion and weighs about 150 lbs.

AIDING YANKEE INDUSTRY.

Scotch Criticism of the Iron and Steel Bounties.

London, March 13.—Commenting on the revision of the Canadian tariff The Glasgow Herald refers to the "highly favored" iron and steel industry, and says:

"We see American capital and enterprise being applied to the production of commodities in Canada, and with the aid of bounties the Dominion Government pitting those commodities against the products of British capital and enterprise." Americans are not deterred, but stimulated to renewed efforts by the new directions of the anti-dumping clause of 1904, which The Herald hints is likely to be canceled.

Holds Up Canada As Warning.

London, March 13.—(C. A. P.)—Opposing the motion against Sunday trading in the House of Lords, Lord Lansdowne objected to any haste, remarking they had object lessons in attempts made by France and Canada to deal with the question.

Belgians and Dutch In Pact.

Brussels, March 13.—The Belgian and Dutch commissioners are drawing up the terms of a cordial understanding, amounting practically to an alliance, between the two countries.

Two Members Ill At Ottawa.

Ottawa, March 13.—Dr. Stockton, M.P., St. John, and George Grant, M.P., North Ontario, are ill.

Killed By a Straw Stack.

Burlington, March 12.—While Milton Devitt, 40 years of age, was assisting yesterday to load a wagon with straw, the stack gave way, burying him. He was dead when his companion got him out, twenty minutes later.

Boy Killed by Whiskey.

Syracuse, N. Y., March 12.—Frank Bearup, 3 years of age, was advised by his father Sunday to take a mouthful of whiskey to allay pain from an aching tooth.

The boy did so and continued the treatment until he had taken more than half a pint of liquor. He was seized with convulsions and died at midnight.

Sealer Lost Four Men In Fog.

Victoria, March 12.—The sealing schooner Vera of this city has reported the loss of a boat with four Victoria men, during a fog 140 miles southwest of San Francisco.

Upset Lamp Causes Fire.

Guelph, March 12.—William Stevenson and his son-in-law, Grier, who live in the half of a brick house on Oliver street, their wives being away in the States, celebrated the occasion Sunday afternoon by imbibing so freely that the police cautioned them. About 11.30 Sunday night a fire alarm was sent in. It seems that the pair between them upset a lamp, and it set the house on fire. The roofs of both tenements were badly burnd.

The Christian Sunday.

The keeping of Sunday, the first day of the week, as a sacred day in memory of the resurrection and of the descent of the Holy Ghost dates from the beginning of Christianity. It was called the Lord's day in all the churches, but gradually acquired the name of Sun-day from the Romans, who called the first day of the week dies solis, or day sacred to the sun. The first official recognition of Sunday as a holy day is in an edict of the Roman Emperor Constantine in 321 ordering that all work should cease in the cities "on the venerable Sunday," but permitting necessary farm work to be attended to.

A Hardship.

Favored Walter—I'm goin' to leave here when my week is up.

Regular Guest—Eh! You get good pay, don't you?

"Yes, 'bout the same's everywhere."

"And tips besides?"

"A good many."

"Then what's the matter?"

"They don't allow no time for goin' out to meals. I have to eat here."—London Mail.

The Danger.

A lawyer while conducting his case cited the authority of a doctor of law yet alive.

"My learned friend," interrupted the judge, "you should never go upon the authority of any save that of the dead. The living may change their minds."—Nos Loisirs.

The First Thought.

"What would be your first thought if you were to strike oil or in some other way become suddenly wealthy?"

"Well, I suppose, like all the rest of 'em, my first thought would be concernin' the shortest and quickest way to New York."—Chicago Record-Herald.

"Royal Crown" Witch-Hazel Toilet Soap

The name tells
Royal —quality
Crown —perfection in making
Witch-Hazel—soothing, healing, refreshing, beautifying
Soap —cleaning

A perfect complexion soap, a perfect toilet soap, 10c. a cake. 3 cakes 25c.

At Druggists Everywhere.

Liverpool Grain and Produce.

Liverpool, March 12.—Wheat, spot firm; No. 2 red western winter, 6s 3d; No. 1 California, 6s 6d; futures, quiet; March nominal; May, 6s 3⅝d; July, 6s 2¼d. Corn, spot, firm; American mixed, new, 4s 6d; American mixed, old, 4s 8½d; futures steady; March, 4s 4⅝d; May, 4s 5¾d. Shoulders, square, dull, 42s. Lards, prime western in tierces, easy, 47s 9d; American refined, in pails, dull, 48s 3d. Peas, Canadian, 6s 9d.

New York Dairy Market.

New York, March 12.—Butter steady, unchanged; receipts 10,576. Cheese firm, unchanged; receipts 480. Eggs easy; receipts 42,408; state, Pennsylvania and nearby fancy selected white, 21c to 22c; choice, 19c to 20c; brown and mixed extra, 19c; firsts to extra firsts, 17½c to 18½c; western firsts, 17½c (official price, 17½c); seconds 17½c.

CATTLE MARKETS.

Cables Unchanged—Cattle Steady, Hogs Easier in U. S. Markets.

Toronto Live Stock.

Toronto, March 12.—Receipts of live stock at the city market since Tuesday, as reported by the railways, were 60 car loads composed of 925 cattle 541 hogs, 346 sheep and 154 calves.

The quality of fat cattle was much the same as has been coming for some time, a few good to choice lots and many unfinished.

Exporters.

A few light exporters were offered and bought for butchers' purposes at $5.25 per cwt. Bulls for export sold at $3.75 to $4.50 per cwt.

Butchers.

There was a good demand for butchers cattle.

Maybee & McDonell sold 3 light exporters, 1250 lbs each, for butchers' purpose at $5.25, and Maybee, Wilson & Hall sold 12 picked butchers', 1140 lbs each, at $5.10, which was the top for cattle of butcher weight. Choice picked lots, $4.75 to $5; fair to good, $4.40 to $4.70; medium butchers' and good cows sold at $3.75 to $4.20; fair to good cows at $3.30 to $3.60; canners and common rough butchers' at $1.50 to $3 per cwt.

Feeders and Stockers.

There were none offered, at least there were none reported as being on sale as such, altho there were many sold as fat that ought to have gone back to the farmer to finish.

Milch Cows.

About 40 milkers and springers sold at $30 to $55 each, and one was reported as being sold at $60.

Veal Calves.

Veal calves were plentiful, that is there was a large number of dairy "bobs," which caused the general price to be quoted lower, but a choice, well finished new milk fed calf would bring as high a price as has been quoted this winter. Prices ranged from $3 to $7 per cwt.

Sheep and Lambs.

Export ewes sold at $4.75 to $5.[illegible] [illegible] at $3.50 to $4.50 per cwt., lambs of good quality [illegible] to $8.50 per cwt.

Hogs.

Mr. Harris quoted selects at $6.80 and lights and fats at $6.55.

East Buffalo Cattle Market.

East Buffalo, March 12.—Cattle active and firm; prices unchanged. Veals, receipts, 100 head; active and 25c lower; $4.25 to $9.25. Hogs, receipts, 1400 head; fairly active; pigs, steady; others 5c to 10c lower; heavy and mixed, $7.35; yorkers, $7.35 to $7.40. Sheep and lambs, receipts, 3000 head; active; lambs, $5 to $8.20, a few $8.25.

Chicago Live Stock.

Chicago, March 12.—Cattle—Receipts about 4000; market steady; plain to best steers, $4.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3.25 to $4.60; calves, $2.50 to $7.25; stockers and feeders, $2.90 to $5.25.

Hogs—Receipts, about 21,000; market 5c lower; choice, heavy, shipping, $6.95 to $6.97½; light butchers, $6.95 to $6.97½; light, mixed, $6.90 to $6.95; choice, light, $6.85 to $7; packing, $6.50 to $6.85; pigs, $4.50 to $6.80; bulk of sales, $6.90 to $6.95.

Sheep and Lambs—Receipts, about 15,000; market steady to strong; sheep, $5.25 to $6.25; yearlings, $6 to $6.75; lambs, $7 to $7.85.

Ex-President Dead.

Paris, March 13.—M. Casimir-Perier, ex-President of France, died suddenly at 11 o'clock Monday night of embolism of the heart, at his residence on the Rue Nitet here. The ex-President had not been well for two or three days, but it was supposed he was suffering from influenza. At about 5 o'clock Monday, an abrupt prostration occurred, the ex-President was taken to bed, Dr. Landousey was called in and the patient was given morphine injections. He did not respond to treatment and his death followed.

The Cabinet yesterday decided on a national funeral, but the family of the dead statesman declined the honor, in deference to his expressed wishes.

General Worried Odessa.

Odessa, March 13.—It developed yesterday that the recent transfer of Gen. Nepluieff, commander of the fortress at Sevastopol, was due to the inhabitants of that city, who sent a petition, as their nerves were becoming shattered through the danger which they incurred whenever the commandant appeared in public.

Two attempts to kill the commandant failed, but many citizens were killed and wounded. Whenever he appeared in public there was a public scurry for shelter.

Elgin Claims to Be Canadian.

London, March 13.—(C. A. P.)—Lord Elgin, addressing the Liverpool Chamber of Commerce, referring to his visit to Liverpool in 1854, said he came essentially as a colonial product, for he was then a Canadian boy coming home. He opened the Colonial Products Exhibition at Liverpool yesterday.

25¢ That Cough which ordinary remedies have not reached, will quickly yield to

GRAY'S SYRUP OF RED SPRUCE GUM

It cures those heavy, deep-seated coughs—takes away the soreness—heals the throat—strengthens the lungs. None the less effective because it is pleasant to take. Just try one bottle and see how quickly you get rid of that cough. At your druggists. 25c, bottle. 25¢

EX-MAYOR CRUMBO RECOMMENDS PE-RU-NA.

"My Endorsement of Pe-ru-na is Based On its Merits."
—Ed. Crumbo.

ED. CRUMBO, Ex-Mayor of New Albany, Ind., writes from 511 E. Oak street:

"My endorsement of Peruna is based on its merits.

"If a man is sick he looks anxiously for something which will cure him, and Peruna will do the work.

"I know that it will cure catarrh of the head or stomach, indigestion, headache and any weary or sick feeling.

"It is bound to help anyone, if used according to directions.

"I also know dozens of men who speak in the highest terms of Peruna and have yet to hear of anyone being disappointed in it."

Mr. Crumbo, in a later letter, dated Aug. 25, 1904, says:

"My health is good, at present, but if I should have to take any more medicine I will fall back on Peruna."

Mr. Rutherford's Rink Won Out

Takes Second Place in Scheduled Rink Competition

The features of last night's games at the curling was the the match between C. Rutherford's and D. Hall's rinks to decide who was to get second place in the scheduled rink competition. After an interesting game Rutherford's rink won out, 17 shots to 11. The two rinks were tied for second place, Sam Ray having taken the first honors. Much interest centred in the game and there was some good curling on both sides. The rinks were:—

A. J. Bowes	W. Taylor
J. Watson	J. Montgomery
W. J. Heany	W. Lang
C. Rutherford	D. Hall
Skip 17	Skip 11

The other games last night resulted as follows:

J. W. Fulton	T. R. Merrett
J. H. Ferguson	W. H. Denham
E. Cox	A. H. Stratton
W. McIlroy	T. F. Matthews
Skip 5	Skip 13

T. Bullen Yeats	E. Wasson
W. Smith	S. Sharpe
R. Hicks	E. Hiland
T. Brightman	W. J. Thompson
Skip 7	Skip 20

D. Walker	H. Foote
H. R. H. Kenner	G. Maitland
R. N. Merritt	A. Moore
W. G. Morrow	G. Fitzgerald
Skip 7	Skip 11

B. F. Ackerman	H. Lovekin
A. Parker	J. Gibson
R. J. Winch	W. G. Read
R. Neill	D. Davidson
Skip 10	Skip 12

Got Cold Feet After the Game

Examiner Typos Did Not Put up the Barbers' Supper—They Went Home Instead

The Barbers' hockey team wish to correct an error made in last night's Review in the report of their game with the Examiner. The report stated that the losers entertained the victors to a supper at McCallum's. As a matter of fact the victors had to pay for their own supper. The agreement before the game was that the losers should put up a supper. But before going on the ice the Examiner bunch got cold feet and yellow, because the barbers were playing Campbell. They refused to play and to get the game going the barbers agreed that each pay for his own supper. This pleased the typos of the Grit sheet and they dried their eyes and played. But after time was called and the score was 6—0 against them, the Examiner crowd, except one, sneaked home to rub their sores and to bathe their heads. The barbers all went down and had supper and celebrated their victory over the poorest bunch of sports in the city.

LACROSSE

HINT TO PORT HOPE.

Acton is back into the lacrosse game after a rest of a few years. Acton had a great team once, but it cost too much and it was necessary to take a rest to recuperate. By the way, it's about time for Port Hope to take a new lease of life.

Legal Gentlemen Were Charged With Not Cleaning Sidewalks

Charge Against Roger, Bennet, and Goodwill, and A. P. Poussette Was Dismissed—Some Interesting Views Expressed as to Present Condition of the Pavements.

The legal firm of Messrs. Rogers Bennet & Goodwill, and Mr. A. P. Poussette were charged in police court to-day with not cleaning the ice off the sidewalk in front of their offices on Water-st. Mr. Bennet, on behalf of his firm pleaded not guilty. Mr. G. M. Roger was sworn. He said that they kept a man all winter to clean the sidewalk in front of their offices. As far as he knew they had received no notice to remove the ice from the walk. The man did the best that he could to keep the pavement fit for people to walk on. Mr. Roger considered the sidewalk safer to walk on when it had a good coating of ice and snow than when it was bare. Where the walk was bare there was often a thin layer of ice and this was more dangerous at this season than a walk covered with thick ice and snow. Often as soon as the ice was cleaned off, there would come a thaw and the water would run off the road onto the sidewalk and at night would freeze. If the City Council would have drains dug to allow the water to run off there would be less ice on the walk. If you injure the walk you are fined and if you leave the ice on you are also fined, remarked the ex-Mayor.

Magistrate Dumble considered that Messrs. Roger, Bennet & Goodwill had done their best to keep the walk cleaned off. He agreed with Mr. Roger in the fact that a little snow and ice were better than the bare sidewalk where the water in the spring is often over one's rubbers. Although he did not intend to ignore the by-law he would discharge these gentlemen as they had done their best to remove the ice.

The charge against Mr. A. P. Poussette, who also pleaded not guilty, was dismissed.

In both cases the Magistrate gave the defendants a warning.

Conservatives Will Not Play Into Mr. J. R. Stratton's Hands

Object to Chairman of the Banquet Using His Position for Political Kudos—Mr. Kendry Replies to Mr. Stratton's Letter, Pointing Out of Some of its Inconsistencies.

To the Editor of the Review.

Sir.—The article in last night's Examiner upon the Stratton banquet embroglio is very unjust to the "kickers" and throws upon them unmerited odium. In the first place the replies which Hon. J. R. Stratton received in response to his invitation were favorable, because *none of the objectors supposed that* the banquet was to be made political by putting the owner of the Liberal organ, himself a member of his party, prominent, not only in the province, but in the Dominion, at the head of it. It would have been just as objectionable if [illegible] Miller or I had been steered into the [illegible] meeting which was called in a private club, and could in no sense be called other than a meeting of Mr Stratton's chosen ones; any attempt at protest was squelched by the enthusiasm of Mr. Stratton's Conservatives, a well known and highly respected body. However, Mr Bradburn managed to get his protest lodged against the ignoring of the mayor and it is about this point the whole turmoil turns. Mr. Dennistoun need not feel at all upset so far. Mr. Burnham asked to be left off the list of speakers, but was howled down. Mayor McWilliams, who I understand was not invited to attend the meeting on Saturday night 'had to go,' and he would have gone off the list altogether if it had not been for the protest of another objector, who insisted that the mayor could not be ignored altogether and should be allowed at least to respond to the toast of Civic Institutions, which privilege was granted. The protestors' letter would, as it said, *never have been published* if Mr. Stratton had not ignored it when sent to him privately, and *published their names on his committee.* Apart from the ignoring of the mayor the public will readily understand that Conservatives cannot be expected to enthuse over an affair at which their old political enemy presides. It is too much to expect. Had the mayor been put in the chair for the banquet, as he should have been, there would not have been a murmur. We understand that Mr. Dennistoun accepted the programme, as it is, with pleasure, and on the plea of too many functions, declined another one of a more public character to be called by the mayor. That, of course, is his own business.

In closing allow me to say that Mr. Stratton *in his reply to my letter* says; "Any citizen who desires to be present at the banquet will have the opportunity afforded him."

At the meeting on Saturday night Mr. Stratton rather significantly remarked that Mr. Robt. Fair, the secretary would handle the tickets, as he would know who to give them to.

Yours sincerely,
JAS. KENDRY.
Peterborough, March 13, 1907.

Kenora Cannot Play Ottawa Men in Stanley Cup Games

Ottawa, March 13.—A *bombshell* will be thrown into the camp of the Kenoras shortly, if they win the championship of Manitoba League and have to defend the Stanley Cup. Alf. Smith and Harry Westwick, of the Ottawa, who went West recently, will not be allowed to play against Wanderers in the Cup games.

The trustees of the Cup do not consider *these* men bona fide members of the team.

Acting Trustee Foran made this *statement to above effect this* morning. He said that he could not conceive anything more unsportsmanlike than for these men to go out west to help retain the Cup after they had played on a *team* that was fairly and squarely beaten by the challengers. They had their chance to beat Wanderers and go West for the trophy but lost to them. He regretted, in the interest of good sport, that they wanted to go West and try and help defeat the champions of their own league.

Unique Record of the Curling Club This Season

Perhaps no Curling Club in the province has had such a splendid season as that enjoyed by the local knights of the brooms and stones. The number of games played and the enthusiasm shown were greater than any previous year but this was not the only way in which the season was remarkable. The rink on Charlotte street was opened for curling on December 10th and, to use the expression of one of the devotees of the game, 'hasn't been closed an hour since then." The ice has been in shape for curling every day and is still in good condition despite the unusually mild weather. Nearly every other rink in this part of the province was closed for a few days at the time of the mild spell at New Year's. The rink at Lindsay was closed for nearly a week and also the rinks in Toronto and other places in the district.

Much credit for the splendid ice that the curlers have had during the season is due Mr. Angus MacIntosh, the popular and efficient caretaker of the rink. He is an expert in the art of ice making and probably no one in this part of the province can produce a better or more lasting sheet of ice.

Not for many years has the ice at the rink been in shape for curling every day from the opening of the season until the close.

Basketball League Will Finish Their Indoor Season

To fill in the four or five weeks that will elapse before outdoor sports can be taken up, a basketball league will be organized in connection with the Y.M.C.A. The league which was finished up about six weeks ago was a great success and it is expected that much interest will be taken in the one to be organized to complete the indoor season. It is not proposed to have the same teams as last time although the players will be practically the same. The names of those who wish to play are being secured and when this is done four captains will be appointed and teams chosen. It is expected that four or five teams can be got together in this way. The intention is to have everything in working shape for next week when the first games of the schedule will be played. Two or more games will be played each week until the schedule is finished.

As the hockey season is now about over and it will be four or five weeks before baseball, lacrosse and other outside games can be played it is thought that the basketball league will be a great success.

MIDGETS HERE FRIDAY NIGHT

The Lindsay Midgets will meet the Strathconas at Brock street rink Friday night. The Midgets will bring along their regular team and are confident of winning. The Strathconas are in fine shape and should give the famous Lindsayites the time of their lives. It will be a great struggle and a big crowd should witness it.

The rest-day law in France, threatens to cause a Ministerial crisis.

"Fashion-Craft"

OUR NEW 1907 Spring Overcoat $18.

—looks especially handsome in the light grey "wide whale" patterns with pearl grey velvet collar.

Very stylish and very good looking.

No fear of such a coat going out of style. It's good for two or three seasons at least.

Honest workmanship and guaranteed materials are in this garment.

LAILAW & OLES, Proprietors
Peterborough.

Lindsay Posters Had Strong Team

Played Game With Examiner Septette at Brock Street Rink

The hockey teams of the Lindsay Post and Peterborough Examiner played a lively game at Brock street rink last night and when it was all over, except the banquet, the score was three all. This was a most happy ending, nobody having any cause to feel bad, you know. But the Post type jugglers and scribes affirm that they will come out ontop of the ash heap when they meet the Exam. septette at Lindsay on Thursday night.

The game was played on rather soft ice, but despite this handicap the play was fast and the match interesting. Hutchison scored the first for the Examiner after a whirlwind rush, voluntary or otherwise that raised a cheer that would have been heard at Omemee. This was all the scoring in the first half.

In the second period the Post men took three straight and then the local team notched two, making the final tally three all.

The visitors brought down a strong team, "Slats" Reilly, "Rats" Barry and "Nannie" Nesbitt were their stars and played nice combination on the forward line. For the Examiner Glover, Clarke, Theobald and Hutchison were always prominent in more ways than one. "Uncle Josh" Craig was away off color in goal and a load of hay could have sneaked past him without being detected.

The lineup was as follows;

Examiner		Post
Craig	Goal	"Frenchy" Bergenan
Glover	Point	"Chuck" Perkins
Clarke	Cover	"Typo" Johnson
Hutchison	Rover	"Nannie" Nesbitt
Robinson	Centre	"Pike" Irwin
Theobald	R. Wing	"Rats" Barry
Huston	L. Wing	"Slats" Reilly

Mr. Geo. Lynch made a satisfactory referee. Not one penalty had to be imposed.

The visitors were entertained at an enjoyable little banquet at Hooper's after the game. Toasts were proposed and several bright speeches made.

The return game will be played in Lindsay tomorrow night.

HOCKEY

FRIDAY NIGHT'S GAME.

The Strathcona hockey team will practice again this evening in preparation for their big game with the Lindsay Midgets at the Brock street rink, Friday evening. The Midgets, although defeated the other evening by Stratford, are a fast team, and the Strathconas will no doubt have to go some to beat them. They have not been beaten this year, and are also a fast septette. They will have their strongest team on and will do their best to win from the wonderful Midgets. Indications point to a record crowd as it will be a fast and interesting game, and most likely it will be the last one this season. All those who attend are assured that they will see one of the best games that has been seen here for some time.

CITY LEAGUE TONIGHT

A meeting of the City Hockey League will be held at the Oriental Hotel this evening at eight o'clock to wind up affairs for the season. It is understood that the League has had a good year, and it certainly furnished many interesting matches. The meeting this evening will be a private one.

WANDERERS WON.

Montreal Wanderers defeated the Guelph Pros. last night 6—3. The Easterners play in Berlin to-night.

KNOCKERS VS PILL POUNDERS.

The Pill Pounders will play the Knockers at Brock street rink next Monday night. These teams should provide an interesting struggle.

Pill Pounders and Bankers Were Even

The Bankers and Pill Pounders played a tie game at Brock street rink between ten and eleven o'clock last night. The score was 1-1, and the match was warmly contested throughout despite the soft condition of the ice. The druggists scored in the first half and the money handlers beat out Yelland in the second period of play. The Pounders had slightly the better of the play and would have scored more frequently were it not for Sawyers great work in goal. Herb. Long of the Charlotte street team, made a satisfactory referee. The players confined themselves to hockey and as a result not a penalty was imposed.

The teams were:—

Pill Pounders		Bankers
Yelland	Goal	H. Sawyers
Davidson	Point	Barber
Fitzgerald	Cover	Cahill
Quinn	Rover	Sawyers
Mann	Centre	Porter
Tovey	Right wing	Rush
Dr. Frederick	Left wing	Fitzgerald

WHITCROFT DID SOME SCORING

Kenora Defeated Portage La Prairie Last Night

Kenora, March 12. — The championship of the Manitoba Hockey League was virtually settled when the Thistles defeated the strong Portage la Prairie team here tonight by a score of 7 to 0. The Cup-holders must still defeat Brandon to retain the world's championship, but after the decisive victory over Portage, who played the Wheat City to a tie last Friday, the honors of the league are now virtually conceded to the Thistles, who with Alf. Smith and H. Westwick of Ottawa, and Chambers of Winnipeg, in their line-up, have probably the most formidable team that ever stopped on the ice in Canada. Even the redoubtable Baird of Montreal, failed to hold them, although he played in his best form tonight. The game was fast, but *owing to the difference, in* the scoring ability of the teams, was never really exciting. The play was fairly clean, although Quinn and Whitcroft engaged in a free fight after being ordered to the fence.

The teams,—

Kenora		Portage la Prairie
Giroux	Goal.	Quinn
Hooper	Point.	Dubeau
Griffis	Cover.	Baird
Westwick	Rover.	Ross
Whitcroft	Centre.	Servis
Smith	Right Wing.	Kant
Phillips	Left Wing	Dey

Summary—1, Phillips; 2, Smith; 3, Phillips. Second half—4, Whitcroft; 5, Smith; 6, Whitcroft; 7, Griffis.

Over 3,000 Persons Attended "Zephra"

57th Regiment Band Realize About $300 Out of Attraction

There were 3073 paid admissions to "Queen Zephra," which was presented at the Grand opera house here a few weeks ago, under the auspices of the 57th Regiment band. The total cash receipts were $1,436.80. Of this sum $493.40 went to the opera house, and $943.40 to the management of the attraction and the band. The band's gross receipts were $317.15. Out of this there was an outlay of $117.73, leaving the net sum $199.42. The band realized $97.15 out of the printed programmes issued, so that the total net revenue to the organization as a result of "Zephra" was $296.57.

Those figures were made known at the adjourned annual meeting of the band, which was held in the band hall last evening, when the financial statement for the year was presented by the treasurer, Mr. R. M. Beach. The total receipts from all sources for 1906 were, $3,351.01; expenditure, $3,146.64, leaving a balance on hand of $204.37. Mr. Joseph Crowe, the retiring president, presided at last night's meeting and there was a good attendance.

It was decided to have band instruments overhauled, and everything put in good shape for the coming season. Mr. R. Shelton is the new president of the band, the officers having been elected a week ago.

MUSICIANS UNION.

The annual meeting of the Peterborough Union, No. 191, American Federation of Musicians, was held last night when the following officers were elected,—

President—W. Hughes.
Secretary—J. A. Harper.
Treasurer—G. Grange.
Executive Committee—John Butcher, F. C. Miller, and R. M. Beach.

The finances are in good shape and the outlook for the future is bright.

Type-talk never does half justice to high-grade goods. The test of Seal Brand Coffee is in the cup.

FARMERS NEED MEN.

Farmers are continually writing the government immigration officers for farm help. At the present time some 873 applications are on file at the Ontario immigration office. Mr. J. H. Tult, the immigration agent, states he believes farm labor will be harder to get this year than ever. Only 10 out of the last 150 immigrants arrived in Ontario have gone to the farm.—Madoc Review.

Appointment is An Excellent One

What Edmonton Papers Have to Say of Mr. Buchanan's Selection

The Edmonton Journal says,—The provincial ministry, it is understood have appointed Mr. William A. Buchanan, proprietor of the Lethbridge Herald, provincial librarian. This office may possibly carry with it the work of organizing the free librarian system of the Government which the Legislature have endorsed. For the past year Mr. Buchanan has edited the Herald in the South city and made it one of the best and newsiest weeklies in the province. Previous to this he had an extensive newspaper experience. His early training was received in Peterborough, where he worked eight years. For three years he was city editor of the Toronto Telegram and for the same period managing director of the St. Thomas Journal. Mr. Buchanan is therefore well qualified to undertake a work that requires literary training, and the historical spirit which is usually developed in a newspaper man whose work is necessarily of that nature. Mr. Buchanan has the additional qualification of being a young man of energy and good address, and will undoubtedly fill with honor to himself this important position.

7th Y.M.C.A. "POP" Saturday, March 16th. "Seeing England, Ireland and Scotland." Stereopticon Views Mr. F. D. Kerr, B.A. Music, Misses Belleghem and Clarry, and Mr. D. Campbell. Admission 10c.

Second Drill of Signalling Class

Large Number at the Drill Hall Last Night

There was a big turnout at the second drill of the signalling class at the drill hall last night. Lieut. Stroud and Sergt. Crowley instructed the members of the class in the signal alphabet, and gratifying progress was made. Learning the alphabet is the first work taken up in the course of instruction in signalling. The alphabet has to be first mastered.

The officers of the regiment are greatly pleased with the turn-outs as also are the instructors. The class will meet again tonight.

SUCCESSOR HAS BEEN CALLED

Word has been received that Rev. Geo. H. Barker, of Rochester, N.Y., has received and accepted a call to Wellington street Baptist church, Montreal, to succeed Rev. J. R. Webb, who resigned the pastorate, to fill the same position in the Murray-st. Baptist church in this city.

Hear Mr. H. Ruthven MacDonald, Canada's greatest Baritone, at Grand Opera House, Monday, March 18th.

Peterboro's Private Bill Passed the Committee

All the Clauses Were Approved of With a Few Amendments—Water Commissioners go to the People—Coates Co. Clause Held Over.

(Special to the Review)

Toronto, March 14.—Peterborough's private bill has passed the Private Bills Committee of the Ontario Legislature in full. Some few amendments were made to bring the clauses within the general law, but the effect and purpose was not changed at all.

The Water Commissioners' request to become a corporate body, and for power to impose a tax on vacant property was granted, on condition that it first be passed by a vote of the people. All the industrial bylaws and money by-laws were confirmed.

The Coates Co. agreement was, at the request of the city's representatives, held over for the time being, pending future developments.

The city was given authority to purchase the electric light and gas plants of the Peterborough Light & Power Co. But all expenditures must first be passed by a vote of the people.

The request to give a fixed assessment to the Canadian General Electric Company was granted.

Special to the Review.

Toronto, Ont., March 14.—A delegation from Peterborough, headed by Mayor McWilliams, appeared before the Private Bills Committee of the Legislature this morning, in connection with the Peterborough legislation now before the House.

Among the privileges asked was that an agreement be confirmed with the Coates Manufacturing Co. For authority to purchase the plant of the Peterborough Light & Power Company;

For authority to acquire water privileges for the development of electric power, subject to submitting a by-law to the people;

For authority to construct permanent street crossings;

For the incorporation of the Peterborough Water Commission, and to give a fixed assessment to the Canadian General Electric Company. The right was given the city to purchase the plant and business of the Peterborough Light & Power Company and to generate and sell power subject to the terms imposed by the Hydro-electric commission. Any expenditures must first be submitted to the people. The other clauses of the bill met with approval, with some amendments, one being that the incorporation of the Water Commission shall be subject to the vote of the citizens.

Let Him Make Himself Known

Chief's Advice to an Anonymous Correspondent

Chief of Police Rossel received a letter today signed "A Merchant," in which the writer talks of merchants keeping the stores open after six o'clock. There is no bylaw preventing them from doing so, but there is one preventing them from keeping open after seven o'clock, and if the writer will let the chief know of anyone who keeps open after seven, he will prosecute them and keep the matter confidential. The chief pays no attention to anonymous letters. The letter was as follows: Chief of Police, City.

Dear Sir,—Is it fair that while a bylaw is in effect in this city to close the several places of business at six o'clock, a few are allowed to remain open for business until nine and sometimes ten o'clock every night, while the rest of us, close our places at the hour called for in the bylaw. If these places are allowed this privilege, why the rest of us are bound to follow.

Remaining yours,
A MERCHANT.

Peterborough Man Gets Appointment

Mr. S. A. Smithson Will be Principal of Norwood Public School

Special to the Review.

Norwood, March 13.—At a special meeting of the Board of Education held Wednesday evening, Mr. S. A. Smithson, of Peterborough, was appointed principal of the Public school, duties to commence at Easter. Miss Eva MacKenzie, of St. Thomas, was appointed science teacher on the High school staff.

Mr. Smithson was for several years principal of the Villiers Public school and since the first of the year has been connected with the teaching staff of the Peterborough Business College. He is secretary of the East Peterborough Teachers' Institute, and his appointment to the principalship of the Norwood school is considered a good one.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

The earl narrowed his eyes.

"I have done your excellency's bidding. You are not satisfied. Very good, monsieur. We turn the page then."

"Ho!" said Foy. "'Tis not so difficult for a nobleman to get money, eh, Master Clerk! What fine colonial bird have you plucked now? I' faith, a nice swagger of a sudden! Marry! Art going to wed with a plantation then?"

Lord Dunmore snorted and threw himself forward in his chair.

"Nay!" he shouted. "The bargain ends not here, my lily livered poacher! Letters, faith, when there is open rebellion! Small need I have for pen work now! 'Tis neck twisting I am for, and you shall aid me with a bait for that stubborn rump Henry!"

Foy drew forward pen and paper. "Will you write?" he asked.

"No," said Armand composedly.

His lordship's face, from livid, turned a volcanic purple.

"Your excellency," went on the young man, "will recall my social position. Spy? Betray? Surely not, messieurs!" He moved his hand as though dismissing an indiscreet pleasantry.

The earl bit off an oath with head thrust forward. His jaw dropped like lion lapping blood.

Armand had risen. "I shall see you to-night amid the ladies, monsieur?" he asked of Foy. "A very good night to your excellency."

"I shall be eager to carry out any plans your excellency may be pleased to favor," said Foy as the door closed.

The Apollo room that evening was a blaze of splendor. It was the last dance of the old regime. All knew the nearness of the cloud. All heard the rumble of the storm. But courtesy in Virginia was as the grain in wood. There it was not until the day that Tories had perforce to leave the colony when all who were not Tories turned Democrats and went into the Revolutionary armies; when gentlemen took the field and their ladies toiled at home with lint or homespun.

Now, though the bolt was speeding, until it fell Tory and Whig met and danced in tavern and in ball. Smiles and bow changed not a whit. Sparkle was over all.

But it was only a shell of gayety. The core was a volcano.

In the outer hall of the Raleigh, behind the shifting throng of gallants at the door of the Apollo room, Jarrat looked across a minuet and in glimpses caught between the stately moving figures he saw Anne.

Never had she seemed so beautiful, her head golden misted in the light, her long, fringing lashes shading the dusky blue of her eyes. She stood, full veined, exultant, under the white candles, her dress dove colored, flowered in large trees, with cherry tinted stays trimmed in blue and silver. On her hair, drawn high, sat a weblike capuchin.

Jarrat's face sprang scarlet—a hopeless, helpless rage of bitter longing. With him it was moth and flame, and the wing singeing had become a joy of torture.

The Marquis de la Trouerie passed into the assembly. Gallants crowded to greet him. Brooke fawned upon his hand. He became a sun with a train of lesser satellites. He moved leisurely through the throng, answering the shafts of the wits, bowing to plump Mrs. Byrd among the dowagers, approaching the end of the room, where Anne, beside Colonel Tillotson's soldierly black, held her constant court, gilded by the effulgence which the open worship of the favorite of fashion had thrown upon her.

Very lovely she looked to Breckinridge Cary, just arrived on a visit from Lancaster. He watched her from where he chatted with Byrd, whom he had last seen in Covent Garden shortly before he left England for home. He had known her from a child at Gladden Hall. The old world, he thought, could never have bred her; she was fruit of the new, of its fire and full blood, its daring, its pride and prodigality, born of its dewy valleys and its untouched, cavernous forests, a thing that must have withered in the heavy air of London.

"Yonder comes our glass of fashion, Mr. Cary," boasted Brooke, joining them. "Ah, you can always tell your real nobleman! What a waistcoat!" he simpered, ogling it rapturously. "Damme if Master Coolbaugh shall not cut me one like it!"

Cary looked with a flash of recognition that broadened into a stare of amazement. He saw a figure incased splendidly in satin, with rare point dropping from the sleeves, jewels gleaming from the ruffles, a sword hilt on which blood rubies burned, a breast sparkling with a bediamoned order.

"The marquis is late," Brooke added.

"The marquis?" Cary's eyes opened wide.

"That," said Byrd, "is the Marquis de la Trouerie."

Cary bent closer. There could be no mistake. No mistake! And all Williamsburg deceived! The circle of beaus parted, rolled back at the newcomer's approach, and Anne's face lifted itself, startled and joyful, a one look which told it all to Cary, flashlike. Oh, the pity of it!

Jarrat in his red coat saw, too, from the hall—saw her smiling, but not to his words, glowing, but not for him, and evil crept into his face till every feature seemed a sin.

"Sweet Sir Lobster!" said a lackadaisical voice behind him. "Peaceful as ever I see, and with uniform all unsullied. I' faith, I warrant no redskin might outstrip you on the far Scioto."

"Not now, Master Freneau," said Jarrat, breathing heavily. "Not now! To-night I am occupied."

"Alas! Poor Scarlet! Is it not a raree show? Mayhap 'twill inspire me to an ode. Shall I sing a Trouerie caparisoned for the lists of love? See! To be gazed at so—is it not worth a prince's ransom? Oh, adorable!"

He paused, his mocking black eyes on the other's smoldering face. "Behold the discomfited!" he went on. "Think yon Mistress Tillotson has aught for the spruce coxcombs with diamond shoe buckles and a macaroon elbow for snuff taking? Nay, nay! Nor for a king's spy with a rusted sword!"

Jarrat for once had no retort. The outer door opened, and Foy and three soldiers in his majesty's uniform entered. Foy carried a folded paper.

The four entered the inner door and stepped on to the crowded floor together. Freneau and Jarrat both pressed after them, the former in eager curiosity and the latter to slip into the background.

Anne stood with the marquis, her fingers on his arm, awaiting a minuet. The fiddles were weaving the first measures of the tune. She felt his arm suddenly tighten, his clasp take closer hold.

"What is it?" she asked. There was a bustle at the lower end of the room.

He looked down at her. Something in his voice smote her. "Remember what you said to me at Greenway Court—what you said when we stood under the pines by Gladden Hall. If I should come to be mean and low and dishonorable before the world"—

"Look!" she cried. "They come this way. What can they want?"

"Listen—low before the world, but still loving—still loving you"—

An indefinable tremor came to her. The dancers were beginning to stop. Colonel Tillotson had turned his head.

Foy, followed by the soldiers, had paused in front of them and was pointing to Armand. "Take him!" said he.

The fiddles broke off with a screech. The whole floor was stricken suddenly hushed, suddenly motionless. Anne could hear in Foy's throat his hoarse, savage breathing as the soldiers stepped forward. The assembly gasped, thunderstruck.

Then instantly there was an uproar.

"Stop!" they insisted. A dozen dress swords, among them Freneau's, came out clicking. The ladies shrank, the gentlemen came up furious, muttering curses against the royal governor.

"What is the meaning of this outrage, sir?" Colonel Tillotson stood tall and threatening. "By what right lay you hands upon the person of the marquis?"

"'The marquis!'" said Foy. "I want no marquis. This is no more marquis than I am. I have here a warrant signed by the royal governor of Virginia for the seizure of the person of one Louis Armand, calling himself the Marquis de la Trouerie, swindler, impostor and conspirer against the peace of his majesty's colony. A fine sport he has made of you, ladies and gentlemen! Will you come hence peaceably," to Armand, "or shall I have you dragged?"

The bearers wavered. Mrs. Byrd had fixed her eyes on Anne's face, and in them was a tiny, feline glitter. Anne's hands were clasped about Armand's arm, and a spot of indignant red burned either cheek.

"Oh, infamous!" she said clearly. "'Tis a lie!"

"Sir," asked Colonel Tillotson of Armand, his tone halting, "will you answer this?"

The young Frenchman's eyes were on Anne with a look ineffably tender, struggling with a sudden anguished shadow. White lines had fallen around his lips.

"Colonel Tillotson—gentlemen," said Foy, "there is not a particle of doubt, though the rascal has been clever enough to deceive even his excellency. Lack of proof has prevented his earlier exposure. This man crossed on the same ship as the nobleman he represents himself to be. The passengers of the vessel knew him in his true character."

"'Twas the Two Sisters," Anne declared. Her eyes sought out Cary. "Why—why—you were on that ship! You left her in Hampton Roads. You must know. Tell him he lies!" Her tone was certain and defiant.

Cary's lips twitched. He looked at Armand, where he stood straight and quiet, his eyes on Anne's, and he seemed again to see that lithe form hurling itself against the brutal mate of the ship for the hurt of an outcast woman's heart. He struggled against a wish to cry out that the matter was not his business and fly. He dared not look at Anne, knowing what he must see there when he spoke.

"Mr. Cary was on the ship?" asked Foy distinctly.

Anne drew a long breath, and a pallor suddenly struck her face. But she bent forward and laid her hand on Cary's arm.

"Answer!" she bade him. "Who is he?"

Cary raised his hand. "He is a gentleman, and he is a brave man. Beyond I ask not!"

"Is he the Marquis de la Trouerie?" Anne's voice was clear and firm.

"He was my friend!" cried Cary.

"Is he the Marquis de la Trouerie?"

Cary's look turned to her. He saw the grayness in her cheek and the brave light in her eyes burned his heart cold. He looked from side to side—at the sneering laugh of Foy, at the calm, stern evenness of Colonel Tillotson, at Anne's face, now grown deadly white.

"Is he the Marquis de la Trouerie?"

"Answer, my friend," said Armand.

Cary's voice was husky as he spoke. "He is the marquis' secretary," said he.

The men standing nearest drew away from Armand at this. Anne had given a flinching start as if smitten by the flying terror of a bullet. It seemed to her that present, future, dreams, reality, heaven, earth, eternity, were all slipping away from her. Armand touched her hand gently, his face torn with conflict.

"You told me—if the man you loved"— The words failed.

She raised her great eyes to his. "Are you the Marquis de la Trouerie?"

A whitening pain had conquered his face.

"I am Louis Armand," he said as one whose heart is broken.

Anne closed her eyes and stood trembling, and in that moment he dropped his arms to his sides and turned to the waiting soldiers.

"Take him away!" said Foy.

Seeing, Anne struggled piteously to speak. She stood an instant with both hands stretched out after him; then she slipped back into Colonel Tillotson's arms.

The dance was breaking up as the door opened for Armand and his guards.

Then across the quiet struck discord. A far babble drew suddenly nearer. There was a din and a scurry of crying. Windows were opened.

"Haste!" fretted Foy. "To his excellency with the prisoner! Conolly has been seen. The alarm is out, and the town will rise!"

Gallants and dames issuing into the street in their ball finery, the ladies' rouged cheeks faded in the early light, saw a horseman who rode by bawling:

"The powder! The powder!" he shouted. "Dunmore's men have robbed the magazine!" And with the shout the great bell of the palace began tolling the summons calling all soldiers of the king to assemble.

"The governor has come to his senses at last," Mrs. Byrd said with satisfaction as she came out to her chair. "We shall presently see these precious rebels scampering to their holes. You must go, I suppose, Francis?"

"Aye, mother," he answered, his eyes bright with Anne's pain, and gave her his cheek to kiss.

But he did not go to the palace. The resignation of his commission went to the earl instead, and he himself hastened to the narrow house in Duke of Gloucester street which bore the name Alberti and the sign of the violin. It was long before he saw his mother again.

• • • • • • •

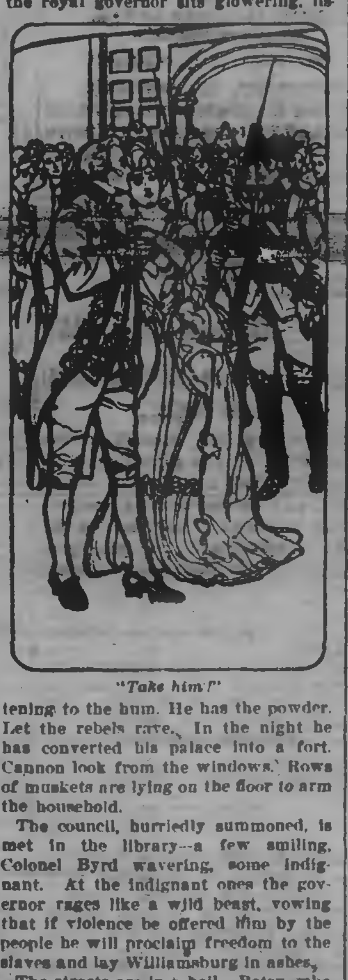
The volcano had burst. There is to be small doubt from this time where any Virginian stands. By noon the bank of the James river at Burwell's ferry, where lies the man-o'-war Magdalen, whither Dunmore's crafty agent Conolly has marched his marines with the powder raped from the Williamsburg magazine, is black with threatening men.

Steadily numbers swell the crowd that chokes Duke of Gloucester street—city councilors, some in furtive delight at this loyal ruse, others stamping angrily, with powdered wigs askew and hands seeking the hilts of their dress swords; sober men mounting and dismounting horses; ladies, brilliant as ever, in red heeled shoes and clocked stockings, eager, excited, voluble. Here is all the aristocracy, the blue bloods of the valley planters; here are the duller garbed burgesses of the inner counties.

The mob surges up and down past a square, prim house of glazed brick brought as ballast in the tobacco ships. It is fronted by a little garden, through which leads a path between exact flower beds of white lupins, love-in-a-mist and Canterbury bells, and here in his chair sits old Baron Fairfax, leaning on his cane, listing to the tumult, knowing it means anger against the royal authority, but not bending his stubborn loyalty enough to pass beyond the gate. He is all a-quiver with rage at the seizure of the marquis.

"Fools!" he storms, grinding his teeth. "Idiots! I will to the governor so soon as this cursed uproar ceases. The king shall hear of it!"

In his stronghold on Palace street the royal governor sits glowering, listening to the hum. He has the powder. Let the rebels rave. In the night he has converted his palace into a fort. Cannon look from the windows. Rows of muskets are lying on the floor to arm the household.



"Take him!"

The council, hurriedly summoned, is met in the library—a few smiling, Colonel Byrd wavering, some indignant. At the indignant ones the governor rages like a wild beast, vowing that if violence be offered him by the people he will proclaim freedom to the slaves and lay Williamsburg in ashes.

The streets are in a boil. Betsy, who has wept an hour for Anne's sake, looks on from the Byrd porch, while her mother, having heard of the defection of Francis, watches red eyed behind her bedroom curtains.

The crowd has centered opposite in the wide square at the foot of Palace street. There are cries: "The palace!" "To the palace!" The mass moves restlessly as if meditating an attack. Slower counsel prevails. There is a hubbub of talk.

Then a delegation is sent to the palace to demand the powder. Betsy sees them, four grave men, start from the crowd, go up the street, pass the guards, enter the door. There is a wait.

They return with their news. The wily earl has smoothed his rage, has heard them with courtesy. He has received the report that the slaves are about to rise in an adjoining county. If the powder be needed at Williamsburg he pledges his honor it shall be returned "in half an hour." The delegation has seen the muskets. The crowd smolders—is nonplused.

The earl looks through an upper window and rubs his hands. These Virginians are no match for him.

Ah, the end is not yet. He has still to reckon with a sallow man who sits in the upper room at Alberti's.

This man is to ride like a whirlwind to New Castle, make a fiery appeal to the Hanover volunteers and to march back to Williamsburg at the head of 5,000 men with arms in their hands.

Before they reach the town a spark flies along the angry streets that turns them to a flame. It is the news of the battle of Lexington!

And when Patrick Henry marches into Duke of Gloucester street, John Murray, earl of Dunmore, you pay for that powder!

CHAPTER XIII.

THE shadow of Anne's grief hung heavy over Gladden Hall a few days later, where Henry and Colonel Tillotson sat alone in the library conversing. It was the eve of the former's departure for the Second congress.

"Patrick," the colonel came out squarely, "what make you of this arrest of La Trouerie?"

"There is something wrong, colonel," he answered, "and 'twill out. Mark me, that young man is no charlatan. I would stake my soul he is not of low character. You are judge enough of human nature to know that."

"Cary was on the ship. Besides, he admitted it himself when he was seized at the Raleigh."

Henry leaped from his seat with an exclamation.

"Granted he is not the marquis, the man is no impostor. I want nothing but that night at the King's Arms in Winchester to convince me of that. My God, you should have seen him fight Foy! Hang your marquises! Armand is a man, I tell you! What was there to gain by a vulgar masquerade?"

Rashleigh at this juncture entered, bearing a salver.

"Letter for Mars' Henry," said he. "Mars' Randolph's Eb'nezer fotch it ober arter him fum Williamsburg dis mawnin'."

"Why," said Henry, breaking the seal, "'tis from Dr. Franklin. Business of the colonies surely. Stay—you shall hear it:

> "London, Jan. 10, 1775.
>
> "Sir—Dr. Craik, who needs no introduction to you, on his return to Virginia will see that this reaches your hand. It will inform you that M. de Penet is arrived from Philadelphia. He astonished me much when he told me that it was too discreetly doubted in the colonies as to the disposition of the court of France with regard to us. The English court here has little of this doubt; indeed there has been actual trepidation. The good news I send by this letter will show you that there was abundant ground for such fears. Not only have King Louis and M. Turgot, his minister of finance, considered together by what means they might assist so unhappy and interesting a people, but I have just learned that a gentleman of [illegible] connection and great wealth is lately sailed for your colony, an officer in the flower of his age, who has already proved his talents in Corsica. I am informed by our co-worker Beaumarchais, who is now here at the town house of Lord Mayor Wilkes in Prince's Court, that this gentleman's judgment is much valued at Marseilles, and in case the state of the cause in Virginia (which the king deems most important of the southern colonies) seems to warrant he will doubtless be commissioned to make certain representations touching aid and comfort to come from France in the event of united hostilities. I am satisfied that any civilities and respect that may be shown M. the Marquis de la Trouerie will be serviceable to our affairs. His mission is, of course, secret. I shall inform no one else of this, trusting the information to your whole discretion. I have the honor to be, sir, your most obedient servant,
>
> "B. FRANKLIN.
>
> "Patrick Henry, Esq., Williamsburg, Va."

Henry read slowly, without a pause, while the other's eyes did not leave his face. When he had finished he looked up with an expression of mingled satisfaction and puzzlement.

"Marquis de la Trouerie!" Colonel Tillotson exclaimed. "Armand's master, then, was the messenger of France! And he is doubtless in Virginia now. But how dares the secretary pose as his master?"

"Because the marquis is dead!" fell a heavy voice behind them.

The host got up frowning.

"Captain Jarrat," said he brusquely, "I like not well these soft footed intrusions. Nor, if I may say it, do I like the dress you wear. Times are come when I no longer welcome a coat of that color in my house."

A smoldering red rose to Jarrat's cheek, but he spoke evenly. "I should beg pardon, colonel, for an unceremonious intrusion into a conversation. Rashleigh let me in."

"Curse Rashleigh!" said the colonel unmistakably.

"I rode to inquire for Miss Tillotson," the visitor continued, "but since I am unwelcome, why, I will betake myself home again."

"One moment, colonel," interposed Henry. "Captain, we spoke of a gentleman as you entered. May I ask what basis you have for your information?"

Jarrat took out his pocketbook, drew forth a yellow paper and handed it to Henry. "The Marquis de la Trouerie died en route to these colonies and was buried at sea. There is the leaf from the logbook of the Two Sisters recounting the unhappy incident. The news of his death was suppressed in British interests."

"And the secretary?" Henry's voice was calm.

"The incident is now closed, gentlemen, and I violate no confidence. He was bought by the earl—for services."

"My God!" ejaculated Colonel Tillotson. "Are we never to know truth in this world? He was not an impostor and a charlatan. No. He was a British spy!"

"Why, then," interrogated Henry, "did Dunmore expose him?"

"I exposed him."

"You!" the colonel cried.

"I had crossed on the same ship and recognized him at Williamsburg. Discovering the true state of affairs, can you wonder, Colonel Tillotson, at my concern for the intimacy which I saw growing between your niece and this person? I think," he said, masking a glowworm gleam in his eyes, "that my feeling for Mistress Tillotson is not misunderstood by you. I knew Lord Dunmore's plan, and I could not openly tell you the truth. Is it a wonder I forgot that I was a king's man? I did the one thing left to me. I set afoot such suspicions that the governor, to save his own repute with Williamsburg, was compelled to sacrifice his minion, to himself expose the imposture and to cry himself also deceived. I tell you thus much in confidence. Believe me, sir, I steered the best I knew between the hurt of a lady whom I honor and the governor's displeasure. It was the Scylla of duty and the Charybdis of love. Colonel, I love your niece, and I would not see her suffer humiliation."

Colonel Tillotson rose and paced up and down the floor, plucking at the side curls of his wig.

"And if what you tell us is true," he said, meditating, "I have done you wrong. I am not overkind to your colors, but I have a respect for honest loyalty. God knows 'tis scarce enough. Mayhap I have been unjust. Will you be seated?"

Jarrat sat down, his watchful eyes turning about the room, something strangely like expectancy in them.

The colonel rang for his major domo.

"Rashleigh," said he soberly, "ask your Mis' Anne to come to the library. And admit no one—no one. Do you hear?"

"Yas, marsa; yas, suh! Nuttin' but er grabeyard ha'nt gwineter git by dat do'!"

To be continued.

Wood's Phosphodine,
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Sexual Weakness, Emissions, Spermatorrhœa, and Effects of Abuse or Excesses. THAT PALE TIRED GIRL.

You see her everywhere—in the office, behind the counter, in society—weak, unstrung, awfully nervous and tired.

She hasn't heard of Ferrozone or she would be perfectly well. How quickly it strengthens! What an appetite it gives!

FERROZONE

Makes you strong, healthy, vigorous, happy.

It nourishes the blood, gives the body the right kind of material to build up with. Ferrozone puts color in pale cheeks, makes the whole body tingle with vim and vivacity. No tonic so instant in effect. Thousands of attractive, happy women use Ferrozone—why not you?

Price 50c per box or six for $2.50 at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn. U.S.A.

Liquor License Regulations; The Sale of Liquor to Minors

May Amend License Act to Enlarge Its Scope.

Promoters of Private Bills Must Adhere to Publicity Rules—Dates On Which Municipal Elections May Be Held—University to Get No More Grants For Some Years—Sitting With Closed Doors.

Toronto, March 14.—At the opening of the Legislature yesterday Mr. W. H. Hoyle (North Ontario), chairman of the Standing Orders Committee, took occasion to make the significant announcement that gross irregularities were being found day by day in petitions and private bills presented [illegible] "Promoters," declared Mr. Hoyle, "systematically disregard the regulations of the House regarding time of fyling and publicity of private bills." This should, in Mr. Hoyle's opinion, be penalized by the Government. Mr. Hoyle added that the irregularities were usually those of the legal fraternity. At the morning session five important bills had to be laid aside because they did not fulfill the requirements.

"I am thankful the chairman has called attention to this matter," observed the Prime Minister, Hon. J. P. Whitney. "It is well known that great laxity has long existed among those who promote private legislation. Some country lawyer, like I was, comes along and appeals to his member. He is told he has failed to comply with the regulations. 'Oh, well,' he declares 'get it through any old way,' and so it goes along. The greatest possible publicity should be given to all private bills that every imaginable interest affected may be assured of due consideration. It may as well be distinctly understood that this wholesome rule cannot be set aside."

Mr. Preston Takes His Seat.

Hon. J. P. Whitney and Dr. Smellie (Fort William) amid enthusiastic Government applause introduced Mr. W. A. Preston, to whom the courts recently awarded the Port Arthur seat. Mr. Preston sits on the end seat of the rear row to the right of the speaker.

Mr. P. H. Bowyer (East Kent) introduced a bill amending the Liquor License Act. At present only a license holder or his employes are liable to penalty for selling, giving or supplying liquor to minors. The amendment is designed to cover all persons, excepting parent, guardian or physician.

Another clause is amended by Mr Bowyer's bill, making it necessary for any clubs under a Dominion charter desiring a license to obtain the same from the Provincial Secretary, instead of from the local license commissioners as at present.

Mr. McDougal (Ottawa) introduced bills to give a fixed assessment to a new Ottawa hotel and to validate a debenture bylaw of the Ottawa separate school board, which is slightly irregular.

It was private members' day and the second reading of several local measures was proceeded with

Land Titles Bill Scotched.

Hon. Mr. Whitney killed the bill of Mr. Ferguson (Grenville) to amend the Land Titles Act, in short order. "There is little in it to commend it to public approbation," was his laconic comment.

In moving the second reading of his bill to amend the Municipal Act, which gives the municipality power by bylaw to fix the last Monday in November for elections, Mr. T. H. Preston (Brant) read a number of letters he had received from various municipal authorities in favor of the measure.

Hon. Mr. Whitney did not concur in the referendum idea in the measure. It was a question that should be treated in a manly and virile fashion, because, after all, it was a mere matter of administration.

Hon. Col. Matheson said that the chief objection was in the fact that, under the altered conditions, the representatives of the people would not be responsible to the people from the 1st of December until the end of the year.

Hon. Mr. Graham was not at one with the Prime Minister in conceiving that there were many weighty reasons for a change in the date. The holiday season interfered with the elections at present. The question was whether the date should be set a little before the close of the year, or a little after, say the first Monday in February.

The bill was referred to the municipal committee.

University Grants to Cease.

When the House went into committee on the Prime Minister's bill to amend the university act by giving its authorities the right to borrow monies with the approval of the Lieutenant-Governor-in-Council Hon. Mr. Whitney made the significant announcement that the Government would make no further grants to the university for a number of years.

Hon. Mr. Mackay renewed the Opposition objection to the system of determining the amount to go to the university from the receipts from succession duties. Mr. Mackay said he had heard it said that the Board of Governors transacted business behind closed doors and that the press were not admitted. He wanted to know if this were so.

Hon. Mr. Whitney said he couldn't tell if this were correct or not. Enquiry would be made.

Mr. Mackay thought the matter was important. If the Board of Governors barred the door he was in direct opposition to letting them handle a dollar of the public money. All these matters should see the light of day.

Mr. Whitney thought it was unfair of Mr. Mackay to assume that it was true. He should first investigate and find out if it were so.

Hon. Col. Matheson said the strength of the present financial arrangement was that it threw the university governors on their own resources.

New Normal Schools.

In reply to questions from Mr. Munro (Oxford) Hon. Dr. Reaume said the contracts for the four new normal schools had been let to Mr. S. F. Witham, of Brantford. The prices were: Peterboro $53,800; Stratford $52,050; Hamilton $52,050, and North Bay $54,200. The contractor could not in any way distribute, assign or sublet the contract.

Replying to Mr. McCoig (West Kent) the Prime Minister said the Government had not yet considered the matter of granting financial assistance to municipalities affected with smallpox.

The concluding hours of the session were devoted to the estimates for colonization roads. At 3.30 to-day General Booth, of the Salvation Army will be a guest at the Legislature.

PANIC IN A THEATRE.

Many People Crushed But No Fatalities—Comedian Saves Day.

Chicago, March 14.—A despatch from Newport, Ky., says that between 400 and 500 persons, principally women and children, in a state of panic, when lightning struck the Grand Theatre here Tuesday night, were quieted and many were saved from death by the presence of mind of a comedian performing on the stage. As it was, scores of women and children were crushed underfoot. While the performance was in progress there was a rush for the exits. Wailing women, screaming children and shouting men aroused the crowd to an excited frenzy.

In the midst of the whole panic Albert Dashington, a comedian, appeared on the stage with a candle in his hand and began making jokes on the thunderbolt and subsequent darkness. His words soon pacified the audience.

EARL GREY TO SPEAK.

Will Deliver an Address at the National Peace Congress.

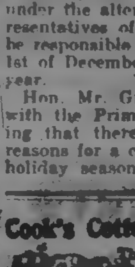
New York, March 14.—Earl Grey, Governor-General of Canada, has accepted an invitation to deliver an address at the public dinner, April 17, which is to close the National Peace Congress. Other speakers will be President Roosevelt, President Gompers, Baron D'Estournelles de Constant, of France; W. T. Stead, the English editor; and Sir Robert Cranston, Lord Provost of Edinburgh.

Two Boys Drowned.

Alvinston, March 14.—Charlie, 18-year-old son of Mrs. Archibald McKellar, and Milton, 16-year-old son of James Wallis, were drowned in the river here yesterday morning. They, with a companion, were crossing on the ice, when one of the boys went through the ice, and the other, in trying to rescue him, went in also, and both were drowned before the third boy could do anything to help them.

The body of Wm. Wallace, a C.P.R. brakeman, crushed between two cars at Bow Island, is being brought to Laurel, Ont., for interment.

Cook's Cotton Root Compound.



The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

115 SAILORS STILL MISSING.

Entire Town of Toulon In Mourning—Searching For Bodies.

Toulon, March 14.—Minister of Marine Thomson arrived here yesterday from Paris. The roll of the battleship Jena, on which the disastrous explosions occurred Tuesday, was immediately called, and 407 men replied to their names. Those of the crew who are uninjured are quartered temporarily in the naval barracks. Twenty-four officers and engineers are also reported to be safe, and besides, there are 44 of the crew lying in the hospitals seriously injured. As the officers and crew numbered 630, it will thus be seen that 155 are not accounted for. But the naval authorities consider it most probable that a large number of those have sought refuge with relatives or friends in Toulon.

Entire Town In Mourning.

The entire town is in deepest mourning. Crowds are gathered at the gates of the arsenal and docks awaiting the announcement of the names of the dead. Hundreds of despatches asking for details of the disaster have reached naval headquarters here.

The Minister of Marine upon his arrival here consulted with the port admiral, after which he proceeded to the scene of the disaster. All around the Missiessy drydock were strewn pieces of shells, and the store sheds and other buildings were pierced in many places. Cordons of troops were drawn up on the quays near the hull of the Jena, where relay parties searched for bodies. Fire hose played all night on the unsubmerged portions of the battleship, whose interior had been completely flooded.

The afterpart of the battleship is destroyed. The officers' cabins are in ruin. One of the officers who escaped said Admiral Manceron owed his life to the fact that the port holes of his cabin were open, thus permitting the suffocating gases to escape.

Forty-One Have Turned Up.

Later, forty-one of the missing men turned up, leaving 114 apparently unaccounted for or killed. Touching scenes were witnessed at the gates of the arsenal.

TRAIN WENT INTO RIVER.

Flood Carried Bridge Away—Three Men Were Drowned.

Pittsburg, March 14.—Three men drowned, a railroad bridge washed away, a county bridge in danger of following the railroad bridge into the Allegheny River, and an engine and five freight cars in the water, are the first results of the rapid rise during the night of Deer Creek, near Harmarsville, Pa., on the West Pennsylvania Railroad.

The dead:—J. B. Mikesell, engineer, 28 years old, Allegheny; W. J. Cantwell, firemen, 25 years, Darlington, Pa.; J. M. Johns, brakeman, 25 years, Freeport, Pa.

About 4.50 o'clock yesterday morning a freight train entered on the bridge, but had not got further than the second pier when it suddenly gave way. Before the engineer, fireman or a brakeman on the front part of the train could realize what had happened the bridge went down, carrying the engine, trainmen and five freight cars with it.

So rapidly had Deer Creek risen during the night that it had attained a height of 16 feet instead of the normal, from 4 to 6 feet. So great, too, was the force of the current that one of the five freight cars, heavily loaded, was carried down the creek over a quarter of a mile. The fireman, engineer and brakeman were dragged into the roaring current and drowned.

FOUND DYING IN RAVINE.

Mysterious Death of a Young Girl In Toronto.

Toronto, March 14.—Maggie Wilson, a 19-year-old girl, was found dying in the Rosedale Ravine yesterday morning about 9.30 o'clock.

Mr. Jas. Murray and a party of friends were riding along the ravine drive, and as they neared the Huntley Street bridge, noticed a body lying beside the road. Examination showed that the young woman was still alive, though unconscious. She was removed to the General Hospital in the police ambulance but died before she arrived there.

After about an hour's enquiry the police discovered the relatives of the dead girl. She spent last evening with her mother, and her brother accompanied her to her employer's residence. He left her at the gate, but was not sure that she entered the house. Her movements after that time are not known, but early yesterday morning her mother received an enquiry as to why she was not at work.

A bottle of carbolic acid was afterwards found, which it has been proved the deceased purchased, but there is no evidence of her having taken any. The affair is wrapt in mystery and an inquest will be held. It is stated the girl had been threatened several times.

New C. P. R. Steamers.

Montreal, March 14.—The Canadian Pacific has practically decided to build two new steamers for the Atlantic service, to take the places of the Empress of Ireland and Empress of Britain, which, it is understood, will be transferred to provide a faster and better service on the Pacific.

This would release two of the present Empresses from the China and Japan line, and it is proposed to put these on the Australia and New Zealand route.

The new vessels, it is reported, will 20 knots an hour—possibly 22 or 23. This will mean a great development in the north Atlantic.

Tugboat Sinks; Five Drowned.

Pittsburg, March 14.—The tow boat Cruiser, one of the largest in the coal shipping trade on the Ohio River, is reported to have gone down near Zwickley, about 20 miles down the river from this city. Five of the crew are reported drowned.

Boy Kills Baby Brother.

Fannystelle, Man., March 14.—The seven-year-old son of F. W. Beattie, while playing with a gun in the absence of his parents, shot and killed his three-year-old brother.

The plant of the Golden Lion Brewery at Prince Albert was damaged to the extent of $10,000 by fire.

WAS WHITE INNOCENT?

Abe Hummel Gives Some Startling Evidence.

Says Thaw Tried to Convict White of Wrongdoing by Bullying Evelyn—Swears She Accused Thaw of Beating Her — Damaging Testimony Hurts the Defence — Case May Reach Jury on 27th March.

New York, March 14.—James Clinch Smith, Stanford White's brother-in-law, was called again as a witness in the Thaw trial yesterday morning. Mr. Smith was tardy in arriving and Mr. Jerome summoned Abraham Hummel to the stand. Hummel had scarcely taken his seat when Smith put in his appearance. Therefore Hummel was temporarily excused and Smith took his place.

Hummel had answered two questions put to him by the district attorney. He said he knew Evelyn Nesbit Thaw, and saw her in the office on Oct. 27, 1903, following her return from Europe. Mr. Smith was questioned by Mr. Delmas for the defence, having been recalled to testify as to the cablegram he received from District Attorney Jerome early in February, summoning him to return to this country.

Mr. Smith said he did not have either the original of the cablegram or a copy. Mr. Jerome offered a letter-press copy, but Mr. Delmas refused to accept this. "As I remember the message," said Mr. Smith, "it read, 'Your evidence most important. Your attendance desired.'"

Mr. Smith said he returned on Feb. 17 last, and met Assistant District Attorney Garvan on the 19th. Mr. Smith said he had reduced to writing his conversation with Thaw on the Madison Square Roof Garden, and had showed the memoranda to his counsel and to Mr. Garvan. They both said it was good. Mr. Smith was excused and Abraham Hummel once more took the stand.

Mrs. Thaw's Statements.

"Did Mrs. Thaw tell you that Thaw wanted to injure White and put him in the penitentiary, and that Thaw had begged her time and time again to swear to documents he had prepared involving White, and charging that he had drugged and ruined her; and that Thaw had beaten her because she would not sign the papers?" asked Mr. Jerome.

Mr. Delmas interposed to ask Hummel, if at the time of the conversation with Miss Nesbit, he was acting as her legal adviser and attorney.

"I was acting only for Stanford White," replied the witness.

Evidence Vastly Important.

"The material issue here," argued Mr. Jerome, "is whether Evelyn Nesbit Thaw told Thaw the story in Paris that she told on the witness stand. If I can show that the woman under solemnity of an oath absolutely denied that she told Thaw any such story; that she repelled his demands that she should sign papers making such false charges against White; that Thaw was so angered at her refusal he beat her; stripped her naked and beat her; these are the things which must have weight with the jury as to whether she told Thaw the story which is said to have driven him insane and which has been the basis of the theory of experts that this defendant is insane."

Swore White Was Innocent.

"Stanford White did not drug me," she said, "Stanford White did not touch me." She withstood Thaw's lashings and beatings because the story which Thaw wanted her to swear to was not true. Stanford White never harmed her.

"If I can show not only that she told this, but that she later swore to it in a paper the contents of which she well knew, I submit it bears strongly on the truth of her statement that she told this story to Thaw in Paris, and that it unbalanced his mind."

The court adjourned at the close of the morning session until to-day in order to allow counsel time to look up the authorities in reference to the hypothetical question it is proposed to put to the scientists. It is expected that the case will reach the jury on March 27.

Repeal Travelers' Tax.

Victoria, B. C., March 14.—Ontario commercial travelers will not hereafter be compelled to pay a tax on their business visits to British Columbia. The Legislature yesterday repealed the law save against travelers of liquor and cigar firms. It means a loss of $20,000 yearly to the province.

The Legislature has also reduced real and personalty tax to three-fifths of one per cent., or a total this year of $125,000. Promise is also made to put an early end to direct taxation.

Played With Matches.

Quebec, March 14.—A young child named Jean Bureau, four years old, was burned to death at St. George de Beauce, the result of being left alone in the house of his parents and playing with matches.

The mother of the child went out to the stable. On her return she found the little one's clothing in a blaze, and though she rushed to the rescue, burning her hands severely in attempting a rescue, the child died from the effect of its injuries.

Stopped U. S. Steamer.

Managua, Nicaragua, March 14.—The American steamer City of Para, having on board one thousand rifles destined for Amapala, Honduras, was recently overhauled by a Nicaraguan gunboat, which seized the rifles. The steamer was permitted to proceed to her destination.

Bad Wreck In Transvaal.

Johannesburg, Transvaal, March 14.—Adam Jameson, M. D., ex-Commissioner of Lands, was killed with 13 other persons early yesterday morning in the wreck of a train at Alkmaar, on the Delagoa line, due to a washout. Eleven persons were injured.

Forty horses were killed by the derailment of a colonist train [illegible] Schreiber.

TITLED CONVICT IN QUOD.

Lord Nevill Charged With Stealing Jewellery From Pawnbroker.

London, March 14.—Lord William Nevill, fourth son of the Marquis of Abergavenny, is in the hands of the authorities again, and yesterday was remanded at a police court, charged with stealing jewellery by means of a trick.

Lord Nevill was sentenced to five years penal servitude at the Old Bailey, Feb. 15, 1898, for fraud in connection with a promissory note, the prosecutor being Capt. Spencer Clay, who in 1904 married Pauline, daughter of William Waldorf Astor.

In the present case Lord Nevill is charged with stealing a bag containing $2,000 worth of pearl and diamond jewellery, by exchanging it for a similar box, which, when opened, was found to contain two pieces of coal wrapped in tissue paper.

According to the testimony, Lord Nevill pawned articles of jewellery at different times, and subsequently requested the pawnbroker to take the jewels to his house with a new contract covering all the transactions.

After the contract had been signed, Lord Nevill produced a green leather box, in which the pawnbroker placed the jewels, tied up and sealed the box; Lord Nevill then diverted the pawnbroker's attention to a bureau in another part of the room.

The man turned away for a moment to examine the bureau, and Lord Nevill shortly afterward joined his visitor and handed him a box which the pawnbroker supposed contained the jewellery.

On examining it a couple of months later, however, he found that it had been changed while his back was turned.

Lord Nevill was remanded in $25,000 bail.

$200,000 FOR TELEPHONES.

Alberta Thus Disposes of a Surplus—$365,675 For Education.

Edmonton, Alta., March 14.—The estimates were brought down in the House yesterday and passed with little opposition. They indicate that Alberta will spend $2,763,974.18 during 1907 and from Jan. 1, 1908, to the passage of estimates at next session, $400,000 is the amount called for by the Departments.

In the estimates are Civil Government, $1,555,000; Legislation, $34,000; Administration of Justice, $345,722.68; Public Works, $1,293,000; Education, $365,675; Agriculture, $345,576.56; Hospitals $34,500; Miscellaneous, $99,950.

The revenue during 1907, the Premier stated, would be approximately $200,000 greater than the receipts, but the Government proposed to expend out of current account $200,000 on construction of telephones in Alberta, consequently the accounts will practically balance at close of year.

In delivering his budget speech the Premier gave a brief resume of work done by the Government during past year. The total output of butter was $479,977, of which $292,977 was from Government creameries and the balance from private companies. The traveling dairies has been a very important assistance in the higher education of the farmers. The outlook was for a great expansion in dairying.

DROVE OVER EMBANKMENT.

Woodstock Constable Killed While Looking For Escaped Prisoner.

Woodstock, March 14.—While in search of an escaped convict from Woodstock jail early yesterday morning, Police Constable Archie Pow, of this city, was thrown from the rig in which he was driving by the conveyance going over an embankment, and instantly killed.

Pow left here at midnight with Turnkey Forbes of the jail for Ingersoll, in an endeavor to locate a prisoner, A. E. Forbes, who escaped during the evening. The night was intensely dark, and at Beachville the horses left the road, capsizing the buggy.

Verdict In Hockey Case.

Cornwall, March 14.—A coroner's jury returned a verdict last night that "Owen McCourt came to his death by a blow from a hockey stick in the hands of Charles Masson during a game in the Victoria Rink, on March 6."

The jury further declared there was no justification by personal provocation for the blow, although there was no evidence of any ill-feeling between McCourt and Masson.

The jury recommended that an act be passed by the Legislative Assembly whereby "players and spectators engaging in or encouraging roughness or foul play in the game of hockey be severely punished."

St. John's Church Woman's Auxiliary

Annual Meeting Revealed That Good Progress Has Been Made

The Woman's Auxiliary of St. John's church held its annual meeting in the Sunday school house on Tuesday afternoon. The reports presented were most satisfactory in character. There is a good balance on hand. The receipts this year were the largest on record. The Dorcas secretary, Mrs. Best, reported that a bale of clothing had been sent out this year as usual, but regretted the fact that the attendance at the sewing meetings had not been as large as it had been in former years.

Mrs W. R. Morris presented the Mission Band report which showed that the branch of the auxiliary was in a satisfactory condition.

Miss M. Wilson presented an encouraging report from the Girls' Auxiliary, a newly organized branch, with a membership of 23. Regular meetings have been held since the auxiliary was organized, and the members take a deep interest in the work.

Miss M. E. Peck resigned her office as P. M. C. treasurer, her resignation being accepted with regret, and a vote of thanks was passed to Miss Peck for her valued services to the auxiliary in the past.

The officers elected were;
Hon Pres., Mrs. Vernon.
President, Mrs. R. H. Nesbitt.
Secretary, Mrs. Palmer.
Treasurer, Mrs. R. Campbell.
[illegible] Secretary, Mrs. Dean.
Literary Secretary, Mrs. Botsford.

Council Will Buy Road Ploughs

For Cutting Down Hill—Ennismore Township Fathers Meet

The second meeting of the municipal council of Ennismore was held in the town hall on March 8th. All the members were present. The minutes of previous meeting were read and signed.

Bylaw No. 317 passed its several readings for the purpose of appointing Roadmasters, Poundkeepers and Fenceviewers.

The Roadmasters are as follows; T G Calvert, Isaac Moore, W J Clarke, R Nurse, Jno Conway, Jas Killen, Jno O'Reilly, Alex Morrison, W H Crough, John O'Donoghue, Jno Mahoney, M S Crough, Eugene Moloney, W J Crough, Jas Haggart, Jno Brick, Michael Cavanagh, H Killen, C O'Reilly, P F Flood, Wm Young, Jas Scollard, Ed Harrington, Jas Cadigan, Rich Davis, E Murphy, Michael Holland, C O'Connor, T Y Crowley, J K Galvin, Rich Killen, W J Scollard, Michael Gannon, Thos Flood, J J Hickson, Michael Crough.

Poundkeepers.—P. J. Leonard, Jas. Murphy, Wm Geary, Jas Guiry.

Fenceviewers. — Eugene Moloney, Patrick Twomey, Ed Harrington, J Murphy, W H Crough, David Quinlan, W J Clark, Jno Young, M S Crough, W J Crough.

The council, at the request of several of the ratepayers, intend to purchase one or more road plows or pick plows, for cutting hills. They purpose drawing gravel on roads by the yard.

The council adjourned to meet again at the call of the reeve.

OBITUARY

MICHAEL O'DONNELL

The death occurred this morning of Mr. Michael O'Donnell at his residence on Harvey street, after an illness of two months. In fact, the deceased has not been robust for the past two years, but it is of late that a change for the worse was noticed in his health.

The late Mr. O'Donnell was born in the township of Douro fifty-six years ago. He was married some thirty-three years ago to Margaret Shearer, who still survives him. The family has been living in the city about twenty-five years and Mr O'Donnell was well known among a large number of friends. Besides the wife, three children are left to mourn his loss. The children are Nellie, Percy and Geraldine, nine other children having also died. The deceased was a member of the Catholic Order of Foresters.

The funeral will take place on Saturday morning at ten o'clock from the family residence, 56 Harvey-st. to St Peter's Cathedral and thence to the Roman Catholic cemetery.

JANE WALKER.

The death occurred at St. Joseph's hospital last evening of Jane Walker, relict of the late Samuel Walker of Lindsay. The deceased was an elderly lady. She was taken to the hospital on Monday last. Her death was due to heart disease.

The remains were forwarded to Lindsay this morning, where interment will be made.

MRS. JOHN HENRY GRAHAM.

The death occurred this morning of Mrs. John Henry Graham at her late home on the 4th line of Smith, after a lengthy illness, suffering from pernicious anaemia. The deceased's maiden name was Margaret H. McGregor. She was born in the township of Smith, forty-five years ago, and had lived there all her life. She was widely known and highly respected by all who knew her. [illegible] small children are left to mourn her loss. Two sisters and one brother also survive her.

The funeral will take place on Saturday afternoon at one o'clock from the family residence to Little Lake Cemetery for interment.

MR WM HOWSON

Mr Wm. Howson, of Asphodel, passed away at his home in Asphodel on Monday, March 11th.

Deceased, who was 52 years of age was a native of Asphodel, and was born and lived all his life on the farm where he died. The funeral took place from the family residence on Wednesday, the 13th inst., and was conducted by the Masonic Order of which deceased was a member.

Has Purchased New Residence

Dr. Neal Has Bought Mr. R. H. Bradburn's Residence on Charlotte St.

Dr. Neal has purchased the handsome residence of Mr. R. H. Bradburn at the corner of Stewart and Charlotte streets, and will take possession in the near future. The house is one of the handsomest dwellings in the city. It was just completed last year. It is understood that Mr. Bradburn realized a handsome sum for his property.

H.M.S. is being held in readiness at Victoria to proceed to Guatemala.

National Dairy Show Goes to Toronto After a Stubborn Fight for the East

Dairymen Were Unanimous That Peterborough Was the Better Place—Western Men Were in the Majority and They Flatly Refused to Go Further East Than Toronto—Interview With Hon. Nelson Monteith—Government Asked for Grant of $4,000 to Pay Prize List.

The National Dairy Exhibition of dairy cattle, dairy produce and dairy machinery will be held in Toronto. A hard fight was put up by the men from the east and the big deputation from Peterborough. Everything was acceptable that was offered and everything was offered that the dairymen could ask for. In fact every member of the joint committee recognized the advantages of Peterborough over any other city in the province, as the home of the show. But strong forces have been at work in the west, and these men positively refused to go one step further east than Toronto.

Peterborough's proposition was much better than that of Toronto, insomuch that the big city only offered the St. Lawrence market, which is a very large structure, lightly built and exceptionally hard to heat as it was built for a market and not for exhibition purposes. This city offered to erect a building according to plans and specifications, satisfactory to the dairymen. It would also be a solid, well-constructed place, and heating would not be necessary.

The trouble was that when the vote was taken the eastern men voted for Peterborough and the western men for Toronto. The latter was represented by over two to one to the east, and of course carried the day. The east has five cheese factories, to the west's one, but there was an equal representation on the committee. Then the cattle breeders representatives were all from the west except two.

Mr. Geo. A. Gillespie, one of the representatives from the Eastern Ontario Dairymen's Association, arrived home from Toronto last night, accompanied by all the delegates from the county council, Mr. Switzer and Mr. Riddell.

In speaking to the Review Mr. Gillespie said that the Peterborough people did all in their power to bring the show here, and they deserve great credit for the forcible manner in which they presented their claims over Toronto. They offered to furnish any and all accommodation required and anything else they desired. This, combined with the stiff arguments put up by the members of the Eastern Association, and Mr. J. R. Dargavel, president of the Eastern Association, who was on hand all day and worked hard for Peterborough, forced every member of the joint committee to acknowledge that this city was the better place, but the western men were stubborn and would not consider any place east of Toronto. In order to strengthen the western case and to give the delegates a united front, Guelph was persuaded to withdraw from the contest. The result could not be otherwise under the circumstances and after the first vote was taken the eastern men gave in and Toronto was made the unanimous choice.

The Queen City was represented by Ald. Chisholm and Commissioner of Industries Harris, who briefly but forcibly, addressed the committee an presented the city's offer.

Peterborough's representation was as published in last night's Review.

IN THE AFTERNOON.

Yesterday afternoon, the entire joint committee of the Dairymen's Association with all the representatives from Peterborough, waited upon the honorable, the Minister of Agriculture, Mr. Nelson Monteith. There were fully fifty gentlemen in the deputation, including Mr. T. E. Bradburn, M. P. P., who was owing to very important business unable to be present at the morning session. The interview was held in Hon. Mr. Monteith's private apartments, and the dairymen were very heartily welcomed. Several short addresses were presented strongly placing before the Minister the necessity and the desirability of a national dairy show, separate from the fat stock shows, and urged that the government consider the matter favorably. The dairymen asked the Legislature to make a grant of $4,000 towards paying the prize list and meeting other expenses of the show.

Hon. Mr. Monteith expressed his pleasure at meeting with the dairymen and while he did not commit himself, he said he would take the proposal up with his colleagues and give it very careful consideration. The manner in which the Minister of Agriculture spoke was very gratifying to the dairymen and they left feeling confident that the assistance of the Government would be forthcoming.

SHOW GOES ON.

After meeting with Hon. Mr. Monteith, the joint committee retired and met again at the city hall. So confident are they that the $4,000 will be granted, that the dairymen proceeded to organize. An executive committee was appointed to look after the details of the show and to make all arrangements for carrying it to a successful issue.

The personnel of the committee is —Mr. G. A. Gillespie and Mr. Glendenning of the Eastern Association; Messrs. Pigatt and McQuaker for the western men; Messrs. Hume and Ballantyne for the Ayrshires; Mr. Duncan for the Jersey men; and Messrs. Mallory and Clemens for the Holstein men.

North End Reading Circle Tendered a Farewell Tea

And Made Presentations to Mr. R. M. Dennistoun and Miss Kirkpatrick—Social Event at the Home of Mrs. (Dr.) Boucher.

A most pleasing event took place yesterday afternoon at the home of Mrs. (Dr.) Boucher. It was a farewell tea and presentation to Mrs. R. M. Dennistoun and Miss Kirkpatrick, who will shortly leave Peterborough to make their homes elsewhere. The two ladies honored are both charter members of the North End Reading Club and have always taken a very prominent part in its affairs with great benefit to the other members as well as to themselves. They are both very popular ladies and are leaders in the best social circles. It was only fitting therefore, that the members of the North End Reading Club should tender the departing ladies a farewell.

The affair yesterday afternoon was informal, although none the less pleasant. Mrs. Boucher, as leader of the Club, kindly and gladly offered her home to the ladies and all the members were present to take part in the function. It is needless to say that the members of the circle deeply regretted that Mrs Dennistoun and Miss Kirkpatrick were leaving the city, but at the same time expressed sincere wishes for their future happiness, and good health and that they might think with pleasure of the many years spent with their old friends in Peterborough.

Mrs. Dennistoun and Miss Kirkpatrick were greatly pleased to be honored in such a manner by the club and feelingly expressed their regret at having to leave behind the associates. But they said they would never forget the enjoyable hours they had spent together and the benefit they had derived from their association with the circle, would serve as an everlasting memorial.

Miss Kirkpatrick left at noon today for Orillia, where she will live with her sister, Mrs. Noble. Mrs. Dennistoun will leave the first part of April, with Mr. Dennistoun and family, for Winnipeg, where they will reside in future.

Tug "Ajax" Purchased By Mr. J. E. A. Fitzgerald

Mr J. E. A. Fitzgerald, of this city, has purchased the tug "Ajax" from the Trent Valley Navigation Company. Mr. Boyd, manager of the Navigation Company was in the city yesterday when the deal was put through.

The Ajax is considered the best tug on the lakes and is in good condition. It will be of great service to Mr. Fitzgerald, as he brings down a large amount of wood from the lake regions. This necessitates a large amount of tugging and it is for this work that he will use the tug he has just purchased. The Ajax will also be used to do tugging for several of the lumber companies and other parties.

New Fancy Cheese Will be Put on the Market Shortly

Mr McFarlane Wilson Has Secured a Patent on Celery Cheese—Celery Seed Blended With the Cream Cheese--Will be Made in Peterborougn.

Within the next couple of months a new and fancy cheese will be put on the Canadian market. It will be known as celery cheese and is the first fancy cheese to be patented in Canada. Mr. McFarlane Wilson, of the China Hall, is the proprietor of the new delicacy. He conceived the idea some two years ago that if the two components, viz., cheese and celery, would be very nice if they could be combined. He started to work at once and after many trials and experiments he succeeded in producing an article which exactly suited his idea. It is a delicious cream cheese with a distinct celery flavor.

As soon as Mr. Wilson accomplished the art of blending the celery with the cheese he applied for a patent and last October it was granted so that he will produce the first and only fancy cheese which is patented. The article will be manufactured by the Celery Cheese Co., of Peterborough, and will be put up in pots or jars of quarter pound, half pound, one pound and two pound sizes. The factory will be located in this city and the cheese put before the public through the wholesale houses.

When asked how he produced the celery flavor Mr. Wilson said it was obtained from the celery seed, but he would not give the formula at this time. Celery cheese, will, however, prove to be a strong competitor on the market. There is little doubt but that it will create a big demand from the very start. The quality of the cream used in this cheese will be the very best and all other material used will be of the best, while the flavor of cheese and celery cannot help but appeal to everyone.

The price of the new article will be about the same as other fancy cheese now on the market. Mr. Wilson says he will have his goods into the wholesale houses just as soon as he receives a shipment of pots which have been on order for some time. Then as fast as the demand increases a company will be organized and a factory erected. No doubt a great many citizens of the Province and Dominion will gladly welcome celery cheese.

CHINA HALLS' SPECIAL BARGAINS

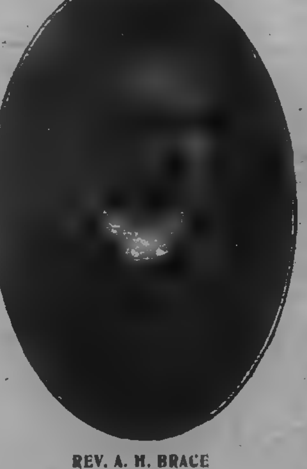
The Attendance Increasing Nightly

Revival Services at Park Street Church Doing Much Good

Without a doubt they are reaping for eternity at the Park Street Revival services. The crowds are growing and the interest is increasing. The congregational singing is an inspiration; the new songs are taking hold of the people. "The old time religion, 'tis good enough for me," "Calvary," "Send the Power just now," "Going to Heaven the good old way," are all favorites.

The sermon last night from John 1-11, "He came to His own but His own received Him not," went right to the heart and conscience. The preacher asked, "Why are men lost in the face of such a truth as this?" It is a great faithful saying and worthy of all acceptance, that "Jesus came into the world to save sinners of whom I am chief." The chief was saved, and if Christ can save one He can save all—can save all if He can save one. Men are lost because of ignorance, for they are ignorant of God's righteousness, and going about to establish their own righteousness.



REV. A. H. BRACE
Pastor of Park Street Baptist church

Men are lost because they don't realize they need Christ. Lost because they are stubborn, "Ye will not come unto me" --The greatness of Jesus, shows the greatness of the sin in rejecting Him.

The Testimony was a solemn spiritual feast, great liberty and choruses full of life and fervor. A number responded to the preacher's tender appeal to decide for Christ.

Subject for tonight — "Can men know that they are saved? How do I know I am saved?" Prayer service in rectory at 7.30. Song service at 7.45. Service for boys and girls Friday at 4.20 p.m. Subject "Why is a boy like an oyster.

The Allan Line Turbine steamer Victoria, which sailed from Halifax Sunday morning, March 3, arrived at Liverpool 2 p.m. March 10. The time of passage from Halifax was six days, nineteen hours, which is considered remarkably good in view of the rough weather experienced during the last few weeks.

Private Bills Committee is Considering City's Bill

Many Citizens in Toronto Supporting and Opposing the Various Clauses—Water Commissioners Out In Force—Will Have Interesting Time

The city's private bill is being considered by the Private Bills Committee of the Ontario Legislature today. It is many years, in fact never before, did the special legislation create so much interest as it does this year. The bill is longer than ever, and seeks for more concessions even than last year. But it is doubtful if the clauses will be put through. Opposition is being presented to several of the requests, and things promise to be interesting.

A deputation from the City Council, composed of Mayor McWilliams, Ald. Morrow, Ald. Bradburn, Ald. Stevenson, Ald. Phelan, Ald. Leary, Ald. Wilson, City Solicitor Hall and City Clerk Armstrong, went to the city yesterday, and are endeavoring to have the bill passed in full. What success they will have is hard to say, but one thing is certain, and that is, if the bill is not thrown out entirely or adopted in full, it will not be known for probably several days what the result is.

Some of the more important features are:—The Coates Co. agreement, the Canadian General Electric Co's agreement, the purchase of the Peterborough Light and Gas Co's. plant, the development or securing of electric horse power for manufacturing and domestic purposes, the acquirement of land for manufacturing sites, the legislation for the Water Commissioners, the Turner By-law, and the Rapid Tool Company's By-law, besides a number of other things.

There is opposition to the Water Commissioners' request for power to tax vacant property fronting on water mains, and their request to be made a body corporate. A number of private citizens are in Toronto for that purpose. There are also citizens there watching other clauses in the bill.

Besides the deputation from the City Council, there are present:—Messrs R. M. Dennistoun and J. H. Larmonth, for the Peterborough Light & Power Co.; Mr. G. W. Hatton, Mr. N. D. Laplante, Ex-Mayor Best, Mr. J. J. Turner, Mr. Gus Hay, Mr W. S. Davidson, Mr. Jas. Kendry, and Water Commissioners T. F. Matthews, W. H. Hill and W. H. Moore, and a few others. Most of the above named gentleman left yesterday noon or last night, and the others left this morning.

Mrs. John Hall Broke Her Hip

Slipped and Fell on the Verandah This Morning

This morning Mrs. John Hall, who resides on Rubidge street, met with a very painful accident. She was out on the verandah in front of her home when she slipped and fell, breaking her thigh bone. The injured lady was carried into the house and Dr. Halliday was called to set the fracture. Mrs Hall is doing as well as could be expected although she is suffering greatly.

"THE DAYLIGHT STORE"

The Spring Overcoat

Because a man can go without a Spring Overcoat at a pinch, sweltering in his winter overcoat or shivering without any over-garment at all through the weeks that span the interval from real winter to real summer, this garment has become a sort of badge of prosperity.

THE COAT

that has the most admirers this season is the Three-quarter Length Overcoat in Black or Oxford Gray. The long Swagger Raincoats in Coverts and Thibets, and the swellest of the swell Coats, the Paddock, with long handsome Skirts in Plain Gray and Black Thibets.

Black Vicuna, Three-quarter Length, at $13.00
Gray Thibet, Three-quarter Length, at $15.00
Covert Rain Coats, long swagger, at $10 and $12
Vicuna and Covert, in Paddock style, $16, $18 & $25

Our Coats have hand-padded shoulders, hand-made collars, with the best of hair cloth fronts. Some are handsomely silk lined and very luxurious garments.

We don't know where better Spring Overcoats than ours can be found. They're simply perfection.

PERSONAL

Miss Eva Roberts, of Roseneath, is visiting friends here.

Mr. T. H. Brooks has returned from spending a month in Cobalt.

Mr. F. D. Lacombe has returned to the city, renewing old acquaintances.

Rev S. S. Burns, pastor of the Lakefield Presbyterian church, was in the city today.

Rev. E. A. Langfeldt was in Havelock last night conducting a Lenten service in St. John's church.

Rev Dr. Marsh, of Springville, will deliver a lecture in Omemee tonight on "A Night in the Skies."

Mrs. W. H. Robertson will not receive tomorrow or again until the third and fourth Friday in April.

Mrs. R. W. Van der Water of Toronto, is the guest of Mrs. (Rev.) Major, All Saint's rectory, for a few days.

Messrs. H. P. Lindsay, C. Young, J. E. A. Fitzgerald, C. A. Walker, and John McCabe, of Peterborough were among the visitors in town yesterday and today.—Lindsay Post.

Mr. D. W. Little, formerly of Peterborough, now representing the Canadian Power, Gas and Launches Co., Limited, Toronto, is in the city. Mr. Little's many friends are pleased to meet him.

Mr. and Mrs. G. A. Powell announce the engagement of their eldest daughter, Ethel Lillian, to Mr. Owen Arthur Smily, son of Mr. and Mrs. Thomas Smily, of Avenue road, the wedding to take place in May. —Toronto Star.

Hastings Star:—Mr. Jos. Duffus, of Peterborough, was in town on Sunday, attending the funeral of the late Barzard Armstrong......Mr. and Mrs. P. McMartin, of Peterborough, were the guests of Mr. Wm. Lynch over Sunday......Mr. John Downs, of Peterborough, visited his cousin Miss Carney, a few days this week.

Mr. William Christie has decided to move to the west and next week he will leave for Strathcona, Alta., where he will enter the real estate business. Mr. Christie is a well known machinist and has considerable capital to start out with. This with some ability is all that is necessary to make a success of life so that Mr. Christie should soon be financially well to do.

Their Contract is Nearly Finished

Heating and Plumbing of King Edward School About Completed

Messrs. McGregor & Reid are putting the finishing touches on the heating and plumbing of the new King Edward school. The steam has been turned on and the building heated for several weeks, but there was some minor work in connection with the installation of the heating and plumbing system that is being done at present.

Good progress is being made on the school, and it will not be very long now before it will be ready for the pupils. The plumbing and heating are all that could be desired and are almost certain to give every satisfaction.

THE CITY AND VICINITY

EVENTS TO-NIGHT

St Andrew's church. — Sunday School Institute meeting.

Young Conservative Club — Englishmen's Night.

Grand Opera House. — Sergeant Kitty.

Evangelistic services in Park st Baptist church and George street Methodist church.

PRACTICE TONIGHT.

The Charlotte street church choir will meet this evening at 7.45 o'clock for practice. A full attendance of the members is requested.

AT INDIAN VILLAGE.

The annual tea and concert of the Chemong Indians will be held in the Indian village this evening. A number from the city will attend.

ORANGEMEN TO MEET

A meeting of the District Orange Lodge of Peterborough will be held in the Orange Hall, Simcoe street, on Friday evening, March 15th. All officers, especially are requested to attend

BOARD OF TRADE

Hastings citizens will organize a Board of Trade. Dr. Coughlan, of that village, is the prime mover in the undertaking.

A GOOD PROGRAMME.

Mr Peter Gardner will contribute a reading, "The Bag-pipes," at tonight's entertainment at the Young Conservative Club rooms. It will be "Englishmen's night." A very attractive programme has been prepared and the rooms will doubtless be crowded to the doors.

MASS MEETING.

At the mass meeting in the Grand opera house on Sunday, March 24th, at 4.15 p.m., Mr. Jos. N. Cleal, of Toronto, will be the principal speaker. Mr. Cleal gave an address in St. John's church in December last, and is a forceful speaker. He also spoke to a meeting of men after service, who will not readily forget his straight talk.

ENGLISHMEN'S NIGHT.

The Young Conservative Club rooms will likely be thronged this evening at the smoker which will be held. It will be Englishmen's night and a good programme of songs and music will be rendered. Rev Dr. Crothers will speak on "The Empire" and Mr. H. R. H. Kenner will give a short address on "The Beauties of Rural England." Mr. Wm. Buller will be the chairman.

CHARGE WITHDRAWN.

Two young men were charged at this morning's police court, with creating a disturbance in a local pool room on Wednesday evening last. The proprietor of the pool room laid the complaint, but this morning he desired to withdraw the information. Mr. Gordon who appeared for the young men was desirous of having the charge dropped. The magistrate was willing not to go on with the case. The complainant had to pay the costs of the court which amounted to $8.75.

HAD SMALLPOX.

The Kendal correspondent to the Newcastle Independent says; "Some of us cannot resist making comparison upon the manner in which our Board of Health deals with contagious diseases as compared to neighboring municipalities. Some privileged persons in Clarke break quarantine upon the slightest pretext, while one member of the Board puts the blame upon the others. Now, down in Hope Township, there was a funeral recently, when a prominent Clarke man, who never had the small pox, received a telephone message forbidding him to come to said funeral, as some of the Clarke man's relatives had had that disease. We would say, however, that none of the above facts concern any Kendal people but refer to people in other parts of the township. We suggest that a happy medium between the two plans might be justice to all. We all join together in rejoicing that the disease is stamped out in our townships.

Plan of Hall for St. Patrick's Celebration opens Friday, March 15th.

Describes Life in Latchford

Mr. Alvin Switzer, returned this week from Latchford, in the Cobalt district after spending two months there, says the Bobcaygeon Independent. With his son-in-law, Mr. H. Ensley, they engaged in the cutting of ice, for Latchford has the Lake of Bays on one side, and the Montreal river on the other. The water supply for the town is not convenient, for there are few wells, and most people put in ice. When the first commenced operations they cut the ice in blocks eighteen inches square, and stored at 12c a block. Later on as the ice thickened, they cut and stored it by the ton, putting 94 tons in one house. This ice was 31 1-2 inches in thickness, and the blocks weighed 325 lbs., eighteen blocks making a good load for a team. The weather was favorable for cutting and on windy days Mr. Switzer put up forty feet of a cotton wind-break, that he fastened to poles, standing in the ice, and the work was carried on in comparative comfort. Saturday last they experienced the heaviest fall of snow for the winter, eighteen inches. Horse hire at Latchford is rather expensive, 60c an hour for teams, and they are all kept busy, many of them being engaged by prospectors and workers of mining claims, who walk into Latchford for supplies, and then hire a team to cadge them to the claim, often taking three days to a trip. The traffic of people bent on mining has been large all winter, and every day on the ice they would see parties going and coming with their teams, and dog teams, and sometimes men alone on foot, all seeking their fortunes in minerals. Mr. Thos. Paterson is doing a nice business in a general store, and there are others there from Bobcaygeon all doing well. Men are ready to work will be sure of earning good wages, and Mr. Switzer may yet return to the north, if circumstances permit.

LATE SIR WILLIAM HINGSTON.

"Canada's First Great Physician" Title Often Applied Him—How He Deserved the Honor.

"Canada's first great physician" was a description often applied to Sir William Hingston, who has died in Montreal. On the principle that great men lived before Agamemnon, the popular idea of Sir William may have been unjust, but it is undoubted that he was the most famous medical man Canada had produced up to the time Prof. Osler became so widely known. His career has been no longer than it has been distinguished, both in public life and in his profession. In the latter he stood quite abreast of the most successful American doctors for a quarter of a century, and hardly a week went by without bringing to him some patient from the United States who believed that in his own country there was no physician quite as capable as the doctor at Montreal. Although 78 years old at the time of his death, Sir William's standing among the medical men of the country remained what it had been for a generation.

Won Honors Abroad.

He was born in Montreal in 1829. His father had come to Canada as adjutant of the famous Hundredth Regiment and fought through the War of 1812. After the disbanding of the regiment, in 1819, Col. Hingston took up his residence on the Chateauguay River. He died when his son was only 18 months old. William received his early education in Beauharnois, and then, at the age of 15, entered the Montreal College. His first year there gave a promise of a brilliant future, for he captured three first and two second prizes out of a possible five. His first intention, after leaving school, was to become a chemist, and he spent two years in preparation. At the end of this time he had concluded to become a doctor, and entered McGill, graduating in 1851. Afterward he proceeded to take a post-graduate course at Edinburgh, and continued his studies in several European countries. Of honors he won in Europe one was membership in the Imperial Leopold Academy, and he was the first Canadian to so distinguish himself. Then he returned to Montreal and began the serious business of his profession. For surgery he had a peculiar aptitude, and it is recorded that in 1867, on a visit to Edinburgh, he performed a most difficult operation at the request of Sir James Simpson, one of the greatest surgeons living, and a keen admirer of the Montreal doctor.

The First In Canada.

As surgeon of the Hotel Dieu Hospital, he was able to practice his art over a wide field, and soon his skill was known far and wide. It was when filling this post that Dr. Hingston had the honor of performing for the first time in Canada a number of difficult operations, removal of the kidney, excision of the knee, and excision of the tongue and lower jaw being among them. He was one of the organizers of the McGill University Society, and a resuscitator of the Medico-Chirurgical Society of Montreal, the first secretary of the Dominion Medical Society, and afterwards its president. When Bishop's College Medical School was organized he was appointed professor of surgery, but soon resigned. In 1876 he was chosen by the International Council to represent Canada at the Philadelphia Medical Congress, and in 1887, when the congress met at Washington, he was again offered this honor. So one might continue the list of professional honors, concluding with knighthood in 1895. There is hardly any distinction open to a Canadian medical man that he had not received.

Mayor of Montreal.

As a public man Dr. Hingston first came before the people of Montreal as a candidate for the Mayoralty in 1875. He received about ten votes to his opponent's one, and, as he stated at the time, "without having spent one moment of time or one shilling of money to obtain a position which no one should seek, but which, coming as it did, no one was at liberty to decline." He was re-elected by acclamation, but declined a third term. The period of his Chief Magistracy was one of unusual importance, especially at the time of the Guibord affair. For the wise and moderate manner in which he discharged his duties Mayor Hingston received the thanks of the Governor-General, Lord Dufferin.

He has been a frequent contributor to the medical journals, and not infrequently his papers interested a far wider field of readers than the medical profession. For example, a well-considered essay on the climate of Canada and its relation to human life was a step in removing an ignorant prejudice that is now fast disappearing.

Hit Back.

Walking along a road in the remote west of Ireland, two tourists were passing one of the cottages, or, as they are better known in the country, cabins, of the peasantry. This particular cabin was even a more than usually dilapidated specimen of its class, and the chimney, consisting mainly of the remains of an old top hat, presented a comical, if pathetic, appearance.

Tipping his friend a wink, one of the tourists accosted a youth who was sitting contentedly on a fence.

"I say, my boy," he said, "does that chimney draw well?"

"Shure, thin, it does," was the prompt reply. "It draws the notice o' ivery fool that passes by!"—London Journal.

A Collector's Bequest.

"My wish is that my drawings, my prints, my curiosities, my books—in a word, those things of art which have been the joy of my life — shall not be consigned to the cold tomb of a museum and subjected to the stupid glance of the careless passerby. But I require that they shall all be dispersed under the hammer of the auctioneer, so that the pleasure which the acquiring of each one of them has given me shall be given again in each case to some inheritor of my own tastes."—From the Will of Edmond de Goncourt.

Two sons of Jas. Walker, Neepawa, Man., were struck in a cutter by C.N.R. train and hurled 30 feet without serious injury.

The National Artillery Association have fixed dates for the annual target practice. The camp will be held at Petewawa from June 25th to August 30th. The 24th Peterborough Battery and the 14th Midland Battery, comprising the 10th Brigade, will compete in the annual target practice from June 29th till July 1st inclusive.

Anglicans Will Erect New Church

St. George's Congregation Hastings Select Site for the Structure

At a meeting of the church members of St. George's church, Hastings, on Thursday, it was decided to pick out a site, and make a choice of the materials for the construction of the new Anglican Church.

A lot 60 by 196 feet was purchased from Miss M. Fowlds, just west of Mr Fred. Fowlds' residence on Bridge street. It was decided to build the basement of stone, and the walls of the church of concrete blocks. The plans will be drawn out at once, and the contract let in order to have operations start as soon as the weather will permit.

The site chosen is one of the best, if not the best that could be found in the village.

Respected Lady Dies in Chicago

Mrs. Jas. Dolan of This City Passes Away—Remains Will be Interred Here

The death occurred in Chicago, Ill., yesterday morning, of Mrs. Jas. Dolan, of this city. The deceased had been visiting in Chicago since last fall. Her husband was with her at the time of her death. She was 52 years of age and had been in ill health for about two years. Her maiden name was Sophia Le May. She was the daughter of the late Francis LeMay, who conducted business in this city for a number of years. The late Mrs Dolan had practically lived all her life in this city and was widely known and highly esteemed by a large circle of friends. She was married twice, her first husband being a brother of her surviving one. By her first marriage four sons and three daughters were born and are left to mourn her loss. The sons are Messrs. Robert E., Edward P. and Herman, all of Chicago, and Mr Jas. Dolan, of Columbus, Ohio. The daughters are Sister St. Ambrose, of Cornwall; Miss Sadie, of Chicago, Ill., and Miss Margaret, in the convent at Kankakee, Mich. Four sisters and one brother also survive her.

Mrs. H. LeBrun, of this city, is a cousin of the deceased. The remains will arrive in Peterborough tomorrow noon and the funeral will take place on Saturday morning at 8 o'clock, from the residence of Mr. H. LeBrun, Simcoe-st., and proceed to St. Peter's Cathedral and thence to the Roman Catholic cemetery.

"The Limerick Boy" Grand Opera House, Monday, March 18th.

Sunday School Institute Meetings

Being Held at St. Andrew's Church This Afternoon and Evening

The Sunday school Institute meetings arranged by the Presbytery of Peterborough were opened this afternoon at St. Andrew's church at 2.30 o'clock. Delegates were present from Warsaw, Omemee, Lakefield, Keene and Springville. A large number living in the country were unable to attend owing to the bad condition of the roads. Rev. A. E. Camp, the S. S. Convenor of the Presbytery of Peterborough, occupied the chair and opened the meeting.

Addresses were given by Rev. J. C. Robertson, general secretary for Sabbath Schools and Rev. Alex. MacGillivray, of Toronto, on Sunday school work.

Tonight at eight o'clock another meeting will be held at St. Andrew's which is open to the public. Addresses will be given by these gentlemen again this evening. A free will offering will be taken up to defray expenses.

Rev. R. E. Knowles Must Take Rest

Will be Confined to His Bed for Several Weeks

The Toronto News says;

Mrs. R. E. Knowles, speaking over the long-distance wire from Galt said that there was no change in the condition of her husband, Rev. R. E. Knowles, who was injured in the recent accident on the G. T. R. near Guelph.

"The doctor has not been here today," she continued, "but the understanding is that Mr. Knowles must remain in bed for a few weeks when he will go abroad for two or three months to recuperate."

"Dr. W. P. Caven, of Toronto, was here in consultation with our family physician the day before yesterday, and it is on this advice that the course suggested will be followed.

"Mr. Knowles is resting easily today but otherwise there has been no distinct change for the better."

LOCAL GROCERS ARE INTERESTED

In Discussion Between Retail and Wholesale Men

A great deal of interest has been created here in the treatment of the retailers at the hands of the Wholesale Grocers' Guild. Nearly every grocer in the city has felt the inroads cut by wholesale men in their trade, and especially the large stores. Many of the grocers are at their wit's end to know how to cope with such unfair competition. Some are very strong in favor of the [illegible] system; others advocate a number of retailers banding together and buying in large quantities, and at the same price the wholesale men do. This, however, will be a most difficult proposition, as the manufacturers, one after another, state that they are not allowed to sell, except through the wholesalers. Nearly every merchant in the city will make the same statement in reference to the Wholesale Grocers' Guild taking a rake off on every cent sent out by the manufacturers.

The time is coming, however, when the retail men will not stand for the persecution at the hands of the wholesalers. The retailers will organize throughout the province, and then dictate terms to the autocratic jobbers. It is a great wonder they have not been organized long ago. The grocers here have no separate society, although they belong to the Retail Merchants' Association, which, for the most part, is a dead number. But now many of the grocers are advocating a society of their own, and until such has been accomplished, there is little hope of their position being any better. A very strong association should exist here. There are something over 150 groceries in the city and what would be a good thing for one man would certainly be of benefit to all.—Canadian Grocer.

BIRTH

FRANKS.—On Tuesday, March 12, 1907, the wife of Mr. T. Franks, 695 Stewart street, Peterborough, of a son.

Ten new policemen are to be appointed at Hamilton.

Norwood Loses an Esteemed Citizen

Death of Mr. W. A. Howson is Mourned—Other News of Interest

Special to the Review.

Norwood, March 13.—There passed away on Sunday evening last, at his residence, Hastings road, Mr. W. A. Howson, aged 52 years, after about three weeks illness. Deceased had the best medical aid procurable, but the doctors were unable to thoroughly diagnose his case and to cope with his illness successfully. Mr. Howson was a member of Norwood Lodge, A. F. & A. M., under whose auspices the funeral was conducted at 2.30 on Wednesday afternoon. A very large cortege followed the remains to their last resting place in the Norwood cemetery. Mr. Howson was thrice married, and one son, Harold, by his first wife, and his wife and young son, of about two years, survive him. He had also one sister living, Mrs. Abraham Tucker, formerly of this place. Mr. Benj. Howson, of Norwood, is his only surviving brother. The deceased gentleman up to his recent illness always enjoyed robust health and his demise brought vividly before the minds of his many friends the awful uncertainty of life, and the solemn truth of the Word, which says "In the midst of life, we are in death." Rev. W. H. Adams of the Methodist church, and Rev. G. A. MacLellan of the Presbyterian church, who are also Masons, conducted the burial services at the church and also at the cemetery. The sympathy of the entire neighborhood is extended to the bereaved family, in the sad loss of a loving husband and a kind father.

Messrs. Chas. Blake and E. J. Laing were at Campbellford on Tuesday on business.

Mr. Hugh Robb also visited that town the same day.

Mr. T. J. Drain had a very successful [illegible] prices prevailed and Mr. [illegible] a good opinion of Auctioneer McKelvie's ability to get the outside bids on articles put up for sale.

Mr. Geo. Buck of Buck & Buck, has purchased the fine residence of Mr. I. N. Ackerman on Ridge street, and has taken possession.

Mr. Ackerman, who retained the corner lot is preparing to build himself another dwelling house.

Mr. D. J. McLean has again entered into partnership with Mr. H. G. Buck for the manufacture of cheese boxes.

AN ACCIDENT.

Mrs. John Finlay had the misfortune to fall and break her arm a few days ago, while getting a stick of wood off the pile. Mrs. Finlay had the fracture set by Dr. Ford and is now doing nicely and will soon be around again.

Happiness of The Human Race

Has Not Been Added to by Modern Inventions Says Debating Club

Last night's excellent meeting of the Y.M.C.A. Debating Club was another evidence of the continued interest on the part of the members, and of the training they are receiving in debate through this organization. Vice-President MacLaren, presided in the absence of the president. Mr. Greenhalgh read one of Ruskin's lectures on "Books and Reading," which was highly appreciated. The debate, "Resolved that modern inventions have not added to the happiness of the human race," was one of the best yet held, those taking part having their points well in hand.

The affirmative was taken by Messrs Armstrong and Comlin, and the negative by Messrs. MacLaren and Cooke.

The questions was discussed by a number of the members—the board of judges reporting later—gave their decision in favor of the negative.

Critic Hodgson's summing up is always looked forward to with interest by the members and considered the best feature of the evening. His criticism last evening was most complimentary to the debaters and the progress of the club generally.

The next meeting will be held on March 27th, and the programme announced is "A Night with the Poets."

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

HE WILL SPEAK AT COBOURG

Mr. Dan O'Connell Will Give an Address on Ireland

There will be a grand St. Patrick's celebration and concert given in the Victoria Opera House, Cobourg on Monday evening, March 18, under the auspices of St. Michael's church of that town. Mr. D. O'Connell, barrister, of this city, will give the address of the evening. His subject will be "Ireland."

The Export of Niagara Power ; Aylesworth's Bill Considered

No Limit Placed on Companies by Federal Government.

Will Not Be Required to First Cater to Home Demand—Contrary to Ontario's Wish—Hon. A. B. Aylesworth Says Waste Would Be Criminal—Mr. Haggart Asks Interesting Question.

Ottawa, March 14.—The House spent three hours out of four yesterday afternoon in committee upon Mr. Aylesworth's bill to regulate the export of Niagara power. Almost the entire discussion was carried on by the Conservative members from Ontario, and there was a general desire to know what expression of opinion had been secured from the Provincial Government. Mr. Aylesworth seemed reluctant to produce the correspondence, but in reply to a request from R. L. Borden, read to the House this delphic utterance from Ontario's Premier.

Omitting address and signature, the letter read as follows:

"My colleagues and I find it very difficult to say anything definite with reference to your bill regulating the exportation of electric power.

"Under agreements with the companies we are entitled to have used in Canada when called for one-half the power developed by them.

"Should any agreement be made with the United States, affording the quantity of power to be developed on the Canadian side of the Niagara River, or should one or more of a number of other contingencies occur, our position would be a very complicated one indeed.

"Some arrangements with reference to the quantities to be exported, and the regulations and conditions of exportation under the approval of the Provincial Government would be necessary and might be the means of avoiding some of the possible complications.

"No doubt great care would be necessary in working out any provision of this kind."

To Limit Expenditure.

The first Government business taken up was Mr. Aylesworth's bill respecting the exportation of electric power. Section four was amended so as to transfer the licensing power from the Minister of Customs to the Governor-in-Council.

Hon. John Haggart asked what authority the Federal Government would have to permit exportation of Niagara power if the same was forbidden by the Ontario Government, who owned the land upon which the power was generated.

Mr. Aylesworth said that he had given the matter no thought. He presumed any land-owner could resist a trespass.

Mr. Lancaster (Lincoln and Niagara) proposed an amendment limiting the quantity to be exported by any licensee to the amount which he is actually using in Canada, and requiring that there should always be retained in Canada a surplus of 25,000 horse-power.

Mr. Aylesworth opposed this. At Niagara the power companies would generate 400,000 horse-power. The Canadian market, in his opinion, amounted to only 40,000. But double that estimate, and why let the remaining 320,000 horse-power go to waste? That surely would not benefit Canada. It would be sheer, criminal waste. These vast power companies had made their great investments having in view the American markets [illegible]

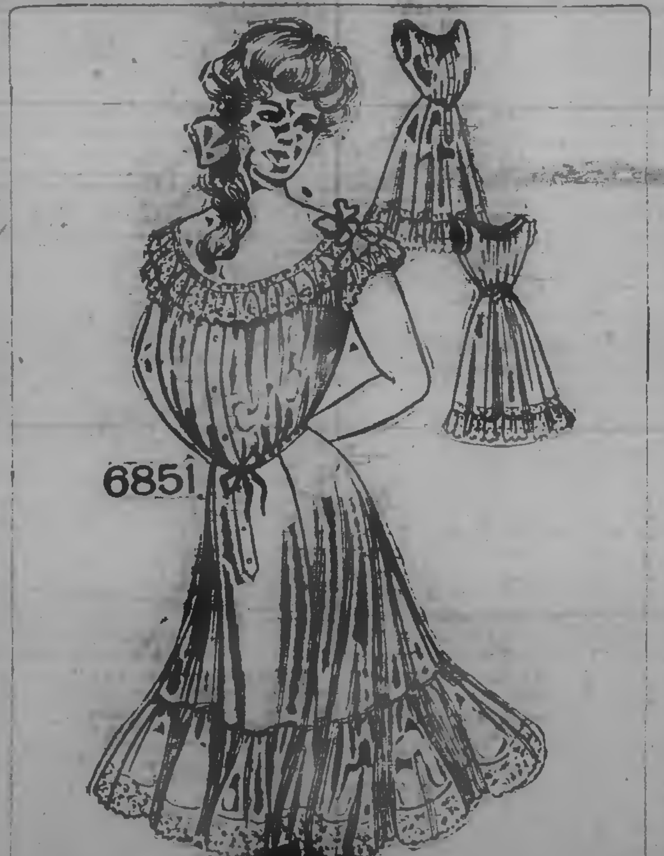
Vest in Railway Commission.

R. L. Borden asked if this Government had communicated with the Ontario Government. Mr. Aylesworth answered in the affirmative.

Mr. Borden criticized the bill generally. After all, the governor in council was a political body. Every year the most important functions of Parliament were given up to the Cabinet. He suggested that the powers under this bill should be vested in the Railway Commission. That Commission should be organized and called the Public Utilities Commission.

Mr. Aylesworth could not understand why the members of the Opposition accused his bill of promoting export. It put some restriction at least upon exportation; at present there was no restriction whatever.

The Lancaster amendment was defeated. The bill then went through committee and was reported substantially without amendment.



COMBINATION CORSET COVER AND PETTICOAT

The fashion for swell effects demands that there be as much economy in bands and belts of the under garments as possible. For this reason the one-piece garments are very fashionable and one which combines the corset cover and short petticoat is shown. The corset cover is in one piece, with its only seam under the arm. The petticoat is in four gores, which shape it nicely at the top, the back fulness being regulated by gathers at the belt. The closing is made in front, and the two articles are joined at the waist in a ribbon-run beading or narrow strip of material. The upper edge of the corset cover may be gathered and finished with a ribbon-run beading and lace or ribbon may be run through eyelets in the material. One of the wide embroidered flouncings may fashion the latter most attractively. For the medium size 3 3-8 yards of 36 inch material are needed.

6851.—Six sizes, 32 to 42 inches bust measure.

The price of this pattern is 10 cents.

Leave your order and 10 cents at the REVIEW OFFICE and pattern will be sent you by mail.

A FARM IDYL.

Who built those splendid buildings
  Where grain and hay are hid?
Who built that noble pig pen?
  The old man did.

Who built those bullet-proof fences,
  The glowing fields amid?
Who cleared that cedar slashing?
  The old man did.

Who slew the deadly mustard
  In happy spring crops hid?
Who threshed the rowdy ragweed?
  The old man did.

Who built that splendid mansion—
  No mortgage for a lid?
Who planted all that orchard?
  The old man did.

He did it with affection;
  It was his joy and pride;
And when his work was finished,
  The old man died!

The Young Man Did.

Who let the homestead crumble,
  The lilac trees amid?
Who wrecked the old verandah?
  The young man did!

Who let the caterpillars
  With tents come in unbid,
To spoil the splendid orchard?
  The young man did!

  The noble big farm building,
  From its foundations slid;
Who let it go to ruin?
  The young man did!

Who let the rascal ragweed,
  The fertile fields amid,
Destroy the wholesome clover?
  The young man did!

Who with an awful mortgage
  The noble acres hid?
And who destroyed the sugar bush?
  The young man did!

His father built an honored name,
  The countryside amid,
Who trailed, who dragged it in the dust?
  The young man did!

—The Khan.

"FINALLY."

A Good Point In Work of Late Detective Murray.

A recent article about detective work in London recalls the [illegible] the late John Murray, [illegible] years chief of the Provincial Detective Service, says The Toronto News. You will not find this little point in his book, interesting as his memoirs are, but it came out constantly in his conversation, and this point is indicated by the word "Finally." Anyone who ever talked to Mr. Murray knows how he smiled at the Sherlock Holmes idea of a sleuth, and he would in the freest way explain how he followed his clues. It is true that at times his conclusions sometimes seemed to be reached by intuition rather than by reasoning; nevertheless Mr. Murray always viewed them as reasoned out from facts he had been able to gather. But throughout his conversation Mr. Murray would brush away and pass over intermediate steps with the word "Finally." Having indicated how he was led into wrong by-ways, how the fugitive threw him off the scent, he would pass over the perplexities and the anxieties of those days or weeks and show how he got back on the trail, with a hearty and victorious "Well finally." That was the keynote of the character of the great detective. With him there was always a "finally." Nothing was ever settled until it was settled right; no crime was ever forgotten until the mystery had been solved and the criminal brought to justice. Though he spent practically his whole life in tracking criminals, Mr. Murray was no human bloodhound. He was always to the last a genial, kindly Irishman, who did his duty and caused pain to individuals for the good of society from the same sense of duty, and with the same personal distress, as the physician, the teacher, or the Crown prosecutor. When he had given his word on any subject, he was scrupulous in carrying it out. A characteristic instance may be given. When his book was published in London, six advance copies were to be sent to the author, and he promised that the first to receive one would be the Literary Editor of The News. Through no fault of Mr. Murray, but because of what newspaper men call a "scoop," he went home one evening a fortnight before the copies arrived to find a four-column review of his book in the news columns of The News. Mr. Murray did not rest until he had made it plain to the Literary Editor that he was not to blame. Detective as he was, it was some time before he learned how he came to be "scooped" on his own book.

Dealing With Criminals.

The question of how to deal with the criminal class must ere long be met by the application of more potent remedies than are now applied, such as will meet the cause of moral deformities, contagion or accident. Countries to-day vie with each to devise sugar-coated systems to cure criminal habits; eminent jurists and magistrates have strained statutes in their behalf, and many good people keep beseeching the great Creator to set aside an immutable law and thus relieve the abnormal conditions of mankind.

Remove the certainty of death from a trip over Niagara Falls in an open boat and such trips would soon become a holiday pastime. So it is with the commission of criminal acts; remove the chances of just punishment from criminal offences and each act committed will only be a stimulant for the commitment of more atrocious ones.—W. P. Archibald, Dominion Parole Officer.

Canadian Clubs.

Edmonton has a Canadian Club, which when a fortnight old had 138 members, and was still growing. The Canadian Club idea has got a firm grip on Canadian towns and cities and is a most hopeful sign for the political and commercial life of the community.

Julien Juson, a Dane, committed suicide in the General Hospital at Medicine Hat.

DOG POINTED A LION.

All Game Looked Alike to This Plucky Little Fox Terrier.

The following incident is perfectly true and absolutely unique:

As a member of a colonial mounted corps, the British South Africa police of Mashonaland, Rhodesia, South Africa, it fell to my lot in April, 1903, to enumerate for official statistics the white residents of Rusapi district, which is 180 miles southeast of Salisbury, the capital, and sixty-four miles west of Umtali, near the Portuguese border. It was upon my return journey to the main camp that the following dog incident occurred:

On the 18th day of April about 4 p. m. I reached an outlying farmhouse close to the railway and in the vicinity of very suggestive looking hills. As I knew the owner, I decided to [illegible] horse [illegible] with a native boy, the farmer and I entered the house. In a few minutes a Mashona herd boy dashed in unceremoniously, crying: "Baas! Baas! A lion is down near the cattle!" After questioning the boy, who was much excited, we set off accompanied by a fox terrier, and upon arriving where the cattle were grazing we at once found his majesty's spoor (track), which we followed until lost on the hard ground.

After searching the most likely places we gave up hope of finding him and, turning about, headed for home. After crossing a vlei (open grass land) we entered a thick bush and proceeded a short distance. Then I missed the dog and, looking back, descried him pointing in the orthodox style, the hair on his back fiercely bristling and body as rigid as a statue. Retracing my footsteps and looking over the bushes where he was, imagine my complete surprise to behold a magnificent lion, full length, with face toward me, barely fifteen paces off. At sight of me he growled softly, and then I shouted, "There he is!" But by the time my friend had run up and I had recovered from my surprise the lion was bounding off, much to the chagrin of my friend. The bush was thick, and we had to fire at random, and he got clear away.

Needless to say a few choice epithets were slung at me by the other fellow, but it all happened very quickly, and I was totally unprepared for such a close view. Moving around behind the bushes, we found the skin and entrails of a sheep, which had been devoured, bearing out the statement that the lion will not eat the intestines of his prey. All this time the dog was jumping around and at last started off on the trial, and we had a hard job to get him back. The evening was getting dark, and we had no wish to meet the lion among the bush in the dark. After reaching home the farmer placed some strychnine on a piece of meat and placed it on the veldt, but our visitor did not return that night.

It is not often a dog has the opportunity to point such royal game.

Talking about dogs, I remember seeing an Irish terrier rout out a hedgehog, and there ensued a terrific onslaught, ending in the death of the spiney one and leaving Boxer, the terrier, full of quills, which I plucked, much to his discomfort.—Forest and Stream.

Woman Hurt At Dowie's Bier.

Chicago, March 14.—Rachel Fisher, 26 years of age, was seriously injured yesterday in the crowd of persons who thronged around the bier of John Alexander Dowie at Zion City, in the hope of being cured of their ailments.

Miss Fisher, who is suffering from locomotor ataxia, kissed the hem of the shroud and, believing she was cured, tried to walk. She fell down a flight of stairs and was seriously bruised.

Two Thousand Homeless.

Milan, Italy, March 14.—About 2,000 peasants were rendered homeless at Borrano yesterday by a fire, which destroyed many houses.

The only building left standing in the section was the church, the bell of which continued ringing for help until the last moment, which the peasants considered to be a miracle.

Finds Man Dead In His Barn.

London, March 14.—Jeremiah Moore found the body of Samuel Sheppard under hay in his barn yesterday. It is believed Sheppard died from heart failure while sleeping over night in the barn, on his way to the home of Mr. Winter, for whom he worked last fall.

Six Killed by Bomb.

Kharkov, Russia, March 14.—While the police were searching the rooms occupied by a student yesterday, a bomb exploded, killing an officer of the gendarmerie, three policemen and two civilians. Six other persons were injured.

The Daily Review

THURSDAY, MARCH 14, 1907.

A POINTER FOR YOU

It is the little things in life that often indicate character. Men may do this and that and the other thing for spectacular effect, to create a favorable impression, or to win applause. They perform certain acts and make plausible statements with some object in view—selfish or otherwise. At the back of it all there frequently lurks pride, covetousness, narrowness or bigotry—and perhaps graft. It is the flying straw which indicates the direction of the wind, and the apparently insignificant deed reveals the true inwardness of the man. His inmost heart is thereby laid bare. One man may be a philanthropist so far as the world knows him, and yet in his domestic life be a monster. He may also be a prominent church worker and yet take advantage of every opportunity to rob his neighbor. He may be an open temperance advocate, and in private life a social leper. He may serve the city from apparently disinterested motives, and at the same time be filling his private money chest. He may be all right to the world and all wrong at home. He may be a prince among good fellows and a tyrant so far as his family is concerned. The best and truest citizen just now in Peterborough is the man who cleans his sidewalk. He is the greatest friend to the thousands of pedestrians who daily pass his door. If he waits until the rays of King Sol dissolve the snow and melt the ice from off his walk, he is indeed a hard-hearted man; what a phlegmatic nature he must possess, what stoical indifference! Yes, you can tell who are good citizens and who are not. Just look at the condition of a man's sidewalk at the present time, gaze upon his yard in the spring and take a general view of his surroundings. You can thus accurately gauge what kind of a resident the average householder is. These are cases where the little things count—and count for a good deal so far as appearance, comfort, and evidences of thrift and pride in a city are concerned.

THE DAIRY SHOW

It is regrettable that Peterborough was not successful in capturing the provincial dairy show. It would have been a big advertisement for Peterborough and pointed to the fact that this is one of the greatest and most active dairying and cheese centres in the province. No blame can be attached to the representatives of this city for the loss of the show. The mayor, aldermen, County Council, Cheese Board and Board of Trade did all in their power to induce the Dairymen's Associations of Eastern and Western Ontario to fix this spot as their headquarters. Particular attention should be drawn to the efforts of Mr. Gillespie, Mr. Downham, Mr. Collins and others, who worked in season and out of season in order to secure the big annual gathering for Peterborough. The influences against them seem, however, to have been too strong. The western men would not listen to the proposition to come east of Toronto. They appear to think that everything begins and ends in that populous place—Toronto—and would not seriously consider going anywhere else. This evidences rather a selfish and narrow spirit, since Guelph has already the fat stock show, or provincial winter fair, as it is commonly called. There are about five times as many factories and dairies located east of Toronto as there are west of it, and some consideration should have been given to the preponderance of interest in this district. Peterborough offered to put up a suitable building and do everything in its power to meet the needs of the situation, but all this apparently counted but little in the final determination as to the selection of a place for holding the show. Toronto offered the St. Lawrence market and hall free of charge and carried the day.

Peterborough's strong claims and generous overtures have been ignored and, while the decision is rather a black eye to Peterborough's ambition, still time will demonstrate that the Eastern and Western Dairymen's Associations have made a mistake in deciding to hold the show elsewhere. Toronto already has more than its share of provincial gatherings and conventions. The real object of the attraction, its educative effect, the stimulus it is designed to create, the interest it is calculated to foster, and the permanent good it is intended to accomplish, will be largely detracted from by reason of the multiplicity of "side shows" in a big city, which tend to divide the interest and destroy the real object and true purpose of a gathering that is distinctly agricultural in aim. The large centre, the great city, is not the best spot in which to convene. Such a community does not readily adapt itself to the motives in view, and there is not, on the part of residents, in a big urban centre like Toronto, the co-operative support and sympathetic interest that should characterize the proceedings of an institution like the proposed dairy show.

A. ROUNTREE, Agent for Peterborough.

A CANADIAN CLUB

There should be a Canadian Club in Peterborough. The effects of such an organization, when ably managed are beneficial and elevating in every respect. The addresses delivered before the club, and the spirit which it fosters, are not only distinctly Canadian in tone, but they create higher ideals, and lofty motives as to citizenship, civic responsibility and public spirit. Guelph is the latest city to organize such a club. Toronto, Hamilton, Ottawa, London, St. Catharines, Orillia and other centres all have these institutions, and why not Peterborough? The membership fee is generally placed at $1 per annum and any reputable citizen may join. Meetings are generally held fortnightly and the members listen to addresses by men of prominence and leaders in thought on topics of interest—subjects which are designed to promote patriotism, loyalty, good citizenship and high conceptions of public life, service, morality and statesmanship. The Canadian Clubs are in no sense political or sectional organizations. They have wider aims and broaden purposes. They tend to engender civic enterprise and keep the community in close touch with all that is enlightening, progressive and edifying.

Many good ends other than those mentioned, would be served by a Canadian Club in Peterborough. Those who have followed the careers of such clubs in other places know that they have played a large part in developing a high sense of citizenship. Questions of local and national importance are discussed and the sequel is a better informed public. The younger element should be particularly active in the club, and they reap a glorious harvest in this way; that they come fully in touch with all questions that are agitating the public mind and are consequently in a better position to exercise their influence and franchise, and will hold a higher appreciation of their duties as citizens.

Business men and professional men should organize such a club, and, though they may not receive their just amount of encouragement at the outset, still as the club progresses and its influences become more widespread the public will soon learn to appreciate it for its great worth, and surely will it attain to the high position it should fill in the community.

PEN POINTS

Have you cleaned your sidewalk yet?

If you cannot speak favorably, do not speak at all.

The majority of men talk too much for their own good.

Toronto has gathered up pretty nearly everything in sight and now the dairy exhibition will be dangling from its belt.

Wonder what the analyses of the milk samples sent to Toronto will reveal. The result should, by all means be published when received.

Sanitary Inspector Ball appears to be the right man in the right place. He has already given ample evidence of the fact that he is "on the war-path."

The latest salutation of your friends is, "Have you been charged in the police court with not cleaning the ice off your walk? If you have not yet had such an experience you are long way from being fashionable.

Too bad to have lost the Coates Company and the dairy show, but Peterborough is not down-hearted. On the contrary, the city possesses the brightest optimism and believes firmly "that it is better to have tried and lost than never to have tried at all."

WEDDING BELLS

REID—JONES

A pretty wedding was solemnized Wednesday, March 6th, at the home of Mr. and Mrs. William Jones, Ops, when their eldest daughter, Margaretta M., was married to Chas. D. Reid, son of Mr. J. W. Reid of Reaboro. The ceremony was performed by Rev. G. R. Welsh, Lindsay. The bride was attended by her sister, Miss Flossie, and the groom by his brother, Mr. R. A. Reid.

The bride looked charming, being beautifully gowned in cream silk, Japanese silk, trimmed with silk all-over embroidered chiffon lace. The bridesmaid was elegantly gowned in cream Albatross cloth, and carried a bouquet of pink carnations. The bridal party entered the parlor to the strains of the wedding march, played by Miss Annie Campbell, of Toronto, the bride leaning on the arm of her father, who gave her away.

The guests, numbering about 75, were entertained in Mr. and Mrs. Jones' hospitable manner. The wedding gifts were numerous and costly, expressing the high esteem in which the bride is held by her many friends.

Guests were present from Toronto, Bobcaygeon, Flesherton, Midland, Lindsay, Fenelon Falls and Omemee. The bridal party departed for their home at Reaboro amid showers of rice and confetti, and well wishes for their prosperity. The bride's going away [illegible] hat to match.

HOW BILEANS SAVED A FIREMAN

Many a man has escaped perils of fire and ocean to fall a prey to disease. Bileans saved Firman J. R. Flanagan, of Raglan Road, Kingston, from this fate. He says:—"I suffered terribly from indigestion and constipation. After food I had acute pain, a sensation of weight at the stomach, and belching, followed by a worn-out, languid feeling. My bowels would not work healthily, bad headaches were common, and I fell into a weak, worn-out state. What would have happened to me but for Bileans I don't know! One box of this vegetable remedy greatly improved me and a few boxes cured me. I have now gained weight and am greatly restored." Bileans also cure piles, female ailments, anemia, Spring debility, blood impurities, pimples, eruptions, and all liver and kidney troubles. All druggists and stores at fifty cents a box, or from Bilean Co., Toronto, for price.

An Eloquent Sermon By Orillia Clergyman

Rev. R. A. Armstrong Gave Lenten Address at St. Luke's Church

A large congregation attended the usual Wednesday evening Lenten service at St. Luke's church last night.

The special speaker was Rev. R. A. Armstrong, of Orillia. He delivered a most able and inspiring address. He did not select any particular text, but based his remarks on the words, "How much more." He said these words were the ones used in a convincing and conclusive argument. They appealed to one's reason. The reverend gentleman referred to our power of reason as our glory, but if we exalt it to highly it often becomes our shame. The speaker gave an example of where reason was shame instead of glory. In the French revolution the French threw all restraint to the winds and picked out a woman and put her at the head of affairs and called her the goddess of Reason. As a result of so doing many were victims of a most brutal death. That was a case where reason was their shame instead of their pride. There were people at the present day who places reason above everything else, but they usually broke the rule in matters pertaining to religion. They would accept some things whether they understood them or not, but not so in religious beliefs. Mr Armstrong then compared natural things to the spiritual in which he showed the force of the words on which was based his address.

The first instance that he referred to was the pervading affection in the home. The love of the parents for their children was intense. Sometimes parents would speak to their children in soft persuasive words, and sometimes in words of sternness, but yet it is all done in love. How much more does God love us and all things sent to us, whether they be joy or sorrow, are for our good. The second instance was where Christ speaking to his disciples said "If then God so clothe the grass . . . how much more will he clothe you, O, ye of little faith!" God provideth all things for us and clothes all who put their trust in Him with garments of righteousness. The speaker referred to the spirit of endurance. The great thought in every Christian was the sense of pardon and this thought helped us greatly through many a trial and tribulation.

Mr. Armstrong concluded by saying that at this season of Lent we might well apply our reason and think of how much God cares for us and is ever ready to help and forgive any who come to Him.

GOOD FOR YOUR COLD

A noted specialist in throat and lung trouble, who established a camp for consumptives in the pine woods of Maine, and whose remarkable cures there have attracted great attention from the medical world, says that one-half ounce of the Pure Virgin Oil of Pine mixed with two ounces of Glycerine and one-half pint of good Whiskey, used in teaspoonful doses every four hours will heal and strengthen the lungs break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost.

Inquiry at the prescription department of a leading local druggist elicited the information that the Pure Virgin Oil of Pine is put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wrapper, showing the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ontario.—plainly printed thereon. Only the cheaper oils are sold in bulk, but these create nausea, and never effect the desired results.

Old Friends Talk on Public Ownership

The Splendid Success of Municipal Control in Glasgow

To the Editor of the Review,

Sir.—I met my old friend Sandy McGregor by appointment.

"Well, Jock," he says "what about the fad of Billy Maclean of the Toronto World. They call it public control or something like that."

"Oh yes, Sandy, you mean public ownership."

"Well! I think Billy is no far wrong about that but the trouble in this kintry is to get good, honest and sensible men at the head of affairs."

"That is so, Jock, If they could only run things the same in this kintry as they do in Glasgow in Auld Scotland—in fact the folks there pay very little taxes for the very good reason that they own public utilities, such as the street railway and electric and gas works and a good many other things. Every time they pay for a ride on the street railway they ken that it goes to help pay their taxes. But you see it is different here, Sandy, mon, every time you pay for a ride on the street railway you are helping to build up some rich company. The Chicago folks got Donald McTavish over from Scotland to show them how to run some things in Chicago.

"What did he say about the way they were running things there, Jock."

"Well, mon, I dinna like to say it, but he told them they could not run things there the same as they do in Glasgow, for the very good reason that they did not have good sensible, honest men to look after things, as they have so much graft. Now, I am afraid, but I dinna like to say it, that it might be the same in Canada."

"Surely, Jack, ye dinna mean that."

"Well, I am a little doubtful, Sandy, mon. They have got so crazy after the almighty dollar. Why, mon, see what the city of Toronto could make out of their street railway if they only owned and operated it. They say that all the expense of operating the same road is earned by ten o'clock in the morning. All the rest goes to build up a few millionaires at the expense of the poor tax payer."

"Surely, Jock, mon, you dinna mean to say that the Toronto folks are such fools as that!"

"Well, Sandy, that is what I hear anyway, and I am inclined to believe it."

"Well, Jock, do you think there is any Glasgow folks living and paying taxes in Toronto."

"There may be a few Sandy, but I fear they are greatly in the minority."

"Well, goodbye now. We will finish this discussion some other day soon

Yours, etc

THE OLD FARMER.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is tenn fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

Special Services at George Street

The meeting last evening in George street Methodist church surpassed all others in interest and numbers. Rev. Dr. Crothers spoke from St. Matt. 18—11: "For the Son of Man came to seek and to save the lost." Other addresses were given. A spirit of enquiry is abroad. All are welcome. A vocal duett was given by the Misses Chasty, with good effect

TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

Able Address on the Greek Church

Rev C. H. Brooks, of Grafton, Speaks of its Doctrines and Work

The fifth Wednesday evening Lenten address at St. John's church last night, proved to be one of the most interesting of the series. Rev. C. H. Brooks of Grafton, who spent twenty years in Constantinople delivered an eloquent address, based on the words in the Apostles creed which expressed belief in the Holy Catholic Church. The speaker said there were three historic branches of the Catholic Church, the Anglican, the Roman and the Greek. Little was known in this country of the Greek, yet it was very remarkable from many standpoints. He referred to the Greek Church, as a family with several national divisions. There was the church at Greece, the church in the Turkish Empire, and also in Asia Minor, and in Russia. There were nearly eighty million adherents of the church in Russia and in the other countries a little over twenty million. In point of time the Greek was the oldest branch, beginning as it did with the church at Jerusalem. Their bishops today could be traced back historically to the apostles and other bishops of the first century. Another point in the Greek Church was orthodoxy. Careful attention was paid to accurate states of doctrine. Their whole system was that of the very first ages. The speaker contrasted the Greek Church with the Roman. In the Roman church the bishops had rank and in the Greek church they were all equal. They had no such doctrines as the Papality or the Immaculate Conception. With the Greeks, it was important that what was believed had to be verified to the creeds. The third point to be noticed in the Greek church was its unity. This was in striking contrast to the divisions in Western Christendom. The Greeks united in one common religion. The reverend gentleman said in many points [illegible] the Greek Church than to the Roman. Many ecclesiastical terms in the Church of England came from the Greeks. Mr. Brooks concluded by saying that our minds and Christian sympathies might be enlarged to comprehend more thoroughly the power of unity, the peaceful spirit, the regard for truth which existed in the Greek church.

SURVEY PARTY AT ALDERVILLE

Mr. G. Blezard Has Returned Home—Reports Hard Job

Mr. G. Blezard, a son of the late Mr. Thos. Blezard, ex-M.P.P., who has been out with Mr. F. Cameron, O.L.S., has returned from Alderville, just across from Hiawatha where Mr. Cameron's party was engaged in making a survey of the Indian Reserve. The party had six members and it is said that the country they surveyed was one of the roughest possible. The party left the city on Monday morning last, crossing Rice Lake by sleighs. On Tuesday morning they drove out to Alderville, where they discovered that the country to be surveyed was one of the hardest in any surveyors experience. One redeeming feature of this difficult work was the kindly treatment accorded by the Indians through whose land the survey was made. The chief "Marsden" as well as all the other members of the tribe did all they could for the surveyors of the Dominion Government Indian Department.

Liverpool Grain and Produce.

Liverpool, March 13.—Wheat, spot firm; No. 2 red western winter, 6s 3d; No. 1 California, 6s 6d; futures, steady; March, nominal; May, 6s 5⅞d; July, 6s 2⅞d. Corn, spot, steady; American mixed, new, 4s 5¼d; American mixed, old, 4s 8d; futures, steady; March, 4s 4½d; May, 4s 6d. Bacon, clear bellies, quiet, 52s 6d. Lard, prime western in tierces, easy, 47s; American refined, in pails, easy, 47s 6d.

New York Dairy Market.

New York, March 13.—Butter, easy; receipts 6442; street price, extra creamery, 30½c to 31c; official prices creamery, common to extra, 21c to 30c; held, common to extra, 20c to 30c.

Cheese—Strong, unchanged; receipts, 879.

Eggs—Easy; receipts, 20,129; western firsts, 17½c to 17¾c; official price 17¾c.

CATTLE MARKETS.

Cables Unchanged — U.S. Markets Are About Steady.

Liverpool, March 13.—Liverpool and London cables are easier at 11c to 12¼c per lb., dressed weight; refrigerator beef is quoted at 9¼c to 9½c per lb.

Montreal Live Stock.

Montreal, March 13.—The prospects of a heavy Easter trade played but a small part in the business done at the East End Abattoir this morning, and thruout the day the demand for the best class of stock was not so vloo inviting, but it was generally recognized that the inclement weather and the evident determination of sellers to hold back for the actual Easter rush were factors in the medium sales transacted.

Cattle—Arrivals, 325, with quality fair to good. Quotations were from 2¾c to 5c per lb., according to quality. A few milch cows were offered at prices of $25 to $50 each.

Sheep and Lambs—Arrivals, 20 head in all; quality good; prices were quoted at 4½c to 5c for sheep and 6½c to 7c per lb. for lambs.

Calves—Arrivals were 1100, with quality ranging from poor to good. Quotations had a downward tendency, and from $1 to $8 was demanded, but only fair sales. A few large and fat calves brought an advance over the latter figure.

Receipts of hogs were 1000, for which the demand was fair, and prices were unchanged, with sales of selected stock at $7.15 to $7.25 per 100 lbs., weighed off cars.

East Buffalo Cattle Market.

East Buffalo, March 13.—Cattle, quiet and steady; prices unchanged.

Veals—Receipts, 100 head; active and steady, $4.25 to $9.25.

Hogs—Receipts, 2100 head; fairly active; pigs, 10c lower; others, steady to 5c higher; heavy, mixed and yorkers, $7.35 to $7.40; pigs, $7.40; roughs, $6.50 to $6.65; stags, $4.75 to $5.50.

Sheep and lambs—Receipts, 6000 head; sheep active and steady; lambs, slow and 10c lower; lambs, $5 to $8.10.

New York Live Stock.

New York, March 13.—Beeves—Receipts, 1163. Steers, firm to 10c higher; bulls and cows, steady; fat cows in good demand; steers, $5.40 to $5.80; stockers, $3.40; oxen and stags, $3.90 to $5; bulls, $3.25 to $4.50; cows, $1.75 to $4.10. Exports, 900 cattle, 915 sheep and 6900 quarters of beef; tomorrow, 150 cattle.

Calves—Receipts, 1767. Veals, steady to 50c higher. Veals, $5 to $9.75; choice, $9; culls, $4 to $4.50; buttermilks, $4.

Sheep and Lambs—Receipts, 2125; sheep, firm; lambs, 10c to 15c higher; prime sheep, $5.50; medium to prime lambs, $7.50 to $8.25; yearlings, $7.

Hogs—Receipts, 4205. Market lower; state and Pennsylvania hogs, $7.50 to $7.65.

Chicago Live Stock.

Chicago, March 13.—Cattle—Receipts, about 19,000; market steady, but slow; plain to best steers, $4.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.25 to $5; bulls, $3.25 to $4; calves, $2.50 to $7.25; stockers and feeders, $2.50 to $5.25.

Hogs—Receipts, about 28,000, market 10c lower; choice, heavy, shipping, $6.85 to $6.95; light butchers', $6.87½ to $6.95; light mixed, $6.85 to $6.90; packing, $6.50 to $6.85; pigs, $4.50 to $6.80; bulk of sales, $6.90 to $6.87½.

Sheep and Lambs—Receipts, about 19,000; market steady; sheep, $5.25 to $6.25; lambs, $6.50 to $7.65.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

C. R. BANKS
UNDER THE CITY CLOCK

Champions Will Be Banqueted

Strathconas to be Honored by the City League

The Strathconas, winners of the city league honors, will be banquetted by the league on Monday, April 8th. This was decided at a meeting of the league, held at the Oriental hotel last night, when the business for the season was wound up. President F. A. Clarke occupied the chair and the others present were Vice-President Maher, and Messrs. N. McWilliams, W. Shaw, W. E. Wasson and W. Wetheral.

A statement of the finances for the season was presented, which showed that the receipts will [illegible] about meet expenditures. This is considered quite satisfactory.

The following committee was appointed to arrange for the banquet to be tendered the champion Strathconas, — N. McWilliams, convenor; W. Shaw, G. Ferguson, W. E. Wasson and a representative from the Lakefield Club. It is expected that the banquet will be a most enjoyable affair. It will be an appropriate finish for one of the most successful seasons, the league has ever had.

WHITCROFT AND WESTWICK SHONE

A Kenora despatch regarding the Kenora-Portage La Prairie game says:—Griffis was in great form, his occasional bursts of speed being of an electrifying nature, while Hooper showed little evidence of his recent accident. It was an all star forward line the Thistles presented. Phillips and Smith are admittedly the two best wings playing the game; while Westwick and Whitcroft, the Peterborough man, were all that could be desired in centre ice.

TORONTO WILL BE IN LEAGUE

Will be Represented in the E. C. H. L. Next Year

Ottawa, March 13.—The Toronto hockey team will be in the E.C.H.L. next year. They have been practically assured of this now, and nearly all the league representatives favor the taking in of the Torontos.

When seen this morning President Darcy McGee, of the E.C.H.L., said that the question had not come before the league yet, but that he had heard it discussed, and though in all likelihood the Queen City team would be in the league with the Ottawas and Montreal teams next year He thought the bringing in of the Torontos would be a good scheme, which would mean that one of the weaker teams would have to drop out. It could be the Quebecs or the Shamrocks, of Montreal. Toronto would prove a big drawing card in the Capital—all Toronto teams do in any line of sport.

HOCKEY

TO-NIGHT'S GAMES.

In the Brock street rink this evening from seven to eight o'clock, an interesting hockey match will take place, between teams representing the office and mill staffs of the Quaker Oats Co. Between 10 and 11 o'clock to-night teams representing the "Knights of Columbus" will play a match

A GREAT TEAM OF SMITH'S.

It is a question if there is another family in the world that could put a hockey team in the field that could defeat the Smith brothers, says the Toronto Mail & Empire. There are seven of them, and counting the elder Smith, who was also a hockey player, be spare, they could make it interesting for any team in any league. How would this lineup look in a hockey game;

Goal, George Smith.
Point, Dan Smith.
Cover point, Jack Smith.
Centre, Harry Smith.
Rover, Willie Smith.
Left wing, Tommy Smith.
Right wing, Alf. Smith.

Seven of them, and all brothers.

Mr Smith, the boys' father, has arranged to take the boys on a tour of the West next season, and will play in all the large cities in which a hockey team is located. Where do the Blacksmiths and Jawsmiths come in?

CHAMPIONS OF TWO SERIES.

O.H.A. Intermediate;
1897, Berlin vs Frontenac, 3—0.
1898, Listowel vs Waterloo, 4—10.
1899, Frontenac vs National, 5—2.
1900, London vs Belleville, 3—1.
1901, St. George's vs Port Hope, 10—8.
1902, Peterborough vs Galt, 7—6.
1903, Paris vs Marlboros, 12—7.
1904, Stratford vs Midland, 13—11.
1905, Vic. Harbor vs Berlin, 9—6.
1906, Peterboro vs Goderich, 14—8.
1907, Berlin vs Collingwood, 12—7.

Listowel won through the disqualification of the Waterloo Club.

O.H.A. Junior;
1893, Kingston Limestones vs Galt 12—1.
1894, Peterboro vs Toronto Granites, 14—0.
1895, Peterboro vs Toronto Granites, 7—6.
1896, Toronto Granites vs Peterboro 7—3.
1897, Wellingtons vs Guelph Virs, 10—8
1898, U.C.C. vs Stratford, 8—2.
1899, St George's vs U.C.C., 7—2.
1900, Stratford vs Peterboro, 12—9.
1901, Peterboro vs Stratford, 12—7.
1902, U.C.C. vs Stratford, 11—10.
1903, Marlboros vs Frontenac—Beechgroves, 11—10.
1904, Frontenac—Beechgroves vs. Listowel, 9—5.
1905, Stratford, vs St. Andrew's College, 12—10.
1906, Port Hope vs Woodstock, 7—1
1907, Stratford vs Lindsay, 14—6.

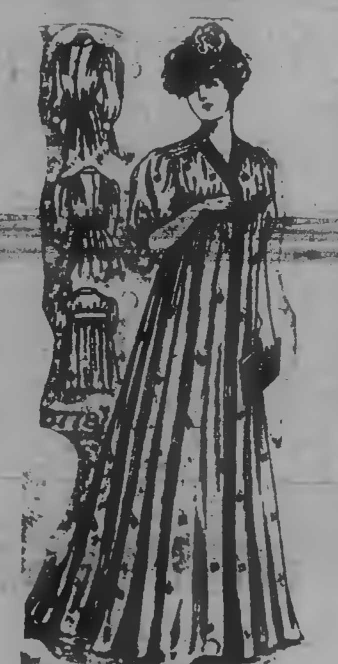
GO TO LINDSAY.

The Examiner hockey team goes to Lindsay tonight to play a return game with the Post.

MIDGETS WILL BE HERE.

Great interest centres in tomorrow night's game between the Lindsay Midgets and the Strathconas. A great battle is looked for.

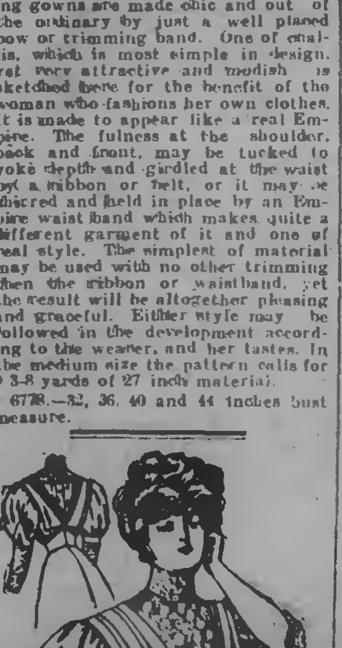
THE LATEST DEAN PATTERNS



6778.—A PRETTY MORNING GOWN.

Some of the least pretentious morning gowns are made chic and out of the ordinary by just a well placed bow or trimming band. One of challis, which is most simple in design, yet very attractive and modish is sketched here for the benefit of the woman who fashions her own clothes. It is made to appear like a real Empire. The fulness at the shoulder, back and front, may be tucked to yoke depth and girdled at the waist by a ribbon or belt, or it may be shirred and held in place by an Empire waist band which makes quite a different garment of it and one of real style. The simplest of material may be used with no other trimming then the ribbon or waistband, yet the result will be altogether pleasing and graceful. Either style may be followed in the development according to the wearer, and her tastes. In the medium size the pattern calls for 9 3-8 yards of 27 inch material.

6778.—32, 36, 40 and 44 inches bust measure.



6827.—A PRETTY DRAPED WAIST.

There is no more graceful mode of fashioning the new materials than by means of shirrs and drapery and a pretty waist showing draped portions in front and back is shown. The waist is very simple, the body portion being easily full on the lining as far as the yoke, while the trimming portions form the drapery. These may be of material of the waist or contrasting, while the narrow band which finishes the sleeve puff should also show contrast. The style is one suited to development in silks, crepe de chine, veiling or similar light-weight fabrics, the medium size requiring 3 yards of 27 inch goods.

Prospects Are Bright for Baseball in Peterborough

Two New Teams Will Likely Make Application to Enter the Guild League—Junior League May be Formed.

Now that the hockey season is about over, the fans are commencing to talk baseball, and considerable is heard regarding the prospects for the Guild League. It looks at present as if all last season's clubs will again be in the running, and in all probability there will be some new blood, the infusion of which cannot help but do good. Last year's champions, the Charlotte Street Guild, will again be on deck, and expect to have a strong team. They will make a strong effort to land the honors again this year. St. Paul's expect to have a stronger team than last year, and expect to make a good showing. Last year's George street team will be known as the Strathconas this summer, and can be be depended upon to make them all hustle. They were runners-up in the championship race last year, and have expectations of doing even better in 1907.

It is understood that the T. A. S. will make application to the league to enter a team to be known as the Shamrocks. They have the material for a strong nine and if entered will no doubt give a good account of themselves.

In all probability the Y. M. C. A. will also make application to the league to enter a team. The athletic department of the "Y" is booming at present, and it is the intention to enter actively into outdoor summer sports, and a strong baseball team, it is claimed, can be got together.

There is also agitation in the city for the organization of a junior league, the players in which would have to be under sixteen years of age, or some age limit to be mutually agreed upon. A league of this kind would do splendid work in bringing along the young players, scores of whom reside in the city. The youngsters cannot be neglected, and a junior league would be just the thing to develop them.

The annual meeting of the Guild League will be held shortly when it is expected these matters will be discussed.

Extra Train to Lakefield For the Tourist Season

Will Leave Lakefield at 7.45 a m. and Arrive at Peterborough at 8.15—Changes in the Boat Service.

It is said that assurance has been given by the Grand Trunk Railway that an extra train will be placed on the Peterborough-Lakefield line for the tourist season next summer. The train will be placed in service to enable Toronto men who are summering at the lakes to reach Toronto in time for their duties in the morning. The proposition is to have the extra train go out from Peterborough in the morning in time to leave Lakefield at 7.45 o'clock. This would land the passengers in Peterborough at 8.15 and they would be in time to catch the morning train for Toronto.

The placing in service of the extra train will necessitate a re-arrangement of the boat service on the lakes. It will be necessary to have a boat land the passengers at Lakefield in time to catch the 7.45 train in the morning and to accomplish this an early morning trip around the lakes will have to be made. This early boat will only stop at several centrally located spots and the passengers will have to assemble there. It would be impossible to reach Lakefield in time if the boat called at the various islands as has been done in past seasons.

It is understood that there will be several changes in the routes of the different boats this season. Of course, the Young boats, the Stoney Lake and [illegible], will be in service as usual, but it is stated that there will be two boats on the Burleigh Falls-Bobcaygeon route, instead of one, as in past years. The Ogemah will be on this route the same as last year, but it is said that the Manitou, which plied between Lindsay and Coboconk last summer, will be also placed on the route with the Ogemah, thereby giving a much better service.

Horse Fell Into Trench at The Gas Works and Was Killed

Bat Leahy's Team Ran Away From Peterborough Cereal Co's Mills—Dashed Into Gas Co's Yard and Fell Head First Into a Hole—Water Pipe Broke and One Horse Was Drowned.

An unfortunate and disastrous runaway occurred last night about dusk, and resulted in one of the horses bein killed, or drowned, or both. Mr. Bat Leahy, of Douro, drove into the city yesterday afternoon, and before going home went to the Peterborough Cereal Co's mill on Simcoe street to get a load of chop. He was driving a handsome team of chestnut farm horses, which were worth anywhere from $300 to $400. They were spirited animals, and Mr. Leahy usually took every precaution with them. On this occasion he drove up to the platform in front of the mill and got out. The lines were not quite long enough to reach to the mill door, and the driver put them down and stepped inside. He had no sooner done so than the animals made a mad dash for liberty. They started straight for the alley-way through the Gas Company's property.

It will be remembered that last year the company made a 16 foot excavation on the property for the big tank. After the tank was put in there was still a space several feet feet wide between the iron work and the bank. As it was just about dusk the animals did not notice the pit hole and one of them fell head first into it, while the other one fell in such a position that the under animal could not move. Its head was also wedged in under another board walk. In its fall the horse broke an inch and a quarter water pipe, and the water gushed out so that between the water and the very serious injuries the animal in the pit received from the fall death was certain. Willing hands flocked around the horses and as quickly as possible the harness was cut and the animals relieved. But it was too late. One horse was dead, while the other got off without a scratch. Mr. Leahy feels his loss very keenly, as the dead horse was only six years old and in its prime.

Tax on Cheese Factories for Instruction Has Been Removed

Dairy Instructors Will Also be Dairy Sanitary Inspectors—Instruction is Now Compulsory—Ontario Government Has Announced its Policy.

The dairy instruction system of the Ontario Agricultural department has been made known. It will be very different from that followed in other years and it is expected that a wonderful change will take place in the product of the cheese factory. The principal changes are that the dairy instructor will also be a sanitary inspector and he will have full authority over not only all the cheese factories, but also over all patrons of the factories. Then, formerly, a fee of $15 per factory has been charged in Eastern Ontario and a less sum in Western Ontario, to assist in meeting the expenses. This tax has been removed and all instruction and inspection will be free. But every factory will come under the jurisdiction of the instructor. When Hon. Mr. Monteith, Minister of Agriculture announced the policy for this year he made glad the hearts of every member of the Dairymen's Association. It was thought at first by some who did not know the Minister of Agriculture, that he had thrown cold water on the scheme. But the Minister is a man of great ability and he can see as readily as the next one what will be beneficial to the farmer and what will not. He never jumps at a conclusion neither does he commit himself. But he secures all possible information and after weighing it carefully he makes his decision.

In this case the dairymen only asked that the dairy instructors be also empowered with authority of a dairy sanitary inspector. It was not thought that the tax could be removed. But Mr. Colin R. Dargavel, president of the Eastern Ontario Association, took the matter up with the Minister and they decided not only to enlarge the instructors powers but to remove the tax and make inspection and instruction compulsory.

The dairymen also asked that it be necessary that every cheesemaker hold a certificate before he can take charge of a factory. The object of this is to raise the standard of cheese in the province. But as yet the Government has not acted in the matter, although it is firmly believed that it will be granted.

There will be thirty-two dairy instructors this year with two chief instructors. Eastern Ontario will have about 24 of the 32 officials, as the number of factories in this end of the province is so much greater than in the west. Mr. G. G. Publow, of Kingston, will again be chief instructor for the east.

Mr. Geo. Barr, chief instructor for Western Ontario, has handed his resignation to the association. He has accepted a position on the Dairy Commissioners staff. Mr. Frank Herron, of the Strathroy dairy school, will likely be Mr. Barr's successor.

THE JOYS OF CUDDLETIME.

As the evening shadows gather,
Then 'tis cuddletime, I know,
When my baby, dressed for Dreamland,
Comes a-romping to me so;
Comes and begs of me to hold him
On my knees and "rock-a-bye."
As the purpling sun sinks lower
In the gleaming western sky.

And he cuddles to me nearer,
As the firelight softly glows;
And across the dusky portals
Ghostly, flickering shadows throws;
And two dimpled arms about me
Are clasped tighter for a kiss—
Ah, was ever richer necklace
Placed about one's neck than this?

Soon the drooping, drooping lashes
Cover up two eyes of brown.
And the tousled head so golden
On my breast sinks lower down.
Ah, the sweetness of the pleasure,
Making life one golden rhyme,
With a dimpled babe to fondle
When it comes to cuddletime!

—Answers.

ABRAHAM'S TITLE DEED.

Sir William Ramsay Will Make New Search For It.

Sir William Ramsay will soon go to Asia Minor to undertake on a much greater scale than has hitherto been attempted investigations which are expected to throw much light on ancient history, especially Biblical history of the time of Abraham. Extended work is made possible by Lord Strathcona's gift of $2,500 a year for five years.

Sir William in speaking of his expectations says he has been convinced for a long time, and now thinks it will be practically demonstrated by the next great series of discoveries, that Aryan history had its beginnings in Asia Minor, and that the people among whom they are to be discovered were the people called the Hittites in the Bible, or the children of Heth, from whom Abraham bought a piece of land to make a grave for his family. Sir William says:—

"I shall not be satisfied until the document recording the sale of that piece of land is discovered. It would be a clay tablet, but would be practically imperishable, and there are thousands of those tablets recording sales of that kind.

"There is not the slightest doubt that the sale of that property was registered at the time and doubtless deposited in some Hittite temple for preservation. I cannot tell where it would be deposited, but those tablets constituted title deeds to property. Abraham in a strange land had to have proof of his purchase in a safe place, showing that he was the legal owner, and the only safe place at that time was a temple.

"Now those Hittites had an empire extending from the Aegean Sea to the borders of Egypt. It included the whole of Asia Minor and Syria. Their capital was in the northern part of Asia Minor, and its modern name is Boghazkeui. We know the sites of several of their great cities in Asia Minor. The duty of the future is to dig up those cities."

Burns In Geographical Terms.

To millions of people who never saw Scotland there is a greater Scotland. Greater Scotland is a state of mind, situated whereupon warm hearts and tuneful voices meet. It is bounded on the north by "Highland Mary," on the south by "The Banks o' Doon," on the east by the "Address to the De'il," on the west by "Of a' the Airts the Wind Can Blaw." Its capital is "Rantin', Roarin' Robin," its metropolis is Kilmarnock, its principal place Mauchline. Its history is found in "Auld Lang Syne." Its culminating mountain peaks are not Ben Nevis and Ben MacDhui, but "Tam o'Shanter" and "Scots, Wha' Hae."

Its national flower is the red, red rose, its chief commerce is in the treasures of smiles and dreams and heartbeats, and is carried not by the waters of the Clyde and Tay, but on the enchanted stream of "Sweet Afton" and "Adown the Winding Nith." Its climate is variable. After the season, "When Rosy May Comes wi' the Flowers." "Simmer's a Pleasant Time." How different is "The Murk Night o' December Wert Thou in the Cauld Blast."

In area Great Scotland covers the whole world, wherever the ploughboy of Ayr holds sway over the hearts and minds of men, for the other name of Greater Scotland is Robert Burns!—J. Herbert Quick, before the Caledonian Society of Sioux City.

Sunday In England.

One of the most remarkable documents in modern times has just been issued in England in the form of a message to the nation signed by the Archbishop of Canterbury, the Roman Catholic Archbishop of Westminster and the President of the National Council of the Evangelical Free Churches. The message urges upon all people the importance of adequate and reasonable Sunday observances. The Times in a long editorial reviews the subject, and points out that by the efforts of Lord Avebury and others the blessings of one day's rest in seven will be extended in England much further than at present. It also refers to the great advance made in regard to Sunday rest in France under the new law, and thus concludes: "To call it a problem has become, indeed, misleading. It is no longer a problem, but a received opinion that work—above all our modern work under high pressure—is impossible for man unless he is allowed at least one day in seven to rest his mind and body."

Paddle On.

A story from the new Life of Sir Leslie Stephen, K.C.B., by F. W. Maitland, relates to the days when Stephen was both coach of the Trinity College crew and lecturer on Greek Testament. The scene is the lecture room; the speaker the aquatic don, Stephen, who exclaims: "Easy, all! Hard work there! Smith, do you know what it means? No more do I. Paddle on all!"

Milton Devitt, of Burlington, was buried under a straw stack for twenty minutes and died shortly aftr being taken out.

No Increase in Price of Books

Only Better Class of Cheap Novels Affected by Advance of Materials

The advance in the price of all the materials that go to make stationery and books is not expected to effect the consumer to any extent.

The only appreciable difference, so far as the public is concerned, will be in the possible dearth of the better class of paper-covered novels, said Mr. Henry L. Thompson, of the Copp, Clark Co., Toronto. Otherwise prices will range as before.

School books will be unaffected, according to Mr. W. P. Grundy, of the W. J. Gage Company. They have remained at the same figure for ten years, notwithstanding the changes in the labor market.

"The profit to the publisher on the ordinary seventy-five cent paper-covered novel, it was said, had practically vanished, and the probabilities were that no more of these would be issued.

"The situation, then," said Mr. Thompson, "is that we will continue to publish the bound volumes of fiction at $1.25 and $1.50, contenting ourselves with a smaller margin of profit, while the probabilities are that in the near future we will cease to publish the paper-covered novels at all."

The jury disagreed in the Bowlby libel case at Brantford.

CRICKET

MEETING TONIGHT

A meeting of all those interested in organizing a cricket club in the city will be held in the Y. M. C. A hall this evening at eight o'clock. It is hoped there will be a large gathering. There is no reason why Peterborough should not have a live, up-to-date cricket club. There is plenty of good material available. It is hoped that at the meeting this evening there will be a representative attendance.

Toronto Still Old Muddy York

Peterborough People Comment on Filthy Condition of Toronto's Streets

According to the Peterborough people who were in Toronto yesterday, Toronto's self-selected name of "Toronto the Good" is applicable in several ways. In the first place, the big city is good and dirty. The streets and roads are filthy and a disgrace to a country village. Anyone who knew Toronto in the olden days when it was called Muddy York, would have no difficulty today in recognizing the same slop and mud. Visitors to the capital of Ontario are really ashamed of it, and would not like to go home and see the streets in their own town in a similar condition.

Audience Showed a Lack of Respect

Scrambled into Coats While Company Sang National Anthem.

It is regrettable that a Peterborough audience has not more respect for the National Anthem than that shown at the Grand Opera House last night. At the conclusion of the presentation of "Sergeant Kitty," the company assembled on the stage sang the British National Anthem, but the audience, instead of rising and joining in the words which should be sung with fervor by every British subject, commenced to scramble into coats and other garments and to rush for the doors. Some remained sitting, others stood up, but the major portion of the audience commenced to file out of the theatre. It was a graceful mark of respect for an American company to close the evening's engagement with "God Save the King" and they must carry away a strange impression of Peterborough's loyalty and Peterborough's manners. The proper thing for the audience to have done under the circumstances, was to have risen, joined in the words and remained standing until the curtain was rung down. On ordinary occasions, when the National Anthem is not sung, the audience should remain seated until the curtain is rung down.

The opera house management should also do something to prevent persons who come late from being ushered to their seats while the play is in progress. It is too bad that a dozen or sometimes two dozen persons should be disturbed by one or two late comers, who walk over the feet of the persons in the same row of seats, in reaching their places. The public will back up the management in any effort they may make to eliminate the disturbance caused by late comers.

"The Limerick Boy" Grand Opera House, Monday, March 18th.

Two Seasonable Window Shows

Millinery Display and St. Patrick's Windows at Cressman's

Something new, something novel, and something strictly up-to-date is presented by the two dry goods windows in Mr. A. W. Cressman's big store. One is a very ornate window in honor of the millinery opening. It is a regular bower of roses, beautifully blended, in the color scheme. The unanimous opinion is that it is the best of its kind ever seen in Peterborough and is well worth the time to walk down street to see. On the opposite side of the entrance is another window dressed in keeping with St. Patrick's Day. The material used is pure Irish linen, while the Shamrock is conspicuously displayed. The two windows are a tribute to the artistic taste and decorative ability of Mr. P. F. Nicholson, who for some time past has had charge of the publicity end of this progressive business.

Death of Dr. A. A. Stockton M.P. of St. John, N. B., To-day

Special to the Review.

Ottawa, March 15.—Dr. A. A. Stockton, Conservative member of the House of Commons for St. John City and County, N.B., died in the Water street Hospital this morning.

This is the fifth death among the Members of the House of Commons

Horses Sent to Toronto Market

Mr. W. Duncan shipped to the Toronto market this afternoon a consignment of horses that will no doubt bring good prices when placed on sale. There were eighteen in the lot and they were as fine a shipment of equines as has left Peterborough for a long time. They were principally heavy horses and were purchased in the vicinity of the city.

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

Fannie Fox
Miss Luella Adams

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain extending from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound at once and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:— (First Letter.)

"In looking over your book I see that your medicine cures Tumors. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, Bradford, Pa.

Dear Mrs. Pinkham:— (Second Letter.)

"I take the liberty to congratulate you on the success I have had with your wonderful medicine.

"Eighteen [illegible] ago my periods [illegible]. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor and would have to undergo an operation.

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no signs of a tumor now. It has also brought my periods around once more; and I am entirely well. I shall never be without a bottle of Lydia Pinkham's Vegetable Compound in the house."—Fannie D. Fox, Bradford, Pa.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—

"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor.

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundred of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and words fail to [illegible] has done [illegible]."—Miss [illegible] Adams, [illegible]

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

Question of Railway Taxation; The Rate Should be Increased

Property Should Be Taxed at Its Cash Value.

Mr. Bowyer Says Existing Mileage Tax Is Not Fair—Should Assist the Municipalities More—Colonization Roads—To Increase Agricultural Grants — Congratulatory Speeches On State of Budget.

Toronto, March 15.—Yesterday's session of the Legislature witnessed a continuance of the budget debate, which monopolized both afternoon and evening sittings. An interesting feature occurred during the afternoon when the House adjourned for an hour to receive General William Booth, head of the Salvation Army, who addressed the members from the speakers throne, alluding to the work of the Army generally and its immigration policy, in which the legislators are interested, in particular. On motion of Hon. J. P. Whitney, the Prime Minister, and Hon. G. P. Graham, the leader of the Opposition, he was accorded a hearty vote of thanks.

The feature of the budget debate was the address of Mr. P. H. Bowyer (Conservative of East Kent), who took issue with the Government on the question of railway taxation. Mr. Bowyer claimed that the taxation of these corporations should be increased to its "just and proper proportions." He was assured of consideration of his protest by the Government. Mr. Bowyer claimed that the existing mileage tax was not a fair one. He urged that a provincial board of assessors be appointed to assess all railway property wherever they found it, including rolling stock, and upon that amount a rate on the dollar should be levied, that rate to be the average rate of municipal taxation throughout the Province. Of the sum collected not less than 75 per cent. should be returned to the municipalities.

Colonization Roads.

Hon. Dr. Reaume introduced a Government bill "respecting colonization roads." It provides machinery whereby the municipal councils in the organized districts may—as under the Good Roads Act applying to counties—initiate proceedings towards securing colonization roads. Provision is made for this, the idea being that the councils and the Government shall act in unity, the former contributing a portion of the cost in money or labor, the Government being authorised to pay not less than one-third and not more than two-thirds. The conditions in the sections so desiring to help themselves would, of course, decide the amount of the Government grant. The measure does not mean the abandonment of the present policy of building and extending main colonization roads by direct Government grant, but will, it is hoped, induce the construction in many sections of branch roads.

Hon. Mr. Matheson, for Hon. Mr. Foy, who was absent, introduced a bill to amend the Surveys Act. The changes are largely technical and not of importance.

On motion of Hon. Col. Matheson the name of Mr. W. A. Preston, the new member for Port Arthur, was added to the Public Accounts, Municipal, and Fish and Game committees.

Mr. Sam Clarke (Northumberland) resumed the budget debate. He congratulated the Government on its great surplus and sound financial statement, but claimed some credit for the previous Ross regime, which, he said, had laid the foundation for the present prosperity. Mr. Clarke also complained of the administration of the license laws in Toronto, and charged that sufficient was not spent by the agricultural department.

Mr. P. H. Bowyer (East Kent) who spoke in the evening, made a striking address. After brief congratulatory words on the splendid financial success of sound Government he launched into a telling criticism of railway taxation. He believed the railways should be made to pay their fair share of municipal taxation, which they did not do at present. The Government had acted wisely last year in increasing their assessment, but it was still far short of what it should be. He asked that railway property be taxed the same as other property, namely at its actual cash value.

Agricultural Grants.

Mr. A. B. McCoig (West Kent) followed and endorsed the position taken by his county colleague. He declared Mr. Bowyer to be a Government supporter who stood by his pledges and lived up to the platform set by the Government before it attained office. Mr. McCoig asked for increased agricultural grants.

Mr. F. G. McDiarmid (West Elgin) followed in a splendid address setting forth the great progress that the Province had made under the Whitney regime and praised the Government for its liberality to the public schools and its conservation of the Gillies mining limit for the public weal.

Col. Atkinson (Norfolk) moved the adjournment of the debate.

Trains Crash In Fog.

New York, March 15.—One man was seriously injured and more than a dozen others were slightly hurt in a head-on collision between trains on the Staten Island Rapid Transit Railroad during the fog yesterday.

London Is Anxious.

Montreal, March 15.—The Star's London cable says that there is anxiety over Canada's attitude in the colonial conference, caused by a rumor that Laurier is not going to attend.

Not True.

Ottawa, March 15.—Sir Wilfrid Laurier yesterday to Mr. Bourassa, denied the reports from London that he would join with Premiers Deakin and Ward in bringing about the institution of an imperial council.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effectual Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, $1; No. 2, 10 degrees stronger, $3; No. 3, for special cases, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: The Cook Medicine Co., Toronto, Ont. (formerly Windsor)

TO STAMP OUT REVOLT.

Russian Government Takes Drastic Steps Against the Schools.

St. Petersburg, March 15.—The Government has resolved to take drastic steps against the universities and other institution of high learning to put an end to the revolutionary activity that prevails within these establishments.

Prince Andrew G. Gagarin, director of the Polytechnic Institute of St. Petersburg, in which establishment a number of arms, ammunition and bombs were found by the police on March 3, has been dishonorably discharged.

Together with the governing board of the institute, he will be prosecuted for criminal negligence for permitting the sheltering of arms and ammunition for revolutionary purposes.

The faculty of the institution will hand in their resignations in a body as a protest against the degradation of Prince Gagarin.

Seven Slain by Robbers.

Yelisavetgrad, March 15.—An estate was attacked by robbers Wednesday, who bound and decapitated the proprietor, five laborers and a woman. Two witnesses of the slaughter, a soldier who hid in a haystack, and a child, lost their reason.

Troops Stop Attack on Jews.

Yelisavetgrad, March 15.—On the occasion of the funeral Wednesday of a prominent reactionary who was killed by revolutionists, rioters began beating Jews in the streets and sacking the bazaar and Jewish lodgings, but they were stopped by troops. A number of Jews were wounded, one of whom died in the hospital.

The local Rabbis have telegraphed complaints to the Lower House of Parliament and to Premier Stolypin.

Arsenal Paymasters Robbed.

Briansk, March 15.—Two paymasters from the arsenal were attacked in a street yesterday here by robbers, who opened fire on them with revolvers, seized their money bags containing $6,000 and decamped.

COMMONS CHEER U. S. ADMIRAL.

Foreign Secretary Grey Pays Tribute to Davis for Jamaica Incident.

London, March 15.—The incident involving Governor Swettenham of Jamaica and Rear-Admiral Davis, U. S. N., at the time of the Kingston earthquake, was brought up in the House of Commons yesterday in a hypothetical question by Jesse Collings, Liberal-Unionist, member for the Berdesley division of Birmingham, who was in Kingston at the time of the disaster. The question brought [illegible] Foreign Secretary Grey a hearty tribute to the American admiral.

Mr. Collings asked if it was in accordance with international law and international etiquette for an admiral of a foreign country to land an armed force in a British colony without the permission of the governor. The Foreign Secretary, in reply, said:

"No, and I may add that no such rights were claimed in the incident referred to. What I am convinced of is that while, in the presence of such a catastrophe, there was a certain amount of misunderstanding, the American admiral was inspired by single-minded motives and a desire to relieve suffering. Any other construction placed on his action is most unworthy and untrue."

Mr. Collings then asked if the fact did not demand that, in opposition to the governor, armed troops were landed when there was no cause or warrant for such action, but the Foreign Secretary said:

"According to my information, the questions conveys a statement, which is not borne out by facts."

The Foreign Secretary's tribute to Rear-Admiral Davis was heartily cheered.

TWO FATAL ACCIDENTS.

Man Killed by Falling Tree—Fractious Colt Causes Fatal Injuries.

Kingston, March 15.—Ezra Palmatier, of Harlowe, is dead from internal injuries caused by fractious colt. His leg was crushed between his sleigh and the barn.

At Halleford, James T. Babcock, sawmill owner, was struck by a falling tree he had cut, and died a few hours later from his injuries, leaving a wife and ten children.

Was Case of Suicide.

Toronto, March 15.—Coroner Cotton's jury returned a verdict yesterday afternoon that Margaret Wilson, the young girl found dying under the Huntley street bridge Wednesday morning, came to her death by poisoning by carbolic acid bought and administered by herself.

An interesting feature of the case was the sending of the stomach of deceased to the university to be photographed for the British museum.

"The case," said Dr. Johnson, who made the postmortem, "was a most peculiar one. This girl apparently had nothing to eat for at least ten hours. The acid she took—fifteen teaspoonfuls — absolutely burned the walls of the stomach, nothing but a white paste remaining."

Orange Lodge Officers.

Orangeville, March 15.—Wm. Egsery, D.G.M., was last night elected grand master of the Grand Orange Lodge for Ontario West, and Harry Lovelock of Toronto was elected deputy grand master.

The other officers are: associate deputy Com., Fred Dane; chaplain, Rev. M. Rowe, London; treasurer, John Hewitt, Toronto; secretary, Wm. Lee, Toronto; assistant secretary, Wm. Fitzgerald, Toronto; lecturer, J. D. Banting, Cookstown; director of ceremonies, Jos. Thompson, Toronto; auditors, Henry Taylor, Aurora, and A. W. Wright, St. Catharines.

The next place of meeting will be Mount Forest, which defeated Barrie in a close vote.

Hyman Didn't Resign.

Ottawa, March 15.—The committee on privileges and elections yesterday morning declared that Hon. Mr. Hyman's resignation as member for London was not valid, in that it had not been properly witnessed. This makes a bye-election unnecessary.

The plant of the Golden Lion Brewery at Prince Albert was damaged to the extent of $10,000 by fire.

DELMAS SCORES POINT

Abe Hummel Not Allowed to Produce Mrs. Thaw's Affidavit.

He Makes Damaging Statement—Says Evelyn Nesbit Lied to Her Husband—Lawyers Dispute All Morning as to How Much Hummel May Tell—She Refused to Make Criminal Charge Against White.

New York, March 15.—When the Thaw trial opened yesterday morning Abraham Hummel was recalled to the stand.

Delphin M. Delmas immediately began his argument in reply to District Attorney Jerome as to the admissibility of the evidence Hummel has to offer regarding an affidavit Evelyn Nesbit is said to have made. In this affidavit, the district attorney stated Wednesday, Miss Nesbit asserted that Thaw had beaten her when she refused to sign papers charging White with her ruin, and swore that the charge against White was not true. In his argument Mr. Delmas said: "We still contend that this witness was acting as attorney to this girl. It is not for him, by his word, to deny that such a relation existed. However, we will reserve that objection."

Appeals to Jury.

Mr. Delmas then turned to the admissibility of evidence contradicting the statements of a witness made out of court. He said he had not objected to Mr. Jerome's address Wednesday, as he trusted "to the fair-mindedness of the jury, which is my only protection."

Mr. Delmas finally asked that the court rule out Hummel's testimony as improper and having no bearing on the case.

The judge upheld the contention of Mr. Delmas.

A Long Question.

After repeating to Dr. Flint the same question which Mr. Delmas put to the experts for the defence and having him say that Thaw was sane, on the basis of the facts therein, District Attorney Jerome had read to the witness the prosecution's hypothetical question, which contains some 15,000 words and which required one hour and eighteen minutes in the reading, Dr. Flint again said, without qualifications, that Thaw knew his act was wrong and is therefore liable for murder in [illegible] under the statutes of the State of New York.

Jerome's statement that the taking of evidence would be concluded by to-night has been abandoned, and those concerned in the case again look to April 1 as the earliest date for closing the long drawn out trial.

Damaging Assertion.

Abraham Hummel was on the stand again yesterday. Before Delmas could object to a question put to him by Jerome, the witness got into the record the statement that Evelyn Nesbit told him that she had informed Harry Thaw in Paris in 1903 that Stanford White positively did not harm her.

Delmas at first moved to have the question and answer stricken out from the record, but, when the district attorney seemed about to consent, the chief counsel for the defence insisted that the answer stand.

Hummel's further testimony was halted until Mrs. Evelyn Nesbit Thaw can again take the stand to testify as to whether or not Hummel was acting as her attorney when she made the statements to him which were afterwards embodied in the affidavit.

Both Jerome and Delmas were irritable yesterday and had frequent clashes. The strain of the trial is palpably telling on everyone connected with it.

It was reported last night that Jerome himself may be called to the witness stand in sur-rebuttal by the defence. The purpose, it is said, is to question him as to certain actions lying against Abraham Hummel, who was a witness yesterday.

Throng at Dowie's Funeral.

Chicago, March 15.—John Alexander Dowie was buried yesterday in Lakemound Cemetery, Zion City.

A small portion of the magnificent choir that formerly officiated in Zion City Tabernacle sang several hymns.

The body of Dowie was arrayed in the white robe he had worn since he assumed the title of "first apostle of the Christian Catholic Church."

The funeral cortege was attended by hundreds of members of the church and, when the body was lying in state, a constant stream of visitors called.

Scores sought to be cured of disease by touching the hem of Dowie's robe.

Britain Being Robbed.

London, March 15.—(C. A. P.)—The Illustrated London News says that Canada's excellent land and enterprising advertisements will doubtless tend still further to diminish Great Britain's agricultural population, and after a time leave nothing at home but the very young, very old, or very stupid and unenterprising sections of the rural dwellers.

Novelist Praises Canada.

London, March 15.—(C. A. P.)—Three hundred Salvation Army emigrants left Euston Station for Canada yesterday. Rider Haggard addressed them on their departure, and said, at any rate, they were going to a land where every man could rise who put his back into the work.

Hanged In Cell by a Towel.

Plattsburg, N. Y., March 15.—Michael Yeedow, serving a life sentence at Clinton Prison for murder, who recently killed a fellow convict, hanged himself with a towel Wednesday night rather than undergo trial for his last crime.

Bigamist Gets Two Years.

Montreal, March 15.—Swartsward, the New Haven, Conn., man, who married the dining-room cashier of the Queen's Hotel, while having a wife and five children in New Haven, was sentenced to two years imprisonment yesterday.

Forty horses were killed by the derailment of a colonist train near Schreiber.

ATTACKS LAND BILL.

Mr. Greenway Opposes Restoration of Pre-Emption Rights.

Ottawa, March 15.—Mr. Oliver yesterday moved for a second reading of his bill to amend the acts respecting public lands. The bill covers 52 printed pages. The salient feature is section 27, restoring pre-emption rights, so that a settler may acquire a second homestead, and in some cases it would appear, a third homestead also.

The first speech against the bill came from Mr. Greenway (Liberal, Manitoba). The bill passed in 1892, providing for a second homestead had been injurious to the West, he said. He was astonished to learn now that a third homestead would be granted those who had made their entries prior to 1889. He believed that with a 160-acres of land any man could settle down and acquire a competence.

"I can think of nothing more detrimental to the interests of the people of Western Canada, especially to the Province of Manitoba, and the eastern part of Saskatchewan, than to put upon the statute book a law like this."

Belong to the Country.

Mr. Foster drew attention to the fact that the criticisms of Mr. Greenway were not replied to by any member on the Government side of the House. It was pointed out to Mr. Oliver that it was a cheap business for a Minister under modern conditions to reflect as he had done on a statesman who made the most they could out of conditions thirty years ago. These lands belonged to the whole country but under the bill only a favored portion could get the benefit of the gift, and these were the settlers who had received a gift of 160 acres of land. [illegible] political manipulation and corrupt deals.

Premier Wants Information.

Sir Wilfrid Laurier criticized the course of the members who had attacked the measure on its second reading, but yet had not divided the House upon it. The principle of the bill was simple that of giving preference to the people now in the West over all newcomers. He would express no view on the question. His desire was to hear members from the West discuss the measure in detail.

R. L. Borden said that the speech of the First Minister showed that he had already made up his mind on the pre-emption clause of the bill. He should advocate making land records open to public examination, especially in regard to timber limits. They should be sold only by public competition.

NOT ENOUGH FOR ONTARIO.

Interests of Province Threatened—Aylesworth's Figures Wrong.

Toronto, March 15.—"I think a Minister dealing with a matter of such international importance—one on which a treaty is pending—should be better informed."

So said Hon. Adam Beck yesterday morning, discussing the bill in the Dominion Parliament regulating the export of electric power, and having special reference to the reported statement of Hon. A. B. Aylesworth that the demand in Canada was only about one-tenth of the 400,000 horse-power being developed on this side of Niagara Falls.

Ontario's Big Needs.

"I cannot understand why he should make it," continued Mr. Beck. "The Hydro-Electric Power Commission at this very moment has applications from the districts dependent upon Niagara Falls for the supply of their electrical energy for over 100,000 horse-power. I firmly believe that the City of Toronto alone, within five years, providing the price is reasonable, will require the whole of the amount mentioned by Mr. Aylesworth as covering the present demand in Canada, viz., of 400,000 horse-power. According to present agreements the companies must have available for use in Ontario when requested 200,000 horse-power."

Available on Demand.

Mr. Beck added that the question hinged on whether the Dominion Government adopted the recommendation of the International Waterways Commission and enters into a treaty to limit the amount of water taken for power purposes. Unless the companies were instructed he feared the Americans would get the benefit of the power generated.

"The proposed treaty," concluded Mr. Beck, "should provide that all the power exported should be available in Ontario upon demand."

The body of Wm. Wallace, a C.P.R. brakeman, crushed between two cars at Bow Island, is being brought to Laurel, Ont., for interment.

EVERY EVENING, 7 to 10. WEDNESDAY AND SATURDAY MATINEE, 2.30 to 6.

Popular Prices:
Adults, 10c Children, 5c
A refined entertainment for small or great. Ladies especially invited.

HEARTS COURAGEOUS

BY HALLIE ERMINIE RIVES.

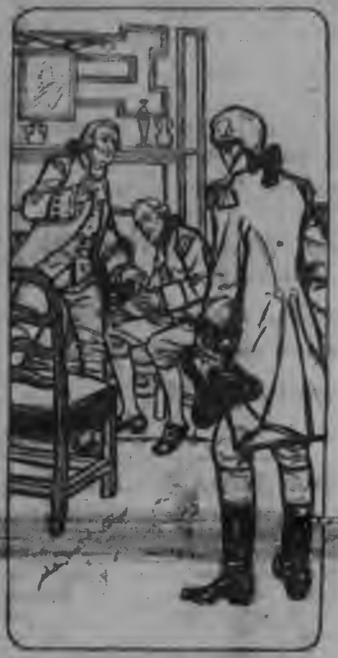
"Poor child!" Henry's tone was pitiful. "You mean to tell her? At least wait till your wife is returned."

"The sooner she hears some things the better for her. She has her share of pride; never fear."

"The day I was last here, sir," observed Jarrat, "she boasted she would wed him an he were a laborer in your fields."

"Aye, maybe, but not if he were a conspirer against her country. My niece is a daughter of Virginia, sir." And the master of Gladden Hall noisily took snuff to cover his feelings. Henry's face was like a sphinx.

While they waited came a clatter of hoofs outside. A moment later the hall door was flung open, and Rashleigh was heard in excited jabbering. The colonel repeated an objurgation.



"Because the marquis is dead!"

The next instant he jumped to his feet, and Jarrat started as if at an apparition. Armand stood on the threshold, mud splashed and pale.

The newcomer's look ignored the captain. He bowed to Colonel Tillotson and addressed himself to Henry:

"Monsieur, I come to warn you that a detachment of Dunmore's men is on its way hither from Yorktown to seize your person."

"The deuce!" shot out the colonel like a javelin. "I thought the price the earl put on you, Patrick, was but brag. He dares violate my house, then. Mount at once and away by the north road."

Henry's gaze had seemed to dart and play about the young Frenchman's face like yellow summer lightning. "And what would the governor with me this time?"

"To transport you to trial for high treason. It was plotted this day aboard the Fowey."

"From which you are escaped?"

"Yes, monsieur."

Jarrat's voice entered: "To attack the residence of a Virginian gentleman without crown warrant is not so ready a thing even for a royal governor, but a man may disappear by night from a lonely road and who to blame? Our fleeing marquis, with his nose for delicate deceits, is a likely catspaw. I swear such overt folly of Dunmore's will yet drive me into Whiggery!"

Colonel Tillotson paused in perplexity, but Henry looked at the speaker with a gaze keen and inscrutable as an Indian's above that flickering hair smile of his.

"You have no time to spare, monsieur. They were to leave the Fowey at sundown. I implore you to haste."

"As well," cautioned Jarrat, "to go by another way than the marquis anticipates."

"You liar!" said Armand, flaming on him. "This man was in the plot. He waits the troops here at this moment. Monsieur, I beseech"—

He did not finish, stricken dumb by the entrance of Anne. She had caught her breath at sight of him and stood, statue-like, in the candlelight. Then she held out both arms and ran toward him with a glad cry:

"Louis! They have released you! Oh, thank God; thank God!"

The young man did not speak; only a little spasm wrenched his features. But Jarrat did. "The jailbird was slippery, mistress," he sneered.

The colonel, who had reached her in a stride and pulled her back, dropped her arm at the look of offense and scorn she cast upon the speaker. "Anne," he said, facing her rigidly, "listen to me! This man is not only no nobleman"—

"I care naught!" she interrupted wildly. "I care not who he is! I only know what he is to me!" A light dawned on Armand's face with her words. He drew closer to her, as if wondering, afraid to trust his senses. She turned again to him. "I could not tell you—that night at the Raleigh. I had no time"—

"But," cried Colonel Tillotson, "he is a spy—a hireling, child, bought to this deception to betray the colonials!"

"Sooner than that," she declared, "would I believe Captain Jarrat capable of an honest love! This is a lie of your making, captain. He is no spy. Whatever he has done, 'twas not in dishonor."

"Anne, Anne," urged her uncle, "we have seen the proofs!"

"You do not believe them?" Armand whispered.

"No, no! Nor ever will!"

The young man laughed out triumphantly in sudden abandon. "You hear that, messieurs? There is one that believes in me!"

"Believes, aye, and loves!" cried Anne and ran to him. He drew her close to his breast, murmuring soft words. Her face was pale, yet burning, her whole body thrilling with passion and defiance.

"They cannot destroy my faith in you!" she breathed. "I shall love and trust you always, always, always!"

"She is bewitched," Jarrat said, with dry lips.

"You hated him!" she blazed at him. "Oh, I know how you would creep and creep! My friend," turning to Henry—"my friend, do you believe this?"

Henry got up with a round oath. "No!" he swore. "By the great day, I do not believe it!"

Her fluttering cry of delight was stilled by Colonel Tillotson's tense whisper, "Hark!" There was a dull drum of hoofs thudding over sod and with it Sweetlips' fierce challenge.

Simultaneously came a wail of [illegible] from the kitchens, and Rashleigh plunged in from the hall, his [illegible] head shaking with fear.

"De sojers! De sojers!" he screeched. "Mars' John, dee gwine kill y'all!"

Jarrat rose to his feet. "You know how I can creep and creep, mistress?" he said. "Well, then, now you shall see how I can strike!"

Anne had rushed instantly to the window and drawn the blind. "Troopers!" she cried. "The house is being surrounded! You have been pursued, Louis!"

"'Twas true then!" frothed Colonel Tillotson. "Jarrat, had I a weapon I would shoot you, I swear to God! There is one way, Patrick. Here, quick! Through this hall and to the buttery! There is a small window! Speed, and God send you get safe away!"

As Henry disappeared Jarrat ran from the door, shouting directions to the soldiery.

"Louis!" gasped Anne. "You must go! Take the same way, quick!"

"Wait!" he said. "I must give something into your care—something important! Promise me you will do with it what I ask!"

"Yes, yes; but haste, haste!"

He had taken a packet from his breast. "This. Much depends upon it. It must be carried to Philadelphia and there given to Dr. Benjamin Franklin. You must tell him to hold it till called for."

"I will carry it. He shall have it from my own hands. I hear them on the porch. For my own sake go!"

"Swear to me!"

"I swear by all I love—by my love for you."

"And you will trust me?"

"Always, always! Oh, can you wait while they take you?"

"Kiss me!"

"Ah"—

He strained her to him once and sprang toward the door, through which Henry had fled. But as he reached it Jarrat's form stood framed in the sash. His hand held a pistol. At the same moment the room overflowed with men.

"So ho," he smiled redly over white teeth. "Not so sprightly, eh? Well, the other bird has flown—curse those horses' pounding!—and we must be content with you, I suppose. Lieutenant, I put this conger eel in your care. An he gets off as did Patrick Henry, some one shall suffer for it. Nay, mistress, run not to him. Rather give me the packet which the entertaining gentleman gave into your care a moment since. I doubt not its contents will interest us all. It may even hold his patent of nobility."

Anne's hands flew to her breast, and she shrank back as Jarrat advanced upon her.

"You ruffian!" raged Colonel Tillotson, beside himself with anger. "An you or your bloody-backs lay finger on my niece"—

"Heroics are misplaced, colonel," answered Jarrat curtly. "Will you give up that paper, mistress?"

A quick light came to the girl's eyes, gazing past him. Fumbling in her dress, she drew forth the packet and held it out. But as he extended an arm to seize it she drew back and hurled it over his head through the dining room door, where huddled Mammy Evaline and the rest of the kitchen servants in a shivering group.

"Bonella!" she screamed. "Take it, Bonella! Run! Hide it! Run!" The redemptioner woman swooped upon the packet and was away like a hare.

"Clumsy fools!" foamed Jarrat as the soldiers bungled at the door catch. "After her and bring her here!"

Anne in the reaction felt her gaze upon Armand, erect between the soldiers, swim with tears. How could he stand so calm? And with the thought she felt a sudden shame for her weakness.

"The wench has had her run," grumbled one of the soldiers as they returned with the redemptioner woman. "She hasn't it on her. She's tucked it away somewhere."

"I'll soon know where she's hidden it," stormed Jarrat. He interrogated her savagely. "No," she said brokenly, "I not tell."

"Get a rawhide from the stables and stretch her out there. She'll talk fast enough!"

"You'll not lash her!" cried Anne, with trembling lips.

Jarrat made no reply. When the soldier returned with the rawhide others dragged the woman into the center and stood waiting. The poor creature watched the preparations with her face ashen and her black eyes darting rapidly here and there.

"Now," said Jarrat menacingly, "will you show where you hid that paper?" She was dumb.

Once, twice, the heavy thong descended. At the first stroke she cowed and cried out with pain. At the second a line of red started through the coarse oznabrig.

Jarrat leaned and looked into her face. "I not tell you!" she wavered.

"I'll have the king's law on you for this," the colonel hurled between his teeth.

Armand had remained quiet, but as the stroke fell twice again he trembled. The woman's lips were tight together. "No, no, no!" she said between them. "I not tell you! I not tell you—never!"

"Curse her!" Jarrat gnashed furiously. "Lay on, there, you! I say I'll [illegible]"

The [illegible] paused to tuck up his sleeve. The men who held her relaxed their hold for an instant, and she sank down on the floor with closed eyes.

"They will kill her!" sobbed Anne, clutching her uncle's arm. "They will kill her!"

"Stand her up again!" commanded Jarrat.

Armand had grown very white. At Anne's sob he strained forward in the grasp of the soldiers and cried: "Tell him! I command you to tell him!"

The woman opened her eyes, looked at him searchingly and uncertainly, then smiled and tried to shake her head. "I—not—tell."

They dragged her roughly up again, but her legs would not support her. She seemed not to hear Jarrat's shouted question in her ear. He looked at her swaying figure a moment, then in a smother of rage raised his pistol butt and brought it down heavily on her temple. She fell like a log, and he turned on his heel, cursing.

"Let the drab go," he said sullenly, "and bring along the other."

They mounted, a trooper hitching bridles with Armand's horse, and as Jarrat gave the word they moved off in twos down the dark drive. The light from the open door fell on the trampled shrubbery, the glossy spattered skins of the horses and on Armand's backward turned face.

"Farewell, mademoiselle."

Anne slipped from the colonel's arms and sped after them. "Louis!" she called clearly. "Remember! I believe! I trust—and—I love you!"

"God keep you always!" he responded, and as they swept into the black she saw Jarrat ride close and strike him across the mouth with his gloved hand.

CHAPTER XIV.

PHILADELPHIA city a little before midsummer, 1776. The old Quaker quiet is gone. Now a strange spirit of excitement pervades it, a subtle electricity that touches all things with expectancy.

The inns, the Black Bear and Indian Queen and the London Coffee House, dilate with taproom wiseacres, and crowds of townfolk loiter along the streets in the warm evenings to view the great men come to attend the most honorable congress sitting in the statehouse. They have seen the Charlestown packet bring the delegates from South Carolina. Every citizen who can muster a horse has ridden out to meet the delegates from Virginia, Maryland and Delaware who arrived in a body. They have seen them all, have compared them with one another.

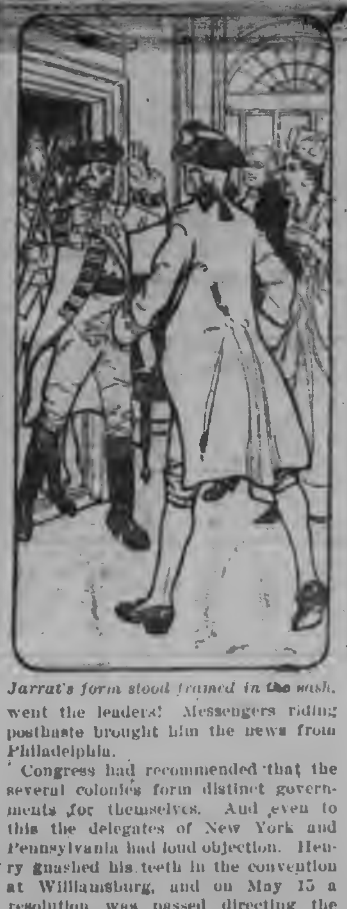
On High street stands the great mansion of Richard Penn, one of the proprietaries. It is now thrown open for the entertainment of the visitors.

Up and down the dusty street pass and repass earnest men in dull coats and small clothes, workmen in oznabrig and leather aprons and tradesmen in coarse cloth. They pause in knots on the pave and talk, each by his kind.

One house they pass many times, looking at it with more eager curiosity and concern. This building is even less pretentious than its fellows, but one who observes it long will have noted that those who pass in and out of its door lend it a peculiar distinction. They come in velvet instead of cloth, their sleeves droop with lace. They wear powdered hair and diamond buckles and for the most part carry dress swords.

The house is occupied as a shop, and the silver plate on the door bears the name of "James Randolph." It is the headquarters of the Virginia delegations.

To Henry, chafing in his Virginia harness, how slowly the ball had rolled among the conventions! How halting went the leaders! Messengers riding posthaste brought him the news from Philadelphia.



Jarrat's form stood framed in the sash.

Congress had recommended that the several colonies form distinct governments for themselves. And even to this the delegates of New York and Pennsylvania had loud objection. Henry gnashed his teeth in the convention at Williamsburg, and on May 15 a resolution was passed directing the Virginia delegates in Philadelphia to "declare the united colonies free and independent states."

A significant word! Richard Henry Lee followed in June with his resolution for independence.

But alas for human failing! Many of the delegates, Dickinson, Morris, Livingston, were men of property, and the possession of property enlarges the bump of caution. They cried for delay. The older Quakers, men of peace, had set their faces and their faith against rebellion.

New York was milk and water. There had been the failure of the Canadian expedition, and, besides, the province had its exposed harbor and the Indian raids on its frontier to think of. The Pennsylvania delegation refused to vote on separation and left their seats in anger. Maryland had few grievances.

And what of New Jersey? There was Toryism intrenched. Its royal governor, the son of the benevolent faced patriot, Benjamin Franklin, went breathing fire against the Whigs. Not till he had been shipped to Connecticut in irons, not till congress had sent three of its members to argue, to plead, to storm, did its assembly declare for freedom.

Think not that those who hesitated were not men of honor, jealous for the welfare of their country. Not every one believed George III. another such despot as Philip II. of Spain, or the bloody minded man the radicals illiberally called him. The storm was high on the horizon. And it is the part of wisdom to count well the cost of desperate ventures. Against the colonies was pitted the mistress of the seas—a king, innumerable battalions, armament, navies, money and the prestige of hereditary possession. The colonies stood alone.

There were those who, like Henry, whose clear eye saw the future as with divination, pinned faith upon Gallic enmity to England and looked for a sign of aid. But the months came and went without its appearance. Now, the Third congress was sitting, and France was silent. Granted a defiance to Great Britain, the outcome was doubtful—how doubtful five red years of smoke and blood were to demonstrate.

As the pendulum vibrated a British fleet in the Delaware brought the war within hearing, and Lord Howe hove to off Sandy Hook with all his army.

The congress was, after all, a miniature of the country. It held a Tory party who awaited some disaster to become dangerous. It held faint hearts who croaked, despondent ones who predicted ruin and brave hearts that dared a struggle they believed would be uncertain.

On such a field for twenty-five long days a determined battle was fought. It ended at last, and one evening Thomas Jefferson of Virginia betook himself to a little house back of an oblong green, where lived Dr. Franklin, and wrote the first draft of the Declaration of Independence.

There comes a time in the history of every great movement when it must go forward or die. Lethargy breeds reaction. The fierce fight for a Declaration had marked this point now. In the three days since the vote the opposition had gathered its shattered forces. There were new mutterings, and the little Virginian delegation in the shop of Mr. James Randolph on High street knew that the defiance which was to be offered on the morrow, if it were to be signed at all, must be signed quickly.

So out of a humid morning grew the afternoon of the 3d of July for Philadelphia. It came in heat, with a brazen [illegible]

Opposite Mr. Randolph's shop on the same evening Joseph Galloway, the lawyer, walking slowly, paused and looked across the street. He was thickset and middle aged, with a smooth, crafty face and restless eyes.

He had lacked Whig patriotism in the First congress. The Second would have none of him. And yet he had earlier led the popular party against the proprietary. Such strange overturnings the new idea of freedom was bringing about. The fierce Tory rancor which had made of this man at first "the defender of the prerogative" was to convert him later into a spy, a refugee and a sour pensioner of George III.

Now, there was the open hatred of a bitter Tory in the look Joseph Galloway cast upon the little shop.

"Good day, Mordecai," he said in greeting to a rotund merchant Quaker who joined him. "I see you also looking. What think you our Virginia hot bloods will brew next in their den yonder?"

The Quaker frowned. "I love them not," he answered. "What saith the Scriptures? 'For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strongholds.'"

"Gentlemen of birth and wealth, forsooth," continued Galloway angrily, "and yet prating like the veriest clouts of independence and brotherhood! Whose was the bill to separate from Great Britain? Richard Henry Lee's. And who has written the Declaration that is to be thrust beneath the delegates' noses tomorrow? Thomas Jefferson. These Virginians! Would we had never heard of Virginia before we came to this!

"Look you"— He broke off and pointed with his stick where a coach bowled along High street. It was richly furnished and bore arms on its panels. On the cushions, exquisitely dressed in a white uniform, sat a blocky, military looking man with bushy wig and foreign mustachios. He wore a cocked hat.

"'Tis M. Pliarne," said the Quaker. "These French parasites with powder to peddle, Friend Joseph, would joy to see the colonies plunged into bloody strife. They would batten on our extremity, 'for wheresoever the carcass is, there the eagles be gathered together.'"

"French officers!" ejaculated Galloway. "Aye, or adventurers! As like to be one as another. Mayhap M. Pliarne goes to see the precious envoy whose newcoming the town gapes about."

"He is to be received?"

"Tomorrow afternoon. 'Tis an open secret. Notice was sent the house this morning."

"'Twas averred in the street but now that he is come from Louis XVI."

"Let them jabber!" grumbled Galloway. "Little store is to be set by these fine envoys. I mind me when the Frenchman came to the congress last November. You heard of that, mayhap. There was the same excitement; a committee appointed, too, I remember. John Jay was upon it. They met the personage in a room in Carpenter's hall, and what think you they found? Why, a little old frog eater with a clubfoot, who when they asked him for his authority drew his hand across his throat, and says he, 'Gentlemen, I shall take care of my head.' That was all they could get out of him. Some imbecile belike. And even then there were those who saw great signs in it. A pest on all such, say I!"

The Quaker shook his head doubtfully. "Yet there is much hoped for from this present message," he said. "I heard it on good authority some months ago that a French marquis was to come hither. 'Twas said Benjamin Franklin had written of the matter from London. Mayhap this is the same."

"Bosh!" sniffed Galloway. "'Tis absurd, I say, the faith that is put in such a vain and empty hope! I do know that half the delegates have some such folly in their heads. The Declaration is to be offered for signing tomorrow, and, look you, it is in the minds of some members to retard action upon it, hoping such a message from France may bolster faint hearts."

"Thou dost not think they will sign, then?"

"God forbid!" rejoined Galloway fervently. "I cannot believe we are so near madness as that. And yet I would that naught had been heard of a message from France. Methinks tomorrow will be warm. Good night to you, Mordecal."

To be continued.

Entertainment Held at Chemong

Big Time at Reserve Last Night —A Successful Event

A most successful tea and concert was that held by the Chemong band of Indians at the Chemong reserve last evening. It was their 40th annual entertainment and was largely attended, the council hall, where it was held, being crowded to the doors. Tea was served in the basement from five to eight o'clock, after which an enjoyable concert was given. The proceeds, which amounted to over $60, go towards the payment of the bell for the new church on the reserve.

The programme was a most interesting one. Hon. J. R. Stratton occupied the chair, and in a few well-chosen remarks, congratulated the Chemong Indians on the great success they had achieved in their entertainment. The programme was augmented by several Lakefield artists. The Lakefield orchestra was present, and rendered several selections, and the Misses Hunter, of Lakefield, also contributed. Others who were heard in vocal and instrumental numbers were Misses Whetung and Mr. Dan Whetung, jr. Short speeches were made by the chairman, Rev. Mr. Bedford, of Lakefield: Mr. John Belcher, and Mr. [illegible] Peterborough, and Mr. [illegible] Paudash, of the [illegible] band of Indians.

The new church is a handsome red brick structure and a credit to the reserve. The Indians feel very proud of it and have purchased a large bell, which will soon be placed in position.

Sunday School Teachers Institute

Most Interesting and Successful Session Held Yesterday

The evening session of the Presbyterian Teacher's Institute, held in St. Andrew's church yesterday, was most profitable and encouraging in every way. Although the roads outside the city were very bad, there were representatives from Lakefield, Keene, Warsaw and Monaghan. The city schools were well represented, some fifty being in attendance last night. The institute work is of a more practical character than the ordinary Sunday school convention, inasmuch as all are free at any time to take part by offering suggestions from actual teaching experience.

After devotional exercises the following topics were discussed,—

1. Memorization of Scripture and Catechism.
2. The attendance of scholars at the services of the church.
3. The value of the Home Department or Bible Study Extension.
4. The importance of the cradle roll department.
5. The value of the Teacher Training course.
6. The many encouragements in Sunday School work, make discouragements impossible.

These subjects were dealt with in a very lucid and helpful manner, by the Rev. S. C. Robertson, B. D., and the Rev. Alexander McGillivray, M. A., alternately. An opportunity was given at the close of each outline for discussion, so that there was not one dull moment.

At the conclusion of the conference, Rev. Dr. Torrance moved a resolution of thanks to the visitors. This was seconded by Mr. W. Fowler, and carried by a very hearty vote. The Rev. Messrs. Robertson, and McGillivray left this morning for Campbellford, where the third of the series of institutes will be held this afternoon and night.

Celebration to be Held at Havelock

The annual celebration of the 12th of July for East Peterborough, will be held at Havelock this year, and arrangements are already being made to make it a record breaker in point of attractiveness and attendance. Mr. J. A. Sexsmith, of Preneveau, is the chairman of the committee in charge the celebration, and Mr. R. J. Graham of Havelock, in the energetic secretary.

How He Worked The Chairmanship

Some Light on Mr. Stratton's Manoeuvring for Honor at the Banquet

To the Editor of the Review.

Sir,—Mr. Stratton attacks Mr. Kendry for not allowing Liberals and Conservatives to unite peacefully in honoring a departing citizen. The "uniting" which Mr. Stratton speaks of, consisted in his being planned for the chair and going into it accordingly. We do not deny his capabilities as a chairman or otherwise, but in the skeleton programme which he himself drew up, he had the chair left vacant and his own name left out of the list of speakers for what [illegible] he might be put [illegible] chair [illegible] or the motion of his brother-in-law. Then did Mr. Stratton put a Conservative into the vice-chair? He did not. He put one of his own supporters in it. Where were Kendry, Bradburn, and the other official representatives of that part on his list? They were put by him in the most ignominous positions possible at the tail end of everything. The only thing left for them was the position of waiters. If this is non-partizanship what is partizanship? However, the honored guest wants it that way, and he may have it, but without the attendance of those who feel that they were slighted and made the victims of the man who has ridden his own party without mercy and now wants to do the same with ours.

I say again, Mr. Stratton is a very able man, but that is one reason why he should show some consideration. He cannot be expected to efface ourselves, as he directs us to do. If he wished to give a farewell banquet off his own bat, he is welcome to do so, but he cannot run a citizens' banquet on the same narrow lines. Fair warning was given both at the time and before the meeting, but all opposition was overruled. Yours, etc.,

A POOR CONSERVATIVE.

HARRY ADAMS

Englishmen Warmly Welcomed At Conservative Club Rooms

Splendid Programme Was Rendered, Admirable Addressess Delivered and Jolly Time Spent by the Visitors—Event Was Most Pronounced Success.

It was "Englishmen's Night" at the Young Conservative Club rooms.

Every effort was made last evening by the members of this Club to give the representatives from the Old Land and their friends a good time.

The rooms were profusely decorated with flags and bunting. Everything was done up in real old English style.

The proceedings opened with a few words of welcome to the visitors by the chairman, Mr. Wm. Buller. Then followed the following excellent programme. Every number was admirably rendered and liberally applauded:—

Song—Mr. Chandler.
Reading—Mr. Gardner.
Banjo Solo—Mr. Clark.
Song—Mr. Denham.
Address—Mr. Kenner.
Banjo Solo—Mr. Clark.
Reading—Mr. Burnham.
Song—Mr. Coleman.
Address, "The Empire"—Rev. Dr. Crothers.
George street Quartette.

The addresses by Mr. H. R. H. Kenner and Rev. Dr. Crothers were impressive and inspiring.

Mr Kenner spoke on "The Beauties of Rural England." He gave a vivid description of the many things a school teacher has to contend with, every reference sparkling with humor. He told of the quiet attractiveness and varied picturesqueness of Old England. "Canadians think," said Mr Kenner, "that within the confines of their own country is gathered all the beauty in the world, but England has been dowered with beauty unsurpassed by any country. In closing Mr. Kenner expressed the hope that the Englishmen who have come to Canada would build up their careers on their resolves and not on their regrets.

Rev. Dr. Crothers delivered an eloquent and stirring address on "The British Empire." He enthused all those present, who demonstrated their appreciation of his remarks by hearty applause. The reverend gentleman thought every man should talk up his church, his own and country. The British Empire contained one-quarter of the population of the world, and one-fourth the area of the globe. The entire trade of the empire was equal to one-third of that of the world. Continuing, the speaker observed that Canada was a most important factor in the empire, which was the grandest that the world had ever seen.

There was not a sea that did not wash the shores of some British colony or dependency. Rome and Spain were once great empires, building themselves up by conquest. The reason England was progressing lay in the fact that she was building up on her own great freedom of speech and religion, and upon a model constitution, the best and most progressive, the most advanced and enlightened that was ever known.

The evening was brought to a close by three rousing cheers for the Mother Country and by the singing of the National Anthem.

The Young Conservative Club intend holding an Irishman's and a Scotchmen's night before the season is over.

The entertainment was a most pronounced success, and the Englishmen desire to return their thanks to the officers and members of the Young Conservative Club for the very jolly evening spent and the hearty reception accorded them. It was a night which the sons of the Mother Country will long remember.

Conmee Act no Longer Applies To the City of Peterborough

Old Fight Between the City and Power Companies Was Settled Yesterday—City Can go Into Power Business and in Opposltion to Existing Companies —Water Commissioners Will Handle Light and Gas Plant.

The greatest opposition to the city's bill was brought forth when Clause No. 4 was being considered. This clause gave the city authority to go into the power business free from the restrictions of the Conmee Act.

For years the Peterborough Light & Power Co., and other companies, have fought the city at every opportunity and have always been successful. This year, however, things were changed somewhat, and the city gained its point.

As usual Mr. R. M. Dennistoun, solicitor for the Peterborough Light & Power Co., and Mr. J. H. Larmonth, managing director, were present. Mr Dennistoun made a very strong speech against the clause and for some time he and the mayor argued the points in question. The members of the committee also took a hand in the discussion and the result was that the clause was carried. Mr. Dennistoun drew attention that there was no provision made for a vote of the people being taken, but the mayor readily accepted this proposal and the matter was settled. Afterwards a search of the general act revealed that it was necessary to take a vote of the people in such matters anyway. But the city council had no intention of doing otherwise.

This ends a long drawn-out contest between the power companies and the city and finally frees the city from any limitation of their right to go into business in competition with existing companies, or to buy out any or all of them.

At this juncture an important announcement was made by the mayor. In the event of the city buying out the plants of the Peterborough Light and Gas Company, it will be managed by the Water Commissioners. This is of great interest to the whole city as it is the first public statement made in connection with the management.

After the power clauses had all been passed a new clause was inserted in the bill at the request of the city, authorizing the water commissioners, who will manage the electric light and gas plants in the event of the city buying the business, to spend up to $10,000 a year in extensions to the poles, lines and lighting plant and to the gas mains and plant. This clause was also carried without opposition.

Deputation Home From Toronto Met With Great Success

City's Bill Passed With Very Few Changes—Great Interest in the Power Clauses—Many Citizens Present—T. E. Bradburn M. P. P. and Mayor Mc Williams Did Good Work.

The Peterborough deputation which was in Toronto yesterday looking after the private bill, returned last night, very well pleased with the result of the day's labors. As was stated in last night's Review the bill passed the committee with very few changes, and these, for the most part, were beneficial to the city.

The council very wisely took the precaution to send a small deputation to interview the chairman and members of the committee, and to confer with the law clerks of the department, last week. This resulted in the bill being carefully amended so that it was generally acceptable to the committee.

When the Private Bills' Committee met yesterday morning the Chamber looked more like a convention of Peterborough's industrial interests with the city council. There were between twenty-five and thirty of the city's leading citizens present, all interested in one or more of the clauses in the bill. But though there were many to talk, the chairman, Mr. I. B. Lucas, made all the speakers be brief, and the fifteen clauses were passed at the one session, which was very satisfactory to all concerned.

Mr T. E. Bradburn, M.P.P. spent a great deal of time during the past couple of weeks in the interests of the city's bill and to him is due a large portion of the credit for the success which it met at the hands of the committee. He interviewed the different members and engineered the proceedings from the start and was always on hand when needed.

His Worship Mayor McWilliams was spokesman for the city and he handled the task in a very creditable manner. He clearly pointed out the main features of the different clauses and he was also able to give promptly detailed information when requested to by any members of the committee, as well as to meet any opposition which was introduced. This fact assisted greatly in getting the business through so quickly and successfully.

The greatest interest was, of course, centred in the power clauses, as they embrace new features in the history of Peterborough and to carry out, require the expenditure of several hundred thousands of dollars.

Clause two of the bill gave the city authority to purchase the electric light and gas plants of the Peterborough Light & Power Co.

Mr. James Kendry and Mr. John Carnegie were present representing the Auburn Power Co. and requested that they be placed in the same position as the Peterborough Co. This was acceptable to the city, and the clause was enlarged to read: "To purchase the Peterborough Light & Power Co., and any other company." Mr. Kendry then made a very strong speech in favor of the city's bill.

The danger of the city council or city spending an extravagant amount in purchasing the said business was guarded against by providing that the council must submit its bargain to the people and also to the Hydro-Electric Power Commission.

The next clause gave the city authority to develop, use sell or lease electric power necessary to run the electric light plant in the event of it being purchased. This went through without opposition.

Clause seven merely cleared away any legal objection there might be to the city building granolithic crossings and paying for them by debentures. The Board of Works will proceed at once to get plans ready for this work.

Clauses 8 to 11 embodied the requests of the water commissioners and were explained by Mr. W. H. Moore. The mayor took the stand that the city council was prepared to back up the request. Mr. G. W. Hatton and ex-Mayor Best were present to oppose it. Mr. Hatton addressed the committee and the clause was amended so that the commissioners will have to get the sanction of the people first.

Clause twelve confirmed all the local improvement bylaws and the bylaws passed at the last general election.

Clauses 14 and 15 provided fixed assessments for the Rapid Tool Co. and J. J. Turner & Sons.

Plan of Hall at Grand Opera House.

They Obstructed the Sidewalk

Business Firms Fined for Leaving Goods on Pavement

Before Police Magistrate Dumble this morning, [illegible] Soden, Wm. Loch & Sons, and another well known George street firm, were fined each two dollars for obstructing the sidewalk with their goods, contrary to by-law No. 1,164.

Mr John Green appeared for Mr. Soden.

Chief Roszel and P. C. Newhall both swore that they had warned Mr. Soden several times about having his small delivery waggon left on the sidewalk. They had seen it there many a time after he had been warned. Mr Green said that Mr. Soden had told the parcel boy never to leave it on the walk. The day before yesterday the lad was in a hurry and forgot to bring the vehicle in and that was the instance referred to in the subpoena.

Mr. Loch, who was the second of the offenders to be heard, said the packing cases were always brought in at the back door, but this time they were too large to get in that door. To prevent injury to the goods owing to there being a lot of water at the back door, they opened them at the front one. The carter did not bring them until the afternoon. As they were in a hurry for the goods they took them in at the front door.

Another George street firm said they had no back door, and as the goods did not arrive before twelve, they could not open them before that hour.

The Magistrate said he was going to see that the by-law was enforced. The walk should not be obstructed. He would fine the defendants each two dollars to be paid in ten days.

THE BY-LAW.

Chief Roszel is desirous of every merchant understanding the by-law, and in order that they may the Review publishes it. Here it is:

By-law No. 1,164 passed the 19th day of June, 1905, by the corporation of the town of Peterborough, by the Council thereof:—

No person shall place or expose any goods, wares or merchandise or articles of any kind upon or over any street or sidewalk in the town of Peterborough, or place, hang or put up any goods, wares or merchandise or articles of any kind, outside of any building so that the same shall project over any portion of a street or sidewalk in the said town; nor shall any person open or allow his employees to open, on any street or sidewalk in the said town, any box, bale, crate, or other package of wares, merchandise, or other goods or articles or place, or allow to be placed, or to remain on any street or sidewalk in the said town, any box, bale, crate, case or package of any kind; but this provision shall not be construed to interfere with any person using a portion of such street or sidewalk opposite his premises before the hour of twelve o'clock in the forenoon of any week day other than Saturday for opening, emptying or taking in the boxes, bales, crates, cases or other packages in which merchandise or other goods have been sent to him.

HENRY BEST,
Mayor.
S. R. ARMSTRONG,
Clerk.

FORESTERS, ATTENTION!

There will be a meeting of St. Peter's Court, Catholic Order of Foresters, this evening at eight o'clock, in their hall, Hunter street to make arrangements for attending the funeral of the late Michael O'Donnell.

Stoney Lake and Norwood	200.00
141.	
Total	$2300.00

Another Paper in Saskatchewan

Ruddell News Launched up its Career—A Bright Little Sheet.

A copy of The Ruddell News, of Ruddell, Sask., has been received by the Review through Mr. W. H. Isaac. The Ruddell News is a new publication, just three weeks old. It is a four page paper and the pages are only about 12 inches by 8 inches and printed on a small gordon press. It is a bright newsy sheet, and promises to grow rapidly. The News was sent to Mr. Isaac by his son, Mr. E. A. Isaac, of Winnipeg, traveller for Marshall, Well Co., dealers in heavy hardware.

GEORGE ST. CHURCH

Greater interest than ever is attending the meetings in George-st. The singing last evening was particularly attractive.

The Torrie-Alexander hymns are used. Dr. Crothers spoke from 1st John, 1-4, "That your joy may be full." Rev. H. M. Manning and Rev. J. G. Lewis will assist next week. All are welcome.

Leading Many to Salvation

Revival Services at Park Street Church are Bearing Good Fruit.

And still the people come in crowds to the Park street Baptist church revival and still they respond in large numbers to the appeals to accept salvation. Mr. Torrie's is the Gospel testimony with no uncertain sound by the strong meat of doctrinal truth served up each night and you could imagine him an old veteran. He seems to have had the experience of a long life in dealing with the things of God and leading men to Salvation. The success of the first week seems to give promise of a marvellous wind-up to the revival. The address last night was based upon the words of St John 10—28; "I give unto My sheep eternal life and they shall never perish." How do I know that I am saved? Because God has said so. The Eternal God has given a promise and confirmed it by an oath. How do I know Christ was born? How do I know Christ was crucified? By the testimony of God's word, even so I know I have eternal life.—John 3—36—He that believeth on the Son hath everlasting life." John 5.—"He that heareth my word and believeth in Him that sent me, hath everlasting life.' You cannot know you have eternal life by feelings, but you feel as the result of possessing eternal life—"He that hath the Son hath life; he that hath not the Son of God hath not life."

A service for boys and girls at 4.20 this afternoon. Subject, "Why is a Boy Like an Oyster." Gospel service tonight at 8 p.m. Prayer meting at 7.30. Song service at 7.45.

PILES CURED IN 6 to 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles, in 6 to 14 days, or money refunded. 50c.

"THE DAYLIGHT STORE"

The Spring Overcoat

Because a man can go without a Spring Overcoat at a pinch, sweltering in his winter overcoat or shivering without any over-garment at all through the weeks that span the interval from real winter to real summer, this garment has become a sort of badge of prosperity.

THE COAT

that has the most admirers this season is the Three-quarter Length Overcoat in Black or Oxford Gray. The long Swagger Raincoats in Coverts and Thibets, and the swellest of the swell Coats, the Paddock, with long handsome Skirts in Plain Gray and Black Thibets.

Black Vicuna, Three-quarter Length, at $13.00
Gray Thibet, Three-quarter Length, at $15.00
Covert Rain Coats, long swagger, at $10 and $12
Vicuna and Covert, in Paddock style, $16, $18 & $25

Our Coats have hand-padded shoulders, hand-made collars, with the best of hair cloth fronts. Some are handsomely silk lined and very luxurious garments.

We don't know where better Spring Overcoats than ours can be found. They're simply perfection.

Greenbank and Mr. William Spence of this village, attended the funeral of the late William G. Spence, of Peterborough, on Tuesday......Mr. and Mrs. Herbert Johnston and daughter, Miss Fern, of Peterborough, also Mrs. Robins, of Claremont, are visiting at the home of Mrs. A. Sloane......Mrs. Finlay, wife of Mr. John Finlay, M. P., had the misfortune to fracture her wrist the other day. She went down cellar to attend to the furnace and fell over some obstacle......Mr. and Mrs. Mason of Peterborough, were the guests of Mr. and Mrs. J. L. Squire, over Sunday.

THE CITY AND VICINITY

EVENTS TO-NIGHT

Y.M.C.A. Hall—Meeting to organize cricket club.

Evangelistic services at Park-st. church and George street Methodist church.

BOARD OF TRADE

The annual meeting of the Peterborough Board of Trade will be held on Tuesday evening, March 26th, in the City Council Chamber. Reports will be presented and officers elected for the year.

REV DR MARSH TO LECTURE

Rev Dr. Marsh, of Springville, will give a lecture in the town hall at Millbrook on Tuesday evening, March 26th. Lime light views of the different heavenly bodies will also be shown.

FRATERNAL VISIT.

Several members from Court Zion Canadian Order of Foresters, Otonabee, will pay a fraternal visit to Court Peterborough C. O. F. at their regular meeting which will be held this evening.

MEETING POSTPONED.

The meeting of the Ladies' Literary Society of St. Peter's T.A.S. is postponed until Friday evening, March 22nd.

COMING IN RAPIDLY.

Subscriptions are coming in rapidly for the proposed new Roman Catholic church in the south end of the city. The sum realized so far is $3,170.

A HEAVY TEAM.

Mr. Jacobs, the well-known horse buyer of Montreal, last week, purchased from Mr. Michael Crowley of Otonabee, a horse weighing 1830 lbs. The horse was shipped to Montreal on Friday.

THE LAST "POP"

Saturday night's entertainment will close the "Pops" at the Y.M.C.A. for this season. Mr F. D. Kerr will give his interesting travel talk on "Seeing England, Ireland, and Scotland." It will be illustrated by beautiful stereopticon views. Mr Richard Lees, M.A., will preside. Music will be provided by Misses Belleghem and Clarry, and Mr. Duncan Campbell. Everybody should attend the last "Pop" of the season.

LENTEN SERVICE.

Rev. William Major of All Saints' church will conduct the Friday evening Lenten service in St. Luke's church this evening.

SEATS SELLING WELL.

The plan for the St. Patrick's Day concert on Monday night opened at the Grand Opera House this morning. The seats are selling rapidly and a crowded house is assured.

PRIZES OFFERED.

A shooting match, open to the County of Peterborough, will be held at the Old Rifle Range, Lakefield, on Good Friday, March 29th, commencing at 10 a.m. when prizes will be offered for competition.

CONSERVATIVE CANDIDATE

Mr. Thos. W. Thompson, the Conservative candidate for Birtle in the recent Manitoba provinical elections, is a brother of Mrs. C. E. Sheriff, of Port Hope. Mr Thompson was defeated by Mr. C. J. Mickle, a former minister in the Greenway government.

FORESTERS ATTENTION!

There will be a meeting of St. Peter's Court Catholic Order of Foresters, this evening at eight o'clock in their hall, Hunter street, to make arrangements for attending the funeral of the late Mich. O'Donnell.

ST. PATRICK'S DAY.

The members of Division No. 1, Ancient Order of Hibernians, will receive communion in a body at 8 o'clock mass in St. Peter's Cathedral on Sunday morning. In the evening the annual St. Patrick's day sermon will be preached in the Cathedral by Rev. Father Fitzpatrick of Ennismore.

A.O.F. SPECIAL MEETING.

A special meeting of Court Stanley, No. 7680, A.O.F., will be held in the S.O.E. Hall to-morrow (Saturday) night, at 8 o'clock, to make arrangements for attending the funeral of our late brother, Richard Foster, on Sunday afternoon at 3 o'clock. T. Hendry, O.R. Peterborough, March 15th, 1907.

BANK IMPROVEMENTS.

The handsome interior fittings of the enlarged Bank of Commerce premises are now in place and present a most attractive appearance. The floor is of tile and the ensemble effect of the bank's quarters is a pleasing revelation to the many customers and friends of the institution.

A NASTY CUT.

Mrs. O'Brien, who recently moved from Ashburnham to Sherbrooke street, while handling an axe yesterday, met with a painful acident. The axe caught in a clothes line, and the blade, in descending, inflicted a scalp wound, which required several stitches to close.

NEW PARSONAGE.

The new Methodist parsonage for the Stirling circuit is now completed and the pastor and his family moved into it last week. It is a handsome and commodious building, constructed with cement blocks, two stories, with basement and attic, and fitted with all modern conveniences. Stirling circuit can now boast of as good a parsonage as any in the bounds of the Bay of Quinte Conference.

PAT AT THE TELEPHONE.

Patrick, lately over from the land of the shamrock, was working in the yards of a railroad. One day he happened to be in the yard office, when the force was out. The old telephone rang very vigorously several times, and at last he decided that it ought to be answered. He walked over to the instrument, took down the receiver and put his mouth to the transmitter, just as he had seen others do. "Hello!" he called. "Hello!" answered the voice at the other end of the line. "Is this eight-six-one-five-nine?" "Aw, g'wan! Phwat d'ye think Oi am—a box car!"

AN EXHIBITION WORTH SEEING

To-night's Game is Cancelled

Lindsay Midgets are Not Coming to Peterborough to Meet the Strathconas

The Lindsay Midget—Strathcona game which was to have been played at Brock street rink tonight has been called off. The Midgets sent word last night that they would be unable to come as they could not get a team together and there was nothing left to do but cancel the match. This will be a keen disappointment to the local fans, who were looking forward to a fine contest. The Midgets played in Whitby last night and as a result several of their men could not get away for tonight's game also. Apparently the Midgets have had enough hockey to do them this season.

They Broke Even on the Round

Another Drawn Game Between Examiner and Lindsay Post

The Examiner hockey team went to Lindsay last night and played a return game with the Post septette. The match resulted in a draw, 4—4, after an excellnet exhibition of the great winter game. Various kinds of hockey was dished up, and the 200 spectators certainly got their money's worth. The Examiner led 4—3 with only two minutes to play, but the Posters managed to get one on "Uncle Josh," before time was called.

The teams were,—

Examiner		Post
	Goal	
Craig		"Frenchy" Bergenau
	Point	
Clarke		McDonald
	Cover	
Glover		Johnson
	Rover	
Hutchison		"Nannie" Nesbitt
	Centre.	
Robinson		"Pike" Irwin
	R. Wi[illegible]	
Huston		"Slats" Reilly
	[illegible]	
Theobald		"Rats" [illegible]

After the game the visiting team was entertained at a banquet at the Royal Hotel, where a delightful time was spent. Nothing was too good for the visitors and they are loud in their praises of the way they were treated by the Lindsay boys.

So successful has been the intertown press matches that they are likely to become an annual fixture.

HOCKEY

WAS CALLED OFF.

The game of hockey between the office staff and mill teams of the Quaker Oats Co. did not take place last night as announced. It had to be called off owing to their being no ice at the Brock Street Rink.

Plan of Hall for St. Patrick's Celebration opens Friday, March 15th.

Three Degrees Were Conferred

Oddfellows Had Interesting Meeting Last Night

At a joint meeting of Peterborough and Otonabee Lodges, I.O.O.F., last night the first, second and third degrees were conferred on a number of candidates. About a hundred were in attendance at Oddfellows' hall, those present including Oddfellows from Lakefield, Pontypool and several other lodges in the district. After the degree work was conferred and the business part of the evening over refreshments were served and a jolly social time spent. The presence of the visiting Oddfellows added to the interest. They were given a warm welcome.

A gentleman who was present last night discovered after leaving the hall that he had another man's hat, while somebody else must have his. Gentleman No. 1 will be at the Oddfellows' hall to-night between eight and nine o'clock and will be pleased to exchange headgear with the man who has his hat.

Students Will be Greatly Helped

New Feature Introduced at Peterborough Business College

The students at the Peterborough Business College were treated to something out of the ordinary yesterday afternoon, when Mr. D. W. Dumble gave an interesting talk on some of the legal points that arise in connection with commercial work. He pointed out the necessity of the business man knowing something about the workings of the law, especially in its relation towards matters that arise in connection with commercial life. Mr. Dumble was listened to by a class of about 100 students, who were greatly pleased with and benefitted by the information imparted. At the conclusion of the address, a heart vote of thanks, moved by Mr. Ronald McKee, and seconded by Mr. Melville McCarroll, was tendered Mr. Dumble for his very helpful talk.

It is the intention of Principal Pringle to make addresses along these lines a feature of the Business College course, and that they will prove exceedingly beneficial does not need to be emphasized. Mr. Dumble has expressed his willingness to address the students again in the near future.

Old Fair Grounds Have Been Sold

Planing Mill Will be Erected on the Grounds

Mr. Thos Darcy has sold the rink property and the old agricultural grounds to Messrs. Baptie and Kilbourn. The sale was completed on Tuesday last and it is reported that the price paid was a good one. Rumor has it that the purchasers are considering the erection of a planing mill on the property, and there is no doubt if they go ahead with the undertaking that the new firm will secure a goodly portion of the large amount of work offering in this line. —Lakefield News.

Farmers Picnic for Idyl Wild

Arrangements on Foot to Hold it in June—Otonabee Navigation Co.

Arrangements have been about completed for a big farmers' excursion and picnic to Idyl Wyld early in June. Steamers will leave all points on Rice Lake (including Hastings and Trent Bridge on the river Trent) and Otonabee river, for the picnic grounds, returning in the evneing. The new steamer will handle this end of the business, leaving Peterborough about 8.30 a.m. A number of good speakers will be invited to attend, who will deliver short addresses at Idyl Wyld. First-class music will be provided for dancing.

Another Train on This Division

Will be Placed in Service on C. P. R. by May 1st.

The Review was informed to-day that commencing May 1st, the C.P.R. will place an extra train on the Havelock-Toronto division of their line. The train will leave Havelock early in the afternoon and will likely pass through Peterborough about on o'clock. This will enable Peterborough people who are going to Toronto to reach the city comparatively early in the afternoon and to shop or transact other business before the stores and offices are closed. At present the train which passes through Peterborough at 5.10 p.m., in the evening does not reach Toronto in time to permit the transaction of any business. When the new train is placed on the road this will be changed.

Returning the train will leave Toronto in the morning probably about eight o'clock. The exact time has not yet been given out.

The new train will prove a great convenience to the people of Peterborough, many of whom have occasion to visit Toronto quite frequently. It will be a big improvement over existing conditions where there are only two trains each way per day.

DON'T GIVE IT ALL TO THE LANDLORD

If you will take our advice—which will be free—you will learn how the rent you're now paying will make you a house owner within a few years. No use in printing the details here—call around and get fullest information.

Brick House, [illegible] A bargain at $2,250.

Peterboro' Lady Tells of Her Work in Far Off Land of China

Miss M. Quinn Speaks of its Progress and the Many Difficulties That are Being Overcome--Greatly Enjoyed Her Recent Furlough--Awful Famine Raging in in Two Provinces--The Boys' School at Wia Chang—Battling With the Cigarette and Other Evils

The many friends of Miss M. Quinn, formerly of the Barnardo Home in this city will ready with interest. the following letter telling of the progress of her work in Wuchang. China. She refers at some length to her recent furlough in Canada, which she greatly enjoyed. It will be remembered that Miss Quinn visited Peterborough some months ago and delivered several stirring addresses here where she is well known and highly respected for her consecrated spirit and deep interest in her work.—

Wuchang, China, Feb. 7, 1907.

My Dear Friends,—It is now nearly two years since I addressed a letter to you. Since last writing you I have had the great joy of seeing nearly every one of you and personally telling you of the work so dear to me in China. I have been refreshed in body and spirit as I have gone about amongst you and felt your warm love and sympathy, breathed the sweet, pure air of my native land and partaken of its delicious fruits and products. What a climate you have to enjoy, and what comforts and blessings. I praise God for every day of my furlough, I enjoyed every minute of it, but I am just as glad to be back again in my beloved China. But, oh! the difference! I am sure my pen cannot begin to convey to you the awful contrast there is between a sin-cursed land like China, and a land on which God's blessing seems to rest, like yours. Here we have poverty, sin and dirt. You often asked me at home, if the Chinese were very dirty, and somehow I could not seem to recall them as very dirty, but since I have come back, and especially in Wuchang, I think I would say they were filthy. I suppose I have to become accustomed again to the foul smells and sights, but of course, there are some rather cleaner than others, and some of our Christians are real cleanly, but I do not wonder you cannot fully realize the great need there is for the gospel here. Such multitudes of people, and such a fight for existence that most of them have! Oh, that the Spirit of God would reveal these things to the Christians at home.

HER JOURNEYINGS.

And now I will go back a few months and take you with me again on my journeys. It has always been a pleasure to share all my sorrows and joys and labors with you, and so I will just continue in the same way. Some of you know already how blessedly the Lord set His seal to my going forth by so fully providing for my travelling expenses just a few days before I had planned to start, from an entirely unthought of source. It gave me fresh courage to know that He was leading so clearly, although I had no doubt of this before. The call from the field was clear and urgent; laborers were few; dear fellow-workers were breaking down. Miss Young had to come home for her well-earned rest; so, although the claims at home were also very hard to set aside, yet there was no controversy in my mind as to the Lord's will in the matter. Having "put my hand to the plow," I must not "look back." so tenderly committing my beloved parents, now growing old and feeble to the One who who has promised to give a hundred-fold to those who give up sons and daughters for His sake and the gospel's, and believing that somehow when the need comes he will provide loving hands to care for them, we tearfully bid them farewell, fully realizing that we may never look into their loved faces again, until Jesus comes, or we go to Him. It is equally hard for them, as they have seen the marks of life in China on us, they too feel, whether with ground or not, that there is not much prospect in the nature of ever welcoming their loved one home again. But God sustains and gives grace and victory, and the parting so much dreaded is over, and once more our faces are turned eastward and we are travelling as fast as trains and steamers can carry us towards the land of our adoption. For the first three or four days our journey is made pleasant by meeting with relatives along the route who cheer us on. We spend a very delightful few days in Sault Ste. Marie and receive great kindness there from friends, and others who had been strangers. It certainly helped much to relieve the strain of leaving home, and we will never forget our delightful visit in the Sault.

A CLOSE CONNECTION.

On leaving there a night's journey brings us to St. Paul's. Here again we praise the Lord for very specially answering prayer, and making it possible for us to make connection with the train on which it had been arranged for us to travel, as, on leaving the Sault, we were three hours behind time. We made up an hour and five minutes on the road and so had just five minutes to exchange baggage checks and get on the train that was to carry us to Seattle, and which stood in another part of the depot. We could not possibly have done it, had not the two friends who were to travel with us, been waiting for us, along with a lady friend, who lived in St. Paul, and who had everything in readiness. As it was, it was the closest connection I ever made. We found ourselves most comfortably situated on this train. I was joined here by two of our missionaries, Mr. Hinkey, returning to South China, and Mr. Van Dyck, a young man coming out to Central China for the first time. They are good singers, and very sunshiny in their dispositions, so all along the way, they did much to make the trip pleasant and enjoyable. Besides there was a young man, Mr. Walter, going out to Japan, in connection with the Y. M. C. A. The young men soon made his acquaintance, and we all enjoyed his fellowship very much. A motherly lady, Mrs. Williams, on her way to the coast, and a friend whom I had travelled with before from Shanghai to Japan, a son of a missionary made up our little party, and I doubt if a happier lot of travellers ever crossed the continent! Morning and evening, through the courtesy of the porter, we were given the use of the drawing room for our Bible study and prayers.

Some of our favorite choruses were

"Singing I go along life's road,
Praising the Lord, praising the Lord!
Singing I go along life's road,
For Jesus has lifted my load."

"Grace, fathomless as the sea,
Grace flowing from Calvary,
Grace, enough for eternity,
Grace, enough for me!"

How blessed to travel in the will of God! How everything seems to combine for one's comfort and enjoyment! We met many people who found things just the opposite, everything seemed to combine for their discomfort and annoyance. It makes all the difference in the world when you take Jesus with you, or rather, when you go along with Him. Along the way we were reminded of God's loving care over us. Once, we passed the remains of a wrecked train which delayed us a few hours, and once our own train was badly wrecked. The engine and front cars ploughed the ground in a fearful manner, but the cars we were in only felt a heavy jar. The accident occurred at a station where there was a round house, and so only entailed a few hours delay, as they made up another train and connected our cars to it, but the two accidents made us several hours behind in reaching Seattle, so that we arrived there on Sunday morning, instead of Saturday evening. Again kind friends met us and entertained us, and again we had the privilege of interesting warm Christian friends in our work. Monday we spent in looking after our baggage, which had all arrived safely, shopping and writing letters, and in the evening we went on board our good ship the "Kagu Maru," accompanied by our new friends. We are much pleased with our new quarters, and the prospects are bright for a good voyage, and these prospects were fulfilled in our experience. Next day we arrived at Victoria and had time to run into the city, write some cards, and see some of the beauties of the place, before we were off for good.

ACROSS THE OCEAN.

Our trip across the sea, although we had some quite bad weather was a comfortable one. For the first [illegible] joyed the voyage. We had not many European passengers, and [illegible] we had were agreeable and friendly. None of our party were seasick, and so we rode over the waves and watched the noble vessel dip into the sea, with great zest and pleasure. We spent several hours, altogether in the different ports of Japan, as we had much freight to unload. Here we were fortunate enough to miss a cyclone that was raging along the coast. I had spent a good deal of time in Japan before, but it is a country, full of interest, and we take in the sights with as much delight as we did the first time we came out. It really is a lovely country and I wish you all could see it. We sailed from Seattle Oct. 2nd, and arrived at Shanghai, on October 30th. It was raining and sloppy, and we know we are in China again! Once more we are met and welcomed by kind friends. Miss Funk, who met us on our first arrival in China, meets us again, and Miss Fradd, a new missionary from America, who came by way of England, and had just arrived two days before, so after two days in Shanghai, we continue our way to Wuhu together by Japanese steamer again. We travel Chinese fare, and we feel we have begun to face the realities of life in the mission field. Mr. Hinkey left us at Shanghai for Hongkong.

A PECULIAR EXPERIENCE.

All the way along I had a peculiar experience. The Lord would not seem to let me think of my dear friends behind, nor could I make a single plan for the future. Naturally I tried to think of the work which I soon hoped to take up, and I often wondered why I could not do so. On arriving at Shanghai I learned why, for there I received letters telling me of the appointments that had been made the previous month at the conference. Our chairman, Rev. Dr. Glover, who had been trying to do the work of three people, had broken down under it, and the conference felt that he must have help or we might lose him altogether, and as I had had the Boys' Boarding School before going home, and could enter into the work, and also because I could assist with the clerical work, I was the one chosen to help out. I think if I had had a cablegram to return home, I could not have been more astonished. I had been counting the days till I should be with my own dear people again in Wanchi. In imagination I had seen them waiting on the river bank to welcome me home. I knew they needed me; but other arrangements had been made for them. Miss Jones of Nanling had, at great sacrifice on the part of the workers there, been transferred, and she with Miss Lindberg, a young worker had already gone to Wanchi. There was no opportunity even if we wanted to, to do anything else but acquiesce with the arrangements already made, so the Lord gave the grace to do this without rebelling against what is evidently His will for me and for the work. Of course, I had to go to Wanchi to get my things and see the people. God blessed this visit very much. Some of the dear Christians came to Wuhu for me, others met me on the way, and still more were waiting with the sisters in charge, on the bank, just as I had pictured so often. God had graciously kept the larger proportion of our flock during our absence, and I could see how they had grown in the Lord, but some had stumbled and fallen, and one was altogether cut off from church fellowship.

ENEMY AT WORK.

The enemy was trying hard to destroy the testimony of some of our brightest Christians, and had partly succeeded in his efforts. Dear Joseph, the comfort of our hearts, was one who had fallen. He was overcome in an hour of weakness and failed. I cannot tell you the particulars; but if you knew you might marvel that more of our Christians do not fail, and you would pray more earnestly for those who are exposed to the evil influences about them. He had not tried to cover his sin, but had at once come to the chapel, and with tears and groans distressing to witness, had confessed his sin and sought forgiveness, without any one informing on him. However, the change of workers, and a misunderstanding followed, which caused an estrangement, and because he was not free and open and stayed away a good deal, suspicion followed naturally, and when I arrived it was thought that he had not confessed all his sins, but was covering up things. He opened his heart to me as he could not to strangers, and after a few days' earnest investigation, we found the true state of things, all suspicion cleared away, and Joseph was restored, and I believe, saved, for he was drifting away.

He came down to Wuhu and it was good to see his face so bright and happy again, and to hear him praising the Lord for forgiving him. I knew then why I felt so strongly led to leave for China when I did; The Lord sent me a long way to meet the crisis in this dear brother's life. Joseph has certainly been passing through the fire. Through his younger brother's profligacy he lost much of his hard earned money in the early part of the year; then in the autumn a number of his customers took a moonlight flit and left him a heavy loser, as they did not pay their year's indebtedness. He had a lot of honey, which he hoped to make money of, and thus help his family out. He sold it all right, and then foolishly gave the proceeds to bind a job which he took of trucking in Wuhu. This was since I left Wanchi. He found he could not make anything out of this job, and left it on the promise of getting his money returned, but unfortunately the man who had the money was a rogue. He left the place and has since died, and Joseph is without the money. Pray for him. He is so honest himself he is easily imposed on by others, and he is not wise for the things of this world. I tell you particularly about him, because I spoke of him often at home, and some of you are interested in him.

A PEACEFUL DEATH.

Then you remember Pan, the barber, and converted opium smoker, the man who after giving up his opium, lived in half of an opium den, and who took the stand of keeping Sunday in the face of such strong temptation. For some time he had been giving us anxiety. He got restless and wanted to leave his regular business and do something else. For a time he worked as a colporteur, but when I arrived in Wuhu he was ill with malaria and unable to work. I felt the Lord wanted him to go back to Wanchi and take up his old vocation, so I labored earnestly with him to this end. He felt he would "lose face" by going back, but after a time he yielded, and decided to go back to his barbering, and went to Wanchi with this intention. However, his illness increased and all felt he would die. Earnest prayer was made for him, but God did not seem to answer; we had to find out why. The day before his death he asked two of the church members to listen to his confession, and then he told how some months ago he had committed sin, and had even secretly taken opium. He knew he was wrong, and that he ought not to have partaken of the Lord's Supper in this condition, that he had not the courage to tell, but that he felt he must ask forgiveness before he died. It was a great shock and surprise to all, but after his confession God's peace filled his heart, and next day he went home. We truly believe to be with Jesus, safe in His arms for ever more. His fight against his sin is over, and while he may have lost his reward, yet it is something to know that another precious soul is amongst the redeemed to sing the praises of our Lord Jesus Christ throughout the eternal ages.

A STIRRING STORY.

His story stirred some of you as I told it at home, and I feel I must be true and tell you the sequel, although it breaks my heart to lift even for this brief glimpse the curtain which is dropped, and brings to light the sin, which the Lord says is under the blood, and washed "whiter than the snow." He asked to be buried beside Li, the shoemaker, his friend whom he had led to Christ, and who also had failed, repented and died during the summer. Ho, our coolie, who had nursed them, men like a mother when they were giving up their opium, and who looked after them better than the pastor afterwards, wrote me regarding Pan Lao-pan: "His face looked as though he was peacefully sleeping and happy. Please do not grieve over his death. We know he is with Jesus." And so I wipe my tears away, and believe, that somehow it will all work out for the glory of God. One effect has already followed, and that is of putting a fear on others of "unworthily partaking" of the Lord's Supper, ("For from this cause many among you are weak and sickly and not a few sleep (die.") Oh, my friends, we know nothing of temptation compared with what our people have to contend against here, with their strong natural evil tendencies so judge them lightly, and try and put yourselves in their places when you hear of their failures and their sins.

WORK AT WANCHI.

However, I have got ahead of my story, and I could tell you of some who have stood nobly amid fierce trials, and are doing well, but it would make my letter too long this time. I was so busy the few days I was in Wanchi, that I could hardly take in the beautiful little home and church the Lord has provided there, but I thought of some of your loving gifts and wished you could see for yourselves this precious life-saving station in that heathen town. The work is growing and being blessed in spite of the heavy odds against them. A little out-station has been opened in Fang-tsuen, a village about six miles away, and the market for a country-side that I often spoke of. Until recently we could scarcely find a place to sit down to preach, and now we have rented a house. We are all very happy about it. The Christians in Wanchi are bearing the expense themselves, and their Christmas offering, a noble one, one, went for that purpose.

How eagerly the dear Christians listened as I told of God's goodness to me in the home land and the many kind friends who helped by prayer and gift to send them the Gospel You were interested in hearing about them, and they are just as interested in hearing about you It seems to encourage them so much to hear of your love and sympathy They wanted to know all about my home and I satisfied them as far as I could; they had prayed earnestly for the way to open for me to return so they had a special right to be interested.

WAY TO WUCHANG.

But the "good-byes" must be said once more and [illegible] way to Wuchang, and a different place altogether from our quiet country town. I will write again about this city and its conditions, etc. On arriving here we are met by our dear boys, now almost grown into men, and soon we feel at home. We are delighted with the progress they have made in every way. The Lord has met the needs for the school and their needs, and before many years several of them will be able to help us in our work. One of them will help us in Chinese study next year, and will take several classes in the day school, whilst continuing his own course, so that already we are beginning to reap the harvest. All the time I have been home, they themselves have kept up the Saturday evening prayer meeting. We join them and listen with deep interest to their manly and well expressed prayers. A testimony meeting reveals their standing in grace, which is satisfactory indeed. A look at the record of examinations and at their work shows that they are not behind in their studies. Mr. Ki, the teacher, tells with thankfulness that he does not think there is a deceitful boy in the school and Dr. Glover tells me what a comfort and blessing they are to him and the church. When I arrive, through important business Dr. Glover and Mr. Ki are both away but the boys continue their work just as if a teacher was with them We hope much from this school, in fact I could not reconcile myself to devoting myself to this work, did I not believe we will multiply our lives many times in theirs

The boys are now home for New Year's holidays and we are hoping to have more added to their number next year. We can only accommodate twenty-five altogether in our present quarters, but as the Lord provides, we hope soon to commence building. We believe that this is His will for us and that He will surely meet this need. Yesterday I heard that a Cigarette Co., is going to open an enterprise in Hankow, which would require an output of $145,000.00. They will employ 3,000 laborers and put out from three to five millions cigarettes a day. Think of it! Millions to destroy the boys of China, but unite to save them May the Lord have mercy on us and forgive us our sins. But, to return to the boys' school. I must tell you that three of the boys who caused me most anxiety and prayer before I went home, are now apparently truly converted and are promising youths. I am sure you will continue to pray for this work and help it too, as the Lord lays its needs upon you. This school is not an experiment any longer, but an established factor in our work, and there is no part of our work more full of promise for the future. It is more expensive living here than in Wanchi and building costs more also, as there are so many buildings going up all over the city.

AN AWFUL FAMINE.

I have not told you about the awful famine raging in An-hui and Kiang-su provinces, where more people are starving than there are in Canada altogether. But I must stop. If I have been a long time in writing, I trust the length of this epistle will make up for my apparent neglect. You will understand the the change of circumstances and other things made it difficult to write sooner. If my Canadian friends address my letters care of C.M.A., Hankow, they will reach me at British P. O. there, but this does not apply to the United States nor to Wuchang. Kindly be careful to prepay letters fully. I have had to pay as much as 30c. at different times on one letter, and that makes correspondence rather to be dreaded than enjoyed. Several friends have asked about sending money, and for their benefit I might say that money orders can be bought for Hankow, in Canada, and drafts on the bank bought at any bank at home payable at Shanghai.

This letter will find you well on in the New Year. May it be a fruitful, happy one in His service. Let us work together for this, and trust Him to have His own way in each of our lives, then when we meet again, whether in the flesh, or in His presence, we shall have His smile and approval, and hear His, "Well done, good and faithful servant, enter into the joy of your Lord!"

With tender memories and Christian love to you all, I am,
Yours in His service,
M. QUINN.

C.P.R. uses "Royal Crown" Witch-Hazel Toilet Soap (Individual Size)

At the Chateau Frontenac—at Place Viger Hotel, Montreal—at Banff—Royal Alexandra, Winnipeg—on their Pullmans and ocean liners—guests and passengers are provided with "Royal Crown" Witch-Hazel.

F. C. CUBITT, PROPRIETOR,
W. A. WESTCOTT, MANAGER

THE HOME DOCTOR.

Goose oil persistently applied for a few weeks will loosen stiff joints.

Celery tops and roots steeped in hot water makes an excellent tea to be taken by nervous persons.

Olive oil mixed with quinine and rubbed on the back and chest prevents cold settling on the lungs.

The moment pimples and cold sores appear on the face take a dose of citrate of magnesia which will cool [illegible] condition.

As soon as a cold sore appears wet the spot with camphor and cover with powdered subnitrate of bismuth. Camphor by itself will also lessen the inflammation.

Certain kinds of toothache can be relieved by painting the gums with a solution of one-half iodine and one-half glycerin. If there is a cavity in the tooth, saturate a small piece of absorbent cotton in oil of cloves, tincture of myrrh or laudanum and place it in the cavity.

Simplified Spelling.

Speaking of phenetic spelling, we certainly need it, from this story:

Little Willie came home from school one afternoon crying, and on being asked by his mother the cause he told his mother that he had missed a word in spelling and had been whipped by his teacher.

On being asked what the word was and how he spelled it Willie told her the word was pneumonia and that he had spelled it n-e-u-m-o-n-i-a.

The next day Willie came home crying even harder than the day before.

His mother, asking the cause, was informed that Willie had missed another word in spelling and had been whipped again for his mistake.

He told his mother that the word he missed was neuralgia and that he spelled it p-n-e-u-r-a-l-g-i-a.—Judge's Library.

Gravestone as a Barometer.

A gravestone in an Essex (England) churchyard shows strange moist spots on the approach of rainy weather. The rector states that it never fails in its forecasts, and he consults it daily.

The Golden Fleece.

It is not generally known that the insignia of the Golden Fleece conferred upon the first Duke of Wellington was that actually worn by Columbus, and as a special mark of Spain's gratitude the insignia was made hereditary, so that the present duke is the proud possessor of the star worn by the discoverer of America.

Herrings and Cod.

It takes a million barrels of herrings daily to supply the breakfast of the cod off the Norwegian coast.

New York's Foundations.

New York city in its foundation material represents the two ends of the great geological series — the archaean and quaternary — that is, crystalline metamorphic rocks, flanked and in part covered with the drift deposit and other evidence of the glacial epoch.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions made from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous services of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75 cents per bottle.

Take Hall's Family Pills for constipation.

The Daily Review

FRIDAY, MARCH 15, 1907.

IT WORKS WELL

The report of the inspector of prisons for Ontario contains a considerable amount of most useful and encouraging information regarding the probation system. In Massachusetts the system has been employed for twenty-seven years and the case of every criminal brought before any court is enquired into by the probation officer. They are authorized to recommend any person convicted being placed on probation. In case of arrest for drunkenness the probation officer obtains a statement in writing from the prisoner, setting forth what persons, if any, are dependent on him for support, whether it is the first offence within twelve months, etc. On the statement being verified the probation officer, who visits the cells at an early hour in the morning, has full discretion to release such prisoners so that they may go to their work and not lose the positions in which they have been employed. All persons who have had anything to do with police courts will recognize this as a most wise and salutary regulation. Frequently damage is done by a man being arrested for drunkenness and brought up in the police court and his name put into the newspapers. He may lose his position and be deprived of the means of supporting his family, while the latter are rendered unhappy and disgraced by the publicity of the degrading fact that the husband or father has been lodged in the cells with criminals.

The probation system also works well with criminals and it is proposed, if the necessary legislation can be obtained, to appoint a probation officer for each city of over 10,000 inhabitants and each county. A prisoner upon conviction and sentence may be committed to the care of such probation officer and his sentence suspended until such time and on such conditions as the court prescribes. In case of theft the condition will be made restitution of the property. Nothing, however, can be done in this direction until Dominion legislation is secured.

PEN POINTS

All aboard for Ottawa.

This is the season of maple syrup.

Make ready to clean up your premises

Two weeks from today will be Good Friday.

Are you talking up the speedy completion of the Trent Canal.

Open betting on horse races has been declared illegal. What about open betting on an election?

St Patrick's day approaches and remember you will have to observe it as a holiday whether you will or no.

The late Timothy Eaton left an estate valued at nearly $3,000,000. It certainly pays to advertise.

Sure signs of spring—girls out with skipping ropes and bankers skipping out and springing a sensation on the public.

The number of prisoners who escaped from Ontario jails during 1906 was 23. Of course they thought they had a right to skidoo.

Are you elected to go to Ottawa on the big canal deputation? If not, you must have a feeling like some ex-M.P.'s—a "stay-at-home" sensation.

Peterborough people are after the National Dairy Show. And at the same time they are complaining of watered milk!—Belleville Intelligencer.

The Easter bonnet season is dangerously near at hand and the prices are hazardously high—for the good and welfare of your money purse.

And again we rise to a point of order and ask if you are in order by neglecting to have your sidewalk cleaned. If so, the authorities will soon order you to go about it.

Hon. C. S. Hyman is still member for London and will have to resign all over again. He has done so twice and the next occasion will be, in baseball parlance, "three times and out."

Blessed be the man who on a slippery day has kindness in his heart sufficient to get a pail of sawdust or a pan of ashes and strew it on the sidewalk in front of his domicile; and thrice blessed be he who doeth the same in front of his neighbor's house when that neighbor neglects his duty.

Peterborough, after losing the Coates Company and the proposed dairy show should be thankful for a few small mercies. Its private bill was passed yesterday by the Private Bills' Committee and, wonderful to relate, not one of the several clauses was materially changed.

Peterborough has such ill-luck regarding the Coates Co. industry and the provincial dairy show, who knows but that the Ottawa Government may tell the big deputation next week with respect to the completion of the canal, that it has decided to move the ditch over Pou- [illegible]

Hyman's letter of resignation has been declared invalid because the necessary seal and signatures of two witnesses, were not affixed in the minister's personal presence. That's it. Mr. Hyman was not directly or personally concerned, so the Grits said, in the rampant bribery of the memorable contest, and he seems now to have proved an alibi, so far as complying with the law in a regular and proper resignation. Another case of not being personally concerned.

HAVE YOU A WEAK BACK?

DOES RHEUMATISM OR NEURALGIA TORTURE YOU?

Zam-Buk Will Give Speedy Relief.

Has the trying March weather brought on your Rheumatism or Neuralgia, or put an ache into that weak back of yours? If it has, remember that Zam-Buk rubbed well in over the aching part will give you speedy relief. Zam-Buk contains valuable herbal essences so refined and concentrated, so searching and so powerful, that a little rubbing enables them to penetrate diseased or inflamed muscles, nerves and tendons. That ache in limb or back means that the muscles and nerves are needing help. They have "caught cold"—the nerves are "starved"—irritated, inflamed. Your body is a wonderful machine and it sometimes needs a little lubrication. What proper lubrication does for an overheated machine bearing, Zam-Buk will do for a joint or lever or muscle which is inflamed, or heated, or sore, or aching, because of cold, neuralgia, rheumatism.

Mrs. John Sidstone, of Swan Valley, (Man.) says: "I have proved Zam-Buk to be a sure cure for rheumatism. It gave me such relief that I would not be without it in the house."

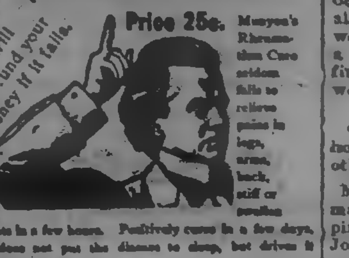
For cold in the chest, catarrh in the head, etc., Zam-Buk rubbed well to chest and forehead gives quick relief. Besides its uses as an embrocation, Zam-Buk heals chapped hands and cold sores, eczema, poisoned wounds, scalp sores, itch barber's rash, blood poison, pimples, boils, Spring eruptions, etc. It also stops bleedin and cures piles, fistula, etc. All druggists and stores at 50c a box, or from Zam-Buk Co., Toronto, for price. 6 boxes sent for $2.50 Send 1c stamp for postage of free trial box.

Peterboro' Artists Highly Praised

An enjoyable entertainment was given last Friday evening in the town hall, Norwood, under the auspices of Knox Mission Band of the Presbyterian church, under the direction of Mr. Cecil Carl Forsyth, who assisted by three of his pupils, viz., Miss M. Harrison of Keene, contralto, Miss A. Ivory of Omemee, soprano, and Mr. J. W. Mackie, of Peterborough, bass, also by Miss Maude L. Smith, principal of the elocution department of the Metropolitan School of Music, Toronto. The programme was rendered in a manner creditable to all. The numbers by Miss Smith were especially enjoyed. There was a good attendance, and the results financially were satisfactory.—Norwood Register.

C. S Osborne's furniture warehouse at Warkworth was burned the other day.

Mr. Allan Otty Cruikshank, for many years connected with the shipping firm of Wm. Thompson & Co., St. John, N.B., is dead. He leaves a wife and two sons.



RHEUMATISM

Price 25c.

I will refund your money if it fails.

Munyon's Rheumatism Cure seldom fails to relieve pains in legs, arms, back, stiff or swollen joints in a few hours. Positively cures in a few days. It does not put the disease to sleep, but drives it from the system. —MUNYON.

Serious Floods are Reported; Worst Freshets in Many Years

Fourteen Persons Are Drowned in Pittsburg.

Swollen Water Has Driven Hundreds From Their Homes to Higher Level—Ice Gorge Moving Towards the City—$3,000,000 Damage Already — Thousands of People Thrown Out of Employment.

Pittsburg, March 15.—The greatest flood in the history of Western Pennsylvania, West Virginia and Eastern Ohio, was experienced last night. At 7 o'clock the water reached a stage of 34.6 feet at Herr's Island, and 34.3 feet at Market street. The waters continue to rise steadily about two-tenths of an inch an hour.

At the head waters, the rivers are stationary. This crest of the flood is expected here. About midnight 35 feet was recorded, 13 feet above the danger mark.

At 4 o'clock yesterday afternoon the 30 miles ice gorge at Parker, Pa., broke, and it is moving toward the city. The immense gorge in the Clarion River also had started down stream. Both gorges, however, are old and the ice is soft. On this account their arrival is not expected to cause much damage.

The whole lower down-town district is under skiffs.

At the depot were thousands of people, a chaotic mass of humanity shouting and pushing in their effort to board these trains for Allegheny or the many suburbs adjacent to the city. Patrolmen in large numbers endeavored to bring some kind of order out of the situation, but without avail.

Trolley, elevator and telephone service was demoralized in different sections. Electric light plants in many downtown buildings were out of commission and candles or gas light was being used.

Within the last 36 hours, fourteen fatalities, directly due to the flood, have occurred.

The damage to perishable goods and property in the Pittsburg district alone will amount to $1,000,000.

At Connellsville, Pa., the damage to the coke region is estimated last night at $2,000,000.

More than 100,000 persons are temporarily out of employment. The flood directly affects over 2,500,000 people.

All railroads entering Pittsburg are crippled.

In the suburbs of Aspinwall, Sharpsburg, Etna and Millvale, more than 500 families are living in the second storeys of their homes.

Hundreds of persons are marooned in Pittsburg. Restaurants have been besieged all evening by persons unable to reach their homes, and every room in the hotels and boarding-houses have been engaged. There are not sufficient accommodations to take care of the people compelled to remain here.

MUSIC AND THE DRAMA

SHADOWS OF THE PAST.

"Shadows of the Past," Lincoln J Carter's great success, will be seen at the Grand Opera House, March 16th, matinee and night.

This play is founded on a point of old English law, which gives the right to a father of the sole guardianship of his child, after it has reached the age of seven. There is a large opportunity for the display of [illegible] dramatic action in this play, which is brought out very cleverly by an able and well balanced cast. Much pathos, sentiment quaint comedy and keen satire runs through the story. The plot is a strong one, well conceived and cleverly unravelled. Many of the characters are taken from actual life. The scenic investure is said to be much out of the ordinary and harmonizes beautifully with the fine lines of the plot.

Miss Julia Gray, who has played stellar parts for the past three seasons, will be seen with it, and if press reports are any criterion as to an actress's future, hers certainly will be strewn with roses.

SERGEANT KITTY

One of the best attractions of the year was the presentation of "Sergeant Kitty" at the Grand Opera House last night. Miss Helen Byron, the dainty lyric comedienne, who took the title role, and the excellent company supporting her, won for themselves a warm place in the hearts of the audience, a fact that was evidenced by the frequent outbursts of applause. A crowded house, that included the elite of Peterborough, greeted the performance, and they were pleased beyond measure.

"Sergeant Kitty" is a military comic opera, but unlike many of the productions of this nature, it does not depend altogether on the music to carry it along. While there are numerous tuneful melodies, there is also a well defined "plot" that gives scope for many hilarious situations, bright sayings and good jokes, in its unravelling. There is a military swing about everything and there are few dull moments. Helen Byron as Kitty La Tour was delightful. Her bright face, fascinating manner and vivacity of movement made her an instant favorite, and each time she appeared, she still further ingratiated herself into the hearts of the audience. James McElhern as Captain Jonquinaire was splendid in his part and could not be improved upon. He kept his auditors in constant laughter. The other leading rolls were excellently portrayed by Jack J Clark, as Lieut. Valliere, Chas. Welch as Lieut. De Morrilac, Carric Major as Gen. Dubois and Jack Hadaway as Celestine Brideaux.

The chorus was unusually pretty and sang with spirit. Of the many excellent musical numbers, "Love," sung by Kitty, "War" sung by the General, and "The One I Loved the Best Gave That to me," by the captain, were the greatest favorites.

The costumes and general stage embellishments were above the ordinary, and the production was one of the best of the season in every respect. It is to be hoped that Messrs. Turner will be able to bring several more attractions of equal merit to "Sergeant Kitty" before the theatrical season is over.

"Shadows of the Past," an unusually strong melo drama, is the attraction at the Grand tomorrow night and a large number will no doubt witness it.

SHE PREFERRED DEATH.

Two Weeks' Bride Ends Her Life With Poison.

Fredericton, N.B., March 14.—Mrs. R. L. Black, of this city, a bride of a fortnight, committed suicide yesterday by drinking carbolic acid. Her husband is a drygoods merchant here, and she herself was prominent in social church circles.

This tragedy is the end of a sad and unfortunate love affair. For eight years Black and Miss Minnie Blackmer were betrothed, and a few months ago the engagement was broken by Black, after he had betrayed the young woman.

Miss Blackmer has brothers, and when they learned the state of affairs they forced Black to marry her. The ceremony was quietly performed a couple of weeks ago, but the disgrace has so preyed upon the young woman's mind that twice she tried to kill herself. Her body was found lying across that of her infant, which she apparently had tried to smother.

Scotland Yard For Spain.

London, March 15.—King Alfonso has decided to revolutionize Spanish police methods and to establish a criminal investigation department, modelled on the English Scotland Yard. He has offered the position of chief of the reorganized force to Inspector Arrow, of the London force, with a salary of $5,000. It is stated that his Majesty was much impressed by the police methods when he was here. He has been assisted by Queen Victoria in framing his plans.

Villagers Save Homes In Fire.

Moorefield, March 15.—Householders formed bucket brigades and saved this village from destruction by fire yesterday when Schnider's grain elevator and cider mill was burned, cinders settling on the roofs of the houses.

FOR OVER 60 YEARS

An old and well tried remedy. — Mrs Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs Winslow's Soothing Syrup and take no other. Guaranteed under the Food and Drugs Act, June 30th, 1906. Serial Number 1098.

CURZON BEATS ROSEBERY.

Former Viceroy of India Elected Chancellor of Oxford University.

London, March 15.—Lord Curzon of Keddleston, former viceroy of India, was elected chancellor of Oxford University yesterday by 1,111 votes against 430 cast for Lord Rosebery.

Hitherto in the history of the university, chancellors had always been chosen without a contest. Although much influential pressure was exerted to persuade Lord Rosebery to accept the nomination, there was some adverse criticism of his acceptance in the face of the almost certain election of Lord Curzon, who is a Conservative, on the ground that it gave the contest a political aspect, Lord Rosebery being a Liberal.

The polling was held in the Sheldonian Theatre last evening, and a constant succession of trains brought eminent voters from all parts of the country, peers, members of the House of Commons, archbishops, bishops and other men who had attained prominence in all professions, the contest exciting the keenest interest.

New York Fog Bound.

New York, March 15.—Shipping in the harbor and the bay was badly hampered yesterday by a dense fog.

The ferry line to South Brooklyn was temporarily abandoned, and other ferries were badly delayed.

Traffic on many of the railroads, on which thousands of commuters travel to this city, was much delayed, and those arriving in Jersey City were subjected to further annoyance, while the pilots of the ferry boats crossing the river to New York groped about.

Ocean liners are hours overdue.

Quebec Parliament Closes.

Quebec, March 15.—The third session of the 11th Parliament of the Province of Quebec, was prorogued at 3.30 o'clock yesterday afternoon, by Lieut.-Gov. Jette, with the usual ceremonies.

Chinese Kill Missionaries.

Shanghai, March 15.—It is reported from Chinese sources that a Wesleyan mission has been destroyed at Ningpo, and that the missionaries were killed.

The "Sailor Boy" brand of canned goods are the best that are put up. They never fail to please. Try a few cans.

HUDSON BAY RAILWAY.

Hon. Frank Oliver Says Government Considers the Matter Urgent.

Ottawa, March 15.—The following announcement was made by Hon. Mr. Oliver yesterday:

"The Government is fully convinced of the propriety of giving the North-west an additional railway outlet by way of Hudson Bay at the earliest possible date. The Government believes that with the increase in production of the West, now in progress, such an additional outlet will be urgently needed as soon as a railway can be built, even if it were commenced at once.

"At the same time it realizes that public opinion throughout Canada could scarcely be expected at the moment, in view of the great obligations already incurred in connection with railway enterprises, to sanction the additional obligation that would be incurred by providing immediately for the construction of a railway to Hudson Bay, unless special provision were made to meet that obligation.

"It believes, however, there will be no objection from any quarter if the funds accruing from the disposal of pre-emptions in the three prairie provinces, under the terms of the proposed land bill, shall be considered as a provision in place of the land grant stated in the act, to meet the burden upon the credit of the Dominion as a whole, that must be assumed at an early date—if not immediately—if a railway is to be in operation to Hudson Bay in time to meet the urgent need that is now in plain sight for an additional and shorter railway route from the prairies to tide water."

Liverpool Grain and Produce.

Liverpool, March 14.—Close.—Wheat—Spot, firm; No. 2 red western winter, 6s 3d; No. 1 California, 6s 6d; futures, quiet; March, nominal; May, 6s 5½d; July, 6s 2⅜d.

Corn—Spot American mixed, new, quiet, 4s 5d; American mixed, old, steady, 4s 8d; futures, quiet; March, 4s 4⅛d; May, 4s 5⅜d.

Bacon—Short rib, quiet, 52s 6d; long clear middles, light, quiet, 52s; do., heavy, quiet, 51s 6d; shoulders, square, dull, 41s 6d.

Lard—Prime western, in tierces, weak, 46s 6d; American refined, in pails, weak, 47s. Rosin—Common, steady, 10s 6d.

New York Dairy Market.

New York, March 14.—Butter—Steady; unchanged; receipts, 4873.

Cheese—Firm; unchanged; receipts, 811.

Eggs—Easier; receipts, 27,901; state Pennsylvania and near-by brown and mixed extra, 18½c to 19c; firsts to extra first, 17½c to 18c; western firsts, 17½c (official price 17½c); seconds, 17¼c.

CATTLE MARKETS.

Cables Unchanged—Chicago Prices Are Steady to Firmer.

Liverpool, March 14.—Liverpool and London cables are easier at 11c to 13½c per lb., dressed weight; refrigerator beef is quoted at 9¼c to 9½c per lb.

Toronto Live Stock.

Toronto, March 14.—Receipts of live stock at the City Market since last Tuesday as reported by the railways were 126 car loads, composed of 2,002 cattle, 1,200 hogs, 488 sheep and lambs with 185 calves.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

Gray's Syrup of Red Spruce Gum

For Coughs and Colds.

Exporters.

Several loads of light exporters were on sale, which sold from $5 to $5.25 per cwt., and one lot of 13 choice, 1230 lbs. each, sold at $5.35 per cwt. Exports bulls sold at $3.75 to $4.35 per cwt.

Butchers.

Prime picked lots, $4.85 to $5, and a few brought $5.25, but altho they were bought for butcher purposes they were really light exporters. Loads of good sold at $4.50 to $4.80; medium, $4.25 to $4.60; good cows, $3.75 to $4.15; common cows, $2.75 to $3.50; canners, $1.50 to $2; bulls, $2.50 to $4.

Milch Cows.

Well up to one hundred cows were on sale on Wednesday and Thursday. The demand from Montreal having eased off, and the large offerings together had the effect of causing a slump of about $10 per head in prices, causing many drovers to drop profits on other stock. The bulk sold at $30 to $45 each, altho quite a few were bought at higher prices on Wednesday, as will be seen by sales given below. Several cows sold at $50, $55, and one cow sold up to $64. But all of these best cows would have brought $10 per head more one week ago.

Veal Calves.

Out of nearly 200 veal calves offered there was not one prime quality new milk-fed calf in the whole bunch. Prices ranged from $3 to $7 per cwt., and the latter price was high when quality is considered. A prime calf would easily bring $7.25 to $7.50, but there were none of this class on the market.

Sheep and Lambs.

The quality of the bulk of the lambs was far from being good, the bulk of them being rams, had to be sold at a lower price. Picked ewes and wethers are worth $7.25 to $7.50 per cwt., but they are scarce. Wesley Dunn reports prices as follows: Export ewes, $4.75 to $5.25; rams and cull sheep, $3.50 to $4.50; lambs, $6.50 to $7.25; common lambs, $5.50 to $6 per cwt.

Hogs.

Selects sold at $6.80 to $6.85; lights and fats at $6.55 to $6.60 per cwt.

East Buffalo Cattle Market.

East Buffalo, March 14.—Cattle—Receipts, light; good demand and steady; prime steers, $5.60 to $6; shipping, $5 to $5.50.

Veals—Receipts, 200 head; active and 25c lower; $4.25 to $9.

Hogs—Receipts, 1700 head; active and a [illegible] to $6.85; stags, [illegible]

Sheep and lambs—Receipts, 5000 head; steady; sheep, active; lambs, slow; lambs, $5 to $8.10; yearlings, $6.75 to $7; wethers, $6 to $6.25; ewes, $4.75 to $5.60; sheep, mixed, $3 to $6.50.

Chicago Live Stock.

Chicago, March 14.—Cattle—Receipts about 5000; market steady to strong; plain to best steers, $4.25 to $6.85; heifers, $2.65 to $5.25; cows, $3.85 to $5; bulls, $3.25 to $4.60; calves, $2.50 to $7.25; stockers and feeders, $2.50 to $5.25.

Hogs—Receipts, about 20,000; market strong to 5c higher; choice heavy shipping, $6.92½ to $6.97½; light butchers', $6.85 to $6.92½; light mixed, $6.85 to $6.95; choice light, $6.90 to $6.95; packing, $6.50 to $6.87½; pigs, $4.50 to $6.50; bulk of sales, $6.85 to $6.90.

Sheep—Receipts, about 13,000; market steady; sheep, $5.25 to $6.25; lambs, $7 to $8.00.

If Varied.

The late Judge Saunders of North Carolina was noted as an angler, but he had a poor memory as to the weight of the fish he had taken. On one occasion a friend, trying to entrap him, said, "Say, judge, what was the weight of that big catfish you caught the other day?"

The judge turned to his waiter and said, "Bob, what did I say that catfish weighed?"

"What time yesterday, boss—in de mawnin', at dinner or after suppah?"—St. Louis Republic.

Those Useless Questions.

How many of our words are absolutely superfluous, serving no end but the waste of time.

A man stood before a mirror, his face well lathered and his razor in hand.

In came his wife. She looked at him and inquired, "Are you shaving?"

"No," he replied fiercely; "I'm blacking the kitchen range. Where are you—out driving or at the matinee?"—Woman's Home Companion.

Hope Ahead.

"Dis paper," said Weary Walker, "sez dey's quite a few people dat t'inks it's unlucky to begin work on Friday."

"Well, dat's a good beginnin'," remarked Ragson Tatters. "Mebbe a'ter awhile people 'll be dat sensible about ev'ry day in de week."—Boston Transcript.

His Observation.

"We're glad to welcome you into our little family, Mr. Slimm," said Mrs. Starvem. "Our boarders almost invariably get fat."

"Yes," replied the new boarder, "I've noticed the same thing in most boarding houses. It's cheaper than lean meat, isn't it?"—Philadelphia Press.

A Wise Fellow.

Wigg—The last I saw of you Youngpop was talking you to death about his baby. How did you get rid of him?

Wagg—Oh, some fellow came along who had just bought an automobile, so I introduced them and made my escape.—Philadelphia Record.

Stolen Goods Were Recovered

Found in Corner of Fence Near Slaughter House—Two Boys Arrested

Special to the Review.

Havelock, March 14th.

The goods stolen from F. C. McMaster on the morning of the 2nd inst., were nearly all recovered on Monday afternoon, March 11th. By the help of information from some unknown party, Mr. Flood, an employee of Mr. McMaster, found the effects in a corner of a stump fence in the neighborhood of Mr. W. Hart's slaughter house. Three youths were thought to have committed the deed, two of whom were arrested, but the other, on whom suspicion rested the strongest, eluded Constable Graham by escaping from the back door as the officer entered the front and in company with another lad, who had no apparent reason for running away, left town. One of the youth's cleared himself, and was released, and the other was held until Tuesday morning when he also was released.

The services of a detective have been engaged on the case and it is reported that the missing youth has been found.

DAY OF ORANGEISM.

The annual celebration of the 12th July for East Peterborough, will be held in Havelock this year. Mr. J. A. Sexsmith, of Belmont, is chairman of the managing committee, and Mr. R. J. Graham of town, is the secretary.

Everyone in town is looking forward to the railway assembly which will be held in the town hall, Havelock, on Easter Monday, April 1st. The receipts are to be given a committee who will use them improving the decorations of the hall.

Mr. David Deck, of Belmont, died on Tuesday, at the age of 37 years, from heart trouble after a few days illness. The funeral took place to the Norwood cemetery on Wednesday afternoon. He leaves a wife and two children to mourn his demise.

AN ACCIDENT.

Mrs. Thos. Jackson, of town had her arm head severely bruised on Monday afternoon last as the result of falling into a trap door leading to the cellar, which had been left open.

Miss Louisa Smith, of Norwood, was in town on Tuesday.

Mr. Jas. Gilbert, who was operated on for appendicitis, is recovering.

SMALL FIRE.

A small blaze occurred at Mr. S. J. Davis' house on Wednesday morning burning a part of the roof and upstairs. By the assistance of a number of men near by the fire which originated in the chimney, was soon put out.

A meeting of the Ladies' Auxiliary of St. John's church, was held at the rectory on Wednesday afternoon, when the usual routine of business was transacted.

Rev. Mr. Langfeldt, of Peterborough, conducted Lenten services in St. John's church on Wednesday night, the text being "The Judgment day."

Mr. Robert Fairbairn, of town, left for the Northwest on Tuesday night. Mr. Fairbairn took with him a car load of horses which he intends selling when he reaches the west.

OTHER NOTES.

Mrs. Jas. Fowler, sr., of Peterborough, is the guest of her son, Mr. J. E. Fowler.

Miss Barrett is spending a few weeks with friends in Toronto.

Mrs. Alex Rose and daughter, Miss Bessie, on Tuesday for Toronto where they will spend a couple of weeks.

Mr. Fred Milne, of Toronto, formerly of town, is the guest of Mr. Leonard Bennett.

Mr. Jesse Cole, employee of the C. P.R. at Kenora, is visiting his family here.

Rev. Mr. Burns, of Hastings, and Rev. H. Caplan, of town, will exchange pulpits on Sunday next.

A WEDDING.

On the 6th inst. Miss Sarah Jane Parcels, of Belmont, daughter of Mr Richard Parcels, was united in marriage to Mr. Jas. Rutherford, of Allen's Creek, Man., the ceremony being performed by Rev. J. H. Locke.

On Wednesday Mr. Cook, of Campbellford, shipped 19 horses to the Northwest from Havelock.

Mr. and Miss Devlin, of Eganville are visiting friends in town.

OBITUARY

MRS. Wm. MILLER.

The death occurred yesterday afternoon at five o'clock, of Mrs. Wm. Miller, at her late residence, 124 Dublin-st., after an illness of only a week's duration. Her death was directly due to the effects of lagrippe. The deceased's maiden name was Jane Lonsdale. She was born in Port Hope seventy years ago. She was married to her surviving husband 50 years ago in Port Hope. They removed to this city fifteen years ago, after residing many years in Omemee, and have lived here ever since. The late Mrs. Miller was a member of the George street Methodist church. She was greatly respected and highly esteemed by a wide circle of friends, who will learn with deep regret of her departure.

Besides her husband four sons are left to mourn her loss. They are Wm. L., of Bangor, Maine, G. M., of Toronto, Stephen M., of Arizona and Walter L., of Chicago, Ill. One brother and two sisters also survive her. They are John F. Lonsdale, of New York city, and Mrs. J. W. Wallis, of Port Hope, and Mrs. Flintoff, of Oshawa.

The funeral will take place on Monday morning to the 11.45 G.T.R. train to Port Hope, where interment will be made.

RICHARD FOSTER

The [illegible] occurred at ten minutes to [illegible] o'clock this afternoon, of Richard Foster, of this city, who has for the past four years conducted a parcel delivery business in this city. Prior to going into the express business, Mr. Foster was employee at the G.T.R. station. The late Mr. Foster had been ill since October with cancer. He was 60 years of age and was born in Port Hope. He moved from Port Hope to Lakefield, but for over twenty years had resided in this city. In 1873 he was married to Agnes Telford in Port Hope, who still survives him. The deceased was a highly respected resident of Peterborough. He was a member of All Saints church. In politics he was a staunch Conservative.

Besides this wife, one son, John, who resides at home, is left to mourn his loss. Mr. Thos. Foster, of this city is a brother of deceased and Mrs. Jas. Young, of Toronto and Mrs. G. Stevens of Barrie, are sisters.

The late Mr. Foster was a member of the Ancient Order of Foresters and the Woodmen of the World.

The funeral will take place Sunday afternoon at three o'clock from the family residence, 250 Charlotte street, to the Little Lake cemetery.

INFANT EXPIRES.

The many friends of Mr. and Mrs. Thos. McDonough, 85 Gilmour-st., will sympathize with them in the death last evening of their infant son Leonard, after a brief illness from bronchitis. The child was only two months old. The funeral took place this afternoon from the family residence to the Roman Catholic cemetery.

Passed Away in Rochester

Death of Mr. Ed. Turner, Former Resident of Peterborough

Intelligence was received in the city at noon today of the death in Rochester, N.Y., of Mr. E. H. Turner, a brother of Messrs. Marshall and Leslie Turner, of this city, and also a former resident of Peterborough. Death was due to typhoid fever, from which deceased had suffered for a few days. Mr. Turner is survived by a wife, three daughters, four sisters and five brothers. During his residence in Peterborough Mr. Turner conducted the Peterborough Music Store and was well known and highly respected here. He was about 42 years of age.

The funeral arrangements have not yet been made.

The Studio Has Not Been Sold

Mr. Louis Mendel Contradicts a Rumor

Mr. Louis Mendel, proprietor of the Mendel Photograph Studio wishes to deny a rumor that has been going the rounds that he has sold out his business. There is no truth, whatever, in the report. Mr. Mendel is doing a fine business and has not the least intention of disposing of his studio.

PERSONAL

Mrs. C. B. McAllister left this morning for Winnipeg where she will join Mr McAllister. They will proceed to the coast where they will join Mr.

Lakefield News: Rev. Canon Davidson, of Peterborough, was the preacher at the Lenten services in St. John's church on Firday... Mrs. R. Carter spent a few days in Peterborough this week visiting friends.

Mayor Refers to Snow Cleaning

By-law is Being Enforced—His Position on the Matter

His Worship Mayor McWilliams wishes the people to clearly understand his position in regards to the snow cleaning bylaw. The mayor is endeavoring to enforce the bylaw, both as mayor of the city in the interests of the city, and as a police commissioner. If it is not properly enforced it is not his fault as he issued strict instructions to the police.

In speaking to the Review this morning the mayor said,—"The matter was brought up in the council meeting and the council instructed me to have the bylaw enforced. Prior to that the Chief of Police had notified all the merchants to clean the ice off their walks. Owing to the fact that the weather had again turned cold further action was deferred for a week. His Worship the Mayor, then instructed the Chief to start in the business section of the city from Charlotte street to Brock street on George street, and again issue orders to shovel the sidewalks. If no attention was paid to the order the Chief was to bring before the Magistrate all who had failed to clean their walks, after the second warning. When that had been done it was the intention to extend the area taking in the entire business section and express instructions were given to omit no one and especially the city officials who neglected to keep the walks in front of city property cleaned.

Then when the business section was completed the Mayor instructed the Chief to continue the order to all the leading thoroughfares of the city until all the principal streets were free of ice.

As to the city's property not being cleaned, only two cases could be mentioned now, viz., the parks. As for the ice in front of the fire hall he impertinent to order it removed and the firemen to put wheels on the trucks before they thought [illegible]. The Central Park will be [illegible] section is done.

He Has Secured Office Premises

Assistant Inspector of Weights and Measures Now Installed on Water St.

Mr. Geo. H. Howson, assistant inspector of weights and measures, has secured suitable office quarters in the premises owned by Mr. Frank Mason, at the corner of Brock and Water streets, formerly occupied by Jewitt & Son, grocers. Mr. Howson will occupy his new quarters at once. He is also immigration agent for Peterborough and district, for the federal government. Mr. Howson reports that he has many inquiries from farmers and others, for help, but so far the prospect of adequately meeting the demand is not bright.

CLARKE'S APPEAL WAS DISMISSED

Clarke vs. Union Stock Underwriting Co. Case is Settled

Clark vs. Union Stock Underwriting Company of Peterborough — Judgment (G.A.B). on appeal by James D. Clarke, for plaintiff from order pronounced by a Divisional Court on Dec 4, 1906 (8 O W.R., 757), setting aside the judgment at the trial in favor of the plaintiff in an action, under two promissory notes, and directing a new trial, with leave to defendants to amend by putting up new defences. Appeal dismissed, with costs. G. H. Watson, K. C., and S. T. Medd (Peterborough) for plaintiff. H. E. Rose for defendants.—Osgoode Hall.

MUSICAL EVENT EASTER MONDAY

Grand Concert in Charlotte St. Sunday School in the Evening

A grand musical concert will be given in Charlotte street Sunday school building on Easter Monday night. This concert will be given by the Conservatory of Music, and was to have taken place in the Grand opera house, but owing to another attraction having been booked, it was impossible to do so. Mr. J. J. Turner tried his utmost to have a change of dates made, but he was not able. The Young Men's Guild of Charlotte Street Church took hold of the enterprise and it will be given under their auspices. Some outside talent will be on the programme, including Miss Adamson, violin soloist and Mr. Henry Lautz, tenor, of Toronto. The Peterborough Conservatory Madrigal Club will also take part.

Milton Devitt, of Burlington, was buried under a straw stack for twenty minutes and died shortly altr being taken out.

Changes Announced in The Peterborough Rangers

Rev. Canon Davidson, Chaplain, is Promoted to the Honoray Rank of Major.

Several important changes in the 57th Regiment, Peterborough Rangers, are announced in the last orders from militia headquarters at Ottawa. The following items of local interest appear:—

Promoted to Honorary Rank of Major of the REV. CANON DAVIDSON 57th Regiment.

57th Regiment, Peterborough Rangers—To be Major, Captain E. B. Clegg; vice, Major L. M. Hayes, who is permitted to resign his commission, 25th January, 1907

To be Paymaster, with honorary rank of Major, under the provisions of paragraphs 46 and 47, King's Regulations and orders for the Militia, 1904, Louis Martin Hayes, esquire, vice Paymaster and honorary Major R. M. Dennistoun, who is permitted to retire, retaining rank, 25th January

Chaplain and Honorary Captain the Reverend J. C. Davidson is granted the honorary rank of Major, under the provisions of paragraph 22, King's Regulations and Orders for the Militia, 1904, [illegible] January, 1907.

Provisional Lieutenant R. M. Glover is permitted to retire, 19th January, 1907

Peterborough May Yet Get Big National Dairy Show

Fuller details of the dairymen's meeting in Toronto yesterday reveals the fact that Peterborough need not grieve over the apparent loss of the show. Apparent is used advisedly as it is not at all certain that the National Dairy Show will be held in Toronto. In the first place the dairymen put a rider on their decision in favor of Toronto which provided that St. Lawrence market is satisfactory.

On the other hand, the Minister of Agriculture, as well as all the dairymen in the province, realize that Peterborough is by far the best place in the province, both from location and interest in the business, to say nothing of the superior offer made for accommodation.

Hon Mr. Monteith personally does not favor a wholly dairy show. His reasons are that breeders of dairy cattle are very reluctant about taking their cattle out in mid-winter. They do not exhibit at the live stock shows and he did not think they would at a dairy show held in January. He does not favor holding a show in a city where the people would not enthuse over it or even attend it. In Toronto the people would not do this. Besides farmers are reluctant to leave home in the winter and especially would they fail to go to Toronto so soon after the National Exhibition in the fall.

At any rate there will be no grant towards the dairy show this session. The Government has made one large grant for the dairy industry this year and it is not likely another one will be made. If the Government does not assist there will be no show, as the dairymen are, to a large extent, dependant upon that grant of $4,000. Next year if the show goes on it may be changed to Peterborough.

Bold Thief Enters Public School; Teachers Desks Were All Opened

About Ten Dollars Taken From the Rooms in Ashburnham School—Many Scholars Had Just Paid in Their Fees—No Clue to the Culprit.

The East City Public School was entered last night. As a result between five and ten dollars of the children's fees was stolen.

This morning about 6 o'clock when the caretaker, Mr. Fred Norris, went to the building to attend to the furnace, he was surprised to see the door leading into Principal Kelly's room standing open. This was not usual, as the doors are always kept shut after school hours. Mr Norris then entered and found that the drawer in the principal's desk had been pried open. From the desk to one of the windows there were strewn burnt matches. The thief had evidently gained ingress through a window, as there was one on which the lock was broken, whilst the others were all securely locked.

The caretaker next proceeded to investigate the other rooms, and in every room were strewn burnt matches. The teachers' desks had all been opened, and what was worth anything abstracted therefrom. There was no money in Mr Kelly's desk, but in the other desks there was some. The scholars had just lately paid their fees, and a sum in the neighborhood of ten dollars (in five and ten cent pieces) was stolen. As soon as Mr. Kelly heard of the robbery he informed Inspector Walker, who notified the police. The thief evidently was well acquainted with the school. Entrance was likely made during the night, as the burnt matches would show that it was by the light of the matches that the intruder found his way.

The police have the case in hand, and all efforts to capture the culprit will be made. There is no clue as to the perpetrator.

Brainstorm Report re C. G. E. Published in Toronto Star

Peterborough Never Feared Losing These Works—Wished Only to be Put on the Same Footing as Other Cities—Request Was Granted.

The Toronto Star was issued last night with a fake sensational article in connection with this city's private bill. The Toronto journal stated that Peterborough wanted to give the Canadian General Electric Co. a bonus for fear they would move to Toronto or Windsor, and worst of all the Mayor was credited with having said so.

It is surprising that such brainstorm articles could get into the Toronto papers. Mayor McWilliams this morning flatly denied the Star's story. What he stated when speaking to the Canadian General Electric Co's. clause was that Peterborough only wish to be placed on the same footing, so far as assessment was concerned, as the township of North York. The Mayor also pointed out that the Canadian General could enlarge their works at either Davenport, which is just outside of Toronto, or at Peterborough, and this city wished to give the company the same treatment as North York could.

As for being afraid of the company moving away is the last thing any citizen, or member of the company ever thought of. In fact the Canadian General have already started extensions which will cost $200,000.

The Toronto Star went astray while clause thirteen of the bill was under discussion. This clause provided for a fixed assessment on the C.G.E. of $150,000 for a period of twenty years, from 1911, the expiration of the prefixed assessment.

In discussing this question Mayor McWilliams compared this city's privileges to those of Davenport, already referred to, and to the very favorable terms the Westinghouse got at the hands of Toronto. Peterborough only asked for a fair show. The company was represented by Mr. E. A. DuVernet, K.C., and Mr. John A. Patterson, solicitor, and Mr. E. G. [illegible], superintendent of the Peterborough Works. [illegible]

The Private Bills committee discussed the different points at some length and finally Mr. J. P. Downey, M.P.P., of Guelph, moved that the C. G.E. be taxed for $150,000 for ten years instead of twenty years, and that school taxes be paid on the whole assessment. This carried and the business was over.

Miss McGiverin

BEGS TO ANNOUNCE HER FIRST OPENING DISPLAY OF

Broke Her Arm on Stewart St.

Mrs. H. R. Patterson Fell on the Sidewalk While Going Home

This morning while Mrs. H. R. Patterson of 183 Stewart street, was going home she slipped on the ice on the sidewalk and fell breaking her arm. She had to be assisted home and Dr. Gray was called to set the fracture. Mrs. Patterson is doing as well as can be expected.

Two Maps Drawn by Chinese Boys

Are on Exhibition in Mr. Nugent's Drug Store Window

Two maps in Nugent's drug store window are attracting a good deal of attention today. These maps are of China and were drawn by Chinese boys in Miss Quinn's class at Wuchang, Central China. They are exceedingly well done, and one would almost think they were printed, rather than drawn by amateurs.

One is a colored map with each province in a different color. The other one is an outline map of China. The Chinese lads are certainly experts in drawing and their showing reflects great credit on their teacher, Miss Quinn, who has these boys under her direction. It is doubtful whether there are any local scholars who can draw a map of Canada as well as these Chinese lads have done of their country.

Have Returned From Fishing Trip

Local Anglers Had Good Luck at Eagle Lake

Messrs. Chas. Butcher, T. Butcher, Frank Barnett, Albert Mitchell and Geo. Hooey returned yesterday afternoon after spending two weeks on a fishing expedition to the back country. This is the first year this party has gone back in the winter, and they enjoyed themselves very much. They were successful in obtaining about 200 trout. They angled in Eagle Lake. The weather was very suitable for [illegible]. There are lots of snow in the back country. The anglers report hearing a wolf during the night, but they failed to see it.

Cambridge Again Wins Boat Race

Special to the Review.

Putney, Eng., March 16. — Cambridge won the annual boat race over Oxford today by 4 1-2 lengths. The time was slow.

Are High Class Entertainers

Mr. and Mrs. Kylie of the City are Well Spoken of in Millbrook

The Millbrook Reporter, speaking of the performance of Mr. and Mrs. Kyle of this city, at the Public Library concert there says:—

The entertainment given in the town hall on Tuesday evening, under the auspices of the Public Library, was fairly well patronized and all who attended were pleased with the excellent programme as rendered by Mr. and Mrs. Kyle, high class entertainers of the city of Peterborough. The programme in part consisted of comic songs by Mr. Kyle who was encored after each selection and each time responded with something bright and catchy. In their dramatic selections Mr. and Mrs. Kyle proved conclusively their ability to delight an audience. They deserved the hearty applause that was given them. Mr. W. Donnelly assisted very much in the programme by well rendered comic selections from one of Edison's phonographs kindly loaned by Mr. G. Duncan. The Public Library nets a nice amount from the proceeds of the entertainment.

Mr. and Mrs. Kyle have also engagements booked for the T.A.S. concert at Keene and the I.O.F. concert at Havelock.
